Forward-looking statement

In this annual report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipates', 'estimates', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Adani Transmission Limited is the largest private power transmission company in India.

The Company's principal objective is to address the vast potential in India's transmission sector.

The Company has responded to this vast national opportunity with corresponding urgency: a vision to achieve the ambitious target of 20,000 circuit kilometre of transmission lines by 2022 to help the country deliver power to the 'last mile'.

At Adani Transmission, we encapsulated our long-term commitment in just four words: 'Transmitting power, distributing hope'. While our main motto remains 'Engineered for the future!'

India suffers from a growing appetite for power at one end and the absence of power transmission capacity at the other. Adani Transmission brings to this reality a combination of scale, certification and first-mover's advantage.

The Company is:

- India's largest private sector transmission company.
- India's first private HVDC utility.
- India's first private sector player to receive Global Investment grade rating in the power sector

The Group's resources business obtains coal from mines and trading and extends to oil and gas production. It is developing and operating mines in India, Indonesia and Australia.

Resources

The Group's resources business obtains coal from mines and trading and extends to oil and gas production. It is developing and operating mines in India, Indonesia and Australia. It is also importing and trading coal from a number of countries. Currently, we are the largest coal importer into India. Our extractive capacity increased three-fold to 5 million metric tonnes in 2015 and we aim to extract 200 million metric tonnes per annum by 2020, making ours one of the largest mining groups in the world.

Logistics

The Group's logistics business comprises a large network of ports, special economic zones and multi-modal logistics – railways and ships.

The Group owns and operates 10 ports and terminals: Mundra Port, Dahej Port, Kandla Terminal and Hazira Port in Gujarat, Dhamra Port in Odisha, Mormugao Terminal in Goa and Vizag Terminal in Andhra Pradesh. The Group is also developing a terminal at Ennore in Tamil Nadu and a mega transshipment terminal at Vizhinjam, Kerala.

Energy

The Group's energy business comprises power generation, transmission and gas distribution. Adani is the largest thermal power producer in India's private sector with an installed capacity of 10,560 megawatt (including a 40 megawatt solar plant at Bitta, Gujarat). Four of our power projects are spread across Gujarat, Maharashtra, Karnataka and Rajasthan. We also provide a range of reliable environment-friendly CNG and PNG energy solutions.

- The Adani Group is the largest private sector power producer in India
- The largest coal importer in India
- The largest port operator in India
- The largest edible oil manufacturing capacity in India
- The largest private sector power transmission company in India

Chairman's statement

Dear fellow Stakeholders,

**"Be not afraid, for all great power throughout the history of humanity has been with the people. From out of their ranks have come all the greatest geniuses of the world. Be not afraid of anything. You will do marvellous work!"
- The visionary Swami Vivekananda**

The philosophy of this great visionary appears more relevant now than ever before.

India stands at a rare inflection in its existence when there is a coming together of political stability, national vision and economic reforms. We believe that India will retain its position as the world's fastest growing economy; from a sectoral perspective this means that there will be larger demand for electricity; the conventional preference for generating electricity will have to be balanced with a corresponding increase in power transmission sector investments.

India's transmission network as on March 2017 was 367851 circuit kilometers of transmission and 740765 MVA of sub-station capacity fed by 326.8 GW of generating capacity as in March 2017. While generation has grown more than 11% since March 2011, transmission capacity has grown less than 7% since then. The ratio of investment in transmission and distribution to power generation has remained

at less than 50%.

The long-standing skew between power generation and transmission is now reflected in regional imbalances. Northern and Southern India are expected to suffer an aggregate deficit of 31.5 to 41.1 GW and 13 to 19.1 GW respectively. It will thus become imperative to import power from power-surplus regions in India. With this in view, we believe that the Central Government will make unprecedented investments to raise inter-regional transmission capacity from 59.5 GW in March 2016 to 91 GW in March 2022. Besides, India plans to increase renewable energy capacity from 57 GW in FY2016-2017 to 175 GW by 2022, one of the largest global investments in renewable energy, warranting specialised corridors for power evacuation. This increase will be in addition to a large share of India's 3.40 lacs circuit kilometre network of legacy ACSR conductors which will need to be upgraded.

I am pleased to state that the Indian government is addressing

this national priority with the urgency it deserves. It has introduced several policy changes, including amendments to the Electricity Act, coal auction and allocation, Integrated Power Development Scheme, Ujwal DISCOM Assurance Yojana and Deendayal Upadhyaya Gram Jyoti Yojana.

The UDAY scheme was launched to improve the financial health of DISCOMS and power demand. The scheme will enhance distribution efficiencies, moderate power costs, reduce discom interest outflow, strengthen much-needed financial discipline, align consumer tariff with power generation costs and restructure the large debt of utilities. On the other hand, the DDUGJY scheme will enhance rural power supply and strengthen sub-transmission and distribution systems by separating electricity feeders for domestic and agricultural consumption. The country will need nine high capacity green-transmission corridors to evacuate and synchronise the grid across electricity produced from renewable and conventional sources.

I am pleased that this transformation in intent has been carried forward faithfully in policy content. All projects are now awarded through international tariff-based competitive bidding and for an increased concession period by ten years to 35 years; there has been a relaxation in norms to accelerate project construction and development timelines; there is a stronger payment security mechanism that protects the interests of asset owners; the transmission sector share in power sector investments is expected to increase from 20% (FY2012-16) to 33% (FY2017-21); of the 34 inter-state transmission projects awarded through competitive bidding, 26 projects were awarded to the private sector.

As India's largest private transmission

player, Adani Transmission is expected to capitalise most effectively on this national and sectoral transformation. In the last five years, we invested ~US\$2 billion in this business. We currently operate around 5448 circuit kilometer of transmission lines. We have invested in the latest technologies resulting in the highest network availability of over 99.8% in the country, which corresponds to the best global standards.

At the end of the year FY 2015-16, the Company had 5050 circuit kilometers of operational transmission systems addressing power needs in Northern and Western India. I am pleased to state that the revenues for FY 2016-17 were ₹2901.55 crores and bottom-line ₹416.43 crores. Our operational EBIDTA margin of 93.34% was one of the best in the sector.

To take the growth ahead, the Company is constructing 2369 circuit kilometers in Rajasthan, Chhattisgarh, Madhya Pradesh, Maharashtra, Jharkhand and Bihar, which were awarded through a Tariff Based Competitive Bidding process. During the current year, we acquired GMR's transmission assets in Rajasthan. Following the completion of our under-construction projects and acquisitions, our network is expected to increase to 10425 circuit kilometers, which brings us closer to our stated 2020 target of 13,000 circuit kilometers of transmission lines well ahead of schedule.

I am happy to report that in this business of critical national importance, this sector has a lot of untapped potential. The government has outlined a US\$53bn investment plan in the country's transmission sector over five years, the largest ever in a compressed time-frame. The space is marked by only a handful of large Indian players.

Adani Transmission is attractively placed to capture the vast upside: we are possibly the fastest-growing power transmission company in the world. We enjoy a leadership position in India's private power transmission sector. We possess a robust Balance Sheet that provides a combination of accruals and the opportunity to mobilise additional debt to grow the business. We have established operating benchmarks that are among the best in the country, a competence that promises to protect long-term competitiveness. We intend to sustain our momentum to own and operate 20,000 circuit kilometre lengths with a corresponding asset value of ₹40,000 crore by 2022.

At Adani Transmission, we believe that community welfare and environment responsibility must be reconciled with corporate growth. The result is that we are proud of having transformed destinies of 1 lac students, 6 lac healthcare beneficiaries, and more than 11 lacs people across 1470 villages through better physical and social infrastructure.

Our company is driven by a vision to be the globally admired leader in the transmission business with a deep commitment to nation building. We shall be known for our scale of ambition, speed of execution and quality of operations. The business outlook appears attractive and I would like to thank our customers, employees, shareholders, bankers, governments and the Board for their continued support.

Still more interesting is the fact that during FY2016-17, approximately 1.4 billion units could not be traded on the national power exchange due to transmission constraints. To top it all, the prospects of huge capacity addition in the solar and wind segment, in the near future throws up challenges with respect to the absorption of such power from Renewable Energy Sources (RES) into the Indian transmission grid. To address all of the above, a huge strengthening of the transmission infrastructure is required, not only in terms of its resilience, but also in terms of geographical spread.

Recognizing this fact, the Draft National Electricity Plan of December 2016 states that the All-India transmission capacity addition during the 13th Five Year Plan (for a period of 2017-2022) would require a capital investment of ₹2.6 Lakh crores.

Transmission sector reported steady growth during FY2016-17 with an addition of about 26,300 Circuit Kilometers (CKM) of transmission lines and 81,816 MVA of transformation capacity, which was 112.5% and 181.1% of the annual target respectively. As on 31st March 2017, the total transmission capacity of the Inter-Regional Links in India was around 75,050 MW, which is likely to increase to 1,20,750 MW by the end of 13th Plan (2017-2022).

In line with nation's development plan, your company set an

Dear Stakeholders,

The power sector in India is passing through a critical phase. On one hand, the installed capacity outstrips the electricity demand, whereas on the other, the per capita power consumption is low.

ambitious target of building 20,000 CKM by 2022, creating an asset base of around ₹40,000 Crores.

With the transmission sector opening up for private participation, we succeeded in winning good opportunities by securing four BOOM projects comprising 706 CKM of transmission lines and 1585 MVA in transformation capacity through Tariff Based Competitive Bidding (TBCB) route. As per the strategic plan, your Company succeeded in its second acquisition by signing definitive agreements with Reliance Infrastructure Limited for its WRSS assets comprising 3,020 CKM of operational Transmission Lines at 400kV level. We are now India's largest private transmission company and after commissioning under-construction projects by the current financial year end, your company's capacity will increase to 10,425 CKM of transmission lines and 16,415 MVA of transformation capacity.

Your Company places utmost importance in ensuring safety of its

own employees, vendor-employees, visitors and communities. It also focuses on achieving continuous improvement in its safety performance through a combination of systems and processes as well as the co-operation and support of all its employees. This has resulted in 3.9 million safe person hours of work achieved during the FY 2016-17 without any loss-time incident. I feel proud in informing that your Company is now accredited with internationally recognized Management Systems of Quality, Environment & Occupational Health & Safety in O&M and Projects wings. It is now certified by ISO 19001:2015, ISO 14001:2015 & OHSAS 18001:2007 standards for O&M and Projects.

Maintaining its industry-leading performance across operations, your company achieved system availability of more than 99% for the second consecutive year of operation. Your company is committed to deliver the most reliable transmission networks across the future, thereby serving its customers with the best-in-class O&M practices.

Our quest for excellence helped us ensure a robust financial performance in 2016-17. We are pleased to report a top line and bottom line performance of ₹2901.55 crores and ₹416.43 crores, respectively for the year. We operated at an EBIDTA margin of 93.34%, which is one of the best in the industry.

We feel that sustainable development is the pathway to the future, a framework for economic growth, social justice, environmental

stewardship and strengthen governance. At Adani Transmission, we believe in continuous growth of not only the company but also the larger community, people and environment surrounding it. With the relentless efforts of employees, we successfully completed and accomplished the release of our First Sustainability Report (FY2015-16) in accordance with CORE requirement of the GRI G4 guidelines.

Our CSR programs were implemented through the Adani Foundation, which fosters grass-roots economic growth in the regions we operate. Through the Adani Foundation, we empower communities at the ground level by implementing impactful development initiatives across education, healthcare, sustainable livelihoods and rural infrastructure segments.

The days ahead are exciting and we foresee robust growth in the transmission sector. With industrial corridors and Smart Cities turning into reality, this sector will see another round of growth. I would like to take this opportunity to thank our customers, shareholders, employees and the Board for their continued support and trust.

Corporate Social Responsibility

Overview

Adani Transmission's corporate social responsibility (CSR) activities are central to its goal of nation-building. The Company's CSR activities are conducted through Adani Foundation, encouraging specialization, knowledge accretion and best practices. The activities of the foundation are also in line with Sustainable Development Goals and Millennium Development Goals of United Nations, extending beyond territorial boundaries, and directed towards the advancement of humankind.

The Adani Foundation relentlessly

works in empowering communities, enhancing life quality and inspiring the hope of a better future. The Foundation perceives its role as an 'enabler' and 'facilitator', bridging the gaps between existing opportunities and potential beneficiaries, while investing in new facilities and infrastructure. This approach will optimize community and individual growth in a sustainable manner.

Adani's activities cover four core areas, covering virtually all aspects in community transformation:

- Education
- Community Health

- Sustainable Livelihood
- Rural Infrastructure Development

Currently, operational in 12 States, Adani Foundation touches the lives of 4,00,000-plus families in 1,470 Indian villages and towns. The foundation's footprint covers a range of operational locations like Mundra, Ahmedabad, Dhamra, Dahej, Hazira, Tiroda, Udipi, Surguja, Kawai, Vizhinjam, Shimla, Godda and Chhindwara. Adani's human-centric initiatives prioritize sustainability, effectiveness and transparency.

Focus area: Education

Adani Foundation observes a three-pronged approach towards education:

- Adani Vidya Mandir, directed towards meritorious children of economically challenged backgrounds.
- Subsidized schools, providing quality education at marginal costs.
- Government-aided schools, extending support to enhancing infrastructure and learning.

Adani Vidya Mandir: Adani Vidya Mandir is operational in Ahmedabad, Bhadrashwar (Gujarat) and Surguja (Chhattisgarh). The first Adani Vidya Mandir was commissioned in 2008 in Ahmedabad, with the objective of providing economically deprived children with free quality education. The students are provided with free transportation, uniform, textbooks, notebooks and meals. A number of community-based programs and activities are organized, which,

coupled with a value-based curriculum, help students acquire academic capabilities while remaining rooted to their family structures and community values. The present strength of Adani Vidya Mandir, Ahmedabad, is 1,800 students.

The direct impact of AVM initiative is on parents, siblings and students. The indirect impact is on the neighbors and their children. Parents feel proud because their children are studying

in one of the best schools, getting quality education and with ample career growth opportunities. The behavioral skills of most of the children are substantially improved and there is a gradual improvement in subjects like math and science. Children of neighbours are inspired by AVM students and want to be like them in terms of personality, behavior and spoken English. A long-term impact is seen in students who have graduated from AVM.

In the last academic year, the Adani Vidya Mandir in Bhadreswar, comprised 394 students, out of which 134 students belonged to the fishing communities. Since most of the students were first-generation school-goers, there was a need to sensitize parents on the importance of education and ensure community participation. Besides curricular, co-curricular and extra-curricular activities, the school provided additional coaching for the students taking the Board examinations.

The Foundation commissioned Adani Vidya Mandir at Surguja (Chhattisgarh) in 2013 to address the educational needs of children of project site workers. The school was commissioned around the AVM model, providing free quality education to the region's under-privileged children. Some 461 students were enrolled in the school in 2016-17.

Subsidized schools: Adani Foundation provides subsidised quality education to around 3,000 students through Adani Public School in Mundra (Gujarat), Adani Vidyalaya in Tiroda (Maharashtra) and Kawai (Rajasthan), Navchetan Vidyalaya in Junagam (Gujarat) and Adani DAV Public School in Dhamra (Odisha).

Adani Public School in Mundra provides English-based education, affiliated to the CBSE board. The school was awarded the prestigious International School Award by British Council. The Foundation also set up

a subsidised school in the Dhamra port hinterland (Odisha). Adani DAV Public School, Dhamra, caters to 290 students out of which 80% students are from local villages.

