Item No. 9

As per the Corporate Debt Restructuring package approved by the CDR Forum, the promoters of the Company are required to bring in the Company Rs. 19.00 Crores towards their contribution to the sacrifices made by the lenders under the CDR package. The promoters have already brought Rs. 9.50 Crores and are intending to bring the remaining Rs. 9.50 Crores by way of issue of preference shares.

As the present Authorized Share Capital of the Company does not permit the issue of preference shares, so it is required to re-classify the Authorized Share Capital of the Company.

In terms of the provisions of the Companies Act, 1956, the re-classification of Authorized Share Capital and alteration of capital clause of Memorandum of Association require the shareholders' approval by way of ordinary resolution.

The Board recommends the proposed resolution for your approval as an ordinary resolution.

None of the directors of the Company is in any way concerned or interested in the said resolution except to the extent of Preference Shares that may be issued to them, if any.

Item No. 10

The proposed Special Resolution set out in Item No. 10, is an enabling resolution authorizing the Board of Directors to raise resources by issue of Redeemable Non Convertible Non Cumulative Preference Shares of face value of Rs. 10/- each out of authorized share capital of the Company aggregating upto Rs. 10 Crores to enable the promoters to bring funds in the Company towards their contribution to the sacrifices made by the lenders under the CDR package. The said funds may be used for meeting the working capital requirements and for other general corporate purposes.

The preference shares may be issued at par or at premium or at such price or prices to various persons/entities including promoters/promoter group whether or not they are member(s) of the Company, with such rights and privileges and on such terms and conditions including but not limited as to the rate of dividend, redemption period, manner of redemption, amount of premium on redemption, if any.

The Board shall also be authorized to approve any modification, alteration and re-setting of all or any of the terms and conditions of the Preference Shares from time to time in consultation and agreement with the subscribers / holders of Preference Shares. The terms and conditions of Preference Shares shall however be subject to the provisions of the Companies Act, 1956 and Memorandum and Articles of Association of the Company.

The Preference Shares shall rank in priority to Equity Shares for repayment of capital and payment of dividend, if any. The Preference Shares shall be redeemed in accordance with the provisions of the Companies Act, 1956. However, the final terms and conditions of the issue of Preference Shares shall be determined by the Board of Directors.

Pursuant to the provisions of Section 81(1A) of the Companies Act, 1956 and the Listing Agreement with the Stock Exchanges, any offer or issue of shares in a Company to persons other than shareholders of the Company requires prior approval of the members by way of a Special Resolution. The consent of the members is therefore sought to authorize the Board to issue Preference Shares as aforesaid.

None of the directors of the Company is in any way concerned or interested in the said resolution except to the extent of Preference Shares that may be issued to them, if any.

2. PERFORMANCE REVIEW

During the year under review, the Company has been severally impacted due to sudden demand downturn in SPV cell segment resulting from liquidity crisis in Europe, lower sales realization without commensurate fall in raw material prices and underutilization of capacity due to industry downturn.

Germany reduced Feed-in-Tariff from January 2011 and this gave farm developers time to wait for better pricing. Many countries reduced subsidy support to solar sector, in order to combat their fiscal deficit. This resulted in lower off take of solar products globally leading to reduced demand. This downturn was entirely unanticipated and had taken the industry by surprise.

The demand had suddenly eroded while the supply chain was in full ramp. This created an artificially high inventory pile-up in Asia as well as at European ports and the same resulted in over 60% price erosion worldwide. These factors also caused halt in operations of solar industry globally.

Indosolar also got affected severely and its operations showed heavy losses. Since beginning of the year, the plant was operating at a very low capacity and it remained totally closed from September 2011 onwards. The liquidity had dried-up and the Company was not in a position to service its debt till revival of the market. So, the Company approached its bankers for restructuring of debts under CDR route.

During the year under review, your Company reported total income of Rs. 97.19 Crores as against Rs. 591.03 Crores last year. After making a provision of Rs. 57.28 Crores towards interest and Rs. 34.22 Crores towards depreciation, the current financial year closed with a loss of Rs. 202.36 Crores as against loss of Rs. 57.44 Crores last year.

3. CORPORATE DEBT RESTRUCTURING

In order to address the above situation, the Company applied to the Corporate Debt Restructuring (CDR) Forum set up under Reserve Bank of India for debt restructuring during September 2011 with an intention that the debt re-alignment under CDR aegis would help the Company and the lenders to address the situation quickly and in a scientific manner. The Company has been sanctioned CDR package by CDR Forum vide its letter dated 07.03.2012. The package is effective from 01.07.2011 and includes, inter-alia, reduction in rate of interest on loans, rescheduling of the loan repayment period with an initial moratorium of 24 months from effective date, sanction of additional CAPEX of Rs. 100 Crores for completing the expansion of 200 MW solar cell project, interest on loans during the moratorium period will be funded by additional Funded Interest Term Loan (FITL).

After getting approval from CDR Forum, the Company has entered into Master Restructuring Agreement, alongwith other security documents, with the consortium of banks and CDR package has been implemented.

4. STATUS OF IMPLEMENTATION OF 200 MW PROJECT

The Company is in the process of setting-up 200 MW solar cell manufacturing line to be financed through a mix of debt and equity. Union Bank of India had appraised the project and established LC of Rs. 228 Crores for import of 200 MW line against its debt underwriting of Rs. 275 Crores. The Company had also spent Rs. 179.66 Crores for the said expansion as equity contribution. The solar cell manufacturing line has already arrived, however, Company requires additional funding to the extent of Rs. 147 Crores to complete the project. In view of declining financial performance of the Company as well as weak outlook of solar sector in the short run, the bankers were reluctant to provide balance funding. However, CDR Forum has considered setting-up of 200 MW line as an integral component for success of the Company and approved additional CAPEX of Rs. 100 Crores for completing the expansion over and above Rs. 47 Crores already sanctioned by Union Bank of India.

