Message
from the
Chairman & CEO

We have been
delivering Technology
Solutions over decades.
We now transform our
vision to delivering
strategic solutions and
enhance value to
stakeholders.

Dear Members,

On behalf of the Board, I thank each of our stakeholders for having reposed confidence in the Management of the Company during the year 2020-21.

During the year under review, we had two significant events affecting our activity (a) CIRP Process between 21st May 2020 and 08th January 2021 (b) Covid-19 Pandemic.

The Company was handed over to the board by the resolution professional on the 08th January 2021.

I thank all the people who have contributed to bringing back the company from the CIRP Process and acted in the interest of the company and have given the much necessary push to the resolution of the proceedings.

The company has learnt from the experience that relationships built over the years have made a difference in turning the adverse situations to solutions.

To begin with the board had to quickly adhere to the statutory compliances with the Stock Exchange and also complete the Annual General Meeting of the financial year 2019-20.

The board also discussed and came up with a decision to change the name of the company from **Cybermate Infotek Limited** to **Orchasp Limited**.

We are now re-building the teams, operations and in a new world post pandemic and would raise to the occasion with the cyber security services, health care platforms and other platforms.

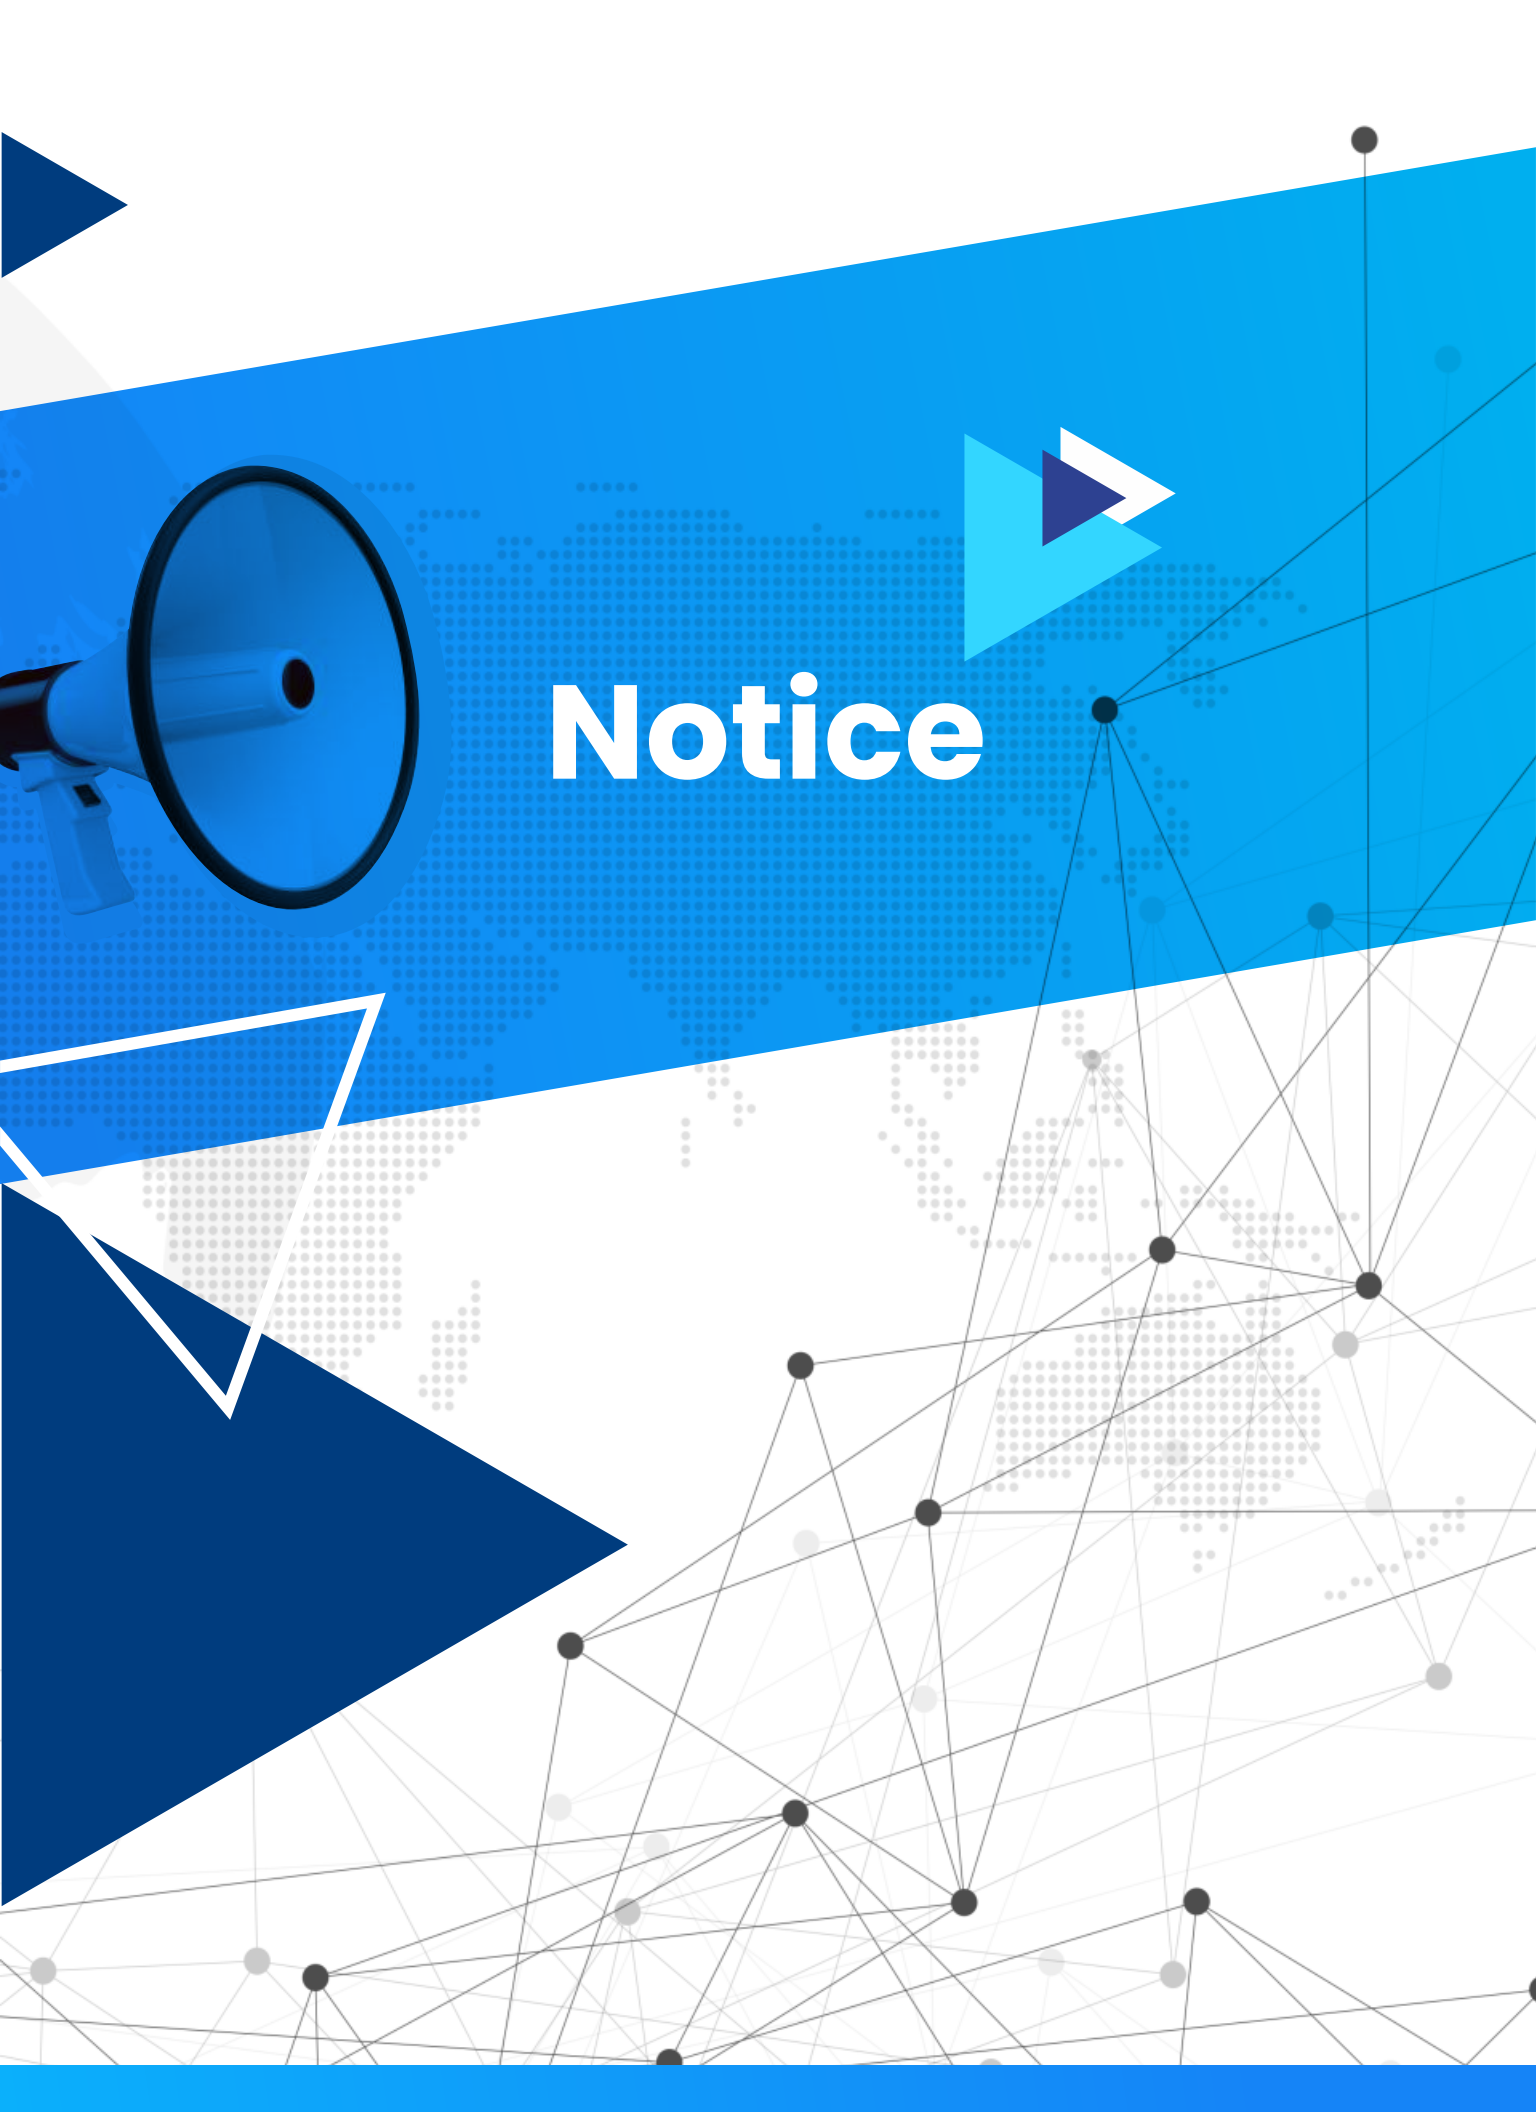

We thank you for the confidence reposed in us and hope to present improved performance in times to come.

With best wishes

P.C. Pantulu
Chairman.

Remuneration Policy

The Remuneration Policy of the Company is designed in a way that attracts talent, motivate in order to retain manpower and to improve productivity by creating a cohesive work force, encouraging initiatives, personal growth and team work, and inculcating a sense of belongingness and nurtures the willingness to involve in the providing the best of their abilities, besides offering appropriate remuneration packages and superannuation benefits. The policy reflects the Company's objectives for good corporate governance as well as sustained long-term value creation for shareholders.

The Nomination & Remuneration Committee (NRC) determines individual remuneration packages for Directors, KMPs and senior Officials of the Company taking into account, factors it deems relevant, including but not limited to market, business performance and practices in comparable Companies, having due regard to financial and commercial health of the Company as well as prevailing laws and government/other guidelines. NRC consults the Chairman of the Board as it deems appropriate. Remuneration of the Chairman is recommended by NRC to the Board of the Company.

Applicable:

This Remuneration Policy applies to the whole of the Company including directors, senior management including its Key Managerial Personnel (KMP) and other employees of the Company.

Guiding Principle:

The guiding principle is that the remuneration and the other terms of employment should effectively help in attracting and retaining committed and competent personnel. While designing remuneration packages, industry practices and cost of living are also taken into consideration.

Statutory Requirements:

- Section 197(1) of the Companies Act, 2013 provides for the total managerial remuneration payable by the Company to its directors, including managing director and whole-time director, and its manager in respect of any financial year shall not exceed eleven percent of the net profits of the Company.
- Section 197(5) of the Companies Act, 2013 provides for remuneration by way of sitting fee to a director for attending meetings of the Board of Directors and Committee

meetings or for any other purpose as may be decided by the Board.

