**CORRIGENDUM**

Dear Shareholders,

This has reference to the Annual Report of the Company for the financial year ended March 31, 2017 sent to you in connection with 4th Annual General Meeting of the Members of the Company scheduled to be held on August 21, 2017. This corrigendum is now being issued on account of the following typographical error which inadvertently occurred in the copy of the Annual Report, in physical or electronic form, circulated to the members or others as well as the copy thereof posted on the website of the Company.

In page no. 81 of the aforesaid Annual Report, under the section "Information Technology", the sentence *"At our Company, we fixed the IT budget at 4% of total revenues, which is higher than the industry."* to be read as follows:

*"At our Company, we fixed the IT budget at 1% of total revenues."*

Also, in page 81 of the aforesaid Annual Report, under the section "Human Resources", the sentence *"The Company's average attrition level stood at 29% in 2016-17."* to be read as follows:

*"The Company's average attrition level stood at 11% in 2016-17."*

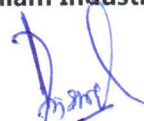

Further, the Company is taking necessary steps for rectifying the errors in the aforesaid Annual Report posted on its website and also in the physical copies available with it. The corrected copy of the Annual Report will also be circulated through e-mail to the members of the Company who have registered their e-mail id with the Company or its Registrar & Share Transfer Agent or with their Depository Participant.

The Annual Report aforesaid should be read corrected along with this corrigendum.

We sincerely regret the inconvenience caused in this matter.

**Disclaimer:** As the composite Scheme of Arrangement between Greenply Industries Limited and Greenlam Industries Limited under Section 100 to 104 and Section 391 to 394 of the Companies Act, 1956, for demerger of the 'Decorative Business' of Greenply Industries Limited to Greenlam Industries Limited, approved by the Hon'ble Gauhati High Court vide its order dated October 31, 2014, became effective on November 17, 2014 (appointed date April 1, 2013), the unaudited figures for the financial year 2013-14 or any prior period are given in the non-statutory section only with the objective to provide the reader with a comparison.

At Greenlam Industries, the spirit of going beyond is manifested in a culture that is anchored around unconventional thinking.

Take a story that best displays this attitude. During the period of demonetisation, when most players focused on loosening their terms of trade channel to tide over the difficult period – we did the opposite! We tightened the credit cycle. The counter-pressure from the trade was enormous. Some questioned that our timing; others anticipated our decision would be reversed.

We remained steadfast. We felt that this period would be the most strategic to re-center our terms of trade, which slackened over the years.

It is times like these that test a company's character; eventually, the trade channel accepted this new norm. The result was that during 2016-17, we shrunk our receivables cycle by nine days, enhancing our liquidity.

We did not test the limit; we extended beyond.

# Greenlam

sold 12.72 mn laminate sheets in 2016-17.

Stacked, this pile would scale Burj Khalifa, the world's tallest building – 15 times over!

## A rich legacy

Greenlam Industries Limited's strong heritage can be traced to the de-merger of its Decorative Business Division from Greenply Industries Limited in 2014 and subsequent listing of its equity share on the BSE Limited and National Stock Exchange of India Limited in 2015.

Today, the Company enjoys robust experience in the Indian laminates and allied products industry, credited with pioneering several industry-leading initiatives across product branding, innovation, sales & marketing and customer service. The promoters also possess a strong track record with Mr. Shiv Prakash Mittal (Non-Executive Chairman) enjoying over three decades of deep sectoral experience and Mr. Saurabh Mittal (Managing Director & CEO) possessing two decades of rich experience in the business.

## Our stack

- Among the top 3 laminates producers in the world
- Asia's largest laminates brand
- India's *numero uno* decorative laminate and decorative veneer company
- India's largest exporter of laminates and compact laminates
- Only manufacturer of engineered wood flooring in the country
- First organized manufacturer of engineered door sets (doors and frames) in India

## Geographic sprawl

Greenlam Industries enjoys a strong presence in over 100 countries including the US, the UK, Singapore, Hong Kong and the UAE. The Company has a pan-India presence with 11 owned large regional distribution centres, 32 branch offices, sales force of 500+ and more than 14,000 distributors, dealers and retailers.

## Decorating spaces has taken us places!

Greenlam is the largest manufacturer of laminates in Asia and globally the third largest with a 19% share of the organised laminate market in India.

**Anchored around ethics**

Our core values

Trust	TRUST PEOPLE TO BE RELIABLE AND RESPONSIBLE AND EARN THEIR TRUST SIMILARLY.	Our dealings with the overall environment including individual employees, vendors, business partners, investors, customers and the society at large would be in the premise of good faith. We empower our employees by placing trust in them to take decisions in the best interest of the organization and as per promulgated norms.
Performance	WE VALUE PERFORMANCE ACROSS PRODUCTS, PEOPLE AND PROCESSES.	Performance is valued as the core ingredient for sustainability and is the underlying metric for selecting people, products or processes for the organization. For us, performance means delivering on our commitment across every parameter. It also entails effort and a continuing endeavour to defy the <i>status quo</i> in order to achieve all-round excellence.
Learning	WE ENCOURAGE LEARNING; CREATING AND NURTURING TALENT.	Our organization facilitates the learning of our employees and continuously transforms itself to align with the evolving needs of the marketplace. We also support formal learning through structured programs to empower people and help them unlock their potential.
Team work	WE ACHIEVE MORE BY COLLABORATION WITH ALL STAKEHOLDERS – INTERNAL AND EXTERNAL.	Given the inter-linkage of output of others with our performance, we nurture a sense of collaboration with our environment. Internally, if a peer fails, the team cannot succeed and individual success means little in a failed team. Also, our customers, partners and investors need to succeed.
Speed and agility	WE ARE QUICK TO DECIDE, RESPOND AND EXECUTE.	We value decisions being made without undue procrastination and being implemented within the shortest possible time because we value this as a source of our competitive advantage. Individuals are therefore held accountable wherever any delays are attributable to them either in the decision making or implementation process. Similarly, we respond to the market proactively rather than reacting when situation reaches a point where inaction becomes unaffordable.

MANAGING DIRECTOR & CEO'S STATEMENT

“Our ability to report profitable growth in a challenging year represents our spirit of **‘beyond’** – the ability to extend beyond the usual, commitment to enhance value beyond the ordinary and focus to extend the impact of our performance from the immediate to the sustainable.”

**The spirit of ‘beyond’**

If there were two words that faithfully encapsulated the year 2016-17, they would be ‘disruptive unpredictability.’

If there was one reality that enabled us to counter disruptive unpredictability, it would be the spirit of ‘beyond’.

The year was marked by a number of unexpected developments comprising one of the biggest

upsets in US electoral history, Britain voting to exit the European Union and the largest currency demonetisation attempted in the history of humankind.

For a company that markets 43.9% of its consolidated revenues outside India, the year under review should hypothetically have been devastating. The reality is that Greenlam reported a 4.5% growth

in revenues and 32.1% in profit after tax (at consolidated level). The ability of the Company to report profitable growth in a challenging year represents its spirit of ‘beyond’ – the ability to extend beyond the usual, commitment to enhance value beyond the ordinary and a focus to extend the impact of our performance from the immediate to the sustainable.

**New directional initiatives**

At Greenlam Industries, we have always believed that sustainable success is derived from the ability to look, plan and implement beyond the immediate.

Over the years, this was reflected in our ability to invest in manufacturing facilities for the future, build more capacity than would be immediately needed, invest in the ability to scale capacity with speed by investing in additional infrastructure and completing the product mix in preparation for the markets of the future.

A number of people questioned

this approach on the grounds that during the aggressive phase of capacity building, such an approach would not be value-accretive, that quarterly earnings would be affected and there could be a gestation between investment and returns. We believed that this would be the case in the short time during the phase of gestation; we also believed that when demand strengthened and our capacities were better utilized, the pass-through of increased revenues to RoCE would be quicker.

I am pleased to report that our performance in 2016-17 reflected

precisely this conviction. We reported an increase in margins and overall business viability in the face of only a modest increase in revenues, which only validates the robustness of our business model to be able to scale margins as our capacity utilisation increases and revenues strengthen.

The big message that I wish to communicate is that we demonstrated the strength of our business model through the laboratory of last year’s challenging business environment; as business conditions strengthen, we expect to do even better.

## The heart of our competitiveness

I am pleased to report that despite the various challenges within the global and Indian economies, Greenlam reported the following numbers:

- Consolidated revenues grew 4.5% to ₹1076 crores in 2016-17; the domestic laminate segment grew 6.5%
- Consolidated EBITDA stood at ₹141.3 crores against ₹129.5 crores in 2015-16, a growth of 9.1%
- Consolidated EBITDA margin stood at 13.1% against 12.6% in 2015-16
- Consolidated PAT stood at ₹49.8 crores against 37.7 crore in 2015-16, a growth of 32.1%

These improvements validate that even in the most challenging of markets, the Company reported reasonable improvements that were higher than the benchmarks reported by the overall sector and industry peers.

One of the attractive turnarounds during the course of the year was the aggregate performance of our subsidiary companies in the global markets. The aggregate performance of these subsidiaries had been negative in the earlier years on account of business-building investments that needed to have been made upfront; during the year under review, the

subsidiaries (aggregated) reported a creditable turnaround, most of the prominent subsidiaries reporting a surplus. This transformation was the result of these larger subsidiaries engaging in focused strategies that included growing sales volumes and focusing on markets that provided the highest realisations. The objective of the Company going forward would be to turn the few remaining subsidiaries to a surplus, strengthening our returns from the international markets.

## Capital allocation

At the heart of our company's out-performance in a challenging year was our prudent capital allocation. As I indicated earlier, we had consistently emphasized that we preferred to be fully invested across interior infrastructure products at the outset, which would translate into an upturn in the demand of our products as soon as economic realities improved. The result was that we started with low percentage asset utilisation; however, we were convinced that as we consumed our extensive operating leverage with no corresponding increase in capital investments, we would report improved profitability.

I am pleased to report that this is the very reality that transpired during the year under review. As we strengthened offtake that increased our capacity utilisation, we strengthened our consolidated ROCE: from 14.8% in 2015-16 to 19.1% in 2016-17; correspondingly, our consolidated ROE grew from 15.4% in the previous year to 17.1% in 2016-17.

At Greenlam, we believe that the heart of a successful company lies in its working capital efficiency. As business conditions became increasingly challenging, Greenlam continued to emphasise the importance of liquidity with the objective to generate enhanced surpluses through increased operating efficiencies.

One of the most courageous initiatives that we embarked upon was in selecting to counter demonetization through a resetting of our receivables cycle. Normally during a period of sectoral slowdown and cash crunch (as we saw during the demonetisation), it would have been reasonable to extend the debtors' cycle. During the year under review, we did just the reverse: we tightened our credit period and called our money in faster. The result is that our consolidated debtors' cycle declined from 65 days of turnover equivalent in 2015-16 to 49 days in 2016-17. I am pleased to report that this, among other decisions, kick-started a stronger virtuous cycle: enhanced liquidity,

declining interest costs and a stronger Balance Sheet. Besides, we strengthened our inventory management of finished products; our consolidated inventory-to-turnover days declined from 88 days in 2015-16 to 77 days in 2016-17. Our stronger working capital management sent a serious signal of our trade discipline to the market while we reinvested in products, capacities and brand to help our dealer-partners sell quicker and higher.

We reinforced our Consolidated Balance Sheet through debt optimization (that reduced by 38% to ₹225 crore as on 31 March 2017) and through an increased plough-back into our reserves (by ₹46 crore in 2016-17 to a cumulative ₹279 crore), thereby creating a stronger financial pool. On the Consolidated P&L front, our interest cost optimized by 12% to ₹28 crore in 2016-17 with a strong profitability implication even as our net profit margins rose 90 bps to 4.6% during the year under report. This cycle – with greater benefits – is expected

## OUR CORE STRENGTHS

- STRONG AND PROTECTED BRAND PRESENCE IN INDIA AND OVER 100 COUNTRIES
- PAN-INDIA DISTRIBUTION NETWORK WITH 11 OWNED LARGE REGIONAL DISTRIBUTION CENTRES, 32 BRANCH OFFICES, SALES STAFF STRENGTH OF MORE THAN 500 AND MORE THAN 14,000 DISTRIBUTORS, DEALERS AND RETAILERS
- STRATEGICALLY-LOCATED PLANTS IN RAJASTHAN AND HIMACHAL PRADESH ENSURING ACCESS TO RESOURCES AND MARKETS OFFERING FISCAL AND EXPANSION BENEFITS
- YOUNG, MOTIVATED AND PROFESSIONALIZED TEAMS
- STRONG MARKETING AND BRAND INITIATIVES UNDERTAKEN THROUGH VARIOUS SOCIAL MEDIA PLATFORMS ENSURING STRONG CUSTOMER ENGAGEMENT

**AT GREENLAM INDUSTRIES, WE HAVE ALWAYS BELIEVED THAT SUSTAINABLE SUCCESS IS DERIVED FROM THE ABILITY TO LOOK, PLAN AND IMPLEMENT BEYOND THE IMMEDIATE.**

to play out further over the years.

The fact that we could liquidate our debt faster than we could add to our reserves indicates that we are progressing to creating a stronger and smaller Balance Sheet against a larger revenue base – an ideal value-accretive business.