Government-aided schools: Adani Foundation supports 543 Government schools in the company's region of operation.

Under the 'Joyful Learning' initiative, more than 2,500 children across 111 government primary schools in villages in and around Mundra were provided with 'Enrolment Kits'. To enhance learning, 'Educational kits' were provided to 6,200 students of 67 government schools in Udupi.

Adani Foundation adopted 47 government schools in Kawai with the objective to enhance quality education through interactive activities. Essay competitions, slogan and quiz competitions, coaching classes for Jawahar Navodiya and 5S training for teachers and students were organized. Infrastructure development, including the construction of playgrounds and toilets, was also carried out.

'Pragna' is an activity-based learning program initiated in government schools to enhance student retention and holistic learning. Extending support to Pragna, the Foundation provided 27 schools across Dahej and Hazira, Gujarat, with material assistance. 52 government nurseries across 15 villages in Hazira were impacted. 44 e-learning kits were distributed in government schools at Tiroda, Maharashtra.

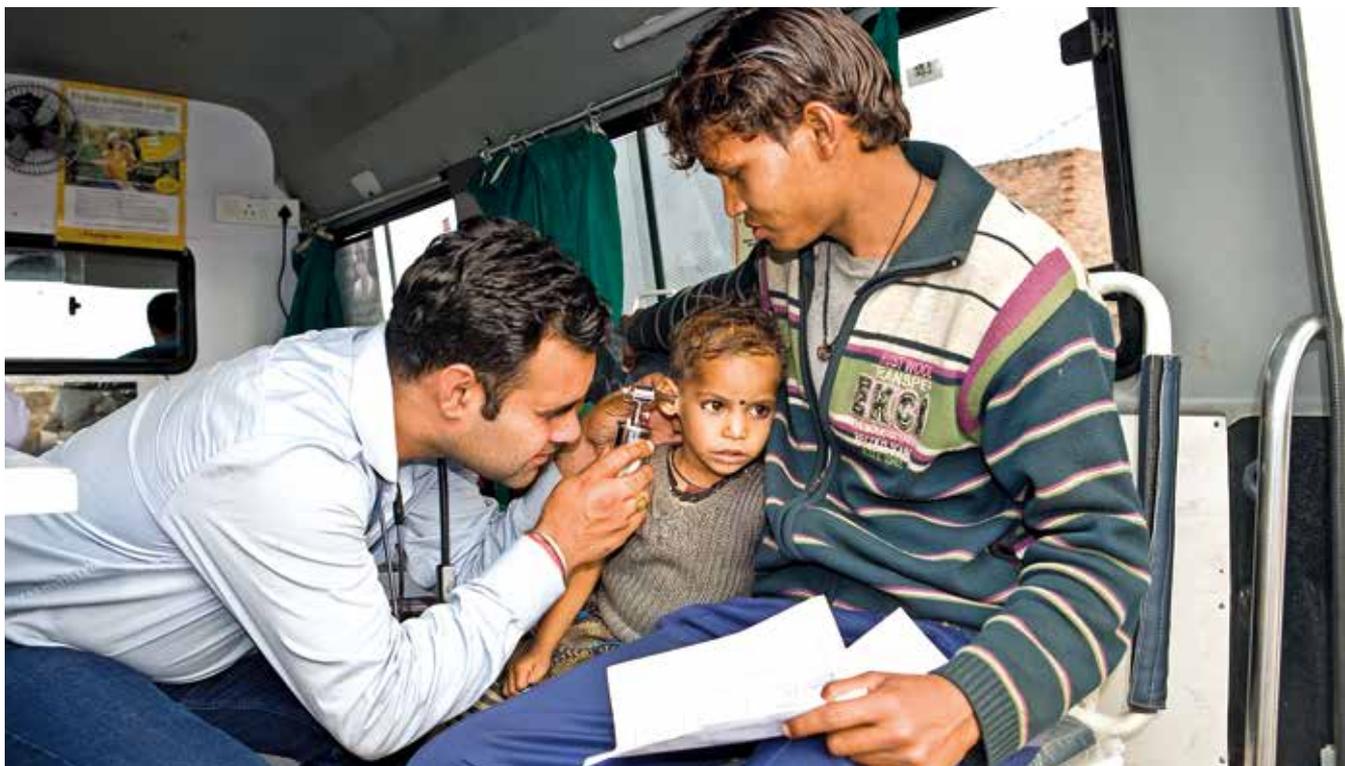

Disha, a career guidance programme was initiated in order to support meritorious students of standards 10 and 12 to pursue higher studies through scholarship, coaching for entrance exam and career guidance workshops.

Project UDAAN: Udaan is a learning-based initiative focusing on creating

exposure for the youth of educational institutes across Gujarat. Under this project, a two-day exposure tour is organized, wherein students are given the opportunity to visit the Adani Port, Adani Power and Adani Wilmar facilities. The aim of the project is to aid students in gaining valuable insights into the working of large businesses, which could inspire them to dream big and explore diverse career opportunities including entrepreneurship. The project was inspired by Mr. Gautam Adani, Chairman of the Adani Group, whose visits to Kandla port as a child inspired him to build a world-class port. The project impacted more than 1,91,000 students from 2,392 schools and colleges. In 2016-17, 44,240 students from 470 institutions visited the Adani establishments in Mundra, Hazira, Tirora, Kawai, Dhamra and Udupi.

Focus area: Community Health

Adani Foundation's objective is to provide 'affordable and accessible healthcare to all'. In line with this vision, the Foundation has commissioned mobile healthcare units, rural clinics, health camps, health cards, and various other programmes.

GAIMS: The Foundation entered into a public-private partnership with the Gujarat government to commission the Gujarat Adani Institute of Medical Science in 2009. The Bhuj College provides MBBS courses to more than 750 students.

Project SuPoshan: The Foundation addresses malnutrition and anemia across women and children through this initiative. Project SuPoshan works with pregnant women, lactating mothers, children of 0-5 years, adolescent girls and women of reproductive age. SuPoshan has

been implemented at 10 operational sites covering 232 villages and five municipal wards.

The project appointed 194 Sanginis (village health volunteers), building their capacity for household surveys, anthropometric measurements, and identification of Severely Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM). Sanginis were also trained to conduct focus group discussions and family counselling sessions.

In 2016-17, 1,12,000 families were sensitized, including 9,000 families who were not a part of panchayat records. More than 5061 focus group discussions and 5,049 family counselling sessions were conducted covering 51,800 women and adolescent girls. Some 148 children were referred to government Child

More than 5061 focus group discussions and 5,049 family counselling sessions were conducted covering 51,800 women and adolescent girls.

Malnutrition Treatment Centers, of which 120 are now in a healthy state. SuPoshan initiated HB screening of women and adolescent girls using the non-invasive apparatus. Since October 2016, 8,933 women and 8,948 adolescent girls have been screened.

G.K. General Hospital: The teaching hospital under GAIMS, G.K General Hospital is a 750-bed multi-specialty hospital and the largest operating hospital in the Bhuj region. The Foundation, through the G.K. General Hospital and the Adani Hospital at Mundra, provides health services to around 2,00,000 patients each year, completely free of cost.

Mobile healthcare units: Adani Foundation's 13 Mobile Health Care Units (MHCUs) address more than 19,000 patients per month, and more than 2,32,823 patients per year across 9 sites (Mundra, Sainj, Tiroda, Surguja, Dahej, Dhamra, Godda, Udupi and Kawai).

At Mundra and Bitta, the Foundation operates two MHCUs, reducing transit time, hardships and expenses for patients in the region. In 2016-17, 46,868 patients from 37 villages and six fisher-folk settlements were treated. In Tiroda, basic healthcare services were provided across 17 villages (22 locations) near Adani Power Maharashtra Limited, providing 44,847 free treatments. In the year under review, 12 rural clinics set up by the Foundation (11 in Mundra and one in Shimla) provided approximately 73,903 free treatments to local patients. The Dahej MHCU treated 20,597 patients in 2016-17.

Health camps: Adani Foundation's health camps comprise of primary healthcare facilities and financial assistance for neurological, heart, kidney, stroke, paralysis and cancer related ailments. The Foundation conducted 58 plus camps providing facilities in gynaecology, cataract

detection, HIV detection and general health programs. Around 22,428 patients are treated annually through Adani Foundation's Health Camps.

Health cards: The Foundation provides Health Cards to senior citizens, which allow them to avail cashless medical services at empanelled hospitals. The project, Vadil Swasthya Yojana, covered 7,487 senior citizens from 66 villages in Mundra and proximate talukas. 9,367 OPD services were availed by cardholders.

Rural clinics: Adani Foundation treats around 73,903 patients each year at its rural clinics. At Mundra, there are 12 rural clinics in 11 villages; in Sainj, there is one full-fledged rural clinic; in Surguja, the dispensary comprises doctors, physiotherapists, lab technicians and pharmacists coupled with treatment facilities.

How Ishwar Dutt was cured

Ishwar Dutt suffered from chronic dermatitis. Dermatitis is an ailment which is common amongst the farmers coming into contact with cow-dung and mud. Ishwar could not afford medication and hospital treatment. A few years ago, Ishwar was introduced to Adani Foundation's Mobile Health Care Unit.

"Thanks to Adani Foundation's Mobile Health Care Units, I received medical facilities within my village, free medicines and timely professional advice. Today, I am cured!" he says.

Focus area: Sustainable Livelihood Development

Adani Foundation's sustainable livelihood program empowers marginalized communities with livelihood opportunities. The Foundation builds social capital, promotes self-help groups, preserves traditional art and organizes skill development programs. The Foundation has empowered numerous peasants and their families through economic independence.

Adani Skill Development Centre:

Adani Skill Development Centre (ASDC) is a not-for-profit organization under the Adani Group Companies. The youngest under the Adani Group, the objective of the organization is to create enabling environments in which youth and women can enhance their employability.

SAKSHAM: The flagship initiative of Adani Skill Development Centre, is built around the vision of creating a saksham India, where the youth are capable of achieving their

goals by transforming into skilled professionals. The objective is to bring world-class skill development opportunities to Indian youths, an opportunity they would otherwise have no access to. The SAKSHAM initiative functions through partnerships with various schemes under the Government of India, and support from esteemed corporates.

Under one initiative, SAKSHAM mobilized candidates across Gujarat who had prior training in plumbing from government ITIs. These candidates were further trained by ASDC as gas technicians. This specialized training in PNG connections was carried out to support the expansion of Adani Gas Ltd.'s city-based gas grid network. The program, entirely supported by Adani Gas Ltd., provided candidates with on-the-job work experience, and a stipend. 23 skilled technicians were successfully placed at Adani Gas

Ltd on the completion of the training course. The initiative is being expanded to 8 different locations in India with support from Adani Gas Ltd. and Indian Oil Adani Gas Pvt. Ltd.

In another initiative, Adani Power Maharashtra Limited and Adani Foundation facilitated the establishment of Adani Skill Development Centre at Tiroda. The centre, inaugurated in December 2016, provides training in two key roles: electrician and welding. The centre owns state-of-the-art training facilities including Augmented Reality Training Simulators for welding. SAKSHAM, at Tiroda, supported 335 youth in 2017-18 through its Placement Linked Training Program, with the support of the Tribal Development Department of the Government of Maharashtra, and a Private Placement Consulting Firm.

SAKSHAM has also worked for the empowerment of women. Training in operating sewing machines was provided to women of Surguja (Chhattisgarh), Kawai (Rajasthan), Dhamra (Odisha) and Godda (Jharkhand). In Surguja, 350 candidates were trained in sewing machine operation and fitter trade. After completion of the training program, the women were placed in jobs. 100% of all fitter trade students were placed. The students trained in operating sewing machines were given orders for stitching school uniforms for Adani Vidya Mandir, Bhadreswar, Gujarat.

In Vizhinjam, Kerala, after a thorough analysis of the skill sets of the local youth, a pedagogic approach was adopted in imparting three skilling programs to the youth, namely, employability skills, construction skills and livelihood or entrepreneurship skills. The Hon'ble Minister of Ports, Shri Ramachandran Kadannappalli, formally launched the Skill Development Program at Vizhinjam on 23rd November, 2016. Some 708 candidates have been

How Sushilatai's destiny changed

Sushilatai, 48, from Kawalewada village in Tiroda was severely affected by a shortfall of rain. Their only means of survival during summer was selling milk, which was meager to support a family of seven.

When Sushilatai heard about Adani Foundation and strong environmental activities, she sought its help for a better future. She substituted her daily chores with vermi-composting. She learned the process and started making dantmanjan (tooth paste) with cow dung ash. One dant manjan made out of cow dung ash is enough for complete oral care. Word spread. Her business flourished under the wings of Adani Foundation and today, she is a successful entrepreneur. Her Dantamanjan and vermi-compost are highly popular.

"With Adani Foundation's support, I started a second vermi-compost unit. This has improved my financial status and boosted my self-confidence," she says.

impacted since the inception of the program.

The State Urban Development Authority, Government of Madhya Pradesh, under its National Urban Livelihood Mission, selected to partner Adani Skill Development Centre to provide Placement-Linked Training Programs in the electrician trade to 400 local youths.

Adani Skill Development Centre aims at making 3,00,000 Indian youths saksham by 2022. ASDC signed an MoU with the National Skill Development Corporation (NSDC) in the presence of Hon'ble Prime Minister of India, Shri Narendra Modi and Shri Rajiv Pratap Rudy (Hon'ble Minister of State Skill Development and Entrepreneurship) on 19th December, 2016. ASDC also signed an MoU with the Government of Gujarat on 12th January 2017 during Vibrant Gujarat 8th Global Summit 2017, in order to establish 2 Skill Development Centres in Gujarat. ASDC is working in phases to set up Skill Development Centres across the nation. As part of the first phase, skill development centres will be set by 2017 in Ahmedabad, Mundra, Surat, Tiroda, Surguja, Vizhinjam, Indore and Bhopal. In 2016-17, Adani Skill Development Centre provided training to a total of 2,986 youths. Some 1,000 candidates were mobilized for skill training in, the First Quarter of 2017-18.

Fisher-folk communities: The Foundation introduced mangrove nursery development and plantation programmes to generate alternative income sources for fisher-folk during the non-fishing season. The community members were trained in mangrove nursery development and plantation and moss cleaning, among others. The programme generated 3,316 person-days of work. This programme also ensured environmental sustainability. The Foundation distributed fishing nets, ropes, buoys, ice-boxes, crates, weighing scales, anchors

and solar lights, among others, to facilitate livelihoods. The Foundation supported 42 Pagadiya fishermen through painting, which ensured 5,068 person-days of employment. The Foundation actively worked with Mundra fisher-folk through community engagement activities. A cricket tournament (Adani Premier League) was organised; 44 teams of 12 villages and 528 fisherfolks participated.

Women empowerment: The Foundation transformed women from rural areas in Mundra into entrepreneurs through vocational training. Around 90 women were trained in preparing washing powder, phenyl, utensil cleaning liquids and hand wash among other household necessities. The women started Saheli Mahila Gruh Udyog shop in Shantivan Colony (Mundra), reporting a surplus. Till date the group has annual turnover of ₹3.70 lacs. The Foundation commissioned women's self-help groups in Mundra, Hazira, Surguja and Dhamra. In Hazira, Project Upahaar helped women launch canteen services. In Dhamra, the SHGs manufactured agarbattis, paddy crafts and papad. In Surguja, Project Unnayan helped SHG women start apparel making enterprises.

