A fresh Certificate of Incorporation pursuant to the said change of name had been issued by ROC, Mumbai.

Risk and concern

The main aim of risk management is to identify, monitor and take precautionary measures in respect of the events that may pose risks for the business. Risk of price fluctuation is based on basic raw material viz. waste paper, chemicals, coal, used in the process of manufacturing. Currently, the risks are reviewed by the management of the Company periodically.

The Company's operations are subject to high working capital requirements. Interest rate risk resulting from changes in prevailing market rates can cause an impact on the financials of the Company. Opportunities and Threats

The Paper industry played a very important role in the world economy. Global consumption of paper and paper board grew from 352 million tonnes in 2005 to 400 million tonnes in 2016. The impact of rising inputs costs and raw material availability over the previous years had subsided but still are much higher compared to other countries, this coupled with cheap imports of finished goods from China and other Asian countries is adversely affecting margins. However, the low per capita consumption of paper and paper board in the Country is bound to increase the consumption of paper with the growth in the GDP. Several factors like Governments increased focus on education sector, increased corporate activity and lifestyle changes, e-commerce, increased demand for packaging, growing affluence of the population, ban on plastic packaging etc., are expected to contribute to increase in the demand for Paper and Paper Board in India. The paper industry in India has become more promising as the domestic demand is on the rise. In the coming year, expecting significant increase in consumptions of paper and paper board products in domestic market.

Demonetization has affected the pace of growth of the company due to non-availability of waste papers from the domestic market

in last two quarters of the financial year under review. Post demonetization, paper industry is slowly came to the revival stage. Further, increasing coal and logistics cost, small and unorganized industry players, sourcing of raw materials i.e. waste paper pose as a challenge to the Industry.

ANNEXURE - B TO INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Balkrishna Paper Mills Limited ("the Company") as of 31 March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENT**NOTE NO. 1****SIGNIFICANT ACCOUNTING POLICIES****Basis of Accounting**

The accounts have been prepared in accordance with historical cost convention and on accrual basis.

Use of Estimates

The presentation of financial statements in conformity with the generally accepted accounting principles requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual and estimates are recognized in the period in which the results are known/ materialised.

Fixed Assets

- A) Fixed Assets are stated at cost less depreciation. Cost comprises of purchase price and attributable expenses (including financing charges, if any) and is net of permissible credits/set offs.
- B) Expenditure (including financing charges, if any), incurred for fixed assets, the construction/ installation /acquisition of which is not completed, is included under the Capital Work-in-Progress and the same is related/classified to the respective fixed assets on the completion.

Depreciation/Amortisation

Depreciation on fixed assets (other than leasehold land) has been provided based on useful life of the assets in accordance with Schedule II to the Companies Act, 2013, on Straight Line Method except in respect of Plant and Machineries where the useful life is considered differently based on an independent technical evaluation as 9 to 30 years.

Premium on Leasehold Land is amortised over the duration of the Lease.

Investments

Investments are valued at cost plus attributable expenses of acquisition and are classified as Long Term Investments and Current Investments (investments intended to be held for not more than one year) as the case may be. Current Investments are stated at lower of cost and fair value, computed on individual investment basis. Long Term Investments are to be stated at cost except where there is a diminution in the value, other than temporary, necessary provision will be made to recognise the decline.

Valuation of Inventories

Inventories are valued at lower of the cost and net realizable value. Cost of inventories is computed on first in first out (FIFO) basis. Cost comprises of all costs of purchases, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Sales

Sales are inclusive of Excise Duty but excluding Value Added

Tax/Central Sales Tax and are net of Trade Discounts, Rebates and Incentives.

Export Benefits

Export Incentive under Duty Drawback Scheme and MEIS-Merchandise Exporters from India Scheme under the EXIM Policy is accounted for in the year of Export.

Foreign Exchange Transactions

Transactions in foreign currencies are accounted at the exchange rates prevailing on the day of the transaction. Gains and losses arising out of subsequent fluctuations are accounted for on actual payment/realisation. Monetary items related to foreign currency transactions, remaining unsettled at the end of the year are adjusted at the rates prevailing at the year end or are stated at the amounts likely to be realised or required to be disbursed. The exchange fluctuation arising on account of such adjustments are dealt in Statement of Profit and Loss. Non-monetary items are reported by using the exchange rate on the date of transaction.

Employee Benefits:

- A) Short-term employee benefits:

Short-term employee benefits consisting of wages, salaries, social security contributions, ex-gratia and accrued leave are recognised in the year to which it relates.

- B) Post employment benefits:

- i) Benefits in the nature of contribution to provident fund, employee state insurance scheme etc. provided by the company to its employees have been identified as defined contribution plans in terms of provisions of AS-15 on "Employee Benefits" where the obligation of the company is limited to a pre-agreed amount as fixed by the administrator of those plans. Such contributions are recognised in the year to which they relate.
- ii) Benefit in the nature of gratuity paid by company to its employees has been identified as defined benefit plan in terms of provisions of AS-15 on "Employee Benefits". The gratuity scheme in respect of the Employees of the company is administered through Life Insurance Corporation of India (LIC). Annual contributions as determined by LIC are charged to profit and loss account. The liability of the company is also determined through actuarial valuation technique at balance sheet date and the additional liability, if any, arising out of the difference between the actuarial valuation and the plan assets as at the balance sheet date is provided for at the year end.

Borrowing Cost

Borrowing costs directly attributable to the acquisition/ construction/installation of fixed assets are capitalised as part of the cost of the assets up to the date the assets are put to use. Other borrowing costs are charged to Statement of Profit and Loss.

Taxation

Provision for current tax is made and retained in the accounts on the basis of estimated tax liability as per the applicable provisions of the Income Tax Act, 1961.

Deferred tax assets and liabilities are recognised for timing differences between the accounting and taxable income, based on tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets, subject to the consideration of prudence, are recognised only if there is reasonable certainty that sufficient future taxable income will be available, against which they can be realised. At Balance Sheet date, the carrying amount of deferred tax assets is reviewed to reassure its realisation.

Leases

Assets acquired on leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease rentals are charged to the Statement of Profit and Loss on accrual basis.

Impairment

The carrying amount of an asset is reviewed at Balance Sheet date for any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

Provisions, Contingent Liabilities and Contingent Assets

A provision is made based on a reliable estimate when it is probable that an outflow of resources embodying economic benefit will be required to settle an obligation. Contingent Liabilities, if material, are disclosed by way of note to accounts. Contingent Assets are not recognised or disclosed in the financial statements.