At Greenlam, we consistently invested in our marketing and branding platforms; we now enjoy a 360-degree market approach through the print, digital, events and activations, exhibitions, PR and brand stores. With almost 26 engaging and interactive websites that help our customers/influencers seamlessly make a purchase decision, we opened a low-cost and high-visibility omni-channel sales architecture (including Facebook and Twitter)

I am pleased to report that we could leverage gains made in the Profit & Loss account to strengthen our Balance Sheet. During the year under review, we reinvested the resources we liberated from the business to invest in our laminates capacity expansion at Nalagarh. Our 2 mn sheet lines at Nalagarh (which will be brought on-stream in the first quarter of 2017-18), was set up at a capex of about ₹28 crore,

which is inexpensive by about 30% compared with a similar greenfield facility. We believe that this expansion will capitalise on pent-up demand and a pick-up in real estate offtake following the introduction of the landmark the Real Estate (Regulation and Development) Act, 2016 (RERA). Besides, our complement of 13 international offices and six overseas subsidiaries with 100+ overseas employees will help catalyse our global offtake.

Our engineered wood floorings and engineered doors businesses reported steady growth in 2016-17. These product categories are maturing and could enhance profitability going forward. Besides, thanks to our positioning as India's only and largest manufacturer of engineered wooden flooring and engineered doors and frames, strong import replacement opportunity (for engineered wooden flooring), growing inroads into institutional sales (engineered door sets), rising brand credibility and high-quality technology invested in product manufacture could enable us to generate increased revenues .

**AFTER CONSIDERABLE OPPOSITION, THE GOODS AND SERVICES TAX (GST) ACT WAS LAUNCHED IN JULY 2017. THIS HAS MARKED THE BIGGEST TAX REFORM IN INDIAN HISTORY, POTENTIALLY BRINGING ALL INDIRECT TAXES UNDER A UNIFORM TAX STRUCTURE.**

### Building for the future

During FY2016-17, the Company addressed unforeseen challenges like the demonetization-induced cash crunch and stricter enforcement of the Real Estate (Regulation and Development) Act, 2016 that staggered apartments launches leading to a slower offtake of interior infrastructure products.

We believe that the biggest game-changer is something that will transpire during the course of the current financial year. After considerable opposition, the Goods and Services Tax (GST) Act was launched in July 2017. This has marked the biggest tax reform in Indian history, potentially bringing all indirect taxes under a uniform tax structure. This, coupled with

the government's decision to demonetize high value currency notes, are seen as bold reforms expected to reset the economy towards a higher growth trajectory with several structural long-term benefits. The implementation of the Goods and Services Tax is expected to benefit our Company at two levels: a seamless flow of products from one state to another; a narrowing of the differential between organized and unorganized products will make our brands more competitive, providing them with a platform for sustainable and profitable growth across the foreseeable future.

Our prospects appear to be strong and protected, driven by the government's policy initiatives. For

one, RERA will lead to increasing consolidation and strengthening of the real estate sector. Swachh Bharat and Smart Cities programs will prove positive for us. The Pradhan Mantri Awas Yojana (PMAY) is an ambitious initiative by the government to build over 2 crore affordable houses by 2022, largely addressing the needs of low income groups and economically weaker sections. We believe that over time, this increased housing stock will translate into a growing offtake of our products. We also believe that the Smart City programme will open up large opportunities to market our products, a reality for which we are attractively prepared through brand visibility, distribution spread and capacity growth.

### Proactive and prepared

A special case in point in terms of our readiness is our ability to capture demand without any significant capex. Our 2 mn sheets of additional laminates capacity represents almost 17% of our pre-expansion capacity of 12.02 mn sheets. Besides, an operating leverage of 33% of pre-expansion capacity within the existing infrastructure gives us a leverage of 50% incremental capacity that can be made use of.

On the international front, the global laminates market is represented by a size of US\$7 billion, which is growing by 2-3% every year. With Greenlam's presence in 100+ countries and an exports growth at a substantial 15% CAGR over the past five years, there exists a good opportunity in consolidating and improving depth in our existing markets, both in terms of volume and value, going forward.

I hope you, our shareholder, continue to stay invested in our story, which is really the story of a transforming consumption-driven industry and our deeply-entrenched positioning within.

With my best wishes,

**Saurabh Mittal**

# Our financial report card

The government’s initiative to demonetize specified bank notes created a virtual standstill in trade and commerce. Despite an impact in the third quarter of 2016-17 (peak of the demonetisation), our Q4 results demonstrated a timely restoration of our business health.

# BEYOND CONVENTIONAL THINKING!

AT GREENLAM INDUSTRIES, WE HAVE BEEN ABLE TO DISRUPT A CONVENTIONAL INDUSTRY THROUGH UNCONVENTIONAL WISDOM.

Take the instance of our laminates range. While most companies have limited SKUs, our stock range numbers no less than 2,500 SKUs across over 50 textures. This sheer product breadth and depth has not only made us India's largest and most trusted laminates brand but has given us a robust opportunity platform to engage with our customers better, empowering us with the ability to influence sales. Besides, some of our laminates varieties are exclusive to us, such as HD gloss laminates, VRB, Reflection and Anti-finger printing (AFX).

Take the instance of our decorative veneer and allied products range. While most other players are taking tentative steps in the direction of this business, we have already moved ahead with our Decowood brand emerging as the best-selling premium veneers in the industry. Decowood houses over 200 exotic and imported natural veneer wood species across the natural, teak and engineered

segments. With a view to enable our customers to experience these products better and see for themselves the transformational impact these have on their spaces, we have established an exclusive experience center near our plant in Behror across 54,000 sq. ft.

Take the instance of our trade initiatives. When most constituents of the market announced multiple inducements to ensure sales during the peak of the demonetization phase, we re-centered the trade to a fixed credit period, instead. This bold measure (as bold as the demonetization initiative) was implemented to ensure trade discipline on the one hand and prepare us for GST regulations on the other. With our additional laminates capacities coming on stream, we believe we are well-prepared for higher offtake coupled with quicker receivables.

"Swim upstream. Go the other way. Ignore conventional wisdom!"

# BEYOND BOUNDARIES!

AT GREENLAM INDUSTRIES, HAVING ESTABLISHED A STRONG PAN-INDIA PRESENCE, WE VENTURED INTO THE OVERSEAS MARKETS IN 1993. WITHIN A SPAN OF 25 YEARS, OUR EXPORT REVENUES GREW AT A 15% CAGR (FOR THE LAST FIVE YEARS ENDING 2016-17) WITH A Y-O-Y GROWTH OF 5% TO ₹479 CRORE IN 2016-17 (CONSOLIDATED). EXPORT REVENUES CONTRIBUTED A HEALTHY 44% TO OUR CONSOLIDATED REVENUES DURING THE YEAR UNDER REPORT.

Our global ambitions are best manifest in the fact that we are among the world's top 3 laminates producers, Asia's largest laminates brand and India's largest exporter of laminates and compact laminates. With a 100+ countries exports presence, Greenlam laminates are available in almost all major continents including North America, South America, Africa, Europe, Asia and Australia. Our international business is executed through six overseas subsidiaries, 13 international offices and over 100 overseas employees.

Going forward, the Company is primed for enhancing laminates exports, considering capacity leverage on the one hand and the fact that 2 mn sheets per annum capacity will come on stream at Nalagarh during the first quarter of 2016-17. Besides, the international laminates industry, valued at about US\$7 billion, is well-positioned to clock better growth, rising from

the existing 2-3%. This acceleration is estimated to be primarily a result of a growing demand for ready-to-assemble (RTA) furniture. Moreover, conducive macroeconomic factors like cost-performance benefits, increased market penetration and brightening prospects in the e-commerce space bode well for the sector.

# BEYOND THE CORE!

AT GREENLAM INDUSTRIES,  
WE STRATEGICALLY  
EXPANDED THE CORE BY  
VENTURING INTO THE  
ALLIED BUSINESSES OF  
MANUFACTURING AND  
BRANDING ENGINEERED  
WOOD FLOORING AND  
ENGINEERED DOOR SETS.  
WHILE OUR BALANCE  
SHEET FUNDED THESE  
EXPANSIONS, THESE  
BUSINESSES ARE  
SHOWING STEADINESS  
WITH ANTICIPATED  
PROFITABILITY

"A satisfied  
customer is the  
best business  
strategy of all!"

Michael LeBoeuf

Our core branding capability is evident in 'Mikasa' emerging as the first and only Indian brand of engineered wood floorings. With the highest industry range of as many as 111 SKUs, Mikasa wood flooring is manufactured with the latest European technology with raw materials (including hardwood) imported from the best global sources. Convenient to install and durable in use, our quality confidence in these products stems from a 30-year warranty support. On the demand front, Mikasa is strongly placed, considering the size of the market pegged at 2 mn sq. m annually and growing at 20-25% every year. With no other domestic manufacturer and a majority of the demand met from imports, we will play a strong role in import substitution, especially with our B2B outreach, increasing retail footprint through exclusive retail display centers and enhancing reach within the designer/architect communities.

Our Mikasa range of engineered doors and frames makes us the first organized Company to launch

engineered, factory-finished door solutions in the country. With a capacity of 120,000 door units per annum, this range is integrated with the existing decorative veneer and engineered wood flooring categories, thereby generating greater synergies and complementing our broader product range. Our door range also conforms with the fire rating of FD30 and FD60, which opens up a vast range of applications in the hospitality, healthcare, retail and high-end residential markets. Besides, we offer options of laminated, veneered or painted doors and frames. It must be mentioned that the door (including flush door) market is estimated at 24 million units per annum; the engineered finished door category is witnessing a substantial 20-25% growth every year. With no organized player in the industry providing comprehensive door solutions coupled with the advantage of our extensive B2B and influencer outreach programs and tie-ups with real estate developers, prospects are brightening for this business, going forward.

# Our financial performance

**+4.49%**

Consolidated net revenue, 2016-17

Our consolidated sales (including subsidiaries) increased 4.49% to ₹1,075.93 crore in 2016-17. This was achieved through larger volume sales and a growing contribution from our international business.

**+9.10%**

Consolidated operating profit, 2016-17

Greenlam reported a 9.10% increase in consolidated operating profit during the year under report, a healthy growth despite a sluggish consumption environment, regulatory uncertainty, especially in the real estate industry, and demonetization that led to a cash crunch and impacted most segments of the market. This performance was achieved due to a sales mix transformation in favour of premium products, unflinching customer focus, solution-selling, strong cost-cum-process controls and widening geographic reach in India and overseas.

**+32.09%**

Consolidated net profit (₹ crore)

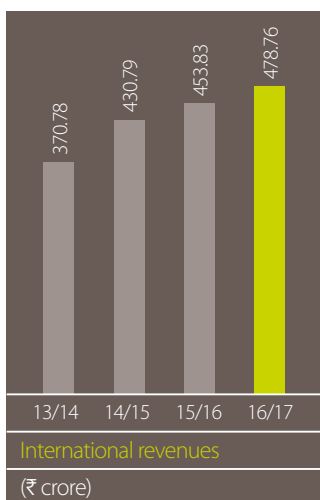

Greenlam's consolidated net profit improved 32.09% to ₹49.81 crore in 2016-17. Our net profit margin improved by 90 bps to 4.6% in 2016-17 compared to 3.7% in the previous financial year. Growing brand recall paired with deeper market penetration in India and overseas will help us sustain our profitability momentum, going forward.

**0.77x**

Consolidated debt-equity (x)

Greenlam's consolidated debt-equity ratio improved sharply during the year under report to 0.77x on account of a debt reduction of ₹140.57 crore during 2016-17, facilitated by stronger free cash flow generation used for debt retirement and lower working capital requirements.

**+5.49%**

International revenues (₹ crore)

With six overseas subsidiaries and sales to 100+ countries, Greenlam's international revenues have grown at an 8.90% CAGR over the past three years to ₹478.76 crore in 2016-17. The Company made inroads into three new countries during the year under report even as it established a new branch office in Dubai with a view to strengthen its presence in the large Middle East market.

**+24.62%**

Consolidated receivables cycle (days)

At Greenlam, our consolidated receivables cycle reduced significantly to 49 days in 2016-17 from 65 days in 2015-16 and 72 days in 2014-15, thanks to stronger trade credit discipline and enhanced attention on secondaries of trade during the financial year under report. With increasing trade alignment, we intend to generate a faster receivables inflow, moderating our working capital requirement from external sources.

## Operations and State of Affairs of the Company

During the financial year 2016-17, your Company posted a moderate performance with growth of 3.75% in total revenue to ₹97,329.17 lacs as against ₹93,812.22 lacs in the previous year and a growth of 6.47% in profit to ₹4,294.92 lacs from ₹4,033.78 lacs in the previous year. This performance need to be viewed against the backdrop of the challenging business environment in which this was achieved, namely, weak real estate sales and subdued consumer sentiments and demonetization of specified bank notes.

It would be imperative to apprise our performance against the contextual landscape. During the first half of the financial year 2016-17, we reported y-o-y growth in

revenue and net profits of 7.5% and 15.1% respectively, which is a fair index of how prudently the Company utilised its resources. This provided us with an optimistic picture of how we would scale our business in the second half of the year. In the second half of the year, post the announcement of the demonetization, the sector witnessed a temporary setback that led by liquidity squeeze which impacted the demand and the buying of the channel partners. We embraced the challenging times with increasing prudence in marketing spends, managing production programs and a strict watch on the inventory and the debtors' management. The Company closed the year under review with a positive note with the last quarter of the year showing significant improvement over the demonetization quarter which mirrors our efforts.

During the financial year 2016-17, your Company recorded a growth of 3.57% in export turnover from ₹32,624.17 lacs to ₹33,790.29 lacs and export incentive increased from ₹3,454.81 lacs to ₹3,537.11 lacs.

