MANAGEMENT DISCUSSION AND ANALYSIS REPORT (forming part of Board's Report)**a. Industry structure and Developments**

In CY 2019, the global market for software and services is estimated to have grown to \$1.5 trillion. IT services is estimated to have grown by 3.5% YoY, characterized by a shift to digital technologies, and adoption of DevOps, and as-a-service models. Business Process Management grew by 4.5% over the prior year driven by a greater focus on robotic process automation as customers automate repetitive tasks and focus on strategic work. Software and computing technology is transforming businesses in every industry around the world in a profound and fundamental way. From an IT perspective, the renewal translates to re-imagining human-machine interfaces, extracting value out of digitized data, building next-generation software applications and platforms, harnessing the efficiency of distributed cloud computing, modernizing legacy technology landscapes and strengthening information security and data privacy controls. The fast pace of technology change and the need for technology professionals who are highly skilled in both traditional and digital technology areas are driving businesses to rely on third parties to realize their business transformation. While these developments present strong market opportunities for the IT industry, there is also an imperative need for IT services and solutions companies to transition from fast-commoditizing traditional service offerings, to attract and retain quality talent globally, to reimagine cost structures and leverage automation for increased productivity.

COVID-19 pandemic, has hampered the growth prospects. On the global economy front, IMF has predicted that the pandemic will wipe out \$12 trillion over two years, with worldwide business shutdowns destroying hundreds of millions of jobs. The domestic rating agency ICRA has revised the forecast for contraction in India's GDP in FY 21 to 9.5% from 5% it expected earlier as continued lock downs in some states have affected the recovery seen in May and June. Most of the analysts have projected the country's GDP to contract in the range of 5-6.5% in this fiscal. However, there's a pervasive uncertainty around these forecast as it depends on the length of pandemic, social distancing norms, workplace safety and global supply chain reconfiguration. Growth-generating industries clocking the highest IT spends until now are deliberating large-scale projects in the face of increased uncertainties. The industry foresaw the impact on business continuity, data security and employee safety. Keeping these as key parameters of the survival strategy, the industry swiftly adopted work-from-home (WFH) operations. Majorly, companies have successfully conceptualized this massive logistical challenge and maintain a sustainable operating environment.

The rise in remote operations among the teeming millions has caused internet usage to surge - placing big demands on robust communication networks. Artificial intelligence, big data and analytics, cyber security, 5G, robotics and other next-gen technologies will receive greater impetus in the new world order. Business continuity plan will be heavily dependent on IT service providers to procure devices and set up robust and secure network and disaster-recovery systems. The only silver lining of the pandemic is the effort towards more digital transformation.

India continues to be a preferred destination for IT services owing to strong digital execution capabilities, cost advantages, favorable talent landscape and increased government focus on IT infrastructure. In mid-2019, the Indian government introduced corporate tax cuts, along with policies that were aimed at reviving the economy and bolstering consumer spending. As a result, corporate spending in software and services saw an uptick and organizations continued to invest in cloud, analytics, digital and automation. According to Gartner, India's IT spending is estimated to total USD 94.3 billion in 2020, a growth of 6.6% over 2019 primarily driven by spending in software.

b. Opportunities, Threats, Risks and Concerns

Due to a global push towards automation, a lot of manual IT functions will be replaced by machines and thus slowing down outsourcing work as the cost advantage factor will be lost. But this threat can be turned into an opportunity by re-skilling engineers in advanced technologies and stay relevant. A lot of new opportunities will open the doors in AI field. Machine Learning, Big Data Analytics and IoT will pave the way for future growth in IT business.

Blockchain technology is also opening up new opportunities in various sectors, especially in FinTech, Digitisation of Public records, Healthcare, Supply Chain areas. Inefficiencies in the existing processes will be addressed by migrating over to this new technology in addition to providing transparency and security.

With business with most of its clients impacted by the corona virus outbreak and likely lower discretionary spending as a result, growth for IT services sector is going to be a big challenge in the coming fiscal.

c. Outlook

Your company has been predominantly developing applications for capital markets, healthcare, education and retail sectors on big data platforms. The company has been building web apps, mobile apps, data engineering tools, data analytics tools, and social media analytics tools. Your company foresees growth opportunities in blockchain and IoT application in the upcoming years.

The company is investing in up-skilling the existing engineering talent pool to adapt to three cutting edge technologies - IoT, Blockchain, and Big Data Analytics.

- On the Big Data Analytics front, the company is working with top cloud services providers to become premium channel partners that will enable us to be listed in their professional consulting services providers directory listing. This involves online training, taking certification exams and subscribing to partner networks.
- The company is also monitoring Blockchain ecosystem for possible growth opportunities in Indian public sector market. As part of the readiness program the company is investing heavily in hiring and training engineers on open source platforms in Blockchain technologies.

The company is working with Startup Incubation centres in New York and Silicon Valley that will help in sourcing more offshore development projects from startups. We are seeing positive results.

The company has started encouraging and incentivising its employees who are able to up-skill themselves in hot skills like Amazon, Google and Azure Cloud Computing, Blockchain Development and Testing, IoT applications development and Progressive Web Applications. This will enable the company to be enlisted as channel partners in their preferred third party integrators network and drive some business to us.

The company has developed a few starter kits for mobile app developers to jumpstart the app building process in healthcare, e-commerce, education and IoT based monitoring systems in manufacturing sectors. The starter kits are going to be made available in online marketplace for customers to subscribe for a fee that includes source code and tech support. The starter kits help mobile app developments in saving costs and time to market as the kit comes pre-packaged with common functionality already built for shopping cart, navigation and retail services apps.

Due to the Covid pandemic, we are facing a lot of uncertainty in both current business activities and new business opportunities. A lot of companies in the U.S have cut down their business activities and have either terminated their existing consulting agreements or revised their budgets significantly lower for next few quarters. We have not been able to close a few pending contracts due to the current situation and the prospective clients have put us on a holding pattern as a caution. Nevertheless, we have reduced our operations costs, utilising the time to explore domestic business opportunities. As part of that process we have initiated accreditation projects in quality and data security areas to qualify for the bids.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in

forming our opinion thereon, and we do not provide a separate opinion on these matters.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to

continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements for the financial year ended March 31, 2020 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

"Annexure B" to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Saven Technologies Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management responsible for establishing and maintaining internal financial controls base on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
