MANAGEMENT DISCUSSION AND ANALYSIS REPORT
(A) Industry Structure and Development:

The Indian auto component industry is one of the emerging industries in India having excellent growth potential. The industry which initially began with providing components to the domestic market alone now has established itself as one of the major auto components hub in Asia and has become a significant player on the global platform too. Original Equipment Manufacturers (OEM) market account for 2/3rd of the total auto component industry (IBEF Report). The industry which reported a turnover of \$19.1 billion in 2008-09, is expected to touch a top line of US\$ 40 billion by 2015-16 as reported by Automotive Component Manufacturers Association of India (ACMA) in its Vision 2015 Report. This makes the Compounded Annual Growth Rate (CAGR) of the auto component industry at 11 per cent for 2008-15. Exports by the Indian auto component industry touched US\$ 3.82 billion in 2008-09. With the Association of South East Asian Nations (ASEAN) Free Trade Agreement (FTA) coming into effect auto component exports are likely to gain momentum in the future.

(B) Review of Operations:

The Company acquired the Wheel Business of Enkei Castalloy Limited (ECL) pursuant to the Scheme of Arrangement between Enkei Castalloy Limited and the Company. The results discussed below refer to the Wheel Business of ECL only.

The Company achieved Sales of Rs.1,666.99 millions and incurred a loss of Rs.93.99 millions during the period ended 31st March 2010. As this is the First year of Operation, the comparable figures of Last year are not Applicable.

(C) Opportunities/Outlook for the Company:

In Financial Year 2010 both two wheeler and four wheeler industry had growth of in excess of 25%. Indian Economy is on a growing path and likely to grow at a pace of at least 7.5% in Financial Year 2011 and may be at higher rate in subsequent years. With this both two wheeler and four wheeler industry will have double digit growth even in coming years. Further introduction

of high end mopeds will increase use of alloy wheels even at the faster rate. Considering positive micro and macro factors, and willingness to fund expansion program by the promoter, outlooks for the company is positive.

(D) Expansion and Capital Expenditure:

The Company during the period ended 31st March'2010 has restarted MAP-1 and also constructed ETP/STP. The Entire expansion was funded from internal accruals and term loans.

(E) Threats, Risks and Concern of the Management:

The cyclical nature of the Indian automobile industry might affect demand. Given the fact that Indian economy has set its path on growth coming after the global economic and financial crisis we perceive inflationary scenario in the future. Government policies to contain the same may result into rise in interest rates thus increasing the cost of funds. Restriction in money supply is likely to cause lower off take of automobiles which would affect its domestic sales.

The rise in crude oil prices not in tandem with purchasing power may further result in deferment of purchase decisions by end customers thus reducing the demand for automobiles and finally affect the operations of auto component manufacturing companies.

Also, the increase in raw material cost for wheels aggregates might not be fully compensated by the customers. The Company plans to mitigate this risk through cost reduction initiatives such as value engineering and hedging.

The company imports raw materials and components and on a need basis, imports capital equipments. The company has significant long term borrowings in foreign currency and business transaction in various other countries. This exposes the company to significant foreign exchange fluctuation risk.

(F) Internal Control System:

The Company has an adequate system of internal controls commensurate with its size and nature of business to ensure adequate protection of Company's resources, efficiency of operations, check on cost structure and compliance with the legal obligations and the Company's policies and procedures.

The Company remains committed to maintaining internal controls designed to safeguard the efficiency of operations and security of our assets. Accounting records are adequate for preparation of financial statements and other financial information. The adequacy and effectiveness of internal controls across the various functional levels, as well as compliance with laid down systems and policies are monitored both by Company's internal control systems on a regular basis. Your Company's Statutory Auditors have, in their report, confirmed the adequacy of the internal control procedures.

(G) Human Resource Development:

The Company is giving utmost importance to human resource development. In this direction, the Company is providing intensive training in India and overseas to employees of all levels for improving competence, production, enhancing safety and social values. Achieving high morale and motivation is the ultimate goal of each training program. The management expects to continue the customized development program of employees during the current year also. The management of the Company enjoys cordial relations with its employees at all levels. The Board of Directors wish to place on record its highest appreciation of the contribution being made by all the employees.

NOTES TO ACCOUNTS

SCHEDULE 20 : NOTES

1. Enkei Wheels (India) Ltd. was incorporated on 30.03.2009 under the Companies Act, 1956. The entire share capital of the Company was held by Enkei Castalloy Ltd. However, since there was no single business activity during the year ended 31.03.2009, the accounts were not prepared and filed. Hence, the present accounts are for the period beginning with 30.03.2009 and ending with 31.03.2010. This being the first accounting period of the Company, figures of the previous year/period are not applicable. On the same footing, the requirement of preparation of cash flow statement is not applicable to the Company.
2. Pursuant to the Scheme of Arrangement (de-merger) sanctioned by the Hon'ble High Court of Bombay, the Wheel Division of Enkei Castalloy Limited (ECL/ Demerged Company) was de-merged into Enkei Wheels (India) Limited ('EWIL/ Resulting Company') with effect from end of the day of 31st March 2010.

The Scheme had provided that 'though it shall become effective from the Effective Date, i.e. the date on which the certified copy of the order of High Court of Bombay under sections 391 and 394 of the Companies Act, 1956, sanctioning the scheme is filed with the Registrar of Companies, Pune and which is end of the day of 31st March 2010, the provisions of the Scheme shall be applicable and come into operation from the Appointed Date, which means the 1st day of April 2009 or such other date as may be approved by the High Court of Bombay'.

Now, since the High Court of Bombay has sanctioned the Scheme of de-merger and the Appointed Date being as defined in the Scheme, all assets and liabilities in respect of the Wheel Division of ECL/Demerged Company, as appearing in the books of ECL/ Demerged Company as on 1st April 2009, i.e. the Appointed Date as defined in the Scheme, were transferred to and vested with EWIL/Resulting Company'.

In the light of the above and the clause 4 of the Scheme which provides that "upon the coming into effect of this Scheme and on and from the Appointed Date entire business of the 'Wheel Division' of ECL/ Demerged Company shall, without any further act, instrument or deed, subject to other provisions of the Scheme and pursuant to sections 391 & 394(2) and other relevant provisions of the Act, be transferred to and vested in or be deemed to have been demerged from ECL/ Demerged Company and be transferred to and vested in EWIL/Resulting Company, as a going concern." the old shareholding of ECL/ Demerged Company in EWIL/Resulting Company stood automatically cancelled and EWIL/ Resulting Company have ceased to be a wholly owned subsidiary of ECL/Demerged Company as an integral part of the Scheme, pending the allotment of shares by EWIL/ Resulting Company to the existing shareholders of ECL/Demerged Company and completion of all necessary legal formalities including payment of stamp duty, incidental to the demerger by EWIL/ Resulting Company. Pending adjudication of stamp duty on immovable properties received from ECL/ Demerged Company on demerger, EWIL/ Resulting Company has not provided for the necessary expense in the accounts.

As a result of all the above, accounting entries pursuant to PART-IV of the Scheme have been made in the books of the EWIL/Resulting Company retrospectively from the Appointed Date, i.e. 1st April 2009 and which are summarised below.
