“R&B Denims’ is being promoted by the RawatKhedia and the Borana groups, undoubtedly two of the most influential textile houses of Surat directed by Mr. Anand Vasudev Dalmia and Mr. Mangilal Ambalal Borana respectively. Both of these companies have a long lineage of more than 30 years each, in the textile industry, and are very well known in their areas of expertise. R & B Denims is now fully managed and operated by their heirs – Mr. Amit Anandbhai Dalmia and Mr. Ranjkumar Mangilal Borana . The stats and figures are very much the proof of the enormity of this company that it couldn’t have been achieved this success if they had not cemented to the international standards in terms of quality and service policies that the company adheres by.

We are one of the largest vertically integrated textile manufacturers in the world with over 30 million meters capacity of production. R & B Denims is one of the few denim manufacturers capable to produce high width denim up to 76 inches. Our world-class facilities are backed by a solid infrastructure to make our processes more productive, people more efficient and products consistent in quality.

## Chairman's Message....

Dear Stake holders,

It is my honour and privilege as the Chairman to present the Annual Report for the Financial Year 2018-19 of M/s. R & B Denims Limited. This year, we mark the 9<sup>th</sup> year of the foundation of our Company.

Financial year gone by was a year of steady progress for the company and the company has recorded a Profit after Tax (PAT) of Rs. 388.71 Lakhs. This sudden downturn in the company is because it had received a VAT subsidy worth approx. Rs. 2.30 Crores in the previous financial year which brought in a huge difference in the company profit. If this subsidy isn't considered the company has actually seen increased profits of Rs. 34.75 lakhs in the current financial year.

India being the 2<sup>nd</sup> largest manufacturer of the Denim fabric in the world has performed remarkably in the Indian Textile Industry. Interestingly, textile exports jumped by 9 % to Rs. 108.53 billion for November 2018 as compared to Rs. 99.87 billion for November 2017. Denim is exported in huge quantities from India and has been the fastest growing apparel fabric segments being one of the most versatile fabrics with multiple applications in everyday use.

As per ICRA note, India continues to experience headwinds in the form of intense competitive pressures from nations having a cost advantage over India, which seem to be constraining the overall momentum of the apparel export sector of India. As a result, India's apparel exports in Q3 FY-2019 remained lower than the average quarterly exports during the past five years due to amid downward revision in export incentives under the GST regime. In FY 2019-20 the Indian economy is expected to continue its journey of growth, the key demand driver being its growing population of young and aspiring professionals.

During the year, company has decided to replace the existing 56 CAM weaving looms having 190 cm width with the highly latest technology of 56 Dobby weaving looms having wider width of 230 cm. The resultant output produced would be of more fashion oriented which is very much in demand having premium value. In resultant due to sale of premium value, turnover will increase and in relation will increase the overall profitability of the company.

The Company is conscious about the sustainability and protection of the environment and hence carries all the process/operations in such a manner that doesn't cause any damage to the environment. The company also ensures the fulfillment of compliances of all obligations relating to the environmental aspects.

The company recognizes the importance of safety and welfare among all the level of employees and has taken due care of the safety and welfare of the all the workers and other members. The company has provided workers with factory premises having proper lighting and ventilation facilities and congestion free places and all the required amenities for improving the working environment.

The textile industry is going through multiple changes from different dimensions – changing global and regulatory regime as well as technological disruptions and the industry is also witnessing increasing competition. The company is still diligently striving to provide complete denim solutions by enrooting new product lines and gaining a deep understanding of consumer preferences in the coming years.

We believe that denim industry is a sunrise industry, and the consumption increasing degree will show a smooth growth curve in the coming years.

On behalf of the Board of Directors I would like to thank my colleagues, employees and workers for their dedication and hard work and for the company. The consistency of growth of the company would have not been possible without them. I would also like to extend my gratitude to the stakeholders, bankers, suppliers, our loyal customers for their continued support and trust in us.

Thank you for your support  
Yours Faithfully,

Sd/-

## Indian Economy:

### Ease of Doing Business Index: India improves rankings

India moved up by 23 places in the World Bank’s Ease of Doing Business Index 2018 and got 77th rank. This is attributed to 6 reforms this year- starting a business, getting electricity, construction permits, getting credit, paying taxes and trading across borders. The maximum improvement was of 129 places in construction permits to reach 52nd rank in 2018 as compared to 181st in 2017. The Prime Minister further said, “If we do focused improvement, breaking into the top 50 is not out of reach.” This certainly points towards more such reforms in the near future.

