Management Discussion & Analysis Report

1. Industry Structure and Development:

India is viewed as one of the most progressive countries for cosmetic surgical procedures and this trend is expected to continue in the near future. This is mainly due to the fact that cosmetic surgery has evolved beyond the traditional concept of being a 'risky or 'impractical procedure that was demanded by women who were overly conscious about their appearance. Today, people in India understand that cosmetic surgery is a highly specialized and advanced niche of plastic surgery that helps people attain happiness with fewer risks and greater affordability.

In the past, cosmetic surgeries in India were associated with celebrities and people of the affluent class. However, today, these surgeries are increasingly becoming popular and are being undertaken by the middle class. Increasingly, both men and women from the upper middle class group are opting for cosmetic procedures to look attractive in order to get lucrative jobs, best possible marriage partners and primarily get rid of any deformity that they feel impacts their self confidence and self-esteem. Moreover, traditionally, men and women in their late 20s and early 30s were the key clients of cosmetic surgeons. However, a new trend has emerged where teenagers are approaching cosmetic/ aesthetic surgeons to get some cosmetic procedure done.

The changing lifestyle and urbanization, growing awareness of cosmetic surgery procedures, availability of better infrastructure and the rising economic capacity are all driving the cosmetic surgeries market in India.

2. Opportunities & Threats:

The Cosmetics market is especially rich in opportunities since most products still have low penetration rates among the population. For instance, only 23% of households use skin care products. There is vast potential of growth.

As per research findings, cosmetics market, once female dominated, has started earning high revenues from male counterparts as well, by catering to male-specific needs. The revenue generated through male cosmetic market has increased the total revenue of Indian cosmetic industry.

3. Segment wise performance:

Company operates only in one segment viz. Cosmetic & Non Cosmetic Treatments.

4. Outlook:

Cosmetic industry has emerged as one industry holding huge potential for future growth. It is contributing to the economic growth of the country. During the last three to four decades, the industry has gained momentum and shall continue to do so in the coming years. Your Company will continue to concentrate on both product development and broadening of customer base. This will help the Company to increase the stakeholder value, growth in volumes along with managing the margins through competitive pricing. Continued cost efficiency and cost savings coupled with infrastructure development will be the focus for the coming years.

5. Risks & Concerns:

The Company believes that an organization cannot be risk averse but has to persistently foresee and implement ways of mitigating these risks. The Company occasionally faces the risk of an economic downturn but looking at the growth prospects for the Cosmetic Industry, this risk can be controlled, if not mitigated. In order to ensure long term corporate sustainability and success it is essential that the Company accept these risks, place proper mechanisms and find solutions to reduce as well as mitigate these risks. Thus, the Company is well aware of these risks and challenges and has put in place mechanisms to mitigate the same.

6. Internal Control System & their Adequacy:

Your Company has adequate internal control procedures to commensurate with the nature and size of its business. Procedures ensure efficient and cost effective use of company's resources. Company has developed proper procedures to safeguard company's valuable assets against losses, to ensure timely and accurate preparation of accounts and compliance's of various rules and regulations.

8. Employee Relations:

Company has smooth relations with its employees during the year under review.

9. Our Strategy:

Due to weak economic outlook and inflationary pressures, Company has restricted its branch expansion and is taking all precautions towards the same. Company is changing its branch expansion policy from shifting from its earlier policy of opening own company operated branches to opening franchisee based branches & following franchisee based expansion model. Further once the economy starts moving & new expansion strategy is properly implemented, Company is highly upbeat about the business prospects of the Company. Considering the demand in the market the Company provides services like cosmetic and plastic surgeries, weight loss & hair gain treatment, dental surgeries and other dental treatments etc.

"Annexure B" to the Independent Auditor's Report of even date on the Financial Statements of Looks Health Services Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of LOOKS HEALTH SERVICES LIMITED (FORMERLY KNOWN AS MONARCH HEALTH SERVICES LTD.)("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls:

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility:

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting:

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India