As per the consolidated financial statements, total revenue and the profit after tax for the financial year 2016-17 stood at ₹1,07,956.27 lacs and ₹4,979.86 lacs respectively.

During the financial year 2016-17, your Company intensified its efforts in the area of product integration and market penetration. Your Company continued to expand its export markets for Laminates, Veneers, Engineered Wood flooring and Engineered Door Sets.

The overall performance of the Company during financial year 2016-17, amid a challenging economic scenario, vindicates the effectiveness of the initiatives undertaken by the Greenlam Management so as to better exploit business opportunities.

## Dividend

Your Directors recommend a final dividend of ₹1.50 per equity share (previous year ₹1.00 per equity share) on the Company's 2,41,36,374 equity shares of ₹5.00 each for 2016-17. The final dividend on the equity shares, if declared as above, would entail an outflow of ₹362.05 lacs towards dividend and ₹73.70 lacs towards dividend tax, resulting in a total outflow of ₹435.75 lacs.

## Outlook and Expansion

The Company's outlook remains favourable on account of its product integration capabilities, growing brand popularity and the continuous support from its employees, shareholders, creditors, consumers, distributors, dealers and lenders. The Company's vision is to be a one-stop solution for all decorative surface products (in its field of operation). The Company's pan-India distribution network ensures easy availability of products in almost every part of India. The Company has a presence in over 100 countries, either directly or through its overseas subsidiaries.

The Goods and Services Tax Act ("GST") appears to be primed for launch from July, 2017, the biggest tax reform in Indian history, potentially bringing all indirect taxes under a uniform tax structure that will create a level playing field boosting the competitiveness and build a strong case in favour of organized and tax-compliant players like us. This, coupled with the government's decision to demonetize high value currency notes are

seen as bold reforms expected to reset the economy towards a higher growth trajectory with several structural long-term benefits.

During the financial year 2016-17, the Company has decided to further expand the capacity for manufacturing Laminates at the unit of the Company situated at Nalagarh, Himachal Pradesh to manufacture an additional 2 million laminate sheets per annum. With this addition to the existing manufacturing capacity, the total installed capacity for laminate will become 14.02 million laminate sheets per annum. The revised estimated capital cost for this brownfield expansion would be approximately ₹28.00 crores. With respect to the said expansion, the delivery of key plant and equipment, required for augmenting laminate manufacturing capacity, have completed and civil works for its foundation are in completion stage. The delivery of ancillary machinery and other required support equipment are under progress. The key plant and equipment are being erected and in the final stage of completion. The progress is as per the schedule.

Further your Company has established a branch office in Dubai, UAE under the name 'Greenlam Industries Limited (DMCC Branch)' with a view to strengthen its presence in the Large Middle East markets.

In view of the above, your Directors are confident of achieving significantly better results in the coming year.

## Credit Rating

Credit Analysis and Research Limited (CARE) has upgraded the credit rating for the long term bank facilities of ₹246.20 crores to "CARE A+; stable" (Revised from "CARE A") and reaffirmed the credit rating "CARE A1" in respect of its short term bank facilities of ₹260.00 crores.

### SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED ON 31<sup>ST</sup> MARCH 2017

To,  
The Members,  
**Greenlam Industries Limited,**  
Makum Road, Tinsukia,  
Assam – 786125

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Greenlam Industries Limited** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on **31<sup>st</sup> March, 2017** complied with the statutory provisions listed hereunder, adhered to good corporate practices and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31<sup>st</sup> March, 2017 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ("SCRA") and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct

Investment and External Commercial Borrowings made by the Company;

- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ("SEBI Act"):-
  - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

### Information required under Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014 pertaining to Conservation of Energy, Technology Absorption, Foreign Exchange Earnings and Outgo

#### (A) Conservation of Energy

##### (i) Steps taken or impact on conservation of energy:

- The CPF 160 boiler's feed pump system was modified by replacing the existing old design 30 KW pump by an 18.5 KW pumping system which resulted in an annual electrical energy saving of 37,000 KWH.
- CPF 160 & QT 60 heating systems are attempted for Automation by installing Oxygen Analysers and synchronising the burner with the fuel feeding system with the analyser. The returns on the investment would be in less than a year and would result in huge energy and fuel saving.
- VFDs have been installed on the IDs, FDs and Screw Feeder of the thermic fluid system as well as the High Pressure Hot water system which effectively caused auto cutoffs and resulted in a saving of 26,000 KWH of electric power per annum.
- Cooling towers have been integrated with PID controllers which resulted in an energy saving of 19,396 KWH of electric power.
- Veneers Press Circulating pump has been replaced by a 7.5 KW pump in place of the old designed 15 KW pump. The resultant energy savings on this account was 48,000 KWH.
- Damaged insulation was replaced on the hot water and oil lines. This resulted in an annual saving of 85 MT of fuel.
- Replacement of conventional street lights with LEDs continued. This has further yielded an energy saving of 15,120 KWH.
- Cooling pumps on press no. 4 have been replaced by energy efficient low capacity pumps. The net energy saving envisaged is 13,406 KWH. This exercise will be carried out in a phased manner on all the presses during the current year.
- Laminate and Veneer scrap/waste is fired in boiler. This is expected to yield a fuel savings and same would be summarized upon stabilization.
- The manufacturing plants continue to
  - Reuse the RO reject waters for

flushing, cleaning, ash quenching, dust quenching and floor washing purposes

- Using STP waters for gardening purposes
- The water conservation from these practises are 14,600 KL per annum

##### (ii) Steps taken for utilising alternate sources of energy:

Exploring the feasibility of converting certain process equipment and lighting and power system in the housing colony to run on solar energy.

##### (iii) Capital Investment on energy conservation equipment: Nil

#### (B) Technology Absorption:

##### i. Efforts made towards technology absorption:

- a. Newer products like AFX, ESD, HD Gloss have been successfully launched in India and abroad. The manufacturing techniques involve adoption of modern technologies and equipment to accomplish the world class standards.
- b. A new texture named "Synchronized" Olmo & Freshno have been developed and introduced and the technique used to make the product is special and different from the conventional textures.
- c. The plants have improved the cutting system in order to ensure full consistency of smoothness and rectangularity in the product.
- d. There have been sustained and continuous efforts in cost reduction, product presentation and customer support services. The focus is fully on customer orientation and satisfaction.

##### ii. Benefits derived like product improvement, cost reduction, product development or import substitution:

- a. The process efficiencies have been improved by installing rotary cutters on impregnation machines whereby the productivity got enhanced apart from a further drop in process wastages by 0.2%.

- b. Impregnator no. 7 and 1 has been fully revamped by replacing the old technology oven capacities in order to give an increased output of 60% over the previous capacity.

**iii. Information regarding technology imported, during the last 3 years:**

- a. Details of technology imported: Plates' polishing machine from Italy  
b. Year of import: 2015

- c. Whether the technology been fully absorbed: Yes

- d. If not fully absorbed, areas where absorption has not taken place, and the reason thereof: not applicable; and

**iv. Expenditure incurred on Research and Development:**

- a. Capital: Nil  
b. Recurring: ₹30.32 Lacs

**C. Foreign Exchange Earnings and Outgo**

The details of foreign exchange earned in terms of actual inflows during the year and the foreign exchange outgo during the year in terms of actual outflows are as under:

(₹ in lacs)

Particulars	March 31, 2017	March 31, 2016

# Management discussion and analysis

## Global economic overview

The pace of global economic activity was mixed in 2016 as a number of crosswinds affected re-acceleration. Within advanced economies, comprising the US, Europe and Japan, the lingering legacies of the recent crisis, coupled with protracted monetary policy support and return to fiscal neutrality, underpinned a generally-accelerating output with falling unemployment. In countries outside the advanced economies, the sources of slower growth ranged from commodity price declines to overhangs from past rapid credit growth to political turmoil.

Resultantly, global growth was projected to slow to 3.1% in 2016 before recovering to 3.4% in 2017. The forecast was revised down by 0.1 percentage point for 2017 compared to the April 2016 projections. This reflected a more subdued outlook following the Brexit referendum and weaker-than-expected growth in the US.

The long-term prospects of emerging market economies have improved on the back of a visible lowering of interest rates in advanced economies and

firming of commodity prices. Asia in general and India in particular has demonstrated robust growth while sub-Saharan Africa has experienced a sharp slowdown. *(Sources: IMF and World Bank)*

Among advanced economies, activity rebounded strongly in the US and the economy is approaching full employment. Long-term nominal and real interest rates have risen in the UK and in the US since the November 2016 Presidential election. The currencies of advanced commodity exporters have also strengthened, reflecting the firming of commodity prices; however, several emerging market currencies depreciated substantially.

Interestingly, with China reorienting itself into a consumption-centric economy and Saudi Arabia reducing its dependence on oil, the case for base metals has strengthened, which, in turn, has propped up commodity prices. Consequently, inflation rates have recovered across advanced economies and commodity prices have bottomed out in recent months.

Growth			
	2016 (projected)	2017 (projected)	2018 (expected)
Global economy	3.1%	3.4%	3.6%
Advanced economies	1.6%	1.9%	2.0%
Emerging market and developing economies	4.1%	4.5%	4.8%

### Outlook

The global economy has entered its sixth year of stagnation with growth estimates for 2017 continuing to trend the historical path. A projected stabilisation in energy and commodity prices may provide some respite for resource-rich economies in 2017. However, the medium-term outlook continues to be bleak with

growth weakening in terms of investments and labour supply. Businesses will need to prepare themselves adequately in order to address the challenges arising from geopolitical tensions, policy uncertainties, financial market volatilities and rapid technological advancements.

## Indian economy overview

India's GDP growth was projected at 7.1% for the fiscal 2016-17 (CSO), down from the 7.6% recorded in 2015-16. Although demonetisation affected the GDP growth rate by 100 bps, the governmental initiative of removing specified bank notes from circulation is expected to have long-term benefits. (Source: <http://www.livemint.com/Politics/RNFrr6eVDZplyMDCRm5UdN/IMF-downgrades-Indias-201617-GDP-growth-forecast-to-66.html>)

The growth rate of the industrial sector (measured in the index of industrial production or IIP) was estimated to moderate to 5.2% in 2016-17, down from 7.4% in 2015-16. The country's IIP registered a modest growth of 0.4% during the April-November period of 2016-17. With Rajasthan, Madhya Pradesh and Maharashtra receiving 20% more rainfall than the usual, the agricultural sector is expected to grow at an above-average level of 4% on a weak base, caused by two consecutive periods of poor monsoons. This should lift the sagging rural demand and, by extension, the GDP growth rate. The major impetus is expected to come from the farm sector as non-agriculture growth is pegged to pick up by 10 bps over the previous fiscal to 8.6%.

To boost the rural economy, the Budget 2017-18 set aside ₹48,000 crore for MGNREGA (Mahatma Gandhi National Rural Employment Guarantee Act, 2005) to provide a shot in the arm to the skills development sector, enhancing disposable incomes, giving a boost to consumption and accelerating the overall rural economic growth.

### Outlook

The long-term growth outlook for India seems bright. Nonetheless, the growth forecast for the next fiscal has been trimmed by 40 bps. This has been primarily due to the temporary negative consumption shock induced by cash shortages and payment disruptions associated with the recent currency note withdrawal and exchange initiative. Subsequently, India's GVA (gross value-added) growth is likely to remain at 6.6% as economic activity will take more time to normalise. However, the imminent implementation of the GST (Goods and Services Tax) is expected to boost interstate trade by ushering in investments, reducing supply chain-related issues, improving economies-of-scale and cutting down overheads (Sources: IMF, ICRA).

## Indian government initiatives to boost economic growth

### Smart cities

The Indian government launched the 'Smart Cities' initiative in collaboration with states and union territories. The objective of the mission is to propel urban growth through an infrastructure overhaul. It intends to drive economic growth and improve the living standards of people by enabling local area development through harnessing technology. The central focus of the Smart Cities mission is anchored on city improvement (retrofitting) and city extension (greenfield development). This initiative will cover 100 cities and is expected to be implemented as a centrally sponsored scheme with the union government allocating ₹48,000 crore over five years. In the first phase, 20 cities have been shortlisted for their transformation into a smart city.

### Make in India

The 'Make in India' initiative was launched with the objective of making India a global manufacturing hub. The initiative is expected to boost entrepreneurship in

manufacturing, services and infrastructure sectors. The Indian Government set up 'Invest India' as a national investment promotion and facilitation agency under the initiative. In addition, a full-fledged investment facilitation cell has also been set-up primarily to support all investment queries as well as to handhold and liaise with various agencies on behalf of potential investors.

### Ease of doing business (EoDB):

The government's EoDB initiative is aimed at improving the business environment in India. Under this initiative, the government has sought to amend several laws towards easing the process of starting and running a business. Some of the key measures undertaken include: online application for industrial licenses, restriction of the documents required for export and import activities, removal of requirements for minimum paid-up capital for companies, granting of security clearances on an industrial license within 12 weeks and establishment of a facilitation cell under Invest India, among others.

## Indian furniture industry

### Overview

The Indian furniture industry is one of the fast growing sectors in the world. Steady growth of the Indian economy, real estate/hospitality sectors boom, increase in spending power coupled with lifestyle changes have fuelled the growth of the furniture market in the country. The Indian furniture industry is characterized by a large number of small players, accounting for nearly 80% of the domestic production. However, with the onset and growing popularity of the online furniture market, the industry is likely to witness consolidation, going forward.

