## The Enablers of Prosperity

For leading a uniquely special business of Gold Loan financing, it not only requires dedicated individuals but also a well informed and analytical team. Gold Loan business requires high levels of operational and business foresight as it deals with Gold which is a high value precious metal.

Each member of Muthoot Finance's management team brings to the table a diverse, unique and vast experience driven skill set to enable Muthoot Finance overcome the most diverse of challenges. The management capitalizes on this heritage at the corporate and operational levels.

Over its 72 years of service to the Society extending finance against gold to a constituency to whom organized structured finance was largely unavailable, Muthoot Finance Limited has played a pivotal role in extending inclusive growth in the rural and semi-urban and urban heartland of India. The pioneering efforts it took in unlocking the value of investments in gold jewellery, systematic product innovation and geographic expansion across India signify the remarkable transformation of a loan product largely unknown to the present market size of about Rs. 50,000 crores.

In chartering this course, an acute sense of professionalism and uncompromising adherence to Corporate Governance standards have permeated the organizational fabric of the Company. The lead role played by the promoters in this transformation has been remarkable.

## A Note from the Chairman's Desk

### Dear Fellow Stakeholders

Over the last seven decades we have sought to and successfully partnered in the progress of our stakeholders and in this, our 72nd year of operations, it is with immense pleasure that I welcome aboard our shareholders who whole-heartedly participated in our Initial Public Offering (IPO) and have reposed their faith in our company's prospects.

Muthoot Finance entered the capital markets in May 2011 with an IPO of Rs. 9,013 million and the response was overwhelming. This marks a key milestone in the journey that our founding-fathers commenced way back in 1939 and also marks the beginning of another as a listed corporate entity.

### Progress in Performance

During the course of this journey, I believe, we have brought in professionalism in terms of setting standards and ethics and organizational qualities to an industry largely dominated by unorganized players. This is evident in the numbers we have been able to achieve. Over the last five years, we have witnessed a compounded annual growth rate of 74% in our Interest Income and 73% CAGR in our Net Income.

This year we recorded a 113% growth in our Net Interest Income which stood at Rs. 22,983 million. This was backed by the increase in our geographical reach outside Southern India and also deeper penetration in the existing markets. Our Assets under Management reached Rs.1,57,281 million, a rise of 114%. At the operating level we have 33.6% margins with profits of Rs. 7,792 million, a growth of 116%. Resultantly, the net level reflected a 117% rise to Rs. 4,942 million.

The profitability is a direct outcome of standardized training modules, valuation processes and operating systems that we have perfected by virtue of our long standing experience. Notably, the Selling, General and Administrative expenses to Average Retail loans declined from 4.7% to 4.3%. As we expand, we maintain and continue to strengthen our focus on deriving economies of scale to ensure a sustainable business model.

A diversified base of funds ensures that we keep our costs under control. Further, our reputation and performance track record has enabled us to access funds at a reasonable cost.

### Built on Trust

Our business model has an inherent strength. The high sentimental value attributed to personal jewellery or gold ensures that borrowers are looking at repaying the loan at the earliest, resulting in high recoverability. The ticket size of our loans and the maturity period of a year, mitigates the risk of interest rate volatility. Lastly, we have Gold as the collateral while the loan amount is normally given with a 10-40% margin depending on our credit and asset quality assessment.

Our track record suggests that we have been able to perform successfully, despite fluctuation in gold prices over the years. In addition to this, gold loans have been perceived as a convenient source of short term or bridge financing. Another strength of ours is our customer orientation and friendliness. We have always ensured a robust customer service management wherein speed and simplicity are the hallmarks of our loan process.

The size of the Gold Loan market which is pegged at Rs. 375 billion in FY2010 by IMacs Industry Report is set to grow at 35-40% and any industry with such exponential growth potential is set to witness competition and an increase in number of players in the market.

What stands in good stead for Muthoot Finance is that Southern India, at present, accounts for 85% to 90% of the Gold Loan market in India. The company already has a formidable presence in this region and is already the overall market leader, which gives it the head start.

However, the bigger factor in this business which differentiates us from the rest is our brand equity. This has resulted from the trust factor which we have strived hard to build in the minds of customers, in whose progress we have always sought to partner.

### Managing Scalability

Our strategy is two pronged when it comes to achieving scalability. One is to foray into newer geographies and the other is enhancing penetration levels in the existing markets. Again, a pan-India presence is possible only with a thorough understanding of customer behavior in different geographies and the market conditions in that region. Muthoot Finance has managed both as it successfully marked its entry into the Northern and Western regions of India where market dynamics in terms of customer mindset, security status, operational issues are significantly different from those in Southern India. Customized products to suit the requirements of different customers is also an on-going aspect of our growth strategy.

