Item No. 8 & 9

Mr. K S Raju and Mr. K Rahul Raju were appointed as Chairman and Managing Director of the Company respectively from August 01, 2011 and thereafter re-appointed for a period of three years effective August 1, 2014. Their term of appointment expired on July 31, 2017.

The Board of Directors based on recommendation of Nomination and Remuneration Committee approved the re-appointment of Mr. K S Raju as Chairman and Mr. K Rahul

Raju as Managing Director of the Company for a period of 3 years with effect from August 01, 2017.

In view of the defaults in repayment of its debts/ debentures/ interest payable thereon for a continuous period of thirty days during the Financial Year 2016-17, the proposed remuneration to Mr. K S Raju and Mr. K Rahul Raju is not in compliance with Schedule V to the Companies Act, 2013. The remuneration so paid as stated above requires the approval of the members and Central Government.

Accordingly, the proposal for appointment was placed before the members of the Company for their approval. The members at the Annual General Meeting held on September 26, 2017, has approved the appointment and the remuneration payable to K S Raju as Chairman and Mr. K Rahul Raju as Managing Director of the Company for a period of 3 years with effect from August 1, 2017.

Mr. K S Raju, who was appointed as whole time director and Chairman, for a period of 3 years with effect from August 01, 2017, has retired from the Company with effect from January 19, 2019.

The company has made application to the Central Government for its approval for Payment of remuneration to Mr. K S Raju and Mr. K Rahul Raju, exceeding the limits provided in Schedule V and the application was pending with the Central Government.

Subsequently, the Ministry of Corporate Affairs, vide notification dated September 12, 2018, notified the Sections (viz., Section 196 of 203 of Companies Act, 2013) pertaining to Managerial Remuneration, as altered vide Companies (Amendment) Act, 2017; and has also altered the relevant Rules and Schedule V to align.

As per the amendment, the approval of Central Government is no longer required for paying remuneration beyond 11% of net profit of the Company. However, in case of companies that have defaulted on payments to Banks, Financial Institutions or any other secured creditor, the government has made it mandatory for prior approval of secured creditors before placing the matter for shareholders' approval at the General Meeting.

Consequent to notification, all the application before the Central Government shall abate and companies are required to obtain requisite approvals for those proposals, from the Members of the company within one year. The fact that, the Company applied for extension of its 13th Annual General Meeting, the matter is part of this Annual General Meeting.

The Company is in the process of obtaining the approval of the financial institutions and consortium of working capital banks for the payment of proposed remuneration as minimum remuneration even in the event of inadequate profit or loss as per the provisions of the Companies Act, 2013, to Mr. K S Raju as Chairman for a period of August 1, 2017 to January 19, 2019 and Mr. K Rahul Raju as Managing Director of the Company for a period of three years effective from August 1, 2017.

The Board commends payment of remuneration to Mr. K S

Raju as Chairman for a period of August 01, 2017 to January 19, 2019 and Mr. K Rahul Raju as Managing Director of the Company for a period of three years effective from August 1, 2017, as per the terms and conditions stated in the Notice.

None of the Directors or Key Managerial Personnel of the Company or their relatives, except Mr. K S Raju and Mr. K Rahul Raju (being related to each other), for themselves and each other, are concerned or interested in these resolutions.

The Audited Financial Statements of the Company drawn up both on standalone and consolidated basis for the financial year ended March 31, 2019 are in accordance with the requirements of the Ind-AS Rules. Figures for the previous year have also been re-stated in line with the requirements of the above Rules.

In the preparation of Financial Statements for FY2019, there is no treatment of any transaction which is different from that prescribed in the Indian Accounting Standards (Ind AS) notified by the Government of India under section 133 of the Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules, 2014 and the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time, the guidelines issued by SEBI and other accounting principles generally accepted in India.

Financial Summary

The loss after tax for the year was Rs. 490.73 crore as against Rs. 21.52 crore for the previous year. Due to financial stress, the company has operated only one Plant in last 3 quarters of financial year, and Plant - I could be operated partially during the 2018-19. Consequently, the production during the year was lower and increase in energy cost.

Share Capital

The Paid-up Equity Capital of the Company as on March 31, 2019 is Rs.59,80,65,003/- consisting of 59,80,65,003 Equity Shares of Re.1/- each.

Transfer to Reserves

There has been no transfer to General Reserves during the Financial Year 2018-19 in view of losses incurred by the Company.

Dividend

Considering the operating performance for the financial year ended on March 31, 2019, your Directors do not recommend any dividend for the year.

Plant Operations

Urea

Your Company during the year manufactured 5.85LMT of urea as against 15.90 LMT in the previous year. The production for the year 2018-19 is less by 10.05 Lakh LMT compared to the previous year. The negative variance is due to shutdown of Unit I from 3rd Jul 2018 to 22nd Dec 2018 and shutdown of Unit II from 3rd Jul 2018 onwards for Annual turnaround and financial stress due to inadequate availability of Fund Based and Non-Fund based working capital facilities from Banks.

Micro-Irrigation

Your Company achieved a production of 959 Lakh Mtrs against

1271 Lakh Mtrs during the previous year. PVC pipes production of 1927.1 metric tons against 2704.27 metric tons during the previous year.

MARKETING

Urea

Your Company achieved a sale of manufactured urea of 6.38 LMT compared to 15.99 LMT in the previous year.

The total urea sales for both manufactured and imported urea was 8.85 LMT compared to 20.83 LMT of previous year.

Other Traded Products

Due to financial stress the Company has scaled down its operations in trading. Given below is the segment wise performance :

Specialty Fertilizers

Your Company sold 8650 MT of Specialty Fertilizer during the year in comparison with sales of 20847 MT during the previous year.

Micro-nutrients

Your Company sold 2842 MT of Micro-nutrients during the year in comparison with sales of 5391 MT during the previous year.

Supplements

Your Company sold 7233 MT of Supplements during the year in comparison with sales of 28805 MT during the previous year.

Customized Fertilizers

Your Company sold 14126 MT of Customized Fertilizers during the year in comparison with sales of 18625 MT during the previous year.

The Company has been using Nagarjuna Brand / Trademarks under a License Agreement dated January 29, 1998.

Environment and Safety

Environment

Your Company continues its mission of protecting the environment and has inculcated the concept right down the organization. The statutory compliance on environmental matters is being complied from time to time.

Health & Safety

By following the best practices and with adoption of international standards and procedures, Plant Operations continued without any accident during the year. Your Company as on March 31, 2019 completed 1,52,77,403 accident free man-hours by employees and contractors of the Company.

Further to strengthen the procedures and practices, MAH inspection at Ammonia Storage Tanks and Cooling Towers Area, Safe Work Practices Audit, PPE Audit etc., were conducted. Refresher Training has been given to Rescue Squad and basic Fire Fighting techniques to Associates.

Energy Saving Schemes Implementation at NFCL, Kakinada

The Company is taking necessary steps in relation to the

revised Energy Norms and Target set by Department of Fertilizers (5.50 Gcal/MT Urea from 2020-21 onwards).

Resolution Plan (RP)

A. Background for Debt Restructuring

After a decade of focused turn around by 2013 from a pure Urea producer, NFCL had become India's largest private sector fertilizer company by sales volume (with a pan India presence). The company was also the most profitable urea manufacturing company (per metric tonne of urea produced) and the fastest growing and the most profitable micro irrigation company in the country.

B. Reasons for financial stress and status on debt resolution

1. During the year 2014 - 15 on account of a GAIL pipeline accident, the company could not continue urea production and started incurring losses.
2. The company's lenders approved a Corrective Action Plan (CAP) during the year 2015 and a short term debt resolution plan (RP) in 2018 but due to non-release of the working capital and working capital term loans agreed to/approved under CAP and RP, the company continued to incur losses.
3. The company's financial stress is purely on account of external factors, and recognized by the government as well as its lenders. The company is working closely with lenders and other agencies, to complete the debt resolution process during the year 2019-20, along with financing urea capital expenditure for reliability and energy reduction.

C. Cost Saving Programmes

1. Closure of Non-Core Divisions : The Company has decided to focus on Urea and Micro Irrigation manufacturing and distribution business and has decided to and closed down its Research, Development and Projects Divisions and has outsourced and closed down its Ikisan division during the first quarter of 2019- 20.
2. Additionally, the Company has substantially reduced Fixed Costs through various cost reduction initiatives across the Company.
3. The Company would be disposing noncore assets in a scheduled manner to contribute towards its planned Debt Restructuring Program.

