MANAGEMENT DISCUSSION AND ANALYSIS REPORT

I. INDUSTRY STRUCTURE AND DEVELOPMENT:

The year witnessed a highly dynamic situation of our country, India must be consistent in regaining its position as a leading emerging market investment destination. This can only be possible if consistency and clarity is in our policies. In anticipation of the election results the equity markets have created an all time high and currency markets are buoyant but investors (private and foreign) are waiting for stability of governance. They will see policy actions before committing long term capital to India. Basically, India is experiencing a difficult economic situation on the growth, asset quality, inflation and fiscal deficit fronts. Growth estimation graph shows bottomward trends but recovery is predicated upon clarity of policy matters and decision making by the Government. Both of the factors are out of the control of private enterprises.

The past year has been a challenging year for our Industry with lots of ups and downs. In spite of the above, the industry has been able to maintain its steady performance during the year under review. The Fabrics/Textile Industry has played a key role in the country's progress over the years and the situation is likely to gain momentum in the times ahead. The Industry continues to hold a dominant position in country's economic structure because of its huge contribution towards employment generation.

Your Company's performance for the year 2016-17 has to be viewed in the context of aforesaid economic and market environment.

II. OPPORTUNITIES:

The sector uses the loans for various business activities ranging from the business of hire Purchase Company and to acquire, to provide on all type hire purchase basis of industrial and official plant, equipment machinery, vehicles, Agriculture, Handicrafts, Trading, Services, Shops, Livestock, and Production to others. As banks are unable to appraise the credit requirements of the micro and small businesses they are unable to extend credit facilities with collateral security. The banking system will not be able to meet this demand and a wide gap exists giving the Company an opportunity to grow in its financing of Small Business/ Industrial Loans.

There is confidence of a revival in global the economic outlook in the coming years though this view is not presently supported by economic fundamentals driven by higher economic growth in the advance economies and constrained by moderate growth in emerging markets.

A 'Make in India' campaign has been veiled by the Prime Minister. The 'Make in India' scheme also puts in place the systems to address in a timely manner queries of potential investors. At present, the Government of India allows 100% Foreign Direct Investment (FDI) under the automatic route in the textile sector, subject to all applicable regulations and laws, which effectively backs the 'Make in India' program for the textile and garment industry. Under the 'Make in India' initiative, investment opportunities for foreign companies and

entrepreneurs are available across the entire value chain of synthetics, value-added and specialty fabrics, fabric processing set-ups for all kinds of natural and synthetic textiles, technical textiles, garments, and retail brands.

Changes in China's Textile Policy severely affected the country's export to that country. In spite of the above, we are of the firm opinion that the future of the Textile Industry is quite promising. We hope that with the recoveries in economies of U.S.A and European Union will propel the growth of the Textile Industry. Ever growing retailing sector and increased purchasing power of both urban and rural people are still present in the economy and will lead to the growth of the Industry. The shifting of orders from China to India, due to various favourable factors will also help the Industry to increase its global share.

ANNEXURE- B TO THE AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub- section (3) of Section 143 of the Companies Act, 2013

We have audited the internal financial controls over financial reporting of DELTA INDUSTRIAL RESOURCES LIMITED (the Company) as on 31st March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for the Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of fraud and errors, the accuracy and completeness of accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the Guidance Note) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material aspects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidences we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that: -

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and the receipt and expenditures of the Company are being only in accordance with authorisations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and could not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material aspects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on "the internal financial controls over financial reporting criteria considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India".