- The Company with the approval of the Shareholders and Central Government may authorise the payment of remuneration exceeding eleven percent of the net profits of the Company, subject to the provisions of Schedule V of the Companies Act, 2013.
- The Company may with the approval of the shareholders authorise the payment of remuneration upto five percent of the net profits of the Company to its anyone Managing Director / Whole Time Director / Manager and ten percent in case of more than one such official.
- The Company may pay remuneration to its part-time directors, other than Managing Director and Whole Time Director upto one percent of the net profits of the Company, if there is a managing director or whole-time director or manager and three percent of the net profits in any other case.
- The net profits for the purpose of the above remuneration shall be computed in the manner referred to in Section 198 of the Companies Act, 2013.

Directors:

As per the policy followed by the Company since inception, the non-executive directors are paid remuneration in the form of sitting fees for attending Board and Committee meetings as fixed by the Board of Directors from time to time subject to statutory provisions. Presently, sitting fee is Rs. 2,500/- per Board meeting and per Committee meeting per Independent and Non-Executive Director on Board of the Company.

Remuneration of Whole Time Directors including Managing Director reflects the overall remuneration philosophy and guiding principle of the Company. At the time of considering the appointment and remuneration of Whole Time Directors, the members of the Nomination & Remuneration Committee (NRC) consider the pay and employment conditions in the industry, merit, seniority of the person and the payment capacity of the Company.

The NRC while designing the remuneration package, considers the level and composition of remuneration to be reasonable and sufficient to attract, retain and motivate the person to ensure the quality required to run the Company successfully.

The NRC while considering a remuneration package must ensure a balance between fixed and performance linked variable pay reflecting short and long term performance objectives appropriate to the working of the company and its goals.

The NRC considers that a successful Remuneration Policy must ensure that some part of the remuneration package be linked to the achievement of corporate performance targets and a strong alignment of interest with stakeholders.

The term of office and remuneration of Whole Time Directors are subject to the approval of the Board of Directors, shareholders and the limits laid down under the present applicable sections read with relevant rules of Companies Act, 2013 and as modified from time to time.

The Independent Directors shall not be entitled to any stock option and may receive sitting fees for attending meetings of the Board or

Committee thereof or for any other purpose as may be decided by the Board and profit related commission as may be approved by the members. The sitting fee to the Independent Directors shall not be less than the sitting fee payable to other directors.

Reward principles and objectives:

The Company's Remuneration Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under section 178 of the Companies Act 2013, inter alia principles pertaining to determining qualifications, positive attributes, integrity and independence etc.

Reward Policies:

Remuneration packages for Whole Time Directors are designed subject to the limits laid down under the Companies Act, 2013, to remunerate them fairly and responsibly.

The Whole Time Directors' remuneration comprises of salary, perquisites and performance-based commission / reward apart from retirement benefits like P.F., Superannuation, Gratuity, etc. as per Rules of the Company.

