YEARS OF PASSION AT WORK

ANNUAL REPORT 2015

SOBHA

Our Company at a glance in 2015

Founded in 1995, SOBHA has completed 20 years of dedicated work in the real estate and construction sector. Today we are about a ₹ 25 billion real estate company which employs more than 3,000 people directly. It is headquartered in Bangalore where it began its journey 20 years ago.

One of the most well-respected names in the real estate sector, SOBHA has the distinction of being the only company in the sector whose initial public offering in 2006 was oversubscribed 126 times.

In the last two decades we have completed 364 projects in both real estate and contracts vertical with a total developed area of 70.54 million square feet. The company has a footprint in 24 cities across 13 states in India.

SOBHA's unique backward integrated model ensures that it has control over not only the supply but more importantly also over the quality of the materials that it uses in its construction activities.

We have an in-house training centre, SOBHA Academy. Training is an on-going process for all employees which ensures that they are abreast with the latest and newest developments. Today, we are recognised with the ISO 9001, ISO 14001 and OHSAS 18001 certifications for our quality, safety and environment management systems.

Our CSR activities are being undertaken through a public charitable trust, the Sri Kurumba Educational and Charitable Trust. The CSR activities focus on three major areas in select panchayats: education and vocational training, providing healthcare facilities and helping the aged, single mothers, children and others in need with financial and other assistance so that they can lead their lives with dignity.

SOBHA Real Estate

SOBHA is a well-respected name in the real estate sector and is known for its superior quality products. Our residential projects include luxury and super luxury apartments, villas, row houses, plotted development and aspirational homes. All these projects provide world-class amenities and standards while also being environment friendly with emphasis on rainwater harvesting and high safety standards. In the last 20 years, we have completed and handed over 102 real estate projects with a total developed area of 33.64 million square feet and super built-up area of 26.16 million square feet in 5 cities.

All products from the house of SOBHA have the hallmark of best engineering standards, architectural finesse, aesthetics and innovative designs. Notably, we have our own designers, architects, structural, mechanical, electrical, plumbing and environmental professionals who bring in ingenuity and originality to our in-house processes. This combined with transparency in our functioning followed by backward integrated processes ensures that we have full control over the materials used. Hence, SOBHA is considered a pioneer in the real estate and construction sector in the country.

Our philosophy has been to constantly strive towards enhancing customer value by delivering high-quality products at the best price and we will continue to do so. We are committed to transforming the way real estate business is conducted in the country.

SOBHA LIMITED

SOBHA Contractual

In a bid to make our mark in the Contractual segment of providing end to end solutions, we created SOBHA Contractual in 1999. This vertical provides end to end solutions starting from the conceptualisation of a project to its final satisfactory completion. Our Contractual division has developed numerous facilities for corporate entities including offices, convention centres, software development blocks, multiplex theatres, hostel facilities, hotels, guest houses, food courts, restaurants, research centres, club houses and factory buildings. Our emphasis on world-class quality and passion for perfection has attracted contractual orders from various prestigious institutions across India.

The services that SOBHA Contractual provides include civil, mechanical, electrical, plumbing, fire fighting, interiors, glazing and landscaping. All these works are carried out by members who are trained at SOBHA's in-house training facility. The emphasis in every aspect of the work that we take up is on providing world-class facilities and standards with designs that are innovative and are delivered to the best satisfaction of our clients.

In the last 20 years, SOBHA Contractual has completed 262 projects covering a total area of 36.90 million square feet.

SOBHA Manufacturing

This division complements the work that SOBHA undertakes as a company. Responsible for providing the best raw materials needed for construction activities, SOBHA Manufacturing has an interiors division with one of the largest woodworking factories in the country. We also have a glazing and metal works factory and a concrete products division. SOBHA's manufacturing facilities are spread over a 600,000 square feet area and are comparable with the best in the world.

We ensure that all employees working for SOBHA Manufacturing are trained in the latest technology and the best-in-class equipment so that they can seamlessly use these while manufacturing the products which are then used for SOBHA's construction activities. This affirms our control over the quality of the materials that we use thereby providing the best to our customers.

SOBHA Manufacturing in this sense contributes to the overall goal of the company by being the best in the business. It serves as the company's backbone and enables to bring in impeccable quality and workmanship in all its products.

In a related move, we have also ventured into the retail space with the launch of ergonomic spring mattresses which are sold under the brand name SOBHA Restoplus.

With experience comes responsibility. We, at SOBHA, are acutely aware that two decades of our 'Passion at Work' has truly translated into highly successful completion of hundreds of international quality products till date. This in turn reposes an even bigger responsibility of not only retaining the credibility and the laurels that we have won as one of the leading companies in the sector, but also that we need to chart out new goals and newer benchmarks which we can deliver on. What we are confident about is that we will never compromise on our core values of providing the best-in-class quality in a transparent manner. The work philosophy which guided us this far is our moral compass and we are firmly rooted in the belief that it will hold steadfast in our journey ahead. SOBHA will continue to lead the way and break new grounds. Our deep commitment towards improving lives of the people in our communities gives us inner strength to excel in all that we do and do it well.

20 Years: Looking back, looking ahead

The year was 1995. The construction industry in India was in its nascent stage. The economy had not opened up sufficiently and there was comparatively less disposable income for people to spend on luxurious homes and state-of-the-art office buildings.

But one man, who had spent around 25 years working in the construction industry in the Middle East, had the passion and the urge to come back to his roots. He set his foot here and took some new steps unheard of in the construction sector in India. Mr. P N C Menon, the Chairman Emeritus and founder of SOBHA started his entrepreneurial journey in Bangalore, with a small team of not more than 30 people handling very few boutique projects. The slogan of the time was 'setting standards' which he truly started putting in place in 1995.

The beginnings may have been small but the foundations were rock solid. What Mr. Menon had was true passion for the construction industry and a set of principles which were exemplary for the Indian real estate industry. He wanted to bring world-class standards in construction to India, revolutionise the industry by introducing international quality processes at affordable prices and yet not compromise on delivering best-in-class products. What he also knew was that this had to be done honestly, transparently and with the zeal and determination to be the best. A customer-centric approach and uncompromising business ethics were also some of his key motivators in his dream journey.

Twenty years later, there are many who will affirm that Mr. Menon has not only achieved what he set out to do but a lot more than that. He has helped shape SOBHA as a company with a name to reckon with. Today SOBHA is a well reputed company which is internationally recognised for its excellent quality products and services.

Today, SOBHA is a well reputed company which is internationally recognised for its excellent quality products and services.

Now that SOBHA has completed 20 successful years in the business, it is time to look back and at the same time to also look ahead. It is time to revisit what has been achieved, to take pride in the milestones that have been crossed and the awards that have been won and draw inspiration from them. Equally, it is also time to plan and chart out a course for the company for the next 20 years.

Beginnings

Looking back at the last two decades there is a lot to hold one's attention. After Mr. Menon set up the company, he made steady progress and over the years SOBHA has diversified into various streams of construction including Real Estate, Contractual and Manufacturing. All these verticals complement each other and make the company what it is today.

The First Decade

The first ten years of SOBHA's existence witnessed an interesting phase. The decade saw SOBHA's entry into the residential space with the launch of Sobha Sapphire in Bangalore in 1997 and into plotted development with the launch of Harishree Gardens in Coimbatore in the same year. This marked the beginning of its presence in the real estate segment. Today SOBHA's residential projects include presidential apartments, villas, row houses, super luxury and luxury apartments, plotted developments and aspirational homes. In all its residential projects, the company lays strong emphasis on creating international quality products with precision, provisioned for environmental management, water harvesting and highest safety standards.

Our cherished association with Infosys has embellished the corporate skyline of Bangalore and other cities.

The commitment and passion for quality that SOBHA exhibited was rare in the Indian construction industry. This attracted many visionary leaders from the corporate world who were looking for a developer extraordinaire to build their dreams. This led to SOBHA's association with Infosys Limited as well as diversification into Contracts with an order to design and build the corporate office of Infosys at their Electronics City Campus, Bangalore in 1999. This laid the foundation for our cherished association with Infosys that has embellished the corporate skyline of Bangalore and other cities. On the Contractual Projects side, SOBHA has constructed a variety of structures for many corporates including offices, convention centres, software development blocks, multiplex theatres, hostel facilities, guest houses, food courts, restaurants, research centres and club houses.

Gradually we moved outside the confines of Bangalore to take up another Infosys project in Mysore. These developments also meant that SOBHA was setting up base in other cities – a journey that continues till today. The completion and handover of the Infosys Mysore campus was our first contractual project outside Bangalore.

Expansion in construction activities meant that SOBHA had to have its back-end processes in place. Hence, the decade witnessed establishment of the Interiors Division and the Glazing and Metal Works Division. During the decade SOBHA also set up its Training Academy which has been taking care of the training needs of its employees, an aspect, which holds great significance for the company.

The Interiors Division in Bangalore covers a sprawling 3.75 lakh square feet factory equipped with imported machinery that makes zero-defect, world-class quality door systems, windows, office tables and cabinets, wood panels, wardrobes, kitchens, dining tables, vanity units, sofa sets and cabinets for television sets.

Today SOBHA has a full-fledged, precision-oriented woodworking and joinery plant. The precision machinery is imported from Spain, Italy and Germany and the products are processed through fully mechanised production lines. The timber that the Interiors Division uses is imported from Europe as is the hardware like hinges and brackets. The products that the division makes adhere to the international standards of being fire resistant and meeting other safety criteria.

The Glazing and Metal Works Division was started when SOBHA won a corporate office project for Infosys Limited. Presently, the division works in three domains: facades using aluminium and glass, pre-engineered buildings using steel and roofing metal and ornamental metal works related to buildings.

The hi-tech facility at Concrete Products Division (CPD) is spread over 8 acres and is a fully automated plant supported by MASA, AG Germany.

In 2005 the fully automated **Concrete Products Division** (CPD) commenced its operations. It manufactures concrete blocks, pavers, water drainage channels, curbs, paving slabs and Glass Fibre Reinforced Concrete (GFRC) products which are of international standards. It also manufactures ready mixed concrete. In an attempt to be environment friendly all products made by the division use both cement and quality cementitious materials. The hi-tech facility at CPD is spread over 8 acres and is a fully automated plant supported by MASA, AG Germany.

The Second Decade

The next decade was spent consolidating on these beginnings and also on expanding further. Besides foraying to other states and cities like Kerala, Pune and Gurgaon, this decade was also marked by SOBHA becoming the first ₹ 10 billion real estate company in South India in 2010 and a ₹ 20 billion company in 2012.

2006 was a landmark year as SOBHA went public. What gives us immense pride and satisfaction even today is that our initial public offering created history when it was oversubscribed by a record 126 times!

In 2007, **Sobha Restoplus** – a premium brand of spring mattresses was established. Each mattress manufactured here is subject to life tests on a state-of-the-art machine, one of the best in Asia.

In 2007, Sobha Restoplus – a premium brand of spring mattresses was established.

The path of expansion continued and SOBHA launched Kerala's first integrated township project, Sobha City in Thrissur and its first residential project Sobha Carnation in Pune in 2007. In 2009, SOBHA completed and handed over the Global Education Centre II, Infosys Limited, Mysore. In the same year the company was also certified as compliant with international standards for Environmental Management System (ISO 14001:2004) and Occupational Health Safety Assessment Series (OHSAS 18001:2007).

Our hard work was acknowledged and many prestigious awards and recognitions followed. The '*Pravasi Bhartiya Samman Puraskar*' for Mr. P N C Menon was presented by the then Hon'ble President of India Smt. Pratibha Patil. A 'Lifetime Achievement Award' for Mr. Menon by NDTV, the 'Most Reliable Builder Award' and the 'Builder of the Year Award' by CNBC Awaaz', the 'Best Professionally Managed Company' by CIDC

and being honoured as a 'Global Growth Company' by the World Economic Forum are only a slice of a number of prestigious awards that were bestowed on SOBHA and its top management. Overall, in the last 20 years, SOBHA has been honoured with about 150 awards for its outstanding projects and industry leadership.

This overwhelming response was a matter of pride, no doubt. We were moving in the right direction. Mr. Menon's vision and dreams were becoming concrete reality. We had already raised the bar of excellence and we had to continue pushing it further.

All key activities involved in construction are carried out in-house, thereby reducing dependency on external sources for raw materials and other key inputs.

Reasons for success

A backward integration model

Unlike most other real estate companies, SOBHA follows a backward integration model. This means that all key activities involved in construction are carried out in-house, thereby reducing dependency on external sources for raw materials and other key inputs. The biggest advantage of this is that both production schedules and quality control are under SOBHA's control which is crucial to the business. Further, even the sales and customer relationship management functions are internally managed by the company.

We realised early that one of our biggest strengths will always be our own people - the Sobhaites.

Our staff, our strength

We realised early that one of our biggest strengths will always be our own people - the Sobhaites. Due to our superior product design and execution, attention to quality and transparent ways of conducting business, we have been attracting the right talent. We have ensured that these people grow professionally within the organisation and also as individuals. That is why training at SOBHA is a continuous process and each member undergoes training at several levels. Consistent exemplary work of employees are duly recognised and rewarded to encourage them.

Giving back

Giving back to the society came naturally to us as Mr. Menon had been ploughing back his wealth for the development of the community much before he set up the company in India. SOBHA's CSR initiatives are handled by a public charitable trust, the Sri Kurumba Educational and Charitable Trust. Today our CSR initiatives cover the following areas broadly :

- Providing education and vocational training to deserving students from underprivileged sections of society
- Providing healthcare facilities to people in identified areas
- Looking after the needs of the aged and single mothers and providing them financial assistance to live with dignity

Protecting the environment has been at the centre of what we do and how we do it.

Protecting the environment

Protecting the environment has been at the centre of what we do and how we do it. We use environment friendly measures and various other techniques to conserve the environment and maintain the quality of air, water and land. Additionally, we have been tapping alternative sources of energy like solar power, using roof tiles with air gaps for thermal insulation, channelising, storing and treating harvested rainwater for daily use. Further, we have sewage treatment plants providing organic waste converters which converts organic waste into manure and the produced manure is used for landscaping. Furthermore, we are coming up with green spaces by planting trees and other plants to improve the quality of air.

The company has a real estate presence in nine cities - Bangalore, Gurgaon, Chennai, Pune, Coimbatore, Thrissur, Calicut, Cochin and Mysore. Overall, SOBHA has a footprint in 24 cities and 13 states across India.

Current scenario

Today, SOBHA is one of the leading and foremost backward integrated real estate players in the country. The company has all the key competencies and in-house resources to deliver a project from its conceptualisation to its completion. Its superior execution capability is its core strength.

Since inception, SOBHA has completed 102 real estate projects and 262 contractual projects covering about 70.54 million square feet of area. SOBHA currently has on-going residential projects aggregating 41.81 million square feet of developable area and 29.67 million square feet of super built-up area, and on-going contractual projects aggregating 9.31 million square feet under various stages of construction. The company has a real estate presence in nine cities - Bangalore, Gurgaon, Chennai, Pune, Coimbatore, Thrissur, Calicut, Cochin and Mysore. Overall, SOBHA has a footprint in 24 cities and 13 states across India including its Contractual execution.

Over the years, SOBHA's Contracts division has played various roles in its association with Infosys as an architect and a civil contractor. Further, it has also played key roles as a interior, glazing, electrical, plumbing and firefighting contractor. In the last 15 years SOBHA has developed 30.56 million square feet area for 179 projects of Infosys Limited. Today the division is developing campuses for Infosys in 8 cities throughout India with a cumulative area of about 6.31 million square feet.

SOBHA's non-Infosys division of the Contractual business has completed 83 projects covering an area of 6.34 million square feet in the last two decades. It has 14 on-going projects covering an area of 3 million square feet across various cities for reputed clients in India.

The Contracts and Manufacturing divisions contributed 32 per cent of the total turnover of the company during FY 2014-15, which is 23 per cent higher than last year.

A beginning has been made through a foray into a new segment of aspirational homes: Sobha Dream Series.

Future planning

No company, and least of all SOBHA which started its journey with such high standards and expectations can afford to sit on its laurels. With two decades of business excellence behind SOBHA, it was time to take new steps keeping the changing trends and economic scenario in mind.

A beginning has been made through a foray into a new segment of aspirational homes - Sobha Dream Series. Also on the anvil are new projects in Chennai, Bangalore, Cochin and Mysore. These will target not only our core segments but are also meant for others who have thus far remained outside our target spectrum.

What we have learnt during the last few years tells us that the market is expanding and we as a company are ready to grow and get new and more customers in SOBHA's fold. We will continue to do our work with transparency and dedication. For technology may change and the customer profile may widen but the core values have to remain the same.

Our Milestones

Motivation came from other areas too. In the last 20 years SOBHA has been recognised with about 150 awards for its outstanding projects and industry leadership. Leading the list is our Chairman Emeritus Mr. P N C Menon who has been awarded lifetime achievement awards for the work that he has been doing not only for getting SOBHA to the level that it has but also for the real estate sector in India as a whole.