Traditionally, our products have been marketed to the lower and middle income groups. With new geographies and enlargement of existing markets, we aim to broaden our scope of services to cater to the upper-middle income and upper income groups. This will entail creating awareness and positioning the business as a lifestyle product and concurrently fine-tuning our customer service methodology to cater to the higher income tastes. On account of having gold as a collateral, the minimal documentation and the expediency of our product process appeals to customers across income categories.

We will be undertaking focussed marketing to reposition our product as an option of convenience and mitigate the stigma attached to pledging gold jewellery in Indian society.

Security has always been and will remain a priority component of our business operations as we hold our customer's gold with us and hence the company does not compromise on the deployment of technology and security personnel in terms of quality or quantity.

### Vote of Thanks

Our seven decade long successful journey is primarily on account of the collective contribution of our various stakeholders over time. First and foremost, I would salute our employees who have strived to ensure good customer service and smooth execution of our strategy. We value the guidance of our board members and the management team who have spear-headed the company's high growth trajectory.

A special vote of thanks goes to all our customers and lenders for making us the market leader in this business and without whose patronage and support our strategies would not have succeeded.

A distinct approach to market participation and a definitive edge with our customers will continue to drive profitable growth for our company and we look forward to your continued support on this journey.

Thank you

**M. G. George Muthoot**  
Chairman

## Partnering in our Customer's Progress

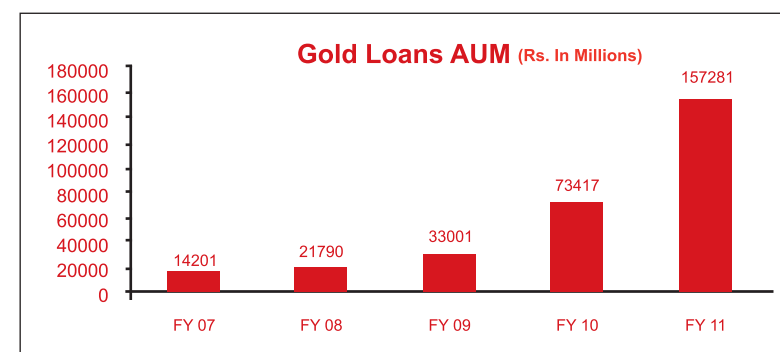

### Through our Business Model

Headquartered in the Southern Indian State of Kerala, Muthoot Finance Ltd. is the flagship company of Muthoot Group. The humble beginnings in 1887 have today fructified into the largest gold financing company in India in terms of size of loan portfolio and branch network among gold loan Non Banking Financial Companies.

Over the past 72 years, the company has broadened its scale of operations & geographic spread to transform this business into what it is today. It has 2733 branches across 20 states, 4 Union Territories and across the length and breadth of the country with Gold Loan Assets under Management of Rs. 1, 57,281 million at the end of the year. The experience and goodwill acquired by the company over the decades has become its greatest asset. We offer products with varying loan amounts, advance rates (per gram of gold) and interest rates. The principal loan amounts disbursed by the company range from Rs.2,000 to Rs.100,000 while the interest rates range between 12.00% to 30.00% per annum.

A typical customer for the company would be small businessmen, vendors, traders, farmers and salaried individuals in under-served rural and semi-urban markets. A large portion of the rural population has limited access to credit either because of their inability to meet the eligibility requirements of banks and financial institutions. Our customers pledge their gold jewellery and take loans. The company has extended its loan portfolio to include other loan products; however gold loans remain the primary revenue driver. All the Gold Loans have terms of 12 months. However, customers may redeem the loan at any time and the company's experience has been that they are generally redeemed between 90 and 180 days.

As per IMacs Industry Report 2010, Muthoot Finance has 19.5% market share of the Rs. 376.4 billion gold loan market.

### Our Business Pivots :

#### Capital Raising

The company issues secured redeemable non-convertible debentures to retail investors on a private placement basis as the primary means of capital for its Gold Loan business which constituted 25% of the loan funds. Further, the company's borrowings from banks and other financial institutions as well as sale of its receivables under bilateral assignments to banks which constituted 63.5% of loan funds.

Sources of Funds	(Rs. In Millions)	%
Secured Non Convertible Debenture	39832	24.7
Secured Non-Convertible Debentures –Listed	2150	1.3
Bank Borrowings	60529	37.5
Sell down of receivables under Bilateral Assignment	41864	26.0
Unsecured Non-Convertible Debentures –Listed	2000	1.2
Loan from Directors / Relatives of Directors	817	0.5
Inter Corporate Loan	3	0.0
Subordinated Debt (Tier II Capital)	7106	4.4
Commercial Paper	6948	4.3
<b>TOTAL</b>	<b>161249</b>	<b>100.0</b>

Further the company issues subordinated debt which qualifies as Tier II capital under private placement to retail investors which constituted 4.4% of the loan funds. The company has raised funds by issue of commercial paper to various mutual funds which constituted 4.3% of the loan funds. Besides company has issued listed debentures to various institutions which constituted 2.5% of loan funds.