## Indian Textile Industry

The textile industry has always occupied an esteemed place in Indian industrial system. Textile sector accounts for 13% of the total exports of the country, being one of the major contributors. It is one of the largest employers and has a considerable contribution to Indian GDP. India’s overall textile exports during Financial Year 2017-18 was US\$ 39.2 billion and in the Financial year 2018-19 is US\$ 31.65 billion which is expected to increase to US\$ 82.00 billion by 2021. The sector is one of the largest sources of job creation in the country, employing about 45 mn people directly. Between April-December 2018, Ready-made garments (RMG) exports from India stood at \$ 11,350.44 mn

The Indian government has also come up with a number of initiatives and export promotion policies for the textiles sector. It has also allowed 100 % FDI in the Indian textiles sector under the automatic route.

Due to a change in buying habits, consumers are shifting from need-based clothing to aspiration-based clothing. Contrary to previous years, where the Indian consumers purchased fashion items as and when required, buying clothes has become more than a basic need; it is now a reflection of aspiration, personality, and a status symbol. Though basic textiles continue to represent a part of the consumer’s basket, the demand for aspirational clothing has increased significantly in recent years. Given the timely policy support and intervention to boost exports, the industry is hoping to achieve the target of \$12.65 bn set for exports of cotton textiles during FY 2018-19.

With all this positive steps and recent trends, the future of Indian textile and clothing industry looks very positive.

## **OUTLOOK**

### **1. INDIAN DENIM MARKET**

In India Denim fabric manufacturing is considered a sunrise industry also it is one of the fastest growing segments as its demand has been growing at a phenomenal pace in the recent years. Denim is the one most preferred outfit to work, at least in the non-government sectors, in India. The consumption of denim in quantitative terms shows an increasing trend over the last few years. The demand for the Denim products is major in the Young generation as they are using the denims products generously. Also there exists a remarkable difference of the consumption between the men's wear and women's wear. The women's wear segment of denim trousers goes to lower age groups and the higher age groups very quickly discard the denim use. This may be because of Indian tradition and comforts of other wears while the women are indoors.

The acceptance of smart casuals in corporate has boosted growth of western wear among working professionals. Formal wear is not restricted only to shirts and trousers but has a wide range of other options such as smart jackets, brightly coloured or patterned shirts complemented with loafers, etc.

Initially, the denim brands used to focus primarily on men, but with the change in the demand and preferences of women, they started catering to women consumers as well. Stretch denims have seen a huge demand among women

### **2. FUTURE PROSPECTS**

The blue denim has remained a wardrobe essential for decades. Due to its increasing popularity in India, denim wear is now also witnessing huge demand among masses. There are certain key attributes which are making the future of denim wear industry promising which are as follows:

**Variety:** Usage of denims has not been limited to clothing and accessories but it has expanded its horizons in the fields of shorts, bags, shoes, jackets, shirts etc.

**Purpose:** Denim serves almost all purposes and is available in many ranges of colours. It can be used as a formal wear as well as casual wear. This versatility has made economic sense to consumers to buy jeans compared to other bottoms.

**Convenience:** Comfort and durability are one of the striking features of denim wears.

**Changing trends/fashion:** Today's generation is fashion conscious that tilts towards changing fashion and are adopting fashion that is easily available and comfortable in their daily life thereby increasing the demand for the product exponentially.

**Prices:** The price of denim wear depends on a number of factors like the quality of material, texture, comfort, cut, and wash. From extremely cheap jeans for everyday use to expensive luxury denim, there are denim products available to suit everyone's budget and needs.

**Organised Sector:** The expansion of organised retail sector has further added to the momentum of denim industry. India is a preferred supplier of denim fabrics to almost all global brands.

**Target Market:** Earlier, denim used to be the choice of teenagers and people in their 20's and 30's. However, times have changed and denim has become the preferred choice of everyone from kids to the elderly.

**Innovation:** Innovation is the need of the hour and the denim market is constantly making efforts to redefine and reinvent it with new designs, washes, cuts, and embellishments which keep the masses interested and keeps the demand high.

### 3. INDUSTRY OUTLOOK

Though the Denim Industry is one of the most promising industries in India it faces its own set of issues and challenges. There is a lot of scope of improvement in right processing and value addition in denim through fashion-led processes and finishes. Establishment of high quality processing and washing units could help to improve the quality of finishes and colours, this attracting more consumers to try denim.

Some of the key driving factors for the denim market in India are:

- An aspiration youth (15 to 29 year olds) with higher spending power than previous generations, which make 26% of the consuming population
- A wide range of consumer segment that consider denim as an apparel of choice owing to its comfort and style
- Favoured preference for denim amongst youth owing to its versatile association
- Increasing usage of denim products by women and youth in smaller cities and rural India.