Letter from the Chairman

Dear Shareholders and Friends of SOBHA,

The year 2015 commemorates SOBHA's 20th year since inception. The journey began with our founder, Mr. P N C Menon and his vision to transform the way people perceive quality in the real estate industry. It was a time when the sector was in a very nascent stage, and he knew he had to choose a path very different from the norm at the time. It took a great amount of conviction to implement a very unique business model – unheard of in the industry then, and remains a marvel even today. The SOBHA backward integrated business model, opened an unprecedented opportunity to offer our customers a product of international quality. And equally important to us was maintaining the highest levels of integrity, transparency and reliability in the conduct of business. Over the last 20 years, we have continued building on the firm foundation that was laid and remain focused to deliver only the best with a deeply held passion.

When we look back at fiscal 2015, it was an interesting year with new beginnings, though challenging in terms of growth. We registered revenues of ₹ 24.55 billion, most of which came from the Bangalore market which remained resilient. The revenue of this fiscal shows a 12 percent growth. Our EBITDA was at ₹ 6.32 billion and the profit after tax was ₹ 2.38 billion. Both these registered small improvements as compared to the last fiscal. If we look at our real estate revenue, it showed an increase of 8 percent, and our contractual and manufacturing operations grew at about 23 percent on a year-on-year basis. Also, during the course of the last fiscal, we have improved our credit rating to an 'A' from ICRA.

During the financial year, SOBHA launched 14.12 million square feet of total developable area. Eight new projects were launched: four in Bangalore, two in Chennai and one each in Thrissur and Pune. In addition, 10 real estate projects were completed along with 15 contractual projects totalling about 7.61 million square feet of developable area. Since its inception, SOBHA has delivered 364 projects across 24 cities in 13 states. With this SOBHA crossed over 70 million square feet of development by the end of this fiscal. These projects are testimony to SOBHA's impeccable execution and delivery capabilities.

In two decades, SOBHA as a brand has become synonymous with products of unmatched quality in the segment comprising of mainly 3BHK apartments with an average unit size of 1,750 square feet. In fiscal 2015, we as a Company, made a tactical shift in our strategy. Recognising the growing aspirations of a new class of young salaried professionals and nuclear families who prefer quality homes along with world class amenities,

we developed a new product class – compact luxury homes. The new product segment is a natural extension of our existing product portfolio which will comprise of 1BHK and 2BHK apartments with unit sizes varying between 600 square feet to 1,200 square feet.

To tap the latent demand, a beginning was made with the launch of Sobha Dream Acres at Balagere, Bangalore, the first of its kind project under our new segment. Attractively priced, compact and functional in design, luxury conscious, technology-driven and high in aesthetics, this is an exclusive offering from the house of SOBHA under the banner of 'Sobha Dream Series'. With a total developable area of 10.65 million square feet, Sobha Dream Acres will be one of the Company's largest residential developments.

To execute such a large-scale development with distinct project specifications, we inducted precast technology in our construction methodology. An international quality precast factory was set-up, a unique 74,000 square feet circulation plant has been built inside the project site. With a capacity to produce 20,000 square feet of precast elements a day, the plant should help us in achieving economies of scale and shorten the construction cycle.

While we are in the business of creating inspiring urban living spaces, we remain deeply committed to our community initiatives under the aegis of our Sri Kurumba Educational and Charitable Trust. Here we pay attention to the education of the young, provide healthcare for all and lend a helping hand to the needy so that they can live with dignity. Continuing with our traditions in the past, our CSR work has expanded in this fiscal and we have launched a set of new initiatives.

Our story this year will not get complete without a mention of 22 prestigious awards and recognitions that came our way. Each one of these is special to us and reflects our ethos and the uniqueness with which we conduct our business.

Fiscal 2015 was a year of recovery for the Indian economy and at the same time a year of persisting challenges for our sector. We believe that there continue to be strong drivers for real estate in the country and with the economy back on its growth trajectory, the demand scenario should turn positive in the medium to long term. At present, we have on-going residential projects aggregating 41.81 million square feet of developable area

and 29.67 million square feet of super built up area, and on-going contractual projects aggregating 9.31 million square feet under various stages of construction.

We will continue to build on our strengths and capacities while also using it as leverage to test uncharted waters in the real estate space. Reinforced by our core values, we remain committed to take SOBHA to newer heights of excellence and to redefine the perception of quality with the changing times.

Needless to stress that all this would not have been possible but for our employees who are motivated, sincere and enthusiastic. I am extremely thankful to all my colleagues on the board for their timely guidance and support towards strengthening the organisation.

On behalf of SOBHA's employees and customers, I would like to extend our sincere thanks to you for all your support during the year. I look forward to meeting you at the shareholders' meeting.

Yours sincerely,

Ravi PNC Menon

Awards

For any organisation there cannot be a bigger sense of achievement than being awarded for the work that it has been doing. We are deeply humbled for being honoured and recognised with nearly 150 prestigious awards since our inception. This is an acknowledgement of our efforts across residential and contractual segments and also of the CSR initiatives that we have taken up over the years. Equally, these awards also reinforce our commitment to always work for customer satisfaction and set new benchmarks of excellence on the way.

It gives us immense satisfaction that our top management too has been recognised for their efforts and hard work for the construction industry.

During 2014-15 we received 22 awards. Some of our key awards and recognitions are highlighted here.

Our inspiration

During the financial year, our Chairman Emeritus Mr. P N C Menon led the way and was awarded

the **'Golden Peacock Lifetime Achievement Award for Business Leadership'** by the Institute of Directors. He also received the **'Dhanam Lifetime Achievement Award'** by business magazine Dhanam and the **'Brands Icons 2014 - Excellence in Business Awards for Corporate Social Responsibility'** by The Times of India. This award was given to him as an acknowledgement of his contributions to the Indian real estate industry and to the society through his CSR activities.

Our Chairman, Mr. Ravi PNC Menon was conferred with the **'Young Entrepreneur of the Year'** award by Construction Week during this fiscal.

Mr. J C Sharma, our Vice Chairman and Managing Director was awarded the **'Best CEO in Real Estate'** at the NDTV Property Awards. He was also awarded the coveted 'Scroll of Honour' by Realty Plus.

In addition, our Investor Relations Professional, Mr. K. Bala Murugan was awarded the **'Best**

Investor Relations Professional (third place) in Asia Pacific region by Institutional Investor Magazine.

Experience matters

Our passion for perfection and our reputation for delivering world-class products meant that this year SOBHA was honoured with global recognition. We were recognised as a **'Global Growth Company'** by the World Economic Forum. Closer home, we were also awarded the **'Developer of the Year (Residential)'** award by Realty Plus and the **'Real Estate Company of the Year'** award by Construction Week India.

We also received the **'Mint - Institute of Competitiveness Strategy Award (Real Estate & Construction)'** from the Institute of Competitiveness and the **'Best Investor Relations Company (third place)'** in Asia Pacific region by Institutional Investor Magazine.

SOBHA's value engineering practices were recognised by INVEST through the **'Muthaih Kasi Trophy'** for the best organisation in India in the **'Construction and Infrastructure Development'** space.

Recognition for our Projects

Our individual projects were also recognised by various industry bodies. Our project in Coimbatore, SOBHA Turquoise, was awarded the **'IGBC Green Homes Platinum Rating'** by IGBC. SOBHA's project in Pune, SOBHA Orion won the **'Premium Apartment Project of the Year – West'** by NDTV. The SOBHA Indraprastha and Global Mall Bangalore project was awarded the **'Achievement Award for Health, Safety & Environment (Code - I)'** by CIDC and the

'EHS 3 STAR Rating' by the Confederation of Indian Industry (CII).

CSR – Devotion at work

SOBHA's CSR wing, the **'Sri Kurumba Educational and Charitable Trust'** was recognised for its sterling services. During this fiscal SOBHA's CSR initiatives were applauded by a number of organisations. Some of the awards received in this category are the **'CSR Initiative of the Year - Sri Kurumba Educational and Charitable Trust'** by Realty Plus and an award for **'Corporate Social Responsibility'** to Sri Kurumba Educational and Charitable Trust by Construction Week India.

Besides the pride and sense of achievement, these awards are also a humbling experience which teach us to continue on the path that we started 20 years ago and to take as many people along with us in this journey.

Appointment and Re-appointment of Directors

During the year under review, the Board of Directors had co-opted Dr. Punita Kumar-Sinha as an Additional Director of the Company in the capacity of a Non-Executive Independent Director for a consecutive term of five years effective from October 6, 2014. In terms of Section 152 read with Section 161 of the Companies Act, 2013, Dr. Punita Kumar-Sinha holds office until the ensuing annual general meeting and is eligible for re-appointment.

In terms of Section 152 of the Companies Act, 2013, not less than two-thirds of the total number of directors of a public company shall be liable to retire by rotation and one-third of such directors shall retire every year. Further, Independent Directors shall not be liable to retire by rotation.

The members at the Nineteenth Annual General Meeting of the Company had reappointed Mr. P Ramakrishnan as a Director of the Company, liable to retire by rotation.

Mr. Ravi PNC Menon, Chairman of the Company is liable to retire by rotation at the ensuing Annual General Meeting and being eligible offers himself for re-appointment. The Board has recommended the re-appointment of Mr. Ravi PNC Menon, Chairman, retiring by rotation.

The brief profiles of directors being appointed / reappointed are provided as an annexure to the Notice convening the Annual General Meeting.

Resolutions passed by circulation

During the financial year 2014-15, the Board of Directors has passed one resolution by way of circulation on October 6, 2014 appointing Dr. Punita Kumar-Sinha as an Additional Director of the Company in the capacity of a Non-Executive Independent Director.

Board Compensation

The Board of Directors in consultation with the Nomination, Remuneration and Governance Committee is responsible for the appointment of new directors and determining their remuneration subject to approval of the shareholders at the Annual General Meeting. The remuneration to the Board of Directors is approved by the shareholders and disclosed separately in the Notes to Accounts. Remuneration to Wholtime Director(s) consists of fixed salary and / or performance incentives. The Nomination, Remuneration and Governance Committee of Board of Directors reviews and recommends to the Board of Directors the remuneration payable to the Wholtime Directors. The Executive Directors of the Company are not entitled to sitting fees for attending the Board Meetings or the Committee Meetings.

Independent Directors

Independent Directors are non-executive directors who apart from receiving director's remuneration, do not have any material pecuniary relationship or transactions with the Company, its promoters, its management or its subsidiaries and associate companies except to the extent permitted under the applicable laws, which in the opinion of the Board may affect their independence of judgement.

We have an eminent pool of Independent Directors who with their repertoire of knowledge, expertise and varied experience contribute to the development of strategies and also evaluate the performance of

the management. The Independent Directors fulfil the criteria laid down under the Companies Act, 2013 and Clause 49 of the Listing Agreement and a Statement of Independence has been obtained from each of the independent directors of the Company.

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
 The Members,
 Sobha Limited,
 SOBHA, Sarjapur-Marathahalli Outer Ring Road (ORR),
 Devarabisanahalli, Bellandur Post,
 Bengaluru - 560103

I have conducted the secretarial audit of the compliance of the applicable statutory provisions and the adherence to good corporate practices by Sobha Limited (hereinafter called the company). Secretarial Audit was conducted in the manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Sobha Limited books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the company, its officers, agents and authorized representatives during the conduct of the secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March 2015 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by Sobha Limited ("the Company") for the financial year ended on 31st March 2015 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;

Markets and Operating Environment

Macroeconomic Overview

Over the last few years, the Indian economy which had been expanding by around 8%, witnessed a reversal in trend. The GDP growth rate declined, slipping below 5% in fiscal 2013-14, the lowest in over a decade. The growth trajectory was hampered by weak global cues and domestic challenges in the form of widening current account deficit, inflationary pressures, policy deadlocks, infrastructure bottlenecks etc.

The decisive public mandate in the general elections of April - May 2014, renewed investor sentiments and generated optimism about an economic revival. The central government along with the central bank announced various legislative and policy reforms, aimed at stemming the slowdown and leading the economy back on the growth path. The efforts have resulted in marginal improvements on the macro-economic front, with the GDP growing at an estimated 7.4% in 2014-15. It is further expected to grow by around 8 - 8.5% in fiscal 2016.

The nation will continue to benefit from low global commodity prices which has helped rein in inflation and encourage consumer spending. Focus on urbanization, smart city program and improvement in infrastructure along with implementation of policy reforms to iron out the regulatory issues in the area of taxes and approval related functions need to be prioritized by the government. This will encourage private sector investment, creating the platform to utilize the country's advantageous demographic potential and lay the foundations for real GDP growth to move to higher levels.

Sector Overview

Fiscal 2015 was a year of recovery and positive changes for the Indian economy. The real estate sector, however, continued to face challenges. Tight fiscal spend control by Government, combined with heightened real interest rates had an adverse impact on the savings ability of the population resulting in a continued slowdown in demand for housing and real estate for the second straight year. During the

financial year, the slowdown in the real estate sector was more prominent in the NCR region, Kerala and the Western markets. Though the Bangalore market continued to be fairly resilient, the performance of the real estate sector on the whole has been subdued.

Inflation, high real interest rates, high risk weight-age for loans to companies operating in the sector, non-availability of right priced working capital fund, employment growth, time lag during the approval process while launching a project, higher statutory levies, non-availability of skilled manpower, uncertainty of title continue to remain as challenges being faced by the Sector as a whole.

As long as the government's action plans focus on a progressive economy, we believe that the industry operations will revive in the near future. We hope that the government will focus on policies that will reduce the burden on real estate builders by accelerating the approval process, reducing the interest costs and taxes levied and controlling the inflationary pressure on inputs.

Several factors still continue to act as strong drivers for long term sustainable real estate demand like latent demand for homes, continued economic growth, trend towards nuclear families, young working population, rising disposable incomes, increased urbanisation, inherent desire to own a home etc.

Outlook of our Markets

A. Real Estate

In the real estate vertical, Sobha has a presence in 9 cities spanning 5 States. The Company has added 5 new markets, viz. NCR, Chennai, Mysore, Cochin and Calicut during the last 5 financial years. The Company continues to operate in its existing markets whilst exploring avenues and opportunities for further diversification of its market presence.

Bangalore

Bangalore, often referred to as the IT capital or Silicon Valley of India is the backbone of Karnataka's

economy and one of the top five contributors to the GDP of the nation. It is the centre of information technology and development and calls itself home to major IT/ITES companies. It has the distinction of being one of the most populous and urbanized cities in India.

Headquartered here, the Company has been present in the Bangalore market since its inception in 1995. During the year, the Company delivered 7 projects aggregating to 3.01 million square feet of total developable area and 2.17 million square feet of super built-up area. Overall, it has delivered 82 projects aggregating 26.42 million square feet of total developable area and 20.51 million square feet of super built-up area.

Presently, the Company has 24 ongoing projects aggregating to 26.81 million square feet of total developable area and 19.37 million square feet of super built-up area. It further proposes to launch about 3.92 million square feet of super built-up area in the financial year 2015-16.

Gurgaon - NCR

The National Capital Region (NCR) encompasses the entire National Capital Territory of Delhi and surrounding urban areas in adjoining states of Haryana, Uttar Pradesh and Rajasthan. It is the largest agglomeration in India, making it one of the most significant contributors to the GDP.

The Company ventured into the Gurgaon-NCR market in the year 2011-12 with the project International City.

Presently, the Company has 8 ongoing projects within International City development, aggregating to 6.88 million square feet of total developable area and 4.43 million square feet of super built-up area.

Chennai

Chennai, also known as the automobile capital of India, is the fourth largest city in the country. It is a prominent manufacturing centre and a thriving IT & financial services hub and among the top five contributors to the GDP. It is also the fourth-most populous metropolitan area in the country.

The Company ventured into the Chennai market in the year 2011-12 with the project Sobha Meritta.

Presently, the Company has 4 ongoing projects aggregating to 2.37 million square feet of total developable area and 1.73 million square feet of super built-up area. It further proposes to launch about 2.11 million square feet of super built-up area in the financial year 2015-16.

Calicut

Calicut, once called as the City of Spices, is the second largest city in Kerala. It is one of the prominent trade hubs of the State and a major business and commercial centre. It is a part of the second largest urban agglomeration in Kerala.

The Company ventured into the Calicut market in the year 2013-14 with the project Sobha Bela Encosta, a Super Luxury Villa Development.

Presently, the Company has 2 ongoing projects aggregating to 1.82 million square feet of total developable area and 1.08 million square feet of super built-up area.

Cochin

Cochin, often referred to as the commercial capital of Kerala, is one of the major port cities in the country. Construction, shipbuilding, shipping, seafood and spices exports, manufacturing, chemical industries, tourism and banking form majority of city's business sector. It is one of the rapidly growing Tier-II cities in the country.

The Company ventured into the Cochin market in year 2013-14 with the project Sobha Isle.

Presently, the Company has 3 ongoing projects aggregating to 1.33 million square feet of total developable area and 1.09 million square feet of super built-up area. It further proposes to launch about 3.29 million square feet of super built-up area in the financial year 2015-16.

Pune

Pune, the cultural capital of Maharashtra, is the second largest city in the state after Mumbai. The city is a centre of education and academic research,

an automotive hub and home to several major IT companies. It is a rapidly emerging business centre.