5. DIVIDEND

Due to non availability of profit, your Directors do not recommend any dividend for the year ended 31st March, 2012.

6. PAYMENT OF ANNUAL LISTING FEES

Annual listing fee for financial year 2012-2013 has been paid to National Stock Exchange of India Limited and BSE Limited.

7. DIRECTORS

Mr. Gautam Singh Kuthari, Director will retire by rotation at the forthcoming Annual General Meeting and being eligible offer himself for re-appointment. Board recommends the same for your approval.

Mr. Ravinder Khanna has resigned from the Board with effect from 11th November, 2011 and Mr. Aditya Jain has resigned from the Board with effect from 14th February, 2012.

Mr. Arun Kumar Gupta and Mr. Gurbaksh Singh Vohra have been appointed as additional directors of the Company with effect from 14th February, 2012 to hold the office of director upto the date of forthcoming annual general meeting. The Board has received letters from shareholders alongwith deposit of Rs. 500/- for each of them for appointment as directors of the Company. The Board recommends the same for your approval.

The tenure of Mr. Bhushan Kumar Gupta, Chairman, Mr. Hulas Rahul Gupta, Managing Director and Mr. Anand Kumar Agarwal, Whole Time Director is upto 25th September, 2012. The management decided to re-appoint them for a further period of three years, i.e. from 26th September, 2012 to 25th September, 2015. The Board recommends the same for your approval.

8. STATUTORY AUDITORS

The statutory auditors of your Company, M/s B S R and Associates, Chartered Accountants, retire at the ensuing Annual General Meeting and have confirmed their eligibility for re-appointment at the forthcoming Annual General Meeting under section 224(1B) of the Companies Act, 1956.

The Board of Directors recommends their re-appointment for your approval.

9. STATUTORY AUDITORS' REPORT

On the Auditors' observations, reply from the management is as under:

- (i) As regards delay in payment of service tax and work contract tax mentioned in para (ix)(a) of the Annexure to the Auditors' Report, the same was due to adverse financial condition of the Company as well as non-realization of its dues in time. However, the same have since been paid alongwith interest and rectified.
- (ii) As regards accumulated losses becoming more than fifty percent of net worth and cash losses mentioned in para (x) of the Annexure to the Auditors' Report, the same were due to sudden demand downturn in SPV cell segment resulting from liquidity crisis in Europe, lower sales realization without commensurate fall in raw material prices and underutilization of capacity due to industry downturn. The demand had suddenly eroded while the supply chain was in full ramp. This created an artificially high inventory pile-up in Asia as well as at European ports and the same resulted in over 60% price erosion worldwide. These factors also caused halt in operations of solar industry globally. Indosolar also got affected severely and its operations showed heavy losses. As regards erosion of net worth by more than fifty percent, the Company is taking required necessary steps.
- (iii) As regards delay in repayment of principal sums and interest thereon to banks mentioned in para (xi) of the Annexure to the Auditors' Report, the same was due to non-availability of funds as the operations were at very low level during the year resulting into heavy cash losses. Accordingly, the Company approached CDR cell of RBI for approval of restructuring package seeking relief which was approved by the empowered group committee and the delays were condoned and rectified.
- (iv) As regards funds raised on short term basis being used for long term investment mentioned in para (xvii) of the Annexure to the Auditors' Report, the significant losses incurred by the Company were being financed out of short term funds as there were no alternate funds with the Company.

10. COST AUDITORS

In view of recent circular issued by the Ministry of Corporate Affairs, the cost audit is now applicable on the Company with effect from 1st April, 2012. The Company has appointed M/s Kabra & Associates, Cost Accountants to conduct audit of cost accounting records being maintained by the Company for the manufacture of solar cells for the financial year ending 31st March, 2013.

11. DEPOSITS

The Company has not accepted any deposits from public during the financial year under review.

12. PARTICULARS OF THE EMPLOYEES

The employees drawing remuneration as specified in section 217(2A) of the Companies Act, 1956 read with the Companies (Particulars of Employees) Rules, 1975 and details are as per Annexure-I to this report.

13. CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNING AND OUTGO

Information relating to conservation of energy, technology absorption and foreign exchange earnings and outgo as required to be furnished under the provisions of section 217(1)(e) of the Companies Act, 1956 read with Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988 is given as Annexure – II to this report.

14. REPORT ON MANAGEMENT DISCUSSION AND ANALYSIS AND CORPORATE GOVERNANCE ALONGWITH GENERAL SHAREHOLDER INFORMATION

In terms of Clause 49(VI) of Listing Agreement entered into by the Company with the Stock Exchanges, a detailed report on Corporate Governance along with Management Discussion and Analysis Report has been attached with this Report. A Certificate from Practicing Company Secretary on compliance with the conditions of corporate governance requirements by the Company is attached to the Corporate Governance Report and forms part of this Report.

15. DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to the requirement under Section 217(2AA) of the Companies Act, 1956 with respect to Director's Responsibility Statement, it is hereby confirmed:-

- i. That in preparation of the accounts for financial year ended 31st March, 2012 the applicable accounting standards have been followed;
- ii. That the directors have selected such accounting policies and applied them consistently and made judgments and estimates that were reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the loss of the Company for the year under review;
- iii. That the Directors have taken proper and sufficient care for maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 1956 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- iv. That the Directors have prepared the accounts for the financial year ended on 31st March, 2012 on a going concern basis.

16. ACKNOWLEDGEMENTS

The Board of Directors places on record its appreciation for the support, assistance and co-operation received from Government, Regulators and the bankers to the Company, i.e. Union Bank of India, Corporation Bank, Bank of Baroda, Andhra Bank and Indian Bank.

The Board is thankful to the shareholders for their support to the Company.