Farmer support and animal husbandry: The Foundation collaborated with the Krishi Vigyan Kendra, taking 30 farmers from five Mundra villages on a tour to enhance agriculture technology awareness like; organic farming and biogas bottling plant. Some 2000 farmers from 42 Tiroda region villages implemented System of Rice Intensification across 4155 acres. The Foundation trained them in low-water, labour-intensive and organic methods. The Foundation supported farmers with five kilograms of paddy (Siri NP - 405) seeds and 50 kilograms of vermi-compost while promoting organic paddy cultivation. In Tiroda, SRI helped these farmers reduce cultivation costs.

The Foundation transformed women from rural areas in Mundra into entrepreneurs through vocational training.

Focus area: Rural Infrastructure Development

The Foundation empowers rural communities in developing infrastructure and resources, increasing livelihoods and providing sanitation access. Recognizing the government as the key player in the provision of basic infrastructure facilities, the Foundation endeavours to bridge implementation gaps and facilitate greater responsiveness to basic requirements.

Fisher-folk community: Under the Fisherman Housing Programme, shelters were constructed for fisher-folk residing near the coastline. Some 110 shelters were refurbished and handed over to fisher-folk families at Juna Bandar. 230 individual toilets

constructed for fisherman vasahats/settlements.

Water resourcefulness: Water quality and access are major rural challenges. The Foundation initiated the construction of check-dams and ponds in addition to stream-deepening in Mundra and Tiroda. This year, 39 ponds were deepened, 21 streams were cleaned and 21 farm ponds work was carried out in 43 villages of Tiroda helping recharge the ground water. The initiative increased the capacity of water storage to 2.44 lacs cubic meters. Water level was increased in 924 wells and 387 bore wells. 3,012 acres land (1,224 farmers) will be irrigated. Similarly, pond deepening

The Foundation commissioned reverse osmosis plants in schools and villages. In Belapur, 2,500 people were provided access to clean water at a purification rate of 1,000l/hr.

in Dhruv & Mota Bhadiya village and earthen bund was constructed across the river at Baroi and Bhujpur of Mundra area. A model talab was deepened and constructed at village Antana in Kawai which increased water capacity 54 TCM.

Potable water: The Foundation commissioned reverse osmosis plants in schools and villages. In Belapur, 2,500 people were provided access to clean water at a purification rate of 1,000l/hr. An underground reservoir in Lakhigam Village was constructed to facilitate water supply.

Education infrastructure: The Foundation constructed assembly halls, computer labs and spaces for mid-day meals in Adani Vidya Mandirs and 26 schools. At Dhamra, Adani Foundation decided to develop a new school building to facilitate Adani DAV Public School with proper and adequate infrastructure. A school building measuring 3,501 square metre at an estimated cost of ₹17.28 crores is nearing completion.

At Salhi, Adani Foundation, supported by AEL, constructed a new school building for Adani Vidya Mandir measuring 3,783 square metre at an estimated cost of ₹11.50 crores.

Health infrastructure: The Foundation helped increase hygiene-related awareness among rural communities. People were sensitized about the ill-effects of open defecation; villagers were motivated to achieve 'Nirmal Gam' - a spotless village. The Foundation worked with more than 26 villages in arranging 100% household toilet coverage, constructed 454 household and school toilets benefiting 2,403 people.

SPECIAL PROJECT

Project Swachhagraha:

Swachhagraha (inspired by Gandhiji's Satyagraha Movement and the

government's Swachh Bharat Abhiyan) promotes a 'culture of cleanliness' among the youth. This initiative, in collaboration with our knowledge and implementation partner for the project Centre for Environment Education (CEE), has expanded into six cities across Gujarat (Ahmedabad, Surat, Vadodara, Rajkot, Bhuj and Anand) and three towns (Mundra, Jasdan and Vidyanagar).

During the last year, the campaign became operational in more than 650 schools, creating 13,500 active Swachhagrahis and over 1,350 Preraks in Gujarat. The awareness program reached 3,25,000 students; the community outreach touched more than 1,50,000 individuals. More than 70 schools across 15 states are now implementing Swachhagraha.

Innovative campaigns that helped popularize this initiative comprised

'Selfie with Safaike Sitare', Swachhagraha pledge campaign at Fun Street, street plays by 81 schools, online campaign 'Gandagi se Azadi' and 'Swachhagraha Ke Reporters'. Swachhagraha reached over 8 lac users on social media. A 70-day Swachhagraha campaign over Radio Mirchi, Ahmedabad, reached more than 30 lacs listeners. Swachhagraha also featured on the UNESCO Green Initiative website. Swachhagraha plans to go national in 2017-18, expanding operations across 11 more states.

SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2017

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To

The Members

Adani Transmission Limited

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by ADANI TRANSMISSION LIMITED (hereinafter called the company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company (books, papers, minute books, forms and returns filed and other records maintained by the Company) and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2017, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2017 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made hereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (Not Applicable to the Company during the Audit Period).
 - (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (Not Applicable to the Company during the Audit Period);
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 (Not Applicable to the Company during the Audit Period); and
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 (Not Applicable to the Company during the Audit Period);
- (vi) Laws specifically applicable to the industry to which the Company belongs, as identified by the management, that is to say:

- (a) The Electricity Act, 2003
- (b) The Grid Code, the grid connectivity standards applicable to the Transmission Line and the sub-station as per the Central Electricity Authority (Technical Standards for Connectivity to the Grid) Regulations, 2007, Central Electricity Authority (Technical Standards for Construction of Electrical Plants and Electric Lines) Regulations, 2010.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) The Listing Agreements entered into by the Company with BSE Limited and National Stock Exchange of India Limited read with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

We further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

The Company has framed Corporate Social Responsibility (CSR) Policy which encompasses its philosophy and guides its sustained efforts for undertaking and supporting socially useful programs for the welfare & sustainable development of the society.

The CSR Policy has been uploaded on the website of the Company at <http://www.adanitransmission.com/Investor-relation/investor-download>.

2. **Composition of Corporate Social Responsibility & Sustainability (CSR&S) Committee:**

- Mr. Rajesh S. Adani, Chairman
- Mr. Deepak Bhargava, Member (upto 31st March, 2017)
- Mr. Laxmi Narayana Mishra, Member (w.e.f. 4th April, 2017)
- Mr. K. Jairaj, Member

3. **Average net profit/(loss) of the Company for last three financial years:**

Average net loss: ₹23.87 Crore on standalone basis.

4. **Prescribed CSR Expenditure (two percent of the amount as in item 3 above):**

In view of average losses, the Company was not required to make mandatory CSR expenditure during the year 2016-17 as per Section 135 of the Companies Act, 2013.

5. **Details of CSR spend for the financial year:**

- a) Total amount spent for the financial year: Not Applicable
- b) Amount unspent, if any: Nil
- c) Manner in which the amount spent during the financial year is detailed below: Not Applicable

During FY 2016-17, the Company's subsidiaries have spent ₹4.73 Crores towards CSR activities.

6. **In case the company has failed to spend the two percent of the average net profit of the last three financial years or any part thereof:** Not Applicable

7. **The CSR&S Committee confirms that the implementation and monitoring of CSR Policy is in compliance with CSR objectives and policy of the company.**

8. **Details of CSR programme (on Consolidated basis)**

Adani Foundation is the CSR arm of the Adani Group. Since its inception in 1996, the Foundation has been working in four core areas of Education, Community Health, Sustainable Livelihood Development and Rural Infrastructure Development to extend its support to communities. Working closely with the communities, it has been able to assume the role of a facilitator by creating an enabling environment for numerous families. Adani Foundation is currently operational in 12 states reaching out to 400,000 plus families from 1470 villages and towns of India with a human-centric approach to make the processes sustainable, transparent and replicable. The Company as a business entity firmly believes in the notion of sustainable community development. Assuming the role of a responsible corporate, it strives to create an environment of coexistence where there is an equitable sharing of resources followed by sustained growth and development of the community around. Hence, the Company has been promoting CSR activities through the Adani Foundation.

Education is believed to be the stepping stone to improve the quality of life, especially for the poor and the most vulnerable. The ideology behind all the education initiatives undertaken lies in the very essence of transforming lives through the continuous generation of knowledge and empowerment. To take forward this ideology Adani Foundation established Adani Vidya Mandir, Ahmedabad (AVM-A) with a unique concept which provides cost free education, transportation facilities, uniform, textbooks and notebooks, breakfast, lunch and refreshments to meritorious students coming from under-privileged backgrounds. Today, it has reached the zenith of success with more than 1000 students on roll and has been universally acknowledged for being one of its kinds for providing quality education completely free of cost. It is a day boarding CBSE affiliated co-educational school catering to children from standard 3rd to 12th (Science and Commerce). They have excelled in education, sports, art and culture.

MANAGEMENT DISCUSSION AND ANALYSIS

1. Economic Outlook:

Global Economy

The global economy is in the midst of a decade long slow growth environment characterized by an imminent productivity growth crisis. The looming labor shortage in mature economies and availability of skills in emerging markets will add further challenges to global economic prospect. Global growth lacks demand drivers and potential output is likely shrinking while uncertainty is increasing. The GDP growth rate is expected to be more or less muted over next few years with economies such as India and China are also expected to cool off in near term.

As per the World Bank, global growth is projected to accelerate to 2.7 percent in FY 18¹ and further expected to strengthen to 2.9 percent in FY 19¹, in line with previous projections. However, the world economy continues to face a number of downside risks. These include increased protectionism, heightened policy uncertainty, the possibility of financial market turbulence and over the longer run weaker potential growth. These risks highlight the urgency for policymakers in emerging market and developing economies to rebuild macroeconomic policies and implement policies that support investment and trade.

Indian Economy

The Indian economy is growing strongly and remains a bright spot in the global landscape. The halving of global oil prices that began in late 2014 boosted economic activities in India and helped improve the current account and fiscal position and aided in lowering the inflation. In addition, continued fiscal consolidation by reducing government deficits and debt accumulation and an anti-inflationary monetary policy stance have helped cement macroeconomic stability.

The government has made significant progress on important

economic reforms, which will support strong and sustainable growth going forward. In particular, the upcoming implementation of the goods and services tax will help raise India's medium-term growth to above 8 percent.

And, over the past few months, the economy has been hit by cash shortages, and accordingly, growth forecasts reduced to 6.6 percent for fiscal year 2016-17² and to 7.2 percent in 2017-18².

2. Power Sector Outlook:

Power Generation Sector:

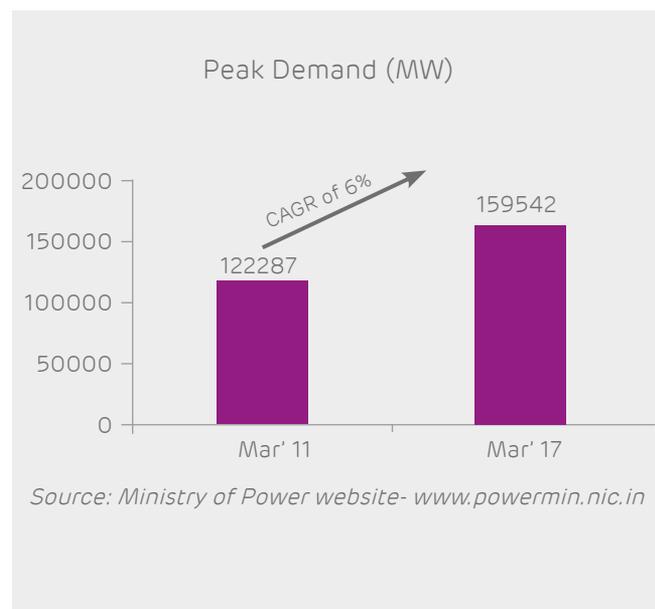

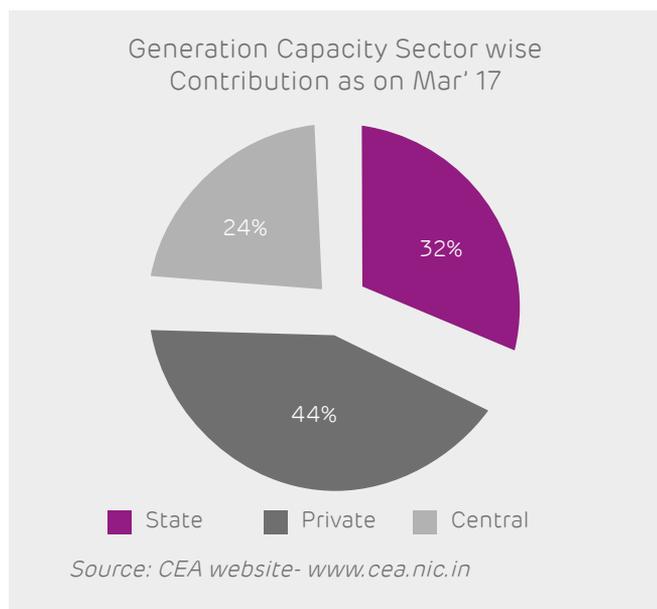

India has seen the generation capacity addition of nearly 153GW in last 6 years and coal-based power plants has contributed nearly 75% (~115 GW) of total capacity addition.

Currently, total power generation installed capacity of the country stands to 326GW, and details of which are as follows:

Sector	THERMAL Coal	Gas	Diesel	Total	Nuclear	Hydro	RES	Grand Total
State	64686	7258	364	72307	0	29683	1977	103967
Private	73142	10581	474	84197	0	3144	55283	142624
Central	54335	7491	0	61826	6780	11651	0	80257
All India	192163	25329	838	218330	6780	44478	57260	326849

Source: CEA website- www.cea.nic.in

However, demand growth has not kept pace with such capacity addition and that is evident from the differential between the expected growth rate of 18th EPS and the actual demand. This has put pressure on the PLFs of coal-based thermal power plants. Approximately, 45 GWs of coal-based capacity with a debt of nearly INR 1.9 trillion³ have been running between 50 – 60 per cent PLF which in-turn makes them unviable in nature. This has multiplier negative impact on economy & has the propensity of increasing the NPAs of Banks.

³Source: <http://energy.economictimes.indiatimes.com/news/power/outlook-for-indias-power-sector-negative-in-fy18-india-ratings/57187204>

According to Central Electricity Authority estimates, 50 GWs of generation capacity is expected to be commissioned during next five years. Out of these 50 GWs, Central and state power utilities would contribute ~60% of the capacity addition and private sector would contribute approx. 40 per cent of total capacity addition. This capacity addition will put additional pressure on the existing power plants and PLF may go south unless there is an uptick in the power demand.

Power Transmission Sector:

India's Power Transmission networks constitute the vital arteries of the entire power value chain. It goes without saying that the growth of power sector is contingent to development of a robust and a non collapsible transmission network.