The Company ventured into the Pune market in the year 2007-08 with the project Sobha Carnation, a Super Luxury multi-storied apartment. Overall, it has delivered 2 projects aggregating 0.69 million square feet of total developable area and 0.53 million square feet of super built-up area.

Presently, the Company has 3 ongoing projects aggregating to 0.93 million square feet of total developable area and 0.73 million square feet of super built-up area.

Thrissur

Thrissur, known as the cultural capital of Kerala, is the revenue district of the State. It has a prominent NRI base.

The Company ventured into the Thrissur market in the year 2007-08 with the project Sobha City, first Integrated Township in Kerala. Overall, it has delivered 8 projects within Sobha City, Township development aggregating to 1.83 million square feet of total developable area and 1.50 million square feet of super built-up area.

Presently, the Company has 2 ongoing projects aggregating to 0.91 million square feet of total developable area and 0.75 million square feet of super built-up area.

Coimbatore

Coimbatore, also known as the textile city, is one of the prominent cities in Tamil Nadu. One of the fastest growing tier-II cities in India, Coimbatore is a major textile, industrial, commercial, educational and manufacturing hub of the State. It is known for the entrepreneurship spirit of its residents.

The Company ventured into the Coimbatore market in the year 1998-99 with the plotted development project Sobha Harishree Gardens and launched its

first Villa development, Sobha Emerald in the year 2008-09.

Presently, the Company has 2 ongoing projects aggregating to 0.75 million square feet of total developable area and 0.50 million square feet of super built-up area. It further proposes to launch about 0.21 million square feet of super built-up area in the financial year 2015-16.

Mysore

Mysore, the erstwhile state capital and known as the heritage city, is the third largest city in the State of Karnataka. It is the abode of retired professionals and visiting tourists. Its close proximity to Bangalore makes it one of the preferred Tier-II cities for industrial and commercial development.

The Company entered the Mysore market in the year 2011-12 with the plotted development project Sobha Garden. During the year, the Company delivered one project aggregating to 0.27 million square feet of total developable area and 0.14 million square feet of super built-up area. Overall, it has delivered 2 projects aggregating 0.71 million square feet of total developable area and 0.35 million square feet of super built-up area.

Presently, the Company proposes to launch 0.33 million square feet of super built-up area in the financial year 2015-16.

Having regard to the slowdown in the real estate market, the Company's sales performance during the financial year was lesser than anticipated. The Company was also hampered by approval delays in Kerala and Chennai, which limited its ability to launch new projects and provide a catalyst to the sales momentum. The Company achieved 3.28 million square feet of new sales area valued at ₹ 20.95 billion at an average price realization of ₹ 6,389 per square feet.

During the financial year, the Company launched 8 projects with a Total Super Built-up Area of 10.55 million square feet. The Company has made a strategic foray into a new product segment named 'Sobha Dream Series'. The first project under the banner, 'Sobha Dream Acres' - Aspirational Homes at Bangalore, has started driving the volumes growth and also contributed significantly to Q4'15 operational performance in fiscal 2015. The project has generated a positive response from the customers and the Company intends to carry the sales momentum forward.

With a better inventory mix and new launches planned in Bangalore, Chennai, Cochin and NCR market in coming quarters, the Company is confident of improving its sales performance in FY 15-16.

Our prime focus will remain on the core residential business to generate positive cash flows through faster execution and monetization of receivables and to ensure appropriate investment in the best available opportunities so that projects can be launched and converted to cash flows within a minimum possible timeframe.

B. Commercial

During fiscal 2015, the Company completed the commercial mall in Sobha City project, Thrissur. It has a total developable area of 0.44 million square feet with a total leasable area of 0.34 million square feet. We had also initially sold 0.80 million square feet. So far, we have leased 70% of area to various reputed brands. The mall will be operational during the second quarter of fiscal 2016.

The St. Mark's Road Project at Bangalore has a total developable area of 0.38 million square feet with a leasable area of 0.20 million square feet. The construction of the Project is progressing as per schedule.

The Company, through one of its subsidiaries, is undertaking the development of a Modern Agricultural Market Complex in Byatarayanapura, Bangalore for APMC and an office space and retail mall on lease basis for the Company. The Company has made necessary applications for obtaining the approvals for the Project.

C. Contractual

In the contractual vertical, Sobha has a presence in 24 cities spanning 13 States. The Company has a diverse client base for contractual operations catering to premium clients.

The Company has delivered overall 36.90 million square feet, out of which 30.56 million square feet of area has been delivered to Infosys, its single largest client. It has 9.31 million square feet of area under execution. While the Company values this long-standing relationship, it also recognises the need to spread its client base and reduce its risk-portfolio. The share of contractual orders from non-Infosys clients has increased to 32% and during the financial year, the Company received orders worth ₹ 2.93 billion from such other clients.

Completed Projects

100% = 36.90 million square feet

Ongoing Projects

100% = 9.31 million square feet

As the Company predominantly operates on a cost + margin basis, it seeks to expand its contractual operations while preserving its margins.

Regulatory Environment

The Real Estate and Construction Industry continues to one of the most highly regulated sectors in India. It is also one of the highest tax paying sectors.

The Sector is awaiting the enactment of The Real Estate (Regulation and Development) Bill, 2013. The new law is expected to bring in greater transparency and would be beneficial for the end customers. While transition to the new regime may be onerous for small and medium players, it should be fairly smooth and seamless for large developers whose current practices are in line with the new requirements. Further, various operational parameters for implementation of the law have to be prescribed by respective state governments. As it is an evolving piece of legislation, the benefits from this regulation will be realised over a period of time.

During the year, the Government has liberalised the norms for FDI investment in Housing and Construction Sector. Easing requirements pertaining to minimum capitalisation, minimum area of development and exit of investors is a welcome measure and may result in the development of several smaller projects with participation from foreign investors.

The Company anticipates tax reforms especially the introduction of GST to rationalize the tax impact and avoid multiple taxation impact thereby providing relief to the end customers as well.

As the Indian economy recovers its growth momentum, we remain positive about the markets in which we operate and maintain an optimistic outlook on a long term basis.

Projects and Work Done in 2014-15

Execution and delivery are the key underlying strengths of the Company. This was amply demonstrated during the financial year 2014-15. Despite a general slowdown in the real estate market and consequent weaker demand, the pace of execution of Company's projects continued unabated.

I. Overall Execution

Since its inception in 1995, the Company has

executed 364 projects aggregating to 70.54 million square feet of area developed. The Company has been steadily launching real estate projects and executing new contractual projects wherein significant project level investments are being continuously made. These ongoing projects are excluded from the purview of overall execution since on an average, a real estate project take around 3 to 4 years for completion.

Environment, Health and Safety

Environment, health and safety aspects are as important as the quality of the products that SOBHA delivers. A healthy environment means good working conditions in an atmosphere which is both productive and safe for the people working in it.

Environment

The focus at SOBHA has been on taking up sustainable initiatives. Not only on our construction sites but also in our manufacturing facilities every attempt is made to keep the carbon footprint low by following the best industry practices.

For its efforts, SOBHA has been recognised with the ISO 9001, ISO 14001 and OHSAS 18001 certifications for its quality, safety and environment management systems respectively, making it one of the few construction companies to get this backing. By default, our environmental friendly initiatives have qualified us for an IGBC gold rating. We have got the IGBC platinum rating for our project SOBHA Turquoise, Coimbatore and a LEED provisional certificate for SOBHA Forest View. Our environmental-friendly initiatives include rainwater harvesting facilities, sewage treatment plants and organic waste converters in all our projects. These activities are discussed in detail below.

Rainwater harvesting

Rainwater harvesting has emerged as one of the most viable options to meet the increasing water requirements of an expanding population. Rainwater harvesting also helps restore depleted aquifers thereby enhancing sustainable water yields in surrounding areas.

SOBHA's rainwater harvesting efforts include harvesting rainwater through collection tanks for roof-based runoffs and recharge pits for land-based runoffs. The land-based runoffs augment depleting groundwater resources and also save potable water from municipal supply or groundwater.

With primary treatment of sedimentation and filtration, treated rainwater can be used to meet

various domestic and non-domestic needs. SOBHA's rainwater facilities have led to nearly 60 per cent reduction in the total water requirements during the monsoon season. During FY 2014-15, SOBHA successfully completed the construction of roof rainwater collection tanks of volume 0.213 MLD and about 122 recharge pits in various projects pan-India.

Sewage treatment plant

The sewage treatment plant (STP) has been designed to treat the waste water generated in buildings. The use of the sewage treatment plant ensures that water is available for secondary uses. The generated waste water is treated up to the secondary level and is used for flushing of toilets, landscaping and for other secondary uses thereby helping in water conservation. This also helps reduce fresh water consumption and fresh water costs.

STP uses a hybrid technology – the Activated Sludge Process (ASP) combined with the Ultra Filtration (UF) technology for enhancing the quality of the final treated sewage to conform to the applicable Pollution Control Board standards.

In addition, all SOBHA construction site have mobile STPs which treat the sewage at the source of generation.

During FY 2014-15, we successfully installed STP with a total capacity of 0.69 MLD in various project all over the country. From the existing STPs, 6.72 MLD of sewage was treated and about 3.696 MLD of treated sewage was reused for flushing and gardening purposes in the project premises. This contributed towards sustaining water resources in the areas in which SOBHA operates.

Organic waste converter

An effective system of solid waste management is formulated at all SOBHA projects during the operational phase as a prerequisite. The aim is to design and follow a comprehensive Integrated Solid Waste Management (ISWM) system which is both environmentally and economically sustainable.

The integrated solid waste management system operates on the 4R principles -- Reduce, Reuse, Recycle and Recover the basic components of waste. In this system, waste is segregated at household levels as biodegradable and inorganic waste.

Waste from plant/ animal origins or manmade food falls under the organic waste category. Organic waste can be treated and used in the form of manure. Organic waste also helps in faster bioconversion of waste into organic manure. The treated organic waste is used for landscaping and gardening. The inorganic portion is handed over to authorised waste recyclers for further processing.

SOBHA has successfully installed OWCs in all its projects all over India. These had a total processing capacity of 1.10 MT during the last financial year. Also from the existing OWCs, about 2.421 MT of garbage was processed; the composted quantity was about 0.4785 MT. This was used as manure within the project premises.

Health and Safety

At SOBHA we believe that satisfied employees contribute to the growth and prosperity of the company. Therefore, as a company SOBHA is highly focused on employee-friendly initiatives and policies. These include a host of health and safety initiatives that are targeted at employees and the project workforces.

SOBHA is also committed to implementing environment-friendly initiatives and ensuring the health and safety of individuals and of the society at large. Hence, all our construction sites are given special safety instructions and strict compliance to these is ensured. Apart from complying with the requirements laid down by various statutory and regulatory authorities, SOBHA has also voluntarily undertaken a number of environment and people friendly practices.

Safety related training is also conducted for the sales and marketing teams at SOBHA with the purpose of achieving the company's objective of developing the best safety practices.

Highlights of the safety activities and achievements during FY 2014-15 include:

- An external audit for 'Second Surveillance' as per ISO 14001:2004/BS OHSAS 18001:2007 standard(s) was planned and completed.
- There were two zero accident months in FY 2014-2015 (November 2014 and December 2014).
- Sobha Indraprastha successfully completed 2 million safe man hours.
- A Karnataka High Court judge and the Deputy Labour Commissioner of Karnataka and their teams visited a few of SOBHA projects to validate the legal requirements. They covered MCC, safety training room, mockup flat and labour camp and concluded that all these complied with the legal requirements. During the visit they validated the project emergency plan as well.
- The Assistant Director of Factories, Bangalore, and an official team of 10 officials from regional labour institute (Central), Chennai visited the SOBHA Indraprastha and Global Mall site and conducted a survey of the construction sites, MCC and labour camps on implementation on safety and health under the BOCW Act. They appreciated the best practices being used.
- Successfully completed EMS & OHSAS re-certification audit by the BV team.

Among the other initiatives taken and the policies implemented were:

- Developed safety training videos for transferring knowledge about safety and the measures taken at all levels for SOBHA in-house projects.
- Organised a blood donation camp at SICG. Blood donation of 140 units was done in a single day. The Rotary team appreciated the participation and enthusiasm of the donors and rated this as one of the best blood camps that it had held with a single van.
- Conducted monthly safety meetings at the head office to review safety standards and happenings at the project sites.

- Testing done on safety nets to evaluate the quality of safety materials being used at the sites.
- A special audit was conducted at all the project sites to check site safety and labour camps.
- A safety circle meeting was conducted at all the projects on a weekly basis to review the site's safety status.
- Special training on the implementation of HIRA Aspect & Impact was given by QST HoD/Safety Manager at all the project sites.
- Demarcation of safety zones at sites introduced.
- Emergency evacuation drills conducted at night in labour camps in addition to other drills during the day time.
- Introduced and started implementing new checklists, work permits and procedures for Blasting Activity, External Vehicle Checklist, Safety belt Checklist and Ambulance Checklist.
- Special training provided to the execution team on ISO, QMS and OHSAS audit preparations.

All these efforts bore fruit and SOBHA received the '3 star rating' award from the Confederation of Indian Industry (CII) Southern Region at the 8th Edition of 'Excellence Award in Environment, Health & Safety (EHS)'. The company also received the

7th Viswakarma Award -- 'Achievement Award for Construction Health, Safety & Environment' from CIDC.

As in other spheres, SOBHA is not sitting on what it has achieved so far when it comes to protecting and improving the environment, safety and health aspects in the company. A way forward was marked during the year. Hazards were identified, an analysis was done on the risks involved and solutions identified to reduce/avoid the hazards. These include:

- Gaps were found between the manpower hoist and the walls. These will have to be closed by spreading/extending the safety nets till the walls, using jacks.
- Due to space constraints in the staircase, it is not easy to use the stairs during an emergency. This will be overcome by restricting the width of the staging in the staircase thereby providing a pathway for workers to pass through.
- Tower crane hooks were not clearly visible for the signal man both during the day and at night. 3D reflector stickers for the hooks for easy and clear visibility will be introduced to address this issue.

Some of the other steps which will be taken to maintain the highest safety standards include:

- RCCB checkers will be installed at all projects to monitor electrical readings so as to avoid damage to RCCB and to avoid electrical shocks.
- The pathway for man movement will be bifurcated and barricaded from vehicular movement.

Corporate Social Responsibility

Right from the time of its inception in 1995, SOBHA has been conscious about working with lesser privileged people and hence its CSR activities have only increased with time. Little wonder then that the government making it obligatory for companies to engage in CSR activities through the Companies Act, 2013 did not have any impact on what SOBHA had been doing and what it continues to do and expand on when it comes to its corporate social responsibility.

Since 2006, the majority of SOBHA's CSR activities have been undertaken through a public charitable trust, the Sri Kurumba Educational and Charitable Trust. Broadly, SOBHA's CSR activities span the following areas:

1. Providing education and vocational training
2. Providing healthcare facilities
3. Looking after the aged, the elderly and those in need

Coverage of CSR activities

In Kerala, two panchayats of Vadakkenchery and Kizhakkenchery in Palakkad district were chosen in 2006 for CSR activities and brought in the ambit of the Graama SOBHA, which is similar to the Gandhian concept of Gram Swaraj. During a year-long social empowerment mapping exercise in the panchayats, 2,500 families (around 11,000 people) were identified as the most economically and socially disadvantaged who are now beneficiaries of SOBHA's CSR initiatives. In Karnataka, seven panchayats in Hoskote Taluka were selected in 2013 for carrying out CSR activities and a study was undertaken to map the beneficiaries. The Company is progressing slowly on the Hoskote front because of its existing CSR obligations. Apart from this, the Company has been steadily contributing to various NGOs in Karnataka towards development of schools, identified communities etc.

Providing education and vocational training

The Sobha Academy

Following the belief that education is the first step on the road to empowerment, The Sobha Academy was set-up in 2007 to tap young minds and channelise

their focus and energy towards education. Targeted specifically at children from the weaker sections, all applications that come to The Sobha Academy are scrutinised to ensure that only deserving candidates are given access to the free and quality education that the Academy provides. Selected students are made to undergo a medical fitness test and the final selection of students is made through an open draw. The Academy, which follows the CBSE curriculum, bears all academic and related costs like fees and books, transportation costs, food and healthcare. During 2014-15, 824 students in the Vadakkenchery and Kizhakkenchery panchayats were on the rolls from LKG to Class 8. There were 47 teachers and the Academy had a student-teacher ratio of 17:1. Since January 2015, the Academy has been functioning as a partly boarding school with students from Class 8 provided with accommodation in the campus.

Sobha Pre-Schooling

Pre-schooling is being launched for prospective students of The Sobha Academy by making available e-resources and facilities at students' homes to improve their sense of words, numbers, shapes and colours in a systematic manner. To start with around 90 students will be provided with audio-visual aids and other necessary materials to improve their vocabulary and communication skills. This programme will also help in developing a bond between the school and parents.

