m. Dematerialization of Equity Shares & Liquidity

The Company's Equity Shares are in compulsory Rolling (Demat) Segment as the Company has established connectivity with both NSDL & CDSL by signing the necessary agreements.

Procedures for dematerialization / rematerialization of Equity Shares:-

Shareholders seeking demat / remat of their shares need to approach their Depository Participants (DP) with whom they maintain a demat account. The DP will generate an electronic request and will send the physical share certificates to Registrar and Share Transfer Agents of the Company. Upon receipt of the request and share certificates, the Registrar will verify the same. Upon verification, the Registrar will request NSDL and/or CDSL to confirm the demat request. The demat account of the respective share holder will be credited with equivalent number of shares. In case of rejection of the request, the same shall be communicated to the shareholder.

In case of remat, upon receipt of the request from the shareholder, the DP generates a request and verification of the same is done by the Registrar. The Registrar then requests NSDL and/or CDSL to confirm the same. Approval of the Company is being sought and equivalent numbers of shares are issued in physical form to the shareholder. The share certificates are dispatched within 21 days from the date of issue of Shares.

**n. Nomination**

Individual Shareholders holding shares singly or jointly in physical form can nominate a person in whose name the shares shall be transferable in case of death of the registered shareholder(s). Nomination facility in respect of shares held in electronic form is also available with the depository participants as per the bye-laws and business rules applicable to NSDL and CDSL. Nomination form SH-13 ([Pursuant to section 72 of the Companies Act, 2013 and rule 19(1) of the Companies (Share Capital and Debentures) Rules 2014] can be obtained from the Company's Registrar and Share Transfer Agent. It is also available on Public domain.

o. For the Attention of Shareholders holding shares in electronic form

Shareholders holding shares in electronic mode should address all their correspondence to their respective Depository Participants (DPs).

p. Electronic Clearing Service

The Securities and Exchange Board of India (SEBI) has made it mandatory for all Companies to use the bank account details furnished by the Depositories for depositing dividends. Dividend will be credited to the Members' bank account through NECS wherever complete core banking details are available with the Company. In case where the core banking details are not available, dividend warrants will be issued to the Members with bank details printed thereon as available in the Company's records. This ensures that the dividend warrants, even if lost or stolen, cannot be used for any purpose other than for depositing the money in the accounts specified on the dividend warrants and ensures safety for the investors. The Company complies with the SEBI requirement.

MANAGEMENT DISCUSSIONS & ANALYSIS

MACRO ECONOMIC ENVIRONMENT

The Central Statistical Organisation (CSO) has estimated full year growth for FY2014 at 4.9%. Financial year 2013-14 was a difficult one for India's economy. Growth during 2012-13 (FY2013) was 4.5%.

The Indian economy has had to overcome varied challenges in its resolve to sustain its economic success. The major challenges included: unsupportive external environment, domestic structural constraints, growth slowdown and inflationary pressures. The slowdown manifested in the decline in the growth of Gross Domestic Product (at factor cost at constant 2004-05 prices) from 8.9 per cent in 2010-11 to 6.7 per cent in 2011-12 and 4.5 per cent in 2012-13. With the economy projected to have registered a growth rate of 4.9 per cent in 2013-14, the declining trend in growth seems to have reversed. The growth slowdown in India is broadly in sync with trends in similar emerging economies. The sharp downturn in growth owes to the interface of domestic factors with the global economic environment of uncertainties and slow growth in many advanced economies.

The policy response of the Government to the present growth slowdown has been in the form of structural reforms aimed at reducing entry-barriers and boosting competition and productivity in various sectors; fiscal consolidation and reforms in administered prices; further strengthening of financial/banking sectors; introduction of instruments to encourage financial savings of households; measures to restart the investment cycle through support to infrastructure financing and encouragement to micro, small and medium enterprises (MSMEs); steps to revive growth in manufacturing and reforms in energy pricing. These policies have gone hand-in-hand with macroeconomic stabilization that has had to balance the concerns of inflation and growth recovery, while managing a volatile external situation characterized by a sharp depreciation of the Rupee witnessed till the second quarter (Q2) of 2013-14.

The Financial Services industry went through the tough time due to higher leverage Balance sheets of the Companies and problem of Non Performing Assets for the banks. It was difficult for companies to raise the money either by Debt or Equity. Many Industries as a whole, are facing serious problems of financial supports and policy paralysis by the previous Government.

