Management Discussion and Analysis

I. INDIAN PAPER INDUSTRY

The paper industry in India has become more promising as the domestic demand is on the rise. Increasing population and literacy rate, improvement in manufacturing sector and lifestyle of individuals are expected to account for the growth in the paper industry of India. The paper industry in India is growing in a rapid speed with demand increment and opportunity creation and attraction to the international players. The forecasted demand of Indian paper is 10 million tons and 33 percent of this demand is for P&W papers. Even though India has covered 15% of population in the world, the paper consumption levels stands at very low which is 3 to 5 percent. The leading global paper manufacturers are gaining nearly 5% on average and it stands at 8% approximately among Asia. However, for Indian market it is 12% or above which sounds very lucrative for Indian paper industry. There should be an impact on the paper industry in India which is significant but unfortunately in India it is less.

The key challenges to be met is market conditions which are poor and technology obsolete, lacking ability in achieving economic scale and lack of skilled labor. Enabling an overall management and the holistic change which can incorporate better standards for the organizational efficiency.

II. OPPORTUNITIES AND THREATS

Indian Paper and Board Industry, in particular is among the top 15 players globally. It has good growth potential given the low current per capita consumption.

We are one of the few kraft paper manufacturers. Main application of the kraft paper is in industrial packaging. It is largely used to manufacture corrugated boxes, bags, sacks, etc. Consumption of kraft paper is closely linked to growth in the packaging industry, industrial production and development in packaging technology and substitution by other materials. Packaging Industry has been growing steadily due to strong growth in the end use segments, substitution of plastic and wood cases with corrugated containers, organized retail, increasing urbanization and changing consumer patterns as also demand from sectors like FMCG Pharmaceuticals Food and Others and the company will be benefited by these trends and developments.

The Indian paper industry faces challenges like low economies of scale, environmental concerns, increasing cost of inputs & utilities and so on, which need to be addressed by the industry. Many mills have upgraded the technology and are expanding capacities through brown field expansion/ new capacity additions and by focusing on cost control measures. The Company has improved significantly the operational efficiencies. Further, the Mill Expansion Programme envisaging setting up of co-generation power plant and installation of new capacity of finished paper and other capital expenditure projects will enable the Company to have an edge in quality and further improve the efficiencies.

III. OUTLOOK

Looking to the current demand-supply gap and growing literacy and population is expected to accelerate the growth of the industry to over 8% in the coming years. Over the past few months, the corporate sector is abuzz with news on expansions, acquisitions and fund-raising by Companies in Paper Industry. The M&A activity is catching up in paper industry as well. India is the fastest growing paper market in the world with growth in the range of 8-10%.

IV. RISKS AND CONCERNS

The Company is deriving 88.47% of its revenue from paper business and 11.53% from steel business. Environmental issues, continuous availability of raw materials & fuels and increasing interest rates are the important issues concerning the paper industry.

The paper industry is one of the highly polluting categories of industries today. The Company is meeting all the norms as prescribed under Environment Protection Act, 1986 and other environmental laws consistently.

In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the effectiveness of such controls. ANNEXURE 2 TO THE INDEPENDENT AUDITORS' REPORT

Referred to in our report of even date to the members of Genus Paper & Boards Limited on the accounts for the year ended 31st March 2016

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Genus Paper & Boards Limited (‘the Company’) as on 31st March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial control over financial reporting included obtaining an understanding of internal financial control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal controls over financial reporting criteria established by the Company considering the components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.
