Ladies and Gentlemen,

It gives me great pleasure to welcome you to the 24th Annual General Meeting of your Company.

With the US economy recovering and expected to grow at 2-2.5 percent, US Companies are expected to increase their spend on technology. As per a report published by Gartner, overall IT spend is likely to go up by 4-4.5 per cent this year. The same is likely to result in better prospects for Indian IT companies in 2018.

Digital Growth

Digital work for all big companies is growing in double digits.

As per industry sources overall yearly Global IT spend is around \$3.7 trillion. Of that, one-third is IT services. So there is still a lot of spending happening on the legacy side, which goes into maintenance and building some core applications. That has not gone away.

The incremental spending is happening in the area of digitalization, wherein companies are building capabilities, trying to play to the ecosystem and go to the clients. IT industry is changing dynamically and rapidly. The changes in the last 3 years equals possibly the changes in the 30 years prior to that.

Safe & Smart Cities

More than 54 percent of the world's population resides in urban areas today. By 2050, this number is expected to be 66 percent. Urbanization is associated with improved education, access to healthcare and social and financial mobility. As digital technologies become more sophisticated, it's clear to see why society would want to be quick to use digital technology in creative ways. This fourth industrial age isn't limited to the private sector, it's enveloping the public sector too. And its pace has the potential to change the way we work and live.

Most cities started their journey toward becoming smart cities with government digitization efforts that focused on benefiting constituents. The ability to show immediate results through improved efficiencies has always been a key driver for further investment. But with the advent of the Internet of Things and sensor technology, as well as machine learning and advanced analytics, truly smart cities are being born.

These advancements aren't just for the metropolitan cities of the world. The public and private sector – partnered together - can transform our personal lives and communities.

As the Internet of Things enables cities to measure more, the amount of available data will grow immensely. To maximize value from this data, cities can create a common data platform which can be leveraged by all its stakeholders (public, corporates, start-ups). These integrative, holistic solutions break down the silos that often exist between functions. For many groups, such as emergency and incident response teams, shared data can mean the difference with critical response times.

So whether investments are made in transportation and traffic management, citizen experience or public safety and health, opportunities are abound for new technologies in the public sector. Solutions that foster citizen participation, public-private collaboration and grass roots innovation, not only create a superior experience for citizens, but also invite more business to the locale. More investment by business can lead to more innovation. It is exciting to see how the new digital era allows us all to re-imagine both citizen and consumer experiences that can only help improve the world we share

Your Company

Allied Digital is at the forefront of the Safe and Smart City movement and to provide e-commerce, e-governance, e-education, e-healthcare solutions to its clients using new age technologies like Artificial Intelligence, IoT and Machine learning. We are moving with Government of India vision of Digital India.

Traditional outsourcing business is changing. Customers are looking for partners to transform their business by bringing innovation, automation & digital transformation. We anticipated this changing business need early enough and transformed our business model from people centric businesses to service centric approach. Our competence in emerging technologies like Artificial Intelligence, IoT, Data Analytics, Mobility & Cloud is helping our clients transform Digitally. Today we are truly a global architect in Digital Transformation for B2G (Business to Government) and B2E (Business to Enterprise) customers by bringing innovation and transformation in business. We firmly believe in the dictum of “small term pain for long term gain” due to transformation and are poised for exponential growth.

Our progress has been appreciated and has resulted in several awards being given to your company (see details on page 8)

Our path breaking and first of its kind Pune Safe City project initiated in 2015 is breaking new records. We have achieved zero camera downtime. Recently we have conducted pilot which are a first of its kind in the world. These pilot tests have integrated Variable Messaging Displays (VMDs) and show estimated travel time to citizens of the city to make informed travel decisions. This was part of POC done with TOMTOM, and truly a first of its kind.

We offer world class automated Infrastructure Management Services (IMS) to many international clients in USA, UK and 40 other countries. Our Shared services approach in Cloud environment is helping us to provide cost effective services and position us as major player in IMS.

Our focus also remains on Cyber security offerings where threats are growing manifold and we have created new innovative models to combat such cyber threats.

The IT industry is going from post PC era to being mobile/ smart device driven and your company is completely geared up to create innovative applications and develop software for this huge market.

We see a great future in Business data and analytics. Home automation is another area which is poised for growth with smart devices taking over repetitive tasks.

On HR perspective, your company continues its tradition of empowering people to enable them to take quick decisions. Empowerment, Responsibility and Accountability – ERA– go hand in hand at Allied Digital Services Limited. We can proudly state that we have zero attrition in our core Management team.

As part of our ongoing process we have this year skilled our people and imparted training in emerging technologies and software development to ensure seamless integration with various systems and acted as a true Indian origin Master Systems Integrator (MSI) amongst the very few in the industry.

Future outlook

The year under consideration has been a unique and path breaking year and we are looking at a better future with our new initiatives. The experience has been more heartening with so many awards and accolades coming our way which adds to our belief that the future is very bright.

We are committed to be a partner in building a new, vibrant and Digital India with our energy and sharp focus on the future.

With warm regards,

Nitin Shah

Chairman and Managing Director.

**Whole-Time Director
Mr. Prakash Shah**

The Global Servicing market in India continues to grow at a higher pace compared to IT-BPM Industry. India has been one of the leading destinations in the world enjoying a substantial market share of the US Global Services sourcing business.. The Industry has led to the economic transformation of the country and altered the perception of India in the Global Economy. India's cost competitiveness in providing IT services, (the cost saving of up to 50-60 percent over source) is the mainstay of its unique selling proposition. In the Global Markets, India has become a hub for its Digital Capabilities housing around 75 percent of Global Digital Talent. India is the top most off-shoring destination for the IT companies across the world. The same is a result of proving its capabilities in delivering both on-shore and off-shore services to Global Clients.

We believe the time has come for our country to leverage the existing technology tools to develop new smart cities and transform existing ones and unleash their true potential as centers of opportunity.

This has opened a huge business opportunity for your Company.in India. Your Company has already successfully executed one of the Safe City and has been achieved more than 97 percent uptime during operations and maintenances. Your Company has also built capabilities for Smart City Solutions and the experience of executing Safe City as well. This we believe is a great head start advantage over our competitors.

