ZEN TECHNOLOGIES LIMITED

THE WAY IS IN THE TRAINING

Zen (zen) n. [[Jpn <Chin ch'an, ult. <Sans dhyāna, thinking, meditation]] a sect of Buddhism, seeks to attain an intuitive illumination of mind and spirit through meditation.

- FROM WEBSTER'S NEW WORLD DICTIONARY

being there...

Our training simulators project situations realistically. The combat situations are patterned in such a way that the trainee benefits immensely. It is said that the best training is actual combat experience in a battlefield. Zen simulators artificially duplicate the actual combat scenarios so realistically that personnel trained get the feeling of actually **being there...**

Our products

Zen has been at the forefront of applying new technologies and developing new products and is actively involved in the indigenisation of technologies, which are helpful for security forces in India and other friendly countries.

Chairman and Managing Director's Overview

Overview

Strengthening my view last year, the Indian defence procurement is moving decisively towards encouraging indigenization. It is favourably transforming the prospects of companies like Zen that have spent huge amount of resources on R&D and have created world-class products with complete ownership of IP. Zen had to pay costs in terms of lesser short term profits in search of long-term sustainable advantages. We are reaping the benefits now.

Orders from the Indian Government will continue to be lumpy, but a decisive journey has indeed begun. Going ahead, the volume of Defence procurement from the private sector is only likely to grow and will be spread across a wider range of products. The stress on a growing proportion of indigenous content in systems/sub-systems being procured is heartening news for research-driven players like Zen.

The principal message that I wish to communicate is that Zen Technologies is attractively placed to capitalise on the watershed moment in transformation of India from the ignominy of being the largest importer of defence equipment to an aspiring, definitive and large player in the defence exports market. The support from Indian Govt will make it possible. Ignore the negativities being felt, the reality hasn't been more comfortable for Zen until now.

Positioning

Over the years, Zen selected to specialize in the security training solutions niche that is core to the security preparedness of any country – few meters wide but a miles-deep positioning, which is in contrast to the inch-deep and mile-wide strategy of other Defence players. In line with the Zen philosophy of less is more, the Company will continue to focus on training solutions. We have also developed some other products like ShootEdge that fulfil the operation needs of Special Forces. Application of AI techniques, including Adaptive Learning technologies in training solutions will help our customers learn smarter and faster.

The result of a proactive research-led investment approach is that Zen is among a handful of global companies that can provide holistic full-fledged cutting-edge solutions.

Governance

Zen recognises that it is engaged in a business where its principal customer is the government; it is in the critical business of combat readiness against internal and external threats that a country might face; the effectiveness of its solutions helps protect the lives of millions.

Over the years, the Company strengthened its governance through a long-term mind set, focus on processes and systems as the basis of its working, placing a premium on customer satisfaction and confidentiality, strengthening the technocrat-driven environment with extensive investment in research, investing in the quality-enhancing practices of its eco-system, strengthening its Board of Directors, protecting the integrity of its Balance Sheet and communicating its story transparently to the shareholders and other stakeholders.

Customer value

Zen provides value to the customer by stressing "to bleed less in war, sweat more in peace" by training. The value of Zen's combat training is beyond doubt. We understand from an officer that simulators bought from Zen for around ₹ 100 Crores resulted in the savings of about ₹ 3,300 Crores. But even after such savings Zen hasn't got as many orders as we would expect.

Integrated individual and team training is an indispensable requirement for all security forces. The right solution is a technology-driven Combat Training Centre solution that can be customised around specific customer needs. Zen provides a range of solutions for its customers – Indian armed forces, state police forces and paramilitary forces as well as their counterparts in other friendly countries. The result of our prompt service, sustained improvements, and continuous support provided through the product lifecycle is what customers prefer and why they engage with us on long-term basis. An unusual feature in a space generally very transactional by nature.

Global market

The push being provided by the Indian government continues to transform the opportunity landscape for Zen. The Company is actively engaged in many countries with large tickets size and chance of they engaging Zen for their training solutions - this is the result of a carefully thought out exports strategy. The vast exports potential is expected to yield some very large orders in the near future.

During the year under review, the wholly-owned subsidiary in US along with its CEO, Pratih Shah, continued to reach out to prospective customers across the US and its friendly countries. The response has been very encouraging and we expect some small orders to come our way as an auspicious beginning soon.

Zen India, continues to focus on the growing opportunities arising out of India, the Middle East, CIS and Africa. Besides, the Company is engaging with small countries where solutions like combat training centres are being welcomed and Zen intends to fill this niche. This will be achieved by providing superior technologies at a price point acceptable to customers. We are also looking at attractive financing options, including EXIM Bank, where the customer needs it. The Company will ride the wave of growing global credibility of Indian Defence vendors with active government support.

Indian market

Two significant changes that he single-handedly introduced in the Defence Procurement Policy of 2016 are Buy India (IDDM) and Make II initiatives. On the export front late Mr Parikkar, while inaugurating Foreign Defence Attaches conclave in Delhi, said that India was an erratic market and all indigenous defence equipment innovators should protect themselves by diversifying through exports. The policy set by him will take India into the position of leadership in the coming decade. Two-minutes of silence for the greatest Defence Minister that India ever had.

Consequent to the changes initiated by him, the government had relaxed the need for any equipment to have at least three vendors. The exception is when the Indian vendor has developed the intellectual property through in-house research, they are willing to buy through single-vendor situation; it is also receptive to innovative products being shown to the Indian forces. The Indian defence innovators are now slowly developing confidence in the system to invest in new product development and productisation. Research-driven, we have our strengthened a business moat through proactive investment in R&D.

The Company provides a family of more than 40 products and has filed more than 93 patents till date. These patents help us protect the R&D and help us in doing further research while helping us address the training needs of an army and internal security forces comprehensively. The Company's research commitment was validated through an investment of ₹ 65 cr+ across five years (around 20% of revenues) ending 2018-19, a period when the sectoral cycle was relatively depressed.

IP-Play

The world of products is divided into pure hardware to pure software. By pure hardware, I mean, hardware with no IP content, like nuts and bolts, where the bill of materials is almost equivalent to the selling cost. The margins in it are very very slim. And then take cloud-based software on the other end, where the bill of materials and true

variable costs are almost zero, and the sales are all contribution. Zen is attractively biased towards the software end of the spectrum. Most of the hardware that we need to supply to the customers, though designed and prototyped in-house, is outsourced for manufacturing. Therefore the plant & machinery investment required for incremental orders is almost non-existent. Over the years, the Company has strengthened its business around such asset-lightness. This approach makes it possible to ramp up its production with reasonable flexibility without a corresponding increase in the capex. The Company's business growth has been facilitated by a robust eco-system of component and sub-system vendors in and around Hyderabad. More than 85 per cent of the Company's manufacturing functions can be outsourced, transforming a fixed cost into a variable expense. Besides, this dependable eco-system possesses adequate spare capacity, making it possible for the Company to accept large orders while protecting customer schedules.

Annuity revenues

Our niche market is distinguished by its lumpy revenues. At Zen, we recognise that such lumpiness can severely impact company's liquidity when order inflows are low. Over the years, the Company strengthened revenues derived from annual maintenance contracts. These AMC contracts provide the Company with annuity revenues derived from product sales made in the past. While only a subset of customers enter into AMC contracts, they can potentially generate revenues equivalent to around 120 per cent of the initial product sales value generally extended across a 10 to 15 year horizon. The Company is progressing towards a critical mass of AMC revenues to adequately cover the fixed costs to sustain. In addition, we at Zen have been relentless at eliminating unnecessary costs and spending more on profit generating expenses.

Optimism

The global addressable market of more than USD 8 bn on the one hand and a relatively low supplier presence because of huge entry barriers provide a large sustainable business opportunity. As the world invests more in training and preparedness, preferring eco-friendly and effective methodologies over crude and environment destructive training methodologies, the market for our products will only increase.

While the performance of the company for FY19 has been adequate, we expect the numbers of FY20 to far outstrip this performance, both in terms of top-line and bottom-line. And based on the sales funnel, and the aggressive promotion of Indian defence industry by the Govt of India, we expect the coming years to be the best for Zen. And, as usual, we tend to put our money where our mouth is.

In terms of the provisions of Section 108 of the Companies Act, 2013 (the Act) read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (hereinafter called "the Rules" for the purpose of this Section of the Notice) and Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is providing facility to exercise voting rights on the items of business given in the Notice through electronic voting system, to Members holding shares as on Friday, September 13, 2019 (End of Day) being the Cut-off date fixed for determining voting rights of Members, entitled to participate in the e-voting process, through the e-voting platform provided by Karvy. The Members may cast their votes using an electronic voting system from a place other than the venue of the Meeting (remote e-voting).

A person whose name is recorded in the register of members or in the register of beneficial owners maintained by the Depositories (holding shares either in physical form or in dematerialized form) as on Friday, September 13, 2019 the "Cut-off date" shall be entitled to avail the facility of remote e-voting as well as voting in the general meeting.

The instructions for remote E-Voting are as under:

 1. A) In case a member receives an e-mail from Karvy [for members whose e-mail addresses are registered with the Company/Depository Participant(s)]:
 - (a) Launch internet browser by typing the URL: <https://evoting.karvy.com>.
 - (b) Enter the login credentials i.e. User ID and password which is sent separately.

The e-voting event number + Folio No. or DP ID Client ID will be your User ID. However, if you are already registered with Karvy for e-voting, you can use your existing User ID and password for casting your vote. If required, please visit <https://evoting.karvy.com> or contact toll free number 1-800-3454-001 for your existing password.
 - (c) After entering these details appropriately click on "LOGIN".
 - (d) You will now reach password change menu wherein you are required to mandatorily change your password. The new password shall comprise minimum 8 characters with at least one upper case (A-Z), one lower case (a-z), one numeric value (0-9) and a special character (@,#,\$,etc.). The system will prompt you to change your password and update your contact details like mobile number, email ID, etc. on first login. You may also enter a secret question and answer of your choice to retrieve your password in case you forget it. It is strongly recommended that you do not share your password with any other person and that you take utmost care to keep your password confidential.
 - (e) You need to login again with the new credentials.
 - (f) On successful login, the system will prompt you to select the e-voting event number for the Company i.e. Zen Technologies Limited.
 - (g) On the voting page, enter the number of shares (which represents the number of votes) as on the cut-off date under "FOR/AGAINST" or alternatively, you may partially enter any number in "FOR" and partially in "AGAINST" but the total number in "FOR/AGAINST" taken together should not exceed your total shareholding as on the cutoff date i.e. Friday, September 13, 2019. You may also choose the option "ABSTAIN". If the shareholder does not include either "FOR" or "AGAINST" it will be treated as "ABSTAIN" and the shares held will not be counted under either head.
 - (h) Shareholders holding multiple folios/demat accounts shall choose the voting process separately for each of the folios/demat accounts. Voting has to be done for each resolution of the notice of 26th AGM separately. In case you do not desire to cast your vote on any specific item it will be treated as abstained.