D. DISCLOSURES

Company Policy Matters

Your Company's endeavor has always been to maintain transparency and accountability to its stakeholders. In this direction, various policies mentioned in the Corporate Governance Report have been implemented to enable the stakeholders to appreciate the various interventions the Company has taken.

The implementation of these policies are reviewed periodically by the Board of Directors and updated regularly.

The Company has set up a Grievance Redressal Mechanism for all its associates. The Grievance Redressal Mechanism is aimed to redress the grievances of associates expeditiously to ensure good working atmosphere and culture in the organization.

The Company has drawn-up Policy on Bio-diversity, Gift Policy, Health Safety and Environment Policy and Human Rights Policy.

Risk Management Policy

Even though, Regulation 21 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. is not applicable to the Company, the Board of Directors of the Company, as a Good Governance practice, constituted a Risk Management Committee of the Board which frames, implements and monitors Risk Management Plan of the Company and lays down procedures to inform the Board of the risk assessment and minimization procedures in the Company.

The Company has an Enterprise Risk Management System set up as required by the Listing Regulations.

As per the Risk Management System, the risks of the Company are being regularly identified/assessed and documented by way of individual profiles and risk registers. The Company is also maintaining web based risk management application by each department/division at Plant as well as Corporate Office

to manage and control the risk in structured manner.

The Risk Management Organization Structure consists of Risk Management Steering Committee (RMSC) at apex level, and at divisional level, Corporate Risk Management Committee (CRMC) and Plant Risk Management Committee (PRMC) were formed to facilitate monitoring and governance of the ERM process on an ongoing basis.

Periodical meetings of the CRMC and PRMC are being held wherein the critical, cautionary and acceptable risks are presented by the departments through web based RMS application. During such presentations, various cross-functional deliberations take place on the contributing factors and the control measures to mitigate the risks. The outcome of CRMC and PRMC deliberations and the analysis of risks are presented to RMSC on a quarterly basis.

Policy on Board Evaluation

The Policy on Board Evaluation was adopted with effect from October 1, 2014 by the Board of Directors in compliance of Companies Act, 2013 and Listing Regulations.

The purpose of the policy is to assess the effectiveness of the Board as a whole, Committees of Board and Individual Directors on regular basis and to take necessary steps for improving the effectiveness of the Board.

The Nomination and Remuneration Committee has devised the methodology, identified sample tools for evaluation and also laid down the parameters for evaluation of Independent Directors, Chairman, Managing Director and Committees of the Board and the Board.

The Nomination and Remuneration Committee, based on the responses received from Directors, evaluated the Directors and conveyed the opinion of the Committee to the Board at the meeting held on May 24, 2019.

In view of the evaluation not linked to payment of remuneration, as the Company has opted only for payment of sitting fees, the evaluation has no financial implications on the Company..

Whistle Blower Policy/Vigil Mechanism

The Company formulated the policy in compliance with Regulation 22 of Listing Regulations and Section 177(9) of the Companies Act, 2013. The Policy aims to prohibit managerial personnel from taking adverse personnel action against employees disclosing in good faith, alleged wrongful conduct on matters of public concern involving violation of any law, mismanagement, and misappropriation of public funds among others.

Expansion / Developments:

- (i) Developed Friction welding machine in house at Nacharam plant
- (ii) Substituted HDPE fabricated fittings with molded fittings for improving quality and cost reduction and improving productivity.
- (iii) Mold design and order placement completed for 63 mm multi cavity male and female HDPE couplers for Nacharam plant.
- (iv) Trial carried out for AAS make thin walled flat drip lateral with Nano dripper .This product is equivalent for our eco product.
- (v) Hot air dryers introduced for moisture removal and optimum usage of reprocessed scrap.
- (vi) 100% usage of process scrap in non-prime products.

3. Future Plan of Action:

a. Production Facility at Kakinada:

The following action plan has been made to improve Production, Plant Reliability, Specific Energy Consumption & in EHS areas as mentioned below:

- (i) Ammonia-I Backend Boiler (E-501) Replacement
- (ii) Ammonia-I Combustion Air Pre-heater (E-204) replacement
- (iii) Ammonia-I Process air compressor First inter stage cooler replacement
- (iv) Ammonia-II Front-end Boiler (EE-208) replacement
- (v) Ammonia-II Synthesis Converter Basket replacement

- (vi) HT Shift catalyst Replacement in Ammonia-II
- (vii) Upgradation of Ammonia-I PAC and Ammonia-II ARC turbo-log speed/ anti-surge control system.
- (viii) Fine Filters in HP NG Network in both Ammonia Plants
- (ix) Upgradation of GT - C, Mark V Control System to Mark VI-E System
- (x) Upgradation of Unit-I DCS/ESD systems
- (xi) Compressor Rotor for GT-C & Stator blades and related hardware.

Energy Reduction Study:

- Technical & Commercial discussions with vendors completed.
- Order will be placed for Energy saving schemes after Financial Closure. Major schemes are turbines up gradation (For Syn gas turbine of Ammonia plant-I & CO2 Turbines of both urea plants) and implementation of Ammonia wash in both Ammonia Plants.

b. Production facility at MI and PVC Plants

- I. Indigenization of 4 LPH flat drippers is planned
- II. Proposal to setup new Injection Molding facility to manufacture Cylindrical /Strip type Drippers at Nacharam and Halol Plants.

B.2. Technology Absorption, Adaptation and Innovation:

- 1) Efforts, in brief, made towards technology absorption, adaptation and Innovation:

a. Production Facility at Kakinada:

Installation of JSC NIIK Vortex Mixer in Urea-II Reactor: This scheme was implemented during PTA 2014 in Urea II Reactor. NFCL is the first Fertilizer Industry in India to adopt this technology.

b. Production facility at MI and PVC Plants

- i. Indigenization of imported spare parts carried out to reduce the dependency on imported parts and optimize the cost.
- ii. Introduced molded fittings in place of fabricated fittings to improve quality and productivity .

- 2. Benefits derived as a result of the above efforts, example Product Improvement, Cost Reduction, Product Development Import Substitution etc.

a. Production Facility at Kakinada:

- i. Installation of Vortex Mixer in Urea-II Reactor improved conversion thereby resulted in energy savings.
- ii. With the implementation of Energy Reduction schemes, the complex Sp. Energy Consumption is targeted for improvement of at least 0.1 Gcal/MT of Urea

b) Production facility at MI and PVC Plants

- i. Import cost and spares inventory carrying cost reduced by indigenization of spares by developing local vendors.
- ii. Improved quality , reduced labor cost and enhanced productivity by replacing fabricated fittings with molded fittings.
- iii. Consumed 100% process scrap within BIS norms in non-prime products.
- iv. Continuously reduced the input costs by optimizing the processes.
- v. Improved the efficiency of production lines.
- vi. Warranty claims have been reduced by improving quality of products.

3. In case of import technology (imported during the last five years reckoned from the beginning of the financial year), following information may be furnished:

The Company has not entered into any contract with the managerial personnel and the notice period is governed by the rules of the Company and no severance fees is payable.

The Company does not have any stock option scheme for the managerial personnel.

The details of remuneration approved by the Members of the Company, for payment to Executive Directors, during 2018-19 are as under:

Directors Name	Salary per month	Commission	Perquisites
Mr. K. S. Raju*	Rs.5,00,000/-	0.5% of the net profits of the Company limited to annual salary	Perquisites other than medical reimbursement are restricted to an amount equal to the annual salary.
Mr. K. Rahul Raju	Rs.5,00,000/-	0.5% of the net profits of the Company limited to annual salary	Perquisites other than medical reimbursement are restricted to an amount equal to the annual salary.

* Mr. K S Raju, Whole Time Director and Chairman of the Company has retired from the Company with effect from January 19, 2019.

The Shareholders at the Eleventh Annual General Meeting held on September 26, 2017 approved the Appointment of Mr. K Rahul Raju as Managing Director and Mr. K S Raju as Whole Time Director / Chairman of the Company for a period of three years with effect from August 1, 2017, at a Managerial Remuneration of Rs.500,000/-per month. An application to this effect has been filed with the Central Government (Ministry of Corporate Affairs) for its approval.

Subsequently, the Ministry of Corporate Affairs, vide notification dated September 12, 2018, notified the Sections (viz., Section 196 of 203 of Companies Act, 2013) pertaining to Managerial Remuneration, as altered vide Companies (Amendment) Act, 2017; and has also altered the relevant Rules and Schedule V to align.