During the year 2017-18, your company achieved a consolidated total Income of ₹ 228.94 Crores as against ₹ 217.24 Crores for previous year. The same translates to a moderate growth of about 5%. In a competitive market, the Company has still managed to maintain the EBIDTA margin at 21%. The Company has made significant efforts on right sizing the balance sheet. The Company entered into an arrangement with State Bank of India and the entire dues of SBI were repaid, by assignment of the same to Kotak Mahindra Bank. As part of the restructuring the Company has saved a considerable amount payable towards interest and other charges to SBI. The same has resulted in more than doubling of PBT (₹19.97 crores) and PAT (₹ 10.94 crores), as compared to the previous year.

During the year, the overdue statutory liabilities have been reduced considerably and we expect the balance statutory liabilities to be cleared soon. Further, the Management is pleased to inform that the overall debts of the company has been reduced considerably during the previous year and the Company is taking all reasonable steps to become a debt free organization in the near future, thus enhancing the profitability to a great extent.

In the coming years as a continuous efforts the management strives to implement better financial discipline and corporate governance across the organization, in order to achieve a healthier overall performance.

With Best Wishes

Prakash Shah

Whole-time Director

Hello Investors,

A busy but successful year has gone by. Our global revenues increased. We have added customers in the US and India. From the finance perspective, it has been a wonderful year. We have been able to successfully reduce our debts and also showcase improved governance. It has also been a year of learning, as we have been constantly introspecting ourselves and fine tuning our operations and sales. We have become more focused in our offerings for services and solutions. Our innovation journey has reached new frontiers. In all, a positive year with improvement across various parameters that only gives us more confidence.

We have started witnessing an improvement in the India economy. The US markets have shown great growth last year,

and we believe the same will sustain during the same. With innovation, we have further improved our NOC, SOC and released a new version of ADiTaaS. We have got ourselves certified as a CMMI level 3 company. Our smart city division has been knocking on many opportunities. Lastly, our new IoT practice is shaping up big time into new innovative solutions in Smart Cities as well as across Agriculture and other key verticals. Our cloud business is getting new traction. In all, we are very confident on delivering state of the art transformative solutions to businesses and have raised our benchmarks in service delivery through sharpened skill sets via training and automation.

When I look back, I feel “the short pain, long gain” approach with introspection and inherent transformation steps taken by the management in last 2-3 years have inculcated into a improved focus, readiness and positive outcome for the Company.

Our goal now is to focus primarily on

- customer acquisitions,
- concentrate on target markets,
- more business from existing customer base and
- develop new solutions in IoT.

We have undertaken major initiative to improve our visibility, communication and focus on technology. We look forward to this opportunity as a threshold for further growth. We will continue in our endeavor with the same motto of “Passion, Teamwork and Innovation”, of course, managing customer’s IT with Commitment..

With Best Wishes

Chief Executive Officer

With the successful completion of 10 quarters of the Pune City Surveillance Project having uptime exceeding 98%, your company has reaffirmed its position as a leading Master Systems Integrator in the country that delivers on promise.

The Duration of Smart City Mission – key program of the Prime Minister- is for five years: 2015 to 2020. Though the first lot of 20 cities out of 100 was selected on January 1st, 2016 the remaining 79 lots were released over a period of two years with the last lot of 9 cities being released in January 2018. It typically takes 15 to 18 Months after floating of the RFP to appoint a Project Management Consultant and setting up of Special Purpose Vehicle. After floating the RFP the process takes further 3 to 4 months due to pre-bid meetings, queries, subsequent corrigendum and finally bid evaluation and award of contract. Therefore, from the time a City is selected under the Smart City Program to the time the contract for the project is awarded it usually takes around 21 months. In some cases, the RFPs are scrapped due to insufficient or unqualified bids that delays the process still further.

With the general elections in India slated in 2019, we have witnessed a spurt in the release of RFPs for Smart Cities by

various State Governments. This has caused overlapping dates for bid submission that puts enormous pressure on the bidders to meet the deadline.

Your Company has participated in Smart City RFPs on its own and as well as in Consortium with some large organizations due to collaborative nature of such projects. However, some of the bids could not be finalized on account of the reasons stated above and some of them are under evaluation and the results awaited.

The Ministry of Electronics and Information Technology has announced the IoT policy to create a \$15 billion IoT industry in India by 2020. Your company has initiated a program to leverage on this opportunity by creating a team that specialises on the IoT Technology based solutions that have strong traction in Smart City projects and Digital India concepts in the country.

IoT has the potential to transform our use of technology such as in Smart Homes / Spaces, Health Care, mobility, smart devices, energy meters and Security. It will also drive growth through innovation in business for manufacturing, service industries and retail.

IoT is an emerging technology and its application in various spheres of life is being discovered that has led to fragmented development. Your company has aligned with some of the leading international organizations who are actively involved in developing this technology and are currently working in India on some large opportunities to ensure their place in this exciting and potentially rewarding field. Through this alignment, your company will be developing solutions and tools that will address the need of the industry and help in customer acquisition.

The initiative in Smart City and IoT of your company has potential for long term sustained business as the contract are generally for 5 years. During this period there is an assured business from the customer through scaling up of the solution and possible replication at other locations.

With warm regards,

Jawahar Ali
Chief Executive Officer - ISG.

Allied Digital CMD invited by Taiwan Govt. as Keynote speaker for Smart City Summit 2018

Allied Digital CMD - Mr. Nitin Shah was invited as Keynote speaker for the 2018 Smart City Summit and Expo held in Taipei, Taiwan. Ministry of commerce, Government of Taiwan had invited him for the speech on 30th March 2018 during conference on India Smart City initiatives.

Allied Digital: Software Development appraised at CMMI Level 3

Allied Digital has been appraised at Level 3 of the CMMI Institute's Capability Maturity Model Integration (CMMI)[®]. The appraisal was performed by Equalitas Certifications Limited. CMMI is a capability improvement framework that provides organizations with the essential elements of effective processes that ultimately improve their performance.

An appraisal at maturity level 3 indicates the organization is performing at a "defined" level. At this level, processes are well characterized and understood, and are described in standards, procedures, tools and methods. The organization's set of standard processes, which is the basis for maturity level 3, is established and improved over time.

