# MANAGEMENT DISCUSSION & ANALYSIS

## INDUSTRIAL GROWTH

While India's recent slowdown is partly due to external causes, domestic reasons are also important. The strong post-financial-crisis stimulus led to stronger growth in 2009-10 and 2010-11, as the Indian economy responded strongly to fiscal and monetary stimulus and achieved a growth rate of 8.6 per cent and 9.3 per cent respectively. The consequent slowdown, especially in 2012-13, has been across the board, with no sector of the economy unaffected. The increase in consumption, coupled with supply side constraints, led to higher inflation which resulted in raising of policy rate by Reserve Bank of India. High interest rate has adversely impacted investment, and in the past two years viz. 2011-12 and 2012-13, the growth rate slowed to 6.2 per cent and 5.0 per cent respectively. Nevertheless, despite this slowdown, the compounded annual growth rate (CAGR) for gross domestic product (GDP) at factor cost, over the decade ending 2012-13 is 7.9 per cent.

After recovering to a growth of 9.2 per cent in 2009-10 and 2010-11, growth of value added in industrial sector, comprising manufacturing, mining, electricity and construction sectors, slowed to 3.5 per cent in 2011-12 and to 3.1 percent in 2012-13. The manufacturing sector, the most dominant sector within industry, also witnessed a decline in growth to 2.7 per cent in 2011-12 and 1.9 per cent in 2012-13 compared to 11.3 per cent and 9.7 per cent in 2009-10 and 2010-11, respectively. Growth in agriculture has also been weak in 2012-13, due to the lower-than-normal rainfall, especially in the initial phases (months of June and July) of the south-west monsoon.

However, there are early signs of turnaround in the global economy. The Indian economy also is exhibiting early signs of recovery, as indicated by moderation in inflation, return of investor confidence through surge in portfolio investment flows and stable market conditions. The balance of payments, however, is under strain with current account deficit (CAD) widening to 4.6 per cent of GDP in the first half of 2012-13, after touching 4.2 per cent in 2011-12. Economic growth though important cannot be an end in itself. The Twelfth Five Year Plan, with its focus on 'Faster, More Inclusive and Sustainable Growth', puts the growth debate in the right perspective. The government's targeted policies for the poor, with the prospect of fewer leakages, can help better translate outlays into outcomes.

## TEXTILE INDUSTRY

India is poised to become a significant player in global textile trade both as a consumer and as a producer of textiles. The synergistic efforts of all the stakeholders including the Government has resulted in the industry

growth rate of 8-9% during the last 2-3 years as compared to 3-4% during the last six decades since independence. Currently, India is the 9th largest economy in the world in absolute terms and is expected to overtake most of the European nations in the next 15 to 20 years. India's GDP has been growing at a rate of 6% since the liberalization of economy in 1991 and has grown by over 8% in the past few years. The 12th Five Year Plan targets a growth rate of 9.8% for the manufacturing sector.

The role of the Textile Industry is to provide one of the most basic needs of people and the importance of its sustained growth for improving quality of life. The textile industry recognize its unique position as a self-reliant industry, from the production of raw materials to the delivery of finished products, with substantial value-addition at each stage of processing; and its major contribution to the country's economy. The tremendous impetus provided by the Textile Policy of 1985 to the economy, resulting over these years in compounded annual growth rates of 7.13% in cloth production, 3.6% in the per capita availability of fabrics and 13.32% in the export of textiles; raising the share of textiles to 13% of value added domestic manufacturing of the country and to one third of the export earnings of the country.

The flagship scheme of the Ministry of Textiles i.e. Technology Upgradation Fund Scheme (TUFS) has facilitated technology upgradation of the textile industry to meet the challenges of the quota free globalised trade which has helped the textile industry on a wide basis. The Union Budget 2013-14 has proposed to continue the TUFS for the textile sector in the 12th Plan with an investment target of ₹ 151,000 crore. A new scheme with an outlay of ₹ 500 crore called the Integrated Processing Development Scheme will be implemented in the 12th Plan to address the environmental concerns of the textile industry.

Indian textile industry which is broad based and vertically integrated consumes diverse range of textiles fibres and yarns to produce various types of products for the domestic and export markets. The range of fibres consumed by the industry includes natural fibres like cotton, silk, wool, jute and man-made fibres like polyester, viscose, nylon, acrylic, polypropylene etc. Though the textiles industry is pre-dominantly cotton based, the consumption of other fibres / yarns is also significant.

