## **MANAGEMENT DISCUSSION AND ANALYSIS**

### ***INDUSTRY STRUCTURE & DEVELOPMENTS, OPPORTUNITIES & THREATS, SEGMENTWISE PERFORMANCE, OUTLOOK, RISKS & CONCERNS***

During the year under review, the Company has continued its food division business & operates in two reportable segments, as identified in accordance with Ind AS-108: 'Operating Segments'.

#### **FOODS BUSINESS DIVISION:**

The health-conscious Indian seems to be gobbling almonds like never before, leading the country to topple China and Spain to emerge as the world's largest consumer of the nut in recent times. Almond imports into India rose 7 per cent to worth \$600 million last year against \$560 million in 2016, according to Almond Board of California data. Particularly during the Indian festive season from September to March, the explosive increase in almond import marked 29%.

Almond is high in fiber, protein, and other nutrients. While mainly eaten raw, almond has a variety of culinary uses. It is commonly applied in pastry, cookies, and other sweets. It is also processed as oil to make almond milk and almond flour. Almond flour may replace wheat flour and is a great gluten-free substitute.

World almond production was on the rise in the 2017/18 season and consumption also continued expanding. But your company slowed down its trading in almonds during the year under review as compared to previous year due to anticipation of low margin. The globally rising demand of almond has propelled the upward tendency of almond price over past years. The unprecedented expansion of middle class worldwide largely contributes to the popularity of almond, as consumers are now better aware of and show stronger preference toward healthy food choices.

In 2017, almond market faced growing instability as unexpected frost hit to cause severe damage to California, world's largest almond supplier. In March 2018, China decided to impose an additional tariff on U.S. almonds, which will take effect in upcoming July. Despite the adverse conditions, rising demand will continue to sustain the USD 21 billion revenue almond industry. While the U.S. is responsible for more than half the world almond production, California is the only state in the U.S. that produces commercial supply. Thus the Californian weather will continue to influence almond price, as it had in the past when California experienced its worst drought in decades in 2015.

#### **FINANCE BUSINESS DIVISION:**

The year 2017 was marked by a number of key structural initiatives to build strength across macro-economic parameters for sustainable growth in the future. The growth in the first half of the year suffered despite global tailwinds. However, the weakness seen at the beginning of 2017, seems to have bottomed out as 2018 set in. Currently, the economy seems to be on the path to recovery, with indicators of industrial production, stock market index, auto sales and exports having shown some uptick. We believe that India's economic outlook remains promising for FY17-18 and is expected to strengthen further in FY18-19. However, the signs of green shoots should not be taken for granted as downside risks remain.

During 2016, India's real interest rates followed a downward global trend. However after this the rates started shifting upwards which affected investment activity, led to currency appreciation and resulted in subdued export activity.

The credit growth has remained subdued due to the twin balance sheet problem that India has been facing. The issue here is that balance sheets of Indian companies and banks both have been under

stress. While Indian companies remain over-leveraged, the banks are reeling under high non-performing assets.

Your company continued displaying strong financial discipline across macroeconomic cycles withstanding domestic and global adversaries, coming out safer and confident of its execution skills and competency. The management kept a close view on churning the assets, wherever necessary, to improve overall yields, but preservation of capital has been focused priority for your company.

While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements, that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **SIGNIFICANT ACCOUNTING POLICIES & NOTES TO ACCOUNTS**

### **GENERAL INFORMATION**

Fervent Synergies Limited (the company) is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on the Bombay Stock Exchange in India. The company, during the year under review, continued its food division along with its finance division lending short term funds as and when available with the company, for earning business income in line with continuation of business activities of its amalgamating companies.

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from 1<sup>st</sup> April 2017, with a transition date of 1st April 2016. The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements for the year ended 31st March 2018, be applied retrospectively and consistently for all financial years presented. However, in preparing these Ind AS financial statements, the Company has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained in notes. The resulting difference, if any, between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP have been recognized directly in retained earnings.

### **1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### **STATEMENT OF COMPLIANCE**

The financial statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015.

Upto the year ended 31st March 2017, the Company prepared its financial statements in accordance with the requirements of previous GAAP, which included Standards notified under the Companies (Accounting Standards) Rules, 2006. These are the Company's first Ind AS financial statements. The date of transition to Ind AS is 1st April 2016.