The denim market in India has been evolving fast with introduction of more styles, colours and some distinct trends in the product offering. Some of the key trends in denim market are:

- The demand for stretch denim is growing at a faster rate in India market due to its comfort and fit characteristics
- The colour of denim jeans is no longer limited to traditional blue colours. Indian youth has started accepting denim in different colours including green, red, yellow etc.
- The use of denim fabric is not only limited to jeans but is now used in manufacturing of Jackets, shirts, trousers, leggings, handbags, belts etc.

#### SWOT ANALYSIS OF DENIM INDUSTRY:

#### 1. **Strengths**

- Adequate availability of raw material
- Abundant availability of excellent quality cotton suitable for denim.
- Increasing demand in domestic as well as international market
- Proper infrastructure
- Adequate labor available
- Loyalty of customers

## 2. Weaknesses

- Unavailability of skilled labour.
- Cost of utility & natural gas increases
- High tariff barriers and export duties.

## 3. Opportunities

- Apart from manufacturing jeans the fabric is used in manufacturing of other products like shirts, trousers, handbags etc.
- Introduction of sustainable development practices.

## 4. Threats

- Entry of multinational companies in domestic markets.
- Rapid shifting fashion and fabric demands.
- Increase in cost of labour
- Establishment of E-commerce allows more brands to enter the market.
- To make balance between price and quality
- Global competitors

## INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has made adequate investment for an effective internal control and risk-mitigation system, and they are constantly assessed and strengthened with new standard operating procedures. The Audit committee along with the CFO formulates a detailed audit plan for the internal auditor and actively reviews the adequacy and effectiveness of the plan and suggests improvements to strengthen the same. The main thrust of internal audit is to test and review controls, appraisal of risks and business processes, besides benchmarking controls with best practices in the industry. The Internal Auditors attend the Meetings of the Audit Committee at regular basis and submit their recommendations to the Audit Committee.

The Audit Committee, Statutory Auditors and the Business Heads are periodically apprised of the internal audit findings and corrective actions taken. Significant audit observations and corrective actions taken by the management are presented to the Audit Committee. To maintain its objectivity and independence, the Internal Audit function reports to the Chairman of the Audit Committee.

## KEY RISKS AND CONCERNS

The list of the potential risks the industry is exposed to domestically/internationally is given below:

- **Business Operational Risk:** The business operational risk is associated with economic and market conditions, cut throat competitions at local as well as at international level, introduction of new players in textile markets, labour turnover, power, logistics, demand & supply risks, latest technologies, techniques required to upgrade plants,

boiler house, machines, equipment, Un-interrupted availability of raw material at competitive prices so as to avoid production loss, maintenance of quality and to harmonize production for completing the orders in time as well. Fluctuations in yarn prices in international market, hence impact to pricing/costing of particular product(s) and its blend(s). New designs, innovative textile products, developing new customers residing in different countries carrying lots of choice, ideas may also constitute operational risk for the Company.

- **Geographic and Environmental Risk:** This is a risk to an investment in a specific disturbed geographic area. The disturbance may be at local level or may be at national/international level. The safety of environment is also important because of its ecological, economic or social significance to an ecosystem. If environment get impact/suffer more due to highly polluting nature or due to violation of any environmental law/norms by the industry/business then it may get adverse remarks from the Regulator/Statutory Authority or may have to face penal provisions as well as implications. An overdependence on a single geography could impact business growth going forward.
- **Raw material risk:** Non-availability of adequate cotton and volatility in the prices of cotton could impede business profits and prospects.
- **Quality risk:** Inability to match the stringent quality standards of leading retails brands consistently could impact product off take.
- **Working capital risk:** Increased business scale would necessitate increased working capital requirement.
- **Foreign Exchange risk:** The Company while doing foreign transactions deals with the currencies of other countries and therefore any fluctuations in foreign currency may impact margins of Company. The depreciation in exchange rate increases the risk of foreign banks, which leads to large foreign currency exposures in the emerging markets. The adverse exchange rate movement increases the repayment obligations of the banks' borrowers in terms of domestic currency.
- **Financial Risk:** Financial risk is an umbrella term for multiple types of risk associated with financing, including financial transactions that include company loans in risk of default and inflation risk too. It may lead to loss of liquidity, falling assets value etc. . Interest rate fluctuations due to change in Government policies and Banks/financial Institutions Policies put a significant effect on cash inflows and outflows of the Company. The market prices of financial derivatives, forward or future also keeps changing.
- **Liquidity Risk:** Liquidity Risk reflects the possibility/position that a party may have insufficient funds to settle an obligation for full value when due, but will have funds to cover settlement obligations on some unspecified date thereafter. In non-bankruptcy situations, the allowable methods to cover short positions are generally driven by local market conventions. As a result, liquidity could be adversely affected by prohibitions on transactions such as Repos, Reverse Repos, Securities Lending and other allied components.