Sobha e-Self Learning

Sobha e-self learning at home is being introduced in LKG and UKG classes; this will progressively include classes 1 and 2 covering 360 students. Every house will be equipped to support self-learning of students using e-devices. The objective of the programme is to provide opportunities to students for development of communication-interaction skills thereby improving their all-round performance. This will also help families living in the rural areas who cannot provide academic support to their children.

Sobha Icon Higher Secondary Course

The Sobha Icon Higher Secondary Course is a two-year full time on-campus, regular, 6 days technology-driven, professional college enrolment

oriented programme for a batch of 60 students each in Science and Commerce streams. The programme is conducted at the Sobha Icon Campus at Moolamcode and is registered with the Kerala State Open School for certification.

In the 2015 Kerala Higher Secondary Board Examinations, not only did the students get 100 per cent distinctions but 95 of the students also scored more than 90 per cent marks. Twelve students scored full A pluses in all subjects with the score as high as 98.8 in subjects. Two students also passed the JEE main in May 2015. Two Icons have already got admission in Azim Premji University's UG programme with scholarships.

Sobha Icon

This initiative aims at creating 'Icons for India' by making high-quality learning opportunities available for deserving students from government schools who have exceptional skills but do not have the opportunities to grow. Regular academic professionals have been engaged to enhance the performance of more than 100 students.

Shadow Icon

This is an intensive weekend academic support programme for students from upper primary schools. Around 75 students from classes 6 and 7 from different local schools are beneficiaries of this programme.

From academic year 2013-14 onwards, SSLC examination rank holders in the CSR project areas are also being recognised with SOBHA Medals for Academic Excellence.

Regular meetings with parents are held for The Sobha Academy, Sobha Icon, Sobha Icon Higher Secondary as well as Sobha Shadow Icon students. The meetings discuss the progress of the children so as to maximise the benefits of the education being provided to them.

Sobha Vocational Training Centre

Realising that there is a big vacuum when it comes to accessing vocational training options among young adults, the Sobha Vocational Training Centre (SVTC) was started which provides functional vocational training and paid apprenticeship options to young adults from weaker economic sections in carpentry;

other centres provide training in computer education, music and tailoring. The centre also provides direct and indirect employment to deserving students. Up to 2014-15, the computer centre had provided training to 86 young adults and direct and indirect placements to all of them.

Providing healthcare facilities

Sobha Healthcare

Started in 2007, Sobha Healthcare is one of SOBHA's flagship CSR activities which provides free and easy access to primary healthcare. Those who avail of the healthcare facilities include 2,500 identified families in the selected panchayats, students of The Sobha Academy and residents and staff members of Sobha Hermitage. Among the healthcare facilities offered are consultation, diagnostics, treatment, medicines, dental and ophthalmology care.

The healthcare centre also has four day-care beds, state-of-the-art equipment including a digital ultrasound scanning system, a 300 MA X-Ray unit, an automated clinical laboratory and a physiotherapy department.

The following beneficiaries avail of free healthcare facilities under the various Sobha Healthcare programmes:

- All SOBHA's project staff and migrant workers are provided annual medical screening.
- Residents of Sobha Hermitage.
- Students of The Sobha Academy who are screened twice a year for medical / ophthalmology / dental care. Road to health growth charts are also maintained for all students.
- All parents of students at The Sobha Academy undergo medical / relevant clinical laboratory examinations; they are also provided appropriate treatment.
- All employees of the Sri Kurumba Educational and Charitable Trust who undergo yearly medical / relevant clinical laboratory investigations.
- Below the poverty line families in the two selected panchayats of Vadakkenchery and Kizhakkenchery who have also been given identity cards.

During 2014-15, 12,990 patients were treated under the Sobha Healthcare programmes.

Looking after the aged, the elderly and those in need

Sobha Hermitage

The focus of SOBHA's CSR activities is not only on the young. The Company also believes in looking after the elderly in their golden years. Sobha Hermitage, which was set up with the specific aim of providing shelter and assistance to elderly from weaker sections of society, has now become a home for senior citizens and young widows and their children. Besides providing residents a roof over their head, Sobha Hermitage also makes sure that they are provided all necessary amenities to lead comfortable lives. Residents have independent rooms, a library and a common television room, a gym and also internet access. All residents can also avail of round-the-clock medical facilities, if needed, which are provided by paramedical staff; there is a doctor on call during non-working hours. The Hermitage also has an in-house clinic.

Cultural and social activities like celebrating birthdays of residents are also organised at the Hermitage.

Other initiatives

The Sobha Young Mothers Rehabilitation Programme

Young mothers and children who live in Sobha Hermitage are provided a comprehensive rehabilitation package under which young mothers are given employment at The Sobha Academy for which they are paid appropriately. They are also given the option of pursuing education free of cost. Their children are enrolled in The Sobha Academy where they are given education, which is again free of cost. The young mothers are also given support in case they wish to remarry.

Sobha Rural Women Empowerment

Fifty widowed mothers and their children belonging to the Kizhakkenchery and Vadakkencherry panchayats are being provided with a basic monthly living allowance, clothing, medical and other personal accessories. Educational expenses of their children are met by the Trust so as to give them adequate opportunities to come up in life.

Sobha Social Wedding Programme

This programme helps people from economically weaker sections to get married. So far 468 mass social weddings have been organised under the programme. On an average about 40 weddings are organised every year. All the wedding expenses are taken care of and the couples are given basic necessities for starting their new lives. Besides, couples are also given pre-marriage counseling and if needed financial support is also provided after marriage.

Sobha Community Centre

The Sobha Community Centre provides a stage for various community development programmes like hosting social weddings and for conducting medical camps and orientation/training classes. Besides, the centre also has a dining hall which can accommodate about 300 people. The poor and destitute are provided free meals twice a day at the centre.

Going green

SOBHA has taken up a number of green initiatives in the CSR project areas. For starters, a campus has been constructed without any alterations to the terrain. The campus also has more than 3,000 plants and herbs and follows rainwater harvesting. Waste management too is being undertaken and the campus is totally plastic free and a no-smoking area.

SOBHA also provides support to other green attempts like maintaining a community pond.

Support to 'Mission: Zero Landless Kerala'

At the request of Government of Kerala, support has been extended to 50 people in the Vadakkenchery and Kizhakkenchery panchayats for the cause 'Mission: Zero Landless Kerala'.

Other causes

The Trust has reconstructed damaged houses of flood-hit families in Vadakkenchery and Kizhakkenchery panchayats. It also sponsors students who get admission in engineering and medical graduate courses on merit but who do not have the financial means to carry on their studies.

Research and Development

Given that SOBHA believes in providing the best products on time and at appropriate prices it has to lay a lot of emphasis on research and development so that its products not only meet all international standards but they are also efficiently constructed and delivered to consumers.

To achieve this, SOBHA remains abreast of all technological advancements across the globe and adapts the relevant ones to its work. Further it encourages its employees to develop new technologies to improve on every little detail that goes in the construction of user and environment friendly buildings. Its construction activities and best practices are standardised and followed across all the projects.

Over the years SOBHA has also mastered the art of selecting the right method of construction, the right machines to use and the right kind of materials to source making R&D initiatives a significant part of its business process.

SOBHA makes extensive use of an in-house virtual application, Idea Space to identify the new best practices. It also invites ideas from employees on different areas of its operations using Idea Space. Broadly speaking these ideas cover four parameters: quality, feasibility, safety and customer orientation.

On the basis of entries received, models which can lead to an improved business performance are implemented across locations. They are also showcased at Genesis, an exhibition of in-house innovations that the Company organises twice every year to celebrate creativity and innovation.

The technology and innovation based initiatives at SOBHA can be categorised into three segments:

1. Central innovations
2. Divisional innovations
3. Project specific innovations

1. Central Innovations

R&D innovations that impact Company-wide activities fall in this category. Some of the initiatives taken under this category during FY 2014-15 are:

- **Training Videos – Quality and Safety**

Twenty-three activity training videos and 10 safety training videos for transferring the knowledge to all levels through training at all our in-house projects were developed during the year.

- **Introduction of Physical Measurement Technique Tools Software**

This innovation covers a small though significant part of SOBHA's construction activity. The software has been used to measure and analyse the quality of an elevator ride and also the vibration and sound aspects.

- **Epoxy Flooring for Basements**

Epoxy flooring adds colour and beauty to the concrete floor in basements. It is applied to the concrete for protection and for enhancing the aesthetic appeal of the floor. Its other features are that it provides strong adhesion, is long lasting and rust and water proof. It is also heat resistant (no hot tire pick-up) and also resistant to salt and acid making it very suitable for basement floors.

- **Online audit management system**

This is a web based data management system which manages reports in such a manner that all the parties involved in the process can access all relevant data online. It also has the facility to intimate the concerned people when data or reports are pending thereby making the process of audit management more efficient and transparent. Using this data management system also means that there is no need for continuous follow up of reports making the process more streamlined. The online audit management system can be used in all SOBHA offices and projects.

2. Divisional Innovations

Divisional innovations are R&D activities pioneered by various divisions within SOBHA. The important

initiatives undertaken by various departments at SOBHA during FY 2014-15 include:

- **Concrete Products Division**

SOBHA's Concrete Products Division follows strict safety and health measures and its products comply with environment regulations and help towards reducing the carbon footprint. Some of the innovations that the Division has introduced this year include:

Pavers

Earthen Series of Pavers

This is a new way of adding more colour and vibrancy to pavers. The pavers can be used for making newer and more innovative designs and patterns in a range of colours. The pigments used for this are specifically imported from the UK.

Cobble Stone Pavers

These tumbled pavers are available in different colours and are smaller in size compared to other pavers. They are also available in different colours and add to the visual appeal of the pavers. Ideal for walkways the tumbled pavers use different colours to give them a unique touch and appeal. These pavers are also available in a shot blasted finish with a variety of tumbled patterns. Their use is limited only to the user's imagination.

Kerb Stones

The new kerb stones are ideal for adding elegance and perfection. These high quality concrete products are manufactured in technical collaboration with WEM, UK and can be used alongside driveways or to separate gardens/landscapes from utility areas and driveways at residences. These hydraulically pressed Kerb stones are specifically designed to suit all types of block paving and are available in both small and large sizes.

Smart Dynamic Concrete

This new innovation from the Concrete Products Division at SOBHA, takes engineering to a whole new dimension. The hallmark of the smart dynamic

concrete is that it is composed and manufactured differently. Its use makes life easier for the construction team and also helps in finishing projects faster.

GFRC

GFRC cladding panels are generally manufactured by the 'hand spray' technique. The material is sprayed into a mould using special machinery. The innovative method used can produce high-performance materials from which panels with extremely thin, lightweight sections can be made. These can be used both as dust covers and also as panels.

- **Mattress Division**

Measuring firmness index for mattress spring

This instrument replaces the manual testing of firmness in mattress springs. The manual method is not very accurate and is also labour intensive as the firmness is tested using bare hands. When firmness is checked using the equipment, a firmness index is obtained which is not only more dependable in terms of results but which can also help standardise the hardness/firmness in the mattresses. Thus, consistent quality can be maintained for the mattresses. This will also help in making mattresses which have different levels of firmness/hardness.

3. Project specific innovations

- **Replacing wooden service doors with marble in bath tubs**

This innovation means replacing the wooden service doors with marble ones in bath tubs. Not only are these aesthetically more appealing but they can also be made using the waste marble pieces available at the sites. This is cost effective as marble is more durable than wood and the material used is already available as waste at the sites.

- **Cross shifting trolleys**

A trolley on a rail is fabricated with scrap material that is available at the sites. It is fitted on the ground and overlaps the fly zone of the

two tower cranes. The crane which has vehicle access can handle the material/concrete and load it on to the trolley. The trolley can then be manually moved to the fly zone of the other tower crane and the material can be shifted.

This is ideally suited for those sites where the tower cranes are very close to each other and the overlapping of the cranes is not done as per safety standards. Small sites which use two or more tower cranes and have limited vehicle access have trouble shifting material through the blind spots in the tower cranes. This problem can now be addressed by using the cross shifting trolley.

The trolley thus helps in avoiding accidents due to the overlapping of tower cranes.

- **Tile hole cutter**

A portable frame has been fabricated using scrap MS on the site and plywood and forex sheets. Earlier the cutting of tiles for fixing fittings and fixtures in toilets, kitchens and utilities, was done in a centralised location. The tile had to be marked for cutting and then taken to the cutting table. Once this was done the tiles were taken to the sites. This method was both time consuming and not very efficient. Since the portable hole cutter means that the tiles are marked and cut at the location, it leads to more efficiency in terms of improved speed, precision and mobility. The process time has been reduced from 30 minutes to 2 minutes.

Employees

What cannot be stressed enough is that a Company's biggest strength is the people who work for it. This is even truer for SOBHA as it follows the principle of managing as many of its activities as it can in-house. This means that not only does it need to have adequate staff numbers but it also needs to have people with different skill sets to look after its various activities. Equally importantly, SOBHA also has to make sure that its staff members are not only well looked after financially but that they are also given ample opportunities to grow both professionally and personally.

Employee Strength

With 26 departments and three manufacturing divisions, SOBHA is one of the largest employers in the real estate sector. Over the years, SOBHA has also expanded its footprint and today it has a presence in 24 cities in 13 states across India. The Company has a talented and dedicated workforce of 3,046 employees as on March 31, 2015.

SOBHA places a lot of emphasis on talent, experience and being proactive. Any employee who displays willingness and aptitude for growth, is provided opportunities to achieve it.

The Company has a young workforce with an average age of 31 years. Such a young team brings innovative and creative ideas, is motivated and is keen to work hard to achieve both personal goals

and the Company's goals. At the same time, SOBHA also has enough senior employees who come with a wealth of knowledge and experience and who act as mentors to the young employees and help them and the Company move in the right direction.

How It Works

Unlike most other real estate companies, SOBHA does not outsource the construction activity. The Company follows a backward integration model, which means that most of the activities involved in construction are carried out in-house. For this the Company has a design, structural and architectural studio and three manufacturing divisions for Glazing and Metal Works, Concrete Products and Interiors.

Further, even the sales and customer relationship management functions of SOBHA are internally managed.

For carrying out these specialised tasks, SOBHA needs people who are talented, skilled and resourceful. Hence, its focus is not only on getting such people but also retaining them. SOBHA concentrates on the following areas for achieving this:

Recruitment, Training and Development

SOBHA has a team of experienced people who recruit and induct the best talent that is available. The Company also follows a detailed and comprehensive

recruitment process. Using all possible avenues at its disposal for selecting the right candidates, including the social media networks, prospective employees are screened under three broad categories: technical, functional and behavioural competencies. SOBHA also uses IQ and technical tests along with psychometric tests in the hiring process.

Selected employees are made to go through an induction programme which includes a visit to SOBHA's manufacturing facilities. The induction programme is meant to give a broad overview of the Company and its activities and its processes and policies.

At the same time, SOBHA also has an in-depth training and development module which is upgraded regularly on the basis of technological developments and new practices and methods that come up. The training is both on-site and off-site and is meant to hone the skills of employees so that they can meet the set quality standards effectively.

SOBHA also has a technology manual which gives details of all procedures followed at the project sites for different functions involved in the construction business.

Broadly the training process involves

1. Induction programmes for all new employees to acquaint them with the organisation structure, business units, departments and work processes.
2. Twenty-four hours each of mandatory behavioural and technical training every year.
3. Reverse training at project sites. In this, employees become trainers and impart their knowledge and experience to others.
4. Workforce development training programmes to address the concerns of construction workers and contribute to their overall well-being.

The Management Trainee Scheme

This is a leadership development programme wherein talented civil engineers from reputed educational institutes are selected and groomed into future leaders. The intensive training sessions equip the trainees with necessary skill sets and knowledge

to handle critical functions of project management and delivery.

Internships

SOBHA provides opportunities to interns where they are exposed to a professional work environment, world-class manufacturing facilities and to innovative and benchmark practices in construction and development.

The Leadership, Development and Training Department is located at the SOBHA Academy, Bangalore.

The Academy has 11 in-house trainers who conduct behavioural and technical training programmes throughout the year.

Technical Training

To ensure that all employees at all levels are trained, SOBHA also provides extensive technical training. The technical training includes that for tiling, water proofing, aluminium works, electrical and plumbing works. SOBHA has identified 28 distinct activities which form a part of executing a project. These activities need to be undertaken in a sequential order and need to use appropriate methodologies, techniques and tools.

Hence, employees are given activity-specific training so that they can become familiar with the direction of the project's execution, reduce complexities and assure delivery on time by following international standards.

Further, a novice trainee undergoes both theoretical and practical training for an average of four weeks. This is followed by eight weeks of on-the-job training under the supervision of skilled and experienced technicians. Then there is 12 weeks of precision training. After all these training modules are complete, a technician's skills are tested for the proficiency attained. This is followed by nine months of execution training. After a technician's basic skill set reaches the desired proficiency level, he is trained to acquire higher and advanced skills.

During 2014-15, SOBHA conducted 6,920 hours of technical training. Besides this, the Company also conducted 3,032 hours of training for technicians

Age wise Distribution

in various trades and 2,528 hours of training for technician supervisors.

