CHAIRMAN'S MESSAGE

Dear Shareholders,

I welcome all Shareholders and Board of Directors to the 20th Annual General Meeting of your Company for the financial year ("F.Y.") 2015-16.

F.Y. 2015-16 saw the global economy tumble on account of weak European and Chinese cues and various other factors. But India stood its ground to become the fastest growing economy in the world with a GDP growth of 7.6%. Reserve Bank of India's inflation focus supported by benign global commodity prices has come to fruition through combined efforts of strong Government reforms. In addition to all this, the Government was able to control the fiscal deficit to its budgetary target of 3.9%.

The Indian Real Estate sector which is 2nd largest employment generator in India after agriculture is showing signs of revival with increase in sales and reduction of unsold inventory. There is also a significant increase in new launches in the residential space.

The Government has been focusing on clearing major Infrastructure projects which has resulted in considerable increase in speed of construction of highways which is at the highest this year. Infrastructural development is proving vital for real estate sector. Government has started shaping previously launched housing for all schemes and has come up with the list of smart cities which will be developed. Sardar Patel Urban Housing scheme, Atal Mission for Rejuvenation & Urban Transformation

("AMRUT") and Heritage City Development & Augmentation Yojana ("HRIDAY") will drive growth in the sector.

The Real Estate (Regulation and Development) Act, 2016 ("the Act") is passed by the Parliament and has received the assent of the President of India on March 25, 2016. Different provisions of the Act may be brought into force on different dates as may be specified by the Government of India. The Act contains several provisions to address the lacunae in the real estate market, principally by way of establishing a disclosure framework and setting strict liabilities for promoter irregularities. This will bring regularities and uniformity in the sector.

Mumbai over a period of last few years has improved its commute facilities with new modes of transit like monorail, metro rail and the connectivity across the city has improved considerably. Allotment of 'Metro-III Rail' contracts has already boosted the sentiments among commuters. These developments will have bearing on growth of your Company. The proposed Development Control Regulation 2034, Coastal Road Policy, elevated suburban rail corridor will develop the connectivity between business districts and suburbs of Mumbai Metropolitan Region.

Your Company has been a major player in residential, commercial, affordable housing and redevelopment spaces. Relaxation of policies with regards to affordable housing and redevelopment and market's sign of regaining momentum will boost the Company in terms of new project launch and Floor Space Index ("FSI") sale.

Private Equity Real Estate ("PERE") firms deployed over \$5 billion in Indian real estate companies and projects - the highest since the financial crisis of 2008. PERE firms made around 90 investments in India during 2015. All this in aggregate comes as a great positive for the sector which is looking for revival.

- The turnover of the Company for the year ended March 31, 2016, increased by 9.18% and stood at ₹ 1,19,109.46 lacs as against ₹ 1,09,093.36 lacs in the previous year;

GREEN PAINTS FOR GREEN BUILDING:

Introduction:

Paints can have a major impact on the overall aesthetics of a space; sometimes more than even flooring and furnishing because of the enormous square footage of the coverage.

According to the US Environmental Protection Agency (USEPA), 9% of the airborne pollutants creating ground level ozone come from the VOC's (Volatile Organic Compound) in the Paint. VOC refers to a class of chemicals which evaporates easily at room temperature. When these VOCs off-gas, they may cause a variety of health problems like nausea, dizziness, irritation of eyes and respiratory tract, and more serious illness like heart, lung or kidney damage and cancer.

Low and Zero VOC paints have little or no smog-forming emission. Use of high VOC content materials can cause illness and may decrease occupant productivity. These problems result in increased expenses and liability for building owners, operators and insurance companies.

Benefits:

Using the Low VOC or Zero VOC paint we can eliminate the detrimental effect of ground level ozone on human health, agricultural crops, forests and ecosystem. Healthy occupants are more productive and have less illness- related absenteeism.