The Indian furniture market, estimated at ₹720 billion in 2014-15, is forecast to reach ₹1,510 billion by 2019-20. The country's furniture market is primarily concentrated in the metropolitan and Tier I and II cities with the major user segments being residential, office, commercial and institutional. (Source: MCG)

Over the last two decades, the evolution of the housing furniture market has been gradual but significant; from product offering, to formats, materials and market structure, the market has witnessed steady growth and change. Figures on the actual size of the furniture market are hazy on account of the fact that a large proportion of the industry rests in the unorganized sector, (nearly 80%), with poor accounting standards and reported turnover. Despite this, the industry itself is robust and estimated to be growing at over 20% per annum. (Source: World Bank)

### Growth drivers

#### ***Fast growing Indian real estate sector:***

The Indian real estate market is expected to touch US\$ 180 billion by 2020 with the housing sector alone contributing about 6% to the country's GDP. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure

for India's growing needs. Besides, the implementation of the Real Estate (Regulation and Development) Act, 2016 is expected to usher in a new period for the country's real estate industry, bringing in transparency and discipline and contributing to strengthening the foundations of the sector for achieving sustainable growth.

#### ***Growing demand for IT office and other office parks:***

Sectors such as IT and ITeS, retail, consulting and e-commerce have registered high demand for office space in recent times. The office space absorption in 2016 across the top-eight cities amounted to 34 million square feet (msf) with Bengaluru recording the highest net absorption during the year. Information technology and business process management sectors led the total leasing table with 52% of the total space uptake in 2016 (Source: IBEF).

#### ***Increase in per capita income:***

India's per capita income, a gauge for measuring living standards, is estimated to cross ₹1 lakh in 2016-17, up from ₹93,293 in the previous fiscal. As per the 'First Advance Estimates of National Income, 2016-17' released by the Central Statistics Office (CSO), the per capita net national income during 2016-17 is estimated to be ₹103,007, at current prices. This is over 10% higher than ₹93,293 reported during 2015-16.

#### ***Growth in the consumer market:***

The growth in India's consumer market would be primarily driven by a favourable population composition and increasing disposable incomes. The growing purchasing power and rising influence of social media have enabled Indian consumers to loosen their purse strings. Resultantly, annual growth in the Indian consumption market was estimated at 6.7% during FY2015-20 and is expected to rise to 7.1% during the FY2021-25 period.

#### ***Increasing demand for modern homes:***

The boom in the residential real estate industry over the last few decades has given an impetus to the home décor market. Also driving the growth of this sector is increased consciousness among home owners for stylish interiors and aesthetic indoors. One of the factors that has contributed to this growth is that people have started taking their home as a reflection and extension of their personalities and hence, a number of people are now spending more on both furniture and fixtures as also on home decor.

#### ***Growing middle-class:***

In India, the middle-class consumer base is growing rapidly. They expect quality products at cost-effective propositions. Rising incomes and improvement in infrastructure are enlarging consumer markets and accelerating the convergence of consumer tastes.

#### ***Working women spending significantly on home fashion:***

In the present times, Indian women are becoming more conscious about home fashion and decoration. They are spending a significant part of their savings and income on home decor. In an interesting trend, Indian women are becoming more particular about the needs for their home luxury and its design. This is big factor driving demand for quality and even quirky furniture in the country.

#### ***Increasing demand for luxury homes:***

Luxury housing is emerging as one of the most vibrant

and dynamic real estate segments in India. The growing demand for luxury housing can be attributed to a rise in the number of High-Net Worth Individuals (HNI), the influx of global lifestyle trends and growing aspirations. The country's fast-expanding services sector is propelling many middle-income group individuals into the HNI bracket. Improved business confidence and the general depreciation in the value of the Indian rupee in the global financial markets has also boosted Non-Resident Indian (NRI) buyers' interest in India's luxury housing segment.

#### ***Governmental reforms:***

Government reforms, most notably demonetization, have proved to be positive for the organized players with transactions now being processed online or through cheques. Furthermore, introduction of the GST will create a level playing field, boosting the competitiveness and prospects of the organized Indian market.

#### **Outlook**

Home furnishing market in India is expected to witness an 8% CAGR during 2013-18. With the increase in the number of working women in the country, increasing demand among consumers to design their homes and residences is fuelling the growth of the home furnishing industry. It is estimated that the Indian home furnishing market will reach a size of about US\$ 5 billion by 2018 due to the growth of the organized retail industry along with higher per capita income as well as growing population base. ## Industry overview

### **Global context**

Global demand for decorative laminates is expected to rise 5.6% per year to reach a size of 10.7 billion square meters in 2018. Increase in decorative interior demand from convention centers, gymnasiums and indoorsports clubs are likely to create room for new opportunities. Rising trend for better lifestyle and increasing interest in home interior and remodeling are anticipated to be among the key driving factors to augment demand.

### **Domestic context**

The decorative laminates accounting for a sizeable share of the furniture industry and is expected to keep on growing in the years to come. The market could be segmented on the basis of distribution channels where the unorganized market accounts for the major share. However with changing consumer preferences the market has seen a shift towards the organized segment due to increased demand for good quality and branded products. The share of organized players in the industry

expected to rise in the years to come. This shift is taking place primarily due to urbanization and more disposable income.

The market for laminates is also driven by increasing demand from housing market. The demand has increased due to growing significance of new construction industry. Laminates have become an indispensable part of big and evolving markets like real-estate market, furniture market and modular kitchen market, among others. The increased demand in these markets triggers the demand in the laminates market.

Apart from this, increasing urban population, rising per capita income and a gradual shift towards non-food industry are other key factors driving the growth of laminates industry in India. Further, the implementation of Goods and services Tax (GST) in the near future will provide an impetus to organised laminate industry.

The policy announced by the Government of India for affordable housing would act as a major revenue driver of laminate and allied products consumption in the country.

**About Greenlam Industries**

Greenlam Industries is in the business of transforming interior spaces with rich industry experience. The Company is among the top-3 laminates producer in the world and the largest in Asia in terms of production capacity at 12.02 mn sheets per annum and additional 2.00 million sheets to be operationalised by Q1 2017-18. It enjoys an exports presence in over 100 countries and has 13 international offices. The Company is also India's first and only manufacturer of engineered wooden

flooring and engineered doors and frames. Greenlam's product are produced in the world class state of the art manufacturing facilities situated at Behror - Rajasthan and Nalagarh - Himachal Pradesh.

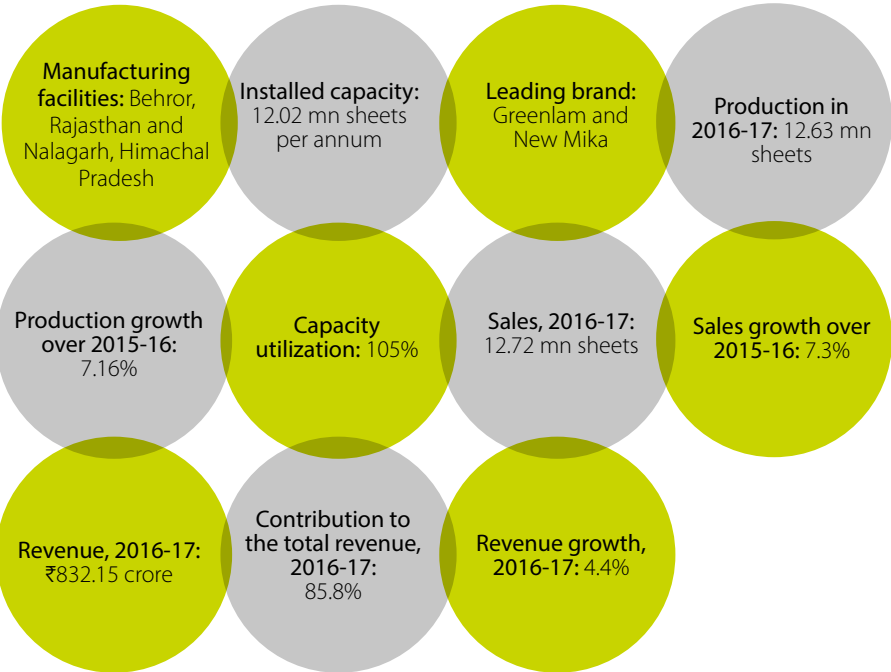

Greenlam Industries possesses a 19% market share in organised laminates and 11% share in organised decorative veneers in India, thanks to a portfolio that opens up infinite design possibilities.

BUSINESS SEGMENT ANALYSIS

Laminates and allied

Snapshot

Market overview

Greenlam Industries is among the top-3 laminates players in the world, is Asia's largest laminates brand and is India's largest exporter of laminates. The resilience of the Company's flagship laminates business was evident during the period of demonetization during which it was able to control de-growth in the third quarter of 2016-17; during the fourth quarter, the business was able to almost restore its pre-demonetisation sales volumes. In fact, the Company leveraged demonetization as a tool to strengthen terms of trade with its dealership, mobilise pending legacy credit and implement a credit lock to ensure timely cash inflows.

Highlights, 2016-17

Lowered dealership credit period with strict enforcement, during the year; this resulted in improved trade discipline, timely cash inflows and better working capital cycle

- Laminates sales grew 7.3% in volume terms and 4.4% by value with portfolio rebalancing
- Production increased by 7.16% to 12.63 mn sheets, largely through increasing capacity utilization and debottlenecking
- Launched new product series under 'Reflections' (digital laminates); also is the first Indian brand to launch the anti-fingerprint laminates (AFX) in the country
- Continued to remain the largest laminates exporter out of India, recording an export sales of 44.1% to ₹367.34 crore
- Added 2,000 trade partners to the distribution network and, even with enforcement of the credit lock, no major dealer attrition was reported during the year

## Core competencies

**Experience:** Greenlam enjoys rich experience in the Indian as well as global laminates industry. This helps in a better understanding of customer aspirations and emerging trends to proactively evolve the business and products.

**Capacity:** The Company possesses the largest capacity in the laminates industry in Asia at 12.02 mn sheets per annum. This provides economies-of-scale, enabling better cost absorption across a larger product volume.

**Range:** The Company offers the widest product range in the laminates space at over 2,500 SKUs. Besides, Greenlam laminates are available at price points straddling both ends of the value chain, encompassing the largest price range in the industry. Greenlam's standard-sized (4' x 8') and large-format laminates (4.25' x 10', 5' x 12', 6' x 12' etc.) as part of its diverse portfolio, enhances our product competency across the international markets.

**Reach:** The Company possesses one of the largest distribution networks for laminates in the country. This facilitates in deeper penetration and faster reach to the end-consumer, facilitating pan-India offtake. In addition, Greenlam laminates are exported to 100+ countries around the world. As a result, the Company is one of the fastest growing brands, globally and the largest laminates exporter out of India.

**Technology:** The Company leverages cutting-edge technology to provide superior products that enhance customer convenience and their decors. This has cemented a stronger recall in the minds of consumers and has resulted in sustainable offtake.

## Industry optimism

With the Government's continued focus and thrust on infrastructure and affordable housing through formalizing a host of initiatives and policies, the demand for laminates is likely to remain strong, going forward. It is expected that the interior infrastructure products demand scenario will also remain robust on account of the Indian real estate industry being aligned with the standards of some of the developed countries of the world through the establishment of RERA that will create a more solid and sustainable platform for the industry.

## INNOVATION FOCUS!

Greenlam introduced an anti-bacterial laminate for the first time on a pan-India basis, emerging as the only company in the industry to launch such a breakthrough product, most relevant for high footfall areas like hospitals, hotels and malls, among others.

Some of the other growth drivers include the Indian furniture market, especially with the proliferation of online furniture marketplaces, growing middle-class and disposable incomes and increased exposure to global trends and patterns with the need to replicate these across homes and offices.

Additionally, with the implementation of GST, widely expected from July 2017, there will be a perceptible shift towards the specialized, organized laminates market fostered by innovation, quality commitment, product mix, design and strong service orientation.

## Business priorities, 2017-18

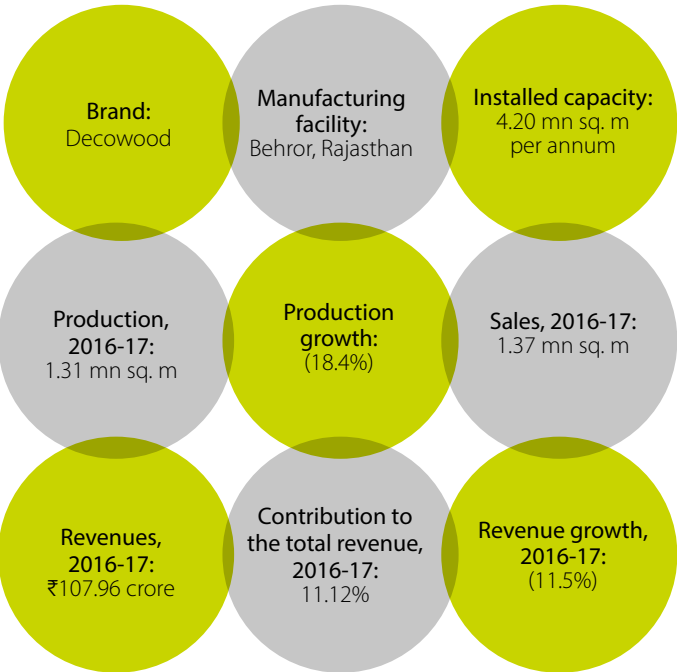

- ∞ Focus on improving volumes and value sales both in India and abroad; in India, the emphasis will be on profitable market share capture
- ∞ Achieve laminate capacity expansion of 2 mn sheets at Nalagarh, Himachal Pradesh, by the first quarter of 2017-18
- ∞ Strengthen dealer-distributor network with a focus on dealer productivity
- ∞ Increase in sales of Greenlam Clads owing to rampant urbanisation and rising aspiration complementing development of individual homes, bungalows in Tier II & III cities.
- ∞ Greenlam Sturdo - Restroom Cubicle made of Compact Laminate is expected to get a boost owing to Govt's push towards Swachh Bharat, smart cities, newer projects, airports and PSUs.