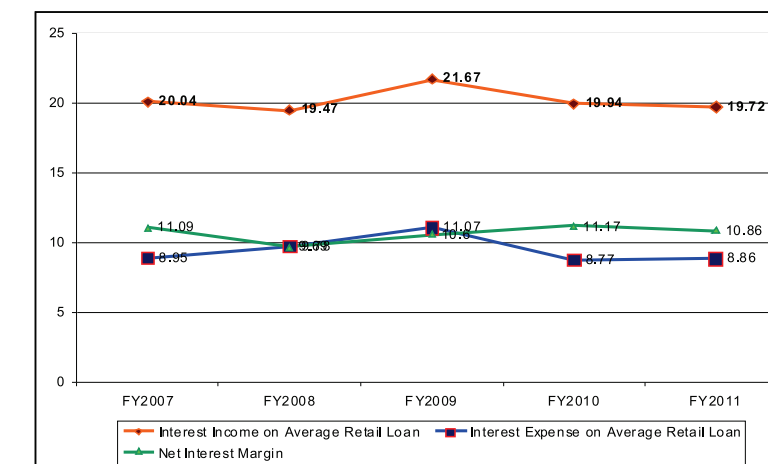

## Credit rating

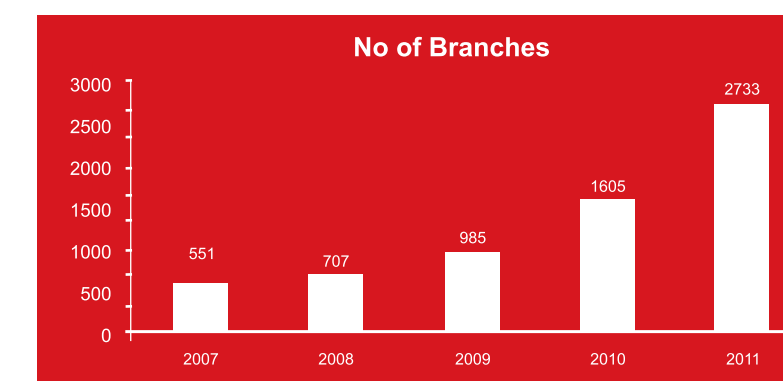

SHORT TERM RATING			
COMMERCIAL PAPER	AMT OF RATING	RATING	INDICATES
CRISIL	2000	P1+	Degree of safety with regard to timely payment of interest & principal on the instrument is very strong
ICRA	200	A1+	Lowest credit risk & Stronger credit quality
BANK LOANS			
ICRA	4073	A1+	Lowest credit risk & Stronger credit quality
LONG TERM RATING			
SUBORDINATED DEBT			
CRISIL	100	AA-(Stable)	High Degree of safety with regard to timely payment of interest & principal on the instrument
ICRA	100	LAA-(Stable)	High quality credit rating & Lowest credit risk
NON CONVERTIBLE DEBENTURE			
CRISIL	500	AA-(Stable)	High Degree of safety with regard to timely payment of interest & principal on the instrument
ICRA	200	LAA-(Stable)	High quality credit rating & Lowest credit risk
BANK LOANS			
ICRA	3572	LAA-(Stable)	High quality credit rating & Lowest credit risk

Notably our diversified source of funding ensures insulates us against any significant cost pressures. Lastly, our Asset Liability Mismatch is well under control as we have loan maturity of less than a year while our borrowings tenure is typically over a year. Thus we are able to maintain our margins as well.

### Selecting Branch Locations

Branch site selections are based on a strict set of market surveys and location guidelines to ensure close proximity to the end customers. Besides proximity, the company adapts to timings which are convenient for the working class. The branches are well secured and equipped with highly trained staff who understands the local aspects well. The local know how goes a long way for the company in terms of familiarity and personalized service and security as untoward activities can be easily picked up if any borrower is from any other area.

### Personnel Strength

Over a period of time, the company has created a pool of well trained in-house staff through its strategy of learning local people. The two staff training colleges in Cochin and in New Delhi, and three regional learning centers located in Chennai, Hyderabad and Bangalore take care of training needs in terms of gold appraisal skills, customer relations and communication skills.

Further, training our in-house staff has ensured a uniform set of procedures followed at all branches, resulting in process oriented business culture and automation which reduced dependency on people and smooth operations.