As on 31st March 2017, total transformation capacity and transmission line length of the country are as below:

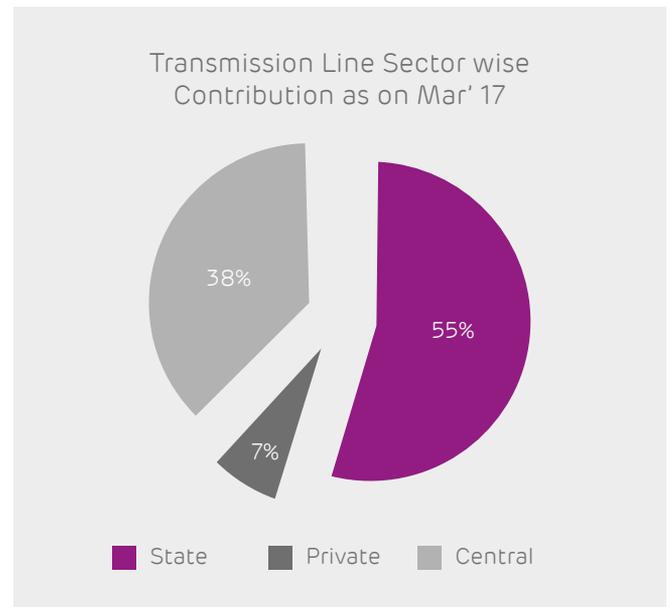

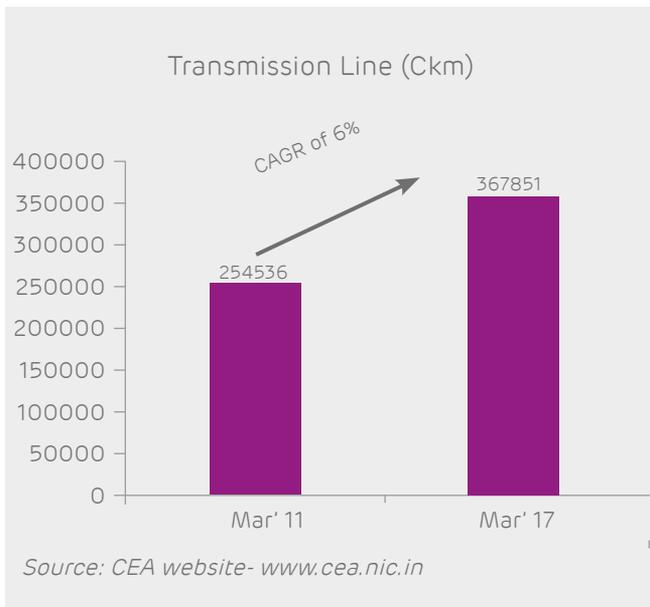

in MVA

	+– 800 kV HVDC	+– 500 kV HVDC	765 kV	400 kV	220 kV	Total

Over the past decades, the total power generation capacity addition has witnessed commendable growth; however, transmission has not kept pace with generation and has grown with CAGR of 6% as against generation which has grown at a CAGR of 11%. As on 31st March, 2017 approx. 7% of total transmission network is owned by private players which showcases the need of more private sector participation in this space. India has been underinvested as far as transmission is concerned, however; recently Govt. has been

encouraging investments in transmission with approximately projects worth INR 30,000 crs. being awarded in last 2 years.

Key Drivers for Transmission Sector in India

Regional demand supply mismatch, large renewable energy push and up-gradation of existing lines driving requirement for transmission capacity. Few of the reasons have been detailed as below:

i. Widening Gap between demand and supply across regions

- As per Ministry of Power (perspective Transmission Plan for 20 years, 2014-34), it is estimated that NR would have deficit of 18.5-22 GW and SR would have deficit -13-19.1 GW. In order to meet this demand deficit, SR and NR shall import power from surplus power regions such as NER and WR.
- To cater the import/export requirement of various regions, CEA has planned number of inter-regional transmission corridors which would result in availability of inter-regional transmission capacity of 118 GW by March 22. As on March 17, the inter-regional transmission capacity stands at 75 GW and therefore provides an opportunity for the transmission project developers.

ii. Large Renewable Energy Capacity addition plans

- India has planned to ramp up renewable energy capacity addition from 38.8 GW in FY16 to 175 GW by 2022. Due to its infirm nature and to provide stability to grid there is a requirement of dedicated corridors for renewable energy evacuation, which would lead to new projects in the pipeline.
- Green Energy Corridors are being setup by the government which includes solar pooling stations, integrated solar-wind projects onto a single network along with other flexible sources of generation.

iii. Up gradation of Existing Lines

- In past, there has been emphasis to use Aluminum Core Steel Reinforced (ACSR) conductors for construction of transmission lines and these conductors largely contribute to India's ~0.34 million ckm network (March 2016). However, ACSR conductors have lower current carrying capacity, lower temperature withholding capacity & lower efficiency as compared to other substitutes such as Aluminum Conductors Composite Core and Copper Clad Composite Conductors.
- A recent World Bank study noted that T&D losses in FY12 was ~1% of the India GDP and upgradation / re-conducting is expected to augment capacity with lower investment, RoW issues, result in higher transmission efficiency.

Investment spending in next five years:

India has been underinvested as far as transmission is concerned; however, future looks bright when one looks at the Govt. plans. Central and State's planning documents were evaluated to estimate the total market size of transmission projects. The expected market size is approx. INR 2.6 Lac Crs in next 5 years.

Business Highlights

Adani Transmission Ltd. (ATL) is the largest power transmission company operating in the private sector in India and owns, operate and maintain around ~5450 ckt kms of transmission lines ranging from 220 KV to 765 KV, with a total transformation capacity of more than 13,500 MVA. ATL has six fully operational Transmission Systems that primarily serve

the Northern and Western regions of India and is developing additional projects of more than 2400 ckm in Rajasthan, Chhattisgarh, Madhya Pradesh, Jharkhand and Maharashtra, which, were awarded through Tariff based Competitive Bidding process. ATL has successfully executed many EHV Sub Stations (HVDC. 765kV 8- 400kV sub stations) along with transmission lines in India.

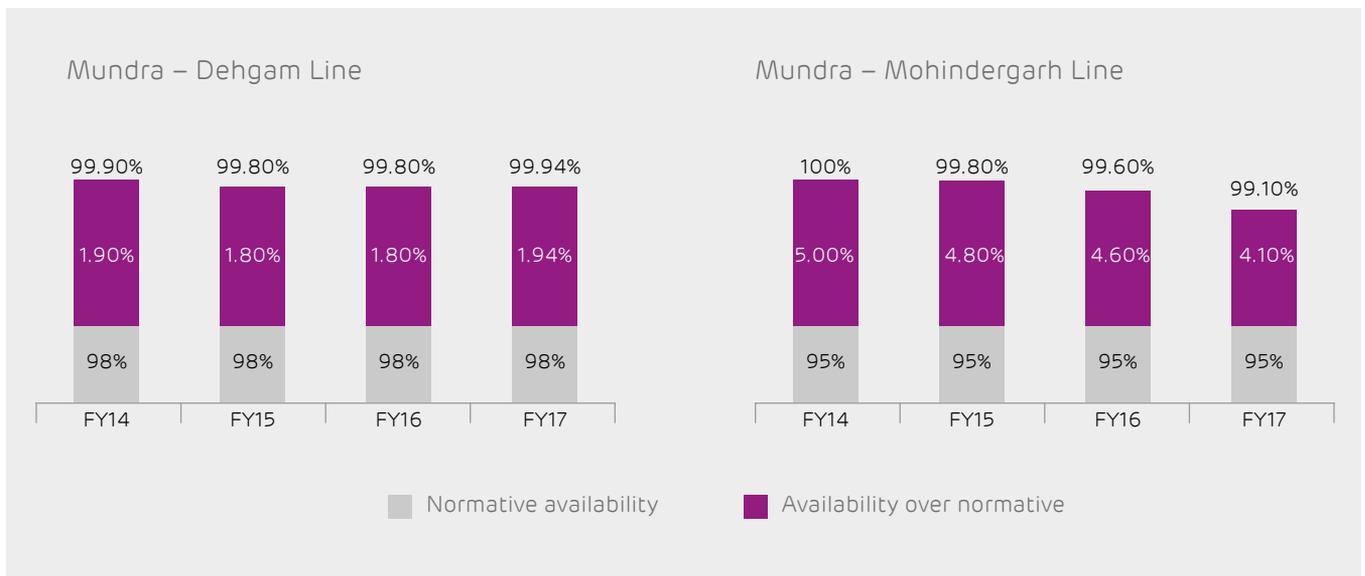

A. Pan India Portfolio

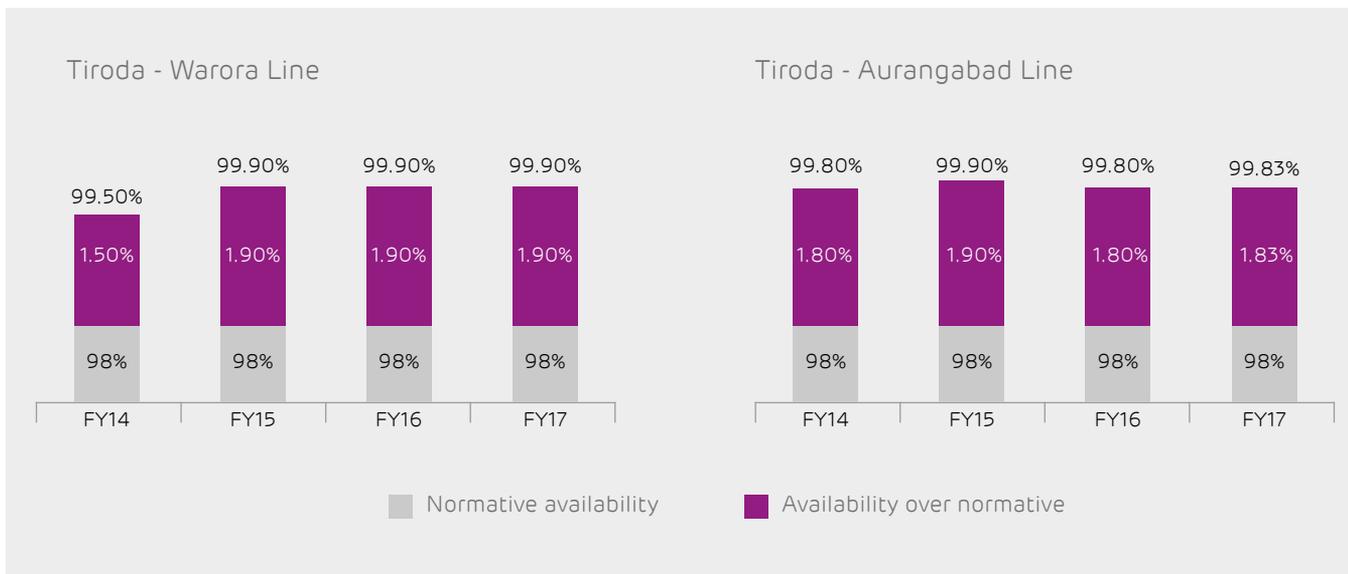

ATL is truly a Pan India player with projects located in Gujarat, Rajasthan, Haryana, Maharashtra, Chhattisgarh, Madhya Pradesh, Jharkhand, Bihar, Punjab and Himachal Pradesh.

A. Operating History

ATL has excellent operating history with track record of receiving incentive payments for maintaining availability above regulatory requirements i.e. 98% for AC system and 95% for HVDC System.

C. Key Achievements of the Company

- i. ATL is the First Private Sector Company in India to execute 765 KV Transmission lines & Substations.
- ii. ATL has established India's only private HVDC transmission system (more than 1,000 km) for efficient transmission of power to the State of Haryana with maximum evacuation capacity of 2500 MW.
- iii. ATL has obtained approval for the Transmission line methodology under CDM (Clean Development Mechanism) from United Nations Framework Convention on Climate Change (UNFCCC).
- iv. ATL had won the bid to establish transmission system under the scheme "Immediate evacuation of Power from North Karanpura (3x660 MW) generation project of NTPC along with establishment of 400/220 KV Dhanbad Substation".
- v. ATL have been awarded three (03) projects in Rajasthan through tariff based competitive bidding to establish transmission system comprising of 220kV and 132kV Substations along with associated transmission works under PPP-08, 09 and 10.

D. Particulars of project execution

i. Additional System Strengthening of Sipat STPS:

The project has been awarded on build, own, operates & maintain (BOOM) basis and involves two transmission lines of length 346 Ckt Kms. and bay at Sipat. The project will provide transmission system strengthening benefits to 7 beneficiaries viz Gujarat Urja Vikas Nigam Ltd (GUVNL), Maharashtra State Electricity Distribution Co Ltd (MSEDCL), MP Power

Management Company Ltd (MPPMCL), Chhattisgarh State Power Distribution Co Ltd (CSPDCL), Electricity Department, Govt. of Goa, Electricity Department, Daman and Diu, Electricity Department, DNH Power Distribution Corp, Ltd. Administration of Dadra and Nagar Haveli.

- Transmission License has already been granted by CERC for 25 years.
- Approval under Section 68 of Electricity Act 2003 obtained from MoP and other clearances are under process.
- Transmission Service Agreement has been signed with all the beneficiaries.
- The project progress is satisfactory.

ii. Additional System Strengthening Scheme for Chhattisgarh IPPS Part-B

The project has awarded on build, own, operate, and maintain (BOOM) basis involves two transmission lines of length 612 Ckt Kms. and switching station at Rajnandgaon. The project will provide transmission system strengthening benefits to 7 beneficiaries viz Gujarat Urja Vikas Nigam Ltd (GUVNL), Maharashtra State Electricity Distribution Co Ltd (MSEDCL), MP Power Management Company Ltd (MPPMCL), Chhattisgarh State Power Distribution Co Ltd (CSPDCL), Electricity Department, Govt of Goa, Electricity Department, Daman and Diu, Electricity Department, DNH Power Distribution Corp. Ltd. Administration of Dadra and Nagar Haveli.

- Transmission License has already been granted

- by CERC for 25 years.
- Transmission Service Agreement has been signed with all the beneficiaries.
- Approval under Section 68 of Electricity Act 2003 obtained from MoP and other clearances are under process.
- The project progress is satisfactory.

iii. System Strengthening for IPPS in Chhattisgarh and Other Generation Projects in Western Region

The project has awarded on build, own, operate and maintain (BOOM) basis involves six transmission lines of length 427 Ckt Kms. sub-station at Morena and bays at two locations. The project will provide transmission system strengthening benefits to 7 beneficiaries viz Gujarat Urja Vikas Nigam Ltd (GUVNL), Maharashtra State Electricity Distribution Co Ltd (MSEDCL), MP Power Management Company Ltd (MPPMCL), Chhattisgarh State Power Distribution Co Ltd (CSPDCL), Electricity Department, Govt of Goa, Electricity Department, Daman and Diu, Electricity Department, DNH Power Distribution Corp. Ltd. Administration of Dadra and Nagar Haveli.

- Transmission License has already been granted by CERC for 25 years.
- Approval under Section 68 of Electricity Act 2003 obtained from MoP and other clearances are under process.
- Transmission Service Agreement has been signed with all the beneficiaries.
- The project progress is satisfactory.

iv. Development of 400kV D/C Suratgarh to Bikaner Transmission Line

The Project has awarded on design, build, finance, operate, and transfer (DBFOT) basis involves 400 KV transmission lines of length appx. 278 Ckt Kms. The project will provide transmission system strengthening benefits to Rajasthan Rajya Vidyut Prasaran Nigam Ltd.