As per the amendment, the approval of Central Government is no longer required for paying remuneration beyond 11% of net profit of the Company. However, in case of companies that have defaulted on payment to Banks, Financial Institutions or any other secured creditor, the government has made it mandatory for prior approval of secured creditors before placing the matter for shareholders' approval at the General Meeting.

Consequent to notification, all the application before the Central Government shall abate and companies are required to obtain requisite approvals for those proposals, from the Members of the company within one year. The fact that, the Company applied for extension of its 13th Annual General Meeting, the matter is part of this Annual General Meeting.

PERFORMANCE EVALUATION OF DIRECTORS AND CRITERIA FOR EVALUATION:

As per the provisions of the Companies Act, 2013 and Listing Regulations, the company has devised a framework for performance evaluation of Independent Directors, Board, Committees and other Directors. A structured questionnaire was prepared after taking into consideration, inputs received from the Directors covering various aspects of the Board's functioning such as composition of the Board and its Committees, execution and performance of specific duties, obligations and governance, information flows, decision making, Board dynamics, Company performance, etc.

Based on the responses to the questionnaires received from the Directors, the Board and the Nomination and Remuneration Committee reviewed the performance of the individual directors on the basis of the criteria such as the contribution of the individual director to the Board and committee meetings like preparedness on the issues to be discussed, meaningful and constructive contribution and inputs in meetings, etc. In addition, the Chairman was also evaluated on the key aspects of his role.

RELATED PARTY TRANSACTIONS

The Board's Report contains information in this regard.

LEAD INDEPENDENT DIRECTOR

CERTIFICATE ON CORPORATE GOVERNANCE

To
The Members of
Nagarjuna Fertilizers and Chemicals Limited

We have examined the compliance of conditions of Corporate Governance by Nagarjuna Fertilizers and Chemicals Limited for the year ended on 31st March, 2019, as stipulated in Securities and Exchange Board of India (Listing Obligations And Disclosure Requirements) Regulations, 2015 of the said Company.

The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination has been in the manner described in the Guidance Note on Certification of Corporate Governance issued by the Institute of Company Secretaries of India and has been limited to a review of the procedures and implementation thereof adopted by the company for ensuring compliance with the conditions of Corporate Governance as stipulated in the said Clause. It is neither an audit nor an expression of opinion on the financial Statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, and based on our reliance upon the representations made by the management that there were no transactions of material nature with the management or by relatives that may have potential conflict with the interest of the company at large, as stated under Disclosures Column of the Company's Report on Corporate Governance.

Sl.No.	Particulars
1	<p>The Company has complied with the requirements under the LODR (earlier Listing Agreement entered into with Bombay Stock Exchange Limited and National Stock Exchange of India Limited) except the following compliances:</p> <p>To be in compliance with Regulation 17(1) (b), at least half of the board of directors shall comprise of independent directors (if the entity does not have a regular nonexecutive chairperson), whereas the Company has only 2 Independent Directors in the Board.</p> <p>As on March 31, 2019; the Board consisted of 7 directors. The categories of directors on the Board comprise of 4 "Nominee Directors", 2 "Independent Directors", and 1 "Executive Director" and we have been given to understand that the majority of the Board consists of "Nominee Directors" due to financial stress / debt under stress with consortium of Banks. We have further been given to understand by Company Management that upon debt resolution is achieved, the company will take all possible endeavors to comply with applicable clauses of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. As of today, there is a non compliance in this regard.</p>
2	<p>The company undertakes share transfer activity as a SEBI Registered Category II in-house RTA and the Company has certified the number of complaints received from the investors and the number of complaints resolved during the financial year and there are no complaints pending as at the year end as stated under Investor Grievance Redressal Column of the Company's Report on Corporate Governance.</p>

We certify that the company has complied in all material respects with the conditions of Corporate Governance as stipulated in the above mentioned Listing Agreement and Securities and Exchange Board of India (Listing Obligations and Disclosures Requirements Regulations, 2015).

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the company.

MANAGEMENT DISCUSSION AND ANALYSIS

Global Economic Scenario

The Global economy has registered a growth rate of 3.6 percent in the year 2019. World economy is heading towards a global recession. Growth continues to be weakened due to trade barriers, increasing geopolitical tensions, US-China trade war and these factors will cumulatively reduce global GDP of 2020. The weakness in growth is driven by a sharp deterioration in manufacturing activity, global trade, higher tariffs and prolonged trade policy disputes. This uncertainty will damage investment and demand for capital goods. In addition, the automobile industry is passing through a difficult phase owing to a variety of factors, such as contracting demand, introduction of electric vehicles etc. Global economy is expected to slow down in year 2020.

Indian Economic Scenario

While the world growth rate is stagnated around 3.6 percent since 2011, India sustained growth rates higher than China and became the sixth largest economy. Though the GDP Growth was moderated to 6.8 per cent in 2018-19 from 7.2 per cent in 2017-18, India is still remained the fastest growing major economy in 2018-19. Importantly, this growth was sustained while achieving macro-economic stability. The Inflation was contained at 3.4 per cent in 2018-19. The Non-Performing Assets as percentage of Gross Advances reduced to 10.1 per cent at end December 2018 from 11.5 per cent at end March 2018. The Current account deficit was manageable at 2.1 percent of GDP. The Fiscal deficit of Central Government declined from 3.5 percent of GDP in 2017-18 to 3.4 percent in 2018-19. The growth momentum of the economy is expected to strengthen in 2019-20. Over all prospects of pickup in growth in 2019-20 with further boost due to private investment and acceleration in consumption, which were given emphasis in the Union Budget.

Indian economy to become a 3 trillion-dollar economy in the current year. The Government aspires to make India a 5 trillion-dollar economy with investments. To achieve the objective of India becoming a 5 trillion-dollar economy by 2024-25, India needs to shift its gear to accelerate and sustain growth of Real GDP rate to 8% from present 6.8%. the economic growth is measured by Real Gross Domestic Product (GDP), that is total quantity of goods and services produced in a country over in a year. When Real GDP raises faster than population, output per person raises and improves the standard of living. Growth of higher GDP along with higher employment growth rate is fundamental to the overall economic growth and that is the objective of a 5 trillion-dollar economy.

Agriculture Sector

Agriculture continues to be the major employer in India which employs about 50 percent of the total workforce in India and contributes around 15 percent to the country's GDP. The growth in agriculture declined from 5 percent in 2017-18 to 2.9 percent in 2018-19.

Delayed monsoon affected the Kharif planting areas for

major crops such as paddy and very small portion shifted to other crops such as cereals, oil, seeds, vegetables etc. resulting in lower acreage under cropping. The extended monsoon and post monsoon incessant rains in several parts of India like Maharashtra, Uttar Pradesh, Madhya Pradesh, Bihar, Telangana damaged standing crops and vegetables extensively resulting in suffering to farmers and they are in distress. However, Rabi season is expected to be better as almost all reservoirs are full and extended monsoon will have a good amount of moisture content in soil.

Government continues to support agriculture specially to improve farmers income. The Government aims at doubling farmers income by 2022-23. Emphasis in agriculture through various initiatives such as e-NAM (electronic National Agriculture Market) by linking APMCs, introduction to facilitate farmers traders with involvement of State Government, DBT in fertilizers and higher budget allocation of Rs.75,000 crores for financial year 2019-20 to flagship schemes PM -Kisaan.

Fertilizer Sector

Chemical fertilizers have played an important role in making India self-reliant in terms of production of food grains. However, the imbalanced use of nutrients and micronutrients has destabilized the optimum combination of fertilizer. The Government wants to make India self-sufficient with respect to urea by 2021. However, the uncertainty in policy, especially of fertilizer pricing and subsidy, and delays / difficulties in subsidy payments due from the Government which in turn has strained working capital of the players in the industry has been a major bottleneck.

The Government has budgeted Rs.79996 Crores on fertilizer subsidies in 2019-20. Though this is increase of Rs. 9910 crores over Revised Estimates of 2018-19, which is very low compared to the actual fund requirements, considering carry forward of Rs. 39000 crores from earlier years and including payment of Rs. 10000 crores of last year Special Banking Arrangements, net available budget for production during budget year is around Rs.41000 crores. The lower provisioning and the resultant delayed payments will impact the liquidity and profitability of Companies especially when outlays of capital expenditure have to be met to meet the new energy norms effective from April 2020.