- (i) You may then cast your vote by selecting an appropriate option and click on "Submit".
 - (j) A confirmation box will be displayed. Click "OK" to confirm else "CANCEL" to modify. Once you confirm, you will not be allowed to modify your vote. During the voting period, members can login any number of times till they have voted on the resolution(s).
 - (k) Corporate/Institutional members (i.e. other than Individuals, HUF, NRI, etc.) are also required to send scanned certified true copy (pdf format) of the Board Resolution/Power of Attorney/Authority Letter, etc., together with attested specimen signature(s) of the duly authorized representative(s), to the Scrutinizer at e-mail ID: rao_ds7@yahoo.co.in with a copy marked to evoting@karvy.com and may also upload the same in the e-voting in their login. The scanned image of the above mentioned documents should be in the naming format "ZENETECHNOLOGIES_EVENT NO."
- B) In case a member receives physical copy of the notice by courier / post [for members whose e-mail ids are not registered with the Company/Depository Participant(s)]:
- (a) User ID and initial password – as provided overleaf.
 - (b) Please follow all steps from sr. no. (a) to (k) as mentioned in (1A) above, to cast your vote.
2. Any person, who acquires shares and becomes Member of the Company after the dispatch of the Notice and holds shares as on the Cut-off date i.e. Friday, September 13, 2019, may write to Karvy on the email Id: evoting@karvy.com or to Mr V Raghunath, Deputy Manager Ph: 040-67161606, at Karvy Fintech Private Limited, Unit: Zen Technologies Limited, Karvy Selenium Tower B, Plot No 31 & 32, Gachibowli, Financial District, Nanakramguda, Serilingampally Mandal, Hyderabad – 500 032, requesting for User ID and Password. After receipt of the above credentials, please follow all the steps explained in 1 above, to cast the vote.
 3. Once the vote on a resolution is cast by a member, the member shall not be allowed to change it subsequently or cast the vote again.
 4. In case of any query pertaining to e-voting, please visit help & FAQ's section available at Karvy's website <https://evoting.karvy.com>.
 5. Members can cast their vote online **from Monday, September 16, 2019 from 09.00 A.M. to Friday, September 20, 2019 up to 05.00 P.M.** During this period, Members of the Company holding shares either in physical form or in dematerialized form, as on the cut-off date, i.e., Friday, September 13, 2019, may cast their vote electronically. The remote e-voting module will be disabled by Karvy for voting thereafter.
 6. Only those Members, whose names appear in the Register of Members / List of beneficial owners as on Friday, September 13, 2019 (Cut-off date), shall be entitled to vote (through remote e-voting / physical ballot paper) on the resolutions set-forth in the Notice of the 26th Annual General Meeting (AGM) and their voting rights shall be in proportion to their shares in the paid up equity share capital of the Company as on the Cut-off date.
 7. Since the Company is required to provide members the facility to cast their vote by electronic means, shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date of Friday, September 13, 2019 and who have not already cast their votes by remote e-voting shall be able to exercise their right to vote at the AGM.
 8. Members can opt for only one mode of voting i.e. either by physical ballot paper or remote e-voting. However, if Members cast their vote through both mode of voting, then the voting through remote e-voting shall prevail.
 9. The Members who have cast their vote by remote e-voting may also attend the AGM but shall not be entitled to cast their vote again.
 10. The Board of Directors has appointed Mr D S Rao, Practicing Company Secretary, (M. No. 12394), as the Scrutinizer to scrutinize the voting and remote e-voting process in a fair and transparent manner.
 11. The members who are entitled to vote but have not exercised their right to vote through remote e-voting may vote at the AGM through Ballot Paper explained in AGM Notice, for all businesses specified in the accompanying Notice.
 12. The Scrutinizer shall, immediately after the conclusion of voting at the AGM, will first count the votes cast at the meeting through Ballot Paper thereafter unblock the votes cast through remote e-voting in the presence of at least two witnesses not in the employment of the Company and will make, not later than 48 hours from the conclusion of the AGM, a consolidated scrutiniser's report of the total votes cast in favour or against, if any, to the Chairman or a person authorised by him in writing who will countersign the same. The Chairman or a person authorised by him in writing will declare the result of voting forthwith.
 13. The Results on resolutions shall be declared not later than 48 hours from the conclusion of the AGM of the Company and the resolutions will be deemed to be passed on the AGM date subject to receipt of the requisite number of votes in favour of the Resolutions.
 14. The Results declared along with the Scrutinizer's Report(s) will be available on the website of the Company (www.zentechologies.com) and on Service Provider's website (<https://evoting.karvy.com>) and communication of the same to the BSE Limited and the National Stock Exchange of India Limited within 48 hours from the conclusion of the AGM.

Explanatory Statement pursuant to Sec. 102 of the Companies Act 2013 read with the Rules made thereunder.

Item No. 5: Appointment of Statutory Auditors.

In terms of Regulation 36(5) of Listing Regulations, 2015

Your Company's Auditors, M/s. Sekhar & Co., Chartered Accountants (Firm Registration No. 003695S) were appointed at the 24th AGM to hold office until the conclusion of the 29th AGM. However, vide their letter dated June 28, 2019 they have expressed their inability to continue as Statutory Auditors of your Company up to the conclusion of the 29th AGM. The Board thus appointed M/s. Ramasamy Koteswara Rao and Co LLP, Chartered Accountants (ICAI Firm Registration No. 010396S/S200084) as Statutory Auditors of your Company to fill the casual vacancy caused by the said resignation effective from June 28, 2019 till the conclusion of the forthcoming AGM.

Ramasamy Koteswara Rao and Co LLP is a Chartered Accountants firm established in 2003 with registration no. 010396S/S200084. Ramasamy Koteswara Rao and Co LLP was co-founded by Mr. Ramasamy Radhakrishnan and Mr. C.V. Koteswara Rao. The founders are associated in the field for chartered accountancy for over 30 years. Besides Taxation and Statutory Audit, the firm's practice has grown steadily in the areas of Internal Audit, Concurrent Audit/ Stock Audit, Management Audit, FEMA and Taxation of Non Residents. The firm has a strong team of 10 partners and 40+ professional staff (qualified and semi-qualified Chartered Accountants).

The Audit Committee considered various parameters like capability to serve the business landscape of the Company, audit experience in the Company's operating segments, market standing of the firm, clientele served, technical knowledge etc., and found Ramasamy Koteswara Rao and Co LLP to be best suited to handle the scale, diversity and complexity associated with the audit of the financial statements of the Company.

In accordance with the Companies Act, 2013 and on the recommendation of the Audit Committee, the Board of Directors on June 28, 2019, have considered and recommended the proposed appointment of M/s. Ramasamy Koteswara Rao and Co LLP, Chartered Accountants as Statutory Auditors of the Company and to hold office for a period of up to 5 consecutive years from the conclusion of the 26th AGM till the conclusion of the 31st AGM.

Your Company has obtained consent of M/s. Ramasamy Koteswara Rao and Co LLP and a certificate in accordance with Section 139, 141 and other applicable provisions of the Act to the effect that their appointment, if made, shall be in accordance with the conditions prescribed and that they are eligible to hold office as Statutory Auditors of the Company. The detail of the proposed remuneration to be paid to M/s. Ramasamy Koteswara Rao and Co LLP, Chartered

Accountants for the financial year is ₹ 3 lakhs (Three lakhs) plus GST and out of pocket expenses. They may be paid separately for other certification services, if any, as may be allowed and agreed between the company and the statutory auditors from time to time. Further, there is no material change in the proposed fee payable to M/s. Ramasamy Koteswara Rao and Co LLP from that paid to the outgoing auditor.

None of the Directors, Key Managerial Personnel of your Company and their relatives is in any way concerned or interested, financially or otherwise in the said appointment.

The Board commends the Resolution set out at Item No. 5 of the notice for approval by the members.

Item No. 6: Appointment of Dr Ravindra Kumar Tyagi as Independent Director of the Company

Dr Ravindra Kumar Tyagi was appointed as Additional Director (Independent Director) of the Company with effect from 01 April 2019 pursuant to Section 161 of the Companies Act, 2013 read with Articles of Association of the Company and holds office up to the date of ensuing Annual General Meeting.

The Nomination and Remuneration Committee (NRC) has recommended appointment of Dr Ravindra Kumar Tyagi as Independent Director of the Company.

The Board on the recommendation of NRC, proposed to appoint Dr Ravindra Kumar Tyagi as an independent Director of the Company, for a period of 3 (three) years on the Board .

Dr Ravindra Kumar Tyagi has given his consent to act as director and declaration to the effect that he is not disqualified under Sub-section (2) of Section 164 of the Companies Act, 2013. He further submitted a declaration that he meets the criteria of independence as prescribed under both under Section 149(6) of the Companies Act, 2013 and under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

The Board of Directors of the Company, after reviewing the documents submitted by Dr Ravindra Kumar Tyagi are of the opinion that he fulfills the conditions specified in the Companies Act, 2013 and Listing Regulations and he is independent of the Management.

Details of Dr Ravindra Kumar Tyagi are provided in the 'Annexure-A' to the Notice. The terms and conditions of appointment of Dr Ravindra Kumar Tyagi shall be open for inspection by the Members at the Registered Office of the Company during the business hours on any working day, up to the date of Annual General Meeting and during the Annual General Meeting.

The resolution seeks the approval of members for the appointment of Dr Ravindra Kumar Tyagi as Independent Director of the Company as detailed in the resolution.

Dr Ravindra Kumar Tyagi is interested in the resolution set out at Item No. 6 of the Notice with regard to his appointment. Save and except the above, none of the other Directors / Key Managerial Personnel of the Company / their relatives is interested in or concerned with the said Resolution.

The Board commends the Resolution set out at Item No. 6 of the notice for approval by the members.

Item No. 7: To consider reappointment of Mr. M. Ravi Kumar as Whole-time Director and fixing remuneration.