Remuneration also aims to motivate personnel to deliver Company's key business strategies, create a strong performance-oriented environment and reward achievement of meaningful targets over the short and long term. The Whole Time Directors are entitled to customary non-monetary benefits such as company cars, furnished accommodation, health care benefits, leave travel, communication facilities, etc. Their terms of

appointment provide for severance payments as laid down under relevant sections of the Companies Act, 2013.

Key Managerial Personnel (KMP) Senior Management:

Appointment of KMP & senior management and cessation of their service are subject to the approval of NRC and the Board of Directors. Remuneration of KMP and other senior management personnel is decided by the Managing Director (MD) on the recommendation of the Whole Time Director concerned, wherever applicable, broadly based on the Remuneration Policy in respect of Whole Time Directors. Total remuneration comprises of:

1. A fixed base salary - set at a level aimed at attracting and retaining executives with professional and personal competence, showing good performance towards achieving Company goals.

Management Discussion and Analysis

I. Our Business

Orchasp Limited is a conventional IT Services firm known for its bespoke software services. Our innovative and cost-effective services ensure our customers gain competitive edge and remain on par with cutting edge technologies. Our focus remains on maintaining quality standards in our key deliverables. We ensure to deliver best-of-breed technological solutions to enable our customers to meet their software development requirements. We are a public limited company based in India, and have our registered corporate office at Hyderabad, Telangana. Our company is listed on the Bombay Stock Exchange (BSE).

Our services include, compiling and selling products for general IT use and domain specific solutions. Some of the services we provide are listed below:

- System integration services
- Network & Surveillance
- Product assembling and marketing
- Soft selling third party products
- Assembling business platforms
- Analytics
- Mobile applications
- Cloud-based solutions
- BPO
- Healthcare
- Telecom
- Engineering
- Energy and retail platforms.

We at Orchasp administer projects on web and web-related technologies. Our objective is to bring together business and technology

strategies so as to focus on reorienting and refocusing on gaining ground. We rely on our industry experience and technology expertise to effectively develop products and create next-gen solutions that meet our customers' evolving business challenges. Having faced quite a few challenges due to our conventional approach and services, we have conceptualized to the "Rebuild-Reform-Reinvent" model, and the changing technology landscape puts us in a position to seize the opportunity and initiative.

The ways businesses are run differ from country to country and from business to business. When people find new approaches to old problems, create solutions by combining cultural perspectives and learn to see issues from the viewpoint of others, businesses are enhanced. Despite the odds, the Indian economy emerged and was able to accelerate growth out of its own potential. Improved political reforms, reduced trade barriers, and enhanced workforce education, reduction in regulatory burden and business costs have contributed to this emergence.

Mobile innovation has taken over today's emerging technologies and thus remains the centre of huge digital transformation for organizations, both small and big. Digital technology business is outpacing traditional business growth rapidly and this strengthened India's consumer economy and the Indian government's initiative for digitization. We entered the business of smart enterprise through a multitude of digital technologies in order to continue to provide conventional IT products, services and solutions, Internet of Things (IoT),

Social, Mobile, Analytics and Cloud (SMAC), Digital and Platform.

Overview of the Industry

In FY 2020, the global market for software and services is estimated to have grown to \$1.4 trillion. IT Services is estimated to have grown by 3.2% YoY, driven by strong growth in digital engagements, particularly cloud adoption.

Organizations across the globe are undergoing an unprecedented change and transformation in their businesses led by forces such as digital, increasing consumerization of IT, emergence of new platforms such as cloud services and increasing disruptions and competition from new-age companies. Technology access and usage has been largely democratized and mainstreamed. There has been a profound change in how technology is developed, delivered and consumed. Large multinational enterprises are thus reimagining multiple aspects of their business leveraging digital technologies and are engaging global IT services companies who can deliver high quality service on a global scale and at competitive price points. The market is shifting from traditional services to digital technologies, DevOps and as-a-service models. We believe that the IT Services industry has significant growth potential and the next wave of growth will come from digital technologies. According to the Strategic Review 2020 published by NASSCOM (the "NASSCOM Report"), "Digital" continues to drive growth (more than 30% of growth in FY 2020) and now contributes \$33 billion to the overall IT industry in India. Technologies such as industrial

automation, robotics, cloud, Internet of things ("IoT"), augmented reality ("AR")/virtual reality ("VR") and blockchain continue to fuel growth. In 2018, there was a 45% increase in as-a-service deals, according to the NASSCOM Report. Cloud platforms are driving growth in managed services for security and data platforms. Digital and automation has moved from point deployments to enterprise-wide adoption. Global IT service providers offer a range of end-to-end software development, digital services, IT business solutions, research and development services, technology infrastructure services, business process services, consulting and related support functions. According to the NASSCOM Report, IT export revenues from India grew by 8.3% to an estimated \$136 billion in fiscal year 2020. The opportunities that exist for the industry are significant.

Our Platforms

Internet of Things (IoT)

In the energy sector Natural gas is fast becoming a dominant source for industry as well as domestic sectors. The distribution, monitoring and regulation of natural gas with present day infrastructure and technology has multiple inefficiencies and breakdown points.

To address the deficiencies, Cybermate has developed an IOT driven smart Meter regulating Station devices for natural gas control, supply and distribution which can provide unprecedented advantages like:

- Complete control over gas supply with instantaneous remote supply cut-off
- Immediate detection of gas leakage and safety warnings with automatic supply cut-off

- Real time gas consumption data and monitoring of gas properties
- Centralized data integration with easy automatic billing
- Easy consumer side access to consumption information, historical trends and easy bill payment
- Effective data integration and protection with legacy SAP platforms for two-way data sharing
- Minimal downtime
- Easy integration.

Healthcare Platform (www.cyberlhealth.com)

Electronic Health Records (EHR) is a systematic collection of health records of individuals and patients. We were touched by a true incident that made us foray into the EHR space. An elderly gentleman was admitted into a reputed hospital for treatment. After he was discharged from the hospital, due to some medical complications he had to go to the hospital's branch in another part of the city. The doctors in this branch insisted that he undergo the same tests conducted in the main hospital recently at the earlier hospital, because neither the patient carried any reports nor the hospital branch had any access to the records. This is where she comes to the rescue, in dealing with such situations.

EHR is a repository/longitudinal record which can be accessed anytime, anywhere by the customer with the following highlights:

- Diagnostic reports, prescriptions, discharge summaries and procedure summaries, medical images such as x-ray, MRI scan, CT scan and procedure videos can be stored and accessed electronically
- Entire health history of an individual including data from multiple providers is available
- Web based platform facilitates access to health records irrespective of the hospital from anywhere in the world
- Facilitates telemedicine
- Provides exclusive logins for patients, doctors and insurance companies

We have launched the pilot platform and the response has been encouraging with 10000 active users on board. Smart phone users are expected to grow to 650 million by 2020 there by increasing our scope.

Healthcare Platform (www.healsoft.in)

An all-in-one hospital management system is what CIL has versioned and built an all inclusive hospital management software system namely "Healsoft". This was to ensure smooth and hassle free hospital management. Our software seamlessly manages all areas of hospital operations. Almost every aspect of this software is customized to enable hospitals to manage all financial, clinical and operational requirements of a hospital/clinic.

- Appointment management
- Inpatient and outpatient management
- Patient records management
- Billing and Invoicing
- Inventory management
- Revenue management
- Pharmacy
- Laboratory
- Human Resources and Financial accounting etc.

HealSoft streamlines the workflow and boosts efficiency by eliminating any possibility of

human error, eases information availability through Cloud.

Logistics Platform (www.induscargo.in)

Our Logistics platform helps to make the most out of your logistics function by managing them through one technology platform. This all-encompassing platform speeds up system integration, reduces risk and improves efficiency. Logistics is an integral part of operations and we focus on optimizing logistics management with respect to road transportation.