We also have a team of 900 customer relation executives in charge of carrying out customer loyalty programs and a Customer Relations Department which provides support over the phone servicing the needs of our customers.

### Loan Process & Branch Operations

Muthoot Finance's USP lies in our quick turnaround time as our business model positioning ensures minimal documentary evidence and credit assessment formalities in view of the gold collateral collected upfront. The company disburses an average loan ticket size of Rs. 20,000 within five minutes from the time the gold is tendered to the appraiser.

This is possible on account of the robust loan process which is standardized across branches. The process commences by explaining various schemes to the customer. Once proof of identity is undertaken, the branch appraiser conducts specific weight and quality tests of the gold without any damage to the gold ornaments. Computerized records are maintained and the customer's appraisal certificate and ornaments are placed in the security vault while the customer gets the required amount at the prescribed rate. Once the customer repays the loan and discharges the Pledge form, ornaments are handed back.

The entire process is audited by a 704 member Audit team on a monthly or weekly basis based on the size of the branch to ensure strong control on systems and processes.

### Ensuring Gold Quality

Muthoot's comprehensive and standardized Valuation Process for gold collaterals are undertaken across its branch network to ensure a high quality portfolio. It commences with the appraiser weighing the ornaments using calibrated weighing machines and other preliminary and additional tests are conducted without damaging the ornaments. The rate per gram is fixed by the corporate office and is used to decide the loan amount. However the branch manager has the discretion to approve higher rates of upto Rs. 10 per gram. This ensures our collaterals are of a standard and high quality.

### Security & Inventory Management

The gold collaterals are safely packed along with the relevant documents and kept in the strong room of the branch which is adequately secured. Muthoot Finance deploys modern equipments and technology to enhance the safety features of our branches as gold inventory belonging to customers is lying with the company.

### Loan Monitoring, Recovery and Release of Pledge

The loan accounts are monitored on an ongoing basis. Once a loan is fully repaid, the pledged gold jewellery is returned to the customer. When a customer does not repay a loan on or before its maturity, we initiate the recovery process and dispose of the collateral to satisfy the amount owed to us, including both the principal and the accrued interests. Before starting the recovery process, we inform the customer through registered letters or legal notices. When a loan is repaid, we give the customer an option to pledge the security again and obtain another loan. The procedure of re-pledging entails the same procedure as that of a pledge and is accompanied by the same mode of documentation that a pledge entails. If the loan is not repaid when the loan falls due, we are able to sell the gold collateral in satisfaction of the amount due to us. We also reserve the right to sell the collateral even before a loan becomes past due in the event the market value of the underlying collateral is less than amounts outstanding on the loan.

## EXPLANATORY STATEMENT

(Pursuant to Section 173(2) of the Companies Act, 1956)

As required by Section 173 of the Companies Act, 1956 ("Act"), the following explanatory statements set out all material facts relating to the business mentioned under Item Nos. 05 & 06 of the accompanying Notice dated July 27, 2011

### 1. Item No: 5

Section 293 (1) (d) of the Companies Act, 1956 requires the Board of Directors to obtain the consent of the shareholders in a General Meeting to enable them to borrow moneys where the amount to be borrowed together with monies already borrowed exceeds the aggregate of Paid Up Capital of the Company and its Free Reserves, that is to say, reserves not set apart for any specific purposes.

Members of the Company at the Extraordinary General Meeting held on 21<sup>st</sup> July, 2010, passed an Ordinary Resolution authorizing the Board of Directors of the Company to borrow from time to time for the purposes of carrying out the business of the Company, subject to the condition that money, so borrowed shall not exceed Rs. 25,000 Crores (Rupees Twenty Five Thousand Crores).

In view of the increase in the volume of business and taking into consideration the requirement of additional funds, your Directors feel that they should obtain consent from the shareholders to borrow more funds. Accordingly, they have thought it desirable to obtain the consent of the shareholders of the Company pursuant to Section 293 (1) (d) of the Companies Act, 1956 to increase the limit of borrowing powers from Rs. 25,000 Crores to Rs. 50,000 Crores as is now proposed under the ordinary resolution and to give the necessary powers to the Board of Directors as required under Section 293 (1) (d) of the said Act with reference to such enhanced limit.

Therefore, your Board recommends the adoption of the resolution as an Ordinary Resolution.

None of the Directors are interested or concerned in the proposed resolution

### 2. Item No: 6

Looking into the expansion plans of the Company and requirement of streamlining the operations in the southern states of Kerala, Karnataka, Tamil Nadu and Andhra Pradesh, the Board of Directors at their meeting held on the 26<sup>th</sup> day of May, 2011 has considered the appointment of Mr. George M Alexander as Vice President Operations (South) with effect from 01st October, 2011 with a monthly remuneration of Rs. 75,000. The Selection Committee had approved the proposed appointment at their meeting held on the 25<sup>th</sup> day of May 2011.