Mr M Ravi Kumar, who is 58 years old and has been on the Board of the Company since incorporation i.e. (29/06/1993), is key and instrumental in developing the technology and products of the Company. Statement of particulars of Conservation of Energy, Technology Absorption, Foreign Exchange Earnings and Outgo pursuant to the provisions of Section 134(3)(m) of the Companies Act, 2013 read with Rule 8 of Companies (Accounts) Rules, 2014

A. Conservation of Energy

- (i) The steps taken or impact on conservation of energy:
The Company does not use energy-intensive equipment for its operations. Besides, due to significant awareness campaigns within the Company, the employees are averse to wasting power. Consequently, power consumption is one of the lowest per employee. The computers, air-conditioners and other equipment being used by the Company are energy-efficient and environment-friendly.
- (ii) The steps taken by the company for utilizing alternate sources of energy:
 - a. The Company is energy conscious. All types of driving simulators manufactured by the Company work with high-rated, power-saving servo motors.
 - b. The employees are disciplined on saving energy. Systems are switched on only when it is to be used and switched off as soon as the scheduled work is completed.
 - c. The Company has made a policy decision of buying systems that are rated high in power saving. Employees work on LED monitors. Their energy consumption is less. They also release less heat compared to CRT and LCD monitors enabling the centralized air-conditioner maintain the temperature with ease. The air-conditioner too has a regulator to save power.
 - d. Plans are afoot to buy eco-friendly vehicles for intra-office movement at the Hardware Park Plant and between the research wing and production wings.
 - e. Also there is a move to harness solar energy for lighting and wire fencing. The roof of the plant is about 70 feet from ground and there are enough provisions for the day light to seep into the plant to enable technical hands to work without switching on electrical lights especially in day time.
 - f. Air conditioners are fitted with controllers to cut off power at the set temperature. The present MH lamps and mercury lamps are replaced with LED lamps which consume only 40% of CFL and its minimum life is 50,000 burning hours.
 - g. The street lights at the Hardware Park are replaced with LED bulbs.
 - h. The company is certified with ISO 14001:2015 latest version of Environmental Management system. And as part of EMS we had installed energy meters to our

30Kva, 40 Kva & 60 Kva UPS for monitoring Electric consumption for our IT infrastructure.

- (iii) The capital investment on energy conservation equipments:
The capital investment was made on controllers used for air conditioners, LED bulbs and green generators.

B. Technology absorption

- (i) The efforts made towards technology absorption:
The Company has indigenously developed significant technologies that are useful in various products. The technologies nurtured within the Company have been incorporated into various products.
- (ii) The benefits derived like product improvement, cost reduction, product development or import substitution:
We expect such technologies will give us an unbeatable edge in evolving our products into advanced, reliable, and robust simulators.
- (iii) In case of imported technology (imported during the last three years reckoned from the beginning of the financial year):
The Company has not imported any technology during the past 3 years.
- (iv) The expenditure incurred on Research and Development:
The Company has incurred ₹ 12.33 Crores as R&D expenditure (capital and revenue) for the financial year 2018-19 for the development of various products. Out of ₹ 12.27 Crores, was for R&D Revenue expenditure and ₹ 0.05 Crores for R&D Capital Expenditure. The Company has incurred 13.37% as R&D expenditure of Sales Turnover. The Company will continue to make big bets for long-term national interests which may impact short-term profitability of the Company.

C. Foreign Exchange Earnings and Outgo

Management Discussion and Analysis

Global economic overview and outlook

Overall there is more receptivity to alternate sources for defence equipment from various countries. The conventional view of the past few years, that defence equipment needs to be sourced only from well-known defence vendors and the usual countries is no longer the reality. For good reasons, as the quality, the price, and the after-sales support from these companies has been very poor. This spells good opportunity for companies from countries like India that have cutting-edge defence products at great prices.

Indian economic overview and outlook

We feel that the outlook for Indian economy has never been brighter. While it is tempting to judge a Government in absolute terms, it may be appropriate that we look at an alternative reality from the choices that India had.

The western Governments eliminated Saddam Hussein and Qaddafi and they wanted to replace it with "democracy". What the people got was ISIS. With more mayhem, more victimization of minority, and more fundamentalism than ever. The cure was worse than the disease. Sometimes looking at the alternative reality should sober us up to the good luck we have.

Currently, the Indian Govt is stressing buying Designed, Developed and Made in India products. We feel the outlook for Indian defence industry is very favourable. In fact, we have never been so optimistic about Indian economy since the inception of the company. The new direction that the economy is taking under the new Government, will help companies like Zen, that have created world-class products.

India's defence industry

India's defence industry, under the aggressive policies favouring indigenization, is expected to grow leaps and bounds in the next few years. The Ministry of Defence has started aggressively promoting schemes that help the defence sector indigenize the defence equipment rapidly. This indigenization is happening at component, sub-system and system level.

In pursuance of 'Make in India' initiative of the Government, following measures have been taken to achieve substantive self-reliance in defence production and to accelerate indigenization in Indian defence industry: -

- Defence Procurement Procedure (DPP) has been revised in 2016 wherein specific provisions have been introduced for stimulating growth of the domestic defence industry.
- A new category of procurement 'Buy (Indian-IDD (Indigenously Designed, Developed and Manufactured))' has been introduced in DPP-2016 to promote indigenous design and development of defence equipment. It has been accorded top most priority for procurement of capital equipment. Besides this, preference has been accorded to 'Buy (Indian)', 'Buy and Make (Indian)' & 'Make' categories of capital acquisition over 'Buy (Global)' & 'Buy & Make (Global)' categories.
- Government has notified the 'Strategic Partnership (SP)' Model which envisages establishment of long-term strategic partnerships with Indian entities through a transparent and competitive process, wherein they would tie up with global Original Equipment Manufacturers (OEMs) to seek technology transfers to set up domestic manufacturing infrastructure and supply chains.
- The 'Make' Procedure has been simplified with provisions for funding of 90% of development cost by the Government to Indian industry and reserving projects not exceeding development cost of ₹ 10 Crore (Government funded) and ₹ 3 Crore (Industry funded) for MSMEs.
- Separate procedure for 'Make-II' sub-category has been notified wherein a number of industry friendly provisions such as relaxation of eligibility criterion, minimal documentation, provision for considering proposals suggested by industry/individual etc., have been introduced. Upto March 2019, 35 proposals for development by industry have been given 'In-principle' approval under Make-II.
- Government has decided to establish two defence industrial corridors to serve as an engine of economic development and growth of defence industrial base in the country. These are spanning across Chennai, Hosur, Coimbatore, Salem and Tiruchirappalli in Tamil Nadu and spanning across Aligarh, Agra, Jhansi, Kanpur and Lucknow in Uttar Pradesh (UP).
- An innovation ecosystem for Defence titled Innovations for Defence Excellence (iDEX) has been launched in April 2018.

iDEX is aimed at creation of an ecosystem to foster innovation and technology development in Defence and Aerospace by engaging Industries including MSMEs, Start-ups, Individual Innovators, R&D institutes and Academia and provide them grants/funding and other support to carry out R&D which has potential for future adoption for Indian defence and aerospace needs.

- The Ministry has instituted a new framework titled 'Mission Raksha Gyan Shakti' which aims to provide boost to the IPR culture in indigenous defence industry.
- Government has notified a Policy for indigenisation of components and spares used in Defence Platforms in March 2019 with the objective to create an industry ecosystem which is able to indigenize the imported components (including alloys & special materials) and sub-assemblies for defence equipment and platform manufactured in India.
- Defence Investor Cell has been created in the Ministry to provide all necessary information including addressing queries related to investment opportunities, procedures and regulatory requirements for investment in the sector.
- FDI Policy has been revised and under the revised policy, FDI is allowed under automatic route upto 49% and beyond 49% through Government route wherever it is likely to result in access to modern technology or for other reasons to be recorded.
- The Defence Products List for the purpose of issuing Industrial Licenses (ILs) under IDR Act has been revised and most of the components, parts, sub-systems, testing equipment and production equipment have been removed from the list, so as to reduce the entry barriers for the industry, particularly small & medium segment. The initial validity of the Industrial Licence granted under the IDR Act has been increased from 03 years to 15 years with a provision to further extend it by 03 years on a case-to-case basis.
- The process for export clearance has been streamlined and made transparent & online.
- Offset guidelines have been made flexible by allowing change of Indian Offset Partners (IOPs) and offset components, even in signed contracts. Foreign Original Equipment Manufacturers (OEMs) are now not required to indicate the details of IOPs and products at the time of signing of contracts. 'Services' as an avenue of offset have been re-instated.
- Government has set up the Technology Development Fund (TDF) to encourage participation of public/private industries especially MSMEs, through provision of grants, so as to create an eco-system for enhancing cutting edge technology capability for defence applications.

Simulation industry structure and developments

Simulators represent a combination of equipment, controlled environments and specially developed implements or modules to recreate or imitate scenarios with the intention of helping users learn, train and equip themselves to address real-life situations.

In India alone, the size of the simulators market is estimated at USD 2 billion. The Make II policy (DPP 2016) initiatives, in which Indian companies can suo motu propose development projects to the Armed Forces, are expected to put India's indigenization efforts on fast track. The concept of Make II procedure is proving to be catalytic for the defence sector. Products developed under Make II get tremendous testing and validation support from the armed forces. Once proven, in addition to the Indian armed forces, these products can be marketed to friendly foreign countries, thus increasing the opportunity size.

The Indian Armed Forces' are fully supporting the indigenization programs and are keen to induct as much of Indian made defence equipment as possible. They are working hard to balance the near-term security concerns with long-term defence self-reliance objectives.

Opportunities and threats

Simulators and other advanced training equipment are becoming increasingly critical in national defence preparedness. Simulators spare real-world equipment from wear and tear and exposure to the elements, as well as enable training in situations that would be difficult to practice in the field.

For example, the engine life of a tank has a limited number of hours. After the said hours the engine needs overhaul, which could cost upto a million dollars. As per Wikipedia, India has about 4,000 tanks. Which means an expenditure of 4 Billion dollars. Zen tank solutions can easily replace at least 80% of the training time with simulators. That is Zen solutions can save as much as 3.2 Billion dollars. And the investment required is less than \$100 Mn. Multiply this solution across the spectrum of all defence equipment to understand the significant savings that will result due to modernization of training equipment. Obviously, there are entrenched interests that don't want such savings to happen. Some right-thinking officers have started pushing for modern training equipment, and we expect that will help Indian forces train better.