# Decorative veneer and allied

## A. DECORATIVE VENEER

### Snapshot

### Market overview

The consolidated Indian veneer market is pegged at about ₹2,000 crore. Out of this, ₹1,050 crore rests with the organized sector, within which Greenlam enjoys a share of about 10.28%. With low category awareness and higher product cost vis-à-vis competing products (paint and wallpaper, etc) the veneer industry continues to remain flat. On this scenario, the period during demonetization had a weakening impact on the business.

Over the years, as a counter to the prevailing trends, there has been a concerted focus by the industry to launch new products that include decorative veneer options in solid surfaces, glossy panels, wall features, textured paints, wall papers and eco-resin materials, among others. Besides, there has been an emergence of off-site manufacturing and e-commerce furniture portals exposing a wider audience to a larger product and design range, thereby growing interest to some

extent in the category as a whole.

Greenlam Industries is India's largest decorative veneers company with a capacity of 4.2 million square meters per annum.

### Highlights, 2016-17

- Despite sharp industry shrinkage especially owing to de-monetization, Decowood was able to outperform the industry with minimum revenue degrowth.
- Held on to realizations through portfolio rebalancing despite the industry suffering from a general price erosion
- Reduced dealership credit period with stringent enforcement, from the third quarter onwards
- Established a product experience center under 'Madera Hub' in Behror, Rajasthan. The center is spread over a sprawling 54,000 sq. ft and provides extensive engagement with visitors to generate

interest in the product and raise awareness on the infinite possibilities of veneers

- Regularly organized awareness sessions among the key specifiers (designers and architects), disseminating knowledge on the natural wood surfacing interior product
- Launched premium products under two series – distressed and dyed collection (Oak)
- Remained focused on the project segment to improve the performance of decorative veneer business, especially post demonetization

Industry optimism

The growth of the residential real estate industry over the last few decades has given an impetus to the home décor market. Also, driving the growth of this sector is increased consciousness among homeowners for stylish interiors and beautiful indoors. One of the factors that has contributed to this growth is that people have started taking their home as a reflection of their personalities and hence, a lot of consumers are now spending more, both on furniture and fixtures and also on home decor.

Business priorities, 2017-18

- Focus on promotion of Decowood as an independent decorative veneers brand
- Venture more aggressively into the B2B segment, especially with construction largely moving offsite (catalyzed by pre-fab)
- Increase dealer network pan-India
- Promote and market Decowood veneers as wood interior surfacing product amongst the design fraternity due to its natural looks, warmth and richness.

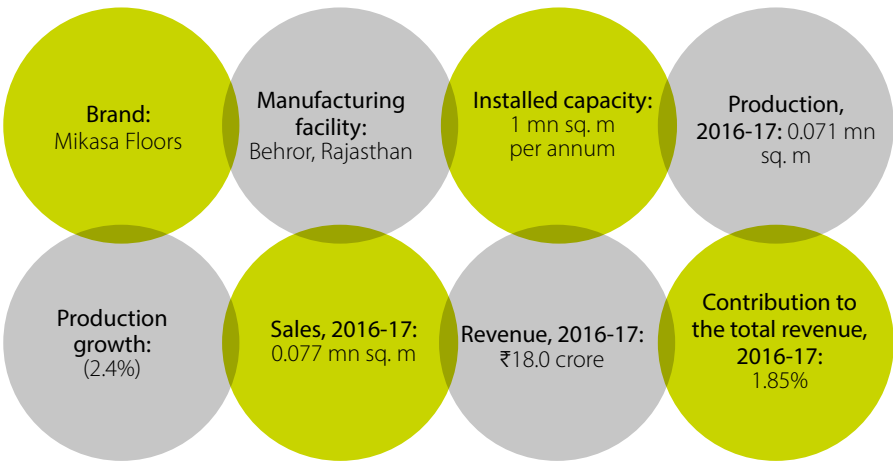

SOMETHING INTERESTING!

Wood is the most traditional and the most dynamic material for décor. Decowood veneers, made from wood from around the globe, are today defining décor trends in India and beyond. With these products, one can experience the most elegant and pure form of nature – through a large range of veneers available in a variety of shades. At Greenlam Industries, we offer 200+ exotic and imported natural veneer wood species and use high density hardwood plywood which provides durability and strengthens product quality. Apart from the standard size of 4’x8’, we offer many specialized dimensions like 4x10 and 3x7, among others, for door and paneling applications.

- Invite a larger number of specifiers into Madera Hub; our expectation for the year is to invite and engage with 1,200 designers and architects to raise product and category awareness, translating into sales
- Leverage digital media to start conversations around our products and have a positive impact on sales

B. ENGINEERED WOOD FLOORING

Snapshot

## Market overview

With no manufacturer of engineered wood flooring in India, most of these products are imported from Europe, South East Asia and China. The products started getting popular from the middle of 2005-06 and today, about 1.75-2.00 million sq. m of these products are imported into the country every year. Europe and China are the predominant producers and account for more than 80% of the global capacity available for engineered wood flooring.

Greenlam Industries is the only manufacturer of engineered wood flooring in India with a capacity of 1 million sq. m per annum. Having commenced production in September 2014, Mikasa, the brand of engineered wood flooring from Greenlam Industries, is making significant inroads into the Indian market and competes with global players being brought into the country by established importer-distributors, focusing on import substitution.

## Our positioning

In 2016-17, Mikasa strengthened its market presence by appointing and activating network partners (dealers and retailers) in all the major consumption points of the country. With a sales force comprising more than 35 trained and committed personnel, Mikasa was able to competitively present the product portfolio to all major designer and architectural firms and started to gain the confidence of these specifiers.

The principal market segments for Mikasa include residential renovation, residential multi-unit projects, commercial spaces like chain stores and retail outlets, office spaces, hospitality (hotel rooms and restaurants), airport lounges and shops, schools and gymnasiums, among others. We have employed cutting-edge technology for producing world-class floorings in India.

Our entire raw material for the manufacture of these products is imported from ethical sources and our

water-based lacquers and stains do not generate any VOCs. All Mikasa floors are conditioned separately to deliver finished floors suitable to the hot and humid environment of the local market. All these features of the products allow us to position them as a premium range of floorings which the consumers can enjoy for years to come. Our products are positioned and priced as 'Real wood affordable premium floorings made in India' and we are about 10-15% more affordable than comparable European products and technologically-better than most Asian imports.

## Highlights, 2016-17

During the year under report, we spread our network in various regions including Metros, Tier I and Tier II cities. With this, we are now concentrating on consolidating the trade channels, increasing presence in furniture and furnishing outlets, tie-up with high-end developers and increasing the specifications from designers and architects. With increasing volumes, we are planning to tap demand on a pan-India basis.

## Industry optimism

Driving the demand in the global wood flooring manufacturing market is the increasing housing construction and renovation activities. With the rapid pace of urbanization, the housing industry has received a major fillip. There has been a continued uptick in activity in the commercial real estate and building remodeling and renovation works as well. This has significantly contributed to the market growth along with increasing purchasing power of consumers who are increasingly opting for green buildings. The rising popularity of pre-finished products and manufactured floors has also raised awareness and driven demand.

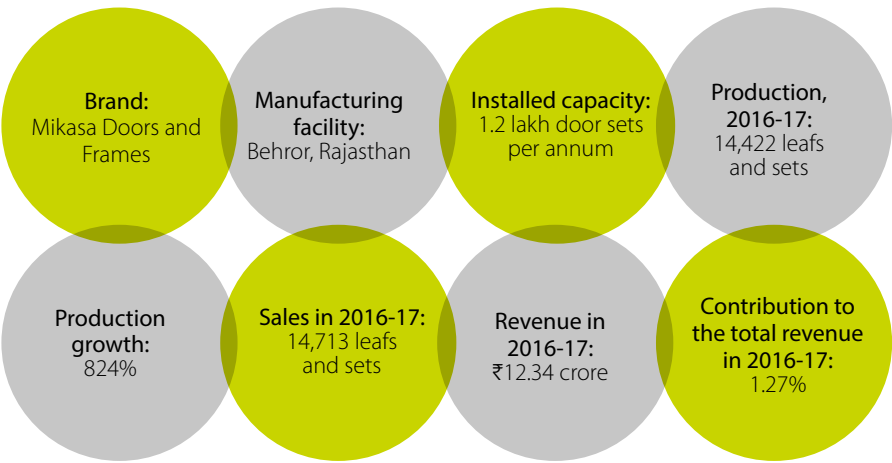

## Business priorities, 2017-18

- ∞ Reinforce our dealer network
- ∞ Enhance product range in the mass-premium segment

## C. ENGINEERED DOORS AND FRAMES

### Snapshot

### Market overview

Globally, the uPVC (un-plasticized polyvinyl chloride) window and door system market share ranges from 60-80% in most countries while the predominant material of construction in India is still timber (in rural and in upper-end constructions), mild steel (in low-cost housing) and aluminum (in urban constructions). As per the latest available estimates, the Indian window and door market was valued at around ₹13,000 crore in 2013-14 and the market share of uPVC windows and door profiles share was about 6-7%.

However, growing awareness about the benefits of uPVC and demographic factors like rapid urbanization, growing concern about energy-efficiency, regulatory changes and aging building stock in the country is expected to change the fortunes of the uPVC windows and doors market in the country. A *United Nations* report suggests that the number of Indian citizens living in urban areas will reach 900 million by 2050 amounting to 55% of its population.

Greenlam Industries is the first organized company to launch engineered, factory-finished door solutions in the country with capacity of 120,000 doors units/sets per annum.

### Highlights, 2016-17

- ∞ Achieved revenue growth of 1,277% to ₹12.34 crore
- ∞ Capacity utilization was ramped up to 12%
- ∞ Achieved good growth in the Southern Indian markets of Hyderabad, Chennai and Bengaluru with reasonably good performance in the Western part of the country
- ∞ Bagged prestigious customer contracts, including that for the super-premium One Avighna Park property in Mumbai
- ∞ Achieved a healthy growth in exports

### Business priorities, 2017-18

- ∞ We are introducing the upgraded fire rated doors this year with fire resistant of 120 minutes
- ∞ We are shifting from flush doors to major particle doors and we are in the take-off stage
- ∞ Our team (Sales and manufacturing) is well trained and ready to take market share for this year
- ∞ This year we are looking to increase our exports and we have already started to find new geographies in MEA region.

## BUSINESS EXCELLENCE DRIVERS

### Operations

#### Overview

At Greenlam Industries, our technology is at par with the global practices and we have internally worked and improvised on different factors that contribute to higher productivity and quality assurance. We are probably the only Indian manufacturers to invest in gloss molds polishing machinery with state-of-the-art technology imported from Imeas, Italy. This is paying returns in terms of consistent delivery of industry-leading high gloss levels and commensurate orders thereof. Importantly, our technology is stable and carries a risk of low obsolescence.

#### Highlights, 2016-17

- ∞ Some of the technological upgradations include the replacement of rotary cutters with conventional pneumatic cutters. These contribute to higher productivity besides ensuring clean cuts at varied speeds and lowering losses
- ∞ Sourced and standardized black pigmented Kraft paper for manufacture of compact laminates
- ∞ Commercialized the production and supply of high value products like ESD laminates, AFX laminates and HD gloss as well as post-forming variants, spangles etc
- ∞ Energy saving drives were taken up post energy audits. Utilities were made more efficient with respect to controlling fuel and dry flue gas losses,

installing flash vessels across steam lines and switching to LED modules; these efforts resulted in an intangible saving of over 1.5% on fuel costs during the year

- ∞ There is a planned and concerted effort to deliver goods more quickly than before. For this, the Company invested in 11 regional distribution centers which stock goods depending on their movement. The requirements of the respective areas are met within short time spans and this has ensured quick and timely delivery of goods to customers

#### Our core strengths

- ∞ Highest capacity in terms of volumes
- ∞ Availability of diverse product sizes to suit end product requirements
- ∞ Consistent quality and supply chain modules
- ∞ Wide range of interior and exterior decorative products and solutions under one brand and under one roof
- ∞ First organized industry for engineered doors and real wood flooring in India

#### Focus areas, 2017-18

- ∞ Introduce veneered compacts and double décor-layered HPLs for shower rooms and pizza and skating boards
- ∞ Increase production by adding press lines
- ∞ Enhance heating facilities with more standby and accumulation machineries and equipment
- ∞ Ramp-up capacity utilization for Mikasa door and flooring units

#### SOMETHING INTERESTING!

Over the last five years, we have reduced rejections from 2.5% to 2% on the finished goods and Kraft paper wastages from 5.5% to 4.5%, demonstrating the effectiveness of our operations and the culture to control wastes.