Mr. George M Alexander is a graduate in mechanical engineering and holds a master degree in business administration from Kenan-Flagler Business School, University of North Carolina, USA. Mr. George M Alexander was a member of the Board of Directors of the Company during the period 2004 to 2009 and has developed good understanding of the business and has been instrumental in setting in place the processes and systems for the business of the Company. His scope of work would cover complete operational control over business of the Company in the southern Indian states of Kerala, Karnataka, Tamil Nadu and Andhra Pradesh. The remuneration proposed to be paid to Mr. George M Alexander is commensurate with his experience and is in line with industry standards.

---

In terms of provisions of Section 314 (1B) of the Companies Act, 1956 read with Director's Relatives (Office or Place of Profit) Rules, 2011 the appointment of relative of Director of the Company on a remuneration exceeding Rs. 10,000 per month requires the approval of the shareholders by way of special resolution.

Mr. George M Alexander is the eldest son of Mr. George Alexander Muthoot, Managing Director of the company and thus the appointment is covered under the provisions of Section 314 (1B) of the Companies Act, 1956. Accordingly, the resolution mentioned in Item No. 06 of the notice is being proposed for approval.

All Non-Independent, Executive Directors, viz Mr. M G George Muthoot, Mr. George Thomas Muthoot, Mr. George Jacob Muthoot and Mr. George Alexander Muthoot being relatives of the appointee are deemed to be concerned and interested in the resolution.

Board recommends the adoption of the resolution as a Special Resolution.

## MANAGEMENT DISCUSSION & ANALYSIS

### Macro Environment

The overall growth of Gross Domestic Product at factor cost at constant prices, as per Advance Estimates, was 8.6 per cent in 2010-11 according to the Advance Estimate of Central Statistics Office. Overall growth in the Index of Industrial Production (IIP) was 3.6 per cent during February 2011. During April-February 2010-11, IIP growth was 7.8 per cent.

During the fiscal 2010-11, the output of the six infrastructure industries was up 5.9%, against 5.5% in the previous year. The index for six core industries (comprising crude oil, petroleum refinery products, coal, electricity, cement and finished carbon steel) with a weightage of 26.68 per cent in the Index of Industrial Production (IIP) grew by 5.6 per cent during April-January 2010-11, as compared to growth rate of 5.5 per cent achieved during the corresponding period in 2009-10.

The fiscal 2010-11 which witnessed a strong economic recovery across sectors led by agriculture however ended with a tightening of monetary policy on account of rising inflation. The liquidity position remained under pressure, but the Government's thrust on infrastructure development remained intact.

With this, the Indian economy appears to be on a firm footing, as the Asian Development Bank expects the economic growth to stand at 8.2 % in 2011-12 notwithstanding inflationary pressures, and to bounce to 8.8 % in next financial year (2012-13) as investment climate improves, overall economic activity picks up again and planned economic reforms move forward.

The Finance Ministry's Economic Survey, released in February 2011, had pegged India's economic growth forecast for 2011-12 at 9 %, but even if the growth rate moderates to a between 7 and 8% during fiscal 2011-12 on account of inflationary pressures, the economic undercurrent will still remain strong.

### Industry Dynamics:

In a report by McKinsey & Company named 'The 'Bird of Gold': The Rise of India's Consumer Market'. By 2025, India will triple its income level and will become the fifth largest consumer market, climbing from its current position at twelfth. A lot of this wealth will be created in the urban areas but even rural households will benefit. Urban India will account for nearly 68 per cent of consumption growth while rural consumption will grow by 32 per cent by 2025. India's middle-class is expected to increase by ten times to around 583 million, while the income levels will triple by 2025, as India reaches the fifth largest consumer market in the world level, the report stated. According to the National Council for Applied Economic Research the average rural family income is estimated to rise by 27 percent in the next five years, most of it from non-farm sources.

With overall economic growth, the demand for credit is expected to increase and the Gold Loans market is fast emerging as the convenient and accessible source of credit for many.

At more than 18,000 tonnes, Indian households hold the largest stock of gold in the world and gold purchases in India accounted for 32% of the global total in 2010. The vast majority of the Indian population (70%) lives in villages, which have traditionally formed the source of more than two thirds of Indian gold demand. Source: <http://www.gold.org/>. India is the world's largest consumer of gold, accounting for some 20 percent of the world's demand. In India gold is historically and culturally tied to the concepts of wealth and prosperity. Consumer demand still remains high as Indians believe gold offers the best protection against inflation.