Transport operators can be broadly categorized as below:

- Small Fleet Operators (SFOs) – owning up to five vehicles
- Medium Fleet Operators (MFOs) owning between 6 and 20 vehicles
- Large Fleet Operators (LFOs) owning typically over 20 vehicles

Road cargo is offered as Full Truck Load (FTL) and partial truck load (PTL).

LFOs have long term contracts and are geographically spread to source business. They also have the capability to operate through their own web presence whereas **SFOs and MFOs** look forward to source customers to optimize cost per trip. Domestic and business customers look out for cargo operators to optimize costs and to arrive quickly. LTL requires a wider reach and adequate infrastructure and hence CIL has a cargo platform.

This platform facilitates the SFO & MFO's interaction with SME, MSME and domestic customers to achieve their goals. In this segment of service, the customers do not hire the entire

truck and the LTL service provider aggregates consignments from various clients and sends them across to the desired destination.

Marketplace for arts and crafts (www.induscrafts.in)

We have built an online one-stop shop for people who love rich Indian heritage handicrafts and handlooms that are unique in their tradition and make. Indycrafts is an extraordinary e-commerce platform where the unique skills are passed down several generations of artisans, so that they will be available to both the connoisseur and the novice for many years. We launched this platform in an effort to boost sales, and to benefit the artisans in more ways than one, such as capacity enhancement, skill development, marketing of their products and employment opportunities to name a few. By doing this the small entrepreneurs are encouraged and the natural corollary to such developments would be innovation.

In order to enhance our service offerings, our strategy focuses on bringing in concepts of automation, analytics, improving productivity with higher accuracy and to reduce costs to customers. We continue to leverage the advantage of open source technologies in providing innovative and cost-effective performance solutions.

Risk Management

Great achievements involve great risk! Hence, in order to succeed you have to take risks. Risk Management is an enterprise wide function backed by a qualified team of specialists with deep understanding of frameworks and

methodologies for assessing and mitigating risks. Being mindful of our customers and investors, our company has classified risks in to some major categories.

Major Risks:

- Strategic risks arise from taking poor business decisions like substandard execution, poor resource allocation, failure to respond to changes in any given business environment.
- Operational risks are the losses resulting from failed procedures, systems or policies like employee errors, system failures, fraud or criminal activity.
- Financial risks pertain to a firm unable to meet its financial obligations. Regulatory risk is the potential material impact because of a change in laws and regulations.
- Human Capital risks pertain to potential risks related with managing human resources incorrectly.

Risk Assessment

Risk assessment is basically the identification of hazards that could possibly impact an organization, which doubts the ability to conduct business. Identifying these potential risks and providing measures, processes and controls to reduce the impact of these risks to business is risk assessment. In other words, risk identification, risk analysis, risk evaluation and risk control are the approaches we take.

The risks that the management reviews include:

- **Technology Obsolescence Risk-**By keeping abreast with market demands

and customer expectations, your company averts technology obsolescence by timely investment in new technology, keeping pace with updates in technology, training its resources accordingly and by not being reliant on any one technology or platform.

- **Human Resource Risk-** Our Company maintains a resource pool by recruiting the best talents across the country, imparting training and honing knowledge and skills, creating quality work environment and providing opportunities and challenges for growth. A transparent performance based incentive system ensures motivation and prevention of brain drain from the company.
- **International Exposure Risk-** Thorough understanding of compliance of local laws and the possibility of regulatory, visa and tax complications of different countries mitigates risks by engaging specialists and professional agencies with expertise in the areas of concern.
- **Foreign Currencies Risk-** Economic volatility across the globe, fluctuations in major currencies and cross currency movements have a strong bearing on India's IT industry as most of its market is overseas. As a preventive measure, your company enters into forward cover for predictable inward remittances in order to minimize risks associated with foreign currency rate fluctuations.

- **Information Security and Disaster Recovery** – As per the European Union's (EU) General Data Protection Regulation (GDPR), consumers will be in charge of their online data. In addition to all the internal compliance issues, there a lot of amendments that needs to be done to the contracts to reflect GDPR standards. We are a law abiding organization and totally comply with GDPR standards and ensure the data privacy of both our vendors and clients.

The other risks CIL examines are as follows:

- Credit Risk includes creditworthiness; risk in settlement of dues by clients and provisions for doubtful and bad debts.
- Legal Risk includes Contract risk; Contractual liability; Frauds; Judicial Risk and Insurance risk

Our Risk Management Framework (RMF)

Our Risk Management Framework (RMF) allows for striking the right balance between taking risks and reducing them, because it results in adding value to the organization. An effective risk management framework seeks to protect an organization's capital base and profits without hindering the growth of the organization. In other words, it's about managing uncertainty and creating an environment with fewer surprises.

The RMF approach...

1. A stable and structured approach to identifying and managing risks.
2. Anticipation of a consistent approach to identifying, rating, mitigating, managing and monitoring risks.
3. Taking good management decisions and deploying risk management policies and

4. An environment where the staff understands the importance of RMF and making sure to adhere to risk management policies and procedures.
5. Auditing and approving risk management framework and practices of the company.
6. Implementing the prescribed risk mitigation actions.
7. Reporting and reviewing risk events and incidents in a timely manner.

Provision of relevant and timely information across, regular audits, provision of feedback to management, and ensuring the quality and processes are in place and are effective.

Advantages of Risk management

Risk identification is critical to effectively manage a crisis situation. It points to all the risks involved well ahead of time without any assumptions. It helps in opportunity risks so as to be aware of the forthcoming issues. It focuses on the tasks which help on assisting the impact of business or projects. It basically is the greatest advantage of dealing with the problems that are finalized with more possible solutions.

Disadvantages of Risk management

Managing risks results in some waste of time which may create barriers to compensate the projects. Most of the time is spent on the research and development of the allocated issues than to on managing projects.

IV. Opportunities and Threats

- Our Strengths

We have positioned ourselves as a custom built application development company suiting the requirements of mid and emerging companies.

Our strengths include:

Product development – We have invested time and effort in enhancing our domain

expertise in health care, telecom, engineering, energy, logistics and retail segments. We have been able to quickly adopt to the emerging developments in trade practices and enabling new features to our products to keep our customers ahead of their expectations.

End to End Offerings – Our end to end business solutions include transaction processing, data management, integration with third party tools and applications, independent testing and validation, network and surveillance, IT Support and Analytics.

Relationships: We have long standing relationships with midsize companies and Government Business Units and are quite seasoned in their processes which enable us seek repeat business. Our track record delivering quality solutions help us strengthen these relationships over time.

Quality and Process Execution: Our clients have always been appreciative of our process implementation procedures and documentation which helps us maintain a healthy relationship and achieve business value.

- Our Strategy

We are exploring opportunities to build strategic partnership with start-ups to create innovative solutions in emerging technology space. We also intend to create platforms on analytics, cyber security, IT infrastructure and Business process outsourcing capabilities apart from strengthening our core product offerings across domains. We wish to make significant investments in these partnerships, our acquisitions to build capabilities to deliver emerging mobile and digital technology solutions.

- Our Competition

We compete with small and midsize companies in Government and large corporations in application development, maintenance and business process outsourcing segments.

V. Outlook, Risks & Concerns

- Our revenue and expenses are difficult to predict and can vary significantly from period to period.
- Our success largely depends upon retaining skilled technology professionals and our ability to hire, motivate and retain them.
- We are a company in mid segment space and may not be providing adequate confidence to companies / customers for long term contracts.
- We may not be able to sustain the working capital cycles.
- Our liquidity may not keep us comfortable to stay in the race in case of long sales cycles.

Training and development

CIL has always been conducting on the job training programmes on technology , business process , quality and presentation skills to mould its resources into techno commercial resources.

Compensation and Benefits

CIL has always been a midsize company attracting trainees to build their capabilities. CIL has always been facing challenges to retain its talent from large corporations which offer packages linked to performance and E- SOPs. In order to address this challenge, CIL has in this year proposed a resolution to implement E-SOPs to retain its talent.