Moreover, solutions like virtual simulators, can be used in all weather conditions and around the clock. Faster learning curve, cost-effectiveness and personnel safety are some of the key benefits of these modern training solutions, which have led to wider acceptance of simulation based training solutions.

Market size for simulators is dependent on current stock and future acquisition of defense equipment. Increasing equipment purchase will translate into higher demand for simulators over time and these simulators also need to adequately maintained and periodically upgraded to incorporate technology advancements. Given an average simulator life-span of about 10-15 years, Annual Maintenance Contracts

(AMC), where contracted by the customer with the company, are also becoming an increasingly lucrative opportunity.

The entry of foreign defense companies in India through alliances could help widen the market but such increased competition may also reduce the profit margins. While increasing competition is a threat, the company is addressing them through customized features, a superior leverage of technological advancements and faster deployment and delivery.

The company is further pro-actively expanding its horizon by-

- Focusing on the large export opportunities in Middle East, CIS and Africa
- Dedicated team to pursue business opportunities in USA and friendly countries
- Growing the AMC revenue stream which is non-cyclical

Product-wise performance

Zen Technologies has been engaged in the development and manufacture of training simulators utilizing cutting-edge technology for over a quarter of a century. The Company developed expertise in the design, development and manufacture of simulators addressing the training requirements of defense, homeland security and driving sectors. These cost-effective solutions are delivered to customers across the country's defense, services, state police forces, para-military forces and navy. Simulators that have done extremely well in the current year pertain to tanks. And we expect that there is lot of mileage we can still derive from these simulators.

Over the years, products that attracted the highest traction comprised the proprietary Zen Tank Simulators, Zen Smart Target Systems, Zen Multi-Function Target Systems, Zen Shooting Ranges, Zen Containerised Tubular Shooting Range, (Zen CTSR), Zen Containerised Indoor Shooting Range (Zen CISR), Indoor Shooting Ranges, Outdoor Shooting Ranges, Hand Grenade Simulator (Zen HE36S®), Advanced Weapons Simulator (Zen AWeSim™), and Tactical Engagement Simulator (Zen TacSim®), among others.

Zen's latest development which is attracting customers is Zen Combat Training Centre (Zen CTC). This is a one-stop training solution for Armed Forces and State police. It is designed as a secure facility with modern combat training infrastructure to provide the best possible performance-oriented training in a safe, productive and realistic environment. Combining live-fire, instrumented training and virtual training, the set-up is designed as an all-encompassing solution which enable co-ordinated team training under various realistic threat scenarios. Such integrated solutions capability has increased the competitive edge company has over its domestic and international competitors. Zen is amongst a handful of global players who can offer such tailored training solution and we are hopeful that this product would generate significant revenues in coming years.

Your company executed part of its largest ever order worth ₹ 224 crore in FY19 and the rest of the order is expected to be executed in the Q1 and Q2FY20. The major contribution of the revenues came from Tank simulators. Annual maintenance contracts (AMCs) are increasingly emerging as an important contributor to overall revenues and we expect some significant orders to come in the next few months. Sale of simulators carries a potential of generating upto 120% of the equipment sale value as AMC revenues over the product lifespan. AMC revenues would continue to grow as installation base of simulators increase and these steady revenues would help decrease the volatility in annual revenues.

Outlook

Simulators and defence training present an attractive and growing opportunity for the company and we are well placed to fully capitalise on these opportunities. Our business model stands validated and we feel optimistic about the future for several reasons.

In domestic markets, conducive regulatory regime has opened erstwhile closed single vendor opportunities where we earlier struggled due to absence of other vendors in those niche segments. Government's IDDM policy that explicitly prefers indigenously designed and developed equipment will benefit players like Zen, which invest in R&D and develop their own IP and products. Offset clauses in defence procurement also forces global players to partner with domestic manufacturers and this could continue to boost company's prospects.

Exports represent a large opportunity for us. With proactive support from Indian Government, the company will continue to focus on potentially underserved export markets in the Middle-East, CIS and African countries. Company is creating tailored solutions to address the training requirements of these countries by providing superior technologies at an acceptable price point. We are also looking at supporting such sales through attractive financing options, with the help of Govt of India. We have participated in some of the biggest Defense Expositions and Conferences in FY19 including IDEX at Abu Dhabi and have seen extremely encouraging response.

The Company continues to invest in Zen Technologies USA, INC., a wholly owned subsidiary of the company. We believe that this would further strengthen our global business with a dedicated team targeting US and friendly countries.

Conclusion: Zen expects orders from exports, Indian armed forces, Central Police Organizations, and State police organizations during the H2FY20 and H1FY21. We expect to do better in FY20 than in FY19. And we expect FY21 will be much better than FY20.

Risks and concerns

The principal risk faced by Zen is that of increasing competition which may lead to drop in margins. Your Company is committed to developing cutting-edge simulators for Security Forces. These simulators have been typically developed with feedback from the

end-users but with no commitment from them to buy the resulting system. Such a line of action, where you develop critical training technologies for security forces entails definite expenditure and no promise of matching income. The government's policy of buying the system from the lowest bidder may harm us if any foreign supplier, with the development costs already amortized, competes with us and dumps the simulators at a cost far below what they have charged overseas. Fortunately, the Government now has the Buy Indian, IDDM (Indigenously Designed, Developed and Manufactured) policy (Defence Procurement Procedures, 2016), that explicitly prefers indigenously designed and developed equipment. We feel companies like Zen, which invest in R&D and develop their own IP and products, rather than just contract manufacturers, will benefit tremendously from this initiative. As part of our business contract, we give performance guarantee to our clients. In the unlikely event that such a claim for guarantee is invoked, adequate provision for the same will be required. Some of the other risks that your Company faces are dependence on Government for substantial portion of business, high R&D costs with no certainty that the product will be accepted by the customer, stricter user acceptance and high marketing costs.

Financial and operational performance

During FY19, the Company's total income stood at ₹ 95.32 Cr as against ₹ 43.36 Cr in FY18. Net profit stood at ₹ 19.05 Cr compared to ₹ 0.20 Cr in FY18. Zen has an order book of ₹ 282.20 Cr as on 31 March 2019 compared with ₹ 349 Cr as on 31 March 2018.

Internal control systems and their adequacy

Your Company has in place an adequate system of internal controls commensurate with its size & nature of operations, along with well-defined organization structure & documented policy guidelines & procedures, predefined delegation of authority covering all corporate functions. These internal controls are designed to provide reasonable assurance regarding the effectiveness and efficiency of operations,

the adequacy of protecting your Companies assets from unauthorized use or losses, the reliability of financial controls, and compliance with applicable laws and regulations.

Zen's internal control systems are in line with its size, operations and complexity. These systems are verified and tested routinely by certified auditors as well as internal audits, covering all key business areas. An internal audit system reviews the effectiveness and adequacy of the control environment and manages appropriate safeguards. The Company conducts periodic audits in compliance with certifications AS9100C from DQS Inc., ISO 9001:2008 (QMS), ISO 14001:2004 (EMS), ISO/IEC 27001:2013 (ISMS). An ongoing monitoring system ensures that all data or information is secured from unauthorized access.

The effectiveness of internal controls is reviewed through the internal audit process, which is undertaken for and all major corporate support functions under the direction of the Head Internal Audit. The focus of these reviews is as follows:

- Identify weaknesses and areas of improvement
- Compliance with defined policies and processes
- Safeguarding of tangible and intangible assets
- Management of business and operational risks
- Compliance with applicable statutes
- Compliance with the Zen Code of Conduct

The Audit Committee of the Board oversees the adequacy of the internal control environment through regular reviews of the audit findings and monitoring implementations of internal audit recommendations through the action taken reports submitted to them.

A gist of the significant features of the internal controls is as follows:

- The Audit Committee comprising of independent directors entirely, regularly reviews the audit plans, significant audit findings, implementations of internal audit recommendations, adequacy of internal controls, compliance with accounting standards as well as reasons for changes in accounting policies and practices, if any;
- A well-established and independent Internal Audit team consisting of professionally qualified accountants and functional specialists who are empowered to examine/audit the adequacy, relevance and effectiveness of the control systems, compliance with policies, plans and statutory requirements;
- Continual programmes to reinforce the Code of Conduct are done regularly across the organisation.

The Board takes responsibility for the overall process of risk management throughout the organisation. During the financial reporting period ending March 2019, your Company has conducted an assessment of the effectiveness of the internal financial control over financial reporting and it has in place, adequate internal financial

controls with reference to financial statements, commensurate with the size, scale and complexity of its operations. During the year, such controls were tested and no reportable material weaknesses in the design or operation were observed.

Human resource development and industrial relations

People form the foundation of organisations and their growth. The Company engages in developing its talent pool through training and workshops, strengthening core competence and performance. Over the year under review, the Company engaged with various industries, suppliers, partners, customers, workers and employees; relations remained harmonious. The total employee strength stood at 237 people compared to 246 people in FY18. The average employee age stood at 34, indicating a prudent balance of the young and the experienced. Attrition of 29% was below sectoral standards, a result of the invigorating workplace, attractive remuneration and an engaged management.

Cautionary statement

This statement made in this section describes the Company's objectives, projections, expectation and estimations which may be 'forward looking statements' within the meaning of applicable Securities Laws and Regulations. Forward looking statements are based on certain assumptions and expectations of future events. The Company cannot guarantee that these assumptions and expectations are accurate or will be realised by the Company. Actual results could differ materially from those expressed in the statements or implied due to the influence of external factors which are beyond the control of the Company. k. Share Transfer system

The Company has appointed Karvy Fintech Private Limited (Formerly known as Karvy Computershare Private Limited), Hyderabad as Registrar and Share Transfer Agents for the purpose of carrying on the work relating to share transfers both physical and demat form. The requests received for transfer of shares from the shareholders are normally completed within prescribed time, subject to the documents being valid and complete in all respects. The Company obtains from Mr. DS Rao, Practicing Company Secretary, Hyderabad, half-yearly Certificate of Compliance with share transfer for-

malties as required under Regulation 40(9) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, and files a copy of the said Certificate with BSE Ltd and National Stock Exchange of India Limited.

As per recently amended SEBI (Listing Obligations and Disclosure Requirements) Regulations requests for effecting transfer of equity shares in physical form shall not be accepted by Karvy Fintech Private Limited, Registrars and Transfer Agents/Company, w.e.f. 01.04.2019 unless the equity shares are held in the dematerialized form with a Depository. This was communicated to the members who hold the shares in physical form. The shareholders need to convert the shares to demat form compulsorily, if they wish to effect any transfer. However, the restriction is not applicable to the requests received for transmission or transposition of physical shares. All the shareholders, who hold the shares in physical form, are requested to dematerialize the shares at the earliest to avoid inconvenience in future, for transferring the shares.