BUSINESS EXCELLENCE DRIVERS

## Quality

### Overview

During the year 2016-17, the focus was on improving the post-production quality assurance attributes. Towards this extent, we worked on:

- ∞ Eliminating pigeon menace and ensuring hygiene
- ∞ Improving cutting quality
- ∞ Bringing forth innovative methods of packaging overseas goods
- ∞ Peel coating

### Outcome

These initiatives have almost eliminated customer complaints pertaining to the relevant product

attributes. Besides, the emphasis was top-driven and initiatives have been taken to make necessary changes and alterations and training to the concerned personnel has also been imparted. The actions resulting from these initiatives have been revalidated in the form of re-inspection. The exercises have been repeated in order to ensure that the system is in place and becomes sustainable.

### Focus going forward

For us, the measure of quality is the percentage of goods conforming to the specified internal quality assurance norms and SOPs. The basic parameters that the product should meet are appearance norms, dimensional conformances and performance property conformance. Going forward, we will continue to focus on improving these parameters.

BUSINESS EXCELLENCE DRIVERS

## Research and development

### Overview

At Greenlam Industries, our objective is to develop newer products that are introduced in the international markets, to work on improving the performance properties of our existing products and focus on optimizing the cost of production without compromising on end product performance characteristics.

### Highlights, 2016-17

- ∞ Some of our new product developments include:
  - Pizza boards
  - Skating and anti-skid boards
  - Veneered compact
  - Thermo-foldable compacts
  - ESD, AFX and HD gloss' commercial introduction

- Augmented the post formability of HD gloss to a radius as low as 6 mm which is a challenge for the industry
- ∞ Continuously revised and revalidated resin formulations as part of ongoing improvements and cost reduction
- ∞ Modified resin formulations in order to bring forth higher output that resulted from higher machine speeds

### 2017-18 focus areas

- Some of the new products in the pipeline include:
- ∞ Double layered decorative laminates (which have defined water permeability and resistance for 28 days)
  - ∞ High-density fire retardant compacts using filled Kraft paper for European markets
  - ∞ Magnetic laminates in marker and chalk variants and newer textures in different sizes
  - ∞ Work on further cost reduction of existing products

## BUSINESS EXCELLENCE DRIVERS

### Information technology

#### Overview

Greenlam Industries has always considered information technology as a serious business objective. At our Company, we fixed the IT budget at 1% of total revenues.

With cutting-edge IT infrastructure, we are providing solutions to our backend, frontend and after-sales through SAP, CRM and customer sales, respectively. The role of IT at Greenlam has transformed from that of being a service provider to a service enabler. At our Company, IT works closely with all relevant stakeholders to increase the overall business efficiency.

**Currently, the Company has two distinct streams under IT:**

- ∞ Frontend (sales employee)
- ∞ Backend (finance and operations); currently, our backend is supported by SAP

We incorporated a new CRM during the year under review which will support our sales team. This service is expected to increase the efficiency of our sales force, reinforcing product off-take. CRM is expected to help the backend efficiently process orders and facilitate on-

time delivery.

#### Advantages

- ∞ With the help of CRM, we would have better systemic transparency, enabling the right decision at the right time
- ∞ Human dependency will decline through CRM
- ∞ Sales team can have access to track all sales, thereby enabling achieving targets on time
- ∞ Quick notification is sent to the sales team about new launches (with specifications)
- ∞ Enables forecasting capabilities

#### Other highlights

- ∞ For GST, we filled the gaps and are now ready to reap the advantages
- ∞ Established a customer support and redressal portal to support customer grievances
- ∞ Effected SAP authorization audit to keep the system updated; also effected an audit of the Microsoft stack to maintain checks

#### Outlook

Based on the IT audits, we have prepared our roadmap comprising technology upgradation and also IT revamp.

## BUSINESS EXCELLENCE DRIVERS

### Human resources

At Greenlam, we embrace several HR-centric initiatives, anchored on building loyalty and engagement. With 1,732 employees on payroll as on March 31, 2017, the Company's HR policy and practices focus on rejuvenating its intellectual capital and drive benefits of thinking ahead of the market and capitalizing on opportunities with speed and surety. The Company's average attrition level stood at 11% in 2016-17. Our average age of the employee is about 36 years (excluding plant personnel).

#### Highlights, 2016-17

- ∞ Realigned and consolidated the HR team structure
- ∞ Focused on capabilities enhancement through

structured interventions, both on the functional and behavioral side

- ∞ Started various sessions to improve quality of communication skills and customer-centricity
- ∞ Provided exhaustive product training sessions to our sales employees to improve their efficiency
- ∞ Commenced several employee-friendly relationship initiatives including structured monthly celebrations, commonness of Family Day Celebration across the country and many more
- ∞ Focused on three basic pillars of employee development – skills, knowledge and attitude

#### Priorities, 2017-18

- ∞ Introduce Balance Score Cards at Leadership Level and derive Goals Sheets from the same for all employees to achieve synergy and clarity on job roles

- ∞ Focus on skill enhancement – Introduce Sales Academy which will be a structured development approach for all the sales employees
- ∞ Leadership Development interventions for Leadership Level and other Behavioral Development interventions for all other employees

- ∞ Focus on systems-based compliances for alertness and accountability
- ∞ Automation of HR Function to increase efficiency and accuracy levels

## Opportunities

- ∞ There is a sharp shift towards the organised market from the unorganised market due to innovation in terms of product mix, design.

- ∞ With expected implementation of GST from July, 2017, would ensure organised players have an edge over unorganised manufacturers.
- ∞ Conducive macroeconomic factors like a fast-growing real estate sector, increasing consumerism, a greater preference for classy home decor products and burgeoning per capita incomes are expected to bode well for the sector.

## Threats

- ∞ The unorganised segment, which constitutes almost 45% (in terms of value) and 65% (in terms of volume) of the entire laminates industry, erodes

competitiveness of the organized branded players because of its ability to price products cheaper.

- ∞ Continued increase in cheaper imports of furniture and flooring products from China
- ∞ Spiralling raw material costs and the inability of companies to pass this cost increase to consumers on account of high competitive intensity

## Our financial performance

The Company's revenues grew by 3.6% to ₹970.44 crore in 2016-17 following an improvement in terms of sales

volumes. EBIDTA stood at ₹126.67 crore compared to ₹123.92 crore in the previous year. Interest cost decreased to ₹25.30 crore in 2016-17 compared to ₹27.77 crore. The Company reported a post-tax profit of ₹42.95 crore in 2016-17 compared to a post-tax profit of ₹40.34 crore in the previous year.

## Internal control systems and their adequacy

The Company has in place robust internal control procedures commensurate with its size and operations. The Board of Directors, responsible for the internal control system, sets the guidelines, verifying

its adequacy, effectiveness and application. The Company's internal control system is designed to ensure management efficiency, measurability and verifiability, reliability of accounting and management information, compliance with all applicable laws and regulations, and the protection of the Company's assets so that the company's main risks (operational, compliance-related, economic and financial) are properly identified and managed over time.

## Risks and concerns

As a business, though Greenlam is exposed to a number of risks, the Company has evolved certain time-tested initiatives and practices that have enabled it to ring fence its viability and sustainability.

Competition risk	Though the unorganized segment of the market represents a core risk, the proposed implementation of the GST Act is a game-changer for the laminates industry as it will enable a shift to organized constituents of the market. In this scenario, Greenlam enjoys an entrenched brand recall, unparalleled distribution network and a wide bouquet of products across laminates and veneers categories that will enable it to ride the favourable regulations.
Product risk	The Company's products might no longer be relevant for consumers. In fact, this is a virtually minimal risk as laminates and veneers are established surface products whose market has been registering a decent rate of growth in India and also globally. Besides, the huge range of offering under these categories has only grown their appeal among customers.
Brand risk	Brands play an important role in the sales and marketing of laminates and Decorative veneers. In this context, Greenlam Industries has positioned itself as a global brand in the decorative surfacing product market by being one stop solution for all surfacing needs.
Financial risk	For a working capital-intensive industry, prudent fiscal management is important for operational sustainability. In a significant initiative, the Company enforced a stipulated trade credit period. Though applied during the second half of the fiscal 2016-17 it has resulted in significant control over working capital and cash flow, the full impact of this will be evident this year onwards, enabling us to better manage our working capital and cash flow cycle.
Manufacturing and quality risk	At our Company, we operate state-of-the-art manufacturing facilities with documented processes that enable us to manufacture products in compliance with the highest quality standards, cost effectively with maximum resource consumption and minimal wastages. This also makes our operations compliant with all environmental rules and regulations.
Distribution risk	The Company enjoys an FMCG-like distribution network with a presence across India and in 100+ countries around the world. Our supply chain is robust and dynamic, allowing us to meet customer demands with speed and surety.
IT risk	Greenlam possesses state-of-the-art IT infrastructure and support through SAP-based ERP that integrates the entire ecosystem to ensure the availability of real-time information that in turn enhances the quality of decision-making and ensures the contemporariness of systems and processes.

xv. **Commodity Price Risk or Foreign Exchange Risk and Hedging Activities:**

The Company has significant foreign exchange exposure towards imports, exports, foreign currency assets and liabilities. With respect to managing the foreign exchange risks, the Company hedges the net outstanding of foreign currency exposures on fortnightly basis thereby mitigating the foreign exchange risk. The unhedged foreign currency exposure has a natural hedge thereby eliminating majority of foreign exchange risk. Commodity pricing does not have direct bearing but has an indirect bearing on the Company since, some of our chemical consumption is linked to crude prices. The Company maintains a policy of hedging its 60 days of consumption by doing forward buying.

## Independent Auditors' Report

To  
The Members of  
Greenlam Industries Limited

### REPORT ON THE STANDALONE FINANCIAL STATEMENTS

We have audited the accompanying standalone financial statements of GREENLAM INDUSTRIES LIMITED ("the Company"), which comprise the Balance Sheet as at 31 March 2017, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

### MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and Companies (Accounting Standards) Amendment Rules, 2016. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the

accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2017, and its profit and its cash flows for the year ended on that date.

### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

## Annexure 'B' to the Independent Auditor's Report of even date on the Financial Statements of Greenlam Industries Limited

### REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

To  
The Members of  
**Greenlam Industries Limited**

We have audited the internal financial controls over financial reporting of GREENLAM INDUSTRIES LIMITED ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting

was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

#### MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or

disposition of the Company's assets that could have a material effect on the financial statements.

#### **INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **OPINION**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

#### **EXPLANATORY PARAGRAPH**

We also have audited, in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act, the financial statements of Company, which comprise the Balance Sheet as at March 31, 2017, and the related Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information, and our report dated 25th May, 2017 expressed an unqualified opinion thereon.

## Significant Accounting Policies

### 1.00 SIGNIFICANT ACCOUNTING POLICIES:

#### 1.01 DISCLOSURE OF ACCOUNTING POLICIES (AS-1):

##### 1.01.01 Nature of Operation

Company is engaged in the business of manufacturing laminates, decorative veneers and allied products through its factories at various locations and branches and dealers' network spread all over the country. It has two wholly owned subsidiary companies operating in overseas countries. It imports raw materials for manufacturing. Manufactured goods are sold both in domestic and overseas markets. The Overseas subsidiaries of the Company are mainly engaged in marketing and distribution of Company's products.

##### 1.01.02 Accounting Concepts & Basis of Presentation

The financial Statements are prepared in accordance with the Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as specified in the Company (Accounting Standards) Rules 2006 read with Rule 7(1) of the Companies (Accounts) Rules, 2014 and the provisions of the Companies Act, 2013. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Company's management evaluates all recently issued or revised accounting standards on an on-going basis.

The Normal Operating Cycle for the Company has been assumed to be of twelve months for classification of its various assets and liabilities into "Current" and "Non-current".

Where changes are made in presentation, the comparative figures of the previous year are regrouped and re-arranged accordingly.

##### 1.01.03 Use of Estimates:

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

#### 1.02 VALUATION OF INVENTORIES (AS-2):

1.02.01 Stock of Raw Materials, Stores and spare parts are valued at lower of cost or net realisable value; and of those in transit related to these items are valued at lower of cost to date or net realisable value.

1.02.02 Goods-in-process is valued at lower of cost or net realisable value

1.02.03 Stock of Finished goods is valued at lower of cost or net realisable value

1.02.04 Stock-in-trade is valued at lower of cost or net realisable value.

1.02.05 Waste and scraps are accounted at estimated realisable value.

1.02.06 Cost of inventories is ascertained on the 'weighted average' basis. Goods-in-process and finished goods are valued on absorption cost basis.

1.02.07 The self-generated Certified Emission Reductions (CERs) are recognized as asset on certification by UNFCCC and are valued at lower of cost or net realisable value.

#### 1.03 CASH FLOW STATEMENT (AS – 3):

Cash flows are reported using indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from regular revenue generating, financing and investing activities of the Company is segregated. Cash and cash equivalents in the balance sheet comprise cash at bank, cash/cheques in hand

## Significant Accounting Policies

and short term investments (excluding pledged term deposits) with an original maturity of three months or less.

### 1.04 CONTINGENCIES AND EVENTS OCCURRING AFTER BALANCE SHEET DATE (AS -4):

Disclosure of contingencies as required by the accounting standard is furnished in the Notes on accounts.

### 1.05 DEPRECIATION (AS – 6):

1.05.01 Tangible assets are depreciated and/or amortised on the basis of their useful lives as notified in Schedule II to the Companies Act, 2013. Depreciation in respect of additions to assets has been charged on pro rata basis with reference to the period when the assets are ready for use. The provision for depreciation for multiple shifts has been made in respect of eligible assets on the basis of operation of respective units. Where the historical cost of a depreciable asset undergoes a change due to increase or decrease in long term liability on account of exchange fluctuations, the depreciation on the revised unamortised depreciable amount is provided prospectively over the residual useful life of the asset.