Government Policies

The New Pricing Scheme (NPS) for urea manufacturing units was introduced from April 2003, replacing the erstwhile Retention Price Scheme. NPS was implemented in three stages (NPS I,II and III). NPS-III was to end in March 2010 but was extended till April 01, 2014. Modified NPS III was effective from April 02, 2014 to May 31, 2015. The New Urea policy 2015 is applicable for four years i.e. from FY 2015-16 to FY 2018-19 and further extended from April 2019 till further orders. The New Urea Policy 2015 with Gas Pooling policy are applicable for existing urea units from June 01, 2015 onwards. New energy consumption norms exemption will end on 31st March 2020 and be applicable to all urea units effective from April 2020.

New urea units are covered under New investment policy 2012. Under this policy, the Government is reviving five closed fertilizer plants by setting up new ammonia-urea plants with a capacity of 63.5 LMT per annum. Four units of Fertilizer Corporation of India Limited (FCIL) in Talcher, Ramagundam, Gorakhpur and Sindri and one of Hindustan Fertilizer Corporation Ltd. (HFCL) in Barauni are being revived with investment of Rs 38000 crores.

The Government approved for continuance of the urea subsidy scheme up to 2019-20. This decision assures that the MRP and subsidy on urea will not be changed till 2020. The Government of India has introduced 45 Kg bag of urea in place of existing 50 Kg bags effective from March 2018. Maximum Price per bag of urea was notified is Rs 242 for 45 kg.

The Company believes that the recent policy intervention and measures taken by the Government would result in higher efficiency of plants and lower subsidy burden of the Government. It is however felt that the energy policy in reducing the norms should have given some more time to the urea manufacturers to recover their capital cost employed for achieving the revised energy norms.

Company's Strengths and opportunities

The Company's main strength lies in an excellent track record of project execution, achieving high production levels and good safety record. The company has multiple advantages of having good brand image, raw material and the market at its doorstep. The Company is constantly looking for new opportunities to further enhance its revenue streams and increase profitability.

The Company has partnered with Government of India's prestigious eNAM initiative, an online portal for trading in agricultural produce. The Company has developed the e-NAM project platform under i-kisan business and completed automating 585 Mandis across India in a record time of two years.

Risks and concerns

The delay on the part of the Government of India in undertaking comprehensive fertilizer reforms is a matter of concern. The industry continues to face challenges such as insufficient subsidy allocation in budget, continued delays in subsidy payments to fertilizer manufacturers, DBT scheme which has serious impact on working capital, unfavorable policies for setting up new urea facilities, urea retail prices, domestic gas availability and revised energy norms.

The existing urea investment policy needs to be amended to make further investments in the fertilizer industry lucrative. The industry is plagued with the build-up of subsidy dues which forms a substantial portion of the gross sales of fertilizer Companies, the delay is leading to increased short-term borrowings, impacting the working capital cycle resulting in high interest cost and causing severe financial stress on the Company.

The pricing of Natural Gas is not in parity with international prices resulting in the cost of production of fertilizers in India not being comparable and competitive with imports resulting in unfair competition denying level playing field to Indian fertilizer companies. The Fertilizer Industry need protection through tariff and other measures for mitigating the threat of cheaper imports.

To sum up existing domestic Urea production becoming unviable under present subsidy policy as revision of Fixed Cost is not taken up for 16 years, Energy norms tightened several times after implementation of NPS policy (in 2004, 2006, 2015 and 2018) without recognizing investments in energy saving projects, Urea units need huge investments and time of 2-3 years to adjust to the New Energy Norms of 2018, Subsidy payments always remain in huge arrears, Declining share of domestic gas resulting in increase in urea subsidy.

INDEPENDENT AUDITOR'S REPORT

To
The Member of
Nagarjuna Fertilizers and Chemicals Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Nagarjuna Fertilizers and Chemicals Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, the loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Material Uncertainty Related to Going Concern

We draw attention to Note 35 in the financial statements, the Company has incurred net loss of Rs.49,064.41 Lakhs during the year ended March 31,2019, and the current liabilities exceed the current assets by Rs. 1,47,492.90 Lakhs as on March 31,2019. During the year ended March 31,2019 the Company was unable to discharge its obligations for repayment of Loans and settlement of other financial & non-financial liabilities including statutory liabilities. The Company's

management is currently in discussion with the lenders with a resolution plan and are hopeful of a positive response to the resolution plan from the lenders. These events and conditions indicate material uncertainty which cast a significant doubt on the Company's ability to continue as a going concern, and therefore may be unable to realise its assets and discharge its liabilities including potential liabilities in the normal course of business. The ability of the Company to continue as going concern is solely dependent on the acceptance of debt restructuring proposal, which is not wholly within the control of the Company.

The financial statements of the Company have been prepared on going concern basis by the management. The management is hopeful of a successful outcome of the resolution plan submitted and accordingly no adjustments have been made to the carrying value of the assets and liabilities and their presentation/ classification.

Our opinion is not modified in respect of this matter.

Emphasis of Matter

Attention is invited to following notes to the Standalone Ind AS Financial Statements:

- a) Note 5.1 regarding the provision for diminution in the value of investments made for the value of Investment in Jaiprakash Engineering and Steel Company Limited (JESCO), a subsidiary and its adequacy based on Management assessment, for the reasons stated in the said note
- b) Note 25.1 regarding recognizing Income from urea operations including reimbursement claims for additional fixed cost, input escalation/de-escalation, and for production beyond reassessed capacity based on prices and provisions applicable under NPS III, Modified NPS III, pending notification of final prices under New Urea Policy 2015 and consequential adjustments, if any that may arise.
- c) Note 38.1.1 regarding Arbitration awards passed against the Company for USD 15,275,688, GBP 6,90,630 EURO 4,55,000; the impact of which has not been recognised in the Financial Statements, for reasons stated in the said note;

Our opinion is not modified in respect of the above matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the *Material Uncertainty Related to Going Concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has an adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- e. On the basis of the written representations received from the Directors as on March 31, 2019 taken on record by the Board of Directors of the Company, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

We report that the Excess over Minimum Remuneration paid to the Chairman and Managing Director for the year 2018-19 needs approval from the lenders before it is presented to the ensuing AGM for its approval in accordance with the amended provisions of the Companies Act 2013
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
- ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Nagarjuna Fertilizers and Chemicals Limited of even date)

- i. In respect of the Company's fixed assets:
 - a. The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - b. The Company has a program of verification to cover all the items of fixed assets in a phased manner which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, some of the fixed assets were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - c. According to the information and explanations furnished to us, and based on our review, title deeds of its immovable properties are not held in the name of the Company in respect of land to the extent of 340.11 acres in 104 cases, situated in Nellore District, Andhra Pradesh, which is in the possession of the Company, pending registration of the titles thereto in its name.
- ii. According to the information and explanations furnished to us, in respect of the Company's inventories, physical verification of inventories at plants and warehouses has been conducted by the management at reasonable intervals during the year. In our opinion, having regard to the nature of its business and location of its stocks, the frequency of verification is reasonable. Further, the discrepancies noticed on such verification, between the physical stocks and the respective records were not material in relation to the size of operations of the Company and the same have been properly dealt with in the books of account.
- iii. According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the Register maintained under Section 189 of the Companies Act, 2013. Accordingly, reporting under clause (a), (b) and (c) of paragraph 3(iii) of the Order does not arise.
- iv. According to the information and explanations furnished to us, the Company has not granted any loans, nor made any investments or given any guarantees or securities during the year to any of the parties specified in Sections 185 and 186 of the Companies Act, 2013, except Moneys advanced to Nagarjuna Oil Refinery Limited, pursuant to the Composite Scheme of Arrangement and Amalgamation, which the Company has been legally advised does not come under the purview of the aforesaid sections.

- v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed thereunder to the extent notified. Accordingly, reporting under provisions of paragraph 3(v) of the Order does not arise.
- vi. We have broadly reviewed the cost records maintained by the Company pursuant to the Rules in force made by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013, and are of the opinion that, prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. According to the information and explanations furnished to us,
 - a) There were a few delays in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income-tax, GST, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities, and there were no amounts payable in respect of the aforesaid undisputed statutory dues in arrears, as at March 31, 2019, for a period of more than six months from the date they became payable.

The Company did not have any outstanding debentures as at the date of the balance sheet.