Standalone Financial Statements

Independent Auditor's Report

To The Members of
Zen Technologies Limited

Report on the Audit of the Standalone Financial Statements Opinion

We have audited the standalone financial statements of Zen Technologies Limited ("the Company"), which comprise the balance sheet as at 31 March 2019, and the statement of profit and loss, statement of changes in equity and statement of cash flows for the year ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing, as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the Key Audit Matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's information but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income and changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered

material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of M/s Zen Technologies Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **M/s Zen Technologies Limited**, (“the Company”) as of 31 March 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Generally Accepted Accounting Principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2019.

Notes on Financial Statements for the year ended 31 March 2019

1 Corporate Information:

Zen Technologies Limited is a Public Limited Company incorporated under the provisions of the Companies Act, 1956 having its corporate office at B-42, Industrial Estate, Sanathnagar, Hyderabad-500018, Telangana, India. The equity shares of the Company are listed on Bombay Stock Exchange (BSE) and National Stock Exchange Ltd (NSE) in India. The company is engaged in design, development and manufacture of Training Simulators for Police and Para-military Forces, Armed Forces, Security Forces, Government Departments like Transport, Mining, Infrastructure and Civilian market. The products of the company are belonging to 3 categories viz. Land-based Military Simulators, Driving Simulators and Mining & Special Equipment Simulators. The company caters to both domestic and international market. The Company's manufacturing unit is located at Hardware Park, Maheswaram Mandal, Telangana, India.

2 Basis of preparation and Presentation of Financial Statements:

2.1 Statement of Compliance:

These financial statements are prepared in accordance with Indian Accounting Standards ("Ind AS"), as per the Companies (Indian Accounting Standards) Rules, 2015 and other relevant rules as notified by the SEBI as required under Section 133 of the Companies Act, 2013 ("The Act"). The presentation of financial statements is based upon Ind AS Schedule III of Companies Act, 2013.

2.2 Basis for Measurement:

These financial statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items in the balance sheet:

- a. Certain financial assets & liabilities are measured either at fair value or at amortized cost depending on the classification;
- b. Employee defined benefit assets/(liability) are recognized as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation.

All assets and liabilities are classified into current and non-current based on the operating cycle of less than twelve months or based on the criteria of realization/settlement within twelve months period from the balance sheet date.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing standard requires a change in accounting policy either to use.

The Financials statements were authorized for issue in accordance with a resolution of the Board of Directors on 18 May 2019.

2.3 Use of Estimates and Judgements:

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period.[The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note no. 2.4] accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

2.4 Critical Accounting Estimates:

a. Employee Benefits

The present value of the employee benefits obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) includes the discount rate, wage escalation and employee attrition. The discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of the obligations.

b. Depreciation & Amortisation

Depreciation and amortization is based on management estimates of the future useful lives of certain class of property, plant and equipment and intangible assets.

c. Provisions & Contingencies

Provisions and contingencies are based on the Management's best estimate of the liabilities based on the facts known at the balance sheet date.

d. Fair Valuation:

All financial instruments are required to be fair valued as at the balance sheet date, as provided in Ind AS 109 and Ind AS 113. Being a critical estimate, judgement is exercised to determine the carrying values. The fair value of financial instruments that are

Notes on Financial Statements for the year ended 31 March 2019

unlisted and not traded in an active market is determined at fair values assessed based on recent transactions entered into with third parties, based on valuation done by external appraisers etc., as applicable.

2.5 Functional & Presentation Currency:

These financial statements are presented in Indian rupees, which is also the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest lakhs.

2.6 Current Vs Non-Current Classification:

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1, Presentation of financial statements.

Assets: An asset is classified as current when it satisfies any of the following criteria:

- a. It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is expected to be realized within twelve months after the reporting date; or
- d. It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Liabilities: A liability is classified as current when it satisfies any of the following criteria:

- a. It is expected to be settled in the Company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is due to be settled within twelve months after the reporting date; or
- d. The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counter party, result in its settlement by the issue of equity instruments do not affect its classification.

Current assets/ liabilities include the current portion of non-current assets/ liabilities respectively. All other assets/ liabilities are classified as non-current. Deferred tax assets and liabilities are always disclosed as non-current.

2.7 Foreign Currency Transaction:

Transactions in foreign currencies are translated to the respective functional currencies of entities within the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date (closing rate). Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in the statement of profit and loss in the period in which they arise.

2.8 Property, Plant & Equipment:

Recognition & Measurement

Property, Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset i.e., freight, duties and taxes applicable and other expenses related to acquisition and installation. The cost of self-constructed assets includes the cost of materials and other costs directly attributable to bringing the asset to a working condition for its intended use. Borrowing costs that are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses upon disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within in the statement of profit and loss.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part will be derecognized. The costs of repairs and maintenance are recognized in the statement of profit and loss as incurred.

Items of property, plant and equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

Notes on Financial Statements for the year ended 31 March 2019

Depreciation

Depreciation is recognized in the statement of profit and loss on a straight line basis over the estimated useful lives of property, plant and equipment based on to the Companies Act, 2013 ("Schedule II"), which prescribes the useful lives for various classes of tangible assets. For assets acquired or disposed off during the year, depreciation is provided on pro-rata basis. Land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if appropriate.

The estimated useful lives are as follows:

Type of Asset	Estimated useful life in years
Buildings	
i) Factory Buildings	30
ii) Other Buildings	60
iii) Lease Buildings	6
Plant & Machinery	15
Office Equipment	5
Furniture & Fixtures	10
Testing Equipment	10
Vehicles	10
Computers	3

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date is disclosed as capital advances under other non-current assets.

Capital work in progress

The cost of property, plant and equipment not ready to use before such date are disclosed under capital work-in-progress. Assets not ready for use are not depreciated.

The Company assesses at each balance sheet date, whether there is objective evidence that an asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Recoverable amount is higher of the value in use or fair value less cost to sell.

2.9. Intangible Asset:

Acquired computer software is capitalised on the basis of the costs incurred to acquire and bring to use the specific software. The intangible assets that are acquired by the Company and that have finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses.

Amortization

Amortization is recognized in the statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets or on any other basis that reflects the pattern in which the

asset's future economic benefits are expected to be consumed by the entity. Intangible assets that are not available for use are amortized from the date they are available for use. The estimated useful lives are as follows:

Type of Asset	Estimated useful life
Intangible Assets	
Computer Software	3

The amortization period and the amortization method for intangible assets with a finite useful life are reviewed at each reporting date.

2.10 Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

Debt instrument at FVTPL

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss. The Company has not designated any debt instrument as at FVTPL.

Investment in equity instruments

All equity investments in scope of Ind AS 109 are measured at Fair Value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even

Notes on Financial Statements for the year ended 31 March 2019

on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Investments in subsidiaries and Associates

Investments in subsidiaries and associates are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries and associates, the difference between net disposal proceeds and the carrying amounts are recognized in the statement of profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's balance sheet) when:

- a. The rights to receive cash flows from the asset have expired, or
- b. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

b. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value i.e., loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR (Effective Interest Rate) method. Gains and losses are recognized in the statement of profit and loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Fair value measurement

The Company classifies the fair value of its financial instruments in the following hierarchy, based on the inputs used in their valuation:

- i) **Level 1:** The fair value of financial instruments quoted in active markets is based on their quoted closing price at the balance sheet date.
- ii) **Level 2:** The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions.
- iii) **Level 3:** The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs).

2.11 Government Grants:

Recognition & Measurement

Grants & Subsidies received from the Governments are recognised only when there is reasonable assurance that:

- a. The Company will comply with the conditions attached to the grant
- b. There is a reasonable certainty that the grant will be received.

Government grants related to assets are treated as deferred income and are recognized in net profit in the statement of Profit & Loss on a systematic and rational basis over the useful life of the asset.

Notes on Financial Statements for the year ended 31 March 2019

Government grants related to revenue are recognized on a systematic basis in net profit in the Statement of Profit & Loss over the periods necessary to match them with the related costs which they are intended to compensate.

When loans or similar assistance are provided by Governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a Government grant. The loan or assistance is initially recognized and measured at fair value and the Government grant is measured as the difference between the fair value of the loan and the proceeds received. It is recognized as deferred income and released to statement of Profit & Loss in proportionate over the loan tenure and presented within other income. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

2.12 Inventories:

Inventories consist of raw materials, stores and spares, work-in-progress and finished goods are measured at the lower of cost or net realizable value. However raw materials which are used in the process of production are not written down below the cost if the finished goods produced from consumption of such material are sold at or above the cost. The cost includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

2.13 Impairment of non Financial Assets:

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year at March 31.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of

the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognized in the statement of profit and loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.14 Cash & Cash Equivalents:

Cash and bank balances comprise of cash balance in hand, balance in current accounts with banks, demand deposit, short-term deposits, margin money deposits and unclaimed dividend accounts. For this purpose, "short-term" means investments having maturity of three months or less from the date of investment. Bank overdrafts that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. The margin money deposits and unclaimed dividend balances shall be disclosed as restricted cash balances.

2.15 Employee Benefits:

a. *Short term employee benefits*

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

b. *Defined Contribution Plan*

The Company's contributions to defined contribution plans are charged to the statement of profit and loss as and when the services are received from the employees.

c. *Defined Benefit Plans*

The liability in respect of defined benefit plans and other post-employment benefits is calculated using the projected

Notes on Financial Statements for the year ended 31 March 2019

unit credit method consistent with the advice of qualified actuaries. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates based on prevailing market yields of Indian Government Bonds and that have terms to maturity approximating to the terms of the related defined benefit obligation. The current service cost of the defined benefit plan, recognized in the statement of profit and loss in employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in income. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

d. Termination benefits

Termination benefits are recognized as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

e. Other long-term employee benefits

The Company's net obligation in respect of other long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the statement of profit and loss in the period in which they arise.

2.16 Provisions, Contingent Assets & Contingent Liabilities:

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the

time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no such disclosure is made.

Contingent assets

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

2.17 Revenue Recognition:

Sale of Goods and Service Income:

Effective 01 April 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as of 01 April 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. Except, as stated in **Note no.41** the Impact on adoption of Ind AS 115 was insignificant.

