## MANAGEMENT DISCUSSION & ANALYSIS REPORT

### **INDUSTRY STRUCTURE AND DEVELOPMENT**

In 2020 worldsteel forecasts that steel demand will contract by 6.4%, dropping to 1,654 Mt due to the COVID-19 crisis. In 2021 steel demand is expected to recover to 1,717Mt, an increase of 3.8% over 2020. This year's reduction in global steel demand will be mitigated by an expected faster recovery in China than in the rest of the world. The forecast assumes that most countries' lockdown measures continue to be eased during June and July, with social distancing controls remaining in place, and that the major steelmaking economies do not suffer from substantial secondary waves of the pandemic.

### **World Steel Scenario In 2019**

Global Crude Steel production increased by 3.4% to reach 1,869.9 million tonnes (Mt) for the year 2019. Crude steel production contracted in all regions in 2019 except in Asia and the Middle East. Asia accounted for 1,341.6 Mt of crude steel in 2019, an increase of 5.7% compared to 2018. China's share of global crude steel production increased from 50.9% in 2018 to 53.3% in 2019. In 2017, China increased its share of Global Crude Steel Production to 51.33% compared to 50.34% in 2018. India, which is currently the world's third largest steel producing nation in 2017, India's crude steel production for 2019 was 111.2 Mt, up by 1.8% on 2018, increased its annual Crude Steel Output by 4.93% and has reached to Second Largest steel Producing nation by producing 106.5 MT in 2018. Japan produced 99.3 Mt in 2019. South Korea produced 71.4 Mt of crude steel in 2019, a decrease of 1.4% compared to 2018. The US produced 87.9 Mt of crude steel, up by 1.5% on 2018. The EU (28) also saw marginal growth in Crude Steel output by 0.18% to reach 162.50 MT in 2018 The EU produced 159.4 Mt of crude steel in 2019, a decrease of 4.9% compared to 2018.

### **INDIAN IRON & STEEL INDUSTRY OVERVIEW**

#### **Industry Profitability Outlook**

India's steel demand is likely to face a sharp decline of 18 per cent in 2020, while global steel demand is expected to contract 6.4 per cent to 1,654 million tonnes (MT) due to the COVID-19 crisis.

India's steel demand is likely to face a sharp decline of 18 per cent in 2020, while global steel demand is expected to contract 6.4 per cent to 1,654 million tonnes (MT) due to the COVID-19 crisis, as per industry body Worldsteel. According to official figures, India consumed over 100 MT steel during 2019. "In 2020, worldsteel forecasts that steel demand will contract by 6.4 per cent, dropping to 1,654 MT due to the COVID-19 crisis," the World Steel Association (worldsteel) said in its latest Short Range Outlook (SRO), a publication on steel demand scenario.

Steel demand in developed economies is expected to decline by 17.1 per cent in 2020. Although the downturn is led by consumer and service sectors, massive dislocations in spending, labour markets, and confidence are fuelling declines in steel-using sectors, the global body said. "While, the steel demand in the developing economies excluding China is expected to fall by 11.6 per cent in 2020. India is likely to face an 18 per cent decline in steel demand in 2020, which will rebound by 15 per cent in 2021," it added.

In India, it said, the government implemented the most stringent nationwide lockdown measures in the world, bringing industrial operations to a standstill. Construction activity was halted entirely at the end of March, and recovery is expected to remain subdued due to the slow migration of labourers. Further, supply chain

disruptions coupled with slower demand recovery will hit the steel-using industries like the automotive and machinery sectors.

On demand recovery, worldsteel said global steel demand is expected to recover by 3.8 per cent to 1,717 MT in 2021. The reduction in global steel demand will be mitigated by an expected faster recovery in China than in the rest of the world. In India, the government's support to rural income, as well as expected consumption related to the upcoming festive season, will help in substantial recovery of demand for consumption-driven manufacturing goods in the second half, it said.

Supported by the government stimulus, recovery in construction will be led by infrastructure investment such as railways. The demand in India will rebound by 15 per cent in 2021.

### **Initiatives taken by the Company**

The Company is in continuous pursuit of creating more value for all its stakeholders. The Company's various functional teams have taken some initiatives to not only strengthen its profitability in near future but also gain medium to long-term competitive advantage over its peers.