- ix. According to the information furnished to us, during the year under report, the company did not have any moneys raised from Initial Public Offering or Further Public Offering, that remained to be applied for the purposes for which they were raised. Thus, reporting under Clause 3(ix) of the Order does not arise.
- x. To the best of our knowledge and according to the information and explanations furnished to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.
- xi. According to the information and explanations given to us and based on the records examined by us, We report that the Excess over Minimum Remuneration paid to the Chairman and Managing Director for the year 2018-19 needs approval from the lenders before it is presented to the ensuing AGM for its approval in accordance with the amended provisions of the Companies Act 2013

- xii. The Company is not a Nidhi Company and hence reporting under clause 3 (xii) of the Order does not arise.
- xiii. In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the Standalone Ind AS Financial Statements as required by the applicable Accounting Standards.
- xiv. During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly paid convertible debentures and hence reporting under clause 3 (xiv) of the Order does not arise.
- xv. In our opinion and according to the information and explanations furnished to us, during the year, the Company has not entered into any non-cash transactions, to which the provisions of Section 192 of the Companies Act 2013 apply, with its directors or persons connected with them.
- xvi. In our opinion, based on the information and explanations furnished to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Nagarjuna Fertilizers and Chemicals Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Nagarjuna Fertilizers and Chemicals Limited (“the Company”) as of March 31, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment

of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1 CORPORATE INFORMATION

“The company is a listed public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on The Bombay Stock Exchange and The National Stock Exchange of India, the two recognised stock exchanges in India. The Registered Office of the Company is located at D.No 8-2-248, Nagarjuna Hills, Punjagutta, Hyderabad - 500082.

The Company is principally engaged in the business of manufacturing and marketing Fertilizers, Micro Irrigation Equipments and Agri Informatic Services.”

2 SIGNIFICANT ACCOUNTING POLICIES**2.1. Basis of preparation:**

The Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) on accrual basis and under the historical cost convention except for Derivative financial instruments and certain financial instruments which are measured at fair value, pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amended Rules, 2016.

The Financial Statements are presented in INR and all values are rounded to two decimals to the nearest lakhs, except when otherwise indicated.

2.2. Use of estimates:

The preparation of Financial Statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have a significant effect on the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- i. Measurement of defined benefit obligations - Note 30
- ii. Recognition of deferred tax asset/Liability- Note 19
- iii. Fair Value Measurement of financial Instruments - Note 39 & 40
- iv. Recognition of subsidy income - Note 25.1
- v. Provision for doubtful trade receivables

2.3. Current versus non-current classification

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is held primarily for the purpose of trading;
- iv. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- v. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- vi. in the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

2.4. Property, plant and equipment

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the

Notes forming part of the financial statements for the year ended March 31, 2019

item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

All repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Depreciation is provided on a pro-rata basis under the straight-line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013 with the following exception:

- ▶ Continuous Process Plants' are depreciated for 37 years based on the technical evaluation of useful life done by the management

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its property, plant and equipment at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.5. Intangible assets

Separately purchased intangible assets are initially measured at cost. Intangible assets acquired in a business combination are recognised at fair value at the acquisition date. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets are as follows:

Trademarks and Services: 10 years

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its intangible assets at the previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.6. Impairment of non-financial assets

Assessment for impairment is done at each Balance Sheet date for any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognizing the impairment loss as an expense in the Statement of Profit and Loss. Recoverable amount is the higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date for any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased, in which case, a reversal of an impairment loss for an asset is recognised in the Statement of Profit and Loss account.

2.7. Inventories

Inventories are valued at the lower of cost and net realisable value. Materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs for different categories of materials are as follows:

- ▶ Raw materials and Traded Products: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- ▶ Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.

Notes forming part of the financial statements for the year ended March 31, 2019

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Net realisable value in the case of Urea –

- ▶ the Group Concession Price notified by the Government of India in respect of finished goods lying at the factory, and
- ▶ the net sale price in respect of finished goods lying in the warehouses outside the factory.”

Work-in-process, raw materials, stores, spares, packing material and loose tools are valued at weighted average cost, less provision for depletion in value, if any.

2.8. Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company’s cash management.”

2.9. Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial Assets

Initial recognition

On initial recognition, financial assets are recognised at fair value. Transaction cost that are directly attributable to acquisition of financial assets that are not at fair value through profit and loss (FVTPL) are added to fair value on initial recognition.”

Subsequent measurement:

Financial assets which are debt instruments are subsequently measured on the following basis, depending on their classification

- ▶ Amortized Cost
- ▶ Fair Value Through Profit and Loss (FVTPL)
- ▶ Fair Value Through other Comprehensive Income (FVOCI)”

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

When financial assets are Equity Instruments:

All equity investments in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income (OCI) subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI.

Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as ‘other income’ in the Statement of Profit and Loss.

De-recognition:

The Company derecognizes a financial asset when the contractual right to the cash flows from the financial asset expires or it transfers the financial asset at the transfer qualifies for de-recognition under IND AS 109.

Trade Receivables and Loans:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the Effective Interest Rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Impairment:

Expected Credit Losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category.

Notes forming part of the financial statements for the year ended March 31, 2019

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

Financial liabilities:

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and financial liabilities at amortised cost as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of liabilities measured at amortised cost, net of directly attributable transaction costs.

Subsequent measurement:

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

Derecognition:

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

2.10. Derivative Financial Instruments

The Company holds derivative Financial Instruments such as foreign exchange forward and options contracts to mitigate risk of changes in exchange rates on foreign currency exposure.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any gains or losses arising from re-measurement are dealt in Statement of Profit or Loss.

This category has derivative financial assets or liabilities which are not designated as hedges. Although the company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS109, Financial Instruments and hence categorized as financial assets or liability at fair value through profit or loss.

2.11. Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.12. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each Balance Sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or

Notes forming part of the financial statements for the year ended March 31, 2019

- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.13. Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised. They are disclosed only when an inflow of economic benefit is probable from such assets.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.14. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Amount disclosed as revenue is net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf third parties.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of Goods:

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer.

In case of goods which are shipped subject to installation and inspection, revenue is normally recognized when the buyer accepts delivery, and installation and inspection are complete.

Subsidy:

Group Concession Price under Group Concession Scheme (GCS) and Equated Freight are recognized in accordance with the norms prescribed by the Government of India – Fertiliser Industry Co-ordination Committee, with adjustments for escalation / de-escalation in the prices of inputs and other adjustments as estimated by the management in accordance with known policy parameters in this regard.

Rendering of services:

Revenue from sale of services is recognised as per the terms of the contract with customers based on stage of completion when the outcome of the transactions involving rendering of services can be estimated reliably.

Interest income:

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable using effective interest method.

Dividends:

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

2.15. Employee benefits**Gratuity:**

In accordance with the Payment of Gratuity Act, 1972 the Company provides gratuity as a defined benefit plan, to eligible Employees. Liability with regard to gratuity is determined by an independent actuary at every Balance Sheet date using the projected unit credit method.

The Company recognizes the net obligation of a defined benefit plan in the Balance Sheet as asset or liability. Gains or losses on re-measurements are recognized in Other Comprehensive Income (OCI). Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of Profit and Loss.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss.

Superannuation Fund and Provident Fund:

Superannuation and Provident Fund are in the nature of defined contribution plans.

The Company makes monthly contribution to approved superannuation fund covered by a policy with LIC of India. The Company has no further obligation beyond monthly contribution. The obligations under the said policy are accounted for on accrual.

The Company makes monthly contribution to the Provident Fund scheme and recognizes it as an expense, in the year in which employee renders the related service. The Company's Contribution towards Provident Fund is administered and managed by an approved trust. The Company has no obligation, other than the contribution payable to the Fund.

Compensated absences:

Liability for compensated absence is treated as a long term liability and is covered by a policy with Life Insurance Corporation ('LIC'). The estimated liability at each Balance Sheet date is determined by an independent actuary using the projected unit credit method and is recognised in the accounts accordingly.

2.16. Taxes**Current income tax:**

Income tax expense is recognised in the statement of profit or loss except to the extent that it relates to items recognized directly in equity or Other Comprehensive Income (OCI), in which case the tax is also recognized in equity or Other Comprehensive Income (OCI).

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax asset/liability is measured at the amount expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Notes forming part of the financial statements for the year ended March 31, 2019

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the Balance Sheet date.

Deferred tax assets are recognised to the extent it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent there is no longer probable that the related tax benefit will be realized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.17. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

In the case of a loan or assistance provided by Government or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a Government Grant. The Grant is initially recognised and measured at fair value and subsequently measured in accordance with the recognition and measurement principles of Ind AS 109, Financial Instruments (financial liabilities). The Government grant is measured as the difference between the initial carrying value of the loan and the proceeds received and recognised as income on a systematic basis over the periods the related costs, for which it is intended to compensate, are expensed.