## **FINANCIAL PERFORMANCE AND OPERATIONAL PERFORMANCE**

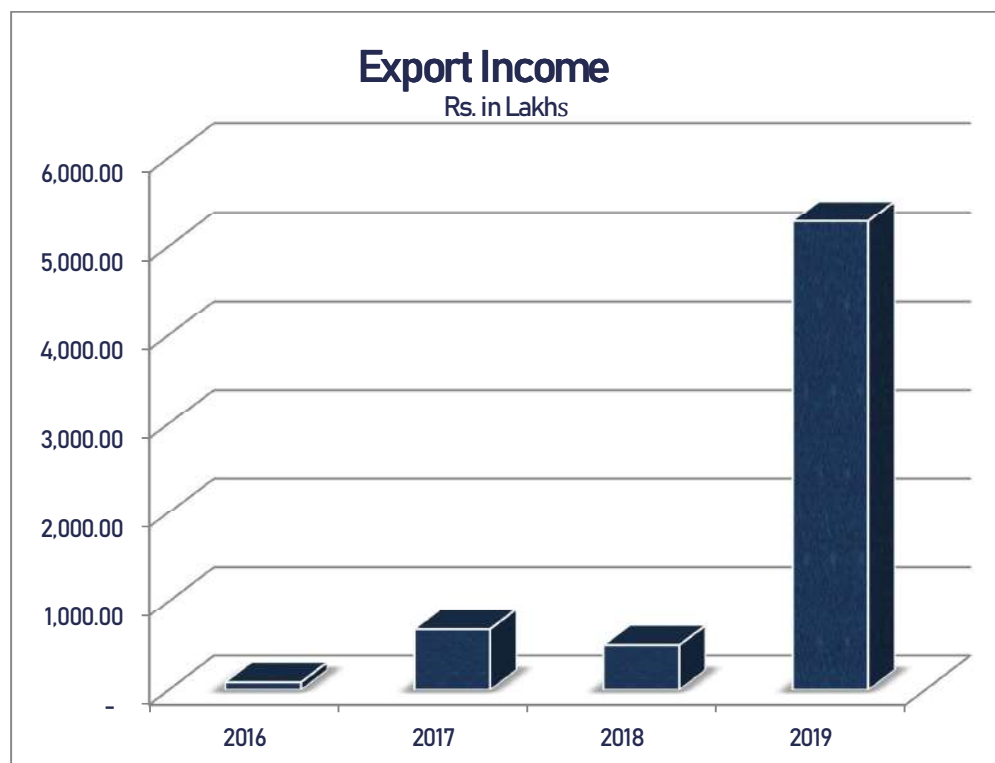

The company has reported total revenue of Rs. 24,937.15 (in Lakhs) as compared to previous year Rs. 22,051.19 (in Lakhs) and PBT stood at Rs. 506.30 (in Lakhs) as compared to previous year Rs. 702.21 (in Lakhs). The Increase in sales was led by volume of growth in domestic and export market.

## **SALES AND OPERATIONAL INCOME FOR LAST FOUR FINANCIAL YEARS**

# CORPORATE GOVERNANCE REPORT

(As stipulated under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015)

Corporate Governance refers to a combination of regulations, procedures and voluntary practices that enable Companies to maximize shareholder's value by attracting financial and human capital and efficient performance. The Company believes that good corporate governance contemplates that corporate actions balance the interest of all shareholders and satisfy the tests of accountability and transparency.

## 1. COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

Corporate governance at R & B Denims Limited is a value-based framework to manage our Company affairs in a fair and transparent manner. As a responsible corporation, we use this framework to maintain accountability in all our affairs and employ democratic and open processes. We have evolved guidelines and best practices to ensure timely and accurate disclosure of information regarding our financials, performance, leadership and governance of the Company.

Our corporate governance philosophy is based on the following principles:

- Satisfy the spirit of the law and not just the letter of the law. Corporate governance standards should go beyond the law.
- Be transparent and maintain a high degree of disclosure levels. When in doubt, disclose.
- Make a clear distinction between personal conveniences and corporate resources.
- Communicate externally, in a truthful manner, about how the Company is run internally.
- Have a simple and transparent corporate structure driven solely by business needs.
- The Management is the trustee of the shareholders' capital and not the owner.

The Board of Directors ('the Board') is at the core of our corporate governance practice and oversees how the Management serves and protects the long-term interests of all our stakeholders. We believe that an active, well-informed and independent Board is necessary to ensure the highest standards of corporate governance.

REPORT ON THE STANDALONE FINANCIAL STATEMENTS

## Opinion

I have audited the financial statements of R & B Denims Limited (the Company), which comprise the balance sheet as at March 31, 2019, and the Profit and Loss Account (and the cash flow statement) for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion and to the best of my information and according to the explanation given to me, the aforesaid standalone financial statements of the Company give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and the profit and loss, comprehensive income, changes in equity and its cash flows for the year ended on that date.