Revenue from goods and services is recognized, when the company satisfies a performance obligation by transferring a promised good or service to its customers. The Company considers the terms of the contract and its customary business practices to determine the transaction price. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset.

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and Goods & services Tax. Transaction price is recognised based on the price specified in the contract, net of the estimated sales incentives/ discounts. Accumulated experience is used to estimate and provide for the discounts/ right of return, using the expected value method.

Contract Asset:

In a contract, if the entity performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, it shall be presented as a contract asset, excluding any amounts presented as receivable. A contract asset is an entity's right to consideration in exchange for goods and services that the entity has transferred to the customer.

Notes on Financial Statements for the year ended 31 March 2019

Contract Liability:

If a customer pays consideration, or an entity has a right to an amount of consideration that is unconditional (ie a receivable), before the entity transfers a good or service to the customer, it shall be presented as a contract liability when the payment is made or the payment is due (whichever is earlier). A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or an amount of consideration is due) from the customer.

Other Income

Interest Income

Interest Income mainly comprises of interest on margin money deposit relating to bank guarantee and Deposits against Bank Overdraft with banks. Interest income should be recorded using the effective interest rate (EIR). However, the amount of margin money deposits relating to bank guarantee and Over draft are purely current in nature, hence effective interest rate has not been applied. Interest is recognized using the time-proportion method, based on rates implicit in the transactions.

Export Benefits

Export Incentives

The Company receives export incentives in the form of MEIS (Merchandise Exports from India scheme) scripts which do not fall under the scope of Ind AS 115 and are accounted for in accordance with the provisions of Ind AS 20 considering such incentives as Government Assistance. Accordingly government grant recognised as other Income in Profit and Loss statement

2.18 Borrowing Cost:

Borrowing costs consist of interest, ancillary and other costs that the Company incurs in connection with the borrowing of funds and interest relating to other financial liabilities. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed to Profit & Loss statement in the period in which they occur.

2.19 Research and Development Costs (Product Development)

Research and development expenditure is recognized as an expense when it is incurred. Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred.

Items of property, plant and equipment and acquired Intangible Assets utilized for Research and Development are capitalized and depreciated in accordance with the policies stated for Property, Plant and Equipment and Intangible Assets

2.20 Tax Expense:

Tax Expense comprises of Income Tax, Deferred Tax and MAT credit

Income Tax

Income tax expense is recognized in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred Tax

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the tax base i.e., the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred Tax Asset is also provided on MAT tax paid during the Previous years which can be set off against future tax liability.

Minimum Alternate Tax (MAT) Credit

Minimum alternate tax (MAT) credit is recognised in accordance with tax laws in India as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. The Company reviews the MAT credit at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Notes on Financial Statements for the year ended 31 March 2019

2.21 Dividend Declared:

The Company recognizes a liability to make cash distributions to equity holders when the distribution is Authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity's.

2.22 Earnings per Share:

The Company presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic earnings per share is computed by dividing the net profit attributable to shareholders by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit attributable to shareholders by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Options and warrants are dilutive when they would result in the issue of ordinary shares for less than the average market price of ordinary shares during the period. The amount of the dilution is the average market price of ordinary shares during the period minus the issue price.

2.23 Determination of Fair Value:

The Company's accounting policies and disclosures require the determination of fair value, for certain financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

(i) Property, plant and equipment

Property, plant and equipment, if acquired in a business combination or through an exchange of non-monetary assets, is measured at fair value on the acquisition date. For this purpose, fair value is based on appraised market values and replacement cost.

(ii) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

(iii) Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

(iv) Investments in equity and debt securities and units of mutual funds

The fair value of marketable equity and debt securities is determined by reference to their quoted market price at the reporting date. For debt securities where quoted market prices are not available, fair value is determined using pricing techniques such as discounted cash flow analysis.

In respect of investments in mutual funds, the fair values represent net asset value as stated by the issuers of these mutual fund units in the published statements. Net asset values represent the price at which the issuer will issue further units in the mutual fund and the price at which issuers will redeem such units from the investors.

Accordingly, such net asset values are analogous to fair market value with respect to these investments, as transactions of these mutual funds are carried out at such prices between investors and the issuers of these units of mutual funds.

2.24 Recent Accounting Pronouncements:

Ind AS 116 Leases :

Ind AS 116, Leases: The Ministry of Corporate Affairs has notified the Ind AS 116, Leases which will be effective from 1 April 2019. Ind AS 116 would replace the existing leases standard Ind AS 17. The standard sets out the principles for the recognition, measurement, presentation and disclosures for both parties to a contract, i.e. the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of profit and loss. The Company is currently evaluating the effect of Ind AS 116 on the financial statements

Amendment to Ind AS 12 'Income Taxes':

On 30 March 2019, the Ministry of Corporate Affairs has notified limited amendments to Ind AS 12 'Income Taxes'. The amendments require an entity to recognise the income tax consequences of dividends as defined in Ind AS 109 when it recognises a liability to pay a dividend. The income tax consequences of dividends are

Notes on Financial Statements for the year ended 31 March 2019

linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. The amendment will come into force for accounting periods beginning on or after 1 April 2019. The Company is evaluating the effect of the above in the financial statements.

Appendix C to Ind AS 12, Uncertainty over Income Tax Treatments:

On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2019 containing Appendix C to Ind AS 12, Uncertainty over Income Tax Treatments which clarifies the application and measurement requirements in Ind AS 12 when there is uncertainty over income tax treatments. The current and deferred tax asset or liability shall be recognized and measured by applying the requirements in Ind AS 12 based on the taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates determined by applying this appendix. The amendment is effective for annual periods beginning on or after 1 April 2019. The Company is evaluating the effect of the above in the financial statements.

Amendment to Ind AS 19 'Employee Benefits': On 30 March 2019, the Ministry of Corporate Affairs has notified limited amendments to Ind AS 19 'Employee Benefits' in connection with accounting for plan amendments, curtailments and settlements. The amendments require an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement and to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling. The amendment will come into force for accounting periods beginning on or after 1 April 2019. The Company is evaluating the effect of the above in the financial statements.

2.25 Subsequent Events:

Investment in Associate:

During the year, the company entered into an agreement with UTS for acquisition of 51% of its total shares out of which 40% has been acquired till the end of the year and the balance 11% has been acquired on 08th May 2019 i.e., after the end of Financial Year 2018-19 but before the approval of Financial Statements by Board of Directors.

Defined Benefit plan – Gratuity

In accordance with applicable laws, the Company has a defined benefit plan which provides for gratuity payments (the "Gratuity Plan") and covers certain categories of employees in India. The Gratuity Plan provides a lump sum gratuity payment to eligible employees at retirement or termination of their employment. The amount of the payment is based on the respective employee's last drawn salary and the years of employment with the Company. Liabilities in respect of the Gratuity Plan are determined by an actuarial valuation, based upon which the Company makes contributions to the Life Insurance Corporation of India (LIC). The provision is estimated by an independent consulting actuary as per requirements of IND AS 19 which is as follows:

VIII The principal assumptions used in determining Gratuity Group plan are shown below:

Description of Risk Exposures:

Valuations are performed on certain basic set of predetermined assumptions and other regulatory frame work which may vary over time. Thus, the Company is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk: The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience compared to the assumption.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. if Increase in the maximum limit of gratuity more than ₹ 20 lakhs).

Discount Rate: The discount rate has decreased from 7.54% to 7.32% and hence there is a increase in liability leading to actuarial loss due to change in discount rate.

Description of Plan Assets and Reimbursement Conditions:100% of the Plan Asset is entrusted to LIC of India under their Group Gratuity Scheme. The reimbursement is subject to LIC's Surrender Policy.

Assumption as at	As at 31 March 2019	As at 31 March 2018

37. Financial Risk Management:

The Company's activities expose it to a variety of financial risks, including credit risk, liquidity risk and Market risk. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors, risk management committee and the Audit Committee is responsible for overseeing the Company's risk assessment and management policies and processes.

a. Market Risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments and financial instruments.

b. Interest Rate Risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

c. Foreign Currency Risk:

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company exposure to the risk of changes in foreign exchange rates relates primarily to the Company operating activities (when revenue or expense is denominated in a foreign currency) and investments in foreign companies.

d. Credit Risk:

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business

e. Trade Receivables

Customer credit risk is managed subject to the Company's established policy, procedures and control relating to customer credit risk management. The Company major customers are Government, Government Bodies and Government Controlled Agencies. Delay in payment may occur on account of disbursement process. The company mitigates the above keeping regular follow up. Trade receivables are non-interest bearing and are generally on 30 days to 45 days credit term. Outstanding customer receivables are regularly monitored. Credit risk on receivables is also mitigated by securing the letter of credit and advance payment against the same.

CONSOLIDATED Financial Statements

Independent Auditor's Report

To The Members of
Zen Technologies Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Zen Technologies Limited ("the Company"), which comprise the consolidated balance sheet as at 31 March 2019, and the consolidated statement of profit and loss, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and its consolidated profit and consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the Key Audit Matters to be communicated in our report.

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's information but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income and changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of Company included in the group is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the stand alone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements/ information of Zen Technologies USA Inc. included in the consolidated financial statements of the company whose financial statements/financial information reflect total assets of USD. 80,650 as at 31 March 2019 and the total revenue of USD. NIL for the year ended on that date, as considered in the standalone financial statements/information of Zen Technologies USA Inc. have been audited by the auditors whose report has been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in Zen Technologies USA Inc., is based solely on the report of such auditors.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and

the Consolidated Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.

- (d) In our opinion, the aforesaid consolidated financial statements comply with the IndAS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the Directors as on 31 March 2019 taken on record by the Board of Directors of the Company, none of the directors are disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is accordance with the provisions of Section 197 of the Act.

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its consolidated financial statements.
 - (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - (iii) There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Company.

“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of M/s Zen Technologies Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of M/s Zen Technologies Limited, (“the Company”) as of 31 March 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Generally Accepted Accounting Principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2019.

The products of the company are belong to 3 categories viz. Land-based Military Simulators, Driving Simulators and Mining & Special Equipment Simulators. The company caters to both domestic and international market. The Company is having manufacturing unit located at Hardware Park, Maheswaram Mandal, Telangana, India.