### **OPPORTUNITIES AND THREATS**

#### **Opportunities:**

- India was a net exporter of total finished steel. Growth in exports ensures greater access to far out markets.
- Intention of Government to increase funding in infrastructure, affordable housing (Prime Minister Awas Yojana), strengthening of Real Estate norms through 'Real Estate (Regulation and Development) Act, 2016' etc. will generate positive demand for steel.
- In line with Central Government's announcement of various road/rail infrastructure projects, the market for local manufacturers is expected to improve.
- India's steel production is increased to 106.15 MT in year 2018 to 128.6 MT by 2021.
- The Government has taken various steps to boost the sector including the introduction of National Steel Policy 2017 and allowing 100 per cent Foreign Direct Investment (FDI) in the steel sector under the automatic route. Between April 2000 and December 2018, inflow of US\$ 11.18 billion has been witnessed in the metallurgical industries as Foreign Direct Investment (FDI).
- India's per capita consumption of steel grew to 68.9 kgs, during 2017-18. National Steel Policy 2017 aims to increase the per capita steel consumption to 160 kgs by 2030-31.

#### **Threats:**

- Improper supply-demand balance
- Depletion of high quality raw materials required for production of steel.
- Environmental concerns.
- Dumping of excess inventory in other countries by countries producing steel in abundance.
- The glut in the global steel market, which led to an influx of cheap imports into India and a series of steps by the government to protect the domestic steel industry, might not end anytime soon. In what indicates that threats of low-priced imports are here to stay, the world capacity utilization ratio of the alloy climbed upwards in the current year. So only structural reforms that will help cut costs and improve productivity could enable the domestic steelmakers to acquire competitiveness in the domestic and global markets. Rising cost of raw material, fuel, power prices coupled with unforeseen general macro economic factors may affect the industry adversely.

### **SEGMENT WISE OR PRODUCT WISE PERFORMANCE**

The Company has no other segments apart from steel business, details of which have been included in the financial performance. Hence, no separate details on segment wise or product wise performance are being reported.

### **OUTLOOK**

Analysts are upbeat over the expected above normal monsoon and higher GDP growth. The slow pace of public and private sector projects is expected to improve with the Government of India's thrust on infrastructure projects. Further, 'Make in India' initiative has got a boost by a slew of measures aimed at improving the ease of doing business in the Country. Small and medium industry- a major employment generator for the economy- has been liberated to participate in the Nation's development in accordance with its potential. Bold measures by the Government such as improved targeting of subsidy, broadening of the tax base and expected buoyancy in tax revenue are all aimed at achieving the fiscal consolidation which had been an area of concern in the recent past.

Since the Outbreak of Covid-19 the economic impact of the same in India has been largely disruptive. India's growth in the fourth quarter of the fiscal year 2020 went down to 3.1% according to the **Ministry of Statistics**. The **Chief Economic Adviser to the Government of India** said that this drop is mainly due to the coronavirus pandemic effect on the Indian economy. Notably India had also been witnessing a pre-pandemic slowdown, and according to the **World Bank**, the current pandemic has "magnified pre-existing risks to India's economic outlook".

The World Bank and rating agencies had initially revised India's growth for FY2021 with the lowest figures India has seen in three decades since India's **economic liberalization in the 1990s**. However, after the announcement of the economic package in mid-May, India's GDP estimates were downgraded even more to negative figures, signalling a deep recession. (The ratings of over 30 countries have been downgraded during this period.) On 26 May, CRISIL announced that this will perhaps be India's worst recession since independence. **State Bank of India** research estimates a contraction of over 40% in the GDP in Q1. The contraction will not be uniform, rather it will differ according to various parameters such as state and sector. On 1 September 2020, the **Ministry of Statistics** released the GDP figures for Q1 (April to June) FY21, which showed a contraction of 24% as compared to the same period the year before.

According to **Nomura** India Business Resumption Index economic activity fell from 82.9 on 22 March to 44.7 on 26 April. By 13 September 2020 economic activity was nearly back to pre-lockdown. Unemployment rose from 6.7% on 15 March to 26% on 19 April and then back down to pre-lockdown levels by mid-June. During the lockdown, an estimated 14 crore (140 million) people lost employment while salaries were cut for many others. More than 45% of households across the nation have reported an income drop as compared to the previous year. The Indian economy was expected to lose over ₹32,000 crore (US\$4.5 billion) every day during the first 21-days of complete lockdown, which was declared following the coronavirus outbreak. Under complete lockdown, less than a quarter of India's \$2.8 trillion economic movement was functional. Up to 53% of businesses in the country were projected to be significantly affected. **Supply chains** have been put under stress with the lockdown restrictions in place; initially, there was a lack of clarity in streamlining what an "essential" is and what is not. Those in the informal sectors and daily wage groups have been at the most risk. A large number of farmers around the country who grow perishables also faced uncertainty.