ALLIED DIGITAL - REAL TIME TRAFFIC INFORMATION SYSTEMS

Allied Digital is India's leading Master System Integrator and has delivered the first of its kind Pune Safe City project to the country in August 2015. Amongst many firsts in the country we have added another feather to the cap. Please see actual pictures taken of estimated travel time displayed on Variable Messaging Displays installed by PSCDC as part of POC carried out by ADSL and TOMTOM.

This is the first of its kind integration in the world which is done by Allied Digital. The innovation showcases our prowess in the smart city domain. The achievement has been appreciated by Jonathan Americo - Product Manager at TOMTOM and in his words "The product is quite recent and this was the first concrete example of this type of integration". We are continuously striving towards innovation and are the frontrunners in offering world class services to our customers.

E-voting:

Pursuant to the provisions of Section 108 and other applicable provisions, if any of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 as amended by the Companies (Management and Administration) Amendment Rules, 2015 and Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 the Company is pleased to provide members, the facility to exercise their right to vote on resolutions proposed to be considered at the ensuing Annual General Meeting (AGM) by electronic means. The facility of casting the votes by the members using an electronic voting system from a place other than venue of the AGM, ("remote e-voting") will be provided by Central Depository Services Limited ('CDSL').

The facility for voting through ballot papers will be made available at the AGM and the members attending the meeting who have not cast their vote by remote e-voting shall be able to exercise their right at the meeting through ballot paper. A member can participate in AGM even after exercising his rights to vote through remote e-voting but shall not be allowed to cast their vote again at this Annual General Meeting.

The remote e-voting period commences on **Friday, 31st August, 2018 (09:00 a.m. IST)** and ends on **Sunday, 02nd September, 2018 (05:00 p.m. IST)**. During this period, members' of the Company holding shares either in physical form or in dematerialized form, as on the cut-off date **Tuesday, 28th August, 2018**, may cast their vote by remote e-voting. The remote e-voting module will be disabled by CDSL for voting thereafter. Once the vote on a resolution is cast by the member, the member shall not be allowed to change it subsequently.

The voting rights of Members shall be in proportion to their shares in the paid-up equity share capital of the Company as on **Tuesday, 28th August, 2018** and as per the Register of Members of the Company.

Mr. Himashu S. Kamdar, (ICSI Membership No. 5171) of M/s. Rathi & Associates, Company Secretaries in Whole-time Practice has been appointed as the Scrutinizer to scrutinize the e-voting process and physical ballot process in a fair and transparent manner.

A Member can opt for only one mode of voting i.e. either through e-voting or by Ballot. If a Member casts vote by both modes, then voting done through e-voting shall prevail and Ballot shall be treated as invalid.

The process and manner for remote e-voting are as under:

SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED MARCH 31, 2018

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members
ALLIED DIGITAL SERVICES LIMITED
Mumbai

Dear Sirs,

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate governance practices by **Allied Digital Services Limited** (hereinafter called "the Company"). The Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conduct / statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minutes books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the Financial Year ended March 31, 2018, complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company as given in Annexure I, for the Financial Year ended on March 31, 2018, according to the provisions of:

- (i) The Companies Act, 2013 ("the Act") and the rules made there under to the extent applicable;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment and Overseas Direct Investment;

The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-

- (i) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 ("SEBI SAST");
- (ii) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 ("SEBI PIT"); and

Provisions of the following Regulations and Guidelines prescribed under the SEBI Act were not applicable to the Company for the Financial Year ended March 31, 2018:-

- (i) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
- (ii) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
- (iii) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
- (iv) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993;
- (v) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and
- (vi) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998;

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards including the revised Secretarial Standards applicable with effect from October 1, 2017 issued by The Institute of Company Secretaries of India and approved by the Central Government under Section 118(10) of the Companies Act, 2013; and

- (ii) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations, 2015”);

We further report that, having regard to the compliance system prevailing in the Company and on examination of the relevant documents and records in pursuance thereof, on test-check basis, the Company has complied with other Acts, Laws and Regulations applicable specifically to the Company as stated in Annexure II;

During the year under report, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above, subject to the following observations:

- a) Section 74 of the Act states that: “(1) Where in respect of any deposit accepted by a company before the commencement of this Act....., the company shall—
- (b) repay within one year from such commencement or from the date on which such payments are due, whichever is earlier.” *However, the deposit including principal and interest amount was subsisting in the Company till March 27, 2018, and has since being repaid; and*
- b) As per Regulation 31(2) of Listing Regulations, 2015, 100% of the shareholding of the promoter and promoter group should be in dematerialized form. However, 40,18,801 equity shares held by the Promoters are not in demat form;

We further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent generally within the prescribed time, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

There were no dissenting member’s views and hence the same was not required to be captured and recorded as part of the minutes.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period there were no specific events/actions having a major bearing on the Company’s affairs.

Global Overview

In FY 2018, the global market for IT services is estimated to have grown to \$1.3 Trillion. Within that, outsourced IT-Business Process Management (BPM) services grew by 2.6% over the prior year. IT Services is estimated to have grown by 2.4% year on year, driven by digital demand, while BPM grew by 4% over the prior year on account of greater implementation of automation.

The world is bringing Artificial Intelligence (AI) at the center stage and every company is putting efforts to build smarter solutions for the customer. Leaders such as Microsoft, IBM, Google, Amazon, Facebook are emphasizing on development of Machine learning and Automation on the cloud. There is huge demand for data science resources and many projects are seeing light in the field of Machine Learning and AI.

Internet of Things (IoT) technology is prime enabler for active monitoring of process control points using cutting edge devices. IoT solutions will be implemented on large scale this year onwards as significant opportunities exist to improve industry processes. 5G is expected to become mainstream in most developed countries by next two quarters. This will generate demand for IT solutions in video technology and uninterrupted communication applications

The AI and Machine Learning market is expected to reach \$190.61 Billion by 2025 from \$21.46 Billion in 2018, at a CAGR of 36.62% during the forecast period. The IoT Market is expected to grow from the current \$250B now to \$450Billion by end of 2020, with CAGR of 28%.

India Overview

FY 18 was a defining year for India despite the disruptions due to demonetization and GST which led to a temporary dip in GDP growth. India has witnessed a cyclical recovery, driven by investments as well as consumption, and the average GDP growth was projected to reach 6.7 % in 2017-18 and accelerate to 7.3 % and 7.5 % in 2018-19 and 2019-20 respectively.