2 Basis of preparation and Presentation of Financial Statements:

2.1 Statement of Compliance:

These financial statements are prepared in accordance with Indian Accounting Standards ("Ind AS"), as per the Companies (Indian Accounting Standards) Rules, 2015 and other relevant rules as notified by the SEBI as required under Section 133 of the Companies Act, 2013 ("The Act"). The presentation of financial statements is based upon Ind AS Schedule III of Companies Act, 2013.

2.2 Basis for Measurement:

These financial statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items in the balance sheet:

- Certain financial assets & liabilities are measured either at fair value or at amortized cost depending on the classification;**
- Employee defined benefit assets/(liability) are recognized as the net total of the fair value of plan assets, plus actuarial losses, **less actuarial gains and the present value of the defined benefit obligation.**

All assets and liabilities are classified into current and non-current based on the operating cycle of less than twelve months or based on the criteria of realization/settlement within twelve months period from the balance sheet date.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing standard requires a change in accounting policy hitherto to use.

The Financials statements were authorized for issue in accordance with a resolution of the Board of Directors on 18 May 2019.

2.3 Basis for Consolidation:

The Consolidated Financial Statements have been prepared on the following basis:

Subsidiary Entity:

Subsidiary is an entity over which the Group has control. The Group controls an entity when the Group is exposed to, or has right to variable returns from its involvement with the entity and has ability to affect those returns through its power over the entity.

Subsidiaries are fully consolidated from the date on which control is acquired by the Group and ceases to be consolidated when the Group loses control over the subsidiary. Full consolidation means recognition of like items of assets, liabilities, equity, income and expense.

Inter Company transactions, balances and unrealised gains on transactions between the group companies are eliminated. Unrealised losses are also eliminated if there is a profit on ultimate sale of goods. When necessary, amounts reported by subsidiaries have been adjusted to confirm to Group Accounting policies.

List of Subsidiaries included in Consolidation:

(₹ In lakhs)

Name of the Enterprise	Amount Invested	Country of Incorporation	Nature of Business	% of Share Holding
Zen Technologies USA Inc.	561.43	USA	Training Simulators	100%
Total	561.43			100%

Associate Entity:

Associate is an entity over which the Group is having significant influence but does not have control over such entity.

Notes on Financial Statements for the year ended 31 March 2019

Associates are consolidated through Equity method of Consolidation in which investment is initially recognised at Cost and adjusted thereafter for the post acquisition change in the Group's share of Associate's Net Assets. Group's Profit or loss statement includes its share of Associate's Profit or Loss.

List of Associate included in Consolidation:

(₹ In lakhs)

Name of the Enterprise	Amount Invested	Country of Incorporation	Nature of Business	% of Share Holding
Unistring Tech Solutions Private Limited	550.00	India	Development of electronic warfare (EW) solutions and Simulators for radar.	40.07
Total	550.00			40.07

2.4 Use of Estimates and Judgements:

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. [The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note no.2.5.] Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

2.5 Critical Accounting Estimates:

a. Employee Benefits

The present value of the employee benefits obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) includes the discount rate, wage escalation and employee attrition. The discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of the obligations.

b. Depreciation & Amortisation

Depreciation and amortization is based on management estimates of the future useful lives of certain class of property, plant and equipment and intangible assets.

c. Provisions & Contingencies

Provisions and contingencies are based on the Management's best estimate of the liabilities based on the facts known at the balance sheet date.

d. Fair Valuation:

All financial instruments are required to be fair valued as at the balance sheet date, as provided in Ind AS 109 and Ind AS 113. Being a critical estimate, judgement is exercised to determine the carrying values. The fair value of financial instruments that are unlisted and not traded in an active market is determined at fair values assessed based on recent transactions entered into with third parties, based on valuation done by external appraisers etc., as applicable.

2.6 Functional & Presentation Currency:

These financial statements are presented in Indian rupees, which is also the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest lakhs.

2.7 Current vs Non-Current Classification:

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1, Presentation of financial statements.

Notes on Financial Statements for the year ended 31 March 2019

Assets: An asset is classified as current when it satisfies any of the following criteria:

- a. It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is expected to be realized within twelve months after the reporting date; or
- d. It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Liabilities: A liability is classified as current when it satisfies any of the following criteria:

- a. It is expected to be settled in the Company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is due to be settled within twelve months after the reporting date; or
- d. The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current assets/ liabilities include the current portion of noncurrent assets/ liabilities respectively. All other assets/ liabilities are classified as noncurrent. Deferred tax assets and liabilities are always disclosed as non-current.

2.8 Foreign Currency Transaction and Translation:

- a. Functional & Presentation Currency:

Items included in the consolidated financial statements of the group's subsidiaries are measured using the currency of the primary economic entity in which the entity operates (functional currency). The consolidated financial statements are presented in Indian rupees which is the functional currency of both the Holding & Subsidiary company.

- b. Foreign Currency Transactions:

Transactions in foreign currencies are translated to the respective functional currencies of entities within the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date (closing rate). Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in the statement of profit and loss in the period in which they arise.

- c. Group Entities:

The functional currency of a foreign subsidiary is same as of the functional currency of Holding company. The results and financial position of the foreign subsidiary are translated as follows:

- Assets & Liabilities at each balance sheet date presented are translated at the closing exchange rate at the date of balance sheet.
- Each item of Statement of Profit or loss i.e., income and expenses are translated at average monthly exchange rates and
- All resulting exchange differences arising on such translation are recognised in Other Comprehensive Income.

On disposal of a foreign Operation, the associated exchange differences are reclassified to the statement of profit or loss as a part of gain or loss on disposal

2.9 Property, Plant & Equipment:

Recognition & Measurement

Property, Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset i.e., freight, duties and taxes applicable and other expenses related to acquisition and installation. The cost of self-constructed assets includes the cost of materials and other costs directly attributable to bringing the asset to a working condition for its intended use. Borrowing costs that are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset.

Notes on Financial Statements for the year ended 31 March 2019

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses upon disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within in the statement of profit and loss.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part will be derecognized. The costs of repairs and maintenance are recognized in the statement of profit and loss as incurred.

Items of property, plant and equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

Depreciation

Depreciation is recognized in the statement of profit and loss on a straight line basis over the estimated useful lives of property, plant and equipment based on to the Companies Act, 2013 ("Schedule II"), which prescribes the useful lives for various classes of tangible assets. For assets acquired or disposed off during the year, depreciation is provided on pro rata basis. Land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if appropriate.

The estimated useful lives are as follows:

Type of Asset	Estimated useful life in years
Buildings	
i) Factory Buildings	30
ii) Other Buildings	60
iii) Lease Buildings	6
Plant & Machinery	15
Office Equipment	5
Furniture & Fixtures	10
Testing Equipment	10
Vehicles	10
Computers	3

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date is disclosed as capital advances under other noncurrent assets.

Capital work in Progress:

The cost of property, plant and equipment not ready to use before such date are disclosed under capital work-in-progress. Assets not ready for use are not depreciated.

The Company assesses at each balance sheet date, whether there is objective evidence that an asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Recoverable amount is higher of the value in use or fair value less cost to sell.

2.10 Intangible Asset:

Acquired computer software is capitalised on the basis of the costs incurred to acquire and bring to use the specific software. The intangible assets that are acquired by the Company and that have finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses.

Amortization

Amortization is recognized in the statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets or on any other basis that reflects the pattern in which the asset's future economic benefits are expected to be consumed by the entity. Intangible assets that are not available for use are amortized from the date they are available for use. The estimated useful lives are as follows:

Notes on Financial Statements for the year ended 31 March 2019

Type of Asset	Estimated useful life
Intangible Assets	
Computer Software	3

The amortization period and the amortization method for intangible assets with a finite useful life are reviewed at each reporting date.

2.11 Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. *Financial assets*

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

Debt instrument at FVTPL

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss. The Company has not designated any debt instrument as at FVTPL.

Investment in equity instruments

All equity investments in scope of Ind AS 109 are measured at Fair Value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Investments in subsidiaries and Associates

Investments in subsidiaries and associates are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries and associates, the difference between net disposal proceeds and the carrying amounts are recognized in the statement of profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Notes on Financial Statements for the year ended 31 March 2019

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

b. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value i.e., loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR (Effective Interest Rate) method. Gains and losses are recognized in the statement of profit and loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Fair value measurement

The Company classifies the fair value of its financial instruments in the following hierarchy, based on the inputs used in their valuation:

- i) **Level 1:** The fair value of financial instruments quoted in active markets is based on their quoted closing price at the balance sheet date.
- ii) **Level 2:** The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions.
- iii) **Level 3:** The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs).

2.12 Government Grants:

Recognition & Measurement

Grants & Subsidies received from the Governments are recognised only when there is reasonable assurance that:

- a. The Company will comply with the conditions attached to the grant
- b. There is a reasonable certainty that the grant will be received.

Government grants related to assets are treated as deferred income and are recognized in net profit in the statement of Profit & Loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in net profit in the Statement of Profit & Loss over the periods necessary to match them with the related costs which they are intended to compensate.

Notes on Financial Statements for the year ended 31 March 2019

When loans or similar assistance are provided by Governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a Government grant. The loan or assistance is initially recognized and measured at fair value and the Government grant is measured as the difference between the fair value of the loan and the proceeds received. It is recognized as deferred income and released to statement of Profit & Loss in proportionate over the loan tenure and presented within other income. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

2.13 Inventories:

Inventories consist of raw materials, stores and spares, work-in-progress and finished goods and are measured at the lower of cost or net realizable value. However raw materials which are used in the process of production are not written down below the cost if the finished goods produced from consumption of such material are sold at or above the cost. The cost includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

2.14 Impairment of non Financial Assets:

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year at March 31.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognized in the statement of profit and loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.15 Cash & Cash Equivalents:

Cash and bank balances comprise of cash balance in hand, balance in current accounts with banks, demand deposit, short-term deposits, margin money deposits and unclaimed dividend accounts. For this purpose, "short-term" means investments having maturity of three months or less from the date of investment. Bank overdrafts that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. The margin money deposits and unclaimed dividend balances shall be disclosed as restricted cash balances.

2.16 Employee Benefits:

a. Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Notes on Financial Statements for the year ended 31 March 2019

b. Defined Contribution Plan

The Company's contributions to defined contribution plans are charged to the statement- of profit and loss as and when the services are received from the employees.

c. Defined Benefit Plans

The liability in respect of defined benefit plans and other post-employment benefits is calculated using the projected unit credit method consistent with the advice of qualified actuaries. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates based on prevailing market yields of Indian Government Bonds and that have terms to maturity approximating to the terms of the related defined benefit obligation. The current service cost of the defined benefit plan, recognized in the statement of profit and loss in employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in income. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

d. Termination benefits

Termination benefits are recognized as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

e. Other long-term employee benefits

The Company's net obligation in respect of other long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the statement of profit and loss in the period in which they arise.