LED LIGHTS

Introduction:

LEDs are light emitting diodes, are a technology that allows for extremely energy efficient and extremely long-lasting light bulbs. An LED light bulb can reduce energy consumption by 80-90% and last around 100,000 hours. They even light up faster than regular bulbs (which could save your life if there are LEDs in the brake lights of your car).

Ecologically Friendly:

LED lights are free of toxic chemicals. Most conventional fluorescent lighting bulbs contain a multitude of materials like e.g. mercury that are dangerous for the environment.

LED lights contain no toxic materials and are 100% recyclable, and will help you to reduce your carbon footprint by up to a third. The long operational life time span mentioned above means also that one LED light bulb can save material and production of 25 incandescent light bulbs. A big step towards a greener future.

Zero UV Emissions:

LED illumination produces little infrared light and close to no UV emissions.

Because of this, LED lighting is highly suitable not only for goods and materials that are sensitive to heat due to the benefit of little radiated heat emission, but also for illumination of UV sensitive objects or materials such as in museums, art galleries, archeological sites etc.

Security Systems:

The Company has following Security Systems at its office and site:

- Fire Alarm System and
- Water Curtain System

INDUSTRY AND ECONOMIC SCENARIO

The sector has forward and backward linkages with more than 250 different sectors and is the second largest employment generator in India, after agriculture. The sector correlation with Gross Domestic Product ("GDP") is as high as 0.78 times i.e. every ₹ 1 invested in sector directly adds ₹ 0.78 to GDP and there is significant room for improvement, as real estate sector's correlation in other large economies is atleast 0.9 times.

According to economic survey 2015-16, the real estate sector constituted 7.4% of India's GDP in 2014-15. Both domestic and global slowdown affected the sector, with growth decelerating from 4.4% in 2014-15 to 3.7% in 2015-16.

With Government's focus on ease of doing business, changes in land acquisition laws, support provided for affordable housing; hurdles in developing projects have become considerably less. With a view to maintain targeted fiscal deficit and inflation levels, Government is on the right track to bring the economy back on growth trajectory.

The Government brought several reforms last year which are directed towards easing tight liquidity situation and boosting affordable housing and urban infrastructure.

INDUSTRY STRUCTURE AND DEVELOPMENTS

The Government of India along with the Governments of the respective states has taken several initiatives to encourage the development in the sector. 'The Smart City Project', where there is a plan to build 100 smart cities, is a prime opportunity to real estate companies.

The Government formalized its vision – 'Housing for all by 2022', which encompasses building six crore housing units through public-private partnership model. The Government also formalized several initiatives directed towards improving urban infrastructure. It has already identified 100 cities to be developed as Smart Cities, identified 500 cities for urban rejuvenation under 'Atal Mission for Rejuvenation & Urban Transformation' ("AMRUT"), and launched Heritage City Development & Augmentation Yojana ("HRIDAY"), which would transform urban infrastructure in 12 Heritage Cities.

The Government further relaxed foreign direct investment norms by removing the size and investment restrictions. Further, the lock-in restriction was relaxed allowing easy exit to investors. Lastly, the Government allowed investors to invest in completed properties, which was not allowed earlier.

The Reserve Bank of India reduced the risk weight for individual housing loans of up to ₹ 75 lacs from 50% to 35%. Further, it increased loan-to-value ratio to 90% for loans up to ₹ 30 lacs.

The Securities and Exchange Board of India ("SEBI") has notified final regulations that will govern 'Real Estate Investment Trusts' ("REITs") and 'Infrastructure Investment Trusts' ("InvITs"). This move will enable easier access to funds for cash-strapped developers and create a new investment avenue for institutions and high net worth individuals and eventually ordinary investors.

OPPORTUNITIES AND THREATS

• Opportunities:

The Central Government's ambitious projects of housing for all, AMRUT have started taking shape as the Government is making provisions on those fronts. At the same time announcement of list of smart cities, Sardar Patel Urban Housing Mission and HRIDAY are proving to be necessary boost to the Real Estate Industry.

