MANAGEMENT DISCUSSION AND ANALYSIS REPORT...>>>>

(Forming part of Directors' Report)

Economic Review & Industry Review

The newly elected government in the center assumed the office with high expectations and in its first year has come out with various new policies, initiatives and national programmes to facilitate investment, foster innovation, enhance skill development and build best-in-class infrastructures. To improve macroeconomic parameters, the government has taken certain policy initiatives such as enhancing of FDI in defence, insurance, real estate, reduction of subsidies, decontrol of petroleum pricing, transparent mechanism for allocation of telecom and natural resources etc. The government has also significantly stepped up budgetary allocation for infrastructure development with several new initiatives like development of Smart cities, Digital India, High Speed Rail Corridors, New Industrial Clusters and has announced ambitious projects such as linking of rivers and Clean Ganga along with the measures for revival of power sector.

Indian economy showed early signs of growth post various initiatives and reform measures undertaken by the Central Government. The Company believes that public and private investment spending to drive the capex growth will be critical to India's growth outlook. The Government has taken measures to boost spending by increasing the capex allocation towards infrastructure projects by reforms in the budget. The Government is also taking various initiatives to unlock stuck investments in the core and infrastructure projects, revive investments from the private sector by reforming policy environment, improving the ease of doing business and accelerating the project related approvals.

India remains rich with potential. With a stable government in place coupled with improving business sentiments and a rapidly emerging environment that is conducive for policy making, the future looks promising especially for the Infrastructure and Construction sector.

We believe that the government's current prudent policies, programs (specially the 'Make in India' and 'Digital India' programme) and commitment to fiscal consolidation open a huge scope for India to grow at faster speed. We further expect that the lower fiscal deficit would definitely help the government in reducing expenditure on interest payout and unblock funds for aggressive investments in growth oriented sectors like infrastructures and energy. The responsibility is now on industry to take full advantage of new policies and more resourceful operating environment. Industry now needs to embark on the new wave of investments to drive India's future growth and development.