The Indian IT-BPM industry was projected to grow at 8% in 2017-18 from \$154 billion to \$167 billion (excluding e-commerce), in addition to providing 1,05,000 new jobs during the same period. Indian IT exports were projected to grow at 7-8% in 2017-18 to \$126 billion, contributing 24 % to the country's total exports, according to Industry lobby NASSCOM.

India has successfully established itself as a digital economy with 375+ million Internet subscribers. Projects like 'Smart Cities' (which will have IT driven systems to deliver urban utilities) will continue a wave of digitization, providing a significant boost to the sector in India. The 'Digital India' campaign has put the country on the path of becoming a digital economy and its outlook for future is extremely promising. India is on track to be a trillion-dollar digital economy backed by Government's collaborative approach to encourage private sector participation.

The IT and ITES sectors' contribution to GDP has dipped from a peak of 9.5 % in 2014-15 to about 6.35 % in the last three years.

Our Business

ADSL is adopting new technologies as it foresees massive growth in IT solutions and services in the domain of IoT, Smart cities and next generation automation solutions leveraging machine learning and AI.

ADSL is considering IoT as its main stream business, catering to both the government and other corporate verticals. It intends to develop and sell solutions for process automation and smart city based solutions. With machine learning adoption in cloud platforms, the company is also improving its AI capability in primary areas of IT service automation.

ADSL Group has registered a new company in Finland, and is associating with agencies of Finland government to spearhead work in AI, IoT and Intelligent command center framework stretching the ADiTaaS Platform (our flagship products) to new heights in coming years. Allied digital is also actively enhancing its capabilities and reach in Europe, especially out of the UK office.

Core Offering: Infrastructure Management Services

In India we have on-boarded a leading brand as a large Customer. We have played a major role in standardization and consolidation of IT services across the Enterprise for this Customer. We have added many medium enterprise government businesses for Network Operations Centre (NOC) and Security Operations Centre (SOC) services along with traditional Managed Services business. This line of business constitutes over 60 percent of the company's revenue.

In the US and Europe, we added three large logos - a premier Automobile company, world's largest vehicle transmission company and a large FMCG company of Europe along with a few small and medium sized enterprises. The same has greatly helped us to improve the topline and create a brand value. We have strengthened our worldwide offices and continue to partner relationships across the globe.

We had a major release of ADiTaaS 4.0, our flagship ITSM platform, with state of the art user friendly interface. This major release is already being implemented at one of the premium Tire brands as well as at one of the large banks in California. The roadmap that we have created for digital service management platform is well under execution. The newly developed ChatBot releasing in mid-August promises to significantly improve end user productivity for answering standard questions.

We are continuously growing our Cloud presence in Industry's top cloud platforms, bundling our managed services. We have made a giant leap in restructuring our NOC with advanced cloud enabled services and powerful analytics. This has now helped us to provide valuable insight to customers of their IT environment as well as provisioning automation. We are in process of delivering several self-remediation with machine learning capabilities as an "AI mesh".

The Company underwent a major revamp in security offerings, by collaborating with new technology vendors in IT security. As IT security requires constant upgrade, we have now the capability to do advanced threat management and machine learning of the correlated security logs to identify new anomalies. The upgrade has already fetched good results including winning a couple of opportunities in this space.

Smart Cities Solutions

The Company has made significant strides in competing for some key tenders for the smart city solutions. The entire business is currently working on the lowest tender winning the contract. We are witnessing reckless bidding and we believe at the current levels of bidding, it is a winners curse. The Company continues to focus on margins as well as bottom-line without gasping for breath for working capital and jeopardize other customer deliveries. Our smart cities business comprises close to 25-28 percent of our company's revenue.

The Company has made a significant mark with the deployment of smart traffic information display system for Pune city. The Company partnered with TomTom, a Dutch based navigation technology provider to deliver the Pune smart city project. This is one of the unique project, in which near-live traffic situation to reach prominent destinations in the city can be understood by the citizens and appropriate alternate routes are suggested.

The Pune city project will soon finish three years of top performance, matching or beating SLA (service level agreement), working on change request and new initiatives. The project is one of the major contributors to the total revenue.

Today, PCS project generates handsome revenues of close to 20% of our total revenues per year. Additional change requests augment to this number. There is already a plan to double the project soon. Also new requirements from Pune and PCMC smart city are bringing new opportunities.

IoT and Analytics Initiative

With the world getting digitized, IoT Domain is emerging to be at the center stage. This is a natural progression for Allied, as infrastructure is the DNA of the company and ADiTaaS platform serves the management platform. This opens up a huge opportunity, for both smart cities and corporates. ADSL is setting up the platform for driving large solutions in various verticals, especially for the government.

We have embarked and completed a proof of concept IoT project for collecting car parameters that will help insurance companies to analyze the driver behavior and car performance, based on which the insurance policies can be fine-tuned. This is one of the trends in Insurance Industry.

ADSL has also started working in the areas of agriculture using AI for plant analysis and IoT for soil analysis to improve crop efficiency and overall quality and yield that will improve farmer's income for the government as well as significantly cut down risks for corporates in agriculture.

ADSL has grossly improved the underlying technology platform to advanced levels so as to sustain competition and continue to bring in the differentiators. It has been successful in retraining people in new cloud certifications, security, analytics and IoT as well as in attracting top industry talent. ADSL has invested significantly in building strong industry relations globally. This will continue across both – the services and the solutions platform of ADSL.

Key Drivers of Growth

Innovation and Adaptability

Company has been evolving with the development in the technology and changes in the trends of the industry. To maintain the competitiveness in an IT industry, every company needs to enhance its offerings. The company has strategically diversified into Analytics, Machine learning and AI and IoT domain to stay afloat with the market trends.

Opportunistic market

Technology is the enabler for change in almost all businesses and hence there is a tremendous opportunity for creating a disruption for every business, especially in India. Companies are realizing the importance of standardization and consolidation of IT services to enhance the productivity in the business. The transformation wave, is continuing to open opportunities for businesses to spend on new technologies to generate business growth in IT services and solutions in cloud, Business Automation, Security and IoT. We have now a dedicated cloud practice which helps customers easily navigate to cloud and to provision them a more collaborative, highly available and secure IT for their business. There are numerous opportunities that the company is already working for in smart cities initiative.