Many stagnant infrastructure projects are getting cleared and the construction speed of highways is at the highest this year which is expected to improve even more. Thus infrastructure development along with different provisions will help to make the environment more conducive for growth.

With fall in Real Estate prices and the implementation of Seventh pay commission comes as an opportunity as it may lead to a spur in sales for housing project across the country.

Your Company is a major player in Mumbai Real Estate market with a land reserve of approx. 241.73 million Sq.ft. as on March 31, 2016, with 90% of its land reserves in Mumbai Metropolitan Region.

Your Company has been a major player in residential, commercial, affordable housing and redevelopment spaces. Relaxation of policies with regards to affordable housing & redevelopment and market's sign of regaining momentum will boost your Company in terms of new project launch and Floor Space Index ("FSI") sale.

Private Equity Real Estate ("PERE") firms deployed over \$5 billion in Indian real estate companies and projects - the highest since the financial crisis of 2008. PERE firms made around 90 investments in India during 2015. This comes as a great positive for the sector which is looking for revival.

• Threats and Risks Perception:

The unstable European and Chinese economy adding turbulence to Global Markets, the hovering clouds of Brexit may have far fetching impact on domestic economy which might lead to a negative bearing on inflation or interest rates. It will largely impact the real estate sector. Federal Reserve's signs of escalation in the interest rates might hold back investors from investing in Real Estate. This higher interest rates will increase the cost of borrowing which will impact the profitability and the tempo of funding.

Scarcity of developable urban land due to limited urban infrastructure and higher controls, resulting in inflation of prices; Land title related issues; absence of Real Estate regulatory resulting in lack of transparency and lower investor confidence. Some of the major threats to the development are limited access to long-term and low-cost funds, especially from banking channels including external commercial borrowings; significant shortage of skilled and unskilled workforce; higher rates of statutory charges and taxes tend to inflate the cost of construction making affordable housing projects financially unviable for developers. Lack of a strong micro finance sector makes it difficult for the Economically Weaker Sections ("EWS") and Lower Income Groups ("LIG") to secure housing finance credit.

The Company has in place a Risk Management Committee which monitors risk tolerance limits, reviews and analyzes risk exposure related to specific issues and provides oversight of risk across the organization. The Board of Directors of your Company has in place a Risk Management Policy, which lays down guidelines in identifying, assessing and managing risks that the businesses are exposed to.

HDIL PROJECT MIX

Presently, the Company is executing projects at Nahur, Mulund, Kurla, Andheri, Ghatkopar, Virar and Palghar. There are some projects at various stages of construction and providing possession of some projects has already commenced.

OUTLOOK

Even though the global scenario doesn't look much conducive, Indian economy is expected stand its ground among the turmoil. With the sign of a better monsoon, inflation under control, reduction in interest rate being transferred by banks to the market and seventh pay commission implementation; the real estate industry is well positioned for a recovery.

Company's major focus will be debt reduction with a plan to reduce it below ₹ 2000 Crore during this fiscal year. The Company will be focusing on project execution along with TDR and FSI sale.

RISKS AND CONCERNS

Economic conditions have a greater bearing on the sector as a whole. Hence, sales depend highly on the growth of the economy. Liquidity in the market is pivotal for speeding up project execution and launch of new projects.

Though Government has taken various initiatives, more efforts in terms of approvals, policies, liquidity and also timeline of approval are required. Otherwise there is a possibility of the projects getting delayed in approval process and the regulator putting the entire blame on the developer.

ANNEXURE-B TO THE INDEPENDENT AUDITORS' REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF HOUSING DEVELOPMENT AND INFRASTRUCTURE LIMITED.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of HOUSING DEVELOPMENT AND INFRASTRUCTURE LIMITED ("the Company") as of 31st March, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

A Company's internal financial control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the Company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

Other Matters

Our aforesaid reports under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to standalone financial statements of 2 subsidiaries which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies.