The current financial year has started with more positive for the overall economy as whole due to stable government as centre and dovish stand by RBI which seems Rate of Interest are going to south in the future that would help the Companies to raise themoney and also monetize the assets.

The private equity deals are on rise and many ventures capital are existing in the investments. It looks like there would huge opportunity for investments in Startups and MSME in the country and young generation are more linked by entrepreneurship and supported various governments schemes for the same.

Economic challenges inherited from FY2013 continued to exert pressure in FY2014. However, some macroeconomic stability was seen during end-FY2014. Expectations over the elections also brought a shift in sentiments. However, despite the climate of hope and optimism, significant actionables remain for the New Government in order to realize higher and sustained economic growth.

REVIEW OF OPERATIONS

Economic activity in India continued to be moderate during the Financial Year 2013-14. Global economic conditions also remained weak with slowdown in growth in developed and emerging economies. The Company being into financial sectors is continued to reel under pressure and follows the overall risk management strategy by insuring its assets and following a conservative financial profile by following prudent business practices.

The Company is in a business of providing Financial Advisory and Consultancy to various Companies. The business environment was not conducive as Corporate were not willing to spend and Mantra was Cash is King due to sluggish economic conditions.

The Operating Income of the Company amounted to Rs. 1424.30 Lacs with a Profit Before Tax amounting to Rs. 58.32 Lakhs and Profit After Tax at Rs. 40.10 Lakhs.

The Company need sufficient financial liquidity and resources to be able to meet demands and opportunities from our development plans as they arise over time. The investment strategies are mostly long-term, and are based on an analysis of investment fundamentals and range from very complex financial instruments, to more basic schemes.

BUSINESS SEGMENT

The company provides Financial Advisory and Consultancy Services and deals with Treasury operations by providing funding solutions to the clients both in the form of Debt & Equity and investment activities.

OPPORTUNITIES

The Opportunity in this segment is vast and big and the sector after opening up still is nascent stage as many Small and Medium Enterprise have not accessed to capital and shortage of skill manpower. The Financial Advisory and consultancy business would see tremendous growth once the Banks and Government supports the industry.

Despite the recent headwinds India has faced, its fundamentals remain solid. The economy is slowly regaining momentum, with both domestic and external conditions starting to improve. Favorable demographics and recent government reforms are expected to accelerate expansion over the medium term, making India the world's fifth-fastest growing economy by 2015. Recent reforms in support of growth include the raised FDI ceilings for the retail, airline, telecoms, financial and defense sectors. To support future growth, the Government should focus on infrastructure investment and increased efficiency in delivery mechanisms. The monetary policy might remain tight in the near future, triggered by the US Federal Reserve's remarks in May about potentially scaling back its quantitative easing program. Consequently, to support the rupee, the Central Bank has announced a window in which foreign currency non-resident US dollar fund swaps will be allowed, enabling banks to convert US dollar deposits by Indians abroad. India saw tepid GDP growth in 2012, as it grappled with a challenging investment climate. Recently, the economy has been hampered by high fiscal deficit and low investment growth. The Government aims to bring down the fiscal deficit from 4.9% in 2012-13, to 3% by 2016-17.

The improvements in the sentiments of the economy would aid the growth of equity markets which would help entrepreneurs to raise capital easily also accessible to the debt from banks once interest rate stabilizes and falls thereafter.

The Company would be looking to partners and invest in sunrise sectors with budding entrepreneurs of the country in field of Technology, Agriculture Healthcare, Education and Energy.

THREATS & CONCERNS

The Geo-Political crisis globally would be biggest threat to the company and stricter laws from regulators would become a major concern for the company going forward.

The Banks and Financial institutions realing under pressure of Non- performing loans would not like to lend the money to small and medium enterprise.

The valuations of many startups in the country is at sky high prices which means risk would be high compare to returns.

RISK MANAGEMENT

The Company has aligned its policy on risk assessment in line with global approach and risk assessment reports are reviewed on regular intervals. The Company has adopted a focused approach towards risk management.

The Company's business critical software is operated on a server with regular maintenance and back-up of data and is connected to computer server operated by the Company. The system's parallel architecture overcomes failures and breakdowns. Reliable and permanently updated tools guard against virus attacks. Updated tools are regularly loaded to ensure a virus free environment.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

The Company has implemented a comprehensive system of internal controls and risk management systems for achieving operational efficiency, optimal utilisation of resources, credible financial reporting and compliance with local laws. These controls are regularly reviewed by both internal and external agencies for its efficiency and effectiveness. Management information and reporting system for key operational activities form part of overall control mechanism.