2.18. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and Receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term. Accordingly, the Company's leasing arrangements, are mostly in the nature of operating lease for premises, and are cancellable / renewable by mutual consent. The rentals there under are recognised in the Statement of Profit and Loss.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee.

2.19. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset in the period in which they are incurred, until such time the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Interest earned on temporary investments out of specific borrowings made for qualifying assets is deducted from the borrowing costs eligible for capitalisation to those assets.

2.20. Research and development costs

Expenditure relating to capital items is treated as fixed assets and depreciated at applicable rates. Revenue expenditure during research period is charged to Statement of Profit and Loss in the year in which it is incurred.

2.21. Foreign currency transactions

The Company's Financial Statements are presented in Indian Rupees, which is its functional currency.

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency denominated monetary assets and liabilities remaining unsettled at the end of the year are translated into functional currency at exchange rates prevailing at the Balance Sheet date. Exchange differences arising on translation of monetary items are recognised in Statement of Profit and Loss.

Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated using exchange rate prevalent on the date of transaction. Non-monetary assets and liabilities denominated in foreign currency and measured at fair value are translated using the exchange rates at the date when the fair value was determined.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively).

2.22. Earnings per Share

Basic Earnings per Equity Share, is computed by dividing the net profit for the year attributable to the Equity Shareholders by the weighted average number of equity shares outstanding during the year.

Diluted Earnings per Share is computed by dividing the net profit for the year, adjusted for the effects of dilutive potential equity shares, attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti-dilutive.

2.23. Investments

Investments are classified as Non Current and Current. Non Current Investments are carried at cost less provision for other than temporary diminution, if any, in value of such investments. Current investments are carried at lower of cost and fair value.

2.24. Exceptional Items

Exceptional items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items are disclosed separately as exceptional items.

5.1. In respect of Jaiprakash Engineering and Steel Company Ltd (JESCO), the project envisaged has not materialised. Karnataka Industrial Area Development Board (KIADB) had given possession of 986.52 acres of land (lease hold and free hold) for the project against deposit of ₹ 3,053.65 Lakhs in earlier years. JESCO approached KIADB for surrender of land allotted and refund of amount paid. KIADB agreed to refund the deposit with a condition that as and when KIADB receives request from potential investors, JESCO's lands will be offered and upon acceptance by the potential investors, such sale proceeds will be paid to JESCO in refund of its deposit. As at the year end, JESCO is in possession of 388.70 acres of land (Previous year 388.70 acres of land), the realisable value of which, in the opinion of JESCO's management is adequate to recover the deposit outstanding as at March 31, 2018.

JESCO also applied for approval to implement two projects i.e. Fertilizers and Chemicals Complex and Integrated Township to Karnataka Government for the balance land held. The Government of Karnataka has approved the projects vide Government Order (GO) No. CI 175 SPI 2011, Bangalore dated August 18, 2011, May 07, 2012 and GO No. CI 176 SPI 2011 dated August 18, 2011.

The Government of Karnataka has passed order No. CI 175 SPI 2011 Dt. 11-11-2013 cancelling the Land Allotment made to the Company stating that the Company has not implemented the approved projects and also advised KIADB to resume the balance land from the Company. The Company has filed a writ petition challenging the Order of the Govt. of Karnataka and the Hon'ble High Court of Karnataka has prohibited the Govt. of Karnataka from dispossessing the land in possession of the Company. The High Court of Karnataka on April 23, 2018 has lifted the stay and permitted the Government of Karnataka from taking possession of 160 acres of land from the Company for handing over the same to prospective applicants. JESCO filed Writ appeal against this modified order. JESCO's Writ Application was disposed. JESCO is filing fresh W.P challenging the allotment of 160 Acres.

The stay of the High Court of Karnataka in relation to dis-possession of land in the possession of the Company for 388.70 acres continues.

Pending crystalization of plans and considering the above said developments, the Financial Statements of JESCO, for the year have been prepared on going concern basis, notwithstanding the project initially planned been shelved.

In view of the above, management is of the opinion that an additional provision of ₹ 450 lakhs be made in addition to the existing provision of ₹ 460 lakhs totaling to an amount of ₹ 910 Lakhs as of March 31, 2019.

5.2. These shares were pledged in favour of Banks / Financial Institutions for the term loans availed by the Company, which are repaid in full awaiting release of pledge.

Defined Contribution Plans

The Company makes Provident Fund and Superannuation Fund contributions to defined contribution plans for qualifying employees including whole time directors. Under the plans the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Provident Fund scheme additionally requires the Company to guarantee payment of interest at rates notified by the Central Government from time to time, for which shortfall if any, shall be provided for by the Company.

Contributions to these Defined Contribution Plans, charged to Statement of Profit and Loss during the year are as under:

Particulars	March 31, 2019	March 31, 2018
Employer's contribution to provident fund	346.91	365.91

Employer's contribution to Pension scheme	209.05	213.69

Defined Benefit Plans

The employees' gratuity fund and leave encashment (PL) schemes managed by Life Insurance Corporation of India are defined benefit plans. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss and the funded status and amounts recognised in the balance sheet for the respective plans:

Notes forming part of the financial statements for the year ended March 31, 2019

In view of the value of investment in NORL becoming Zero and has no other source of generating revenue, the Company filed a petition in NCLT, Hyderabad Bench for recovery of the advances given. The NCLT bench of Hyderabad has appointed an Interim Resolution Professional on 9th April 2019 to oversee the resolution process. Since the net worth of NORL is negative, and the possibility for recovery for advances from NORL is remote, a provision is made for the entire amount of advance i.e., Rs1,885.95 lakhs pending finalisation of Resolution Process of NORL.

35. The Company incurred losses during the current year and, earlier years on account of events which are exceptional and due to extraneous factors. In view of these losses, during the current year the company faced severe liquidity crisis and was unable to meet its statutory and other payments on time. The Company is operating in a regulated environment under the Essential Commodities Act and supported by Government Subsidy.

The company has taken up with its Lenders for a long-term financial resolution which is under process. The Company is working out to have an early resolution with its lenders to streamline its cash flows.

Considering the above facts, the financial statements for the year 2018-19 are drawn on a going concern basis.

Total	32,137.31	28,075.86

Notes forming part of the financial statements for the year ended March 31, 2019

38.1.1.(a) In relation to some of the contracts for purchase of fertilisers, an international Arbitration Award has been passed against the Company in September 2016 for USD 14,398,188 and GBP 690,630 and interest as applicable apart from costs based on a claim filed by one of the Suppliers of Fertilizers to the Company.

The Company is of the view that the Award has been obtained based on documents tampered with and misrepresentations of facts by said supplier. The Company is contesting the enforcement of the Award in the Courts in India and has also filed a Criminal Complaint before the Metropolitan Magistrate of Hyderabad against the supplier and its officials.

(b) The Company entered into two Contracts dated December 15, 2012 on Early Works, Offshore and Onshore towards certain engineering drawings to be utilised towards its plant for third ammonia and urea project on conditions that balance amounts payable only upon (a) the announcement of a fertilizer policy and (b) that the fertilizer policy being found favorable for the Project of the Company. The Company could not proceed further as the policy was not conducive for the project.

The service provider raised invoices for the balance amounts claiming that the work carried out was per contract. As the amounts were not paid the service provider invoked arbitration. The arbitral Tribunal passed an award on October 23, 2017 for USD 877,500, EUR 455,000 and INR 221.39 Lakhs and interest as applicable apart from costs in favour of the claimant. NFCL challenged the Awards by filing two petitions separately for each case under section 34 of Arbitration & Conciliation Act as the tribunal ignored vital evidence such as Govt communication dt 9th May 2013 where in the industries we're asked not to proceed further without necessary approvals from Govt, amongst other grounds.

Based on the current legal progress, the management has provided for 25% of the claim made on the Offshore contract and amount deposited with the court in respect of Onshore contract. The Company continues to proceed legally and hence the balance claims have been disclosed as contingent liabilities as at March 31, 2019 in these financial statements.

The management assessed that cash and cash equivalents, other bank balances, trade receivables, trade payables and short term loans approximate their carrying amounts largely due to the short-term maturities of these instruments.

The foreign exchange forward contracts approximate their carrying amounts largely due to the mark to market of these instruments as provided by the banks.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

42. Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

43. Financial risk management objectives and policies

Financial Risk Management Framework

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans and advances, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also entered into derivative transactions.