Risk Management Framework:

In today's economic environment, Risk Management is a very important part of business. The main aim of risk management is to identify, monitor and take precautionary measures in respect of the events that may pose risks for the business. Your Company's Board believes that to ensure sustainable business growth with stability of affairs and operations of the Company, periodical review of various risks having a bearing on the business and operations is vital to proactively manage uncertainty and changes in the internal and external environment to limit negative impacts and capitalize on opportunities. Further, it is also belief of your management that Risk Management Framework enables a systematic approach to risk identification, leverage of any opportunities and provides treatment strategies to manage, transfer and avoid or minimize the impact of the risks.

Keeping in view of the above, your Company's risk management is embedded in the continuous business processes and as a part of review of business and operations, your Board with the help of the management periodically reviews various risks associated with the business and products of the Company and considers appropriate risk mitigation process. However there are certain risks which cannot be avoided but the impact can only be minimized.

The risks and concerns associated with each segment of your company's business are discussed while reviewing segment-wise Management and Discussion Analysis. The other risks that the management reviews also include:

Refer Note No.34 in Notes to Standalone Financial Statements.

- Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of adoption of Ind AS 115 "Revenue from Contracts with Customers" (new revenue accounting standard)

The application of the new revenue accounting standard involves certain key judgments relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period. Additionally, new revenue accounting standard contains disclosures which involve collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.

Auditor's Response:

Principal Audit Procedures

We assessed the Company's process to identify

the impact of adoption of the new revenue accounting standard.

Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:

- Evaluated the design of internal controls relating to implementation of the new revenue accounting standard.
- Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, re performance and inspection of evidence in respect of operation of these controls.
- Tested the relevant information technology systems' access and change management controls relating to contracts and related information used in recording and disclosing revenue in accordance with the new revenue accounting standard.
- Selected a sample of continuing and new contracts and performed the following procedures:
 - Read, analyzed and identified the distinct performance obligations in these contracts.
 - Compared these performance obligations with that identified and recorded by the Company.
 - Considered the terms of the contracts to

determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration.

- Samples in respect of revenue recorded for time and material contracts were tested using a combination of approved time sheets including customer acceptances, subsequent invoicing and historical trend of collections and disputes.
- Sample of revenues disaggregated by type and service offerings was tested with the performance obligations specified in the underlying contracts.
- In respect of samples relating to fixed-price contracts, progress towards satisfaction of performance obligation used to compute recorded revenue was verified with actual and estimated efforts from the time recording and budgeting systems. We also tested the access and change management controls relating to these systems.
- Sample of revenues disaggregated by type and service offerings was tested with the performance obligations specified in the underlying contracts.
- Performed analytical procedures for reasonableness of revenues disclosed by type and service offerings.
- We reviewed the collation of information and the logic of the report generated from the budgeting system used to prepare the disclosure relating to the periods over which the remaining performance obligations will

be satisfied subsequent to the balance sheet date

- Evaluation of uncertain tax positions

The Company has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes.

Auditor's Response:

Principal Audit Procedures

Obtained details of completed tax assessments and demands for the year ended March 31, 2021 from management. We involved our internal experts to challenge the management's underlying assumptions in estimating the tax provision and the possible outcome of the disputes. Our internal experts also considered legal precedence and other rulings in evaluating management's position on these uncertain tax positions. Additionally, we considered the effect of new information in respect of uncertain tax Positions as at April 1st 2021 to evaluate whether any change was required to management's position on these uncertainties.

Information Other than the Ind AS Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Ind AS

financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance (including the other comprehensive income), cash flows and Statement of Changes in Equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued there under. This responsibility includes maintenance of adequate accounting records in

accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that are operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs

will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting

policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Ind AS financial a statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning

the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's

Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the **Annexure A**, a statement on the matters Specified in paragraphs 3 and 4 of the Order.

Annexure – B

to the Independent Auditor's Report

Report on the Internal Financial Controls under clause (i) of the Sub-section 3 of the Section 143 of the Companies Act, 2013 ('The Act')

We have audited the internal financial controls over financial reporting of **M/s Orchasp Limited (Previously known as M/s. Cybermate Infotek Limited)** ('the Company') as of March 31, 2021 in conjunction with our audit of Standalone Ind AS financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our Audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing prescribed under section 143(10) of the Act to the extent applicable to an Audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. These Standards and Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have

obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes these policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the Standalone Ind AS financial statements.

Inherent Limitation of Internal Financial Controls over Financial Reporting

Because of the inherent limitation of internal

financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion: In our opinion, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute Of Chartered Accountants of India.

Note 1: Significant Accounting Policies

1. Corporate Information

Orchasp Limited is Public limited company incorporated in India with its registered and corporate office at 19 & 20, Moti Valley, Trimulgherry, Secunderabad. India. The Company is listed on the BSE Limited. The company is engaged in providing IT Services, solutions, platforms and has been providing services to Health Care, Telecom, Manufacturing, Engineering, Energy and Retail. The Company changes its name from Cybermate Infotek Limited to Orchasp Limited with effect from 24-05-2021.

The financial statements for the year ended 31st March 2021 were approved by the Board of Directors on the 28th June 2021.

a. Basis of Preparation of Financial Statements:

Compliance with Ind AS

The Company has adopted Indian Accounting Standards (the "Ind AS") notified under Section-133 of the Companies Act, 2013 (the "Act"), read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act as applicable. The Standalone Financial Statements provide comparative information in respect of previous year.

(i) Historical cost convention

These Financial Statements have been prepared under the historical cost convention on the

accrual basis except for certain financial assets and liabilities (including derivative instruments) which are measured at fair value.

(ii) Current versus Non-Current Classification:

All assets and liabilities have been classified as current or non-current as per the company's operating cycle and other criteria set out in the schedule III to the Companies Act 2013. Based on the nature of products and services and their realisation in cash and cash equivalents the company has ascertained its operating cycle as 12 months for the purpose of current – noncurrent classification of assets and liabilities.

(iii) Functional and Presentation Currency:

The Financial Statements are presented in Indian Rupees (₹) which is the Company's functional and presentation currency, and all amounts are rounded to the nearest rupee except as otherwise stated.

2. Summary of Significant Accounting Policies

a. Property, Plant & Equipment:

(i) Recognition and measurement

Property, Plant & Equipment are stated at cost less accumulated depreciation and impairment losses, if any.

Costs include costs of acquisitions or constructions including incidental expenses thereto, borrowing costs and other attributable costs of bringing the asset to its working condition for its intended use and are net of available duty/tax credits.

Subsequent expenditure relating to Property, Plant & Equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are recognised in Statement of Profit & Loss as incurred.

Gains or losses arising from discard/sale of Property, Plant & Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of Profit & Loss when the asset is discarded/sold.

(iii) Depreciation

The company depreciates property plant and equipment on straight-line-method (SLM) as per the useful life of assets, as estimated by the management/independent professional, which are generally in line with Schedule-II to the Companies Act, 2013.

b. Intangible Assets:

(i) Recognition and Measurement

Intangible assets acquired separately are measured on initial recognition at cost.

Subsequent to initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. In case of internally generated intangible asset arising from development activity the asset is recognised at cost only if its probable

that the asset would generate future economic benefit and the expenditure attributable to said assets during its development can be measured reliably. Capital expenditure non purchase and development of identifiable on monetary assets without physical substance is recognised as Intangible Assets when:

It is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measure reliably.

(ii) Depreciation

The company Amortises/Depreciates Intangible Assets on the basis of estimated useful lives of Intangible assets are as follows:

Software acquired

Particulars	Useful life
Software License	2 years

Software internally developed

Particulars	Useful life
Product/Platform	4 years

c. Impairment:

The carrying amount of Property, Plant & Equipment, Intangible Assets and Investment Property are reviewed at each Balance Sheet date to assess impairment, if any based on internal/external factors. An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment

loss is recognised as an expense in the Statement of Profit & Loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed, if there has been an improvement in recoverable amount.

d. Foreign Currency Transactions:

(i) Functional and Presentation currency:

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("functional Currency"). The financial Statements are presented in Indian rupee (INR), which is the company's functional and presentation currency.