The Company has retained the services of independent firms of professionals to function as internal auditors and provide reports on various activities covering observations on adequacy of internal controls and their recommendations. Findings of internal audit reports and effectiveness of internal control measures are reviewed by top management and audit committee of the Board. During the year, internal audit team of Company performed audits of major operational areas of the Company and carried out elaborate checks and verification and shared their findings with top management for remediation of minor gaps wherever required.

HUMAN RESOURCES

The Company recognizes that its success is deeply embedded in the success of its human capital. During 2013-2014, the Company continued to strengthen its HR processes in line with its objective of creating an inspired workforce. The employee engagement initiatives included placing greater emphasis on learning and development, launching leadership development programme, introducing internal communication, providing opportunities to staff to seek inspirational roles through internal job postings, streamlining the Performance Management System, making the compensation structure more competitive and streamlining the performance-link rewards and incentives.

The Company believes that learning is an ongoing process. Towards this end, the Company has built a training infrastructure which seeks to upgrade skill levels across grades and functions through a combination of in-house and external programme.

CORPORATE SUSTAINABILITY AND SOCIAL RESPONSIBILITY

The Company constantly strives to meet and exceed expectations in terms of the quality of its business and services. The Company commits itself to ethical and sustainable operation and development of all business activities according to responsible care and its own code of conduct. Corporate Social Responsibility is an integral part of the Company's philosophy and participates in activities in the area of education and health.

CAUTIONARY STATEMENT

Certain statements under "Management Discussion & Analysis" describing the Company's objectives, projections, estimates, expectations or predictions may be forward looking statement within the meaning of applicable securities laws and regulations. Although the expectations are based on reasonable assumptions, the actual results could materially differ from those expressed or implied, since the Company's operations are influenced by many external and internal factors beyond the control of the Company. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

COMPLIANCE

The Compliance function of the Company is responsible for independently ensuring that operating and business units comply with regulatory and internal guidelines. The Compliance Department of the Company is continued to play a pivotal role in ensuring implementation of compliance functions in accordance with the directives issued by regulators, the Company's Board of Directors and the Company's Compliance Policy. The Audit Committee of the Board reviews the performance of the Compliance Department and the status of compliance with regulatory/internal guidelines on a periodic basis.

New Instructions/Guidelines issued by the regulatory authorities were disseminated across the Company to ensure that the business and functional units operate within the boundaries set by regulators and that compliance risks are suitably monitored and mitigated in course of their activities and processes. New products and process launched during the year were subjected to scrutiny from the Compliance Standpoint and proposals of financial services were screened from risk control prospective.

The Company has complied with all requirements of regulatory authorities. No penalties/strictures were imposed on the Company by stock exchanges or SEBI or any statutory authority on any matter related to capital market during the last three years.

Inventories are measured at lower of the cost and net realizable value. Cost of inventories comprises all costs of purchase (net of input credit) and other costs incurred in bringing the inventories to their present location and condition. Costs of consumable and trading products are determined by using the First-In First-Out Method (FIFO).

xi) Accounting for taxes on Income :

- i) Income tax comprises the current tax and net change in deferred tax assets, which are made in accordance with the provisions as per the Income Tax Act, 1961.
- ii) Deferred Tax resulting from timing differences between accounting income and taxable income for the period is accounted for using the tax rates and laws that have been enacted or substantially enacted as at the balance sheet date. The deferred tax asset is recognized and carried forward only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax asset can be realized.

xii) Leased Assets :

Assets acquired on leases where a significant portion of the risks and rewards of the ownership are retained by the lessor, are classified as Operating Leases. The rental and all other expenses of leased assets are treated as revenue expenditure.

xiii) Provisions and Contingent Liabilities :

The Company recognizes a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

xiv) Impairment of Assets :

The Company assesses at each balance sheet date whether there is any indication that an assets may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or recoverable amount of the cash generating unit to which the assets belongs is less than the carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as impairment loss and is recognized in the profit and loss account. If at the balance date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the assets is reflected at the recoverable amount.

xv) Cash and cash equivalents :

The Company considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from the date of purchase, to be cash equivalents.

2. Other Notes and Additional Information forming part of Financial Statements