The Company is exposed primarily to Credit Risk, Liquidity Risk and Market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company's senior management oversees the management of these risks. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company based on the policies agreed by the Company's senior management. The same are summarised below:

A. Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk except trade receivables where more than 50% is due from Government of India. The same are realisable in due course.

To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- (i) Actual or expected significant adverse changes in business,
- (ii) Actual or expected significant changes in the operating results of the counterparty,
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- (iv) Significant increases in credit risk on other financial instruments of the same counterparty,
- (v) Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the company. The company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 2 years past due. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

Trade receivables:

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual basis for major clients based on ageing.

The ageing analysis of trade receivables as of the reporting date is as follows:

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved authorities. Credit limits of all authorities are reviewed by the Management on regular basis.

B. Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments

Notes forming part of the financial statements for the year ended March 31, 2019

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

C. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk for the entity comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings and derivative financial instruments.

The sensitivity analyses in the following sections relate to the position as at March 31, 2019 and March 31, 2018

The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant in place at March 31, 2019.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets.

The following assumptions have been made in calculating the sensitivity analyses:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2019 and March 31, 2018.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The company's interest rate exposure is mainly related to variable interest rates debt obligations. The company uses a mix of interest rate sensitive loan facilities from the lenders to manage the liquidity and fund requirement for its day to day operations like working capital, short term loans and suppliers / buyers credit etc.,

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings with floating rate of interest affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/decrease in basis points	Effect on profit before tax
	₹ in Lakhs	
31-Mar-19		
INR	+50	249.25
INR	-50	(249.25)
31-Mar-18		
INR	+50	288.00
INR	-50	(288.00)

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and borrowings in foreign currency.

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD and Euro exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

44. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings less cash and short term deposits.

₹ in Lakhs

	At Mar 31, 2019	At March 31, 2018
Interest bearing loans and borrowings (Note 16 & 21)	177,125.59	156,610.91
Less: Cash and short term deposits (Note 12 & 13)	14,634.69	7,198.41

Capital and net debt	220,753.75	256,739.77
Gearing ratio (%)	73.61%	58.20%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

INDEPENDENT AUDITOR'S REPORT

To
The Members of
Nagarjuna Fertilizers and Chemicals Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of Nagarjuna Fertilizers and Chemicals Limited ("the Holding Company") and its subsidiary, which comprise the consolidated Balance Sheet as at March 31, 2019, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Statement of Changes in Equity and the consolidated Statement of Cash Flows for the year ended on that date, and notes to the consolidated financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Company as at March 31, 2019, the loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Material Uncertainty Related to Going Concern

We draw attention to Note 35 in the financial statements, the Company has incurred net loss of Rs.49,065.11 Lakhs during the year ended March 31,2019, and the current liabilities exceed the current assets by Rs. 1,47,526.30 Lakhs as on March 31,2019.During the year ended March 31,2019

the Company was unable to discharge its obligations for repayment of Loans and settlement of other financial & non-financial liabilities including statutory liabilities. The Company's management is currently in discussion with the lenders with a resolution plan and are hopeful of a response by way of a debt restructuring proposal from the lenders. These events and conditions indicate material uncertainty which cast a significant doubt on the Company's ability to continue as a going concern, and therefore may be unable to realise its assets and discharge its liabilities including potential liabilities in the normal course of business. The ability of the Company to continue as going concern is solely dependent on the acceptance of debt restructuring proposal, which is not wholly within the control of the Company.

The financial statements of the Company have been prepared on going concern basis by the management. The management is hopeful of a successful outcome of the resolution plan submitted and accordingly no adjustments have been made to the carrying value of the assets and liabilities and their presentation/ classification.

Our opinion is not modified in respect of this matter.

Emphasis of Matter

Attention is invited to following notes to the Consolidated Ind AS Financial Statements:

- a. Note 45 regarding the provision for diminution in the value of investments made for the value of Investment in Jaiprakash Engineering and Steel Company Limited (JESCO), a subsidiary and its adequacy based on Management assessment, for the reasons stated in the said note
- b. Note 25.1 regarding recognizing Income from urea operations including reimbursement claims for additional fixed cost, input escalation/de-escalation, and for production beyond reassessed capacity based on prices and provisions applicable under NPS III, Modified NPS III, pending notification of final prices under New Urea Policy 2015and consequential adjustments, if any that may arise.
- c. Note 37.1.1 regarding Arbitration awards passed against the Company for USD 15,275,688, GBP 6,90,630 EURO 4,55,000; the impact of which has not been recognised in the Financial Statements, for reasons stated in the said note;

Our opinion is not modified in respect of the above matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the

matters described below to be the key audit matters to be communicated in our report. We have determined the matters described below to be the key audit matters to be communicated in our report.

S.No.	Key Audit Matter	Auditor's Response
1	<p>Revenue Recognition Sale of Products and Subsidy To ensure accuracy of recognition, measurement, presentation and disclosures of revenues and related accounts. Refer Note 25 of the Financial Statements</p>	<p>Principal Audit Procedures</p> <ul style="list-style-type: none"> • We have assessed the Company's internal controls in respect of its revenue transactions; • We tested the key controls identified, • We performed substantive detail testing by selecting a sample of revenue transactions, that we considered appropriate to test the evidence of effectiveness of the internal controls and adherence to accounting policies in recognising the revenue, and the rebates and discounts there against. • We have verified the notifications issued for the subsidy recognition classified under product and freight subsidy • In respect of other components included in the subsidy income comprising escalation /de-escalation are based on management estimates and towards reimbursement of additional fixed costs etc, are based on Modified NPS III Policy. We have reviewed the management estimates for recognising the income along with various correspondences made with the Government of India, Department of Fertilisers and representations given to us. Since the amounts involved are significant and also involve certain uncertainties, an emphasis of matter is given in our report under the Section Emphasis of Matter -Para (b).
2	<p>Trade receivables Receivables include receivable from sale of products as well as receivable from Government of India in the form of subsidy. As at March 31, 2019, Trade Receivables amounting to ₹ 86,267.90 Lakhs Includes subsidy and other dues ₹ 62,346.25 Lakhs from Government of India and ₹ 13,787.29 Lakhs from State Governments. Refer Note 11 to the Consolidated Financial Statements.</p>	<p>Principal Audit Procedures Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <ul style="list-style-type: none"> • In respect of Subsidy recognised as receivable from Government of India towards reimbursement of additional fixed costs and towards subsidy for production beyond reassessed capacity, though the final prices are not notified. • As no confirmation of balance is on record we have relied on the management's assertion on the recoverability an emphasis of matter is given in our report under the Section Emphasis of Matter -Para (b). • In respect of other receivables, we have sent request for confirmation from the parties. The response to the request is not significant and hence reviewed the subsequent realisations and obtained representations from the management regarding the realisability. • Ensured adequate provision for the long outstanding balances
3	<p>Borrowings Borrowings from Banks and Financial institutions. Account with the lenders had become a NPA and hence to ensure</p> <ul style="list-style-type: none"> • adequate disclosure in terms of security offered • adequate disclosure for restructuring if any • repayment as per the sanctioned terms • and accounting for the interest and penal charges including interest in case of defaults. <p>Refer Note 16 of the Consolidated financial statements</p>	<p>Principal Audit Procedures Our audit approach was to carry out substantive and analytical procedures which included the following:</p> <ul style="list-style-type: none"> • Review of the sanction letters • Review of the register of charge • Verification of the loan statement from the lender and comparing with the books of account • Recalculation of interest and outstanding • Ensured adequate disclosure for the overdue balances, classification of the outstanding balances in the financial statements. • The company's inability to repay the lenders is referred to Note 35 Of the financial statements and we have considered the same and reported the matter under Material Uncertainty Related to Going Concern section.
4	<p>Contingent liabilities The Company has material uncertain issues under the contingent liabilities of which some issues are under arbitration and other issues pending at various forums which involves significant judgment to determine the possible outcome of these issues. Refer Note 37 of the Consolidated financial statements</p>	<p>Principal Audit Procedures</p> <ul style="list-style-type: none"> • Obtained details of contingent liabilities as at March 31, 2019. • Obtained status of each of the matters under litigation from the legal department. • Review of Minutes of meetings of Board of Directors and Audit Committee. • Discussion with the legal department on the steps being taken and the possible impact on the accounts for the year based on current progress of the matter. • Since the amounts involved are significant, an emphasis of matter is given in our report under the Section Emphasis of Matter - Para (c) based on legal and other precedents in evaluating management's position on these matters.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our

opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has an adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters:

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Nagarjuna Fertilizers and Chemicals Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Nagarjuna Fertilizers and Chemicals Limited (“the Company”) and its subsidiary as of March 31, 2019 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment

of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

- The Financial Statements of the subsidiaries and the associates used in the consolidation are drawn up to the same reporting date as that of the Company, i.e., March 31, 2019.
- The excess of the cost to the Company of its investment in the subsidiaries over the Company's share of equity is recognized in the Financial Statements as Goodwill and tested for impairment annually.
- The excess of the Company's share of equity of the subsidiaries on the acquisition date, over its cost of investment is treated as Capital Reserve.
- Non-controlling interest in the net assets of the consolidated subsidiaries is identified and presented in consolidated balance sheet separately from current liabilities and equity of the Company.

