ANNEXURE-VII TO THE BOARD'S REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Cautionary Statement:

The management Discussion and Analysis Report may contain certain statements that might be considered forward looking. These statements are subject to certain risks and uncertainties. Actual results may differ materially from those expressed in the statement as important factors could influence Company's operations such as Government policies, economic development, political factors and such other factors beyond the control of the Company.

Industry Overview:

The Textile industry is a major export earner for the country by export of cotton yarn, garments, fabrics including non-woven fabrics. The textile industry occupies a unique position in the Indian economy being one of the oldest and largest industries in India and is highly fragmented. It is divided in four segments spinning, weaving or knitting, processing and garmenting. It provides one of the most basic needs of people.

The Indian economy including the Textile Industry has been facing unprecedented period of difficulty, due to slowing down of GDP growth rate, rupee depreciation and increasing current account deficit. The uncertainties in the export policy of Government of India related to cotton fibre and cotton yarn have added to the woes of the Textile Industry.

Our Industry Segment:

The primary business of our company is manufacturing of non woven fabric products.

Nonwoven fabric is a fabric-like material made from long fibers, bonded together by chemical, mechanical, heat or solvent treatment. The term is used in the textile manufacturing industry to denote fabrics, such as felt, which are neither woven nor knitted. Nonwoven materials typically lack strength unless densified or reinforced by a backing. In recent years, nonwovens have become an alternative to polyurethane foam.

Nonwoven fabrics are engineered fabrics that may be a have a limited life, single-use fabric or a very durable fabric. Nonwoven fabrics provide specific functions such as absorbency, liquid repellence, resilience, stretch, softness, strength, flame retardancy, washability, cushioning, thermal insulation, acoustic insulation, filtration, use as a bacterial barrier and sterility. These properties are often combined to create fabrics suited for specific jobs, while achieving a good balance between product use-life and cost. They can mimic the appearance, texture and strength of a woven fabric and can be as bulky as the thickest paddings. In combination with other materials they provide a spectrum of products with diverse properties, and are used alone or as components of apparel, home furnishings, health care, engineering, industrial and consumer goods.

A large number of fibers are available n the market, but the Nonwovens market is mainly dominated by three fibers, namely polyolefin's, polyester, and rayon. These three fiber types make up a substantial part of the overall Nonwovens markets for fibers.

Nonwovens find numerous applications ranging from baby diapers to industrial high performance textiles. Some of the important areas where nonwovens are treated as primary alternative for traditional textiles as Geotextiles, materials for building, thermal and sound insulating materials, hygienic and health care textiles and automotive industries. Nonwovens are also used in cover stocks, agriculture, aerospace, home furnishings etc

With the nonwovens successfully moving into more technical end-uses, the fiber requirements have also become more important with regard to the fiber properties. The cooperation between fiber supplier and fabric producers is now seen as important criteria for more advancement to come about in the nonwovens field.

Business

Incepted in the year 1995, the Company is one of a significant player in Non-Woven Products such as Non-Woven Fabrics, and many others.

Product Range

- ◆ Non-Woven Fabrics
- ◆ Non-Woven Felt

Factory Location

The Company has its manufacturing plant located at Delhi Mile Stone 78 K.M, G.T, Road, NH-1, Village Jhattipur, Post Box No. 3 ,Post Office, Samalkha, Panipat-132103(Haryana)

Our Quality

Maintaining high quality standards in every stage of business is the trademark of our company. We do obey quality dimensions from the beginning of collecting raw materials to delivering the products. Exporting premium quality of products is the hallmark of our corporate entity.

For manufacturing the products, our production team normally uses pp, polyester staple fiber as the raw materials. Our export quality inspection team is well equipped with our in-house latest tools and techniques as well. We usually import products like latex chemicals, textile material and stock lots of textiles, etc.

Infrastructure

Our well-arranged infrastructure includes expert manufacturing team and experienced production unit. Here, our engineers use several equipments like raw material processing machines, designing machines, quality checking machines and many useful tools.

We also have high-tech lab, quality control room, site office in order to strengthening our business. We make different design of carpet items at affordable price, so that customers from across the world get benefited by our creativity.

Product wise performance

Product wise performance of the Company has been mentioned in the attached balance sheet of the Company.

Opportunities & Threats

The new age Indian consumer, the organized retail potential, which is creating the huge consumption opportunity, is by far the biggest Opportunity for companies like us. With the aspirational and rich class in India having a better penetration, our product led growth will help the company in both the immediate and long run. Also, with the rural India being revisited by marketers through the modern retail philosophy, the opportunity is huge.

Competition from Indian and global players remain a matter of concern and probable threat; while the company is well prepared to tackle such issues on an ongoing basis.

Risks & Concern

There is stiff competition in the Non-woven fabrics market with new national and international entrants. On a macro level business continues to be impacted by changes in Government Policy and International Markets.

- i. Factors that may affect results of operations
- ii. Fluctuation and increase in raw material prices.

- iii. Non-availability of raw material and other resources
- iv. Supply of Power
- v. New Competitive products
- vi. Government rules and regulations relating to Textiles Industry
- vii. Any slowdown in the economic growth in general in particular

The Company continues to follow a suitable strategy to modify its risk profile by eliminating and significantly reducing key business risks.

Outlook

From the reports available in public domain, it is believed that the global economic recovery is in its way. It is only hoped that the growth momentum gathers, steam soon and fast. Indian textile industry is generally competitive and considering the positive business conditions developing, outlook for cotton textiles appears to be good.

Human resource / Industrial relations

The Company recognizes the importance and contribution of its human resources for its growth and development and is committed to the development of its people.

The Company has cordial relations with employees and staff. There are no industrial relations problems during the year and the Company does not anticipate any material problems on this count in the current year. The management is also committed to help the employees and workers to sharpen their skills and to improve their knowledge base.

Internal Control Systems and Adequacy

The Company has disciplined approach to cost and follows prudential norms in every sphere of its activities. The Profit making is put at the center of decision making. The cost are budgeted, reviewed and monitored. The Company has established internal control systems for ensuring optimum use of resources and safeguarding the assets. The Internal Control Systems and procedure are adequate and commensurate with the size of the Company. These business control procedures ensure efficient use and protection of the resources and compliance with the policies, procedures and status.

“Annexure B” to Auditor’s Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013.

We have audited the internal financial controls over financial reporting of Indo Cotspin Limited (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on financial reporting criteria established by the Company considering the essential components of internal controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.