1.05.02 Leasehold lands are amortised over the period of lease.

1.05.03 Intangible assets are amortised on straight-line method as follows :

Trademarks	-	10 years
Computer Software	-	5 years
Technical Know-how	-	2 years

### 1.06 REVENUE RECOGNITION (AS -9):

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

1.06.01 **Sale of Goods:** Revenue from sales of goods is recognised on transfer of significant risks and rewards of ownership to the customers. Gross sales shown in the Statement of Profit & Loss are inclusive of Excise Duty but excludes Trade discounts, CST and VAT. Net sales are shown after deducting Excise duty which is disclosed at appropriate places.

1.06.02 **Interest:** Interest income is recognized on a time proportion basis taking into account the amount outstanding and rate applicable.

1.06.03 **Dividends:** Dividend from investment is recognized when the Company in which they are held declares the dividend and when the right to receive the same is established.

1.06.04 **Insurance Claims:** Insurance Claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on grounds of prudence.

1.06.05 **Export Incentives:** Benefit on account of entitlement to import goods free of duty under the Advance Authorisation Scheme, Merchandise Export Incentives Scheme (MEIS), Duty Free Import Authorisation (DFIA) Scheme, and Focus Market Scheme (FMS), are accounted for on accrual basis at estimated realisable value, as and when exports are made i.e., in the year of export. Profit or loss arising on utilisation of the same and/or sale thereof are accounted for in the year in which either the imports are made against the said Advance License, MEIS, DFIA, FMS and/or the same are sold.

### 1.07 ACCOUNTING FOR TANGIBLE AND INTANGIBLE ASSETS (AS – 10):

1.07.01 Tangible assets are stated at original cost (net of tax/duty credit availed) less accumulated depreciation, amortisation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and installation, taxes, duties, freight, other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.

1.07.02 Tangible assets which are not ready for their intended use on reporting date are carried as capital work-in-progress at cost, comprising direct cost and related incidental expenses.

## Significant Accounting Policies

1.07.03 The Company has exercised the option available to it under Rule 46A of the Companies (Accounting Standards) (Second Amendment) Rules, 2011 in respect of accounting for fluctuations in foreign exchange relating to “Long Term Foreign Currency Monetary Items”.

1.07.04 Intangible assets are carried at cost, net of accumulated amortization and impairment loss, if any.

### 1.08 ACCOUNTING FOR THE EFFECTS IN FOREIGN EXCHANGE RATES (AS – 11):

1.08.01 **Initial Recognition:** Transactions denominated in foreign currencies are normally recorded at the exchange rates prevailing at the time of the transactions.

1.08.02 **Conversion:** Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

1.08.03 **Exchange Differences:** Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or expenses in the year in which they arise.

1.08.04 **Forward exchange contracts entered into to hedge foreign currency risk of an existing asset/liability:** The premium or discount arising at the inception of forward exchange contract is recognized as an expense/income on the date of transaction. Any profit or loss arising on cancellation or renewal of such forward exchange contract is also recognized as income or expense for the period. However, in case of long term liabilities, where they relate to acquisition of fixed assets, the income or expense on account of exchange difference is adjusted to the carrying cost of such assets.

### 1.09 ACCOUNTING FOR INVESTMENTS (AS – 13):

Investments that are readily realisable and intended to be held for not more than a year are classified as Current investments. All other investments are classified as Non-Current/Long-term Investments. Current investments are carried at lower of cost and market value on individual investment basis. Non-Current/Long term Investments are considered at cost, unless there is an “other than temporary” decline in value, in which case adequate provision is made for the diminution in the value of Investments.

### 1.10 EMPLOYEE BENEFITS (AS – 15):

1.10.01 Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

1.10.02 Post employment and other long term employee benefits are charged off in the year in which the employee has rendered services. The amount charged off is recognized at the present value of the amounts payable determined using actuarial valuation techniques. Actuarial gains and losses in respect of past employment and other long term benefits are charged to the Statement of Profit and Loss.

### 1.11 BORROWING COSTS (AS – 16):

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

### 1.12 SEGMENT REPORTING (AS – 17):

1.12.01 Identification of Segments:

#### Primary Segment

Business Segment:

The Company's operating businesses are organized and managed separately according to the nature of products, with each segment representing a strategic business unit that offers different products and serves

## Significant Accounting Policies

different markets. The identified segments are Manufacturing and Sale of (a) Laminate & Allied products; and (b) Veneer & Allied products.

### 1.12.01 Secondary Segment

Geographical Segment:

The analysis of geographical segment is based on the geographical location of the customers.

The geographical segments considered for disclosure are as follows:

- Sales within India include sales to customers located within India.
- Sales outside India include sales to customers located outside India.

### 1.12.02 Allocation of Common costs:

Common allocable costs are allocated to each segment according to the ratio of their respective turnover to the total turnover.

### 1.12.03 Unallocated items:

The Unallocated Segment includes general corporate income and expense items, which are not allocated to any business segment.

## 1.13 RELATED PARTY DISCLOSURES (AS – 18):

Disclosure of related parties as required by the accounting standard is furnished in the Notes on accounts.

## 1.14 LEASES (AS – 19):

In accordance with Accounting Standard 19 "Accounting for leases", lease arrangements, where the risks and rewards incidental to ownership of an asset substantially vests with the lessor, are recognized as operating leases. Lease payments under operating leases are recognized as an expense in the Statement of Profit and Loss.

## 1.15 EARNINGS PER SHARE (AS – 20):

Basic earnings (loss) per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

## 1.16 ACCOUNTING FOR TAXES ON INCOME (AS-22):

1.16.01 Tax expenses comprise of current tax and deferred tax including applicable surcharge and cess.

1.16.02 Current Income tax is computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

1.16.03 The differences that result between the profit considered for income taxes and the profit as per the financial statements are identified, and thereafter a deferred tax asset or deferred tax liability is recorded for timing differences, namely the differences that originate in one accounting period and reverse in another, based on the tax effect of the aggregate amount being considered. The tax effect is calculated on the accumulated timing differences at the end of an accounting period based on prevailing enacted or substantially enacted regulations. Deferred Tax Assets and Deferred Tax Liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the Deferred Tax Assets and Deferred Tax Liabilities relate to taxes on income levied by same governing taxation laws. Deferred Tax Assets are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each balance sheet date.

## Significant Accounting Policies

1.16.04 MAT (Minimum Alternate Tax) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

### 1.17 INTANGIBLE ASSETS (AS – 26):

1.17.01 Internally generated intangible asset under development stage is recognized when it is demonstrated that it is technically feasible to use the same and the cost incurred for developing the same is ascertained. Technical Know-how so developed internally is amortised on a straight-line basis over its estimated useful life.

1.17.02 Intangible assets acquired by payment e.g., Trademarks, Computer Software and Technical Know-how are disclosed at cost less amortization on a straight-line basis over its estimated useful life.

### 1.18 IMPAIRMENT OF TANGIBLE AND INTANGIBLE ASSETS (AS-28):

At each balance sheet date, the Company reviews the carrying amount of tangible and intangible assets to determine whether there is any indication of impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and the value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

### 1.19 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS (AS – 29):

1.19.01 Provisions are made when (a) the Company has a present obligation as a result of past events; (b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and (c) a reliable estimate is made of the amount of the obligation.

1.19.02 Contingent liabilities are not provided for but are disclosed by way of Notes on Accounts.

1.19.03 Contingent assets are neither accounted for nor disclosed by way of Notes on Accounts.

### 1.20 EXCISE DUTY AND CUSTOM DUTY:

Excise Duty on finished goods stock lying at the factories is accounted for at the point of manufacture of goods and accordingly, is considered for valuation of finished goods lying in the factories as on the Balance Sheet date. Similarly, Custom Duty on imported material in transit/lying in bonded warehouse is accounted for at the time of import/bonding of materials.

### 1.21 CONSUMPTION OF RAW MATERIALS, STORES & SPARE PARTS ETC.:

The costs of Raw Materials, Stores and spare parts etc., consumed consist of purchase price including duties and taxes (other than those subsequently recoverable by the enterprise from the taxing authorities), freight inwards and other expenditure directly attributable to the procurement.

### 1.22 SERVICE TAX & CESS:

Various expenses are accounted for after deducting the input tax credit available in respect of Service Tax, Education Cess and Secondary & Higher Education Cess.

### 1.23 EXPENSES FOR CORPORATE SOCIAL RESPONSIBILITY:

In case of CSR activities undertaken by the Company, if any expenditure of revenue nature is incurred or an irrevocable contribution is made to any agency to be spent by the later on any of the activities mentioned in Schedule VII to the Companies Act, 2013, the same is charged as an expense to its Statement of Profit and Loss. In case, the expenditure incurred by the Company is of such a nature which gives rise to an asset,

## Significant Accounting Policies

such an asset is recognised where the Company retains the control of the asset and any future economic benefit accrues to it. A liability incurred by entering into a contractual obligation is recognised to the extent to which CSR activity is completed during the year.

### 1.24 MISCELLANEOUS EXPENDITURE WRITTEN OFF:

Expenses related to Scheme of Arrangement, Fee for increase in Authorised Share Capital and Preliminary Expenses are written off in five equal annual installments in accordance with the provisions of Section 35DD of the Income Tax Act, 1961.

## 34. FLUCTUATION IN LONG TERM FOREIGN CURRENCY MONETARY ITEMS

The Company has exercised the option available to it under Rule 46A of the Companies (Accounting Standards) (Second Amendment) Rules, 2011 in respect of accounting for fluctuations in foreign exchange relating to “Long Term Foreign Currency Monetary Items”. Accordingly, it has adjusted a loss/(gain) of ₹(17.07) lacs (Previous year ₹185.56 lacs) during the period to the cost of its fixed assets on account of such difference arising during the current period and has provided for depreciation thereon over the balance useful life of the respective assets. Consequently, the charge to the Statement of Profit and Loss is effected to that extent.

## 35. TAXATION

A firm of Independent Accountants have certified that the Company’s international and specified domestic transactions covered by transfer pricing regulations during the financial year ended 31st March, 2016 were at arm’s length. The Management believes that during the current financial year, similar transactions would have no impact on these financial statements and particularly the amount of tax expense and the provision for taxation.

## 36. LEASES

The company has taken certain vehicles under non-cancelable operating lease arrangements. The future minimum lease payments in respect of such non-cancelable leases as at 31st March, 2017 are summarized below:

## CONSOLIDATED FINANCIAL SECTION

---

## Independent Auditors' Report

To  
The Members of  
**Greenlam Industries Limited**

### **REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS**

We have audited the accompanying consolidated financial statements of GREENLAM INDUSTRIES LIMITED (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") comprising of the Consolidated Balance Sheet as at 31st March, 2017, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

### **MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial

statements by the Directors of the Holding Company, as aforesaid.

### **AUDITORS' RESPONSIBILITY**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a)

of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

#### OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2017, and their consolidated profit and their consolidated cash flows for the year ended on that date.

#### OTHER MATTERS

We did not audit the financial statements of the two foreign subsidiaries whose financial statements reflect total assets of ₹9653.27 lacs as at 31st March, 2017, total revenues of ₹31646.87 lacs and net cash flows amounting to ₹794.53 lacs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the said subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

#### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2017 taken on record by the Board of Directors of the Holding Company, none of the directors of the Group company is disqualified as on 31st March, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as referred to in Note 19.1.1 to the consolidated financial statements.
  - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
  - iii. The Company was not required to transfer any amount to the Investor Education and Protection Fund.
  - iv. The Company has provided requisite disclosures in the financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8th November 2016 to 30th December 2016 and the same are in accordance with books of accounts maintained by the Company and as produced to us by the Management. ## Significant Accounting Policies and notes forming part of Consolidated Financial Statements

### 1.00 SIGNIFICANT ACCOUNTING POLICIES:

#### 1.01 DISCLOSURE OF ACCOUNTING POLICIES (AS-1):

##### 1.01.01 Nature of Operation

Company is engaged in the business of manufacturing laminates, decorative veneers and allied products through its factories at various locations and branches and dealers' network spread all over the country. It imports raw materials for manufacturing. Manufactured goods are sold both in domestic and overseas markets. It has two wholly owned subsidiary companies operating in overseas countries which are mainly engaged in marketing and distribution of Company's products.

##### 1.01.02 Accounting Concepts & Basis of Presentation

The financial Statements are prepared in accordance with the Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as specified in the Company (Accounting Standards) Rules 2006 read with Rule 7(1) of the Companies (Accounts) Rules, 2014 and the provisions of the Companies Act, 2013. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Company's management evaluates all recently issued or revised accounting standards on an on-going basis.

The Normal Operating Cycle for the Company has been assumed to be of twelve months for classification of its various assets and liabilities into "Current" and "Non-current".

Where changes are made in presentation, the comparative figures of the previous year are regrouped and re-arranged accordingly.

##### 1.01.03 Use of Estimates:

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

##### 1.01.04 Companies Included In Consolidation:

Greenlam Asia Pacific Pte Ltd. (Formerly: Gil Intercontinental Pte. Ltd.), Singapore and its four step down subsidiaries viz. Greenlam Asia Pacific (Thailand) Co. Ltd., Thailand, Greenlam Holding Co. Ltd., Thailand, PT. Greenlam Asia Pacific, Indonesia and Greenlam Europe (UK) Ltd, United Kingdom and Greenlam America Inc., Florida (U.S.A), continued to be the wholly-owned subsidiaries of the Company, Greenlam Europe(UK) Ltd is an wholly owned subsidiary of Greenlam Asia Pacific Pte Ltd and minority interest in the step-down subsidiaries viz. Greenlam Asia Pacific (Thailand) Co. Ltd., Greenlam Holding Co. Ltd. and PT. Greenlam Asia Pacific. is 2.5%, 1% and 1% respectively.