Behavioural Training

This training module covers a wide range of subjects such as Interpersonal Skills, Time Management, Communication Skills, Etiquette & Mannerism, Team Building, Industrial Relations, Man Management, Motivation Skills, Interviewing Skills, Art of Success and Work Life Balance.

This training provides employees with an opportunity to develop their talent and augment their skills thus contributing to their overall development.

During the year, the Company conducted 24,088 hours of behavioural training for its employees. It also conducted adhoc programmes for 5,072 hours.

Training an on-going exercise

At SOBHA training is an on-going process and the Company assesses the efficiency and performance of its employees at regular intervals. These are tested against established targets and prevailing industry standards.

SOBHA recognises high performance individuals and rewards them accordingly.

Retaining Talent

SOBHA considers retaining talent and minimising employee turnover as a real challenge. For this it follows a transparent, open and supportive work culture so that employees can participate and be involved at all levels of the Company's functioning.

Employees are also given various platforms to exhibit their ideas and innovations. The Company also encourages employees to air their grievances and tries to address their genuine needs and concerns.

Deserving employees are recognised and rewarded to boost their morale.

Providing an employee friendly environment

Providing an employee-friendly environment and policies also helps SOBHA in both attracting and

retaining talent. For this, it has a number of employee specific initiatives:

Employee achievement awards

Celebrating its 20 year journey, the Company organised the first SOBHA Excellence Awards during the year. Out of all SOBHA employees from across India, the jury short-listed 38 professionals (almost the top 1 per cent of the entire strength) as nominees across different award categories through a stringent process of nomination, screening, selection and validation. Out of this remarkable group, the top 11 candidates were honoured with the coveted SOBHA Excellence Awards. A group of SOBHA's longest serving employees were also honoured for their Commendable Years in Service to the organization and a group of stalwarts was recognised with Sobha Special Awards.

Team Building

The Company fosters team building by encouraging and supporting outbound recreational programmes and excursions for employees.

Creative club

The club celebrates important occasions like Earth Day, World Plumbing Day and Earth Hour. It also celebrates festivals and is responsible for organising 'SOBHA Utsav', an annual cultural programme in which employees showcase their talent and creativity.

Employee safety measures

Fire-fighting and first aid training is imparted to employees on a regular basis. Safety Day is observed at all project sites every year when the construction workforce is briefed about the safety procedures to be followed. Sites which achieve zero accidents are rewarded.

Employee communiqué

SOBHA's in-house magazine 'Innerv' communicates news and developments in the organisation to all its employees. The magazine also carries articles written by the senior management, recognises high-performing employees and also carries contributions by employees.

Risk Management Report

In a highly competitive and increasingly globalised world every organisation has to live with the inevitability of facing risks. Be it decision making or carrying out the day-to-day operations, a company has to be ready and prepared for handling risks.

This inevitability is as much -- if not more -- true of the construction and development sector. In this sector a company is exposed to risks at various levels, some of which are within its control while others are not, so a company has to have a risk management framework in place.

Having a risk management framework helps a company to identify, assess and prioritise the risks so as to be able to deal with them effectively. Risk management also prepares a company to anticipate risks so that effective ways of dealing with them can be put in place. This helps in mitigating the impact of the risks and also finding ways of reducing their occurrence. Further, effective risk management helps a company not only tide over a risk but also to do so while optimising its performance while facing the risk.

Broadly speaking risks can be classified into two categories:

1. Those which are beyond the control of a company.
2. Those which are within the control of a company.

Risks which are beyond the control of a company include:

Natural and man-made disasters

Natural disasters include earthquakes, fires, droughts and floods and man-made disasters include acts of terrorism and military action.

Risk Containment Strategy and Measures

SOBHA takes adequate insurance cover for managing disaster-related risks. It also takes

appropriate measures to ensure that the structural design of its buildings conforms to the applicable construction standards.

Risks related to the sector

Sales Market Risks

Customers are the key to the success of any company, a real estate company being no exception. While owning a home is an aspiration for many in India, the decision to purchase a house can always be deferred. A decline in the real estate market may cause potential buyers to turn cautious and defer / delay their purchasing decisions

Land Related Risks

Land is a basic input for a construction company and its unavailability or shortage can lead to an increase in its prices. Such situations with the resultant increase in prices of land can have an adverse impact on the performance of a company. Further, the availability of land, its use, and development are subject to regulations by various local authorities. In India, the uncertainty of underlying land titles is also a major factor involving the risk of legal disputes and related costs. Further in India not only are the laws and regulations complicated, there is also a shortage of appropriate parcels of land. This makes the prices of land volatile. A drop in land prices may erode the book value carrying cost of land. This in turn could affect the profitability of a company.

Interest rate risks

Interest rates are subject to a number of factors primary among which are those that have to do with the government, monetary and tax policies, domestic/international economic and political conditions, and other factors beyond the control of a company. Changes in interest rates may increase the company's cost of borrowing and impact its profitability.

Regulatory risks

SOBHA is subject to extensive local, state and central laws and regulations governing the acquisition, construction and development of land, including those related to zoning, permitted land use, fire safety standards, height of buildings and access to water and other utilities.

Legal risks

SOBHA is involved in certain legal proceedings relating to the lands owned by it and claims in relation to taxation matters. Any adverse decision may have a significant effect on the company's business, prospects and financials.

Political risks

Changes in government policy, social and civil unrest and political developments in or affecting India could affect the company's business interests. Specific laws and policies affecting real estate, foreign investment and other matters affecting investment in the company's securities could also change.

Risks related to the economy

An economic slowdown

Just as the risks associated with the construction sector are beyond the control of a company so also the risks that have to do with the economy as a whole. A downturn in the economy can lead to a decrease in sales or market rates for residential projects. Prospective customers may not be able to obtain housing finance. In extreme cases of an economic downturn a company may also run the risk of customer insolvencies though the registration of property happens only on receipt of entire dues from the customers. These factors could decrease the revenue generation from some or all of a company's residential businesses, adversely affecting its business and future growth.

Uncertainties in global and national economic systems

Uncertainties in the global and national economic systems, a changing demographic profile of the

country and inflation also have a bearing on the functioning of a company operating in the real estate sector. The per capita income of the country has witnessed a steady growth and there has been a consequent increase in the purchasing power of customers. However, a downturn in the economy may see increased levels of unemployment and a decline in income levels. This may impact the operations of a company.

In India, a real estate company's business is dependent on the easy availability of finance. An economic slowdown and rising inflation can result in funds drying up.

Risks which are within the control of a company include:

Customer risks

A significant portion of sales from real estate operations is generated from Bengaluru, which is the base of SOBHA's operations. A decline in the Bengaluru real estate market, new competition or a shift in customer preferences may have an adverse effect on its business and operating results.

Contractual business depends solely on orders received from corporate entities for their construction requirements. A substantial portion of revenues from contractual projects is generated from one major client operating in the information technology sector. If this client either reduces or stops providing SOBHA contractual projects, or if there is a slowdown in the IT sector, this could adversely affect its business.

Borrowing risks

The real estate sector is capital intensive and requires a significant expenditure for land acquisition and development. SOBHA is subject to the risks normally associated with debt financing and may be required to dedicate a portion of its cash flow towards repayment of its debt commitments. This may reduce the availability of funds for other business purposes such as working capital expenditure, financing of acquisitions and investments. It may not be possible to generate adequate cash flows to service principal and interest payments. In certain cases, lenders also have the right to recall a loan. Such an event could impact SOBHA's liquidity and credit rating.

Liquidity risks

Investments in the real estate sector are relatively illiquid. SOBHA may not be able to liquidate its assets promptly in response to economic, real estate market or other conditions. It may even be required to substantially reduce the price to ensure a quick sale.

Credit risks

SOBHA undertakes certain projects in collaboration with other parties. Credit risk arises when they do not discharge their obligations and in such circumstances, SOBHA may be required to make additional investments in a joint venture or become liable for the other party's obligations.

Project implementation risks

Real estate projects are subject to a number of implementation risks such as regulatory delays, construction delays, material shortages, cost overruns, migratory labour, unavailability of skilled labour, accidents and quality control. SOBHA's operations may be unfavourably impacted if these risks are not effectively managed.

Input cost risks

Fluctuating input costs are a risk inherent to the real estate business. SOBHA's operations are subject to budget overruns due to a number of factors like increase in construction costs, repair and maintenance costs, sub-contracted service costs and labour costs. Increased operating expenses may affect profit margins as the prices of properties sold cannot be altered. Correspondingly, if the selling price of unsold properties is increased, the demand may be adversely affected.

Supply chain risks

If suppliers of raw materials curtail, discontinue or disrupt the supply of materials, SOBHA's ability to meet the material requirements for projects could be impaired. This could lead to disruption of construction schedules, and projects may not be completed on time.

Personnel risks

Like any other company, SOBHA's performance also depends to a large extent on the abilities of its employees. Employee attrition could have an adverse impact on its business. SOBHA's performance could also be affected if it is unable to identify, attract and retain key employees like engineers and architects.

IT and system risks

SOBHA uses an Enterprise Resource Planning system known as RConstruct for integrating its core and back-end activities like architecture, engineering, projects and costing. A breakdown of existing IT systems or a delay in implementation could disrupt its ability to track, record and analyse the work in progress; it can also result in loss of valuable data.

Competition risks

Real estate developers undertaking similar projects within the same regional markets as SOBHA are in direct competition with it. Due to the fragmented nature of the real estate development business, adequate information about competitors' projects may not be available and SOBHA could run the risk of underestimating the supply in the market.

Diversification and investment risks

Expansion into new geographies exposes SOBHA to risks such as a low level of familiarity with the development of properties in that area and attracting potential customers in a new market. Competitors may be better known in these markets and might enjoy better relationships with landowners and joint-venture partners. They could have early access to information regarding attractive land parcels and be better placed to acquire such land.

Potential impairment of intangible assets arising out of acquisitions like goodwill can also place an additional financial burden on the company. Investments usually have a gestation period spanning several years. Associated risks include those relating to obtaining the requisite regulatory approvals for projects. Changing government policies may also impose restrictions on investments.

Risk Containment Strategy and Measures

SOBHA's attempt has always been to produce high-value products for quality conscious and discerning customers. A majority of its customers are not dependent on external financing and are able to self-finance the purchase. Moreover, the company also has a dedicated and robust in-house sales and marketing team, which is entrusted with the task of generating enquiries for the products and translating them into sales. This reduces reliance on external agents and brokers.

SOBHA has a Customer Relationship Management (CRM) department to exclusively interact with customers, resolve their queries, address their issues, streamline the purchase process and receive feedback. An online portal has been designed for customers where they can share their views and also check on the status of the project. The core responsibility of the CRM department is to ensure smooth and hassle-free transactions to the satisfaction of the customer.

SOBHA has been steadily expanding its geographic presence when it comes to the real estate domain. This diversification has reduced its dependence on a single market, Bengaluru, which at one point accounted for all the sales of the company. Bengaluru now contributes only 60 - 70 per cent of new sales.

There has also been a conscious effort to enlarge the client base when it comes to the contractual projects' front. Enlarging the client base to include a big pool of corporates and institutions ensures that dependence on any one particular client has been reduced. Out of the projects currently under progress, the share of contractual orders received from other clients has increased.

SOBHA has a proven track record in servicing its debt obligations. The gearing levels of the company have been efficiently managed in the last six financial years as a result of which the gearing ratio came down from 1.76 in 2008-09 to 0.76 in 2014-15.

Effective methodologies are in place for managing the land portfolio. Extensive diligence is carried out

before acquiring land or entering into partnerships for joint ventures or joint development.

Employing well-governed processes ensures that project-level implementation risks are minimised. SOBHA has an in-house Quality, Safety and Technology department to address quality issues of the end product.

SOBHA has long-standing relationships with suppliers for the purchase of key materials. It also follows a backward integration business model wherein the key inputs for the final product are sourced in-house, reducing the dependence on external suppliers.

With a view to containing the risk of attrition and retaining personnel, effective policies are in place to keep them motivated.

SOBHA owns the intellectual property associated with the ERP system and has an in-house IT department, which caters to the development and maintenance of IT systems, the ERP framework and associated IT-related issues.

The outlook for long-term demand for real estate in India is stable and positive. The emergence of Tier-II and Tier-III cities, urbanisation, large-scale employment generation in cities, nuclear family setup among other opportunities, will contribute to a substantial increase in demand for real estate and corporate space in the future.

SOBHA has a strong in-house legal department. It also engages experts to mitigate legal and regulatory risks. It is an active member of trade associations like CREDAI, CII and FICCI and is involved in making joint representations to the government and regulators on common issues faced by the sector.

SOBHA'S foray into new geographies is based on a thorough analysis of the prevailing market conditions and regulatory environment. Several contractual projects have been successfully executed in the cities that it plans to enter and therefore, there is a good understanding of the local factors in play. The company also engages locally available manpower resources.

Risk Interaction

The risks faced by a company are not mutually exclusive. The following table depicts the interplay of the various risks:

The various risks faced by SOBHA, likelihood and impact of these risks are mapped below:

The Audit Committee reviews and advises the management on all categories of risks the Company faces, the exposure in each category and on the acceptable and appropriate levels of these exposures. It also monitors the steps taken by the management to control such exposures and ensures that the overall risk exposure is within the risk capacity and risk appetite of the Company. The Company has also constituted a Risk Management Committee which supports the Audit Committee in discharging its risk management function. The Board of Directors of the Company are also apprised of the risks faced by the Company, and of the adequate and timely risk management measures taken to mitigate them.

Operational and Financial Analysis

At the start of fiscal 2015, formation of a strong stable government at the centre revived hopes of imminent policy and legislative reforms and gave much needed fillip to the ebbing investor sentiment. Macro-economic fundamentals such as GDP growth rates, inflation, current account deficit and interest rates also displayed signs of improvement during the financial year 2014-15. For the real estate sector though, the challenges persisted in the form of weakened demand, low absorption and rising inventory levels. On the other hand, it was adversely affected by heightened interest rates, rising input costs and lack of major tax incentives for customers. A general slowdown resulted in slower sales across the markets. In this backdrop, we present our financial and operational performance for the year.

Following are the key financial takeaways for fiscal 2014 – 2015

- Registered a turnover of ₹ 24.55 billion
- Over ₹ 16.36 billion of revenues from real estate operations
- Over ₹ 7.96 billion of revenues from contracts and manufacturing operations
- Collections of ₹ 25.77 billion
- Net operational cash flows at ₹ 3.34 billion
- PBT of ₹ 3.72 billion
- PAT of ₹ 2.38 billion
- Debt Equity ratio as on March 31, 2015 at 0.76
- Credit rating – ICRA (A) [upgrade] and CARE (A) [retained]

On operational parameters, the Company had

- Developed 70.54 million square feet of Total Area since inception
- Execution of 51.12 million square feet of Total Area in progress
- Executed over 30 million square feet in cumulative for our single largest contractual customer
- Completed a cumulative of 364 projects in the Real Estate and Contracts domain

- Execution presence of Real Estate and Contractual projects in 24 Cities covering 13 States in India
- Sold 3.28 million Square feet of Total Area in 2014-15
- New Sales of ₹ 20.95 billion
- Completed 25 projects in the Real Estate and Contracts domain in 2014-15

New Sales

During the financial year, the Company registered new sales SBA of 3.28 million square feet valued at ₹ 20.95 billion at an average price realisation of ₹ 6,389 per square feet.

Our core competence has always been to provide superior products with enduring value in emerging and fast growing locations. During the year, the Company forayed into a new segment 'Sobha Dream Series' with the pre-launch of 'Sobha Dream Acres' Project with ticket size ranging between ₹ 3.5 – 7.50 million. With the launch of this Project, we have made a strategic shift in the product category and ticket size offered, enabling the Company to cater to customers across price-points.

The Project involves the use of precast technology for the first time in the Company's construction methodology. The benefits of inducting precast technology on this scale will be realised in the form of reduction in the cost of construction as well as in the timelines required for project completion. The precast technology can also be utilised across other projects of similar size and scale in the future.

The classification of new sales in terms of price band is as follows:

Sales Value in terms of Price Band

Real Estate

The main strength of the Company is its ability to consistently deliver quality products in the real estate space. The real estate operations of the Company are currently spread across 9 cities.

Following is the performance of the Real Estate Vertical:

	₹ in million				
	2014-15	2013-14	2012-13	2011-12	2010-11
Revenue	16,362.88	15,243.41	14,112.19	10,313.69	10,739.34
Share of Revenue (%)	66.64	69.80	75.46	72.92	76.73

The CAGR in revenues from real estate vertical over the past 5 years is 11.10%. The share of real estate revenues to the overall revenues has declined y-o-y due to higher contribution from the contractual and manufacturing operations.

Land Portfolio

Land Portfolio is the key differentiating asset for a real estate company. The ability to acquire land parcels at competitive prices or enter into Joint Development Agreements for future launches helps in maximising profits for the Company. The Company has a land portfolio comprising of 2,525 Acres wherein the Company holds an economic interest of 2,435 Acres. The majority of the land portfolio has already been paid for. The overall cost per square feet of the land portfolio is ₹ 192.