- Transmission License has already been granted by CERC for 25 years.
- Approval under Section 68 of Electricity Act 2003 obtained from Govt. of Rajasthan and other clearances are under process.
- Transmission Service Agreement has been signed with all the beneficiaries.
- The project progress is satisfactory.

v. Establishment of transmission system under the scheme "Immediate evacuation of Power from North Karanpura (3x660 MW) generation project of NTPC along with establishment of 400/220 KV Dhanbad Substation"

The Project has been awarded on build, own, operate, and maintain (BOOM) basis, involves three transmission Lines of length 251 Ckt Kms. and a 400/220 KV sub-station at Dhanbad with 1000MVA transformation capacity. The project will provide transmission system strengthening benefits to South Bihar Distribution Company Limited and North Bihar Distribution Company Limited of Bihar, Jharkhand Urja Vikas Nigam Ltd, GRIDCO Ltd of Odisha and West Bengal State Electricity Distribution Company Ltd.

vi. Development of 220kV and 132kV Substations along with associated transmission system under three projects PPP-08, 09 and 10 in Rajasthan

The Project has awarded on build, own, operate & maintain (BOOM) basis involves 16 Nos of 220kV and 132kV Substations comprising of total transmission lines length of more than 455 Ckt Kms and transformation capacity of 585 MVA. The project will provide transmission system strengthening benefits to distribution companies of Rajasthan.

3. Conservation of Energy

We continue to strengthen our energy conservation efforts right from the planning to the execution stage and subsequently throughout the O&M period. While finalizing transmission elements/equipment, low loss elements/system are given top priority. We have adopted higher voltage levels like 765kV AC, +500kV HVDC, in its transmission development which result in lower losses in the system.

At design stage, optimization of various equipment parameters is done so that losses in the transmission system are optimized. During evaluation of transformer & shunt reactor packages, equipment with minimum losses are given weightage.

Further, to minimize the auxiliary power consumption the company is monitoring the auxiliary power consumption pattern month to month basis and taking steps to reduce the auxiliary power consumption.

4. Technology Absorption

The company has undergone major shift in policy, by establishing full fledged in-house engineering

department. we have procured the state of art software like BOCAD for 3 D modelling of towers and PLS – Tower for analysis and design of towers. With highly skilled and experienced manpower, we are in a position to absorb this technology fully.

By developing in house designs of transmission towers and foundations, over and above cost optimization, we are in a position to carry out our engineering much in advance, allowing more time for the execution of the project.

We have procured 2 licenses of BOCAD software in the year 2016 – 2017, and we have procured 2 licenses of PLS Tower software.

5. Financial Performance

Highlight of the company's consolidated performance for the year are as under :

The financial statements of Adani Transmission Limited and its subsidiaries (collectively referred to as ATL or the Company) are prepared in compliance with the Companies Act, 2013 and Indian Accounting Standards, Rules 2015 (Ind AS).

In accordance with the Companies (Indian Accounting Standards), Rules, 2015 of the Companies Act, 2013, read with Section 133 of the Companies Act, 2013, ATL has adopted the Indian Accounting Standards (Ind AS) for preparation of its financial statements with effect from 1st April, 2016, with comparative financials for the earlier period beginning 1st April, 2015. ATL had been earlier publishing its financial statements prepared under the Indian GAAP.

6. Human Resources

We at ATL have grown exponentially and have seen a drastic change in the way our people are performing. We firmly believe that people are the biggest strength. It is the display of our Values of Courage, Trust and Commitment by our employees that provides us the ability to expand our horizons at this place.

We go beyond the boundaries of Talent Acquisition, compensation, performance reviews etc. and look at employee's well-being holistically. We partner with our employees to ensure timely interventions that help build a career that is long lasting. We nurture employees by putting great emphasis on learning & development, career progression and employee welfare. Towards this end, we have developed and implemented a gamut of employee-centric policies and interventions

We put more focus on Developing and promoting internal talent as part of our people strategy. We assess internal candidates for their potential to take on enhanced responsibilities and leadership roles wherever possible and this strategy ensures that we continue to have strong talent pipelines across all levels. We engage with our employees and offer opportunities to help build successful careers.

Besides this, we have HR policies of the group which are uniform across all the business verticals, which gives us the flexibility to internally transfer the workforce and quickly meet the requirement from within the organization. A number of initiatives are taken to ensure that care and support is extended to the employees through policies which help us improve quality of life of our employees.

We believe that constant feedback on performance and career development helps our workforce perform with greater efficiency. We have rolled out an initiative which ensures a structured appraisal feedback. We recognize that for creating a sustainable organization Identifying Hi – Potential employees and training them for future organizational needs plays a very critical role. Training needs of these high potentials are identified by carrying out Assessment/ development plans. Development of these identified employees is monitored by the Management of the organization.

We have established multiple channels to engage with our employees across all levels. A healthy, happy and engaged workforce is essential for organizational

success. We work in close partnership with our people to understand their health and wellbeing needs and we offer a range of progressive services designed to improve their quality of life.

7. Risks Management Plan

The Company is exposed to various risks such as Indian economy risk, legislative and regulatory risk, currency risk, etc. It is important to have a risk management system to mitigate the risk. The Company's risk management system enables it to recognize and analyze risks early and helps take the appropriate action.

Indian Economy Risk

We derive and expect to continue to derive in the foreseeable future, most of our revenues and operating profits from India. Changes in macroeconomic conditions generally impact the power industry and could negatively impact our power transmission business as far as new projects pipeline is concerned. However, our existing assets have little impact due to very nature of contracts, wherein we have take-or-pay clause with our customers. Accordingly, our operations would be not be impacted much as far as business environment in India is concerned.

Legislative and Regulatory Risks

Changes to the regulatory environment and the laws, rules and directives of the Government of India, including as they impact statutory payment pooling bodies and dispatch bodies, may negatively impact the management of our operations and our ability to secure required approvals, permits or licenses. We have a team which continuously monitor the changes in regulatory and statutory environment and take corrective steps as and when required.

Currency Risk

The Company maintains its accounts and reports its financial results in rupees. However, the Company is exposed to risks relating to exchange rate fluctuations. For mitigation of the risk company has in place the foreign exchange hedging strategy, wherever required.

Technological Risk

Changes in technology may render our current technologies obsolete or require us to make substantial capital investments. We strive to keep our technology up to date with the latest international technological standards. Our success will depend in part on our ability to respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis.

8. Internal Control System

The Company has put in place strong internal control systems and best in class processes commensurate with its size and scale of operations.

A well-established multidisciplinary Management Audit & Assurance Services consists of professionally qualified accountants, engineers and SAP experienced executives which carries out extensive internal audits throughout the year, cutting across all functional areas and submits its reports to Management and Audit Committee about risk management, compliance with internal controls and efficiency and effectiveness of operations. Some Key Features of the Company's internal controls system are:

- Adequate documentation of Policies & Guidelines.
- Preparation & monitoring of Annual Budgets thru monthly review for all operating & service functions.
- Management Audit department prepares Risk Based Internal (RBIA) Scope with the frequency of audit being decided by risk ratings of areas / functions. Risk based scope is mutually accepted by various functional heads / process owners / CEO & CFO.
- The entire internal audit processes are web enabled and managed on-line by Audit Management System (AMS).
- The Company has a strong Compliance Management System which runs on an online monitoring system.

- Company has a well-defined Delegation of Power with authority limits for approving revenue & capex expenditure.
- Company uses ERP system to record data for accounting, consolidation and management information purposes and connects to different locations for efficient exchange of information.
- Apart from having all policies, procedures and internal audit mechanism in place, Company periodically engages outside experts to carry out an independent review of the effectiveness of various business processes and invites suggestions for process improvement.
- Internal Audit is carried out in accordance with auditing standards to review design effectiveness of internal control system & procedures to manage risks, operation of monitoring control, compliance with relevant policies & procedure and recommend improvement in processes and procedure.

The audit committee of the Board of directors regularly reviews the adequacy & effectiveness of various components of internal controls system, including internal audit effectiveness and monitor implementation of internal audit recommendations.

9. Cautionary Note

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Adani Transmission Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss (Including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "Standalone Ind AS Financial Statements").

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the applicable Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the

provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affair of the Company as at March 31, 2017, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Annexure - B to the Independent Auditor's Report

RE: ADANI TRANSMISSION LIMITED

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of section 143 of the Companies Act 2013 (the act).

We have audited the internal financial controls over financial reporting of Adani Transmission Limited (the company) as of March 31, 2017 in conjunction with our audit of the Ind AS financial statements of the company for the year ended on that date.

Management's Responsibilities for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the Guidance Note) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those

Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the

internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

2 SIGNIFICANT ACCOUNTING POLICIES

a Basis of Preparation

The Financial Statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The Financial Statements up to and for the year ended 31st March, 2016 were prepared in accordance with Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act.

As these are the Company's first Financial Statements prepared in accordance with Ind AS, Ind AS 101, First-time Adoption of Indian Accounting Standards has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position and financial performance is provided in note 3.

The financial statements are presented in INR and all values are rounded to the nearest crores (Transactions below ₹50,000.00 denoted as ₹0.00), unless otherwise indicated.

b Current versus Non Current Classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle; or
- Held primarily for the purpose of trading; or
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

Notes to Financial Statement for the year ended 31st March, 2017

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

c Foreign Currency Transactions

i) Initial Recognition :

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction.

ii) Conversion :

At the year-end, monetary items denominated in foreign currencies, if any, are converted into rupee equivalents at exchange rate prevailing on the balance sheet date.

iii) Exchange Differences :

All exchange differences arising on settlement and conversion of foreign currency transaction are included in the Statement of Profit and Loss.

d Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the financial asset or settle the financial liability takes place either:

- > In the principal market for the asset or liability, or
- > In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- > Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- > Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- > Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value.

At each reporting date, the Company analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per The Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

Notes to Financial Statement for the year ended 31st March, 2017

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

e Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

1) Income from Services

Revenues are recognised immediately when the service is provided. The Company collects the tax on behalf of the government and therefore, these are not economic benefits flowing to the company. Hence they are excluded from revenue.

2) Interest revenues from loans and advances are recognized on time proportion basis taking into account the amount outstanding and the rate applicable.

3) Sale of Goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer.

4) Profit/Loss on sale of Current investments are recognised on the contract date.

f Taxes On Income

i) Current Tax :

Current tax represents the amount of Income Tax Payable in respect of the taxable income for the reporting period as determined in accordance with the provisions of Income Tax Act, 1961.

ii) Deferred Tax :

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

Net outstanding balance in Deferred Tax account is recognized as deferred tax liability/asset. The deferred tax account is used solely for reversing timing difference as and when crystallized.

g Property, Plant and Equipment (PPE)

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its Property, Plant and Equipment recognised as at 1st April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the Property, Plant and Equipment.

Tangible Fixed Assets

Fixed assets are stated at cost of acquisition or construction. They are stated at historical cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Borrowing cost relating to acquisition / construction of fixed assets which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Depreciation and amortisation

i) Depreciation on fixed assets is calculated on straight-line method (SLM) using the rates arrived at based on the Useful Life as specified in Schedule II of the Companies Act, 2013.

ii) Depreciation on Assets acquired or disposed off during the year is provided on pro-rata basis with reference to the date of acquisition or disposal.

Notes to Financial Statement for the year ended 31st March, 2017

h Borrowing Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are recognised in the Statement of Profit and loss in the period they occur.

i Inventories

- (i) Stores and spares are valued at cost. Cost is determined on Weighted Average basis.
- (ii) Costs includes all non refundable duties and all charges incurred in bringing the goods to the their present location and condition.

j Impairment of non-financial assets

The carrying amount of assets, other than inventories, is reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets recoverable amount is estimated.

The impairment loss is recognised whenever the carrying amount of an asset or its cash generation unit exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in the uses which is determined based on the estimated future cash flow discounted to their present values. All impairment losses are recognised in the Statement of Profit and Loss.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount and is recognised in the Statement of Profit and Loss.

k Retirement and other employee benefits

Short Term Employee Benefits

Short term employee benefits are recognised as an expense on accrual basis. Short term Project related employee benefits are recognized as an expenses at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.

Post Employment Benefits

i) Defined Benefit Plan

Gratuity being a defined benefit scheme is accrued based on actuarial valuations, carried out by an independent actuary as at the balance sheet date using the projected unit credit method. These contributions are covered through Group Gratuity Scheme with Life Insurance Corporation of India and are charged against revenue.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets (excluding net interest), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods. Net interest is calculated by applying the discount rate to the net balance of defined benefit liability or asset.

The Company recognises the following changes in the net defined benefit obligation as an expense in the Standalone Financial statement of profit and loss in the line item "Employee Benefits Expense":

- > Service cost including current service cost, past service cost, gains and losses on curtailments and non-routine settlements; and
- > Net interest expense or income

For the purpose of presentation of defined benefit plans, the allocation between short term and long term provisions has been made as determined by an actuary.

ii) Defined Contribution Plans

Company's contribution to Provident Fund, Employees' State Insurance Fund and labour welfare fund which are defined contribution plans determined under the relevant schemes and/or statute are charged to the Statement of Profit and Loss when incurred. There are no other obligations other than the contribution payable to the respective funds.

Notes to Financial Statement for the year ended 31st March, 2017

Termination Benefits, if any, are recognized as an expense as and when incurred.

Provision is made for compensated absence based on actuarial valuation, carried out by an independent actuary as at the balance sheet date, the allocation between short term and long term provisions has been made as determined by an actuary.

I Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company entity are recognised at the proceeds received, net of direct issue costs.

(A) Financial assets

All financial assets, except investment in subsidiaries are recognised initially at fair value.

The measurement of financial assets depends on their classification, as described below:

1) At amortised cost

A financial asset is measured at the amortised cost if both the following conditions are met :

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

2) At Fair Value through Other Comprehensive Income (FVTOCI)

A financial asset is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI) and on derecognition, cumulative gain or loss previously recognised in OCI is reclassified to statement of profit and loss. For equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment.

3) At Fair Value through Profit & Loss (FVTPL)

FVTPL is a residual category for debt instruments and default category for equity instruments. Financial assets

Notes to Financial Statement for the year ended 31st March, 2017

included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Derecognition

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure. The Company follows 'Simplified Approach' for recognition of impairment loss allowance on all trade receivables or contractual receivables.

Under the simplified approach the Company does not track changes in credit risk, but it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

ECL is the difference between all contracted cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original EIR. ECL impairment loss allowance (or reversal) recognised during the period is recognised as income / (expense) in the statement of profit and loss.

(B) Financial liabilities

Financial liabilities are classified, at initial recognition as at amortised cost or fair value through profit or loss. The measurement of financial liabilities depends on their classification, as described below:

At amortised cost

This is the category most relevant to the Company. After initial recognition, financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

At fair value through profit or loss (FVTPL)

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as such. Subsequently, any changes in fair value are recognised in the statement of profit or loss.

Derecognition of Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

m Derivative financial instruments and hedge accounting

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as foreign exchange forward, Principal only swap (POS) and options contracts to hedge its foreign currency risks. The Company does not use derivatives for trading or speculative purposes. Such derivative financial instruments are initially recognised at fair value through profit or loss (FVTPL) on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried

Notes to Financial Statement for the year ended 31st March, 2017

as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivative financial instrument are recognised in the statement of profit and loss.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

Cash flow hedges

The Company designates foreign currency derivatives as hedges of foreign currency risk associated with firm commitments on its borrowings. These instruments meet the Management's foreign exchange risk management objectives and also qualify for hedge accounting as per the principles of hedge accounting. MTM gains/losses in respect of effective hedges is carried to "other comprehensive income" (OCI) and ineffectiveness, if any, is recognized immediately in the statement of profit & loss. If the hedging relationship ceases to be effective, hedge accounting is discontinued and the fair value changes arising from the derivative financial instruments are recognised in the statement of profit & loss.

n Cash & Cash Equivalents (for purpose of cash flow statement)

Cash comprises cash on hand and demand deposit with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of creation).

o Cash Flow Statement

Cash flows are reported using indirect method, whereby profit/ (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated based on the available information.

p Segment Accounting

The company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

As per Ind AS 108 "Operating Segment", if a single financial report contains both consolidated financial statements and separate financial statements of the parent, segment information need be presented only on the basis of consolidated financial statements of the Company.

q Provision, Contingent Liabilities and Contingent Assets

Provision are recognised for when the company has at present, legal or contractual obligation as a result of past events, only if it is probable that an outflow of resources embodying economic outgo or loss will be required and if the amount involved can be measured reliably.