(ii) Transactions and Balances:

Transactions in foreign currencies are translated into functional currency of the Company at rates prevailing at the date of the transaction. Foreign exchange gain or losses resulting from the settlement of such transactions and from translation of monetary assets and liabilities denominated in foreign currencies at the year-end exchange rates are generally recognised in Profit & Loss and reported with in Foreign exchange gain/(losses), except when deferred in other comprehensive income as qualifying cashflow hedges.

Non-monetary items that are measured in times of historical cost in a foreign currency are translated using the exchange rates at the dates

of the transaction. Non-monetary items (other than investment in shares of Subsidiaries, Joint Ventures and Associates) carried at Fair Value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the Fair Value was determined. Exchange component of the gain or loss arising on fair valuation of non-monetary items is recognised in line with the gain or loss of the item that gave rise to such exchange difference.

e. Revenue Recognition:

The Company derives revenue primarily from software development, maintenance of software/hardware and allied services, sale of software licenses, subscriptions for services and ecommerce.

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of trade allowances, rebates, discounts and value added taxes.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the company's activities as described below.

The Company estimates its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

**(i) Time and Material Contracts**

Revenues and costs relating to time and materials contracts are recognized as the related services are rendered.

(ii) Fixed-price contracts:

Revenues from fixed-price contracts, including IT Infrastructure development and integration contracts are recognized using the "percentage of-completion" method. Percentage of completion is determined based on efforts or costs incurred to date as a percentage of total estimated efforts or costs required to complete the project. The efforts or cost expended are used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable.

When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the statement of income in the period in which such losses become probable based on the current contract estimates.

Advance payments received from customers for which no services have been rendered are presented as 'Advance from customers'.

(iii) Services contracts:

Revenue from services contracts is recognized

ratably over the period of the contract using the percentage of completion method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight-line basis over the specified period unless some other method better represents the stage of completion. In certain projects, a fixed quantum of service or output units is agreed at a fixed price for a fixed term. In such contracts, revenue is recognized with respect to the actual output achieved till date as a percentage of total contractual output. Any residual service unutilized by the customer is recognized as revenue on completion of the term.

(iv) Sale of licenses & Subscriptions

Revenue from sale of licenses and support are recognized when the significant risks and rewards of ownership have been transferred to the buyer, continuing managerial involvement usually associated with ownership and effective control have ceased, the amount of revenue can be measured reliably, it is probable that economic benefits associated with the transaction will flow to the Company and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenues from Sale of Subscriptions shall be recognized linear to the period of the contract.

(v) Ecommerce/Retail

Revenue from Ecommerce transactions i.e sale

of third-party products/applications/services shall be recognized on realization of the merchandise.

(vi) Other Income

Profit on Sale of investments is recorded on transfer of title from the company and is determined as the difference between the sale price and the carrying amount of the investment. Dividend income is recognized when the company's right to receive dividend is established.

Interest income on time deposits is recognized using time proportion basis taking into account the amount outstanding and applicable interest rates.

f. Income Tax:

Income Tax comprises current and deferred tax.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws, prevailing in the respective tax, jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

The company offsets current tax assets and current tax liabilities, where it has legally enforceable right to set off the recognised amounts and where it intends to settle on net basis, or to realise the asset and liability simultaneously.

Deferred tax is provided on temporary difference arising between the tax bases of assets & liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax is measured using the tax rate that are expected to apply in the year when the asset is realized or the liability is settled based on the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred tax relating to items recognized directly in equity/other comprehensive income (OCI) is recognised in equity/ other comprehensive income (OCI) and not in the statement of Profit & Loss. Deferred tax asset is recognised to the extent that it is probable that sufficient future taxable profit will be available against which the deductible temporary differences and the carry forward unused tax credits and unused tax losses can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period.

g. Provisions, Contingent Liabilities, Commitments and Contingent Assets:

Provisions are recognised for present obligations of uncertain timing or amount arising as a result of a past event where a reliable estimate can be made, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Where it is not probable that an outflow of resources embodying economic benefits will be required or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability and commitments, unless the probability of outflow of resources embodying economic benefits is remote. Contingent assets are not recognised but disclosed in the Financial Statements when an inflow of economic benefits is probable.

h. Earnings per Share:

Basic earnings per share is computed using the net profit/(loss) for the year (without taking impact of OCI) attributable to the equity shareholders and weighted average number of shares outstanding during the year. The weighted average numbers of shares also include fixed number of equity shares that are issuable on conversion of compulsorily convertible preference shares, debentures or any other instrument, from the date consideration is received (generally the date of their issue) of such instruments. The diluted EPS

is calculated on the same basis as basic EPS after adjusting for the effect of potential dilutive equity shares unless impact is anti-dilutive.

i. Segment Reporting:

In accordance with the requirement of AS-108 on Segment reporting, the company has determined its business segment as Computer Programming Consultancy and related services. There are no other primary reportable segments. Thus, the segment revenue, segment result, total carrying amount of segment liabilities, total cost incurred to acquire segment assets, the total amount of charge for depreciation during the year are all reflected in the financial statement of the company for the year ended 31st March 2021. There are no secondary reportable segments (Geographical Segments).

j. Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Initial Recognition:

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or release of financial assets and financial liabilities respectively, which are not at

fair value through profit or loss are added to the fair value of underlying financial assets and liabilities on initial recognition. Trade receivables and trade payables that do not contain a significant financing component are initially measured at their transaction price.

(ii) Measurement:

Non-derivative financial instruments – Financial assets carried at amortised cost.

A financial asset is subsequently measured at amortised cost which is held with objective to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial asset at fair value through other comprehensive income:

A financial asset is subsequently measured at fair value through other comprehensive income which is held with objective to achieve both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an election for its investments which are classified as equity instruments (other than investment in shares of Subsidiaries, Joint Ventures and Associates) to present the subsequent changes

in fair value through profit and loss account.

Financial assets at fair value through profit or loss:

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. The Company has elected to measure its investments, which are classified as equity instruments (other than investment in shares of Subsidiaries, Joint Ventures and Associates) at fair value through profit and loss account.

(iii) Impairment of financial assets:

The company assesses at each balance sheet date whether a financial asset is impaired. The company recognises the loss if any on such impairment in accordance with IND AS 109.

(iv) Financial Liabilities:

Financial liabilities are subsequently carried at amortized cost using the effective interest method. Financial liabilities at fair value through profit and loss includes financial liability held for trading and financial liability designated upon initial recognition as at fair value through profit and loss.

k. Investment in Subsidiaries, Associates and Joint Ventures:

Investment in equity shares of subsidiaries, associates and joint ventures is carried at cost in the standalone financial statements.

l. Earnings per share:

The basic earnings per share is computed by

dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share and also the weighted average number of equity shares which would have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless they have been issued at a later date.

m. Employee Benefits:

Contributions to Provident and Employee State Insurance etc accruing during the accounting period are charged to the statement of Profit and Loss. Provision for liabilities in respect of gratuity are accrued and provided at the end of each accounting period. Gratuity liability towards existing eligible employees will be met by the fund administered by LIC.

3. Critical Accounting – Estimates, Assumptions and Judgements:

The preparation of Financial Statements in conformity with Indian Accounting Standards (Ind AS) requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures at the date of the

Financial Statements. The judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision effects only that period or in the period of the revision and future periods if the revision affects both current and future years and if material, their effects are disclosed in the notes to the Financial Statements. Actual results could vary from these estimates.

The company has given due consideration of the possible effects that may result from the pandemic related to covid-19 on the carrying amount of receivables and unbilled revenues.

Estimates and underlying assumptions are reviewed on a regular basis. The following areas of revenues, expenses, assets and liabilities are likely to be impacted by events which give rise to revision of estimates made

(i) Revenue

The company uses estimates for computation of costs and efforts as a proportion of total costs and efforts made. These estimates are then used to derive the progress made towards completion of the contract.

(ii) Provisions/Expenses

Provision for future expenses, liabilities are made on some occasions on the basis of pending effort for completion.

(iii) Property, Plant & Equipment:

External advisor and/or internal technical team

assesses the remaining useful life and residual value of property, plant & equipment. Management believes that the assigned useful lives and residual values are reasonable.