## Basis for Opinion

I conducted audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). My responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of my report. I am independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to my audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and I have fulfilled my other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion on the standalone financial statements.

## Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibility

My objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, I am also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

I have determined that there are no key audit matters to communicate in our report.

## Report On Other Legal and Regulatory Requirements

1. As required by the Companies(Auditor's Report) Order 2016, ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of Companies Act 2013, I give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, I report that:

- a. I have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- b. In my opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d. In my opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e. On the basis of the written representations received from the directors as on 31st March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to my separate Report in "Annexure B".
- g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in my opinion and to the best of my information and according to the explanations given to me:
  1. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements. Refer note 26 – Contingent liabilities to the standalone Ind AS financial statements.
  2. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

## **Annexure 'B' to the Independent Auditor's Report**

---

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

I have audited the internal financial controls over financial reporting of R & B Denims Limited ("the Company") as of 31 March, 2019 in conjunction with my audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

My responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on my audit. I conducted my audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

My audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. My audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

## **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Opinion**

In my opinion, to the best of my information and according to the explanations given to me, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

## Notes to the financial statements

for the year ended March 31, 2019

*(Rs in Lakhs, except share and per share data, unless otherwise stated)*

### 1) THE COMPANY OVERVIEW:

R & B Denims Ltd. is a Public Limited Listed Company incorporated and domiciled in India. The address of its registered office is R & B Denims Limited, Block No. 467, Palsana-Sachin Highway, Gujarat, India. The Company is engaged in the business of manufacturing and sale of quality Denim Textile products. The company caters both domestic and international markets.

### 2) BASIS OF PREPARATION OF FINANCIAL STATEMENTS:

#### Statement of compliance and basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules as amended from time to time, the provisions of the Companies Act, 2013 ("the Companies Act") as applicable and guidelines issued by the Securities and Exchange Board of India ("SEBI").

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

All amounts included in the financial statements are reported in lakhs of Indian rupees except share and per share data, unless otherwise stated. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentages may not precisely reflect the absolute figures.

#### Basis of measurement

These financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items which have been measured at fair value as required by relevant Ind AS;

- The defined benefit asset (liability) is as the present value of defined benefit obligation less fair value of plan assets and
- Financial instruments classified as fair value through profit or loss.

#### Use of estimates and judgment

The preparation of the financial statements in accordance with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgment in applying accounting policies that have the most significant effect on the amounts recognized in financial statements are included in the following notes:

- Useful lives of Property, plant and equipment [Note M]
- Measurement of defined benefit obligations [Note D]
- Provision for inventories [Note J]
- Measurement and likelihood of occurrence of provisions and contingencies [Note Q]
- Deferred taxes [Note E]

### 3) SIGNIFICANT ACCOUNTING POLICIES

#### (A) Current and non-current classification

The assets and liabilities reported in the balance sheet are classified on a "current/non-current basis".

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

#### **(B) Fair value measurement**

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) prices in active market for identical assets or liabilities.
- Level 2 (if level 1 feed is not available/appropriate) - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 (if level 1 and 2 feed is not available/appropriate) - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amount approximates fair value due to the short maturity of these instruments.

#### **(C) Revenue recognition:**

Effective April 1, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers". The following is a summary of new and/or revised significant accounting policies related to revenue recognition. Refer Note 1 "Significant Accounting Policies", in the Company's 2018 Annual Report for the policies in effect for revenue prior to April 1, 2018. The effect on adoption of Ind AS 115 was insignificant.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price.

The company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the rateable allocation of the discounts/ incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Interest income is accounted on accrual basis.

#### **Trade receivables and Contract Balances**

The company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

The impact on account of applying the erstwhile Ins AS 18 Revenue instead of Ind AS 115 Revenue from contract with customers on the financial results of the Company for the year ended and as at March 31, 2019 is insignificant.

#### (D) Employee Benefits:

##### Defined contribution plans

Contributions to defined contribution schemes such as employees' state insurance, provident fund, labour welfare fund etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. The Company is a member of recognized Provident Fund scheme established under The Provident Fund & Miscellaneous Act, 1952 by the Government of India. The Company is contributing 12% of Salary & Wages of eligible employees under the scheme every month. The amount of contribution is being deposited each and every month. The contribution paid or payable under the scheme is recognized during the period under which the employee renders the related services. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

##### Defined Benefit Plans

In accordance with the Payment of Gratuity Act, 1972, applicable for Indian companies, the Company provides for a lump sum payment to eligible employees, at retirement or termination of employment based on the last drawn salary and years of employment with the Company. The Company's obligation in respect of the gratuity plan, which is a defined benefit plan, is provided for based on actuarial valuation using the projected unit credit method. The Company recognizes actuarial gains and losses in other comprehensive income, net of taxes.