1 SIGNIFICANT ACCOUNTING POLICIES :

A. Basis of Preparation

- a) The accompanying consolidated financial statements include the accounts of Housing Development And Infrastructure Limited (HDIL) and its subsidiaries collectively referred to as "the Group". All the subsidiaries have been incorporated in India. The details of the subsidiaries are as follows:

Name of the Subsidiaries	Percentage of holding
Privilege Power and Infrastructure Private Limited	100%
HDIL Entertainment Private Limited (upto 3 rd July 2014)	100%
Blue Star Realtors Private Limited	100%
Excel Arcade Private Limited	100%
Mazda Estates Private Limited	100%
Guruashish Construction Private Limited	100%
Ravijyot Finance and Leasing Private Limited	60%
BKC Developers Private Limited	99%
HC Infracity Private Limited	75%
Lashkaria Construction Private Limited	69%

The financial statements are prepared and presented under the historical cost convention on accrual basis of accounting in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP). These financial statements comply in all material aspects with the Accounting Standards (AS) specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- c) Use of estimates :

The preparation of financial statements requires management of the Group to make estimates and assumptions that affect the reported balances of assets and liabilities, the disclosures relating to the contingent liabilities as on the date of the financial statements and the reported amounts of revenues and expenses during the year reported. Actual results could differ from those estimates.

B. Principles of consolidation

The consolidated financial statements relate to the Company and its subsidiaries and joint ventures. In the preparation of these consolidated financial statements, investments in Subsidiaries and Joint Ventures have been accounted for in accordance with Accounting Standard (AS) 21 (Consolidated Financial Statements) and Accounting Standard (AS) 27 (Financial Reporting of Interests in Joint Ventures) respectively. The consolidated financial statements are prepared on the following basis:-

- Parent and its subsidiary Companies are consolidated on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income and expenses after eliminating all Intra-Group balances and Intra-Group transactions and also unrealised profits or losses, except where cost cannot be recovered. The results of operations of a subsidiary are included in the consolidated financial statements from the date on which the parent subsidiary relationship came into existence.
- Interest in the assets, liabilities, income and expenses of the joint ventures are consolidated using proportionate consolidation method. Intra group balances, transactions and unrealised profits/losses are eliminated to the extent of Company's proportionate share, except where cost cannot be recovered.
- The difference between the cost of investment in the subsidiaries, over the net assets at the time of acquisition of shares in the subsidiaries is recognised in the financial statements as Goodwill or Capital Reserve as the case may be.
- The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as of the date of disposal is recognised in the Consolidated Statement of Profit and Loss being the profit or loss on disposal of investment in subsidiary.
- Minority interest's share of net profits of consolidated subsidiaries for the year is identified and adjusted against the income of the Group in order to arrive at the net income attributable to the shareholders of the Company. Their share of net assets is identified and presented in the Consolidated Balance Sheet separately. Where accumulated losses attributable to the minorities are in excess of their equity, in the absence of the contractual obligation on the minorities, the same is accounted for by the holding Company.
- The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's stand alone financial statements.

- (g) An interest in jointly controlled entities which is acquired and held exclusively with a view to its subsequent disposal in the near / foreseeable future is accounted for as an investment in accordance with Accounting Standard (AS) 13, Accounting for Investments.

C. Segment reporting policies

As the Group operates on a backward integration model and its business activity primarily falls within a single business segment which constitutes real estate development, there are no additional disclosures to be provided under Accounting Standard 17 'Segment Reporting'. The Group operates primarily in India and there is no other significant geographical segments.

D. Goodwill

Goodwill is tested for impairment on periodical basis. If on testing, any impairment exists, the carrying amount of goodwill is reduced to the extent of any impairment loss and such loss is recognised in the Statement of Profit and Loss.

E. Other Significant accounting Policies

These are set out under Note No. 1 of "Significant Accounting Policies " as given in the Group's separate financial statements.