(iv) Intangibles:

Internal technical and user team assess the remaining useful lives of intangible assets. Management believes that assigned useful lives are reasonable. All intangibles are carried at net book value on transition.

(v) Income taxes

The provision for income tax at the end of each period is made on the basis of estimates on revenues and the receivables.

(vi) Other Estimates:

The Company estimates the un-collectability of accounts receivables by analysing historical payment patterns, customer concentrations, customer creditworthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

In addition to the above the uncertainty due to Covid-19 Pandemic, the company continues to revisit the parameters for the estimates made in computing the income, expenses, assets and liabilities.

Refer Note No.34 in Notes to Consolidated Financial Statements.

- Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of adoption of Ind AS 115 "Revenue from Contracts with Customers" (new revenue accounting standard)

The application of the new revenue accounting standard involves certain key judgments relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period. Additionally, new revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.

Auditor's Response:

Principal Audit Procedures

We assessed the Holding Company's process to identify the impact of adoption of the new revenue accounting standard.

Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:

- Evaluated the design of internal controls relating to implementation of the new revenue accounting standard.
- Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, re performance and inspection of evidence in respect of operation of these controls.
- Tested the relevant information technology systems' access and change management controls relating to contracts and related information used in recording and disclosing revenue in accordance with the new revenue accounting standard.
- Selected a sample of continuing and new contracts and performed the following procedures:
 - Read, analyzed and identified the distinct performance obligations in these contracts.
 - Compared these performance obligations with that identified and recorded by the Company.
 - Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration.
 - Samples in respect of revenue recorded for time and material contracts were tested using a combination of approved time sheets including customer acceptances, subsequent invoicing and historical trend of collections and disputes.
 - Sample of revenues disaggregated by type and service offerings was tested with the performance obligations specified in the underlying contracts.
 - In respect of samples relating to fixed-price contracts, progress towards satisfaction of performance obligation used to compute recorded revenue was verified with actual and estimated efforts from the time

recording and budgeting systems. We also tested the access and change management controls relating to these systems.

- Sample of revenues disaggregated by type and service offerings was tested with the performance obligations specified in the underlying contracts.
- Performed analytical procedures for reasonableness of revenues disclosed by type and service offerings.
- We reviewed the collation of information and the logic of the report generated from the budgeting system used to prepare the disclosure relating to the periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date

• **Evaluation of uncertain tax positions**

The Holding Company has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes.

Auditor's Response:

Principal Audit Procedures

Obtained details of completed tax assessments and demands for the year ended March 31, 2021 from management. We involved our internal experts to challenge the management's underlying assumptions in estimating the tax provision and the possible outcome of the disputes. Our internal experts also considered legal precedence and other rulings in evaluating management's position on these uncertain tax

positions. Additionally, we considered the effect of new information in respect of uncertain tax positions as at April 1, 2021 to evaluate whether any change was required to management's position on these uncertainties.

Information Other than the Ind AS Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Management for the Consolidated Financial Statements:**

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these Consolidated Ind AS financial statements that give a true and fair view of the financial position, financial performance (including the other comprehensive income), cash flows and Statement of Changes in Equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued there under. This responsibility includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that are operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing The Group's ability to continue as a going concern,

disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures

responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Consolidated Ind AS financial statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements of the current period and are

therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters:

We didn't audit the financial statements and other financial information, in respect of the two foreign subsidiaries, whose Ind AS financial statements include total Revenues Rs. Nil and total profit after Tax Rs. Nil total comprehensive profit of Rs. Nil for the year ended 31st March 2021, as considered in financial statements of The Group. The Management of the Holding Company has prepared the financial statements and furnished to us and our conclusion on the Statement, in so far as it relates to the amounts and disclosures in respect of these subsidiaries is based solely on the report of Management and procedures performed by us as stated above.

Our Conclusion on the statement is not modified in respect of the above matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure A, a statement on the matters Specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, we further report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.

b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books.

c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.

d) In our opinion, the aforesaid Consolidated Ind AS financial statements comply with the applicable Indian Accounting Standards specified under Section 133 of the Act, read with relevant rules issued there under.

e) On the basis of written representations received from the directors as on March 31, 2021, and taken on record by the Board of Directors, none of the directors of The Holding company is disqualified as on March 31, 2021, from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'; and

g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our

information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations which would impact its financial position in its financial statements. (Refer Note No: 27 of Notes to Accounts The Consolidated Financial statements)
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company

Annexure – A

to the Independent Auditor's Report

Report on the Internal Financial Controls under clause (i) of the Sub-section 3 of the Section 143 of the Companies Act, 2013 ('The Act')

We have audited the internal financial controls over financial reporting of

M/s. Orchasp Limited (previously Known as M/s Cybermate Infotek Limited ('the Holding Company') as of March 31, 2021 in conjunction with our audit of Consolidated Ind AS financial statements of the company for the year ended on that date in respect of The Holding Company only as the two subsidiaries included in the Group are incorporated outside India.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as

required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our Audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing prescribed under section 143(10) of the Act to the extent applicable to an Audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. These Standards and Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have

obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes these policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Consolidated Ind AS financial statements.

Inherent Limitation of Internal Financial Controls over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper

management, override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute Of Chartered Accountants of India.

2. Summary of Significant Accounting Policies

a. Property, Plant & Equipment:

(i) Recognition and measurement

Property, Plant & Equipment are stated at cost less accumulated depreciation and impairment losses, if any. Costs include costs of acquisitions or constructions including incidental expenses thereto, borrowing costs and other attributable costs of bringing the asset to its working condition for its intended use and are net of available duty/tax credits.

Subsequent expenditure relating to Property, Plant & Equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are recognised in Statement of Profit & Loss as incurred.

Gains or losses arising from discard/sale of Property, Plant & Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are

recognized in the statement of Profit & Loss when the asset is discarded/sold.

(iii) Depreciation

The company depreciates property plant and equipment on straight-line-method (SLM) as per the useful life of assets, as estimated by the management/independent professional, which are generally in line with Schedule-II to the Companies Act, 2013.

b. Intangible Assets:

(i) Recognition and Measurement

Intangible assets acquired separately are measured on initial recognition at cost.

Subsequent to initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. In case of internally generated intangible asset arising from development activity, the asset is recognised at cost only if it is probable that the asset would generate future economic benefit and the expenditure attributable to said assets during its development can be measured reliably. Capital expenditure on purchase and development of identifiable non monetary assets without physical substance is recognised as Intangible Assets when:

It is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measure reliably.

(ii) Depreciation

The company Amortises/Depreciates Intangible Assets on the basis of estimated useful lives of Intangible assets are as follows:

Software acquired

Particulars	Useful life
Software License	2 years

Software internally developed

Particulars	Useful life
Product/Platform	4 years

c. Impairment:

The carrying amount of Property, Plant & Equipment, Intangible Assets and Investment Property are reviewed at each Balance Sheet date to assess impairment, if any based on internal/external factors. An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is recognised as an expense in the Statement of Profit & Loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed, if there has been an improvement in recoverable amount.

d. Foreign Currency Transactions:

(i) Functional and Presentation currency:

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("functional Currency"). The financial Statements are presented in Indian rupee (INR), which is the company's functional and presentation currency.

(ii) Transactions and Balances:

Transactions in foreign currencies are translated into functional currency of the Company at rates prevailing at the date of the transaction. Foreign exchange gain or losses resulting from the

settlement of such transactions and from translation of monetary assets and liabilities denominated in foreign currencies at the year-end exchange rates are generally recognised in Profit & Loss and reported with in Foreign exchange gain/(losses), except when deferred in other comprehensive income as qualifying cashflow hedges.

Non-monetary items that are measured in times of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items (other than investment in shares of Subsidiaries, Joint Ventures and Associates) carried at Fair Value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the Fair Value was determined. Exchange component of the gain or loss arising on fair valuation of non-monetary items is recognised in line with the gain or loss of the item that gave rise to such exchange difference.

e. Revenue Recognition:

The Company derives revenue primarily from software development, maintenance of software/hardware and allied services, sale of software licenses, subscriptions for services and ecommerce.