Gold jewellery demand in India, the world's largest gold jewellery market, rose 67 percent year-on-year to 272

tonnes in the first half of 2010, despite the higher gold price. Over the past decade, gold demand in India has increased at an average rate of 13 percent per year, outpacing the country's real GDP, inflation and population growth by 6 percent, 8 percent and 12 percent respectively. Currently, the country has one of the highest saving rates in the world; estimated at around 30 percent of total income, of which 10 percent is invested in gold. Continued rapid economic growth and urbanisation will create greater wealth but also inflationary pressures stimulating gold demand.

With overall economic growth, the demand for credit is expected to increase and the Gold Loans market is fast emerging as the convenient and accessible source of credit for many as gold and gold jewellery are a part of every household in India.

The market was pegged at Rs. 375 billion in FY 2010 and is expected to grow at 35-40% over the next 2-3 years.

### **Key Industry Features:**

- Highly unorganized markets with regional players. In the organized segment, the Gold Loans market has been dominated by Scheduled Commercial Banks focused on southern India, and Non Banking Finance Companies with market shares of approximately 58% and 32%, respectively in fiscal 2010, while the remaining market share has been held by small co-operative banks. In addition, there has been a rapid expansion in the market for Gold Loans between fiscal 2002 and fiscal 2010 (Source: ImaCS Industry Report (2010 Update))
- A large portion of the rural and semi-urban population does not have the wherewithal to get credit facility from banks and financial institutions due to their inability to meet the eligibility requirements. Gold loans have grown mainly as they are perceived as a convenient source of short term/bridge financing as they meet immediate cash requirements.
- Huge sentimental value attributed to personal gold jewellery results in high recoverability as customers are eager to retrieve their jewellery back.
- Small Ticket size of loans and shorter maturity period makes the industry relatively insulated from interest rate sensitivity.
- The gold loans market in India is set to witness more competition as more financial institutions and banks enter the lucrative business and safer business of lending funds with physical gold as collateral.
- Gold Loan Market is a niche Industry giving superior margins and has an inherently secured nature resulting in a higher score when compared to other loan products such as Housing Finance, Vehicle Finance, Microfinance, Personal Loans. and Credit Cards

### **Competitive Positioning of Muthoot Finance**

- Muthoot Finance Limited is the largest gold financing company in India. As per the audited financial statements, Company's loan portfolio as of March 31, 2011 comprised approximately 4.7 million loan accounts with gold loans outstanding of Rs. 157,281 million
- Muthoot Finance has a operating history spanning over 70 years with a strong brand name and trust created in the minds of the market community. This is one the most important success drivers in this business and

creates a strong entry barrier in view of increasing competition in the sector. Strong domain knowledge and healthy brand reputation has helped the Company to create and maintain the market leadership position along with profitability while maintaining quality.

- Sound growth rates in terms of business and financial performance over a period of time. Over the last five years, we have witnessed a compounded annual growth rate of 74% in our Interest Income and 73% CAGR in our Net Income.
- Healthy asset quality with gross NPAs as % of gross retail AUM at 0.29% as of March 31, 2011 v/s 0.46% as of March 31, 2010.
- Strong foothold in the Southern part of India which is the biggest market for Gold Loans in India. We believe that due to our early entry we have built a recognizable brand in the rural and semi-urban markets of India, particularly in the southern Indian states of Tamil Nadu, Kerala, Andhra Pradesh and Karnataka.. With its established track record in south India, the Company has been scaling up its operations in northern and eastern regions and is in the process of replicating the success in other parts of the country by leveraging the expertise in the segment and successful track record in southern part of the country.
- Deep domain understanding in terms customer behavior in different geographies and conditions enabling the company to expand geographically. We have successfully diversified into Northern and Western India where the market dynamics and operations are significantly different and challenging as compared to our traditional home ground of Southern India.
- Muthoot Finance has a diversified source of funding insulating it against any significant cost pressures. The company has a strong mechanism in place to keep its Asset Liability balance under check. The loan duration historically been 3-6months while the borrowings tenure is typically a year which ensures adequate control over the asset liability management.
- Successful track record of profitable business under various gold price fluctuation scenario. - The company has in-house training facilities to train its staff over various areas such as loan appraisal, asset quality appraisal and customer relationship management. This ensures standardized procedures across branches and quick and efficient loan disbursement system. It also ensures that the company is process driven.

### **Risk Addressal**

Risk management forms an integral element of our business strategy. As a lending institution, we are exposed to various risks that are related to our gold lending business and operating environment. Our objective in our risk management processes is to appreciate, measure and monitor the various risks we are subject to and to follow the policies and procedures to address these risks.