Human Resource

Being an IT centric organization, Human Capital is one of the most important asset of the Company. Special training programs and skill enhancement activities are in place to make sure that the skill-sets of the talent are updated with respect to the product requirements. The Company's endeavor has been to sustain its culture of continuous learning and leverage talent as the fundamental enabler of its business growth. This year, we have done major skill development in cloud, security, BI tools and IoT. The total permanent employees strength as on March 31, 2018 is 516.

Government Initiatives

As a part of Union Budget 2018-19, NITI Aayog is going to set up a national level program that will enable efforts in AI and will help in leveraging AI technology for development in the country.

The push for “Digital India”, “Make in India”, “Skill India” is pumping new energy into the Indian IT industry. Today the Smart City initiatives, IT infrastructure and e-governance projects across the country provide ample opportunities.

The Government of India is going to explore new opportunities to achieve the target of making India a \$1 trillion digital economy. One of the key interest areas for the government is also Agriculture, to improve farmer’s income. Allied Digital is doing significant work in developing e-farming solutions.

Risks and Concerns

Volatile Global Outlook

Like any other corporate having business across the borders, the company is exposed to interest rate risk, currency fluctuations, credit risk and regulatory risks. The company conducts internal audit that ensures risk management process is in place. Risks are reviewed on the quarterly basis by the management.

Technology

The technology is directly related to innovation and the change is eminent. The company has been on constant endeavor to adopt change and innovate in this respect and it is ensuring that there is potential for new business opportunities. Company engages in various training and skill development programs to update the knowledge base. The company has now clear roadmap for next three years of its operation and will focus on new opportunities.

Compliance Risk

Company’s operations are spread across the globe and hence it becomes imperative for the Organization to comply with legal and regulatory laws of various countries. Failing to comply with the specific country’s laws and regulation may expose us to legal and financial penalties and also puncture the brand image. The company has identified key stakeholders across sales & business units and corporate functions to ensure compliance of all applicable laws on a continuous basis. Any changes in the applicable regulations are also updated and monitored by respective departments.

Delivery Risk

Ensuring high quality service by delivering top SLAs have been challenging but the company has been performing consistently well and has been able to get timely payments from government and corporates, thus controlling the receivables risk. Global delivery poses multiple challenges but current success stories assures confidence in delivering complex large-scale projects.

Contract Management

Sometimes ambiguities are created in the scope of work which lead to unaligned expectations from the parties involved in the project. We have realized the need for stronger contract management and more insight into customer’s environment to avoid risks of service failure at desired levels.

Employee Related Risk

As a talent-driven organization, one of our key goals is to have the best talent, with highly specialized skills in each part of our business, at the right levels in the right locations to enhance our differentiation and competitiveness.

Our attrition rate has been better than last year in India, though some challenges have popped up in the US as the local inflation is higher. Allied Digital is mitigating risks by cross-training and working diligently with in-house as well as third party recruiters. Also in Europe, due to immigration law changes, there are attrition issues, but Allied has developed a constant vigilance in its delivery operations so that the customer deliverables are never affected.

Adequate business insurance policies are also in place on errors, omissions and general liability.

Internal Control systems

Adequate internal control ensures transactions are authorized, recorded and reported correctly and assets are safeguarded against loss from unauthorized use or disposition. In addition, there are operational controls and fraud risk controls, covering the entire spectrum of internal financial controls. Your company has put a lot of emphasis on improving the internal control systems in multiple areas such as Finance, Sales, Legal and HR.

- In the area of finance, the internal checks and balances are managed by a formal system of internal audit. Alert mechanism is in place for regulatory changes. Transition to GST compliant processes was smooth.

- On the sales front, more emphasis is given to customer credit checks, profitability and sales closures.
- On the delivery and operations end, we improved on alerts communication, automation and customer systems health checks. This has vastly improved our overall quality of delivery, reducing customer concerns.
- We have embarked on a major initiative of CMMI Level 3 compliance for our software this year. The work is on the last stage for achieving the certification before this year end.

Other initiatives such as management performance audit were also successfully implemented last year. The quality management system of the company is ISO certified each year.

Way Forward

- The Company has been successfully running and maintaining PCS Project, the first of its kind of CCTV surveillance project in Pune. We have achieved almost 98% uptime, which is commendable as per international standards. Having completed a complex project, the Company is looking to onboard more prestigious projects.
- The Company is also looking to enter the market of sales and distribution of IT Equipment of well-known brands.
- Management is focused on reduction of the debt during the current year as well. The same would result in reduction of the finance costs and further improvement in profitability margins.
- The Company is planning to support start-ups and is in active discussions with various agencies to guide the startups in multiple ways. It plans to give them opportunity to leverage ADSL's global presence, infrastructure and skill base.
- The management is currently looking at various alternatives to monetize the Hard Assets (Real Estate) of the company.

In this roller-coaster global economy, the company continues to share the motto of "Passion", "Teamwork" and "Innovation" as its core pillars for growth and sticks to its commitment of "IT Managed, Responsibly" to its customers.

d) Performance Evaluation Criteria for Independent Directors:

One of the key functions of the Board is to monitor and review the Board Evaluation framework. The Board works with the NR Committee to lay down the evaluation criteria for the performance of the Chairman, the Board, Committees and Executive/Non-Executive/Independent Directors through a peer evaluation excluding Director being evaluated.

Independent Directors have three key roles- governance, control and guidance. Some of the performance indicators based on which the independent indicators are evaluated include:

- Possession of sufficient skills, experience and level of preparedness which allows the person to clearly add value to discussions and decisions

- Attendance and active contribution to all Board debates and discussions
- Collaboration and encouragement of healthy discussion among Board members
- Raising of valid concerns to the Board and constructive contribution to resolution of issues at meetings

To improve the effectiveness of the Board and its Committees as well as individual Directors, a formal and rigorous Board review/evaluation is internally undertaken on an annual basis. For the financial year 2017-18, the process took the form of questionnaires followed by structured review with Independent and Executive Directors, Board of the Company and Committees of the Board.

Independent Auditor's Report

To the Members of

ALLIED DIGITAL SERVICES LTD

Report on the Financial Statements

We have audited the accompanying standalone Ind AS financial statements of **ALLIED DIGITAL SERVICES LTD** ("the Company"), which comprise the Balance Sheet as at 31st March 2018, the Statement of Profit and Loss, the Statement of Changes in Equity, the Statement of Cash Flows for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone Ind AS financial statements").