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of trade allowances, rebates, discounts and value added taxes.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met

for each of the company's activities as described below.

The Company estimates its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

(i) Time and Material Contracts

Revenues and costs relating to time and materials contracts are recognized as the related services are rendered.

(ii) Fixed-price contracts:

Revenues from fixed-price contracts, including IT Infrastructure development and integration contracts are recognized using the "percentage of completion" method. Percentage of completion is determined based on efforts or costs incurred to date as a percentage of total estimated efforts or costs required to complete the project. The efforts or cost expended are used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable.

When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the statement of income in the period in which such losses become probable based on the current contract estimates.

Advance payments received from customers for which no services have been rendered are presented as 'Advance from customers.'

(iii) Services contracts:

Revenue from services contracts is recognized ratably over the period of the contract using the percentage of completion method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight-line basis over the specified period unless some other method better represents the stage of completion. In certain projects, a fixed quantum of service or output units is agreed at a fixed price for a fixed term. In such contracts, revenue is recognized with respect to the actual output achieved till date as a percentage of total contractual output. Any residual service unutilized by the customer is recognized as revenue on completion of the term.

(iv) Sale of licenses & Subscriptions

Revenue from sale of licenses and support are recognized when the significant risks and rewards of ownership have been transferred to the buyer, continuing managerial involvement usually associated with ownership and effective control have ceased, the amount of revenue can be measured reliably, it is probable that economic benefits associated with the transaction will flow to the Company and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenues from Sale of Subscriptions shall be recognized linear to the period of the contract.

(v) Ecommerce/Retail

Revenue from Ecommerce transactions i.e sale of third-party products/applications/services shall be recognized on realization of the merchandise.

(vi) Other Income

Profit on Sale of investments is recorded on transfer of title from the company and is determined as the difference between the sale price and the carrying amount of the investment. Dividend income is recognized when the company's right to receive dividend is established.

Interest income on time deposits is recognized using time proportion basis taking into account the amount outstanding and applicable interest rates.

f. Income Tax:

Income Tax comprises current and deferred tax.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws, prevailing in the respective tax, jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

The company offsets current tax assets and current tax liabilities, where it has legally enforceable right to set off the recognised amounts and where it intends to settle on net basis, or to realise the asset and liability simultaneously.

Deferred tax is provided on temporary difference arising between the tax bases of assets & liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax is measured using the tax rate that are expected to apply in the year when the asset is realized or the liability is settled based on the tax rates and the tax laws enacted or

substantively enacted at the reporting date. Deferred tax relating to items recognized directly in equity/other comprehensive income (OCI) is recognised in equity/ other comprehensive income (OCI) and not in the statement of Profit & Loss. Deferred tax asset is recognised to the extent that it is probable that sufficient future taxable profit will be available against which the deductible temporary differences and the carry forward unused tax credits and unused tax losses can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period.

g. Provisions, Contingent Liabilities, Commitments and Contingent Assets:

Provisions are recognised for present obligations of uncertain timing or amount arising as a result of a past event where a reliable estimate can be made, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Where it is not probable that an outflow of resources embodying economic benefits will be required or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability and commitments, unless the probability of outflow of resources embodying economic benefits is remote. Contingent assets

are not recognised but disclosed in the Financial Statements when an inflow of economic benefits is probable.

h. Earnings per Share:

Basic earnings per share is computed using the net profit/(loss) for the year (without taking impact of OCI) attributable to the equity shareholders and weighted average number of shares outstanding during the year. The weighted average numbers of shares also include fixed number of equity shares that are issuable on conversion of compulsorily convertible preference shares, debentures or any other instrument, from the date consideration is received (generally the date of their issue) of such instruments. The diluted EPS is calculated on the same basis as basic EPS after adjusting for the effect of potential dilutive equity shares unless impact is anti-dilutive.

i. Segment Reporting:

In accordance with the requirement of AS-108 on Segment reporting, the company has determined its business segment as Computer Programming Consultancy and related services. There are no other primary reportable segments. Thus, the segment revenue, segment result, total carrying amount of segment liabilities, total cost incurred to acquire segment assets, the total amount of charge for depreciation during the year are all reflected in the financial statement of the company for the year ended 31st March 2021. There are no secondary reportable segments (Geographical Segments).

j. Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another

entity.

(i) Initial Recognition:

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or release of financial assets and financial liabilities respectively, which are not at fair value through profit or loss are added to the fair value of underlying financial assets and liabilities on initial recognition. Trade receivables and trade payables that do not contain a significant financing component are initially measured at their transaction price.

(ii) Measurement:

Non-derivative financial instruments – Financial assets carried at amortised cost.

A financial asset is subsequently measured at amortised cost which is held with objective to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial asset at fair value through other comprehensive income:

A financial asset is subsequently measured at fair value through other comprehensive income which is held with objective to achieve both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount

outstanding. The Company has made an election for its investments which are classified as equity instruments (other than investment in shares of Subsidiaries, Joint Ventures and Associates) to present the subsequent changes in fair value through profit and loss account.

Financial assets at fair value through profit or loss:

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. The Company has elected to measure its investments, which are classified as equity instruments (other than investment in shares of Subsidiaries, Joint Ventures and Associates) at fair value through profit and loss account.

(iii) Impairment of financial assets:

The company assesses at each balance sheet date whether a financial asset is impaired. The company recognises the loss if any on such impairment in accordance with IND AS 109.

(iv) Financial Liabilities:

Financial liabilities are subsequently carried at amortized cost using the effective interest method. Financial liabilities at fair value through profit and loss includes financial liability held for trading and financial liability designated upon initial recognition as at fair value through profit and loss.

k. Investment in Subsidiaries, Associates and Joint Ventures:

Investment in equity shares of subsidiaries, associates and joint ventures is carried at cost in the consolidated financial statements.

l. Earnings per share:

The basic earnings per share is computed by

dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share and also the weighted average number of equity shares which would have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless they have been issued at a later date.

m. Employee Benefits:

Contributions to Provident and Employee State Insurance etc accruing during the accounting period are charged to the statement of Profit and Loss. Provision for liabilities in respect of gratuity are accrued and provided at the end of each accounting period. Gratuity liability towards existing eligible employees will be met by the fund administered by LIC.

3. Critical Accounting – Estimates, Assumptions and Judgements:

The preparation of Financial Statements in conformity with Indian Accounting Standards (Ind AS) requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures at the date of the Financial Statements. The judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the

revision effects only that period or in the period of the revision and future periods if the revision affects both current and future years and if material, their effects are disclosed in the notes to the Financial Statements. Actual results could vary from these estimates.

The company has given due consideration of the possible effects that may result from the pandemic related to covid-19 on the carrying amount of receivables and unbilled revenues.

Estimates and underlying assumptions are reviewed on a regular basis. The following areas of revenues, expenses, assets and liabilities are likely to be impacted by events which give rise to revision of estimates made

(i) Revenue

The company uses estimates for computation of costs and efforts as a proportion of total costs and efforts made. These estimates are then used to derive the progress made towards completion of the contract.

(ii) Provisions/Expenses

Provision for future expenses, liabilities are made on some occasions on the basis of pending effort for completion.

(iii) Property, Plant & Equipment:

External advisor and/or internal technical team assesses the remaining useful life and residual value of property, plant & equipment. Management believes that the assigned useful lives and residual values are reasonable.

(iv) Intangibles:

Internal technical and user team assess the remaining useful lives of intangible assets. Management believes that assigned useful lives are reasonable. All intangibles are carried at net

book value on transition.

(v) Income taxes

The provision for income tax at the end of each period is made on the basis of estimates on revenues and the receivables.

(vi) Other Estimates:

The Company estimates the un-collectability of accounts receivables by analysing historical payment patterns, customer concentrations, customer creditworthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

In addition to the above the uncertainty due to Covid-19 Pandemic, the company continues to revisit the parameters for the estimates made in computing the income, expenses, assets and liabilities