2.17 Provisions, Contingent Assets & Contingent Liabilities:

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no such disclosure is made.

Contingent assets

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

2.18 Revenue Recognition:

Sale of Goods and Service Income:

Effective 01 April 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as of 01 April 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. Except, as stated in Note no.41 the Impact on adoption of Ind AS 115 was insignificant.

Revenue from goods and services is recognized, when the company satisfies a performance obligation by transferring a promised good or service to its customers. The Company considers the terms of the contract and its customary business practices to determine the transaction price. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset.

Notes on Financial Statements for the year ended 31 March 2019

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and Goods & services Tax. Transaction price is recognised based on the price specified in the contract, net of the estimated sales incentives/ discounts. Accumulated experience is used to estimate and provide for the discounts/ right of return, using the expected value method.

Contract Asset:

In a contract, if the entity performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, it shall be presented as a contract asset, excluding any amounts presented as receivable. A contract asset is an entity's right to consideration in exchange for goods and services that the entity has transferred to the customer.

Contract Liability:

If a customer pays consideration, or an entity has a right to an amount of consideration that is unconditional (ie a receivable), before the entity transfers a good or service to the customer, it shall be presented as a contract liability when the payment is made or the payment is due (whichever is earlier). A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or an amount of consideration is due) from the customer.

Other Income

Interest Income

Interest Income mainly comprises of interest on margin money deposit relating to bank guarantee and Deposits against Bank Overdraft with banks. Interest income should be recorded using the effective interest rate (EIR). However, the amount of margin money deposits relating to bank guarantee and Over draft are purely current in nature, hence effective interest rate has not been applied. Interest is recognized using the time-proportion method, based on rates implicit in the transactions.

Export Benefits

Export Incentives

The Company receives export incentives in the form of MEIS (Merchandise Exports from India Scheme) scripts which do not fall under the scope of Ind AS 115 and are accounted for in accordance with the provisions of Ind AS 20 considering such incentives as Government Assistance. Accordingly government grant recognised as Other income in Profit and Loss statement.

2.19 Borrowing Cost:

Borrowing costs consist of interest, ancillary and other costs that the Company incurs in connection with the borrowing of funds and interest relating to other financial liabilities. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed to Profit & Loss statement in the period in which they occur.

2.20 Research and Development Costs (Product Development)

Research and Development expenditure is recognized as an expense when it is incurred. Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred.

Items of property, plant and equipment and acquired Intangible Assets utilized for Research and Development are capitalized and depreciated in accordance with the policies stated for Property, Plant and Equipment and Intangible Assets

2.21 Tax Expense:

Tax Expense comprises of Income Tax, Deferred Tax and MAT credit

Income Tax

Income tax expense is recognized in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Notes on Financial Statements for the year ended 31 March 2019

Deferred Tax

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the tax base i.e., the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred Tax Asset is also provided on MAT tax paid during the Previous years which can be set off against future tax liability.

Minimum Alternate Tax (MAT) Credit

Minimum alternate tax (MAT) credit is recognised in accordance with tax laws in India as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. The Company reviews the MAT credit at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

2.22 Dividend Declared:

The Company recognizes a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

2.23 Earnings per Share:

The Company presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic earnings per share is computed by dividing the net profit attributable to shareholders by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit attributable to shareholders by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Options and warrants are dilutive when they would result in the issue of ordinary shares for less than the average market price of ordinary shares during the period. The amount of the dilution is the average market price of ordinary shares during the period minus the issue price.

2.24 Determination of Fair Value:

The Company's accounting policies and disclosures require the determination of fair value, for certain financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

(i) Property, plant and equipment

Property, plant and equipment, if acquired in a business combination or through an exchange of non-monetary assets, is measured at fair value on the acquisition date. For this purpose, fair value is based on appraised market values and replacement cost.

(ii) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Notes on Financial Statements for the year ended 31 March 2019

(iii) Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

(iv) Investments in equity and debt securities and units of mutual funds

The fair value of marketable equity and debt securities is determined by reference to their quoted market price at the reporting date. For debt securities where quoted market prices are not available, fair value is determined using pricing techniques such as discounted cash flow analysis.

In respect of investments in mutual funds, the fair values represent net asset value as stated by the issuers of these mutual fund units in the published statements. Net asset values represent the price at which the issuer will issue further units in the mutual fund and the price at which issuers will redeem such units from the investors.

Accordingly, such net asset values are analogous to fair market value with respect to these investments, as transactions of these mutual funds are carried out at such prices between investors and the issuers of these units of mutual funds.

2.25 Recent Accounting Pronouncements:

Ind AS 116 Leases :

Ind AS 116, Leases: The Ministry of Corporate Affairs has notified the Ind AS 116, Leases which will be effective from 1 April 2019. Ind AS 116 would replace the existing leases standard Ind AS 17. The standard sets out the principles for the recognition, measurement, presentation and disclosures for both parties to a contract, i.e. the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of profit and loss. The Company is currently evaluating the effect of Ind AS 116 on the financial statements

Amendment to Ind AS 12 'Income Taxes': On 30 March 2019, the Ministry of Corporate Affairs has notified limited amendments to Ind AS 12 'Income Taxes'. The amendments require an entity to recognise the income tax consequences of dividends as defined in Ind AS 109 when it recognises a liability to pay a dividend. The income tax consequences of dividends are linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. The amendment will come into force for accounting periods beginning on or after 1 April 2019. The Company is evaluating the effect of the above in the financial statements.

Appendix C to Ind AS 12, Uncertainty over Income Tax Treatments: On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2019 containing Appendix C to Ind AS 12, Uncertainty over Income Tax Treatments which clarifies the application and measurement requirements in Ind AS 12 when there is uncertainty over income tax treatments. The current and deferred tax asset or liability shall be recognized and measured by applying the requirements in Ind AS 12 based on the taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates determined by applying this appendix. The amendment is effective for annual periods beginning on or after 1 April 2019. The Company is evaluating the effect of the above in the financial statements.

Amendment to Ind AS 19 'Employee Benefits': On 30 March 2019, the Ministry of Corporate Affairs has notified limited amendments to Ind AS 19 'Employee Benefits' in connection with accounting for plan amendments, curtailments and settlements. The amendments require an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement and to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling. The amendment will come into force for accounting periods beginning on or after 1 April 2019. The Company is evaluating the effect of the above in the financial statements.

Defined Benefit plan – Gratuity

In accordance with applicable laws, the Company has a defined benefit plan which provides for gratuity payments (the "Gratuity Plan") and covers certain categories of employees in India. The Gratuity Plan provides a lump sum gratuity payment to eligible employees at retirement or termination of their employment. The amount of the payment is based on the respective employee's last drawn salary and the years of employment with the Company. Liabilities in respect of the Gratuity Plan are determined by an actuarial valuation, based upon which the Company makes contributions to the Life Insurance Corporation of India (LIC).

VIII The principal assumptions used in determining Gratuity Group plan are shown below:

Description of Risk Exposures:

Valuations are performed on certain basic set of predetermined assumptions and other regulatory frame work which may vary over time. Thus, the Company is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk: The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience compared to the assumption.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. if Increase in the maximum limit of gratuity more than ₹ 20 lakhs).

Discount Rate: The discount rate has decreased from 7.54% to 7.32% and hence there is a increase in liability leading to actuarial loss due to change in discount rate.

Description of Plan Assets and Reimbursement Conditions: 100% of the Plan Asset is entrusted to LIC of India under their Group Gratuity Scheme. The reimbursement is subject to LIC's Surrender Policy.

Assumption as at	As at 31 March 2019

37. Financial Risk Management:

The Company's activities expose it to a variety of financial risks, including credit risk, liquidity risk and Market risk. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors, risk management committee and the Audit Committee is responsible for overseeing the Company's risk assessment and management policies and processes.

a. Market Risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments and financial instruments.

b. Interest Rate Risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

c. Foreign Currency Risk:

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company exposure to the risk of changes in foreign exchange rates relates primarily to the Company operating activities (when revenue or expense is denominated in a foreign currency) and investments in foreign companies.

d. Credit Risk:

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

e. Trade Receivables

Customer credit risk is managed subject to the Company's established policy, procedures and control relating to customer credit risk management. The Company major customers are Government, Government Bodies and Government Controlled Agencies. Delay in payment may occur on account of disbursement process. The company mitigates the above keeping regular follow up. Trade receivables are non-interest bearing and are generally on 30 days to 45 days credit term. Outstanding customer receivables are regularly monitored. Credit risk on receivables is also mitigated by securing the letter of credit and advance payment against the same.

Payment of Dividend through Electronic Clearing Service (ECS)

The Securities Exchange Board of India (SEBI) has advised the Companies to mandatorily use ECS facility wherever available for distributing dividends or other cash benefits, etc., to the investors. This facility provides instant credit of dividend amount to your Bank Account electronically at no extra cost. ECS also eliminates the delay in postal transit and fraudulent encashment of warrants. Only individual transactions upto ₹ 500,000/- would be covered under the Scheme.

Under this facility the amount of dividend payable to you would be directly credited to your bank account. Your bank's branch will credit your account and indicate the credit entry as 'ECS' in your pass book/statement account. We would be issuing an advice to you directly after the transaction is effected.

In case you wish to have your dividends paid through ECS and are holding the Company's shares in electronic form you may kindly fill in the enclosed ECS mandate Form and submit it to your Depository Participant. However, in case you are holding the company shares in physical form and wish to have your future dividends paid through ECS you may kindly return the said ECS mandate form duly completed and signed by you at our Registered Office address mentioned elsewhere in this report.

If you do not wish to opt for ECS facility, we strongly recommend that you provide the details of your Bank's Name, Bank's Branch, type of Account and Account Number to your depository participant, in cases where shares are held in electronic form and to us in cases where shares are held in physical form for printing the same on the dividend warrants which will be dispatched to you. In the event of any change or correction in the details that might have been provided by you earlier, kindly send revised particulars to your depository participants or to us as the case may be at an early date.

We request you to kindly submit the ECS / Bank details latest by Tuesday the 10 September 2019 to enable us to include the same for the payment of the current year's dividend.