##### Other Employee Benefits

Other employee benefit obligations are measured on an undiscounted basis and are recorded as expense as the related service is provided.

#### (E) Income Taxes:

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

#### (F) Leases:

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee.

#### (G) Foreign Currency:

##### Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian Rupees (INR), which is the company's functional and presentation currency.

##### Foreign currency transactions

- Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.
- Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.
- Effective April 1, 2018 the company has adopted Appendix B to Ind AS 21- Foreign Currency Transactions and Advance Consideration which clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income when an entity has received or paid advance consideration in a foreign currency. The effect on account of adoption of this amendment was insignificant.

#### (H) Cash and cash equivalents:

For the purpose of presentation in the Statement of Cash Flows, Cash and Cash Equivalents includes balance with banks and demand deposits with banks with original maturities of three months or less and other short term highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

#### (I) Earnings per Share:

Basic and Diluted earnings/(loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period and also after the balance sheet date but before the date the financial statements are approved by the board of directors.

#### (J) Inventories:

Inventories consist of raw materials, stores & spares, work-in-progress, stock-in-trade and finished goods. Inventories are valued at lower of cost and net realizable value (NRV) except for raw materials which is valued at cost.

Cost of raw materials and stores & spares includes cost of purchases and other costs incurred in bringing the inventories to their present location and condition.

Cost of work-in-progress and finished goods include direct materials, labour and proportion of manufacturing overheads based on the normal operating capacity, wherever applicable.

Cost of stock-in-trade includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be used are expected to be sold at or above cost, except in case of samples, fans & cut pieces.

#### (K) Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

#### Financial assets:

##### Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

##### Initial recognition and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through Profit and Loss are expensed in the Statement of Profit and Loss.

##### Subsequent measurement

After initial recognition, financial assets are measured at:

- fair value (either through other comprehensive income or through Profit and Loss), or
- amortized cost.

##### Debt instruments

Debt instruments are subsequently measured at amortized cost, fair value through other comprehensive income ('FVOCI') or fair value through Profit and Loss ('FVTPL') till de-recognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

##### Amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognized in the Statement of Profit and Loss when the asset is derecognized or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

##### Fair Value through Other Comprehensive Income (FVOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign

exchange gains and losses which are recognised in the Statement of Profit and Loss. When the financial asset is de-recognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to Statement of Profit and Loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

#### Fair Value through Profit and Loss (FVTPL):

Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognised in Statement of Profit and Loss in the period in which it arises. Interest income from these financial assets is recognised in the Statement of Profit and Loss.

#### Equity instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL.

The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in Other Comprehensive Income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of such investments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

#### Financial liabilities:

##### Initial recognition and measurement

Financial liabilities are initially measured at its fair value plus or minus, in the case of a financial liability not at FVTPL, transaction costs that are directly attributable to the issue/origination of the financial liability.

##### Subsequent measurement

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in statement of profit and loss. Interest expense and foreign exchange gains and losses are recognized in Statement of profit and loss. Any gain or loss on de-recognition is also recognized in statement of Profit and Loss.

##### De-recognition

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

##### Derivative financial instruments

The Company uses derivative financial instruments, such as foreign exchange forward contracts to manage its exposure to interest rate and foreign exchange risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The Company enters into derivative contracts to hedge risks which are not designated in any hedging relationship i.e. hedge accounting is not followed. Such contracts are accounted for at FVTPL.

#### (L) Dividend income:

Dividends are recognized in Statement of Profit and Loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

#### (M) Property, Plant and Equipment (PPE)

Items of Property, plant and equipment acquired or constructed are initially recognized at historical cost net of recoverable taxes, duties, trade discounts and rebates, less accumulated depreciation and impairment loss, if any. The historical cost of Property, plant and equipment comprises of its purchase price, borrowing costs and adjustment arising for exchange rate variations attributable to the assets, including any cost directly attributable to bringing the assets to their working condition for their intended use.

Capital Work-in-Progress represents Property, plant and equipment that are not ready for their intended use as at the reporting date.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The Company identifies and determines cost of each component/part of the plant and equipment separately, if the component/part has a cost which is significant to the total cost of the plant and equipment and has useful lives that is materially different from that of the remaining plant and equipment.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the year in which they are incurred.

Gains and losses arising from de-recognition of PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognized.

#### Depreciation methods, estimated useful lives and residual values

Depreciation is provided on written down value method based on the respective estimate of useful lives.

Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate.