Management Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, profit or loss, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

In conducting our Audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs of the Company as at 31st March, 2018, and its profit, other comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Emphasis of Matters

Without qualifying our opinion we invite attention to the following matters:

1. Balances relating to Trade Receivables and Loans and Advances are pending for confirmations from the respective parties. Adjustments, if any, will be made in the year in which the confirmations are received.

2. In respect of Investment in subsidiaries, the Company has not made any provisions for diminution in the value of Investments inspite of there being negative net worth, in view of future business plan of said subsidiary company.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ('the order') issued by Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure A**" a statement on the matters specified in the paragraph 3 and 4 of the order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "**Annexure B**" and
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - a. The Company has disclosed the impact of pending litigations on its financial position in its financial statements- Refer Note 30(3) to the Ind AS financial statements;
 - b. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company except for ₹ 1.62 Lakhs pertaining to unclaimed dividend for FY 2008-09 and FY 2009-10.
 - c. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Financial Statements of Allied Digital Services Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Allied Digital Services Limited (“the Company”) as of March 31, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

1) Corporate information

Allied Digital Services Limited (referred to as “ADSL” or the “Company”) is renowned as a leading Global IT Transformation Architect, having its operations in pan India, USA, Australia, Europe and Middle east Asia with an impeccable track record for designing, developing, deploying digital solutions and delivering end-to-end IT infrastructure services. It provides wide range of information technology and consultancy services including Infrastructure Services, End user IT Support, IT asset life cycle, enterprise applications and integrated solutions.

The Company’s registered office is in Mumbai and has presence in pan India, and it has Subsidiary companies in USA, UK, Singapore and Australia.

2) Significant Accounting Policies

Basis of preparation and presentation

a) Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (“Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 as applicable.

b) Basis of measurement

The financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items that have been measured at fair value as required by relevant Ind AS:

1. Derivative financial instruments;
2. Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments);
3. Share based payment transactions and
4. Defined benefit and other long-term employee benefits

c) Use of estimates and judgment

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

Summary of significant accounting policies

- (i) Functional and presentation currency Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which these entities operate (i.e. the “functional currency”). The financial statements are presented in Indian Rupee, the national currency of India, which is the functional currency of the Company.
- (ii) Foreign currency transactions and balances are translated into the functional currency of the company, using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies, are recognized in the statement of profit and loss and reported within foreign exchange gains/ (losses). Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.
- (iii) Investment in subsidiaries: Investment in subsidiaries is measured at cost. Dividend income from subsidiaries (if any) is recognised when its right to receive the dividend is established.

(iv) **Financial instruments:** All financial instruments are recognised initially at fair value. Transaction costs that are attributable to the acquisition of the financial asset (other than financial assets recorded at fair value through profit or loss) are included in the fair value of the financial assets. Purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place are recognised on trade date. While, loans and borrowings and payables are recognised net of directly attributable transaction costs. For the purpose of subsequent measurement, financial instruments of the Company are classified in the following categories: non-derivative financial assets comprising amortised cost, debt instruments at fair value through other comprehensive income (FVTOCI), equity instruments at FVTOCI or fair value through profit and loss account (FVTPL), non derivative financial liabilities at amortised cost or FVTPL and derivative financial instruments (under the category of financial assets or financial liabilities) at FVTPL. The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at initial recognition.

(v) Debt instruments at FVTOCI

A debt instrument shall be measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the objective of the business model is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the asset's contractual cash flow represent Solely Payments of Principal and Interest (SPPI)

Debt instruments included within FVTOCI category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recognised in other comprehensive income (OCI). However, the Company recognises interest income, impairment losses & reversals and foreign exchange gain/(loss) in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss. Interest earned is recognised under the effective interest rate (EIR) model.

(vi) Equity instruments at FVTOCI

All equity instruments are measured at fair value. Equity instruments held for trading is classified as FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividend are recognised in OCI which is not subsequently recycled to statement of profit and loss.

(vii) Financial assets at FVTPL

FVTPL is a residual category for financial assets. Any financial asset which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as FVTPL.

In addition the Company may elect to designate the financial asset, which otherwise meets amortised cost or FVTOCI criteria, as FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency. The Company has not designated any financial asset as FVTPL.

Financial assets included within the FVTPL category are measured at fair values with all changes in the statement of profit and loss.

a) Non-derivative financial liabilities

- (i) **Financial liabilities at amortised cost:** Financial liabilities at amortised cost represented by borrowings, trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest rate method.
- (ii) **Financial liabilities at FVTPL:** Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all changes recognised in the statement of profit and loss.

b) Derivative financial instruments:

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss.

(v) Property, plant and equipment

a) Recognition and measurement: Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset.

b) Depreciation: The Company depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are ready for intended use. Assets acquired under finance lease, if any, and leasehold improvements are amortized over the lower of estimated useful life and lease term. The estimated useful lives for the current and comparative period of significant items of property, plant and equipment are as follows

| Type of Asset | Method | Estimated useful life |
|------------------------------|---------------|-----------------------|
| Leasehold Land | Straight line | 99 Years |
| Freehold & Leasehold | Straight line | 60 Years |
| Buildings | Straight line | 60 Years |
| Furniture and Fixtures | Straight line | 10 Years |
| Computers and IT Equipment's | Straight line | 3 Years |
| Servers | Straight line | 6 Years |
| Motor Vehicles | Straight line | 8 Years |
| Office Equipment's | Straight line | 5 years |
| Civil and Plumbing Work | Straight line | 60 Years |

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the statement of profit and loss. Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work- in-progress(if any).

(vi) Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. The estimated useful lives of intangibles are as follows:

| Type of Asset | Method | Estimated useful life |
|-----------------------|---------------|-----------------------|
| Intellectual Property | Straight line | 10 Years |

(vii) Leases

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease

payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in the statement of profit and loss over the lease term except where the lease payments are structured to increase in line with expected general inflation.

(viii) Impairment

Financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

(ix) Employee benefits

The Company participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks fall on the employee. The expenditure for defined contribution plans is recognized as expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Company. The present value of the defined benefit obligations is calculated using the projected unit credit method.