MANAGEMENT'S DISCUSSION AND ANALYSIS**Industry Structure and Developments**

There has been drastic downturn in SPV cells industry leading to substantial fall in the revenue generating parameters like sales realization and capacity utilization leading to fall in sales. Presently, when upfront system costs are factored into cost per KW, the cost of solar power substantially exceeds the cost of power supplied by the electric utility grid in almost all locations. As a result, national and local governmental bodies in many countries, most notably in Germany, Spain, Italy, the United States, India and China, provided subsidies and economic incentives in the form of feed-in-tariffs, rebates, tax credits and other incentives to distributors, system integrators and manufacturers of solar power products in order to promote the use of solar energy in on-grid applications and to reduce dependence on other forms of energy.

However, due to global economic downturn, many countries reduced subsidy support to control their fiscal deficit. This resulted in lower off take for solar products globally leading to reduced demand. This policy reversal was entirely unanticipated and had taken the industry by surprise. Besides this, the demand of Solar Cells in international market got seriously affected from early December 2010 and remained highly subdued due to early arrival of severe winter in Europe with heavy snow which stalled the installation process for almost two months. Further, the reduction in the Feed-in-Tariff in Germany gave investors time to wait for better pricing. The macro-economic problems in EU countries and consequent cuts in Solar Subsidies imposed by governments of European countries have affected sales realizations. The entire global photovoltaic industry is reeling under losses. The demand had suddenly eroded while the supply chain was in full ramp. This created an artificially high inventory pile-up in Asia as well as at European ports and the same resulted in over 60% price erosion worldwide. These factors also caused halt in operations of solar industry globally.

Opportunities and Threats**Opportunities**

- (a) The domestic markets are expected to witness steady growth and hence there is potential to ramp up volumes on domestic business.

Threats

- (a) Volatility in prices of raw materials;
- (b) Fluctuations in foreign exchange;
- (c) Non-utilization of our available manufacturing capacity;
- (d) Non-availability of full or part of any financial incentives which we have applied for;
- (e) Delays and cost overruns in expansion of our manufacturing facilities as a result of factors beyond our control; and
- (f) Reduction in, or elimination of, subsidies and economic incentives for on-grid solar energy applications.

Future Outlook

The Indian solar energy sector has been growing constantly in the past few years and is projected to grow further in future due to Government's initiatives such as tax exemptions and subsidies. Also with huge decline in the cost of solar power it has become more competitive than diesel.

According to the research report "Indian Solar Energy Market Outlook 2012 by RNCOS E-Services Private Limited" Indian solar energy industry exhibits huge potential to become one of the top producers of solar energy in the world in coming years. The sector is now receiving continuous support from both central and state governments.

Risks and Concerns

Due to industry downturn and resultant fall in demand, the capacities of the Company are underutilized. The plant was operating at marginal capacity / shut down at times during 2011-2012. Despite low capacity utilization and production, the Company has to incur fixed costs. Though, the Company is hopeful of early revival still the future of industry is unpredictable.

Internal Control Systems and its Adequacy

The Company has a proper and adequate system of internal controls commensurate with its size to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and the transactions are authorized, recorded and reported correctly.

The internal control system is designed to ensure that all financial and other records are reliable for preparing financial statements and other data and for maintaining accountability of assets.

Financial Performance viz-a-viz Operational Performance

During the year under review, the Company's Net Sales were Rs. 81.34 Crores as against Rs. 543.40 Crores last year. EBITDA was Rs. (-) 110.86 Crores as against of Rs. 57.92 Crores last year. The Company produced photovoltaic solar cells of 18.685 MWp as against 109.490 MWp last year.

Human Resource

Human resource stands to be the element of utmost importance for the success of any organization. Indosolar has always been focused on attracting and recruiting the best talent from all walks of the country and enjoys good brand image in the market.

Having best talent is the first step towards the goals to be achieved by the organization. A step further is the frequent and dedicated training programmes being conducted for upgradation and enrichment of employees

Human Resource department is making sincere efforts on all fronts to create an environment in which our people feel motivated to perform to their best potential.

Environment, Health and Safety (EHS)

Being a manufacturing concern, Environment, Health and Safety (EHS) matters have been the key consideration of Indosolar. Management has been regularly enquiring about the EHS matters of the Company from the concerned or responsible officials in ensuring compliance with applicable legal and other requirements for prevention of pollution, injury and ill health and maintaining quality by institutionalizing continual improvement.

Your Company has triple certifications: ISO-9001 (Quality Management Systems), ISO-14001 (Environment Management Systems) and OHSAS-18001 (Occupational Health Safety Assessment Series) for its manufacturing facility that displays the priority we give to the EHS matters.

Cautionary Statement

Statements in Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations may be "forward looking statements" within the meaning of applicable securities laws and regulations. Actual result could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include, among others, economic conditions, affecting demand/supply and price conditions in domestic and overseas markets in which the Company operates, changes in the Government regulations, tax laws and other statutes and incidental factors.

AUDITORS' REPORT

To the Members of
Indosolar Limited

1. We have audited the attached Balance Sheet of Indosolar Limited ("the Company") as at 31st March, 2012 and the Statement of Profit and Loss and Cash Flow Statement for the year ended on that date ("financial year"), annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003 ('the Order') issued by the Central Government of India in terms of Sub-Section (4A) of Section 227 of the Companies Act, 1956, we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the said Order.
4. Further to our comments in the Annexure referred to above, we report that:
 - (i) we have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (ii) in our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - (iii) the Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this report are in agreement with the books of account;
 - (iv) in our opinion, the Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this report comply with the accounting standards referred to in Sub-Section (3C) of Section 211 of the Companies Act, 1956, to the extent applicable;
 - (v) on the basis of written representations received from the Directors of the Company, as on 31st March, 2012, and taken on record by the Board of Directors, we report that none of the directors is disqualified as on 31st March, 2012 from being appointed as a director in terms of clause (g) of sub-Section (1) of Section 274 of the Companies Act, 1956;
 - (vi) without qualifying our opinion, attention is invited to Note 28, with regard to impairment assessment carried out by management as of 31st March, 2012 based on cash flows determined after taking into account the current business realities and which has been incorporated in the Corporate Debt Restructuring ('CDR') package approved by the consortium of banks ('CDR Cell'). Such cash flows do not indicate impairment as at 31st March, 2012.