Advances paid towards the acquisition of PPE outstanding at each Balance Sheet date is classified as capital advances under 'Other non-current assets' and cost of assets not put to use before such date are disclosed under 'Capital work-in progress'.

#### (N) Intangible assets

Intangible assets acquired separately are measured at cost of acquisition. Intangible assets acquired in a business combination are measured at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

The amortization of an intangible asset with a finite useful life reflects the manner in which the economic benefit is expected to be generated.

The estimated useful life of amortizable intangibles are reviewed and where appropriate are adjusted, annually. Till date, the Company has not acquired any intangible asset.

#### (O) Government Grants

Government grants are initially recognised as deferred income at fair value if there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant;

- In case of capital grants, they are then recognised in Statement of Profit and Loss on a systematic basis over the useful life of the asset.
- In case of grants that compensate the Company for expenses incurred are recognised in Statement of Profit and Loss on a systematic basis in the periods in which the expenses are recognised.

Export benefits available under prevalent schemes are accrued in the year in which the goods are exported and there is no uncertainty in receiving the same.

#### (P) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments and makes strategic decisions. Refer Note 28 for segment information presented.

#### (Q) Provisions and Contingent Liabilities

A provision is recognised when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimates required to settle the obligation at the balance sheet date.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably.

#### (R) Expenditure

Expenses are recognised on accrual basis.

#### (S) Borrowing Costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalised as part of the cost of that asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use.

Other borrowing costs are recognized as an expense in the period in which they are accrued /incurred.

#### (T) Cash flow statement

Cash flows are reported using the Indirect Method, as set out in Ind AS 7 'Statement of Cash Flow', whereby profit for the year is adjusted for the effects of transaction of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

#### 4) Recent Accounting Developments

##### Ind AS 116 Leases:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The standard permits two possible methods of transition:

- Full retrospective – Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors.
- Modified retrospective – Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application.

Under modified retrospective approach, the lessee records the lease liability as the present value of the remaining lease payments, discounted at the incremental borrowing rate and the right of use asset either as:

- Its carrying amount as if the standard had been applied since the commencement date, but discounted at lessee's incremental borrowing rate at the date of initial application.

##### Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The standard permits two possible methods of transition – i) Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight and ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019.

#### Amendment to Ind AS 12 – Income taxes:

On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019.

#### Amendment to Ind AS 19 – plan amendment, curtailment or settlement:

On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity:

- To use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and
- To recognize in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognized because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019.

(c) Defined benefit plans – Gratuity:

The Company has a defined benefit gratuity plan in India (unfunded). The company's defined benefit gratuity plan is a final salary plan for employees.

Gratuity is paid from company as and when it becomes due and is paid as per company scheme for Gratuity.

The Company's obligation in respect of the gratuity plan is provided for based on actuarial valuation using the projected unit credit method. The Company recognizes actuarial gains and losses immediately in other comprehensive income, net of taxes. Amount recognized in the statement of profit and loss in respect of gratuity cost (defined benefit plan) is as follows:

(Rs. In Lakhs)

Particulars	Year ended	
	March 31, 2019	March 31, 2018
Current service cost	6.82	7.35
Net interest on net defined benefit liability/(asset)	1.01	0.74
<b>Net gratuity cost/(benefit)</b>	<b>7.83</b>	<b>8.09</b>

Gratuity is applicable only to employees drawing a salary in Indian rupees and there are no other foreign defined benefit gratuity plans.

The principal assumptions used for the purpose of actuarial valuation are as follows:

(Rs. In Lakhs)

Particulars	Year ended	
	March 31, 2019	March 31, 2018
Discount rate	8.00%	8.00%
Expected return on plan assets	N.A	N.A
Expected rate of salary increase	5.00%	5.00%

The discount rate is based on the prevailing market yields of Indian government securities for the estimated term of the obligations. The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors. Salary escalation and attrition rate are considered as advised by the company; they appear to be line with the industry practice considering promotion and demand & supply of the employees.

Change in present value of defined benefit obligation is summarized below:

(f) Sensitivity Analysis

(Rs. In Lakhs)

Particulars	As at	
	March 31, 2019	March 31, 2018
Projected Benefit Obligation on Current Assumptions	17.95	12.96
Delta Effect of +1% Change in Rate of Discounting	(2.60)	(1.95)
Delta Effect of -1% Change in Rate of Discounting	3.26	2.45
Delta Effect of +1% Change in Rate of Salary Increase	3.32	2.50
Delta Effect of -1% Change in Rate of Salary Increase	(2.68)	(2.01)
Delta Effect of +1% Change in Rate of Employee Turnover	0.46	0.30
Delta Effect of -1% Change in Rate of Employee Turnover	(0.67)	(0.48)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

**Risks associated with defined benefit plan**

Gratuity is a defined benefit plan and company is exposed to the Following Risks:

Salary Risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Interest rate risk

A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision.