Contingent liabilities being a possible obligation as a result of past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more future events not wholly in control of the company are not recognised in the accounts. The nature of such liabilities and an estimate of its financial effect are disclosed in notes to the Financial Statements.

Contingent assets are neither recognised nor disclosed in the financial statements.

r Earnings Per Share

The Basic EPS has been computed by dividing the income available to equity shareholders by the weighted average number of equity shares outstanding during the accounting year.

The Diluted EPS has been computed using the weighted average number of equity shares and dilutive potential equity shares outstanding at the end of the year.

s Estimates, Judgements and assumptions

The preparation of the Company's Ind AS Financial Statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Notes to Financial Statement for the year ended 31st March, 2017

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i. **Impairment of non-financial assets**

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the Discounted Cash Flow (DCF) model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill and other intangibles with indefinite useful lives recognised by the Company.

ii. **Taxes**

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the credits can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

iii. **Defined benefit plans (gratuity benefits)**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

iv. **Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

3 FIRST-TIME ADOPTION OF IND-AS

The Company has adopted Ind AS from 1st April, 2016 and the date of transition to Ind AS is 1st April, 2015. This being the first financial statements in compliance with Ind AS, the impact of transition has been accounted for in opening reserves and comparable periods have been restated in accordance with Ind AS 101 –“First-time Adoption of Indian Accounting Standards”. The Company has presented a reconciliation of its equity under Previous GAAP to its equity under Ind AS as at 1st April, 2015 and 31st March, 2016 and of the total comprehensive income for the year ended 31st March, 2016 as required by Ind AS 101.

3.1 Following are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

Exemption Availed

i) Deemed cost of property, plant and equipment and intangible assets

The Company has elected to continue with the carrying value of all its property, plant and equipments and intangible assets recognised as of 1st April, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost on transition date.

ii) Estimates

The estimates at 31st March, 2016 are consistent with those made for the same dates in accordance with Indian GAAP (After adjustments to reflect any differences in accounting policies) apart from the following items where application of Indian GAAP did not require estimation

> Impairment of Financial assets based on risk exposure and application of ECL model.

The estimates used by the company to present this amounts in accordance with IndAS reflect conditions as of 31st March, 2016.

iii) Derecognition of financial assets and financial liabilities

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after transition date.

iv) Classification and measurement of financial assets

The Company has assessed classification and measurement of financial assets on the basis of facts and circumstances that exist as on transition date.

v) Impairment of financial assets

The Company has applied impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date.

3.5 Reconciliation of total comprehensive income for the year ended 31st March 2016:

(₹ in Crores)

Particulars	For the year ended 31 st March, 2016 (Last period presented under Previous GAAP)
Previous GAAP	(53.66)
Ind AS: Adjustments increase (decrease):	
Effect of Measurement of Financial Liabilities at amortised cost	0.04
Employee benefits expense - Actuarial Loss reclassified under OCI	(2.92)
Total adjustment to profit or loss	(2.88)
Profit or loss under Ind AS	(56.54)
Other comprehensive income	2.92
Total comprehensive income / (Loss) under Ind AS	(53.62)

Explanation of Key components:

- Remeasurement cost of net defined benefit liability : The remeasurement cost arising primarily due to change in actuarial assumptions has been recognised in Other Comprehensive Income (OCI) under Ind AS compare to Statement of Profit and Loss under previous GAAP.
- Fair value of current investment : Under Ind AS, Non trade investments have been classified as Fair Valuation through Profit and Loss account ("FVTPL") on the date of transition and fair value changes thereafter the date of transition have been recognised in the Statement of Profit & Loss. Under previous GAAP, non trade investments were stated at lower of cost or fair value.
- Mark to Market (MTM) on derivative financial instruments : Derivative financial instruments have been fair valued through profit and loss under Ind-AS. Under Previous GAAP, the net mark to market losses on derivative financial instruments, other than those designated as cash flow hedges, were recognised in profit and loss, and the net gains, if any, were ignored.
- Fair valuation for Financial Assets and Financial Liabilities : The Company has valued certain financial assets and financial liabilities at fair value. Impact of fair value changes as on date of transition is recognised in opening reserves and changes thereafter are recognised in Statement of Profit and Loss Account or Other Comprehensive income, as the case may be.

3.6 Effects of Ind AS adoption on the financial statements of comparative periods:

As there is no material reconciliation item between Cash Flow statement prepared under Indian GAAP and those prepared under Ind AS, reconciliation for the same is not presented.

x. Asset Liability Matching Strategies

The Company has purchased insurance policy, which is basically a year-on-year cash accumulation plan in which the interest rate is declared on yearly basis and is guaranteed for a period of one year. The insurance Company, as part of the policy rules, makes payment of all gratuity outgoes happening during the year (subject to sufficient fund under the policy). The policy, thus, mitigates the liquidity risk. However, being a cash accumulation plan, the duration of assets is shorter compared to the duration of liabilities. Thus, the Company is exposed to movement in interest rate (in particular, the significant fall in interest rates, which should result in a increase in liability without corresponding increase in the asset).

xi. Effect of Plan on Entity's Future Cash Flows

a) Funding arrangements and Funding Policy

The Company has purchased an insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets arising as a result of such valuation is funded by the Company.

b) Expected Contribution during the next annual reporting period

The Company's best estimate of Contribution during the next year is Nil

c) Maturity Profile of Defined Benefit Obligation

Weighted average duration (based on discounted cashflows) - 4 years

Expected cash flows over the next (valued on undiscounted basis):	(₹ in Crores)
1 year	0.30
2 to 5 years	0.18
6 to 10 years	0.32
More than 10 years	0.17

xii. The Company has defined benefit plans for Gratuity to eligible employees, the contributions for which are made to Life Insurance Corporation of India who invests the funds as per Insurance Regulatory Development Authority guidelines.

The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.

The expected contributions for Defined Benefit Plan for the next financial year will be in line with FY 2016-17.

The actuarial liability for leave encashment and compensated absences (including Sick Leave) as at the year ended 31st March 2017 is ₹ 0.49 Crores.

44 FINANCIAL RISK OBJECTIVE AND POLICIES

The Company's principal financial liabilities comprise borrowings, trade and other payables, The main purpose of these financial liabilities is to finance the Company's operations/projects. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

In the ordinary course of business, the Company is mainly exposed to risks resulting from exchange rate fluctuation (currency risk), interest rate movements (interest rate risk) collectively referred as Market Risk, Credit Risk, Liquidity Risk and other price risks such as equity price risk. The Company's senior management oversees the management of these risks. It manages its exposure to these risks through derivative financial instruments by hedging transactions. It uses derivative instruments such as Principal only Swaps, Interest rate swaps, foreign currency future options and foreign currency forward contract to manage these risks. These derivative instruments reduce the impact of both favorable and unfavorable fluctuations.

The Company's risk management activities are subject to the management, direction and control of Central Treasury Team of the Group under the framework of Risk Management Policy for Currency and Interest rate risk as approved by the Board of Directors of the Company. The Group's central treasury team ensures appropriate financial risk governance framework for the Company through appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken.

Notes to Financial Statement for the year ended 31st March, 2017

The decision of whether and when to execute derivative financial instruments along with its tenure can vary from period to period depending on market conditions and the relative costs of the instruments. The tenure is linked to the timing of the underlying exposure, with the connection between the two being regularly monitored. The Company is exposed to losses in the event of non-performance by the counterparties to the derivative contracts. All derivative contracts are executed with counterparties that, in our judgment, are creditworthy. The outstanding derivatives are reviewed periodically to ensure that there is no inappropriate concentration of outstanding to any particular counterparty.

Further, all currency and interest rate risks as identified above is measured on a daily basis by monitoring the mark to market (MTM) of open and hedged position. The MTM is derived basis underlying market curves on closing basis of relevant instrument quoted on Bloomberg/Reuters. For quarter ends, the MTM for each derivative instrument outstanding is obtained from respective banks. All gain / loss arising from MTM for open derivative contracts and gain / loss on settlement / cancellation / roll over of derivative contracts is recorded in statement of profit and loss, except for the cumulative impact of all derivative contracts outstanding as at the date of the Guidance Note becoming effective, which have been recognized in the reserves as at 1st April, 2015.

Interest rate risk

The company is exposed to changes in market interest rates due to financing, investing and cash management activities. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates and period of borrowings. The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings. The Company enters into interest rate swap contracts or interest rate future contracts to manage its exposure to changes in the underlying benchmark interest rates.

Interest rate sensitivity

The sensitivity analysis below have been determined based on the exposure to interest rates at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher / lower and all other variables were held constant, the Company's profit for the year ended March 31, 2017 would decrease / increase by ₹ Nil (previous year ₹ 9.25 crores). This is mainly attributable to interest rates on variable rate borrowings.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a loss to the company. The Company has adopted the policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial losses from default, and generally does not obtain any collateral or other security on trade receivables.

The carrying amount of financial assets recorded in the financial statements represents the Company's maximum exposure to credit risk.

Cash are held with creditworthy financial institutions.

Liquidity risk

The Company monitors its risk of shortage of funds using cash flow forecasting models. These models consider the maturity of its financial investments, committed funding and projected cash flows from operations. The Company's objective is to provide financial resources to meet its business objectives in a timely, cost effective and reliable manner and to manage its capital structure. A balance between continuity of funding and flexibility is maintained through the use of various types of borrowings.

The table below analysis derivative and non-derivative financial liabilities of the Company into relevant maturity groupings based on the remaining period from the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

Independent Auditor's Report

To
The Members of
ADANI TRANSMISSION LIMITED

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Adani Transmission Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") comprising the Consolidated Balance Sheet as at March 31, 2017, the Consolidated Statement of Profit and Loss (Including Other Comprehensive Income), the Consolidated Cash Flow Statement and the consolidated statement of changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'the consolidated Ind AS financial statements').

Management's Responsibility for the Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including Other Comprehensive Income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with relevant rules thereunder. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are

free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit.

While conducting the audit, we have taken into account the provisions of the Act and the Rules made thereunder including the accounting standards and matters which are required to be included in the audit report.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Ind AS, of the consolidated state of affairs of the Group as at March 31, 2017, their consolidated profit (including Other Comprehensive Income), their consolidated cash flows and consolidated changes in equity for the year ended on that date.

Other Matters

We have not audited the financial statements of Adani Transmission (Rajasthan) Limited, a subsidiary of the Holding Company, included in the consolidated Ind AS financial statements, which constitute total assets of Rs.32.89 crores at year ended March 31, 2017; as well as total revenue of Rs. 6.40 crores for the year ended March 31, 2017, net loss after tax of Rs. 1.27 crores and net cash flows of Rs. 0.13 crores for the year ended March 31, 2017, as considered in the consolidated Ind AS financial statements. These financial statements have been audited by other auditor whose report has been furnished to us for the purpose of the consolidation, and our opinion on the consolidated Ind AS financial statements, in so far as it related to the amounts and disclosures included in respect of the subsidiary, and our report in terms of Section 143 (3) of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the reports of the other auditor.

Our opinion on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditor.

Report on Other Legal and Regulatory Requirements

1. As required by section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements;
- b) In our opinion proper books of account as required by law maintained by holding company and its subsidiaries including relevant records relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and records of the Holding Company and subsidiaries.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and Consolidated statement of changes in equity dealt with by this Report are in agreement with the relevant books of account maintained by the Holding Company and its subsidiaries included in the Group including relevant records relating to the preparation of the consolidated Ind AS financial statements.
- d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended;
- e) On the basis of the written representations received from the directors of the Holding Company and subsidiaries as on March 31, 2017 taken on record by the Board of Directors of the Holding Company and its subsidiaries, none of the directors of the Group is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and its subsidiary companies incorporated in India and the operating effectiveness of such controls, refer to our separate Report in Annexure A.
- g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditor, as noted in the "Other Matters":
- i. The Consolidated Ind AS financial statements disclose the impact of pending litigations on the Consolidated financial position of the Group – Refer Note 35 to the Consolidated Ind AS Financial Statements;
 - ii. The Group has made provision as at March 31, 2017, as required under the applicable law or accounting standard, for material foreseeable losses, if any, on long term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group.
- iv. In the consolidated Ind As financial statements, holdings as well as dealings in Specified Bank Notes during the period from 8th November' 2016 to 30th December' 2016, by the Holding Company and its subsidiaries has been requisitely disclosed, on the basis of information available with the Company. Based on our audit procedures and relying on the management representation we report that the disclosures are in accordance with the books of account maintained by the Holding company and its subsidiaries and as produced to us by the Management and reports of the other auditor. Annexure - A to the Independent Auditor's Report

RE: ADANI TRANSMISSION LIMITED

Report on the Internal Financial Controls under Clause i of sub-section 3 of section 143 of the Companies Act 2013 (the act).

In conjunction with our audit of the consolidated Ind AS financial statements of the Holding Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of Adani Transmission Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies which are incorporated in India, as of that date.

Management's Responsibilities for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on "internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Holding Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the Guidance Note) issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the

extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by ICAI

2 SIGNIFICANT ACCOUNTING POLICIES

a Basis of Preparation

The Consolidated Financial Statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The Consolidated Financial Statements up to and for the year ended 31st March, 2016 were prepared in accordance with Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act.

As these are the Group's first Consolidated Financial Statements prepared in accordance with Ind AS, Ind AS 101, First-time Adoption of Indian Accounting Standards has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position and financial performance is provided in note 3.

The Consolidated Financial Statements are presented in INR and all values are rounded to the nearest Crores (transaction below ₹50,000.00 denoted ₹0.00), unless otherwise indicated.

b Principles of Consolidation:

- a) As mandated by section 129 (3) of the companies act 2013, The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) - 110 on "Consolidated Financial Statements", as specified under section 133 of the Act and other relevant provisions of the Act, on the basis of the separate audited financial statements of Adani Transmission Limited (ATL) and its Subsidiaries. Reference in the notes to "Group" shall mean to include ATL and its Subsidiaries consolidated in these financial statements unless otherwise stated.
- b) The consolidated financial statements have been prepared on the following basis.
 - i) In accordance with Indian Accounting Standards (Ind AS) - 110 on "Consolidated Financial Statements", as specified under section 133 of the Companies Act, 2013 ("the 2013 Act"), Subsidiaries are fully consolidated from the date of acquisition and incorporation, being the date on which the Group obtains control, and continues to be consolidated until the date that such control ceases (including through voting rights). Subsidiaries have been consolidated on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

and expenses after eliminating all significant intra-group balances and intra-group transactions. The unrealized profits resulting from intra-group transactions that are included in the carrying amount of assets are eliminated in full. Unrealized losses resulting from intra-group transactions that are deducted in arriving at the carrying amount of assets are also eliminated unless cost cannot be recovered.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

- ii) The difference between the cost of investment in the Subsidiaries over the net assets at the time of acquisition of the investment in the Subsidiaries is recognised in the consolidated financial statements as Goodwill or Capital Reserve as the case may be.
- iii) Investments made by the parent company in Subsidiary Company subsequent to the holding-subsidiary relationship coming into existence are eliminated while preparing the consolidated financial statement.
- iv) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and necessary adjustments required for deviations if any have been made in the consolidated financial statements.
- v) The Company has disclosed only such policies and notes from individual financial statements, which fairly present the needed disclosures, Lack of homogeneity and other similar considerations made it desirable to exclude some of them, which in the opinion of the management, could be better viewed, when referred from the standalone financials statements.

c Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle; or
- Held primarily for the purpose of trading; or
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is treated as current when it is;

- It is expected to be settled in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

d Foreign Currency Transactions

i) Initial Recognition:

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction.

ii) Conversion:

At the year-end, monetary items denominated in foreign currencies, if any, are converted into rupee equivalents at exchange rate prevailing on the balance sheet date.

iii) Exchange Differences:

All exchange differences arising on settlement and conversion of foreign currency transaction are included in the Statement of Profit and Loss.

e Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- > In the principal market for the asset or liability, or
- > In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated Financial Statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- > Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- > Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- > Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the Consolidated Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value.