(x) Share based payments

Employees of the Company receive remuneration in the form of equity settled instruments, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The expense is recognized in the statement of profit and loss with a corresponding increase to the share based payment reserve, a component of equity. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The stock compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest. The fair value of the amount payable to the employees in respect of phantom stocks, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the phantom stock options plan. Any changes in the liability are recognized in statement of profit and loss.

(xi) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

(xii) Revenue

The Company derives revenue primarily from IT Infrastructure Services, Enterprise Application & Integrated Solutions and related services. The Company recognizes revenue when the significant terms of the arrangement are

enforceable, services have been delivered and the collectability is reasonably assured. The method for recognizing revenues and costs depends on the nature of the services rendered:

a) Fixed-price contracts

Revenues from fixed-price contracts are recognized using the “percentage-of-completion” method. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates. ‘Unbilled revenues’ represent cost and earnings in excess of billings as at the end of the reporting period. ‘Unearned revenues’ represent billing in excess of revenue recognized. Advance payments received from customers for which no services are rendered are presented as ‘Advance from customers’.

b) Maintenance contracts

Revenue from maintenance contracts is recognized ratably over the period of the contract using the “percentage-of-completion” method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight line basis over the specified period or under some other method that better represents the stage of completion. In arrangements for soft ware development and related services and maintenance services, the Company has applied the guidance in Ind AS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering soft ware development and related services as separately identifiable components. For allocating the consideration, the Company has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in Ind AS 18. The Company accounts for volume discounts and pricing incentives to customers by reducing the amount of revenue recognized at the time of sale. Revenues are shown net of sales tax, value added tax, service tax and GST as applicable discounts and allowances. The Company accrues the estimated cost of post contract support services at the time when the revenue is recognized. The accruals are based on the Company’s historical experience of material usage and service delivery costs.

(xiii) Income tax

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

a) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Company off sets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realize the asset and liability simultaneously.

b) Deferred income tax

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary difference arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction. Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary difference, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred income tax liabilities are recognized for all taxable temporary difference. The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer

probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

(xiv) Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period. Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, as appropriate.

Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the following new and amendments to Ind ASs which the Group has not applied as they are effective for annual periods beginning on or after April 1, 2018:

Ind AS 115 Revenue from Contracts with Customers

Ind AS 21 The Effect of Changes in Foreign Exchange Rates

Ind AS 115 – Revenue from Contracts with Customers

Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard Ind AS 18 - Revenue, Ind AS 11 - Construction Contracts when it becomes effective.

The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer.

The Group has completed its evaluation of the possible impact of Ind AS 115 and will adopt the standard with all related amendments to all contracts with customers retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. Under this transition method, cumulative effect of initially applying Ind AS 115 is recognised as an adjustment to the opening balance of retained earnings of the annual reporting period. The standard is applied retrospectively only to contracts that are not completed contracts at the date of initial application. The Group does not expect the impact of the adoption of the new standard to be material on its retained earnings and to its net income on an ongoing basis.

Ind AS 21 – The Effect of Changes in Foreign Exchange Rates

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. The Group is evaluating the impact of this amendment on its financial statements.

Independent Auditors' Report on Consolidated Financial Statements

To the Members of
ALLIED DIGITAL SERVICES LTD

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of **Allied Digital Services Limited** ("the Holding Company") and its subsidiaries and associate (collectively referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31st March 2018, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows, for the year then ended, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs of the Company as at 31st March, 2018, and its profit, other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Emphasis of Matters

Without qualifying our opinion we invite attention to the following matters:

1. Balances relating to Trade Receivables and Loans and Advances are pending for confirmations from the respective parties. Adjustments, if any, will be made in the year in which the confirmations are received.
2. In respect of Investment in subsidiaries, the Company has not made any provisions for diminution in the value of Investments inspite of there being negative net worth, in view of future business plan of said subsidiary company.

Our opinion is not modified in respect of these matters.

“Annexure A” to the Independent Auditor’s Report of even date on the Consolidated Financial Statements of Allied Digital Services Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of the **Allied Digital Services Limited** (“the Company” or “the Holding Company”) and its subsidiary companies which are incorporated in India as of 31st March, 2018 in conjunction with our audit of the consolidated Ind AS financial statements of the Holding Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding their liability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our knowledge, according to the information and explanations given to us and based on the consideration of the reports of other auditors referred to in the other matters paragraph below the Holding Company and the subsidiaries which are companies incorporated in India have, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting, issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting, in so far as, it relates to subsidiary companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Note No. 1 SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

1) Corporate information

Allied Digital Services Limited (referred to as “ADSL” or the “Company”) is renowned as a leading Global IT Transformation Architect, having its operations in pan India, USA, Australia, Europe and Middle east Asia with an impeccable track record for designing, developing, deploying digital solutions and delivering end-to-end IT infrastructure services. It provides wide range of information technology and consultancy services including Infrastructure Services, End user IT Support, IT asset life cycle, enterprise applications and integrated solutions.

The Company’s registered office is in Mumbai and has presence in pan India, and it has Subsidiary companies in USA, UK, Singapore and Australia.

2) Significant Accounting Policies

Basis of preparation and presentation

a) Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (“Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 as applicable.

b) Basis of measurement

The financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items that have been measured at fair value as required by relevant Ind AS:

1. Derivative financial instruments;
2. Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments);
3. Share based payment transactions and
4. Defined benefit and other long-term employee benefits

c) Use of estimates and judgment

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

Summary of significant accounting policies

- (i) Functional and presentation currency Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which these entities operate (i.e. the “functional currency”). The financial statements are presented in Indian Rupee, the national currency of India, which is the functional currency of the Company.
- (ii) Foreign currency transactions and balances are translated into the functional currency of the company, using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies, are recognized in the statement of profit and loss and reported within foreign exchange gains/(losses). Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.
- (iii) Investment in subsidiaries: Investment in subsidiaries is measured at cost. Dividend income from subsidiaries (if any) is recognized when its right to receive the dividend is established.
- (iv) Financial instruments: All financial instruments are recognized initially at fair value. Transaction costs that are attributable to the acquisition of the financial asset (other than financial assets recorded at fair value through profit

or loss) are included in the fair value of the financial assets. Purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place are recognised on trade date. While, loans and borrowings and payables are recognised net of directly attributable transaction costs. For the purpose of subsequent measurement, financial instruments of the Company are classified in the following categories: non-derivative financial assets comprising amortised cost, debt instruments at fair value through other comprehensive income (FVTOCI), equity instruments at FVTOCI or fair value through profit and loss account (FVTPL), non derivative financial liabilities at amortised cost or FVTPL and derivative financial instruments (under the category of financial assets or financial liabilities) at FVTPL. The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at initial recognition.