## TECHNICAL TEXTILES

Technical Textiles has often been referred to as the sunshine sector in India and there is little doubt about the growth of technical textiles industry in the years to come. The success of technical textiles is primarily due

to the creativity, innovation and versatility in fibres, yarns and woven/knitted/non-woven fabrics with applications spanning an enormous range of uses in a very diverse range of economic activities including automobiles, aerospace, civil engineering and construction, healthcare, industrial safety, personal protection, entertainment etc. The ability of technical textiles to combine different technologies to create new functional products offer unlimited opportunity for growth.

Technical Textiles is the emerging field for investments in India. The production of different items of technical textile industry has been slowly but steadily increasing in the country. It has registered compounded annual rate of growth of 11% during 11th five year plan and the working group report for the twelfth five year plan has projected growth of 20% for technical textiles. The Ministry of Textiles has taken various initiatives for the improvement in Technical Textiles such as the major machinery for production of technical textiles is covered under TUFs and comes under the list of concessional customs duty of 5% .

## BUSINESS

The Management is making all efforts to embark on a suitable opportunity in the Technical Textile space. In the meanwhile, the Company started trading of Yarn till the time a suitable and viable project is identified. The Company's management is keeping all its options open to pursue a profitable business opportunity.

BTTL has invested in BMD Pvt. Ltd. which is a leading manufacturer of high performance specialized furnishing fabrics for automobiles, contract furnishing, flame retardant fabric & air texturised yarn.

BMD have a continuous track record of good performance and have achieved leadership for its products in the domestic as well as global market.

## STRENGTHS AND OPPORTUNITIES

1. Continuous raw material availability that help industry to control costs and reduce the lead times across the operation.
2. Availability of Low Cost and Skilled Manpower provides competitive advantage to industry.
3. Large and diversified segments in this industry that provide wide variety of products.
4. The cultural diversity and rich heritage of the country offers good inspiration base for designs and thus ensuring value addition in the product range.
5. Natural demand drivers including rising income levels, increasing urbanisation and growth of the purchasing population drive domestic demand.
6. Large domestic market, enabling manufacturers to spread out risks.

## WEAKNESSES AND THREATS

1. Fragmented Industry restricts the scope of enlarging base and emergence as global leaders.

2. Lack of desirable levels of Technological Development affect the productivity and other activities in whole value chain.
3. Continuous Quality Improvement is need of the hour as there are different demand patterns all over the world.
4. There has been an increase in seasons per year which has resulted in shortening of the fashion cycle.

## HUMAN RESOURCES

BTTL recognizes human resources as a key component for facilitating organization growth as they are drivers for operational efficiencies, competitive advantage, profitability and growth of the Company. The Company is bringing in new HR initiatives in line with the business strategy at group level. The Company at present has one employee.

## CORPORATE SOCIAL RESPONSIBILITY

Corporate Social Responsibility (CSR) is a management concept whereby companies integrate social and environmental concerns in their business operations and interactions with their stakeholders. The Company believes that through CSR, Company can achieve a balance of economic, environmental and social imperatives while at the same time addressing the expectations of shareholders and stakeholders. As the companies are now expected to perform well in non-financial areas such as human rights, business ethics, environmental policies, corporate contributions, community development, corporate governance and workplace issues, BTTL recognizes its social responsibility towards employees, shareholders and government in various ways viz. by providing true and fair position of Company's financial position to the shareholders and by providing all necessary information to the government and complying all the applicable laws, rules and regulations.

## CAUTIONARY STATEMENT

# INDEPENDENT AUDITORS' REPORT

## To the Members of

### Bhilwara Technical Textiles Limited

#### Report on the Financial Statements

We have audited the accompanying Financial Statements of Bhilwara Technical Textiles Limited ("the Company"), which comprise the Balance Sheet as at the 31st March, 2013, and the Statement of Profit & Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Accounting Standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at the 31st March, 2013;
- (b) in the case of the Statement of Profit And Loss, of the profit for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

#### Report on other legal and regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Act, we give in the Annexure 'A' a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by Section 227(3) of the Act, we report that:
  - a. We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - b. In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
  - c. The Balance Sheet, Statement of Profit & Loss and Cash Flow Statement dealt with by this report are in agreement with the books of account;
  - d. In our opinion, the Balance Sheet, Statement of Profit & Loss and Cash Flow Statement comply with the accounting standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956;
  - e. On the basis of written representations received from the directors as on the 31st March, 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on the 31st March, 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of Section 274 of the Companies Act, 1956.

