MANAGEMENT DISCUSSION & ANALYSIS REPORT

INDUSTRY TREND AND DEVELOPMENT

It is encouraging to note that World Bank and other authorities projected India's GDP to expand to 7.5% or above in the current financial year i.e. 2015-16 on account of increased economic activity and greater stability. However, acceleration in growth is conditional on the development of social and economic conditions of the Country. The Company's principal business being investment in shares and securities, the Company looks forward to increased activities in this segment. However the Management will continue to review the business strategy from time to time depending on the changes in the policy of Government and Reserve Bank of India. During the year under review favourable conditions prevailed in the market which have been reflected in the profitability of the Company.

OPPORTUNITIES AND THREATS

With the positive attitude of the Government and RBI it appears that new opportunities may open up for sustained growth of Investment Companies. However, the Management is not complacent about the future growth of the Company and constantly reviews the ups and downs of the market particularly bearing in mind that the Company is a small sized NBFC and there are plenty of obstacles which may hinder its growth.

OUTLOOK

As earlier stated, not only World Bank but other authorities also appear to be optimistic about the growth potential of India's economy. The financial results of the year under review have improved and it is expected that the current year may produce even better results barring unforeseen circumstances.

Your company is fully aware that the opportunities in the infrastructure and real estate will be many and diverse in nature. While this provides impetus for our sustainable growth, your company is also duly careful that amongst the multiple choices of attractive businesses available we always make the right choice. Your company's business model and its risk management policies and mechanism are being constantly reviewed and upgraded to ensure this.

RISK AND CONCERN

As stated earlier, the Company's business is very much dependent on economic and fiscal policies of Government and RBI. The Management critically examines the ups and downs of the Market and this is a matter of constant concern for the Management. The business strategy needs to be reviewed and corrected suitably to meet the changed situation.

INTERNAL CONTROL SYSTEM

The Company has proper and adequate system of internal control to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and that transaction are authorized, recorded and reported correctly. The Company has effective system in place for achieving efficiency in operations, optimum and affective utilization of resources, monitoring thereof and compliance with applicable laws.

HUMAN RESOURCE DEVELOPMENT

The Company continues to give priority to its human assets. The Company provides a fair and equitable work environment to all its employees. The Company is working continuously to create and nurture an atmosphere which is highly motivated and result oriented.

FINANCIAL PERFORMANCE

The financial performance of the Company for the year under review is discussed in detail in the Directors Report.

CAUTIONARY STATEMENT

Statements made in this Management Discussion and Analysis describing the Company's current position and expectations for the future may be "forward looking statements" within the meaning of the applicable laws and regulations. Actual results may differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operation include the downtrend in the industry – global or domestic or both, significant changes in political and economic environment in India.