As elaborated in the note, the achievement of such cash flows is dependent upon sustaining reasonable gross margins despite low selling prices; ability of project developers reaching financial closure; the Company being able to garner a reasonable share of the demand both under National Solar Missions and State Solar Missions and the ultimate outcome of various policy interventions that are required for the viability of the sector. The result of all of the above significant possible changes in the business dynamics and its consequent effect on the Company's cash flows will be known in the ensuing period. Accordingly, the cash flows that were prepared by management and as approved by the CDR cell have been considered by us for impairment assessment; and

- (vii) Without qualifying our opinion, attention is invited to note 6 (iii) (f) that highlights that one of the lending banks has not signed the joint Master Restructuring Agreement. However for purposes of the attached financial statements, the owings to this particular bank including interest due at lower rates have been disclosed / calculated in accordance with the terms of the CDR package per Letter of Approval dated 7th March, 2012 received from the CDR cell. As informed to us the owings to this particular bank have been reclassified / interest calculated in accordance with the CDR package as the necessary stipulated majority of the CDR cell has agreed to the CDR package. Accordingly, short term borrowings comprising cash credit amounting to Rs. 1,223.92 lakhs and devolved Letter of Credit amounting to Rs. 511.57 lakhs have been reclassified as Long Term Borrowing (Rs 1,402.43) and Short Term Borrowings (Rs. 333.06 lakhs) as at 31st March, 2012. The existing term loan of Rs. 5,996.79

lakhs has been disclosed as long term borrowing with nil current maturities. The interest due w.e.f 1st July, 2011 till 31st March, 2012 at revised rates amounting to Rs. 549.73 lakhs has been reclassified as a Funded Interest Term Loan. The above reclassifications and interest calculations are subject to reconciliation and approval by this particular bank.

- (viii) in our opinion, and to the best of our information and according to the explanations given to us, the said accounts give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
- a. in the case of the Balance Sheet, of the state of affairs of the Company as at 31st March, 2012;
 - b. in the case of the Statement of Profit and Loss, of the loss of the Company for the year ended on that date; and
 - c. in the case of the Cash Flow Statement, of the cash flows of the Company for the year ended on that date.

ANNEXURE REFERRED TO IN PARAGRAPH 3 OF OUR REPORT OF EVEN DATE

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of two years. In accordance with the policy, the Company has carried out physical verification of majority of its fixed assets during the year. In our opinion, the frequency of physical verification is reasonable having regard to the size of the Company and the nature of its assets. As informed to us, no material discrepancies were noticed on such verification.
- (c) Fixed assets disposed of during the year were not substantial, and therefore, do not affect the going concern assumption.
- (ii) (a) The inventory has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable.
- (b) The procedures for physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) The Company is maintaining proper records of inventory. As informed to us, no material discrepancies were noticed on verification between the physical stocks and the book records.
- (iii) (a) The Company had taken interest free loan from a party covered in the register maintained under Section 301 of the Companies Act, 1956. The maximum amount outstanding during the year in respect of such loan was Rs 418.62 lakhs and the year-end balance of such loan is Rs 418.62 lakhs.
In our opinion, the terms and conditions on which interest free loan had been taken from such party are not, prima facie, prejudicial to the interest of the Company.
In the case of interest free loan taken from a party listed in the register maintained under Section 301, the Company is not permitted to repay the loan under the terms and condition of restructuring agreement approved by the CDR Cell, unless the same has been approved by CDR Cell. As informed by the management and according to the terms and conditions of restructuring agreement, the loan has accordingly not been repaid by the Company during the year.
- (b) The Company has not granted any loans, secured or unsecured, to companies, firms or other parties covered in the register maintained under Section 301 of the Companies Act, 1956.
- (iv) In our opinion and according to the information and explanations given to us, and having regard to the explanation that purchases of certain items of inventories and fixed assets are for the Company's specialized requirements and suitable alternative sources are not available to obtain comparable quotations, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchase of

inventories and fixed assets and with regard to sale of goods. The activities of the Company do not involve rendering of services. We did not observe any major weakness in internal controls during the course of our audit.

- (v) (a) In our opinion and according to the information and explanations given to us, the particulars of contracts or arrangements referred to in Section 301 of the Companies Act, 1956 have been entered in the register required to be maintained under that section.
- (b) In our opinion, and according to the information and explanations given to us, there are no contracts or arrangement referred to in (a) above that exceeds the value of Rs. 5 lakh during the year except interest free loan taken from a party covered in the register maintained under Section 301 of the Companies Act, 1956. Refer to our comments in respect of transaction related to loan taken in para (iii) (a) above.
- (vi) The Company has not accepted any deposits from the public.
- (vii) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.
- (viii) We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under section 209(1)(d) of the Companies Act, 1956 and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records.
- (ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the amounts deducted/ accrued in the books of accounts in respect of undisputed statutory dues including Income tax, Provident Fund, Employees' State Insurance, Sales tax, Wealth tax, Excise duty and other material statutory dues have generally been regularly deposited with the appropriate authorities *except Service tax and work contract tax where there have been serious delays in few cases*. As explained to us, the Company did not have any dues on account of Investor Education and Protection Fund and Customs duty.
- According to the information and explanations given to us, no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income tax, Sales tax, Wealth tax, Service tax, Excise duty and other material statutory dues were in arrears as at 31st March, 2012 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no amounts in respect of Income tax, Sales tax, Service tax, Wealth tax and Excise duty that have not been deposited with appropriate authorities on account of any dispute. As explained to us, the provisions relating to Customs duty are not applicable to the Company.
- (x) *The accumulated losses of the Company at the end of the financial year are more than fifty percent of its net worth. The Company has incurred cash losses during the financial year and in the immediately preceding financial year.*
- (xi) *In our opinion and according to the information and explanations given to us, and on the basis of our examination of the books of account and related records, we observed following delays in the repayment of principal sums and interest thereon to banks:*