At each reporting date, the individual company analysis the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

f Revenue Recognition

Revenue is recognised when consideration can be reasonably measured and there exists reasonable certainty of its recovery.

- i) Income from services rendered is accounted for when the work is performed.
- ii) Transmission income is accounted for based on tariff orders notified by respective regulatory authorities.
- iii) Sale of Goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer.
- iv) The transmission system incentive / disincentive is accounted for based on certification of availability by respective Regional Power Committee.
- v) Delayed payment charges and interest on delayed payment for Transmission charges are recognised on accrual basis.
- vi) Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable.
- vii) Profit/Loss on sale of investments are recognised on the contract date.
- viii) Revenues relating to construction contracts which are entered into with government authorities for the construction of the infrastructure necessary for the provision of services are measured at the fair value of the consideration received or receivable. Revenue from service concession arrangements is recognised based on the fair value of construction work performed at the reporting date.

g Taxes on Income

i) Current Taxation

Tax expense comprises of current tax and includes any adjustments related to past periods in current and / or that may become necessary due to certain developments or reviews during the relevant period. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961.

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

ii) Deferred Taxation

Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences can be utilised. Deferred tax relating to items recognized outside the statement of profit and loss is recognized outside the statement of profit and loss, either in Other Comprehensive Income or directly in equity. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period.

CERC / MERC tariff norms provide the recovery of Income Tax from the beneficiaries by way of grossing up the return on equity based on effective tax rate for the financial year shall be based on the actual tax paid during the year on the transmission income. Accordingly, deferred tax liability provided during the period is fully recoverable from beneficiaries and known as "deferred assets against deferred tax liabilities". The same will be recovered when the related deferred tax liability forms a part of current tax.

h Property, Plant and Equipment (PPE)

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its Property, Plant and Equipment recognised as at 1st April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the Property, Plant and Equipment .

Tangible fixed assets

- i) An item of Property, Plant and Equipment that qualifies for recognition as an asset is initially measured at its cost and then carried at the cost less accumulated depreciation and accumulated impairment, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Borrowing cost relating to acquisition / construction of fixed assets which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.
- ii) Expenditure on account of modification/alteration in plant and machinery, which increases the future benefit from the existing asset beyond its previous assessed standard of performance, is capitalized.
- iii) Any capital expenditure in respect of assets, the ownership of which would not vest with the Company, is charged off to revenue in the year of incurrence.
- iv) Expenditure related to and incurred during implementation of capital projects is included under "Capital Work in Progress" or "Project Development Expenditure" as the case may be. The same is allocated to the respective fixed assets on completion of construction/ erection of the capital project/ fixed assets.
- v) Gains or losses arising from de recognition/ sale proceeds of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Intangible assets

- i) Computer software
Computer software are stated at cost, less accumulated amortisation and impairments, if any.
- ii) Amortisation method and useful life
The Company amortizes computer software using the straight-line method over the period of 5 years.

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

Depreciation and amortisation methods and periods

- i) Depreciation in respect of assets related to electricity transmission business is provided on a straight line basis at the rates provided in Appendix II of Central Electricity Regulatory Commission (Terms and conditions of Tariff) Regulations, 2014. In case of other Assets depreciation on fixed assets is calculated on straight-line method (SLM) using the rates arrived at based on the useful life as specified in Schedule II of the Companies Act, 2013.
- ii) Depreciation on asset acquired / disposed off during the period is provided on pro-rata basis with reference to the date of addition/disposal.

i Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. It includes interest on borrowings, amortisation of ancillary costs incurred for borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

j Inventories

- i) Inventories are valued at lower of cost or Net Realisable Value.
- ii) Cost of inventories have been computed to include all costs of purchases, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.
- iii) The basis of determining cost for various categories of inventories are as follows:

Stores and Spares : Weighted Average Cost

Net realizable value is the estimated selling price in the ordinary course of business, less estimated cost of completion and estimated cost necessary to make the sale.

k Impairment of non-financial assets

The carrying amount of assets, other than inventories, is reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets recoverable amount is estimated.

The impairment loss is recognised whenever the carrying amount of an asset or its cash generation unit exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in the uses which is determined based on the estimated future cash flow discounted to their present values. All impairment losses are recognised in the Statement of Profit and Loss.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount and is recognised in the Statement of Profit and Loss.

l Retirement and other employee benefits

Short Term Employee Benefits

Short term employee benefits are recognised as an expense on accrual basis.

Short term Project related employee benefits are recognized as an expenses at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.

Post Employment Benefits

i) Defined Benefit Plan

Gratuity being a defined benefit scheme is accrued based on actuarial valuations, carried out by an independent actuary as at the balance sheet date using the projected unit credit method. These contributions are covered through Group Gratuity Scheme with Life Insurance Corporation of India and are charged against revenue.

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets (excluding net interest), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods. Net interest is calculated by applying the discount rate to the net balance of defined benefit liability or asset.

The Group recognises the following changes in the net defined benefit obligation as an expense in the Consolidated Financial statement of profit and loss in the line item "Employee Benefits Expense":

> Service cost including current service cost, past service cost, gains and losses on curtailments and non-routine settlements; and

> Net interest expense or income

For the purpose of presentation of defined benefit plans, the allocation between short term and long term provisions has been made as determined by an actuary.

ii) Defined Contribution Plans

Company's contribution to Provident Fund, Employees' State Insurance Fund and labour welfare fund which are defined contribution plans determined under the relevant schemes and/or statute are charged to the Statement of Profit and Loss when incurred. There are no other obligations other than the contribution payable to the respective funds.

Termination Benefits, if any, are recognized as an expense as and when incurred.

Provision is made for compensated absence based on actuarial valuation, carried out by an independent actuary as at the balance sheet date, the allocation between short term and long term provisions has been made as determined by an actuary.

m Assets covered under Service Concession Arrangement

The tangible assets owned by the subsidiary company and covered under Service Concession Arrangement are not recognised as 'Property Plant & Equipment'. For recognising the rights available under Service Concession Arrangement 'Financial Asset' is recognised as per Appendix A of Ind AS 11 as follows:

Financial Asset: The Present Value of Transmission revenue based on availability to be receivable over a tenure of arrangement is recognised as 'Financial Asset'.

n Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Group entity are recognised at the proceeds received, net of direct issue costs.

(A) Financial assets

All financial assets, except investment in subsidiaries, associates and joint ventures are recognised initially at fair value.

The measurement of financial assets depends on their classification, as described below:

1) At amortised cost

A financial asset is measured at the amortised cost if both the following conditions are met:

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

2) At Fair Value through Other Comprehensive Income (FVTOCI)

A financial asset is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the Other Comprehensive Income (OCI) and on derecognition, cumulative gain or loss previously recognised in OCI is reclassified to statement of profit and loss. For equity instruments, the Group may make an irrevocable election to present subsequent changes in the fair value in OCI. If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI.

3) At Fair Value through Profit & Loss (FVTPL)

FVTPL is a residual category for debt instruments and default category for equity instruments. Financial assets included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

Equity Investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the individual company may make an irrevocable election to present in Other Comprehensive Income subsequent changes in the fair value. The individual company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, The Group may transfer the cumulative gain or loss within equity.

Derecognition

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in Other Comprehensive Income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

Impairment of financial assets

The Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure; The Group follows 'Simplified Approach' for recognition of impairment loss allowance on all trade receivables or contractual receivables.

Under the simplified approach the Group does not track changes in credit risk. But, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition if credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, life time ECL is used.

ECL is the difference between all contracted cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original EIR. ECL impairment loss allowance (or reversal) recognised during the period is recognised as income / (expense) in the statement of profit and loss (P&L).

(B) Financial liabilities

Financial liabilities are classified, at initial recognition as at amortised cost or fair value through profit or loss.

The measurement of financial liabilities depends on their classification, as described below:

At amortised cost

This is the category most relevant to the Group. After initial recognition, financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

At fair value through profit or loss (FVTPL)

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as such. Subsequently, any changes in fair value are recognised in the statement of profit or loss.

Derecognition of Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

o Derivative financial instruments and hedge accounting

Initial recognition and subsequent measurement

The Group uses derivative financial instruments, such as foreign exchange forward, Principal only swap (POS) and options contracts to hedge its foreign currency risks. The Group does not use derivatives for trading or speculative purposes. Such derivative financial instruments are initially recognised at fair value through profit or loss (FVTPL) on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivative financial instrument are recognised in the consolidated statement of profit and loss.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

Cash flow hedges

The Group designates foreign currency derivatives as hedges of foreign currency risk associated with firm commitments on its imports / borrowings. These instruments meet the Management's foreign exchange risk management objectives and also qualify for hedge accounting as per the principles of hedge accounting. MTM gains / losses in respect of effective hedges is carried to "Other Comprehensive Income" (OCI) and ineffectiveness, if any, is recognized immediately in the consolidated statement of profit and loss. If the hedging relationship ceases to be effective, hedge accounting is discontinued and the fair value changes arising from the derivative financial instruments are recognized in the consolidated statement of profit and loss.

p Cash & Cash Equivalents (for purpose of cash flow statement)

Cash comprises cash on hand and demand deposit with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of creation).

q Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the company are segregated.

r Segment Accounting

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Group as a whole.

As per Ind AS 108 "Operating Segment", if a single financial report contains both consolidated financial statements and separate financial statements of the parent, segment information need be presented only on the basis of consolidated financial statements of the Group.

s Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to Consolidated Statement of Profit and Loss on straight-line basis over the period of the lease.

t Provision, Contingent Liabilities and Contingent Assets

Provision are recognised for when the Group has at present, legal or contractual obligation as a result of past events, only if it is probable that an outflow of resources embodying economic outgo or loss will be required and if the amount involved can be measured reliably.

Contingent liabilities being a possible obligation as a result of past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more future events not wholly in control of the company are not recognised in the accounts. The nature of such liabilities and an estimate of its financial effect are disclosed in notes to the Consolidated Financial Statements.

Contingent assets are neither recognised nor disclosed in the Consolidated financial statements.

u Earnings Per Share

The Basic EPS has been computed by dividing the income available to equity shareholders by the weighted average number of equity shares outstanding during the accounting year.

The Diluted EPS has been computed using the weighted average number of equity shares and dilutive potential equity shares outstanding at the end of the year.

v Estimates, Judgements and assumptions

The preparation of the Group's Ind AS Consolidated Financial Statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the Consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

i) Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill and other intangibles with indefinite useful lives recognised by the Group.

ii) Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the credits can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

iii) Defined benefit plans (gratuity benefits)

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

The Group based its assumptions and estimates on parameters available when the Consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

iv) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

3 FIRST-TIME ADOPTION OF IND-AS

The Group has adopted Ind AS from 1st April, 2016 and the date of transition to Ind AS is 1st April, 2015. This being the first Consolidated financial statements in compliance with Ind AS, the impact of transition has been accounted for in opening reserves and comparable periods have been restated in accordance with Ind AS 101 –“First-time Adoption of Indian Accounting Standards”. The Group has presented a reconciliation of its equity under Previous GAAP to its equity under Ind AS as at 1st April, 2015 and 31st March, 2016 and of the total comprehensive income for the year ended 31st March, 2016 as required by Ind AS 101.

3.1 Following are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

Exemption Availed

i) Deemed cost of property, plant and equipment and intangible assets

The Group has elected to continue with the carrying value of all its Property, Plant and Equipment's and intangible assets recognised as of 1st April, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost on transition date.

ii) Estimates

The estimates at 31st March, 2016 are consistent with those made for the same dates in accordance with Indian GAAP(After adjustments to reflect any differences in accounting policies) apart from the following items where application of Indian GAAP did not require estimation :

> Impairment of Financial assets based on risk exposure and application of Expected Credit Loss (ECL) model.

The estimates used by the Group to present this amounts in accordance with Ind AS reflect conditions as of 31st March, 2016.

iii) Derecognition of financial assets and financial liabilities

The Group has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after transition date.

iv) Classification and measurement of financial assets

The Group has assessed classification and measurement of financial assets on the basis of facts and circumstances that exist as on transition date.

v) Impairment of financial assets

The Group has applied impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date.

3.5 Reconciliation of Total Comprehensive Income for the year ended 31st March 2016:

(₹ in Crores)

Particulars	For the year ended 31 st March, 2016 (Last period presented under Previous GAAP)
As per Previous GAAP	357.73
Ind AS: Adjustments increase (decrease):	
Effect of Measurement of Financial Liabilities at amortised cost	0.04
Effect of Measuring current Investment at fair value through Profit & Loss	0.02
Effect of Measuring derivative contracts at fair value	13.32
Employee benefits expense - Actuarial Loss reclassified under OCI	(3.17)
Total adjustment to profit or loss	10.21
Profit under Ind AS	367.94
Other comprehensive income	3.17
Total comprehensive income under Ind AS	371.11

Explanation Notes of key components :

- Remeasurement cost of net defined benefit liability : The remeasurement cost arising primarily due to change in actuarial assumptions has been recognised in Other Comprehensive Income (OCI) under Ind AS compare to Statement of Profit and Loss under previous GAAP.
- Fair value of current investment : Under Ind AS, Non trade investments have been classified as Fair Valuation through Profit and Loss account ("FVTPL") on the date of transition and fair value changes thereafter the date of transition have been recognised in the Statement of Profit & Loss. Under previous GAAP, non trade investments were stated at lower of cost or fair value.
- Mark to Market (MTM) on derivative financial instruments : Derivative financial instruments have been fair valued through profit and loss under Ind-AS. Under Previous GAAP, the net mark to market losses on derivative financial instruments, other than those designated as cash flow hedges, were recognised in profit and loss, and the net gains, if any, were ignored.
- Fair valuation for Financial Assets and Financial Liabilities : The Group has valued certain financial assets and financial liabilities at fair value. Impact of fair value changes as on date of transition is recognised in opening reserves and changes thereafter are recognised in Statement of Profit and Loss Account or Other Comprehensive income, as the case may be.

3.6 Effects of Ind AS adoption on the financial statements of comparative periods:

As there is no material reconciliation item between Cash Flow statement prepared under Indian GAAP and those prepared under Ind AS, reconciliation for the same is not presented.