Major companies in India such as **Larsen & Toubro**, **Bharat Forge**, **UltraTech Cement**, **Grasim Industries**, **Aditya Birla Group**, **BHEL** and **Tata Motors** have temporarily suspended or significantly reduced operations. Young startups

have been impacted as funding has fallen. Fast-moving consumer goods companies in the country have significantly reduced operations and are focusing on essentials. Stock markets in India posted their worst loses in history on 23 March 2020. However, on 25 March, one day after a complete 21-day lockdown was announced by the Prime Minister, SENSEX and NIFTY posted their biggest gains in 11 years.

On 12 May the Prime Minister announced an overall economic package worth ₹20 lakh crore (US\$280 billion), 10% of India's GDP, with emphasis on India as a self-reliant nation. During the next five days the Finance Minister announced the details of the economic package. Two days later the Cabinet cleared a number of proposals in the economic package including a free food grains package. By 2 July 2020, a number of economic indicators showed signs of rebound and recovery. On 24 July the Finance Secretary of India said the economy is showing signs of recovery at a faster rate than anticipated, while the Economic Affairs Secretary said that he expects a v-shaped recovery for India.

## **Independent Auditor's Report**

To the Members of

**AANCHAL ISPAT LIMITED**

### **Report on the Audit of the Standalone Financial Statements**

We have audited the accompanying standalone financial statement of **AANCHAL ISPAT LIMITED** ("the Company"), which comprises the Balance Sheet as at March 31, 2020, and the Statement of Profit and Loss and the statement of cash flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information.

#### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements, give the information required by the Company Act 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2020; and of the **loss**, its cash flows for the year ended on that date;

#### **Basis for opinion**

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the Standalone financial statement section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statement under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's code of ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone financial statements of the current period. These matters were addressed in the context of our audit of the Standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

## Revenue Recognition

See note 1.(V), note 19 to the standalone financial statements

The key audit matter	How the matter was addressed in our audit
<p>We identified revenue recognition as a key audit matter because the Company and its external stakeholders focus on revenue as a key performance indicator..</p>	<p>Our audit procedures in this area included the following :</p> <ol style="list-style-type: none"> <li>1. We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards.</li> <li>2. We evaluated the design of key controls and operating effectiveness of the relevant key controls with respect to revenue recognition on selected transactions.</li> <li>3. We performed substantive testing by selecting samples of revenue transactions,</li> <li>4. We carried out analytical procedures on revenue recognised during the year to identify unusual variances.</li> <li>5. We tested, on a sample basis, specific revenue transactions recorded before and after the financial year end date to determine whether the revenue had been recognised in the appropriate financial period.</li> </ol>

## Related party transactions

See note 27 to the standalone financial statements

The key audit matter	How the matter was addressed in our audit
<p>We identified the accuracy and completeness of disclosure of related party transactions as set out in respective notes to the standalone Ind AS financial statements as a key audit matter due to:</p> <p>the significance of transactions with related parties during the year ended March 31, 2020.</p> <p>Related party transactions are subject to the compliance requirement under the Companies Act 2013 and SEBI (LODR) 2015..</p>	<p>Our procedures in relation to the disclosure of related party transactions included:</p> <ol style="list-style-type: none"> <li>1. Obtaining an understanding of the Company's policies and procedures in respect of the capturing of related party transactions and how management ensures all transactions and balances with related parties have been disclosed in the standalone Ind AS financial statements.</li> <li>2. Obtaining an understanding of the Company's policies and procedures in respect of evaluating arms-length pricing and approval process by the audit committee and the board of directors.</li> <li>3. Agreeing the amounts disclosed to underlying documentation and reading relevant agreements, evaluation of arms-length, on a sample basis, as part of our evaluation of the disclosure.</li> <li>4. Assessing management evaluation of compliance with the provisions of Section 177 and Section 188 of the companies Act 2013 and SEBI (LODR) 2015.</li> </ol>