(v) Debt instruments at FVTOCI

A debt instrument shall be measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the objective of the business model is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the asset's contractual cash flow represent Solely Payments of Principal and Interest (SPPI)

Debt instruments included within FVTOCI category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recognised in other comprehensive income (OCI). However, the Company recognises interest income, impairment losses & reversals and foreign exchange gain/(loss) in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss. Interest earned is recognised under the effective interest rate (EIR) model.

(vi) Equity instruments at FVTOCI

All equity instruments are measured at fair value. Equity instruments held for trading is classified as FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividend are recognised in OCI which is not subsequently recycled to statement of profit and loss.

(vii) Financial assets at FVTPL

FVTPL is a residual category for financial assets. Any financial asset which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as FVTPL.

In addition the Company may elect to designate the financial asset, which otherwise meets amortised cost or FVTOCI criteria, as FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency. The Company has not designated any financial asset as FVTPL.

Financial assets included within the FVTPL category are measured at fair values with all changes in the statement of profit and loss.

a) Non-derivative financial liabilities

- (i) Financial liabilities at amortised cost: Financial liabilities at amortised cost represented by borrowings, trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest rate method.
- (ii) Financial liabilities at FVTPL: Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all changes recognised in the statement of profit and loss.

b) Derivative financial instruments:

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss.

(v) **Property, plant and equipment**

- a) **Recognition and measurement:** Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset.
- b) **Depreciation:** The Company depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are ready for intended use. Assets acquired under finance lease, if any, and leasehold improvements are amortized over the lower of estimated useful life and lease term. The estimated useful lives for the current and comparative period of significant items of property, plant and equipment are as follows

| Type of Asset | Method | Estimated useful life |
|------------------------------|---------------|-----------------------|
| Leasehold Land | Straight line | 99 Years |
| Freehold & Leasehold | Straight line | 60 Years |
| Buildings | Straight line | 60 Years |
| Furniture and Fixtures | Straight line | 10 Years |
| Computers and IT Equipment's | Straight line | 3 Years |
| Servers | Straight line | 6 Years |
| Motor Vehicles | Straight line | 8 Years |
| Office Equipment's | Straight line | 5 years |
| Civil and Plumbing Work | Straight line | 60 Years |

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the statement of profit and loss. Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work-in-progress(if any).

(vi) **Intangible assets**

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. The estimated useful lives of intangibles are as follows:

| Type of Asset | Method | Estimated useful life |
|-----------------------|---------------|-----------------------|
| Intellectual Property | Straight line | 10 Years |

(vii) **Leases**

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in the statement of profit and loss over the lease term except where the lease payments are structured to increase in line with expected general inflation.

(viii) Impairment

Financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

(ix) Employee benefits

The Company participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks fall on the employee. The expenditure for defined contribution plans is recognized as expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Company. The present value of the defined benefit obligations is calculated using the projected unit credit method.

(x) Share based payments

Employees of the Company receive remuneration in the form of equity settled instruments, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The expense is recognized in the statement of profit and loss with a corresponding increase to the share based payment reserve, a component of equity. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The stock compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest. The fair value of the amount payable to the employees in respect of phantom stocks, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is re-measured at each reporting date and at settlement date based on the fair value of the phantom stock options plan. Any changes in the liability are recognized in statement of profit and loss.

(xi) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

(xii) Revenue

The Company derives revenue primarily from IT Infrastructure Services, Enterprise Application & Integrated Solutions and related services. The Company recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method for recognizing revenues and costs depends on the nature of the services rendered:

a) Fixed-price contracts

Revenues from fixed-price contracts are recognized using the "percentage-of-completion" method. Percentage of completion is determined based on project costs incurred to date as a percentage of total

estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates. 'Unbilled revenues' represent cost and earnings in excess of billings as at the end of the reporting period. 'Unearned revenues' represent billing in excess of revenue recognized. Advance payments received from customers for which no services are rendered are presented as 'Advance from customers'.

b) Maintenance contracts

Revenue from maintenance contracts is recognized ratably over the period of the contract using the "percentage-of-completion" method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight line basis over the specified period or under some other method that better represents the stage of completion. In arrangements for soft ware development and related services and maintenance services, the Company has applied the guidance in Ind AS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering soft ware development and related services as separately identifiable components. For allocating the consideration, the Company has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in Ind AS 18. The Company accounts for volume discounts and pricing incentives to customers by reducing the amount of revenue recognized at the time of sale. Revenues are shown net of sales tax, value added tax, service tax and GST as applicable discounts and allowances. The Company accrues the estimated cost of post contract support services at the time when the revenue is recognized. The accruals are based on the Company's historical experience of material usage and service delivery costs.

(xiii) Income tax

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

a) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Company off sets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realize the asset and liability simultaneously.

b) Deferred income tax

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary difference arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction. Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary difference, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred income tax liabilities are recognized for all taxable temporary difference. The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

(xiv) Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period. Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, as appropriate.

Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the following new and amendments to Ind ASs which the Group has not applied as they are effective for annual periods beginning on or after April 1, 2018:

Ind AS 115 Revenue from Contracts with Customers

Ind AS 21 The Effect of Changes in Foreign Exchange Rates

Ind AS 115 – Revenue from Contracts with Customers

Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard Ind AS 18 - Revenue, Ind AS 11 - Construction Contracts when it becomes effective.

The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under Ind AS 115, an entity recognizes revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer.

The Group has completed its evaluation of the possible impact of Ind AS 115 and will adopt the standard with all related amendments to all contracts with customers retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application. Under this transition method, cumulative effect of initially applying Ind AS 115 is recognized as an adjustment to the opening balance of retained earnings of the annual reporting period. The standard is applied retrospectively only to contracts that are not completed contracts at the date of initial application. The Group does not expect the impact of the adoption of the new standard to be material on its retained earnings and to its net income on an ongoing basis.

Ind AS 21 – The Effect of Changes in Foreign Exchange Rates

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. The Group is evaluating the impact of this amendment on its financial statements.