Name of the lender	Period of default in days	Minimum amount of default (Rs. in lakhs)	Maximum amount of default (Rs. in lakhs)
Corporation Bank	1 to 271	0.64	3,522.47
Bank of Baroda	6 to 274	74.59	3,303.07
Indian bank	18 to 274	70.58	2,977.80
Union Bank of India	1 to 212	20.12	1,806.11
Andhra Bank	6 to 308	14.52	4,174.46

However, as explained in Note 6 of financial statements the Corporate Debt Restructuring Empowered Group approved a restructuring package on 28th March, 2012 in terms of which the Existing loans were restructured with effect from 1st July, 2011. As a consequence, there are no overdue amounts outstanding towards interest and principal as at year end.

- (xii) The Company has not granted loans and advances on the basis of security by way of pledge of shares, debentures and other securities.
- (xiii) In our opinion and according to the information and explanations given to us, the Company is not a chit fund or a nidhi/mutual benefit fund/society.

- (xiv) According to the information and explanations given to us, the Company is not dealing or trading in shares, securities, debentures and other investments.
- (xv) In our opinion and according to the information and explanations given to us, the Company has not given any guarantee for loans taken by others from banks or financial institutions.
- (xvi) In our opinion and according to the information and explanations given to us, the term loans taken by the Company have been applied for the purpose for which they were raised.
- (xvii) *According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we are of the opinion that funds raised on short-term basis amounting to Rs. 2,254.50 lakhs have been used for long-term investment.*
- (xviii) The Company has not made any preferential allotment of shares to companies, firms or parties covered in the register maintained under Section 301 of the Companies Act, 1956.
- (xix) The Company did not have any outstanding debentures during the year.
- (xx) We have verified the end-use of money raised by public issues as disclosed in the notes to the financial statements.
- (xxi) According to the information and explanations given to us, no fraud on or by the Company has been noticed or reported during the course of our audit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2012**(All amounts in Rupees lakhs, unless otherwise stated)****1 SIGNIFICANT ACCOUNTING POLICIES****i. Basis of preparation**

These financial statements have been prepared and presented on the accrual basis of accounting and comply with the Accounting Standards prescribed in the Companies (Accounting Standards) Rules, 2006 issued by the Central Government, the relevant provisions of the Companies Act, 1956 and other accounting principles generally accepted in India, to the extent applicable. The financial statements are presented in Indian rupees rounded off to the nearest lakhs. This is the first year of application of the revised Schedule VI to the Companies Act, 1956 for the preparation of the financial statements of the company. The revised Schedule VI introduces some significant conceptual changes as well as new disclosures. These include classification of all assets and liabilities into current and non-current. The previous year figures have also undergone a major reclassification to comply with the requirements of the revised Schedule VI.

The Company has incurred significant losses in the year ended 31st March, 2012. The accumulated losses have resulted in substantial erosion of its net worth. The Solar industry and the Company have undergone turmoil owing to significant downturn in the global market. As a consequence, the Company has been unable to utilise its capacity as the cost of production of solar cells continue to be higher than the prevailing market prices. Management has formulated plans to increase its focus in the domestic market by entering into strategic alliances with module manufacturers that would enable them to participate in the entire supply chain and increase their profitability. The outlook of the industry, especially the domestic market, has shown some signs of recovery. Consequently, management intends to negotiate the prices of solar cells, maintain consistent margins on cells and intends to utilise its capacity to the optimum as a long terms strategy. Further, considering the difficulties the Company has faced during the past one year, it has had its debt restructured as more fully explained in Note 6. Under the debt restructuring package additional credit facilities have been sanctioned. In the short term, management has improved collections and is making efforts in monetising some of its receivables. Further, the Company has been able to obtain loan from one of its related party and also has been able to obtain contribution from its promoters. The management believes that it is appropriate to prepare the financial statements on the going concern assumption and accordingly these results do not include any adjustments that might result from the outcome of uncertainties more fully explained in Note 28.

ii. Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Examples of such estimates include estimates for provision for doubtful debts, future obligations under employee retirement benefit plans and estimated useful life of fixed assets and estimates of future cash flow for impairment testing. Difference between the actual results and estimates are recognised in the year in which such results are materialised. Any revision to accounting estimates is recognised in accordance with the requirement of the respective Accounting Standard, generally prospectively, in current year and future period.

iii. Revenue recognition

Sale of goods : Revenue from sale of goods is recognised when significant risks and rewards of ownership are transferred to the customers.

Interest income : Interest income is recognised using the time proportionate method, based on interest rates implicit in the transaction.

Job work income : Job work income is recognised on completion of conversion from wafers to solar cells in accordance with the terms of the contract.

iv. Inventories

Raw materials and finished goods are valued at the lower of cost and net realisable value. The cost of purchase consists of the purchase price including duties and taxes other than those subsequently recoverable by the enterprise from the taxing authorities, freight inwards and other expenditure directly attributable for its acquisition.

Cost is determined on the basis of first-in first-out method. In respect of finished goods, cost includes appropriate share of manufacturing overheads, wherever applicable.