## Tax litigations - provisions and contingencies

See note 28 to the standalone financial statements

The key audit matter	How the matter was addressed in our audit
<p>The Company is involved in several ongoing direct and indirect tax litigations</p> <p>A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.</p> <p>We have identified tax litigations, provisions and contingencies as a key audit matter because it requires the management to make judgements and estimates in relation to the exposure arising out of litigations. The key judgement lies in the estimation of provisions where they may differ from the future obligations. The Company operates under several tax laws and some of these have a significant impact on the financial statements of the Company.</p>	<p>We have applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ol style="list-style-type: none"> <li>1. We tested the effectiveness of key controls around the recording and assessment of tax provisions and contingent liabilities.</li> <li>2. We assessed the value of the provisions and contingent liabilities in light of the nature of the exposures, applicable regulations and related correspondences with the authorities.</li> <li>3. We assessed the relevant historical and recent judgments passed by the court authorities.</li> <li>4. Obtained Management’s assessment of the open cases and compared to assess the reasonableness of the provision or contingency.</li> <li>5. Considered the adequacy of the Company’s disclosures made in relation to taxation related provisions and contingencies in the financial statements.</li> </ol>

## Information other than the financial statements and auditors’ report thereon

The Company’s board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board’s Report including Annexures to Board’s Report, Business Responsibility Report but does not include the IND AS financial statements and our auditor’s report thereon.

Our opinion on the IND AS financial statement does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the IND AS financial statement, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Financial Statement**

The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the IND AS financial statement, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibility**

Our objectives are to obtain reasonable assurance about whether the IND AS financial statement as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these IND AS financial statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the IND AS financial statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for

expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the IND AS financial statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the IND AS financial statement, including the disclosures, and whether the IND AS financial statement represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the IND AS financial statement of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of M/s AANCHAL ISPAT LIMITED**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of AANCHAL ISPAT LIMITED (“the Company”) as of March 31, 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India"

## 1) NOTES AND SIGNIFICANT ACCOUNTING POLICIES

### (I) General Corporate Information

M/s AANCHAL ISPAT LIMITED (the company) is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The shares of the company are listed on Bombay Stock Exchange. The company caters to domestic markets only. The company has been incorporated with the object of manufacturing of Mild Steel TMT Re-bars, Structural Re-bars, Round and other Sectional products.

The Company also engages in trading of Mild Steel Billets, Cement and Clinker and TMT and Structural Re-Bars

### (II) Statement of compliance

Standalone financial statements have been prepared in accordance with accounting principles generally accepted in India including Indian Accounting Standard (Ind AS) prescribed under the section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 ( as amended from time to time) and presentation requirement of Division II of Schedule III of the Companies Act 2013, as applicable to standalone financial statement.

### (III) Basis of preparation and presentation

These financial statements of the Company are prepared under the historical cost except for certain financial instruments that are measured at fair value at end of each reporting period. Historical cost is generally based on fair value of the consideration given in exchange for goods and services

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised in to Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability

The Financial Statements is presented in INR and all values are rounded to the nearest crores except when otherwise stated.

#### **(IV) Use of Estimates**

The preparation of separate financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the separate financial statements and the reported amounts of income and expense for the periods presented. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Future results could defer due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/materialise.

#### **(V) REVENUE RECOGNITION**

##### **(i) Sale of goods**

Revenue from the sale of goods is recognised when the goods are delivered and titles have been passed, at which time all the following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

##### **(ii) Dividend and Interest income**

Dividend income is recognised when the company's right to receive dividend is established. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate applicable.

**(VI) Foreign currencies**

Transactions in currencies other than entity's functional currency (foreign currency) are recorded at the rates of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies remaining unsettled at the end of the each reporting period are re-measured at the rates of exchange prevailing at that date.

**(VII) Employee Benefits**

i) Short-term benefits Short term employee benefits are recognised as an expense at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.

ii) Defined contribution retirement benefits Payments to defined contribution retirement benefits are recognised as an expense when employees have rendered services entitling them to the contributions. Defined contribution plans are those plans where the Company pays fixed contributions to funds/schemes. Contributions are paid in return for services rendered by the employees during the year. The contributions are expensed as they are incurred in line with the treatment of wages and salaries. The liability as on the balance sheet is ascertained by an independent actuarial valuation.

iii) Defined benefit retirement benefits The cost of providing defined benefit retirement benefits are determined & recognised as per independent actuarial valuations report carried out at the end of each reporting period. The Company provides gratuity to its employees. All actuarial gains or losses are recognised in the statement of profit and loss in the period in which they occur.

**(VIII) Taxation****i) Current tax**

Current tax is payable based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates in accordance with the provisions of the Income Tax Act, 1961.