#### **BASIS OF PREPARATION OF FINANCIAL STATEMENTS**

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

All assets and liabilities have been classified as current and non-current as per normal operating cycle of the Company and other criteria set out in the Schedule III to the Companies Act, 2013. Based on nature of products / services, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

#### **REVENUE RECOGNITION**

Income and Expenditure are recognised on accrual basis unless otherwise stated. Revenue is recognised on completion of sale of goods, rendering of services and use of the Company's resources by third parties. Sales are recorded net of trade discount, sales return, rebates, sales taxes and GST but including excise duties and export incentives.

Dividend income on investments is accounted for when the right to receive the payment is established.

Interest income is recognised on a prudent basis where there is reasonable certainty as to realization, when it is probable that the economic benefit will flow to the Company and the amount of income can be measured reliably.

## **FOREIGN CURRENCY TRANSACTIONS**

Transactions in Foreign currencies are recorded at exchange rates prevailing on the date of the transaction. Monetary items denominated in foreign currency are restated at the exchange rate prevailing on the balance sheet date. Foreign currency non-monetary items carried in terms of historical cost are reported using the exchange rate at the date of transactions. Exchange differences, if any, arising on settlement of transactions and/or restatements are dealt with in the Profit and Loss Account.

## **BORROWING COST**

Borrowing Cost attributable to the acquisition and construction of qualifying assets are added to the cost up to the date when such assets are ready for their intended use. Other borrowing costs are recognised as expenses in the period in which these are incurred.

## **TAXATION**

Current Tax in respect of taxable income is provided for the year based on applicable tax rates and laws.

Deferred tax is recognized subject to the consideration of prudence in respect of deferred tax assets, on timing differences, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods and is measured using tax rates and laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are reviewed at each Balance Sheet date to re-assess realization.

Current and deferred tax are recognised in profit and loss, except when they relate to items that are recognised in other comprehensive income, in which case, the current and deferred tax are also recognised in other comprehensive income.

## **PROPERTY, PLANT & EQUIPMENT**

For transition to Ind AS, the Company has elected to continue with the carrying value of its property, plant and equipment recognised as at 1<sup>st</sup> April 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

These are stated at cost of acquisition, manufacture and subsequent improvements thereto including taxes and duties (net of credits and draw backs), freight and other incidental expenses related to acquisition and installation.

Depreciation in respect of all tangible assets is provided on straight line method over the useful lives of assets based on the evaluation, as specified in part C of schedule II of Companies Act, 2013.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books and the resultant profit or loss (including capital profit), if any, is reflected in the statement of profit and loss.

The estimated useful life and residual value is reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

## **INVESTMENT PROPERTY**

For transition to Ind AS, the Company has elected to continue with the carrying value of its investment property recognised as at 1<sup>st</sup> April 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Investment properties, in the company's case, are properties taken over and registered by the company to secure its position, where the funds lent by the company, under its financing business,

seemed to be temporarily losing its reasonable certainty of being recovered back from the parties to whom the loans were given to earn business income in the form of interest.

## **INVENTORIES**

Inventories are valued at cost or estimated net realisable value, whichever is lower.

## **CONTINGENT LIABILITIES & CONTINGENT ASSETS**

Contingent liabilities are not recognised but are disclosed in the financial statements; Contingent Assets are neither recognised nor disclosed in the financial statement.

Contingent liabilities and contingent assets are reviewed at each balance sheet date and updated / recognized, as appropriate.

## **FIRST TIME ADOPTION – MANDATORY EXCEPTIONS AND OPTIONAL EXEMPTIONS**

### **OVERALL PRINCIPLE**

The Company has prepared the opening balance sheet as per Ind AS as at 1<sup>st</sup> April 2016 (the transition date) by recognising all the assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from the previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to certain exception and certain optional exemptions availed by the Company detailed as below.

### **DEEMED COST FOR PROPERTY, PLANT AND EQUIPMENT, & INVESTMENT PROPERTY**

The Company has elected to continue with the carrying value of all its properties, plant and equipments, & investment properties recognised as of 1<sup>st</sup> April 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

### **CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY**

In the application of the Company's accounting policies, which are described above, the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

### **STATEMENT OF CHANGES IN EQUITY**

There being no change in either the Equity Share Capital or Other Equity due to first time adoption of Ind AS, the Statement of Changes in Equity is not reported.