Obsolete and slow moving inventories are identified at the time of physical verification of inventories and, where necessary, a provision for obsolescence is recognised or the same is written-off.

Consumable stores are charged to revenue at the point of purchase.

Stock of scrap and waste is valued at estimated realisable value. Machinery spares that are of regular use are charged to Statement of Profit and Loss as and when consumed.

v. Fixed assets

Fixed assets including machinery spares are stated at cost less accumulated depreciation. Cost of acquisition is inclusive of freight, duties, taxes and other incidental costs related to acquisition and installation. In respect of fixed assets constructed, costs comprises costs of construction that relate directly to the specific asset and administration and other general overhead expenses that are directly attributable to the construction activity and can be allocated to the specific asset.

Cost of assets not ready for use, advances paid towards acquisition of fixed assets and administration and other general overhead expenses that are directly attributable to the construction activity of specific asset until commissioning of such assets, are disclosed as Capital Work in Progress.

vi. Depreciation

Tangible assets : Depreciation has been calculated on a pro rata basis, under the straight-line method over the useful life of assets, based on rates specified in Schedule XIV to the Companies Act, 1956, except mobile phones and leasehold land. Mobile phones (included under office equipments) are depreciated over a period of one year and leasehold land is amortised over the period of lease on straight line basis. Machinery spares are depreciated over the useful life of 5 years on a pro rata basis.

Intangible assets : Intangible assets representing computer software are depreciated over a period of 5 years on a pro rata basis.

Assets costing upto Rs. 5,000 are fully depreciated in the year of purchase.

vii. Impairment

Management periodically assesses using external and internal sources whether there is an indication that an asset may be impaired. Impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. The impairment loss to be expensed is determined as the excess of the carrying amount over the higher of the asset's net sales price or present value as determined above. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is recorded only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortisation, if no impairment loss had been recognised.

viii. Operating leases

Lease rental in respect of assets taken on operating lease are charged to the Statement of Profit and Loss on a straight-line basis over the lease term.

ix. Foreign currency transactions

Foreign exchange transactions are recorded at the exchange rates prevailing at the date of transaction. Realised gains and losses on foreign exchange transactions during the year are recognised in the Statement of Profit and Loss. Monetary assets and monetary liabilities that are determined in foreign currency are translated at the exchange rate prevalent at the date of Balance Sheet. The resulting difference is recorded in the Statement of Profit and Loss.

In respect of forward exchange contracts taken by the Company for hedging purposes, the premium or discount on such contracts is amortized as income or expense over the life of the contract. Any profit or loss arising on the cancellation or renewal of forward contracts is recognised as an income or expense for the period. The exchange difference on such a forward exchange contract is calculated as the difference between:

- (a) the foreign currency amount of the contract translated at the exchange rate at the Balance Sheet date, or the settlement date where the transaction is settled during the reporting period; and
- (b) the same foreign currency amount translated at the later of the date of inception of the forward exchange contract and the last reporting date. Such exchange differences are recognised in the Profit and Loss Account in the reporting period in which the exchange rates change.

x. Taxation

Income taxes are accrued in the same period in which the related revenue and expense arise. Income tax expenses comprise current tax (i.e. the amount of tax for the period determined in accordance with the Income Tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of the timing differences between the accounting income and taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in the future, however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

Deferred tax consequences of timing differences that originate in the tax holiday period and reverse after the tax holiday period are recognised in the period in which the timing differences originate.

xi. Earnings per share

Basic earning per share is computed by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, net profit or loss for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares except where the results would be anti-dilutive.

xii. Borrowing costs

Borrowing costs are interest and other costs (including exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred by the Company in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of those tangible fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalised. Other borrowing costs are recognised as expense in the period in which they are incurred. In determining the amount of borrowing costs eligible for capitalisation during a period, any income earned on the temporary investment of those borrowings is deducted from the borrowing costs incurred.

Expenses incurred on commitment charges and other ancillary costs related to availing of loan facility or loan commitment from banks are amortised over the period of loan commencing from the first drawdown of such loans. Until such commencement of amortisation, they are disclosed in the financial statements as unamortised borrowing cost.

xiii. Employee benefits

The Company's obligations towards various employee benefits have been recognised as follows:

Short-term employee benefits:

All employee benefits payable wholly within twelve months of rendering service are classified as short-term employee benefits. Benefits such as salaries, allowances, short-term compensated absences and the expected cost of other benefits is recognised in the period in which the employee renders the related service.

Post employment benefits:

- **Defined contribution plan**
The Provident Fund Scheme is a defined contribution plan. The Company's contribution to defined contribution plans is recognised in the Statement of Profit and Loss in the financial year to which they relate.
- **Defined benefit plans**
The Company's gratuity scheme is a defined benefit plan. The present value of obligation under such defined benefit plan is determined based on actuarial valuation carried at the year end using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.
- **Other long term employee benefit:**
As per the Company's policy, eligible leaves can be accumulated by the employees and carried forward to future periods to either be utilised during the service, or encashed. The Company accounts for the liability for compensated absences payable in future and long service awards based on an independent actuarial valuation using the projected unit credit method as at the year end. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

xiv. Miscellaneous expenditure

Share issue expenses are adjusted against the Securities Premium Account as permitted under Section 78 of the Companies Act, 1956.

xv. Provisions and contingencies

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible but not probable obligation or a present obligation that may, but probably will not, entail an outflow of resources. When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

6 DEBT RESTRUCTURING

i) Background

The Company had set up a green field project for manufacturing Solar Photovoltaic cells with a capacity of 160 MW, comprising two lines of 80 MW each under Phase –I and are in the process of setting up an additional manufacturing facility Line -3 with a 200 MW capacity under Phase – II, at Plot No. 3C/1 Ecotech-II, Udyog Vihar Greater Noida in the State of Uttar Pradesh. The existing lending banks ('Lenders') had, at the request of the Company, sanctioned Term loans, deferred payment guarantee facilities and working capital facilities on such terms and conditions as contained in various loan agreements / facility agreements entered into between the Company and the Lenders.