Asset Liability Matching Risk

The plan faces the ALM risk as to the matching cash flow. Company has to manage pay- out based on pay as you go basis from own funds.

Mortality risk

Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

*The way to vote electronically on NSDL e-Voting system consists of "Two Steps" which are mentioned below:*

**Step 1 : Log-in to NSDL e-Voting system at <https://www.evoting.nsdl.com/>**

**Step 2 : Cast your vote electronically on NSDL e-Voting system.**

**Details on Step 1 are mentioned below:**

1. Visit the e-Voting website of NSDL. Open web browser by typing the following URL: <https://www.evoting.nsdl.com/> either on a Personal Computer or on a mobile.
2. Once the home page of e-Voting system is launched, click on the icon "Login" which is available under 'Shareholders' section.
3. A new screen will open. You will have to enter your User ID, your Password and a Verification Code as shown on the screen.

*Alternatively, if you are registered for NSDL eservices i.e. IDEAS, you can log-in at <https://eservices.nsdl.com/> with your existing IDEAS login. Once you log-in to NSDL eservices after using your log-in credentials, click on e-Voting and you can proceed to Step 2 i.e. Cast your vote electronically.*

4. Your User ID details are given below :

Manner of holding shares i.e. Demat (NSDL or CDSL) or Physical	Your User ID is:
a) For Members who hold shares in demat account with NSDL	8 Character DP ID followed by 8 Digit Client ID  For example if your DP ID is IN300*** and Client ID is 12***** then your user ID is IN300***12*****.
b) For Members who hold shares in demat account with CDSL	16 Digit Beneficiary ID  For example if your Beneficiary ID is 12***** then your user ID is 12*****.

5. Your password details are given below:

- a) If you are already registered for e-Voting, then you can use your existing password to login and cast your vote.
- b) If you are using NSDL e-Voting system for the first time, you will need to retrieve the 'initial password' which was communicated to you. Once you retrieve your 'initial password', you need to enter the 'initial password' and the system will force you to change your password.
- c) How to retrieve your 'initial password'?
  - (i) If your email ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your email ID. Trace the email sent to you from NSDL

from your mailbox. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your 'User ID' and your 'initial password'

- (ii) If your email ID is not registered, your 'initial password' is communicated to you on your postal address
6. If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:
  - a) Click on "**Forgot User Details/Password?**" (If you are holding shares in your demat account with NSDL or CDSL) option available on [www.evoting.nsdl.com](http://www.evoting.nsdl.com).
  - b) **Physical User Reset Password?** (If you are holding shares in physical mode) option available on [www.evoting.nsdl.com](http://www.evoting.nsdl.com).
  - c) If you are still unable to get the password by aforesaid two options, you can send a request at [evoting@nsdl.co.in](mailto:evoting@nsdl.co.in) mentioning your demat account number/folio number, your PAN, your name and your registered address.
7. After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box
8. Now, you will have to click on "Login" button
9. After you click on the "Login" button, Home page of e-Voting will open.

**Details on Step 2 are given below.**

#### **How to cast your vote electronically on NSDL e-Voting system?**

1. After successful login at Step 1, you will be able to see the Home page of e-Voting. Click on e-Voting. Then, click on Active Voting Cycles.
2. After click on Active Voting Cycles, you will be able to see all the companies "EVEN" in which you are holding shares and whose voting cycle is in active status.
3. Select "EVEN" of company for which you wish to cast your vote.
4. Now you are ready for e-Voting as the Voting page opens.
5. Cast your vote by selecting appropriate options i.e. assent or dissent, verify/modify the number of shares for which you wish to cast your vote and click on "Submit" and also "Confirm" when prompted.
6. Upon confirmation, the message "Vote cast successfully" will be displayed.
7. You can also take the printout of the votes cast by you by clicking on the print option on the confirmation page.
8. Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

#### **General Guidelines for shareholders**

1. Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) are required to send scanned copy (PDF/JPG Format) of the relevant Board Resolution/ Authority letter etc. with attested specimen signature of the duly authorized signatory(ies) who are authorized to vote, to the Scrutinizer by e-mail to [jainam.shah9091@gmail.com](mailto:jainam.shah9091@gmail.com) with a copy marked to [evoting@nsdl.co.in](mailto:evoting@nsdl.co.in).
2. It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential. Login to the e-voting website will be disabled upon five unsuccessful attempts to key in the correct password. In such an event, you will need to go through the "**Forgot User Details/Password?**" or "**Physical User Reset Password?**" option available on [www.evoting.nsdl.com](http://www.evoting.nsdl.com) to reset the password.