The location wise distribution of the land portfolio is given below

Sobha Share of Developable Area

(in million square feet)

Land is one of the primary raw materials for the Company, a key factor of production. As such, the priority of the Company is to explore and identify suitable opportunities for its development. For instance, during the year under review, the Company unlocked the value of land admeasuring 81 acres located at Balagere, Bangalore, a part of its historic land bank. It is one of the largest residential development being undertaken by the Company.

- Sobha Winchester in Chennai with a super built-up area of 0.51 million square feet

Successful entry into new Geographies

Though it is generally perceived that real estate is a regional play devoid of opportunities beyond the home turf, the Company has been consistently venturing into new cities. In the last five financial years, the Company has entered into five new markets, viz. NCR, Chennai, Calicut, Cochin and Mysore. The Company's foray into the new markets has been successful as the products launched by the Company in these 5 locations have been well received. The Company has a presence in 24 diverse markets in 13 states in both real estate and contracts verticals.

Contracting

The contracts vertical has been executing orders ranging from civil structures, finishes, MEP works, metal and glazing works and interior furnishings for various reputed clients. The contracts vertical of the Company has been a significant contributor to the revenue stream of the Company. With 9.31 million square feet of contractual orders under progress and contractual orders of approximately ₹ 6.65 billion pending to be executed as at March 31, 2015, the contractual operations will continue to be a source of steady revenue.

Following is the performance of the Contracts Vertical:

	₹ in million				
	2014-15	2013-14	2012-13	2011-12	2010-11

The CAGR in revenues from contracts vertical over the past 5 years is 25.01%

Manufacturing

Sobha is one of the few backward integrated real estate companies which has the capabilities, skills and resources to deliver a project from conceptualisation to completion. Backward integration ensures that the products and services required for the construction and development of a project meet our desired standards of quality and are delivered on a timely basis. This also ensures that the products are superior and the Company has a reduced dependence on external suppliers. The quality of the end product is monitored and the substantial product related improvements can be carried out. The Company believes that the Backward Integration model has been one of the important factors for our successful execution track record without compromising on quality.

Our backward integration model comprises of Glazing and Metal Works, Interiors and Furnishing Works and Concrete Works which supplement our core business of real estate and contracting. Each of these manufacturing divisions is a profit centre by itself and is efficiently and professionally managed.

Glazing and Metal Works Division

The Glazing and Metal Works Division of the Company deals with metal and steel fabrication, aluminium and steel structures and has facilities in Bangalore, Chennai and Sonapat.

Interiors Division

The Interiors Division of the Company deals with manufacturing of wood based products such as doors, windows, panelling, cabinets, cupboards & loose furniture. It also manufactures 'Sobha Restoplus', a premium quality spring mattress. The Division has facilities in Bangalore and Alwar.

Concrete Products Division

The Concrete Products Division of the Company deals with the manufacture of a wide range of concrete products such as concrete blocks, pavers, kerb stones, water drainage channels, paving slabs and elite landscape product. The Division has also set-up new facilities for producing Glass Fibre Reinforced Concrete Manufacturing. The Division has facilities in Bangalore, Gurgaon and Pune.

Following is the performance of the Manufacturing Vertical

The CAGR in revenues from manufacturing vertical over the past 5 years is 27.86%

Cash Flows

The cash flow summary for the financial year 2014-2015 under direct cash flow method is as follows:

Particulars	₹ in million
	2014-15
Operational Cash inflow	25,771
Operational Cash outflow	22,429
Net Operational Cash inflow	3,341

The Company has collected ₹ 25.77 billion during the year from real estate, contractual and manufacturing activities. After expending on construction expenses for real estate, contractual, manufacturing activities, overheads, etc. the net operating cash inflows were ₹ 3,341 million.

Out of the above, the Company has utilised ₹ 2,369 million towards payment of interest and ₹ 845 million for income taxes. This leads to a surplus of ₹ 102 million.

The Company has spent ₹ 3,804 million towards land payments during the year. In addition to this, the Company incurred ₹ 1,118 million towards capex and ₹ 803 million for dividend payments including tax.

The net operational cash flow has reduced from ₹ 6,613 million in 2013-14 to ₹ 3,341 million in 2014-15. This is mainly on account of subdued sales combined with the execution of projects continuing at the same pace.

The Cash Flow Statement prepared as per the Indirect Method forms part of the Financial Statements.

Debt

The Company seeks to maintain an optimum balance between low-cost debt and relatively higher cost equity. Debt financing is utilised for execution of various projects viz. residential, commercial and contractual and to finance the acquisition of land parcels for future development.

As on March 31, 2015, the net debt of the Company was ₹ 18,409 million as compared to ₹ 12,342 million in the previous year. The increase in debt is primarily on account of pursuing investment opportunities in Cochin and Pune combined with the slowdown in sales volume. As a consequence, the debt-equity ratio increased to 0.76 at the close of the financial year.

As on March 31, 2015, Net Debt to EBITDA stands at 2.91. The cost of indebtedness as on March 31, 2015 is 12.60%. Despite the economic slowdown and consequent slowdown in the real estate sector, the Company's cost of borrowings has decreased y-o-y.

Borrowing Cost

During the year the borrowings of the Company have been rated by various Credit Rating Agencies as follows

CARE	A (Retained)
ICRA	A (upgraded from A-)

Net Worth

The consolidated net worth of the Company as on March 31, 2015 was ₹ 24,318 million.

Net Worth ₹ million

The compounded annual rate of growth in net worth over the past five financial years is 7.06%. The market value / book value as on March 31, 2015 was 1.62 as compared to 1.60 in the previous year.

Fixed Assets

During the financial year 2014-15, the gross addition to Fixed Assets was ₹ 545.81 million. About 41.20 % of gross block addition was on account of investment in scaffolding items and 29.60% on account of additions to Plant and Machinery.

Current Assets

During the financial year 2014-15, the Current Assets increased by ₹ 7,234 million as compared to the previous year. This is mainly on account of increase in inventories by ₹ 3,011 million and land advances by ₹ 2,401 million.

Current Liabilities

During the financial year 2014-15, the Current Liabilities increased by ₹ 3,590 million. This is on account of increase in short term borrowings.

Dividends

The Company aims to follow a consistent Dividend Payout while striving to achieve a trade-off between deployment of internal accruals for growth and the payment of dividends. The Company has been paying dividend in the range of 25% - 35% of its profits.

The Board of Directors has recommended a dividend of ₹ 7 per equity share for the year.

Guidance

The Company has set a guidance of new sales value of ₹ 26 billion measuring 4 million square feet for the financial year 2015-16. The Guidance set out is higher by 22% in value terms and 24% in volume terms compared to the FY'15 performance.

Independent Auditors' Report

To the Members of Sobha Limited

Report on the standalone financial statements

We have audited the accompanying standalone financial statements of Sobha Limited [formerly known as Sobha Developers Limited] ('the Company'), which comprise the balance sheet as at March 31, 2015, the statement of profit and loss and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the standalone financial statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards

require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March, 31, 2015, and its profit and its cash flows for the year ended on that date.

Other matter

We did not audit the financial information as regards Company's share in profits of partnership firm (post tax) amounting to ₹ 146.69 million for the year ended March 31, 2015. The financial information has been audited by other auditors whose reports have been furnished to us, and the Company's share in profits of partnership firm investments has been included in the accompanying standalone financial statements solely based on the report of other auditors. Our opinion is not modified in respect of this matter.

Report on other legal and regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2015 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure 1 a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - (c) The balance sheet, statement of profit and loss and cash flow statement dealt with by this report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - (e) On the basis of written representations received from the directors as on March 31, 2015, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2015, from being appointed as a director in terms of Section 164(2) of the Act;
- (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer note 29 to the financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Re: Sobha Limited (‘the Company’)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year.
- (b) The procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) The Company is maintaining proper records of inventory and no material discrepancies were noticed on physical verification.
- (iii) (a) The Company has granted unsecured loan and subscribed to unsecured debentures to two parties covered in the register maintained under section 189 of the Companies Act, 2013. The loan granted is re-payable on demand. We are informed that the Company has not demanded repayment of any such loan during the year, and thus, there has been no default on the part of the parties to whom the money has been lent. The loan given is interest free which is not prima facie prejudicial to the interest of the Company considering Company's economic interest in such entity. The unsecured debentures are compulsorily convertible into equity shares on expiry of 19 years from date of issue or on happening of certain events. As explained to us, events warranting conversion of compulsorily convertible debentures have not happened. The payment of interest is regular as per the agreed terms.
- (b) There is no overdue amount of loans granted to companies, firms or other parties listed in the register maintained under section 189 of the Companies Act, 2013.
- (iv) In our opinion and according to the information and explanations given to us and having regard to the explanation that purchases of certain items of inventories and fixed assets are of proprietary nature for which alternative sources are not available to obtain comparable quotations, there is an adequate internal control system commensurate with the size of the Company and the nature of its business, for the purchase of inventory and fixed assets and for the sale of goods and services. During the course of our audit, we have not observed any major weakness or continuing failure to correct any major weakness in the internal control system of the Company in respect of these areas.
- (v) The Company has not accepted any deposits from the public.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the construction of buildings/ structures and other related activities, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.

Notes to the financial statements for the year ended March 31, 2015

1 Corporate Information

Sobha Limited (Formerly known as Sobha Developers Limited) ('Company' or 'SL') was incorporated on August 07, 1995. SL is a leading real estate developer engaged in the business of construction, development, sale, management and operation of all or any part of townships, housing projects, commercial premises and other related activities. The Company is also engaged in manufacturing activities related to interiors, glazing and metal works and concrete products which also provides backward integration to SL's turnkey projects.

2 Basis of preparation

The financial statements of the Company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year, except for the change in accounting policy explained below.

2.1 Summary of significant accounting policies

a) Change in accounting policy

I Depreciation on fixed assets

Till the year ended March 31, 2014, Schedule XIV to the Companies Act, 1956, prescribed requirements concerning depreciation of fixed assets. From the current year, Schedule XIV has been replaced by Schedule II to the Companies Act, 2013. The applicability of Schedule II has resulted in the following changes related to depreciation of fixed assets.

i) Useful lives/ depreciation rates

Till the year ended March 31, 2014, depreciation rates prescribed under Schedule XIV were treated as minimum rates and the Company

was not allowed to charge depreciation at lower rates even if such lower rates were justified by the estimated useful life of the asset. Schedule II to the Companies Act, 2013 prescribes useful lives for fixed assets which, in many cases, are different from lives prescribed under the erstwhile Schedule XIV. However, Schedule II allows companies to use higher/ lower useful lives and residual values if such useful lives and residual values can be technically supported and justification for difference is disclosed in the financial statements.

Considering the applicability of Schedule II, the management has re-estimated useful lives and residual values of all its fixed assets. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of fixed assets, though these rates in certain cases are different from lives prescribed under Schedule II. Accordingly, the carrying amount as at April 01, 2014 is being depreciated over the revised remaining useful life of the asset. The carrying value of ₹16.66 million, in case of assets with Nil revised remaining useful life as at April 01, 2014, is reduced after tax adjustment from the retained earnings as at such date. Further, had the Company continued with the previously assessed useful lives, charge for depreciation for the year ended March 31, 2015 would have been lower by ₹ 96 million and the profit before tax for the year ended March 31, 2015 would have been higher by such amount, with a corresponding impact on net block of fixed assets as at March 31, 2015.

ii) Depreciation on assets costing less than ₹ 5,000/-

Till year ended March 31, 2014, to comply with the requirements of Schedule XIV to the Companies Act, 1956, the Company was charging 100% depreciation on assets costing less than ₹ 5,000/- in the year of

Notes to the financial statements for the year ended March 31, 2015

purchase. However, Schedule II to the Companies Act 2013, applicable from the current year, does not recognize such practice. Hence, to comply with the requirement of Schedule II to the Companies Act, 2013, the Company has changed its accounting policy for depreciations of assets costing less than ₹ 5,000/- . As per the revised policy, the Company is depreciating such assets over their useful life as assessed by the management. The management has decided to apply the revised accounting policy prospectively from accounting periods commencing on or after April 1, 2014.

The change in accounting for depreciation of assets costing less than ₹ 5,000/- did not have any material impact on financial statements of the Company for the current year.

II Corporate social responsibility (CSR)

Refer note 2.1 (s) and 38 to the financial statements.

b) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Significant estimates used by the management in the preparation of these financial statements include computation of percentage completion for projects in progress, project cost, revenue and saleable area estimates, classification of assets and liabilities into current and non-current, estimates of the economic useful lives of fixed assets, net realisable value of inventory (including land advance/ refundable deposits) and provisions for

bad and doubtful debts. Any revision to accounting estimates is recognised prospectively.

c) Tangible fixed assets and Intangible assets

i. Tangible fixed assets

Tangible fixed assets are stated at cost, less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of fixed assets which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing

Notes to the financial statements for the year ended March 31, 2015

costs) incurred during the construction period which is not related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

ii. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets, comprising of software and intellectual property rights are amortized on a straight line basis over a period of 3 years, which is estimated to be the useful life of the asset.

d) Depreciation on tangible fixed assets

Depreciation on fixed assets is calculated on written down value basis using the following useful lives prescribed under Schedule II, except where specified.

Tangible fixed assets	Useful lives estimated by the management (in years)	
	March 31, 2015	March 31, 2014
Factory buildings	30	28
Buildings - other than factory buildings	60	59
Buildings - Temporary structure	3	3
Plant and machinery		
i. General plant and machinery	15	20
ii. Plant and machinery - Civil construction	12	20
iii. Plant and Machinery - Electrical installations	10	20
Furniture and fixtures	10	15
Motor vehicles	8	10
Computers		
i. Computer equipment	3	6
ii. Servers and network equipment	6	6
Office equipments	5	20

Steel scaffolding items are depreciated using straight line method over a period of 6 years, which is estimated to be the useful life of the asset by the management based on planned usage and technical advice thereon. These lives are higher than those indicated in Schedule II.

Leasehold land where title does not pass to the Company and leasehold improvements are amortised over the remaining primary period of lease or their estimated useful life, whichever is shorter, on a straight-line basis.

e) Impairment of tangible and intangible assets

The Company assesses at each reporting date whether there is any indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses, including impairment on inventories, are recognised in the statement of profit and loss.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

Notes to the financial statements for the year ended March 31, 2015

f) Leases

Where the Company is lessee

Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased asset, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are recognized as finance costs in the statement of profit and loss.

A leased asset is depreciated on a straight-line basis over the lower of the lease term or the estimated useful life of the asset unless there is reasonable certainty that the Company will obtain ownership, wherein such assets are depreciated over the estimated useful life of the asset.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

g) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued.

Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term

investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

h) Inventories

Related to contractual and real estate activity

Direct expenditure relating to construction activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the construction and real estate activity. Cost incurred/ items purchased specifically for projects are taken as consumed as and when incurred/ received.

- i. Work-in-progress - Contractual: Cost of work yet to be certified/ billed, as it pertains to contract costs that relate to future activity on the contract, are recognised as contract work-in-progress provided it is probable that they will be recovered. Contractual work-in-progress is valued at lower of cost and net realisable value.
- ii. Work-in-progress - Real estate projects (including land inventory): Represents cost incurred in respect of unsold area of the real estate development projects or cost incurred on projects where the revenue is yet to be recognised. Real estate work-in-progress is valued at lower of cost and net realisable value.

Notes to the financial statements for the year ended March 31, 2015

- iii. Finished goods - Flats: Valued at lower of cost and net realisable value.
- iv. Finished goods - Plots: Valued at lower of cost and net realisable value.
- v. Building materials purchased, not identified with any specific project are valued at lower of cost and net realisable value. Cost is determined based on a weighted average basis.
- vi. Land inventory: Valued at lower of cost and net realisable value.

Related to manufacturing activity

- i. Raw materials are valued at lower of cost and net realisable value. Cost is determined based on a weighted average basis.
- ii. Work-in-progress and finished goods are valued at lower of cost and net realisable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. However, inventory held for use in production of finished goods is not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

i) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue from operations (gross) is net of sales tax/ value added tax and adjustments on account of cancellation/ returns. Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year.

i. Recognition of revenue from contractual projects

If the outcome of contractual contract can be reliably measured, revenue

associated with the construction contract is recognised by reference to the stage of completion of the contract activity at year end (the percentage of completion method). The stage of completion on a project is measured on the basis of proportion of the contract work/ based upon the contracts/ agreements entered into by the Company with its customers.

ii. Recognition of revenue from real estate projects

Revenue from real estate projects is recognised when it is reasonably certain that the ultimate collection will be made and that there is buyers' commitment to make the complete payment. The following specific recognition criteria must also be met before revenue is recognized:

a. Recognition of revenue from property development

For projects commenced and period where revenue recognised before April 01, 2012

Recognition of revenue from construction activity

Revenue from real estate under development/ sale of developed property is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements, except for contracts where the Company still has obligations to perform substantial acts even after the transfer of all significant risks and rewards. In such cases, the revenue is recognised on percentage of completion method, when the stage of completion of each project reaches a reasonable level of progress. Revenue is recognised in proportion that the contract costs incurred for work performed up to the reporting date bear to the estimated total contract costs. Land costs are not included

Notes to the financial statements for the year ended March 31, 2015

for the purpose of computing the percentage of completion.