ii) Conditions leading to restructuring

The Company witnessed significant downturn due to weak demand both globally as well as in the domestic market and incurred significant cash and operating losses during the year. Also, the current mismatch between cost and selling prices resulted in the stoppage of plant from September, 2011, which severely impacted the cash flow position of the Company that prompted the filing of a restructuring package of its existing loans with the Corporate Debt Restructuring Cell ('CDR Cell'). At the request of the Company and in consideration of its commitment to improve its operations, the application so filed was referred to the Corporate Debt Restructuring Forum, a non-statutory voluntary mechanism set up under the aegis of the Reserve Bank of India (hereinafter referred to as the "CDR"). Pursuant thereto, the CDR Empowered Group at their meeting held on 30th January, 2012 approved a restructuring package in terms of which the existing loans were restructured and certain additional financial assistance was proposed to be extended to the Company as set out in the Letter of Approval dated 7th March, 2012 issued by Corporate Debt Restructuring Cell to the Lenders and the Company (hereinafter referred to as the "CDR Package")

The terms and conditions of the CDR are binding on the Lenders and the Company, effective from the date of the signing of the Master Restructuring Agreement ('MRA') i.e. 28th March, 2012 (except in case of Indian Bank wherein the ('MRA') is yet to be signed) with each of the Lenders. Under the CDR package, the Company is entitled to the reliefs and concessions granted by the Lenders pursuant to the Approved CDR Package, with effect from 1st July, 2011 ('the Relevant Date'). In connection with obtaining the necessary approvals for restructuring of existing loans, the promoters were required to contribute funds in accordance with sanction letter. As a consequence, the Company received an unsecured loan from its promoters amounting to Rs. 950.00.

iii) Principal terms of the Master restructuring Agreement ('MRA') in accordance with the CDR scheme.

a) Waivers of existing events of default and the consequential effect thereof:

The Company in accordance with the terms and conditions of the MRA agreed to the reconstitution of the Existing Loans due to the Lenders pursuant to the CDR Package. As part of the restructuring arrangement, the Lenders waived any existing Events of Default in connection with the Existing loans and any rights, remedies or powers that had arisen in connection therewith. Also, each of the Lenders waived the obligation of the Company to pay any liquidated damages, default or penal interest / interest / further interest charged by the Lenders in excess of the interest rates specified in the existing documents for financing and security of such Lender as they existed prior to 1st July, 2011, without considering any increase in such rates on account of the occurrence of any default under such documents, together with compound interest, penalties or any other charges thereon under those documents of such Lender during the period commencing on 1st July, 2011 and ending on 30th June, 2013.

b) Restructuring of the Existing loans:

- **Each of the Lenders and Company agreed that the Existing Loans shall be reconstituted as follows:**
- Existing Rupee Term Loans of Rs. 34,485.82 together with all interest, charges, costs, expenses and any other amounts accrued and outstanding on 1st July, 2011 has been reconstituted into Facility -A;
- The existing Short Term Loan of Rs. 2,200.00 from Andhra Bank outstanding as on 1st July, 2011 i.e. the Cut-off date shall be rescheduled and converted into "Priority Medium Term Loan" as Facility -B;
- The estimated amount of irregularity as on 31st March, 2012 in Working Capital Limits previously consisting of cash credit, packing credit, buyer's credit facility and bill discounting on the basis of prevailing exchange rates, prevailing realisable value of inventory etc. including irregularities due to anticipated devolvement of LCs upto 31st March, 2012, subject to reconciliation at the time of implementation, shall stand converted

into WCTL as Facility - C;

- The outstanding amount on account of interest on Secured term loans, interest on Short term loan, interest on WCTL and interest on existing Working Capital from cut-off date till 30th June, 2013, not exceeding Rs. 9,845.00 shall stand funded by way of Funded Interest Term Loan ("FITL") as Facility - D

c) Sanction for additional funding

1. Project Loan from Union Bank of India

Union Bank of India ('UBI') sanctioned a Project Loan amounting to Rs. 27,500 (including Priority Term Loan of Rs. 4,700). The Project Loan by UBI has been sanctioned in the following manner:

- a) The Company has been sanctioned Rs. 22,800 Letter of Credit (LC) opened in favour of M/s. Schmid Technology Systems GmbH ('Schmid') by UBI, for a period of 35 months from the date of shipment out of term loan disbursement. In accordance with the said arrangement, the same shall be converted into Term Loan in February, 2014. Schmid discounted the said Letter of Credit with their bankers (counterparty bank) and UBI in consultation with the Company and Schmid, entered into a Deferred payment credit facility with the counterparty bank wherein, a sum of Rs. 22,142.26 has been paid by the counterparty bank to M/s. Schmid towards imported capital goods. UBI is paying the interest in respect relating to such financing to the counterparty bank, which is being charged to the Company. In accordance with the terms of the agreement with Schmid and the Deferred payment facility, there is no obligation to pay to Schmid as the same has been discharged by the counterparty bank. As a consequence, UBI has an obligation towards the counterparty bank to repay the loan in accordance with the terms agreed at the end of the Letter of credit term i.e. 35 months from the date of shipment. Such amount payable under the Deferred payment mechanism has therefore been classified as Long term borrowings.
- b) Rs. 4,700 out of the said Project Loan shall be disbursed by UBI to the Company towards capital expenditure.

