MANAGEMENT DISCUSSION AND ANALYSIS REPORT....>>>>

(Forming part of Directors' Report)

Economic Review & Industry Review

The Economic Survey 2015-16 had predicted the Indian economy to register the GDP growth rate in the range of 7 to 7.75 per cent in the year 2016-17. The economy was indeed treading along that path and clocked 7.2 per cent in the first half of the current financial year, as per the estimates released by the Central Statistics Office (CSO). However, consequent upon the radical measures initiated in November 2016 in the form of demonetization of Rs. 1000 and Rs. 500 currency notes, the Indian economy is likely to experience a slowdown in the growth rate that could be lower than the first advance estimates of CSO. The first advance estimates released in early January 2017 were arrived at mainly based on data prior to demonetization and largely reflect the economic situation prevailing in the first seven to eight months of the financial year. Even the likely reduction in the rate of real GDP growth of 1/4 percentage points to 1/2 percentage points relative to the baseline of about 7 per cent still makes India's growth noteworthy given the weak and unsettled global economy which posted a growth rate of a little over 3 per cent in 2016. That India managed to achieve this high growth in the aftermath of demonetization and amidst the global slowdown, along with a macro-economic environment of relatively lower inflation (unlike a generally higher inflation in the previous episodes of high growth), moderate current account deficit coupled with broadly stable rupee-dollar exchange rate and the economy treading decisively on the fiscal consolidation path, makes it quite creditable. Most external debt indicators also point towards an improvement as at end September 2016.

However, challenges abound. The investment to GDP ratio has not only been lower than the desirable levels but has been consistently declining over the last few years. This trend needs to be reversed at the earliest in order to realize higher and lasting economic growth. Similarly, the savings rate will have to be raised, so that investment can be financed without resorting to high dose of external financing. After remaining fairly stable for much of the last two years, international prices of crude oil have started to trend up. This along with rise in the prices of other commodities like coal, etc. could exert inflationary pressure and have the potential to adversely impact the trade and fiscal balances. The outlook for the next financial year suggests that growth is set to recover, as the currency in circulation returns to normal levels and taking into account the significant reform measures initiated by the government.

STANDALONE FINANCIAL STATEMENT....>>>>

Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The respective Board of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance

regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company and its subsidiary companies, which are companies incorporated in India, have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