**ii) Deferred tax**

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income

available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right to such set off. Deferred tax assets are reviewed at each Balance Sheet date for their reliability.

### **iii) Minimum alternate tax**

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is recognised as an asset in the balance sheet. when there is convincing evidence that the Company will pay normal income tax during the specified period and it is probable that future economic benefit associated with it will flow to the Company.

### **iii) Current and deferred tax for the year**

Current and deferred tax are recognised in profit or loss, except when they are relating to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

### **(IX) Property, Plant and equipment**

a) Buildings and Roads, Plant and Equipment, Furniture and Fixtures and Vehicles held for use in the production or supply of goods or services, or for administrative purposes are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes purchase cost of materials, including import duties and non-refundable taxes, any directly attributable costs of bringing an asset to the location and condition of its intended use and borrowing costs capitalised in accordance with the Company's accounting policy.

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over the useful lives, using the straight-line method. Depreciation of assets commences when the assets are ready for their intended use. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any changes is accounted as change in estimate on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is recognised in the statement of profit and loss.

The Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2016 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

### **(X) Intangible assets**

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment (if any) losses. Amortisation is recognised over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses. Estimated useful lives of the intangible assets are as follows:

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of intangible assets is recognised in the statement of profit and loss.

The Company has elected to continue with the carrying value of all of its intangible assets recognised as of April 1, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

### **(XI) Impairment of assets**

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased such reversal of impairment loss is recognised in the Statement of Profit and Loss.

### **(XII) Inventories**

Raw materials, work-in-progress and finished products are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes

purchase price, non refundable taxes and duties and other directly attributable costs incurred in bringing the goods to the point of sale. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Net realisable value is the price at which the inventories can be realised in the normal course of business after allowing for the cost of conversion from their existing state to a finished condition and for the cost of marketing, selling and distribution.

Stores and spares are valued at cost comprising of purchase price, non refundable taxes and duties and other directly attributable costs after providing for obsolescence and other losses, where considered necessary.

### **(XIII) Provisions, Contingent liabilities and Contingent assets**

#### **(i) Provisions**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses. Provisions are not discounted to their present value are measured at the management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

#### **(ii) Contingent liabilities and assets**

Contingent liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or is a present obligation that arises from past events but is not recognised because either it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or a reliable estimate of the amount of the obligation cannot be made. Contingent liabilities are disclosed and not recognised. In the normal course of business, contingent liabilities may arise from litigation and other claims against the company. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the company is involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

### **(XIV) Foreign exchange gain and losses**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of

such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

#### **(XV) Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, Cash and cash equivalents includes cash on hand and short term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### **(XVI) Trade and other payables**

These amounts represent liabilities for goods and services received by the Company prior to the end of reporting period which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost.

#### **(XVII) Borrowing costs**

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to Profit and Loss account.

#### **(XVIII) Earnings per share**

Basic earnings per share is computed by dividing the profit after tax before other comprehensive income by the weighted average number of equity shares outstanding during the financial year. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year.

#### **(XIX) Impact of Covid-19(Global Pandemic) on Going Concern**

The outbreak of Covid-19 pandemic globally and in India is causing significant disturbances and slowdown of economic activity. To contain the spread of Covid-19 in India, the Ministry of Health Affairs vide order No. 40-3/2020 dated 24 March, 2020 notified the first ever nationwide lockdown. Due to Covid-19 concerns, the Company temporarily suspended its operations from 23rd March, 2020.

Subsequently, considering the permissions granted by the Local Authorities based on the guidelines issued by the Government of India and State Governments from time to time and the demand for the products from our customers; the operations of the Company were resumed.

The Company is closely monitoring the business environment and material changes to future economic conditions.

## **(XX) Financial risk management**

### **i) Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk because funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Company are principally denominated in rupees with a mix of fixed and floating rates of interest. The Company has exposure to interest rate risk, arising principally on changes in MCLR rate and LIBOR rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

### **ii) Credit risk**

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk encompasses both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Company has adopted a policy of only dealing with

Creditworthy counterparties. Customer credit risk is managed centrally by the Company and subject to established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits defined in accordance with the assessment.

### **iii) Commodity Price risk**

The Company's revenue is exposed to the market risk of price fluctuations related to the sale of its products. Market forces generally determine prices for the Product sold by the Company. These prices may be influenced by factors such as demand and supply, production costs (including the costs of raw material inputs)

and global and regional economic conditions and growth. Adverse changes in any of these factors may reduce the revenue that the Company earns from the sale of its products.