42 FINANCIAL RISK OBJECTIVE AND POLICIES

The Group's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations/projects and to provide guarantees to support its operations and its subsidiaries. The Company's principal financial assets include loans, investment including mutual funds, trade and other receivables, and cash & cash equivalents that derive directly from its operations.

In the ordinary course of business, the Group is mainly exposed to risks resulting from exchange rate fluctuation (currency risk), interest rate movements (interest rate risk) collectively referred as Market Risk, Credit Risk, Liquidity Risk and other price risks such as equity price risk. The Group's senior management oversees the management of these risks. It manages its exposure to these risks through derivative financial instruments by hedging transactions. It uses derivative instruments such as Principal only Swaps, Interest rate swaps, foreign currency future options and foreign currency forward contract to manage these risks. These derivative instruments reduce the impact of both favorable and unfavorable fluctuations.

The Group's risk management activities are subject to the management, direction and control of Central Treasury Team of the Group under the framework of Risk Management Policy for Currency and Interest rate risk as approved by the Board of Directors of the Group. The Group's central treasury team ensures appropriate financial risk governance framework for the Group through appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken.

The decision of whether and when to execute derivative financial instruments along with its tenure can vary from period to period depending on market conditions and the relative costs of the instruments. The tenure is linked to the timing of the underlying exposure, with the connection between the two being regularly monitored. The Group is exposed to losses in the event of non-performance by the counterparties to the derivative contracts. All derivative contracts are executed with counterparties that, in our judgment, are creditworthy. The outstanding derivatives are reviewed periodically to ensure that there is no inappropriate concentration of outstanding to any particular counterparty.

Further, all currency and interest rate risks as identified above is measured on a daily basis by monitoring the mark to market (MTM) of open and hedged position. The MTM is derived basis underlying market curves on closing basis of relevant instrument quoted on Bloomberg/Reuters. For quarter ends, the MTM for each derivative instrument outstanding is obtained from respective banks. All gain / loss arising from MTM for open derivative contracts and gain / loss on settlement / cancellation / roll over of derivative contracts is recorded in statement of profit and loss, except for the cumulative impact of all derivative contracts outstanding as at the date of the Guidance Note becoming effective, which have been recognized in the reserves as at 1st April, 2015.

Interest rate risk

The Group is exposed to changes in market interest rates due to financing, investing and cash management activities. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates and period of borrowings. The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings. The Group enters into interest rate swap contracts or interest rate future contracts to manage its exposure to changes in the underlying benchmark interest rates.

Interest rate sensitivity

The sensitivity analysis below have been determined based on the exposure to interest rates at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher / lower and all other variables were held constant, the Group's profit for the year ended March 31, 2017 would decrease / increase by ₹0.38 crores (previous year ₹23.83 crores). This is mainly attributable to interest rates on variable rate borrowings.

Notes to Consolidated Financial Statement for the year ended 31st March, 2017

42 FINANCIAL RISK OBJECTIVE AND POLICIES (Contd.)

Credit Risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a loss to the Group. The Group has adopted the policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial losses from default, and generally does not obtain any collateral or other security on trade receivables.

The carrying amount of financial assets recorded in the financial statements represents the Group's maximum exposure to credit risk.

Cash are held with creditworthy financial institutions.

Liquidity risk

The Group monitors its risk of shortage of funds using cash flow forecasting models. These models consider the maturity of its financial investments, committed funding and projected cash flows from operations. The Group's objective is to provide financial resources to meet its business objectives in a timely, cost effective and reliable manner and to manage its capital structure. A balance between continuity of funding and flexibility is maintained through the use of various types of borrowings.

The table below analysis derivative and non-derivative financial liabilities of the Group into relevant maturity groupings based on the remaining period from the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

ANNEXURE TO NOTICE

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

For Item Nos. 4 & 5:

The Board of Directors at its meeting held on 4th April, 2017 appointed Mr. Laxmi Narayana Mishra as an Additional Director of the Company. According to the provisions of Section 161 of the Companies Act 2013, he holds office as Director only up to the date of the ensuing Annual General Meeting. As required under Section 160 of the Companies Act, 2013, a notice has been received from a member signifying its intention to propose the appointment of Mr. Laxmi Narayana Mishra as a Director of the Company along with the deposit of requisite amount.

On the recommendation of the Nomination & Remuneration Committee of the Company, the Board, at its meeting held on 4th April, 2017, has appointed Mr. Laxmi Narayana Mishra as a Whole-time Director of the Company unanimously for a period of three years w.e.f. 4th April, 2017, Mr. Laxmi Narayana Mishra shall be liable to retire by rotation and shall not draw any remuneration from the Company.

Mr. Laxmi Narayana Mishra, aged 53 years, holds a B.Tech. (Mechanical) degree from Institute of Technology, BHU, Varanasi and MBA from IIT, Delhi. He has 30+ years of experience in manufacturing and power sector. He started his career with Bharat Electronics Ltd. in 1985 and has worked with Timex Watches; Power Grid Corporation of India Limited and Reliance Power Transmission Limited before joining Adani and has worked in areas covering Industrial Engineering, Strategic Planning, Business Development, Corporate Finance, Project Planning and management. Out of the above, he has been associated in transmission sector for 22 long years with active participation in Policy and Regulatory developments as well as Project management. He has been closely associated in evolution of private sector participation in transmission sector.

The Board of Directors felt that it is in interest of the Company to avail services of Mr. Laxmi Narayana Mishra as a Whole-time Director of the Company.

The Board of Directors recommends the said resolution for your approval.

Mr. Laxmi Narayana Mishra is deemed to be interested in the said resolution as it relates to his appointment. None of the other Directors or key managerial personnel or their relatives is, in anyway, concerned or interested in the said resolution.

This, along with the relevant resolution, may be treated as an Abstract pursuant to Section 190 of the Companies Act, 2013.

For Item No. 6:

The Company proposes to have flexibility to infuse additional capital, to tap capital markets and to raise additional long term resources, if necessary in order to sustain rapid growth in the business, for business expansion and to improve the financial leveraging strength of the Company. The proposed resolution seeks the enabling authorization of the members to the Board of Directors to raise funds to the extent of ₹5,000 Crores (Rupees Five Thousand Crores Only) or its equivalent in any one or more currencies, in one or more tranches, in such form, on such terms, in such manner, at such price and at such time as may be considered appropriate by the Board (inclusive at such premium as may be determined) by way of issuance of equity shares of the Company ("Equity Shares") and/or any instruments or securities including Global Depository Receipts ("GDRs") and/or American Depository Receipts ("ADRs") and/or convertible preference shares and/or convertible debentures (compulsorily and/or optionally, fully and/or partly) and/or non-convertible debentures (or other securities) with warrants, and/or warrants with a right exercisable by the warrant holder to exchange or convert such warrants with equity shares of the Company at a later date simultaneously with the issue of Foreign Currency Convertible Bonds ("FCCBs") and/or Foreign Currency Exchangeable Bonds ("FCEBs") and/or any other permitted fully and/or partly paid securities/instruments/warrants, convertible into or exchangeable for equity shares at the option of the Company and/or holder(s) of the security(ies) and/or securities linked to equity shares (hereinafter collectively referred to as "Securities"), in registered or bearer form, secured or unsecured, listed on a recognized stock exchange in India or abroad whether rupee denominated or denominated in foreign currency by way of private placement or otherwise.

The Special Resolution also seeks to empower the Board of Directors to undertake a Qualified Institutional Placement (QIP) with Qualified Institutional Buyers (QIBs) as defined by SEBI under Issue of Capital and Disclosure Requirements Regulations, 2009. The Board of Directors may in their discretion adopt this mechanism as prescribed under Chapter

VIII of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2009. Further in case the Company decides to issue eligible securities within the meaning of Chapter VIII of the SEBI Regulations to Qualified Institutional Investors, it will be subject to the provisions of Chapter VIII of the SEBI Regulations as amended from time to time. The aforesaid securities can be issued at a price after taking into consideration the pricing formula prescribed in Chapter VIII of the SEBI (ICDR) Regulations. Allotment of securities issued pursuant to Chapter VIII of SEBI Regulations shall be completed within twelve months from the date of passing of the resolution under Section 42 and 62 of the Companies Act, 2013. This Special Resolution gives (a) adequate flexibility and discretion to the Board to finalise the terms of the issue, in consultation with the Lead Managers, Underwriters, Legal Advisors and experts or such other authority or authorities as need to be consulted including in relation to the pricing of the Issue which will be a free market pricing and may be at premium or discount to the market price in accordance with the normal practice and (b) powers to issue and market any securities issued including the power to issue such Securities in such tranche or tranches with/without voting rights or with differential voting rights.

The detailed terms and conditions for the issue of Securities will be determined in consultation with the advisors, and such Authority/Authorities as may be required to be consulted by the Company considering the prevailing market conditions and other relevant factors.

The consent of the shareholders is being sought pursuant to the provisions of Section 42, 62 and other applicable provisions of the Companies Act, 2013 and in terms of the provisions of the listing agreement executed by the Company with Stock Exchanges where the Equity Shares of the Company are listed. Since the resolution involves issue of Equity Shares to persons other than existing shareholders, special resolution in terms of Section 42 and 62 of the Companies Act, 2013 is proposed for your approval. The amount proposed to be raised by the Company shall not exceed ₹5,000 Crores (Rupees Five Thousand Crores Only).

The Equity shares, which would be allotted, shall rank in all respects pari passu with the existing Equity Shares of the Company, except as may be provided otherwise under the terms of issue/offering and in the offer document and/or offer letter and/or offering circular and/or listing particulars.

The Board of Directors recommends the said resolution for your approval.

None of the Directors or any key managerial personnel or any relative of any of the Directors of the Company or the relatives of any key managerial personnel is, in anyway, concerned or interested in the above resolution.

For Item No. 7:

As per the provisions of Section 42 of the Companies Act, 2013 ("Act") read with rules made thereunder a Company offering or making an invitation to subscribe to redeemable secured/ unsecured non-convertible debentures (NCDs) on a private placement basis is required to obtain the prior approval of the members by way of a Special Resolution. Such approval by a Special Resolution can be obtained once in a year for all the offers and an invitation for such debt securities to be made during the year.

It is proposed to offer or invite subscriptions for redeemable secured/ unsecured non-convertible debenture including subordinated debentures, bonds, and/ or other debt securities, etc., on a private placement basis, in one or more tranches, during the period of one year from the date of passing of the Special Resolution by the members, within the overall borrowing limits of ₹15,000 crore in excess of and in addition to the paid-up share capital and free reserves of the Company, as approved by the members in the Extraordinary General Meeting held on 12th February, 2015, with authority to the Board to determine the terms and conditions, including the issue price of the debt securities, interest, repayment, security or otherwise, as it may deem expedient and to do all such acts, deeds, matters and things in connection therewith and incidental thereto as the Board in its absolute discretion deems fit, without being required to seek any further consent or approval of the members or otherwise to the end and intent that they shall be deemed to have given their approval thereto expressly by the authority of the Resolution. Accordingly, the approval of the members is being sought by way of a Special Resolution under Section 42 and other applicable provisions, if any of the Act and its rules there under.

The Board of Directors recommends the said resolution for your approval.

None of the Directors or any key managerial personnel or any relative of any of the Directors of the Company or the relatives of any key managerial personnel is, in anyway, concerned or interested in the above resolution.

For Item No. 8:

Pursuant to the provisions of Section 188 of the Companies Act, 2013 read with rules made thereunder and in terms of

applicable provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, consent of members by way of an ordinary resolution is required for ratification/ approval of material related party transactions entered into by the Company with related party.

The Company has entered into the following material related party transaction with the related party during the year under review:

(₹ in Crores)

Name of the Related Party	Nature of Relationship	Nature of transaction	Outstanding as at 31.03.2017
Adani Infra (India) Limited	Significant influence by KMP	Financial transactions	242.15

As per the SEBI Listing Regulations, all related parties of the Company shall abstain from voting on the said resolution.

The Board of Directors recommends the said resolution for your approval.

Mr. Gautam S. Adani and Mr. Rajesh S. Adani and their relatives are deemed to be concerned or interested in this resolution. None of the other Directors or key managerial personnel or their relatives is, in anyway, concerned or interested in the said resolution.

(4) Job profile and his suitability:

The Whole-time Director is responsible for Business Development and overall operations of the Company and performs such duties and exercises such powers as entrusted to or conferred upon him by the Board from time to time.

(5) Remuneration proposed:

Not Applicable since the resolution is for waiver of the recovery of the excess remuneration paid to Mr. Deepak Bhargava, Whole-time Director for the Financial Year 2015-16.

(6) Comparative remuneration profile with respect to Industry, size of the Company, profile of the position and person:

Taking into consideration the size of the Company, the profile, knowledge, skills and responsibilities shouldered by Mr. Deepak Bhargava, the remuneration paid is commensurate with the remuneration packages paid to their similar counterparts in other companies. Under the able leadership and guidance of Mr. Deepak Bhargava, Whole-time Director, the Company has achieved stellar operational and financial performance on consolidated basis. However, on standalone basis, the Company incurred losses as the Company mainly operates through its various subsidiaries.

(7) Pecuniary relationship directly or indirectly with the Company or relationship with the managerial personnel if any:

Besides the remuneration paid to Mr. Deepak Bhargava as Whole-time Director, he does not have any other pecuniary relationship with the Company or relationships with any other managerial personnel and Directors.

II. Other Information

(1) Reasons for inadequate profits:

The Company is the largest power transmission company operating in the private sector in India and owns, operate and maintain around 5050 ckt kms of transmission lines ranging from 400 KV to 765 KV, with a total transformation capacity of more than 12,000 MVA. The Company has four fully operational Transmission Systems that primarily serve the Northern and Western regions of India and is constructing additional projects of approx. 1700 ckms in Rajasthan, Chhattisgarh, Madhya Pradesh and Maharashtra, which were awarded through Tariff based Competitive Bidding process. ATL has successfully executed many EHV Sub Stations (HVDC, 765kV & 400kV sub stations) along with transmission lines in India.

The Company's operating performance in FY 16 has set the best benchmark in the country in terms of

system availability which ranges from 99.57% to 99.94%. During the year 2015-16, the Company continued to maintain its leadership position in the country and is poised to keep growing leverage benefits of new opportunities and create value for its stake holders.

During the year 2015-16, on consolidation basis, the total revenue of the Company increased to ₹2267.37 Crore compared to ₹138.63 Crore in the previous year. The Net Profit on consolidated basis was ₹357.73 Crore compared to ₹(6.75) Crore in the preceding year. On standalone basis, the Company registered total revenue of ₹421 Crore and incurred a loss of ₹53.66 Crore.

It is pertinent to note that the Company incurred losses on standalone basis as the Company mainly operates through its various subsidiaries.

(2) Steps taken or proposed to be taken for improvement.

As explained in the above point, as the Company mainly operates through its various subsidiaries, the Company incurred losses on standalone basis. The Company has achieved stellar operational and financial performance on consolidated basis.

(3) Expected increase in productivity and profits in measurable terms.

Key focus areas would be profit maximization, conservation of cash, operational efficiencies, cost reduction and working capital management. While it is difficult to give precise figures, the above initiatives are expected to further improve the productivity and profitability of the Company in the years to come.

III. Disclosures

The disclosures on remuneration package of each managerial person and details of all elements of remuneration package, details of fixed components etc. is given in the Corporate Governance Report attached to the Annual Report 2015-16 for the information of the Shareholders.