# NOTES TO THE FINANCIAL STATEMENTS

## 1. Basis of preparation

The Financial Statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Financial Statements have been prepared to comply in all material respects with the Accounting Standards notified under the Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 1956. The Financial Statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of Financial Statements are consistent with those of previous year.

### 1.1 Summary of Significant Accounting Policies

#### a. Use of Estimates

The preparation of Financial Statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the Financial Statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

#### b. Revenue Recognition

Income is accounted for on accrual basis in accordance with Accounting Standard (AS) 9 - "Revenue Recognition".

- i) Sale revenue is recognized when property in the goods with all significant risk and rewards as well as the effective control of goods usually associated with ownership are transferred to the buyer, at a price.
- ii) Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate.
- iii) Dividend income on investments is accounted for when the right to receive the dividend is established.

#### c. Investments

Long term investments are stated at cost. Provision for diminution in the value of long-term investments is made only if such a decline is other than temporary in the opinion of the management.

#### d. Tangible Fixed Assets

Tangible fixed assets are stated at historical cost less provision for impairment losses, if any, and depreciation.

#### e. Depreciation on Tangible Fixed Assets

Depreciation on tangible fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management, or those prescribed under the Schedule XIV to the Companies Act, 1956, whichever is higher. The Company has used the following rates / useful life to provide depreciation on its fixed assets.

- i) Computer hardware systems are depreciated uniformly over a useful life of 3 years.
- ii) Assets costing upto ₹ 5,000 are fully depreciated in the year of purchase.

#### f. Impairment of Assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount being the higher of the asset's net selling price and its value in use. Value in use is based on the present value of the estimated future cash flows relating to the asset. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (i.e. cash generating units).

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

Previously recognised impairment losses are reversed where the recoverable amount increases because of a favourable change in the estimates used to determine the recoverable amount since the last impairment was recognised. A reversal of an asset's impairment loss is limited to its carrying amount that would have been determined (net of depreciation or amortization), had no impairment loss been recognised in prior years.

#### **g. Foreign Currency Transactions**

Foreign exchange transactions are recorded at the rates of exchange prevailing on the dates of the respective transactions. Exchange differences arising on foreign exchange transactions settled during the period are recognised in the Statement of Profit and Loss of the period.

Monetary assets and liabilities denominated in foreign currencies, which are outstanding as at the year end are translated at exchange rates prevailing on the last working day of the accounting year. The resultant exchange differences are recognized in the Statement of Profit and Loss.

#### **h. Tax on Income**

- i) Current corporate tax is provided on the results for the year after considering applicable tax rates and laws.
- ii) Deferred tax is provided on timing differences between tax and accounting treatments that originate in one period and are expected to be reversed or settled in subsequent periods. Deferred tax assets and liabilities are measured using the enacted / substantively enacted tax rates and laws for continuing operations.

Deferred tax assets in the event of unabsorbed depreciation and carry forward losses under tax laws, that exceed the deferred tax liability, are recognized only where there is virtual certainty of realization.

Deferred tax assets on other accounts are recognized only to the extent there is reasonable certainty of realization.

The carrying amount of deferred tax assets is reviewed at each Balance Sheet date to reassess realization.

- iii) MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal Income Tax during the specified period. In the year in which the Minimum Alternative Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal Income Tax during the specified period.

#### **i. Provisions and Contingent Liabilities**

Provisions are recognized for present obligations, of uncertain timing or amount, arising as a result of a past event where a reliable estimate can be made and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation. Where it is not probable that an outflow of resources embodying economic benefits will be required or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability unless the possibility of outflow of resources embodying economic benefits is remote.

Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events, are also disclosed as contingent liabilities unless the possibility of outflow of resources embodying economic benefits is remote.

#### **j. Earnings Per Share**

Basic earnings per share is computed by dividing the net profit after tax for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**k. Cash and Cash Equivalents**

Cash and cash equivalents comprise cash and cash on deposit with banks and corporations. The Company considers all highly liquid investments with a maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.
