Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorizations of Management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on audit of internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India.

All Incomes and Expenditures having material bearing on the Financial Statements are recognized on accrual basis.

2) USE OF ESTIMATES:

The presentation of the Financial Statements, in conformity with the Generally Accepted Accounting policies, require the management to make estimates and assumptions that affect the reported amount of Assets and Liabilities, Revenues and Expenses and disclosure of contingent liabilities. Such estimation and assumptions are based on management's evaluation of relevant facts and circumstances as on date of Financial Statements. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

3) REVENUE RECOGNITION:

Sales are stated net of rebate and trade discount. It excludes Central Sales Tax and State Value Added Tax. With regard to sale of products, income is reported when practically all risks and rights connected with the ownership have been transferred to the buyers. This usually occurs upon dispatch of the goods.

Interest on deposits is recognized on accrual basis.

4) FIXED ASSETS AND DEPRECIATION:

Fixed Assets are stated at cost of acquisition or construction, net of accumulated depreciation, cenvat credit and adjustments arising from exchange rate variations relating to borrowings attributed to fixed assets. Cost includes incidental expenses capitalized from time to time on their due recognition, trial run expenses and interest attributable to the project till the date of commissioning.

The company has provided depreciation on all Fixed Assets on "Written Down Value Method" on pro-rata basis in accordance with the Section 205 (2)(a), at the rates specified in Schedule XIV of the Companies Act 1956.

5) BORROWING COST:

Borrowing costs are recognized in the period to which they relate, regardless of how the funds have been utilized, except where it relates to the financing of construction or development of assets requiring a substantial period of time to prepare for their intended future use. 7) EMPLOYEES RETIREMENT BENEFITS:**(a) Short Term**

Short Term employee benefits are recognized as an expense at the undiscounted amount expected to be paid over the period of services rendered by the employees to the company.

(b) Long Term

The Company has both defined contribution and defined benefit plans, of which some have assets in approved funds. These plans are financed by the Company in the case of defined contribution plans.

Defined Contribution Plans

These are plans in which the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. These comprise of contributions to Employees Provident Fund. The Company's Payments to the defined contributions plans are reported as expenses during the period in which the employee perform the services that the payment covers.

Defined Benefit Plans

Expenses for defined benefit gratuity payment plans are calculated as at the balance sheet date by independent actuaries in the manner that distributes expense over the employees working life. These commitments are valued at the present value of the expected future payments, with consideration for calculated future salary increases, using a discounted rate corresponding to the interest rate estimated by the actuary having regard to the interest rate on Government Bonds with a remaining term i.e. almost equivalent to the average balance working period of employees.

Other Employee Benefit

Compensated absences which accrue to employees and which can be carried to future periods but are expected to be encashed or availed in twelve months immediately following the year end are reported as expenses during the year in which the employees perform the services that the benefit converts and the liabilities are reported at the undiscounted amount of the benefits after deducting amounts already paid.

8) IMPAIRMENT OF ASSETS:

The carrying value of assets of the Company's cash generating units are reviewed for impairment annually or more often if there is an indication of decline in value. If any indication of such impairment exists, the recoverable amount of those assets are estimated and impairment loss is recognized, if the carrying amount of those assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the estimated future cash flows to their present value based on appropriate discount factor. Net selling price is the estimated selling price in the ordinary course of business, less estimated cost of completion and to make the sale.

As per the assessment conducted by the Company at June 30, 2014, there were no indications that the fixed assets have suffered an impairment loss.

9) TAXATION:

A provision for Current Tax has been made at the current tax rate based on assessable income or on the basis of Sec. 115JB of the Income Tax Act, 1961 (Minimum Alternative Tax), whichever is higher.

Deferred Tax resulting from "timing differences that are temporary in nature" between accounting and taxable profit is accounted for, using the tax rates and laws that have been enacted as on the Balance Sheet date. The deferred tax asset is recognized and carried forward only to the extent that there is a reasonable or virtual certainty, as the case may be, that the asset will be realised in future.

10) EARNING PER SHARE:

Basic earning per share is calculated by dividing the net profit after tax for the year attributable to Equity Shareholders of the Company by the weighted average number of Equity shares outstanding during the year. Diluted earning per Share is calculated by dividing net profit attributable to equity shareholders (after adjustment for diluted earnings) by average number of weighted equity shares outstanding during the year.

11) CASH FLOW STATEMENT:

Provisions (excluding long term benefits) are not discounted to its present value and are determined based on best estimated required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognized but are disclosed in the notes to the Financial Statements.
