MANAGEMENT DISCUSSION AND ANALYSIS (MD&A):

Overall Review

The demand situation in both the Indian Market as well as in the Global Market has been uninspiring. In India, despite impressive GDP growth, consumer sentiments have been quite subdued. The reasons being lackluster overall industrial growth in India and lack of significant fresh investments despite several reforms by the action oriented Government. Given the enlightened and timely initiative by a decisive Government in addressing reforms the industry has been seeking for decades, there will definitely be an improvement in the competitiveness of the industry.

Industry Structure and Development

The global economic conditions remained subdued during the previous year. There was volatile movement of prices in the commodity market. Even in India there were high inflation, higher interest rate and uncertain commodity market as well as agriculture-commodity market. However the new Government at Centre is doing reasonably well to bring back the economy back on path of progress. The fruits of steps taken by the Government will be shown in the coming year. The introduction of GST will transform the market place in India. Doing away with entry permits for sales within the country is a dire need. Forex volatility is something that Industry has to be geared to face, using the tool of hedging most judiciously and conservatively for both export and import.

Opportunities and Threats

For the international business, the market share being yielded by China, the Economic Package by the Government, and pending EU-FTA are potentially powerful building blocks. Introduction of GST from next fiscal may prove to be a boon for Indian market. As regards threat it could be from ill effects of Brexit. Also forex volatility could be a major threat. The delay in introduction of GST may dampen the market spirit.

Risk and Concern

In recent months inflation has shown an upward trend, which could pose a risk, should it not be tamed quickly. The entry permit regime for trade within country should end immediately. The Government should continue its initiative of Ease of Doing Business. During the year your Company under its well planned and defined risk management policy gave attention to all the risk areas. The Board of Directors is apprised of the development in risk management in periodical meetings where the quarterly results are approved.

Internal Control System

Your Company has a planned internal control system through internal checks and reviews it periodically to strengthen it and safeguard Company's assets. Management Information System is given upmost importance.

Financial Performance w.r.t. Operational Performance

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial

statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