- **Operations Risk**

Over the years, the company has refined its operations and set up stringent processes in place to ensure cost control and high productivity. The entire process is audited by an internal as well as external audit team to ensure strict adherence.

- **Collateral Risk**

Collateral risk arises from the decline in the value of the gold collateral due to fluctuation in gold prices. This risk is in part mitigated by the 10% to 40% margin built in to the rate per gram used to calculate the loan amount. Typically, the price of gold jewellery is higher given the production costs, design cost and the gemstones associated with making the item, but the company appraises the collateral and fund loans solely based on the weight of its gold content.

- **Credit Risk**

Credit risk is the possibility of loss due to the failure of any counterparty to abide by the terms and conditions of any financial contract with us. Muthoot Finance follows a rigorous loan approval and collateral appraisal process, as well as a strong NPA monitoring and collection strategy. The collateral in the form of gold jewellery provides a hedge against credit risk loss. KYC norms are strictly followed as each customer is photographed and his details captured. Further, daily MIS ensures hold on business activities and alerts any undue business transactions.

- **Security**

The company faces threat of thefts and burglaries at its premises as it holds cash and jewellery. It deploys technology and hi-end devices along with well trained security staff for adequate protection against security threats.

- **Regulatory Risk**

The company faces the risk of change in regulatory policy which may impact its business adversely. A strong brand name, adequate market standing and rich experience should help it to mitigate the same.

### **Internal Control Systems**

The Company has in place, adequate systems of internal control. It has documented procedures covering all financial and operating functions. These controls have been designed to provide a reasonable assurance with regard to maintaining proper accounting controls, monitoring of operations, protecting assets from unauthorized use or losses, compliances with regulations and for ensuring reliability of financial reporting. The Company has continued its efforts to align all its processes and controls with best practices in these areas as well.

### **Human Resources**

Muthoot Finance attributes its success to the dedication and hard work of its employees and considers them as one of its key assets.

We undertake periodical training programs for all our employees to equip them with new skills sets both on the technical and soft skills front.

The company's employee strength stood at 16,688 as on 31<sup>st</sup> March, 2011.

**AUDITOR'S REPORT  
TO THE SHAREHOLDERS OF MUTHOOT FINANCE LIMITED**

1. We have audited the attached Balance Sheet of **Muthoot Finance Limited, Registered and Corporate Office: Muthoot Chambers, Opposite Saritha Theatre Complex, 2nd Floor, Banerji Road, Kochi 682 018, India**, (the company) **as at 31st March 2011**, and the annexed Profit and Loss Account for the year ended on that date which we have signed under reference to this report. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003, as amended by the Companies ( Auditor's Report) (Amendment) Order, 2004, (together the 'Order') issued by the Central Government of India in terms of Section 227 (4A) of the Companies Act, 1956 (the 'Act'), and based on the information and explanations given to us, we give in Annexure- I, a statement on the matters specified in paragraphs 4 and 5 of the said Order.
4. As required by the Non-Banking Financial Companies Auditor's Report (Reserve Bank) Directions, 2008, we give in Annexure II, a statement on the matters specified in the paragraph 3 and 4 of the said directions.
5. Further to our comments in the Annexures referred to in paragraphs 3 & 4 above, we report that:
  - a. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b. In our opinion, proper books of accounts as required by law have been kept by the company so far as appears from our examination of those books and proper returns adequate for the purpose of the audit have been received from branches not visited by us.
  - c. The Balance Sheet and Profit and Loss Account dealt with by this report are in agreement with the books of accounts.

- d. In our opinion, the Balance Sheet and Profit and Loss Account dealt with by this report are in compliance with the Accounting Standards referred to in sub-section (3C) of Section 211 of the Act, to the extent applicable.
- e. On the basis of written representations received from the directors, as on 31st March 2011 and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2011 from being appointed as director under Section 274(1)(g) of the Act.
- f. In our opinion and to the best of our information and according to the explanations given to us, the said accounts together with the notes thereon give the information required by the Act, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
  - i. In the case of the Balance Sheet , of the state of affairs of the Company as at 31st March 2011; and
  - ii. In the case of the Profit and Loss Account, of the profit of the Company for the year ended on that date.