2. Medium term loan

As part of the CDR package the Lenders have agreed to provide additional funding in the form of medium term loans of Rs.10,000 for the implementation of 200 MW Plant in the proportion of the outstanding exposure to the Company as on the 1st July, 2011. Such funding shall be in the form of deferred letter of credit for 35 months which shall be funded by the Priority loans.

d) Reset of Interest Rate:

The Lenders who are part of the consortium of banks, alongwith the approval of CDR EG, shall have a right to reset the rate of interest on the term loans after every three years (or short period as decided by the CDR EG) and working capital interest rate every year.

e) Consequential effect of the CDR Scheme on the interest cost and the classification of the interest accrued on borrowings as loans

As explained in note 6 (iii) (a) above, the Lenders waived the obligation of the Company to pay any liquidated damages, default or penal interest / interest / further interest charged by the Lenders in excess of the concessional rates approved under the CDR package from 1st July, 2011, the consequential effect has been that there has been a credit received from the Lenders amounting to Rs 1,201.70 and the balance of interest accrued outstanding as at 31st March, 2012 relating to various facilities amounting to Rs 3,502.00 transferred to FITL.

f) Balances outstanding in relation to facilities availed from Indian Bank pending finalisation and approval

As explained in note (ii) above, one of the consortium banks i.e. Indian Bank is yet to sign the Master Restructuring Agreement. However, management believes that as per RBI guidelines the CDR package has been approved by super majority of the consortium of banks. Accordingly, the owings to this particular bank have been reclassified and interest has been recalculated in accordance with the CDR package. The short term borrowings comprising cash credit amounting to Rs 1,223.92 and devolved Letter of Credit amounting to Rs. 511.57 have been reclassified as Long term borrowing (Rs. 1,402.43) and Short term borrowings (Rs. 333.06) as at 31st March, 2012. The existing term loan of Rs. 5,996.79 has been disclosed as long term borrowing with Nil current maturities. The interest due w.e.f 1st July, 2011 till 31st March, 2012 at revised rates amounting to Rs. 549.73 has been reclassified as a Funded Interest Term Loan. The above reclassifications and interest calculations are subject to reconciliation and approval by this particular bank.

28 The Global Photovoltaic sector remains in a structural oversupply in 2012 with an estimated capacity likely to be in the region of 50GW with the operating capacity being lower than that. Correspondingly, the demand would be approximately 35GW. It is expected that China, USA, Japan and India shall be the main demand growth drivers in 2012.

The Indian Solar Energy Market has developed over the last few years mainly due to the National Solar Mission ('NSM') and the State Solar programs. Annual installed capacities/projections are as under:

Annual installed capacities/projections are as under:

Year	2009-10	2010-11	2011-12	2012-13	2013-17	2017-2022
Capacity in (MW)	5	13	456.55	800-1,000	4,000-10,000	20,000

(Source: MNRE Website & Wikipedia)

The market size estimates in some of the expert reports (Deutsche Bank and McKinsey) suggest that the annual capacity may be much higher compared to the above projections. The most recently conducted bidding process by NTPC Vidyut Vyapar Nigam Limited ('NVVN') under National Solar Mission (NSM) led to a sharper than expected reduction in the Project Costs Assumptions due to aggressive bidding. As a consequence, this has impacted the

price points for Solar cells and Modules, thus making the economics challenging at this point in time. Project developers are also facing difficulties in obtaining Financial Closure from Banks for their Projects, which is further delaying the finalization of orders for Solar cells and Modules.

The current mismatch between cost and selling prices has resulted in the stoppage of plant from September, 2011, which severely impacted the cash flow position of the Company that prompted the filing of a restructuring package with the Corporate Debt Restructuring Cell. In connection therewith, the Company prepared Cash Flow projections after taking into account the current business realities and such cash flows have been incorporated in the CDR package which has been approved by the consortium of banks. Management has simultaneously implemented operational improvement actions and new initiatives as part of the compensating actions to protect the margins in the context of the current price erosion. The cash flow projections have been prepared with an assumption that the project developers shall be able to achieve financial closures and that the Company shall be able to garner a reasonable share of demand both under NSM and State Solar Missions with sustainable and reasonable gross margins despite low selling prices. The Company's cash flow projections are largely dependent upon the achievement of all these factors.

Management believes that the sector requires significant government support and policy intervention to support the viability of the sector. A few such policy initiatives under active discussion and the outcome of which is awaited at this point in time relate to:

- The Imposition of Anti Dumping Duty on goods from China, Taiwan, Malaysia & USA as per the petition filed by The Solar Manufacturers Association of India on 18th January, 2012;
- The continuance and increasing scope of Local Content Requirement ['LCR'] for the PV cells in Phase II of NSM [2013 to 2017]; and
- Commitment of the government to the National Solar Mission and State Solar Missions.

As a result of the above significant uncertainties and possible changes in the business dynamics mentioned above, the outcome of which including consequential impact on the Company's cash flows will be known only in the ensuing period, the cash flows that were prepared by management and as approved by the CDR cell have been considered for impairment assessment. Based on such analysis, the cash flow projections do not indicate impairment as at 31st March, 2012 .

Notes:

1. The proxy, to be effective, should be deposited at the Registered Office of the Company not later than FORTY EIGHT HOURS before the commencement of this Meeting.
2. A proxy need not be a member of the Company.
3. In case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the vote of the other joint holders. Seniority shall be determined by the order in which the names stand in the Register of Members.
4. This form of proxy confers authority to demand or join in demanding a poll.
5. The submission by a member of this form of proxy will not preclude such member from attending in person and voting at the meeting.
6. *This is optional. Please put a tick mark (✓) in the appropriate column against the resolutions indicated in the box. If a member leaves the 'For' or 'Against' column blank against any or all the resolutions, the proxy will be entitled to vote in the manner he/she thinks appropriate. If a member wishes to abstain from voting on a particular resolution, he/she should write 'Abstain' across the boxes against the resolution.
7. In case a member wishes his/her votes to be used differently, he/she should indicate the number of shares under the columns 'For' or 'Against' as appropriate.