Recognition of revenue from sale of undivided share of land [group housing]

Revenue from sale of undivided share of land [group housing] is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements and/ or minimum level of collection of dues from the customer.

Recognition of revenue from sale of villa plots

Revenue from sale of villa plots is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements.

Revenue from real estate projects include charges collected from clients and are accounted based upon the contracts/ agreements entered into by the Company with its customers.

For projects commenced on or after April 01, 2012 and also to projects which have already commenced but where revenue is being recognised for the first time on or after April 01, 2012

Revenue from real estate projects including revenue from sale of undivided share of land [group housing] is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/

agreements. Where the Company still has obligations to perform substantial acts even after the transfer of all significant risks and rewards, revenue in such cases is recognised by applying the percentage of completion method only if the following thresholds have been met:

- (a) all critical approvals necessary for the commencement of the project have been obtained;
- (b) the expenditure incurred on construction and development costs (excluding land cost) is not less than 25 % of the total estimated construction and development costs;
- (c) at least 25 % of the saleable project area is secured by contracts/agreements with buyers; and
- (d) at least 10 % of the contracts/ agreements value are realised at the reporting date in respect of such contracts/agreements.

When the outcome of a real estate project can be estimated reliably and the conditions above are satisfied, project revenue (including from sale of undivided share of land) and project costs associated with the real estate project should be recognised as revenue and expenses by reference to the stage of completion of the project activity at the reporting date arrived at with reference to the entire project costs incurred (including land costs).

b. Recognition of revenue from sale of land and development rights

Revenue from sale of land and development rights is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements. Revenue

Notes to the financial statements for the year ended March 31, 2015

from sale of land and development rights is only recognised when transfer of legal title to the buyer is not a condition precedent for transfer of significant risks and rewards of ownership to the buyer.

iii. Recognition of revenue from manufacturing division

Revenue from sale of materials is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer which coincides with dispatch of goods to the customers. Excise duty deducted from turnover (gross) is the amount that is included in the amount of turnover (gross) and not the entire amount of liability arising during the year. Service income is recognised on the basis of completion of a physical proportion of the contract work/ based upon the contracts/ agreements entered into by the Company with its customers.

iv. Dividend income

Revenue is recognised when the shareholders' or unit holders' right to receive payment is established by the balance sheet date.

v. Share in profits of partnership firm investments

The Company's share in profits from a firm where the Company is a partner, is recognised when the same is credited to the Company's current account on the basis of such firm's audited accounts, as per terms of the partnership deed.

vi. Interest income

Income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

j) Foreign currency translation

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and

the foreign currency at the date of the transaction. Foreign currency monetary items are reported using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Exchange differences arising on the settlement of monetary items or on reporting monetary items of Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

k) Taxes

Tax expense comprises of current and deferred tax.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits. At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Notes to the financial statements for the year ended March 31, 2015

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised

Minimum Alternative tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

l) Retirement and other employee benefits

Retirement benefits in the form of provident fund is a defined contribution scheme and the contributions are charged to the statement of profit and loss of the year when the contributions to the provident fund are due. There are no other obligations other than the contribution payable to the government administered provident fund.

The Company makes contributions to Sobha Developers Employees Gratuity Trust ('the trust') to discharge the gratuity liability to employees. Provision towards gratuity, a defined benefit plan, is made for the difference between actuarial valuation by an independent actuary and the fund balance, as at the year-end. The cost of providing benefits under gratuity is determined on the basis of actuarial valuation using the projected unit credit method at each year end. Actuarial gains

and losses are immediately taken to statement of profit and loss and are not deferred.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date. Actuarial gains/ losses are immediately taken to statement of profit and loss and are not deferred.

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period for which the services are rendered by the employee.

m) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Notes to the financial statements for the year ended March 31, 2015

n) Provisions

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

o) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

p) Cash and cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

q) Borrowing costs

Borrowing costs directly attributable to acquisition/ construction of qualifying assets are capitalised until the time all substantial activities necessary to prepare the qualifying assets for their intended use are complete. A qualifying asset is one

that necessarily takes substantial period of time to get ready for its intended use/ sale. All other borrowing costs not eligible for inventorisation/ capitalisation are charged to statement of profit and loss.

r) Land

Advances paid by the Company to the seller/ intermediary toward outright purchase of land is recognised as land advance under loans and advances during the course of obtaining clear and marketable title, free from all encumbrances and transfer of legal title to the Company, whereupon it is transferred to land stock under inventories.

Deposits paid by the Company to the seller towards right for development of land in exchange of constructed area are recognised as security deposit under loans and advances, unless they are non-refundable, wherein they are recognised as land advance under loans and advances and is transferred to work-in-progress on the launch of project.

The Company has entered into agreements with land owners/ possessor to develop properties on such land in lieu of which, the Company has agreed to transfer certain percentage of constructed area. The Company measures development rights/ land received under these agreements at cost of construction transferred, as adjusted for other cash/ non-cash consideration.

s) Corporate social responsibility (CSR)

In accordance with the clarification issued by the Institute of Chartered Accountants of India, vide FAQ's on the provisions of CSR applicability under the Companies Act, 2013, the Company has adopted the policy to charge CSR expenditure incurred as an appropriation of profit with effect from April 01, 2014.

Independent Auditors' Report

To the Members of Sobha Limited

Report on the consolidated financial statements

We have audited the accompanying consolidated financial statements of Sobha Limited [formerly known as Sobha Developers Limited] (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), comprising of the consolidated balance sheet as at March 31, 2015, the consolidated statement of profit and loss and consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'the consolidated financial statements').

Management's responsibility for the consolidated financial statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms with the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies and management of a subsidiary partnership firm included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on

our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph (a) of the Other Matters below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2015, their consolidated profit, and their consolidated cash flows for the year ended on that date

Report on other legal and regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2015 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, based on the comments in the auditor's report of the Holding Company and its subsidiaries incorporated in India, to whom the Order applies, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report, to the extent applicable, that:
 - a. We / the other auditors whose reports we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
 - b. In our opinion proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;
 - c. The consolidated balance sheet, consolidated statement of profit and loss, and consolidated cash flow statement dealt with by this report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
 - d. In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - e. On the basis of the written representations received from the directors of the Holding Company as on March 31, 2015 taken on record by the Board of Directors of the Holding Company and the reports of the auditors who are appointed under Section 139 of the Act, of its subsidiary companies incorporated in India, none of the directors of the Group's companies, incorporated in India is disqualified as on March 31, 2015 from being appointed as a director in terms of Section 164 (2) of the Act;
 - f. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information

and according to the explanations given to us:

- i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group – Refer Note 29 to the consolidated financial statements;
- ii. The Group did not have any material foreseeable losses in long-term contracts including derivative contracts;
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary Companies incorporated in India.

Other matter

- (a) The accompanying consolidated financial statements include (after eliminations) total assets of ₹ 4,179.09 million as at March 31, 2015, and total revenues and net cash outflows of ₹ 2,306.41 million and ₹ 32.72 million for the year ended on that date, in respect of eleven subsidiaries, which have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of such other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements above, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the management.

Annexure 1 referred to in paragraph 1 under the heading “Report on other legal and regulatory requirements” of our report of even date

Re: The Group, comprising Sobha Limited (‘Holding Company’) and its subsidiaries incorporated in India and to whom the provisions of the Order apply (together referred to as “the Covered entities” in this report)

- (i) (a) The Holding Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets. The Covered entities have no fixed assets and therefore, the provisions of clause 3(i)(a) and (b) of the Order are not applicable to the Covered entities and hence not commented upon.
- (b) All fixed assets have not been physically verified by the management of the Holding Company during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Holding Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (ii) (a) The management of the Holding Company and the Covered entities of the Group have conducted physical verification of inventory at reasonable intervals during the year.
- (b) The procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the Holding Company and the Covered entities of the Group and the nature of their business.
- (c) The Holding Company and the Covered entities of the Group are maintaining proper records of inventory and no material discrepancies were noticed on physical verification.
- (iii) (a) The Holding Company has granted unsecured loan and subscribed to unsecured debentures to two parties covered in the register maintained under section 189 of the Companies Act, 2013. The loans granted are re-payable on demand and the repayment of the principal amount and interest is as demanded and thus, there has been no default on the part of the parties to whom the money has been lent. The unsecured debentures are compulsorily convertible into equity shares on expiry of 19 years from date of issue or on happening of certain events. As explained to us, events warranting conversion of compulsorily convertible debentures have not happened. The payment of interest is regular as per the agreed terms. The Covered entities of the Group have not granted any loans, secured or unsecured to Companies, firms or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a) and (b) of the Order are not applicable to the Covered entities of the Group and hence not commented upon.
- (b) There is no overdue amount of loans granted by the Holding Company to Companies, firms or other parties listed in the register maintained under section 189 of the Companies Act, 2013.
- (iv) In our opinion and according to the information and explanations given to us and as reported by the other auditors who audited the financial statements / financial information of Covered entities of the Group, having regard to the explanation that purchases of certain items of inventories and fixed assets are of proprietary nature for which alternative sources are not available to obtain comparable quotations, there is an adequate internal control system commensurate with the size of the Holding Company and the Covered entities of the Group and the nature of its businesses, for the purchase of inventory and fixed assets and for the sale of goods and services, to the extent applicable to the nature of the business of the Covered entities of the Group. During the course of our audit and as reported by the other auditors who audited the financial statements / financial information of Covered entities of the Group, no major weakness was observed or continuing failure to correct any major weakness in the internal control system of the Holding Company and the Covered entities of the Group in respect of these areas.
- (v) The Holding Company and the Covered entities of the Group have not accepted any deposits from the public.

- (vi) We have broadly reviewed the books of account maintained by the Holding Company and certain Covered entities of the Group to the extent applicable and relevant, pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the construction of buildings/ structures and other related activities, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. The detailed examination of the same have not been made by us or such other auditors. To the best of our knowledge and as explained and as reported by the other auditors who audited the financial statements / financial information of certain Covered entities of the Group, the Central Government has not specified the maintenance of cost records under clause 148(1) of the Companies Act, 2013, for the products/services of certain other Covered entities of the Group.
- (vii) (a) The Holding Company and Covered entities of the Group are regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, wealth-tax, service tax, customs duty, excise duty, value added tax, cess and other material statutory dues as applicable to the respective covered entities though there has been a slight delay in remittance of tax deducted at source in few cases in respect of certain Covered entities.
- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, wealth-tax, service tax, sales-tax, customs duty, excise duty, value added tax, cess and other material statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable for the Holding Company and Covered entities of the Group.
- (c) According to the information and explanations given to us and as reported by the other auditor who audited the financial statements / financial information of Covered entities of the Group, there are no dues of income tax, sales-tax, wealth tax, service tax, customs duty, excise duty, value added tax and cess which have not been deposited on account of any dispute in respect of Covered entities. According to the records of the Holding Company, the dues outstanding of income-tax, sales-tax, wealth-tax, service tax, customs duty, excise duty, value added tax and cess on account of any dispute, are as follows:

Name of the statute	Nature of dues	Amount * (₹ in million)	Period to which amount relates	Forum where dispute is pending

* Net of ₹ 191.89 million, paid under protest.

- (d) According to the information and explanations given to us and as reported by the other auditor who audited the financial statements / financial information of Covered entities of the Group, the amount required to be transferred to investor education and protection fund in accordance with the relevant provisions of the Companies Act, 1956 (1 of 1956) and rules made thereunder has been transferred to such fund within time to the extent applicable to the Holding Company and the Covered entities of the Group.
- (viii) The Holding Company and certain Covered entities of the Group have no accumulated losses at the end of the financial year and have not incurred cash losses in the current and immediately preceding financial year. Certain Covered entities of the Group have been registered for a period of less than five years and hence we are not required to comment on whether or not the accumulated losses at the end of the financial year is fifty per cent or more of its net worth and whether it has incurred cash losses in the current financial year and in the immediately preceding financial year.
- (ix) Based on our audit procedures and as per the information and explanations given by the management and as reported by the other auditor who audited the financial statements / financial information of Covered entities, of the Group, we are of the opinion that the Holding Company and Covered entities of the Group have not defaulted in their repayment of dues to a financial institution, bank or debenture holders.
- (x) According to the information and explanations given to us, the Holding Company has given guarantee for loans taken by others from bank or financial institutions, the terms and conditions whereof in our opinion are not prima facie prejudicial to the interest of the Holding Company considering Holding Company's economic interest in such entities. According to the information and explanations given to us, the Covered entities of the Group have not given any guarantee for loans taken by others from bank or financial institutions.
- (xi) Based on the information and explanations given to us by the management and the report of the other auditors who audited the financial statements / financial information of Covered entities of the Group, term loans (representing loans with a repayment period beyond 36 months) were applied for the purpose for which the loans were obtained by the Holding Company and the Covered entities of the Group.
- (xii) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the consolidated financial statements and as per the information and explanations given by the management and reports of the other auditors who audited the financial statements / financial information of other Covered entities of the Group, which we have relied upon, we report that no fraud on or by the Holding Company and the Covered entities of the Group have been noticed or reported during the year.

The consolidated financial statements have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP). The consolidated financial statements have been prepared to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014. The consolidated financial statements have been prepared on an accrual basis and under the historical cost convention.

The financial statements of the subsidiary are drawn up to the same reporting date as that of the Company i.e. March 31, 2015. The consolidated financial statements of the Group have been prepared based on line-by-line consolidation of the balance sheet, statement of profit and loss and cash flows of the Company and its subsidiaries. Inter-company balances and intra-company transactions and resulting unrealised profits have been eliminated on consolidation.

Notes to the consolidated financial statements for the year ended March 31, 2015

The excess of cost of the parent company of its investment in the subsidiary over its portion of equity in the subsidiary, on the date of investments is recognised in the financial statements as goodwill. The parent portion of equity in such subsidiary is determined on the basis of book values of assets and liabilities as per the financial statement of the subsidiary as on the date of investment. Goodwill is amortised over a period of 5 years from date of acquisition/ investment.

The accounting policies have been consistently applied by the Group and are consistent with those used in previous year, except for the change in accounting policy explained below.

2.1 Summary of significant accounting policies

a) Change in accounting policy

I Depreciation on fixed assets

Till the year ended March 31, 2014, Schedule XIV to the Companies Act, 1956, prescribed requirements concerning depreciation of fixed assets. From the current year, Schedule XIV has been replaced by Schedule II to the Companies Act, 2013. The applicability of Schedule II has resulted in the following changes related to depreciation of fixed assets.

i) Useful lives/ depreciation rates

Till the year ended March 31, 2014, depreciation rates prescribed under Schedule XIV were treated as minimum rates and the Group was not allowed to charge depreciation at lower rates even if such lower rates were justified by the estimated useful life of the asset. Schedule II to the Companies Act, 2013 prescribes useful lives for fixed assets which, in many cases, are different from lives prescribed under the erstwhile Schedule XIV. However, Schedule II allows companies to use higher/

lower useful lives and residual values if such useful lives and residual values can be technically supported and justification for difference is disclosed in the financial statements.

Considering the applicability of Schedule II, the management has re-estimated useful lives and residual values of all its fixed assets. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of fixed assets, though these rates in certain cases are different from lives prescribed under Schedule II. Accordingly, the carrying amount as at April 1, 2014 is being depreciated over the revised remaining useful life of the asset. The carrying value of ₹ 16.66 million, in case of assets with Nil revised remaining useful life as at April 1, 2014, is reduced after tax adjustment from the retained earnings as at such date. Further, had the Group continued with the previously assessed useful lives, charge for depreciation for the year ended March 31, 2015 would have been lower by ₹ 96 million and the profit before tax for the year ended March 31, 2015 would have been higher by such amount, with a corresponding impact on net block of fixed assets as at March 31, 2015.

ii) Depreciation on assets costing less than ₹ 5,000/-

Till year ended March 31, 2014, to comply with the requirements of Schedule XIV to the Companies Act, 1956, the Group was charging 100% depreciation on assets costing less than ₹ 5,000/- in the year of purchase. However, Schedule II to the Companies Act 2013, applicable

Notes to the consolidated financial statements for the year ended March 31, 2015

from the current year, does not recognize such practice. Hence, to comply with the requirement of Schedule II to the Companies Act, 2013, the Group has changed its accounting policy for depreciations of assets costing less than ₹ 5,000/-. As per the revised policy, the Group is depreciating such assets over their useful life as assessed by the management. The management has decided to apply the revised accounting policy prospectively from accounting periods commencing on or after April 1, 2014.

The change in accounting for depreciation of assets costing less than ₹ 5,000/- did not have any material impact on financial statements of the Group for the current year.