The financial statements of the Subsidiaries for the entire year have been included in the Group's Consolidated Financial Statements.

#### 1.02 VALUATION OF INVENTORIES (AS-2):

1.02.01 Stock of Raw Materials, Stores and spare parts are valued at lower of cost or net realisable value; and of those in transit related to these items are valued at lower of cost to date or net realisable value.

1.02.02 Goods-in-process is valued at lower of cost or net realisable value.

1.02.03 Stock of Finished goods is valued at lower of cost or net realisable value.

1.02.04 Stock-in-trade is valued at lower of cost or net realisable value.

## Significant Accounting Policies and notes forming part of Consolidated Financial Statements

- 1.02.05 Waste and scraps are accounted at estimated realisable value.
- 1.02.06 Cost of inventories is ascertained on the 'weighted average' basis. Goods-in-process and finished goods are valued on absorption cost basis.
- 1.02.07 The self-generated Certified Emission Reductions (CERs) are recognized as asset on certification by UNFCCC and are valued at lower of cost or net realisable value.

### 1.03 CASH FLOW STATEMENT (AS – 3):

Cash flows are reported using indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from regular revenue generating, financing and investing activities of the Company is segregated. Cash and cash equivalents in the balance sheet comprise cash at bank, cash/cheques in hand and short term investments (excluding pledged term deposits) with an original maturity of three months or less.

### 1.04 CONTINGENCIES AND EVENTS OCCURRING AFTER BALANCE SHEET DATE (AS -4):

Disclosure of contingencies as required by the accounting standard is furnished in the Notes on accounts.

### 1.05 DEPRECIATION (AS – 6):

1.05.01 Tangible assets are depreciated and/or amortised on the basis of their useful lives as notified in Schedule II to the Companies Act, 2013. Depreciation in respect of additions to assets has been charged on pro rata basis with reference to the period when the assets are ready for use. The provision for depreciation for multiple shifts has been made in respect of eligible assets on the basis of operation of respective units. Where the historical cost of a depreciable asset undergoes a change due to increase or decrease in long term liability on account of exchange fluctuations, the depreciation on the revised unamortised depreciable amount is provided prospectively over the residual useful life of the asset.

1.05.02 Leasehold lands are amortised over the period of lease.

1.05.03 Intangible assets are amortised on straight-line method as follows :

Trademarks	-	10 years
Computer Software	-	5 years
Technical Know-how	-	2 years

#### Relating to Greenlam Asia Pacific Pte. Ltd.

1.05.04 Depreciation on fixed assets is calculated to write off the cost of the assets on a straight-line method over its estimated period of use.

#### Relating to Greenlam America Inc.

1.05.05 Depreciation on fixed assets is provided for on Straight Line Method as used for Federal Income Tax purposes.

#### PT. Greenlam Asia Pacific

1.05.06 Depreciation is provided to write off the cost or valuation, less estimated residual value, of tangible assets over their expected useful economic lives, as follows:

Office Equipment	-	25% reducing balance
------------------	---	----------------------

### 1.06 REVENUE RECOGNITION (AS -9):

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

1.06.01 **Sale of Goods:** Revenue from sales of goods is recognised on transfer of significant risks and rewards of ownership to the customers. Gross sales shown in the Statement of Profit & Loss are inclusive of Excise Duty but excludes Trade discounts, CST and VAT. Net sales are shown after deducting Excise duty which is disclosed at appropriate places.

## Significant Accounting Policies and notes forming part of Consolidated Financial Statements

- 1.06.02 Interest:** Interest income is recognized on a time proportion basis taking into account the amount outstanding and rate applicable.
- 1.06.03 Dividends:** Dividend from investment is recognized when the Company in which they are held declares the dividend and when the right to receive the same is established.
- 1.06.04 Insurance Claims:** Insurance Claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on grounds of prudence.
- 1.06.05 Export Incentives:** Benefit on account of entitlement to import goods free of duty under the Advance Authorisation Scheme, Merchandise Export Incentives Scheme (MEIS), Duty Free Import Authorisation (DFIA) Scheme, and Focus Market Scheme (FMS), are accounted for on accrual basis at estimated realisable value, as and when exports are made i.e., in the year of export. Profit or loss arising on utilisation of the same and/or sale thereof are accounted for in the year in which either the imports are made against the said Advance License, MEIS, DFIA, FMS and/or the same are sold.
- 1.07 ACCOUNTING FOR TANGIBLE AND INTANGIBLE ASSETS (AS – 10):**
- 1.07.01** Tangible assets are stated at original cost (net of tax/duty credit availed) less accumulated depreciation, amortisation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and installation, taxes, duties, freight, other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.
- 1.07.02** Tangible assets which are not ready for their intended use on reporting date are carried as capital work-in-progress at cost, comprising direct cost and related incidental expenses.
- 1.07.03** The Company has exercised the option available to it under Rule 46A of the Companies (Accounting Standards) (Second Amendment) Rules, 2011 in respect of accounting for fluctuations in foreign exchange relating to "Long Term Foreign Currency Monetary Items".
- 1.07.04** Intangible assets are carried at cost, net of accumulated amortization and impairment loss, if any.
- 1.08 ACCOUNTING FOR THE EFFECTS IN FOREIGN EXCHANGE RATES (AS – 11):**
- 1.08.01 Initial Recognition:** Transactions denominated in foreign currencies are normally recorded at the exchange rates prevailing at the time of the transactions.
- 1.08.02 Conversion:** Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.
- 1.08.03 Exchange Differences:** Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or expenses in the year in which they arise.
- 1.08.04 Forward exchange contracts entered into to hedge foreign currency risk of an existing asset/liability:** The premium or discount arising at the inception of forward exchange contract is recognized as an expense/income on the date of transaction. Any profit or loss arising on cancellation or renewal of such forward exchange contract is also recognized as income or expense for the period. However, in case of long term liabilities, where they relate to acquisition of fixed assets, the income or expense on account of exchange difference is adjusted to the carrying cost of such assets.
- 1.08.05 Non-Integral Foreign Operations:** In case of its wholly owned subsidiary company, being non-integral foreign operations, the items are translated by applying (a) actual rates for items of income and expenses in the Statement of Profit and Loss and (b) closing rate in respect of both monetary and non-monetary items in the Balance Sheet. The resulting exchange differences

## Significant Accounting Policies and notes forming part of Consolidated Financial Statements

relating to long-term monetary items are accumulated in a separate account, rather than being recognised in the Statement of Profit and Loss. Such difference is ultimately dealt with when the net investment in the related foreign operation is disposed off.

### 1.09 ACCOUNTING FOR INVESTMENTS (AS – 13):

Investments that are readily realisable and intended to be held for not more than a year are classified as Current investments. All other investments are classified as Non-Current/Long-term Investments. Current investments are carried at lower of cost and market value on individual investment basis. Non-Current/Long term Investments are considered at cost, unless there is an “other than temporary” decline in value, in which case adequate provision is made for the diminution in the value of Investments.

### 1.10 EMPLOYEE BENEFITS (AS – 15):

1.10.01 Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

1.10.02 Past employment and other long term employee benefits are charged off in the year in which the employee has rendered services. The amount charged off is recognized at the present value of the amounts payable determined using actuarial valuation techniques. Actuarial gains and losses in respect of post-employment and other long term benefits are charged to the Statement of Profit and Loss.

### 1.11 BORROWING COSTS (AS – 16):

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

### 1.12 SEGMENT REPORTING (AS – 17):

#### 1.12.01 Identification of Segments:

##### Primary Segment

Business Segment:

The Company's operating businesses are organized and managed separately according to the nature of products, with each segment representing a strategic business unit that offers different products and serves different markets. The identified segments are Manufacturing & Sale of (a) Laminate & Allied products; and (b) Veneer & Allied products.

##### Secondary Segment

Geographical Segment:

The analysis of geographical segment is based on the geographical location of the customers.

The geographical segments considered for disclosure are as follows:

- Sales within India include sales to customers located within India.
- Sales outside India include sales to customers located outside India.

#### 1.12.02 Allocation of Common costs:

Common allocable costs are allocated to each segment according to the ratio of their respective turnover to the total turnover.

#### 1.12.03 Unallocated items:

The Unallocated Segment includes general corporate income and expense items, which are not allocated to any business segment.

### 1.13 RELATED PARTY DISCLOSURES (AS – 18):

Disclosure of related parties as required by the accounting standard is furnished in the Notes on accounts.

## Significant Accounting Policies and notes forming part of Consolidated Financial Statements

### 1.14 LEASES (AS – 19):

In accordance with Accounting Standard 19 “Accounting for leases”, lease arrangements, where the risks and rewards incidental to ownership of an asset substantially vests with the lessor, are recognised as operating leases. Lease payments under operating lease are recognised as an expense in the profit and loss account.

### 1.15 EARNINGS PER SHARE (AS – 20):

Basic earnings (loss) per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

### 1.16 ACCOUNTING FOR TAXES ON INCOME (AS-22):

The consolidated financial statements of the parent and its subsidiaries are combined on a line by line basis by adding together like items of assets, liabilities, income and expenses. Intragroup balances and intragroup transactions and resulting unrealized profits (losses) are eliminated in full. Consolidated financial statements are prepared using uniform accounting policies for the like transactions and other events in similar circumstances to the extent practicable and in case of difference, the same is disclosed.

### 1.17 INTANGIBLE ASSETS (AS – 26):

1.17.01 Tax expenses comprise of current tax and deferred tax including applicable surcharge and cess.

1.17.02 Current Income tax is computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

1.17.03 The differences that result between the profit considered for income taxes and the profit as per the financial statements are identified, and thereafter a deferred tax asset or deferred tax liability is recorded for timing differences, namely the differences that originate in one accounting period and reverse in another, based on the tax effect of the aggregate amount being considered. The tax effect is calculated on the accumulated timing differences at the end of an accounting period based on prevailing enacted or substantially enacted regulations.

Deferred Tax Assets and Deferred Tax Liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the Deferred Tax Assets and Deferred Tax Liabilities relate to taxes on income levied by same governing taxation laws. Deferred Tax Assets are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each balance sheet date.

1.17.04 MAT (Minimum Alternate Tax) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

### 1.18 INTANGIBLE ASSETS (AS-28)

1.18.01 Internally generated intangible asset under development stage is recognized when it is demonstrated that it is technically feasible to use the same and the cost incurred for developing

## Significant Accounting Policies and notes forming part of Consolidated Financial Statements

the same is ascertained. Technical Know-how so developed internally is amortised on a straight-line basis over its estimated useful life.

1.18.02 Intangible assets acquired by payment e.g., Goodwill, Trademarks, Computer Software and Technical Know-how are disclosed at cost less amortization on a straight-line basis over its estimated useful life.

### 1.19 IMPAIRMENT OF TANGIBLE AND INTANGIBLE ASSETS (AS - 28)

At each balance sheet date, the Company reviews the carrying amount of tangible and intangible assets to determine whether there is any indication of impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and the value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value

### 1.20 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS (AS – 29):

1.20.01 Provisions are made when (a) the Company has a present obligation as a result of past events; (b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and (c) a reliable estimate is made of the amount of the obligation.

1.20.02 Contingent liabilities are not provided for but are disclosed by way of Notes on Accounts.

1.20.03 Contingent assets are neither accounted for nor disclosed by way of Notes on Accounts.

### 1.21 EXCISE DUTY AND CUSTOM DUTY:

Excise Duty on finished goods stock lying at the factories is accounted for at the point of manufacture of goods and accordingly, is considered for valuation of finished goods lying in the factories as on the Balance Sheet date. Similarly, Custom Duty on imported material in transit/lying in bonded warehouse is accounted for at the time of import/bonding of materials.

### 1.22 CONSUMPTION OF RAW MATERIALS, STORES & SPARE PARTS ETC.:

The costs of Raw Materials, Stores and spare parts etc., consumed consist of purchase price including duties and taxes (other than those subsequently recoverable by the enterprise from the taxing authorities), freight inwards and other expenditure directly attributable to the procurement.

### 1.23 SERVICE TAX & CESS:

Various expenses are accounted for after deducting the input tax credit available in respect of Service Tax, Education Cess and Secondary & Higher Education Cess.

### 1.24 EXPENSES FOR CORPORATE SOCIAL RESPONSIBILITY:

In case of CSR activities undertaken by the Company, if any expenditure of revenue nature is incurred or an irrevocable contribution is made to any agency to be spent by the later on any of the activities mentioned in Schedule VII to the Companies Act, 2013, the same is charged as an expense to its Statement of Profit and Loss. In case, the expenditure incurred by the Company is of such a nature which gives rise to an asset, such an asset is recognised where the Company retains the control of the asset and any future economic benefit accrues to it. A liability incurred by entering into a contractual obligation is recognised to the extent to which CSR activity is completed during the year.

### 1.25 MISCELLANEOUS EXPENDITURE WRITTEN OFF:

Expenses related to Scheme of Arrangement, Fee for increase in Authorised Share Capital and Preliminary Expenses are written off in five equal annual installments in accordance with the provisions of Section 35DD of the Income Tax Act, 1961.