(Referred to in paragraph 3 of our report of even date)

**Re. Muthoot Finance Limited**

- (i) (a) Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) Not all the assets have been physically verified by the management during the year, but there is a regular programme of verification, which, in our opinion, is reasonable having regard to the size of the company and the nature of its assets. We are informed that no material discrepancies were noticed on such verification.
- (c) No substantial part of fixed assets has been disposed off during the year.
- (ii) (a) The Company is a Non-Banking Finance Company and has not dealt with any goods and the company does not hold any inventory during the period under audit. Accordingly, the provisions of clause 4 (ii) of the Companies (Auditors Report) Order 2003 are not applicable to the Company.
- (iii) (a) The company has not granted secured or unsecured loans to companies, firms or other parties covered in the register maintained u/s 301 of the Companies Act, 1956. Accordingly, the provisions of clause 4(iii) (a), (b), (c) and (d) of the Companies (Auditors Report) Order 2003 are not applicable to the Company.
- (e) The company has taken unsecured loans from directors and their relatives and from companies covered in the register maintained u/s 301 of the Companies Act, 1956 the maximum amount of which during the year was Rs. 9,836.07 Lakhs and the year-end balance of such loan is Rs. 8,175.92 Lakhs.
- (f) In our opinion, the rate of interest and other terms and conditions on loans taken by the company, secured or unsecured, are not prima facie prejudicial to the interest of the company.
- (g) In our opinion, the payment of principal amount and interest are also regular.
- (iv) In our opinion and according to the information and explanations given to us, there are adequate internal control procedures commensurate with the size of the company and the nature of its business, with regard to the purchases of fixed assets and for rendering of services. During the course of our audit, we have not observed any continuing failure to correct major weaknesses in internal control.
- (v) (a) According to the information and explanations given to us, we are of the opinion that the particulars of contracts or arrangements referred to in Section 301 of the Act have been entered in the register required to be maintained under that section.
- (b) In our opinion and according to the information and explanations given to us, the transactions have been made in pursuance of contracts or arrangements entered in the register maintained u/s 301 of the Companies Act, 1956 and exceeding the value of Rs. 5.00 Lakhs in respects of any party during the year have been made at prices which are reasonable having regard to the prevailing market prices at the relevant time.

- (vi) In our opinion and according to the information and explanations given to us, the Company has not accepted deposits from the public attracting the provisions of Section 58A and Section 58AA of the Companies Act, 1956 and the Companies (Acceptance of Deposits) Rules, 1976 with regard to the deposits accepted from the public.
- (vii) In our opinion, the company has an internal audit system commensurate with the size and nature of its business.
- (viii) According to the information and explanations given to us, in respect of the Company, Central Government has not prescribed the maintenance of cost records under section 209(1) (d) of the Companies Act, 1956.

### 2. SIGNIFICANT ACCOUNTING POLICIES

#### 2.1 ACCOUNTING CONCEPTS

The financial statements are prepared on historical cost convention complying with the relevant provisions of the Companies Act, 1956 and the Accounting Standards issued by the Institute of Chartered Accountants of India, as applicable. The company follows prudential norms for income recognition, asset classification and provisioning as prescribed by Reserve Bank of India vide Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007.

#### 2.2 USE OF ESTIMATES

The preparation of the financial statements requires use of estimates and assumptions that affect the reported amount of assets and liabilities as at the Balance Sheet date, reported amount of income and expenses during the reporting period and disclosure of contingent liabilities as at that date. The estimates and assumptions used in these financial statements are based upon the management evaluation of the relevant facts and circumstances as of the date of the financial statements. Management believes that these estimates and assumptions used are prudent and reasonable. Future results may vary from these estimates.

#### 2.3 REVENUE RECOGNITION

Revenues are recognized and expenses are accounted on accrual basis with necessary provisions for all known liabilities and losses. Income from Non- Performing Assets is recognized only when it is realized. Income and expense under bilateral assignment of receivables accrue over the life of the related receivables assigned. Interest income and expenses on bilateral assignment of receivables are accounted on gross basis.

#### 2.4 EMPLOYEE BENEFITS

##### A) Short Term Employee Benefits:

Short Term Employee Benefits for services rendered by employees are recognized during the period when the services are rendered.

**B) Post employment benefits:**

a) Defined Contribution Plan  
Provident Fund

**2.9 INVESTMENTS**

Investments intended to be held for not more than a year are classified as current investments. All other

investments are classified as long-term investments. Current investments are carried at lower of cost or market value/realizable value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline, other than temporary, in the value of the investments.

## 2.10 IMPAIRMENT OF ASSETS

The carrying amounts of assets are reviewed at each balance sheet date to ascertain impairment based on internal / external factors. An impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of the net selling price of the assets or their value in use. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

## 2.11 PROVISIONS, CONTINGENT LIABILITIES & CONTINGENT ASSETS

Provisions are recognized only when the company has present, legal, or constructive obligations as a result of past events, for which it is probable that an outflow of economic benefit will be required to settle the transaction and a reliable estimate can be made for the amount of the obligation.

Contingent liability is disclosed for (i) possible obligations which will be confirmed only by future events not wholly within the control of the company or (ii) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.