II Corporate social responsibility (CSR)

Refer note 2.1 (s) and 38 to the consolidated financial statements.

b) Use of estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Significant estimates used by the management in the preparation of these consolidated financial statements include computation of percentage completion for projects in progress, project cost, revenue and saleable area estimates, classification

of assets and liabilities into current and non-current, estimates of the economic useful lives of fixed assets, net realisable value of inventory (including land advance/ refundable deposits) and provisions for bad and doubtful debts. Any revision to accounting estimates is recognised prospectively.

c) Tangible fixed assets and Intangible assets

i. Tangible fixed assets

Tangible fixed assets are stated at cost, less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of fixed assets which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the

Notes to the consolidated financial statements for the year ended March 31, 2015

carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is not related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

ii. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets, comprising of software and intellectual property rights are amortized on a straight line basis over a period of 3 years, which is estimated to be the useful life of the asset.

d) Depreciation on tangible fixed assets

Depreciation on fixed assets is calculated on written down value basis using the following useful lives prescribed under Schedule II, except where specified.

Tangible fixed assets	Useful lives estimated by the management (in years)	
	March 31, 2015	March 31, 2014
Factory buildings	30	28
Buildings - other than factory buildings	60	59
Buildings - Temporary structure	3	3
Plant and machinery		
i. General plant and machinery	15	20
ii. Plant and machinery - Civil construction	12	20
iii. Plant and Machinery - Electrical installations	10	20
Furniture and fixtures	10	15
Motor vehicles	8	10
Computers		
i. Computer equipment	3	6
ii. Servers and network equipment	6	6
Office equipments	5	20

Steel scaffolding items are depreciated using straight line method over a period of 6 years, which is estimated to be the useful life of the asset by the management based on planned usage and technical advice thereon. These lives are higher than those indicated in Schedule II.

Leasehold land where title does not pass to the Group and leasehold improvements are amortised over the remaining primary period of lease or their estimated useful life, whichever is shorter, on a straight-line basis.

e) Impairment of tangible and intangible assets

The Group assesses at each reporting date whether there is any indication that an asset may be impaired. If any indication exists, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does

Notes to the consolidated financial statements for the year ended March 31, 2015

not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses, including impairment on inventories, are recognised in the statement of profit and loss.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

f) Leases

Where the Group is lessee

Finance leases, which effectively transfer to the Group substantially all the risks and benefits incidental to ownership of the leased asset, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are recognized as finance costs in the statement of profit and loss.

A leased asset is depreciated on a straight-line basis over the lower of the lease term or the estimated useful life of the asset unless there is reasonable certainty that the Group will obtain ownership, wherein such assets are depreciated over the estimated useful life of the asset.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

g) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued.

Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

h) Inventories

Related to contractual and real estate activity

Direct expenditure relating to construction activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly

Notes to the consolidated financial statements for the year ended March 31, 2015

attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the construction and real estate activity. Cost incurred/ items purchased specifically for projects are taken as consumed as and when incurred/ received.

- i. Work-in-progress - Contractual: Cost of work yet to be certified/ billed, as it pertains to contract costs that relate to future activity on the contract, are recognised as contract work-in-progress provided it is probable that they will be recovered. Contractual work-in-progress is valued at lower of cost and net realisable value.
- ii. Work-in-progress - Real estate projects (including land inventory): Represents cost incurred in respect of unsold area of the real estate development projects or cost incurred on projects where the revenue is yet to be recognised. Real estate work-in-progress is valued at lower of cost and net realisable value.
- iii. Finished goods - Flats: Valued at lower of cost and net realisable value.
- iv. Finished goods - Plots: Valued at lower of cost and net realisable value.
- v. Building materials purchased, not identified with any specific project are valued at lower of cost and net realisable value. Cost is determined based on a weighted average basis.

- vi. Land inventory: Valued at lower of cost and net realisable value.

Related to manufacturing activity

- i. Raw materials are valued at lower of cost and net realisable value. Cost is determined based on a weighted average basis.
- ii. Work-in-progress and finished goods are valued at lower of cost and net realisable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. However, inventory held for use in production of finished goods is not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

i) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue from operations (gross) is net of sales tax/ value added tax and adjustments on account of cancellation/ returns. Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year.

i. Recognition of revenue from contractual projects

If the outcome of contractual contract can be reliably measured, revenue associated with the construction

Notes to the consolidated financial statements for the year ended March 31, 2015

contract is recognised by reference to the stage of completion of the contract activity at year end (the percentage of completion method). The stage of completion on a project is measured on the basis of proportion of the contract work/ based upon the contracts/ agreements entered into by the Group with its customers.

ii. Recognition of revenue from real estate projects

Revenue from real estate projects is recognised when it is reasonably certain that the ultimate collection will be made and that there is buyers' commitment to make the complete payment. The following specific recognition criteria must also be met before revenue is recognized:

a. Recognition of revenue from property development

For projects commenced and period where revenue recognised before April 01, 2012

Recognition of revenue from construction activity

Revenue from real estate under development/ sale of developed property is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements, except for contracts where the Group still has obligations to perform substantial acts even after the transfer of all significant risks and rewards. In such cases, the revenue is recognised on percentage of completion method, when the stage of completion of each project reaches a reasonable level of progress. Revenue is recognised in proportion that the contract costs

incurred for work performed up to the reporting date bear to the estimated total contract costs. Land costs are not included for the purpose of computing the percentage of completion.

Recognition of revenue from sale of undivided share of land [group housing]

Revenue from sale of undivided share of land [group housing] is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements and/ or minimum level of collection of dues from the customer.

Recognition of revenue from sale of villa plots

Revenue from sale of villa plots is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements.

Revenue from real estate projects include charges collected from clients and are accounted based upon the contracts/ agreements entered into by the Group with its customers.

For projects commenced on or after April 01, 2012 and also to projects which have already commenced but where revenue is being recognised for the first time on or after April 01, 2012

Revenue from real estate projects including revenue from sale of undivided share of land [group

Notes to the consolidated financial statements for the year ended March 31, 2015

housing] is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements. Where the Group still has obligations to perform substantial acts even after the transfer of all significant risks and rewards, revenue in such cases is recognised by applying the percentage of completion method only if the following thresholds have been met:

- (a) all critical approvals necessary for the commencement of the project have been obtained;
- (b) the expenditure incurred on construction and development costs (excluding land cost) is not less than 25 % of the total estimated construction and development costs;
- (c) at least 25 % of the saleable project area is secured by contracts/agreements with buyers; and
- (d) at least 10 % of the contracts/ agreements value are realised at the reporting date in respect of such contracts/agreements.

When the outcome of a real estate project can be estimated reliably and the conditions above are satisfied, project revenue (including from sale of undivided share of land) and project costs associated with the real estate project should be recognised as revenue and expenses by reference to the stage of completion of the project activity at the reporting date arrived at with reference to the entire project costs incurred (including land costs).

b. Recognition of revenue from sale of land and development rights

Revenue from sale of land and development rights is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements. Revenue from sale of land and development rights is only recognised when transfer of legal title to the buyer is not a condition precedent for transfer of significant risks and rewards of ownership to the buyer.

iii. Recognition of revenue from manufacturing division

Revenue from sale of materials is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer which coincides with dispatch of goods to the customers. Excise duty deducted from turnover (gross) is the amount that is included in the amount of turnover (gross) and not the entire amount of liability arising during the year. Service income is recognised on the basis of completion of a physical proportion of the contract work/ based upon the contracts/ agreements entered into by the Group with its customers.

iv. Dividend income

Revenue is recognised when the shareholders' or unit holders' right to receive payment is established by the balance sheet date.

v. Interest income

Income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Notes to the consolidated financial statements for the year ended March 31, 2015

j) Foreign currency translation

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction. Foreign currency monetary items are reported using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Exchange differences arising on the settlement of monetary items or on reporting monetary items of Group at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

k) Taxes

Tax expense comprises of current and deferred tax.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are

recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits. At each balance sheet date the Group re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Group writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised.

Minimum Alternative tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Group will pay normal income tax during the specified period.

l) Retirement and other employee benefits

Retirement benefits in the form of provident fund is a defined contribution scheme and the contributions are charged

Notes to the consolidated financial statements for the year ended March 31, 2015

to the statement of profit and loss of the year when the contributions to the provident fund are due. There are no other obligations other than the contribution payable to the government administered provident fund.

The Group makes contributions to Sobha Developers Employees Gratuity Trust ('the trust') to discharge the gratuity liability to employees. Provision towards gratuity, a defined benefit plan, is made for the difference between actuarial valuation by an independent actuary and the fund balance, as at the year-end. The cost of providing benefits under gratuity is determined on the basis of actuarial valuation using the projected unit credit method at each year end. Actuarial gains and losses are immediately taken to statement of profit and loss and are not deferred.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. The Group presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date. Actuarial gains/ losses are immediately taken to statement of profit and loss and are not deferred.

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period for which the services are rendered by the employee.

m) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

n) Provisions

A provision is recognised when the Group has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

o) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events

Notes to the consolidated financial statements for the year ended March 31, 2015

beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

p) **Cash and cash equivalents**

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

q) **Borrowing costs**

Borrowing costs directly attributable to acquisition/ construction of qualifying assets are capitalised until the time all substantial activities necessary to prepare the qualifying assets for their intended use are complete. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use/ sale. All other borrowing costs not eligible for inventorisation/ capitalisation are charged to statement of profit and loss.

r) **Land**

Advances paid by the Group to the seller/ intermediary toward outright purchase of land is recognised as land advance under

loans and advances during the course of obtaining clear and marketable title, free from all encumbrances and transfer of legal title to the Group, whereupon it is transferred to land stock under inventories.

Deposits paid by the Group to the seller towards right for development of land in exchange of constructed area are recognised as security deposit under loans and advances, unless they are non-refundable, wherein they are recognised as land advance under loans and advances and is transferred to work-in-progress on the launch of project.

The Group has entered into agreements with land owners/ possessor to develop properties on such land in lieu of which, the Group has agreed to transfer certain percentage of constructed area. The Group measures development rights/ land received under these agreements at cost of construction transferred, as adjusted for other cash/ non-cash consideration.

s) **Corporate social responsibility (CSR)**

In accordance with the clarification issued by the Institute of Chartered Accountants of India, vide FAQ's on the provisions of CSR applicability under the Companies Act, 2013, the Group has adopted the policy to charge CSR expenditure incurred as an appropriation of profit with effect from April 01, 2014.

Statement Annexed to Notice

[Pursuant to provisions of Section 102(1) of the Companies Act, 2013]

Item No. 5

Dr. Punita Kumar-Sinha (DIN: 05229262) was appointed as a Non-Executive Independent Director of the Company on October 06, 2014.

Dr. Kumar-Sinha is the Founder and Managing Partner, Pacific Paradigm Advisors, an independent investment advisory and management firm. Prior to founding Pacific Paradigm Advisors, she was a Senior Managing Director of the Blackstone Group, leading Blackstone Asia Advisors LLC as the business unit head and Chief Investment Officer.

She has over twenty five years of experience in fund management in international and emerging markets, working with many leading firms in the US. She started her investment career in emerging markets in 1987 and was one of the first foreign investors into India. Before joining Blackstone, Dr. Kumar-Sinha was a Managing Director and Senior Portfolio Manager at Oppenheimer Asset Management Inc., and CIBC World Markets, where she was also the Portfolio Manager for The India Fund and The Asia Tigers Fund. At CIBC World Markets, Dr. Kumar-Sinha initiated the opening of one of the first India advisory offices for a foreign firm. Prior to this, Dr. Kumar-Sinha was a Portfolio Manager on the emerging markets team at Batterymarch (a Legg Mason company), which she joined after four years at Standish Ayer & Wood (a BNY Mellon company). At Standish Ayer she was hired to help build the international equity business, reporting to the Managing Partner.

Dr. Kumar-Sinha has a Ph.D. and a Masters in Finance from the Wharton School, University of Pennsylvania. She received her undergraduate degree in chemical engineering with distinction from the Indian Institute of Technology, New Delhi where she also received the Distinguished Alumni Award. She has an MBA and is also a CFA Charter holder. Dr. Kumar-Sinha is a member of the CFA Institute, the Boston Security Analysts Society and the Council on Foreign Relations. She is a Charter Member and was a Board Member of TiE-Boston. She has also advised select companies on asset management.

Dr. Kumar-Sinha, with her valuable insights and suggestions, has contributed extensively towards shaping the strategy of the Company. Based on

the recommendation received from the Nomination, Remuneration and Governance Committee and in view of her knowledge, expertise and in particular the contributions made by her, it is proposed to appoint Dr. Punita Kumar-Sinha as an Independent Director of the Company in terms of Section 149 read with Section 152 of the Companies Act, 2013 and Clause 49 of the Listing Agreement. In terms of Sections 149 and 152 of the Companies Act, 2013, Dr. Kumar-Sinha is not liable to retire by rotation. Dr. Kumar-Sinha, if appointed, will hold office for a consecutive term of 5 years commencing from October 06, 2014.

Dr. Kumar-Sinha has given her consent to act as an Independent Director of the Company and has furnished necessary declarations to the Board of Directors that she meets the criteria of independence as provided under Section 149(6) of the Companies Act, 2013 read with Clause 49 of the Listing Agreement. Further as per the declarations received by the Company, Dr. Kumar-Sinha is not disqualified under Section 164 of the Companies Act, 2013.

Dr. Kumar-Sinha does not hold any equity shares in the Company as on May 12, 2015. She is not related to any of the Directors of the Company. The directorships held by Dr. Kumar-Sinha are within the limits prescribed under Section 165 of the Companies Act, 2013 and Clause 49 of the Listing Agreement.

In terms of Clause 49 of the Listing Agreement, the details of directorships and committee positions held as on April 01, 2015 are given below:

Directorships held in other public companies	JSW Steel Limited
	SREI Infrastructure Finance Limited
	Rallis India Limited
	Fino Pay Tech Limited

	JSW Steel Limited - Investor Grievance Committee [Member]
	Fino Pay Tech Limited - Audit Committee [Member]
	Mahindra Two Wheelers Limited - Audit Committee [Member]
	Metahelix Life Sciences Limited - Audit Committee [Member]

The terms and conditions of appointment of Dr. Kumar-Sinha as a Non-Executive Independent Director is available for inspection by members at the Registered Office of the Company on any working day during working hours.

Dr. Kumar-Sinha is interested in the passing of this resolution by virtue of her directorship in the Company. None of the other Directors or Key Managerial Personnel or their relatives are in any way interested or concerned, financially or otherwise in this Resolution except to the extent of their shareholding in the Company.

The Board of Directors based on the recommendation of the Nomination, Remuneration and Governance Committee recommends the Ordinary Resolution set out in Item No. 5 for approval by the Members.

Item No. 6

In terms of Section 148 of the Companies Act, 2013 and the Companies (Cost Records and Audit) Rules, 2014 as may be amended from time to time, the Company is required to get its cost records audited.

The Board of Directors, based on the recommendation of the Audit Committee, have appointed M/s. Srinivas and Co, Cost Accountants (Firm Registration No: 000278) as the Cost Auditors of the Company for the financial year 2014-15. Further, the Board of Directors, on the recommendations of the Audit Committee, have approved the payment of remuneration not exceeding ₹ 150,000 (Rupees One Lakh and Fifty Thousand only) plus out of pocket expenses and taxes as may be applicable from time to time to the Cost Auditors for undertaking the cost audit of the Company for the financial year 2014-15.

In terms of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors has to be ratified by the shareholders of the Company.

Accordingly, consent of the members is sought for ratification of the remuneration payable to the Cost Auditors for the financial year ending March 31, 2015.

None of the other Directors or Key Managerial Personnel or their relatives are in any way interested or concerned, financially or otherwise in this Resolution except to the extent of their shareholding in the Company.

The Board of Directors recommends the Ordinary Resolution set out in Item No. 6 for approval by the Members.

Item No. 7

The Company in order to execute various projects both residential and contractual has to borrow money from banks and other financial institutions as a means of finance. The Company has currently availed project specific or general purpose borrowings from various Banks and Financial Institutions to finance the execution of the projects of the Company. The Board of Directors envisages a need for the funding requirements of the Company to be met with various components, i.e. equity, project loans, general purpose corporate loans, borrowings from financial institutions, debentures etc. A mix of these instruments would result in optimum utilization of funds at optimum cost and help to meet the various business requirements of the Company. The Board is therefore contemplating the feasibility of borrowing money through the issue of non-convertible debentures.

In terms of Rule 14 of The Companies (Prospectus and Allotment of Securities) Rules 2014, the issue of any non-convertible debentures on a private placement basis requires a prior approval of the members of the Company by way of a Special Resolution and such approval shall be valid for all private placements made during the year.

The members of the Company in the Annual General Meeting held on July 11, 2014 had approved the issue of Non-Convertible Debentures on a Private Placement Basis aggregating up to ₹ 20,000,000,000 (Rupees Two Thousand Crores only) and such approval is valid for a year, i.e. until July 10, 2015.

Accordingly, fresh consent of the members is being sought to enable the Board of Directors to offer or invite subscriptions for non-convertible debentures aggregating up to ₹ 10,000,000,000 (Rupees One Thousand Crores only) as may be required and such approval shall be valid for a year.

None of the Directors or the Key Managerial Personnel or their relatives are in any way interested or concerned, financially or otherwise in this Resolution except to the extent of their shareholding in the Company.

The Board recommends the Special Resolution set-out in Item 7 of the Notice for approval by the members.