Non-controlling Minority interest in the net assets of consolidated subsidiaries consists of:

- The amount of equity attributable to non-controlling interest at the date on which investment in a subsidiary is made; and
- The non-controlling interest's share of movements in the equity since the date the parent subsidiary relationship came into existence.

Notes forming part of the consolidated financial statements for the year ended March 31, 2019

- g) Non-controlling interest in the net profit / (loss) for the year of consolidated subsidiaries is identified and adjusted against the profit after tax of the group.
- h) Intra-group balances and intra-group transactions and resulting unrealized profits / losses have been eliminated.
- i) In case of foreign subsidiaries being non integral foreign operations, revenue items are consolidated at monthly average of exchange rate prevailing during the year. All assets and liabilities are converted at the rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognized in "Foreign Currency Translation Reserve".
- j) The consolidated Financial Statements are prepared to the extent possible using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate Financial Statements.

2.3. Basis of preparation:

The Financial Statements of the group have been prepared in accordance with Indian Accounting Standards (Ind AS) on accrual basis and under the historical cost convention except for Derivative financial instruments and certain financial instruments which are measured at fair value, pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amended Rules, 2016.

The Financial Statements are presented in INR and all values are rounded to two decimals to the nearest lakhs, except when otherwise indicated.

2.4. Use of estimates:

The preparation of Financial Statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have a significant effect on the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- i. Measurement of defined benefit obligations
- ii. Recognition of deferred tax asset/Liability- Note 19
- iii. Fair Value Measurement of financial Instruments - Note 38 & 39
- iv. Recognition of subsidy income - Note 25.1
- v. Provision for doubtful trade receivables

2.5. Current versus non-current classification

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the group's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is held primarily for the purpose of trading;
- iv. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- v. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- vi. in the case of a liability, the group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the group has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

2.6. Property, plant and equipment

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

2.6. Property, plant and equipment

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

"All repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Depreciation is provided on a pro-rata basis under the straight-line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013 with the following exception:

- ▶ Continuous Process Plants' are depreciated for 37 years based on the technical evaluation of useful life done by the management

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its property, plant and equipment at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.7. Intangible assets

Separately purchased intangible assets are initially measured at cost. Intangible assets acquired in a business combination are recognised at fair value at the acquisition date. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets are as follows:

Trademarks and Services: 10 years

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its intangible assets at the previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.8. Impairment of non-financial assets

Assessment for impairment is done at each Balance Sheet date for any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognizing the impairment loss as an expense in the Statement of Profit and Loss. Recoverable amount is the higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date for any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased, in which case, a reversal of an impairment loss for an asset is recognised in the Statement of Profit and Loss account.

2.9. Inventories

Inventories are valued at the lower of cost and net realisable value. Materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs for different categories of materials are as follows:

- ▶ Raw materials and Traded Products: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- ▶ Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.”

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Net realisable value in the case of Urea –

- ▶ the Group Concession Price notified by the Government of India in respect of finished goods lying at the factory, and
- ▶ the net sale price in respect of finished goods lying in the warehouses outside the factory.”

Work-in-process, raw materials, stores, spares, packing material and loose tools are valued at weighted average cost, less provision for depletion in value, if any.

2.10. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company’s cash management.”

2.11. Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets**Initial recognition**

On initial recognition, financial assets are recognised at fair value. Transaction cost that are directly attributable acquisition of financial assets that are not at fair value through profit and loss(FVTPL) are added to fair value on initial recognition.”

Subsequent measurement

Financial assets which are debt instruments are subsequently measured on the following basis, depending on their classification

- ▶ amortized cost
- ▶ fair value through profit and loss (FVTPL)
- ▶ fair value through other comprehensive income (FVTOCI)”

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

When financial assets are Equity Instruments:

All equity investments in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income (OCI) subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVTOCI. “

Fair value changes excluding dividends, on an equity instrument measured at FVTOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as ‘other income’ in the Statement of Profit and Loss.

De-recognition:

The Company derecognizes a financial asset when the contractual right to the cash flows from the financial asset expires or it transfers the financial asset at the transfer qualifies for de-recognition under IND AS 109. “

Trade Receivables and Loans:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.”

Impairment:

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category. “

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company’s trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

Financial liabilities

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and financial liabilities at amortised cost as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of liabilities measured at amortised cost, net of directly attributable transaction costs.

Subsequent measurement:

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the ‘Finance costs’ line item.

Derecognition

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.”

2.12. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and options contracts to mitigate risk of changes in exchange rates on foreign currency exposure.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any gains or losses arising from re-measurement are dealt in Statement of Profit and Loss.

This category has derivative financial assets or liabilities which are not designated as hedges. Although the company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS109, Financial Instruments and hence categorized as financial assets or liability at fair value through profit or loss.

2.13. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.14. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability”

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.15. Provisions, contingent liabilities and contingent assets:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised. They are disclosed only when an inflow of economic benefit is probable from such assets.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.16. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Amount disclosed as revenue is inclusive of excise duty and net of returns, trade allowances, rebates, value added taxes, Goods and Service Tax and amounts collected on behalf third parties.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of Goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer.

In case of goods which are shipped subject to installation and inspection, revenue is normally recognized when the buyer accepts delivery, and installation and inspection are complete.

Subsidy:

Group Concession Price under Group Concession Scheme (GCS) and Equated Freight are recognized in accordance with the norms prescribed by the Government of India – Fertiliser Industry Co-ordination Committee, with adjustments for escalation / de-escalation in the prices of inputs and other adjustments as estimated by the management in accordance with known policy parameters in this regard.”

Rendering of services:

Revenue from sale of services is recognised as per the terms of the contract with customers based on stage of completion when the outcome of the transactions involving rendering of services can be estimated reliably.”

Interest income:

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable using effective interest method .”

Dividends:

Revenue is recognised when the Company’s right to receive the payment is established, which is generally when shareholders approve the dividend.”

2.17. Employee benefits

Gratuity:

In accordance with the Payment of Gratuity Act, 1972 the Company provides gratuity as a defined benefit plan, to eligible Employees. Liability with regard to gratuity is determined by an independent actuary at every Balance Sheet date using the projected unit credit method.”

The Company recognizes the net obligation of a defined benefit plan in the Balance Sheet as asset or liability. Gains or losses on re-measurements are recognized in Other Comprehensive Income (OCI). Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of Profit and Loss.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss.

Superannuation fund and provident fund

Superannuation and Provident Fund are in the nature of defined contribution plans.

The Company makes monthly contribution to approved superannuation fund covered by a policy with LIC of India. The Company has no further obligation beyond monthly contribution. The obligations under the said policy are accounted for on accrual.”

The Company makes monthly contribution to the Provident Fund scheme and recognizes it as an expense, in the year in which employee renders the related service. The Company’s Contribution towards Provident Fund is administered and managed by an approved trust. The Company has no obligation, other than the contribution payable to the Fund.

Compensated absences

Liability for compensated absence is treated as a long term liability and is covered by a policy with Life Insurance Corporation (‘LIC’). The estimated liability at each Balance Sheet date is determined by an independent actuary using the projected unit credit method and is recognised in the accounts accordingly.”

2.18. Taxes

Current income tax

Income tax expense is recognised in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity or Other Comprehensive Income (OCI), in which case the tax is also recognized in equity or Other Comprehensive Income (OCI).”

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax asset/liability is measured at the amount expected to be recovered from or paid to the taxation authorities.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.”

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the Balance Sheet date.

Deferred tax assets are recognised to the extent it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent there is no longer probable that the related tax benefit will be realized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.19. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

In the case of a loan or assistance provided by government or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The Grant is initially recognised and measured at fair value and subsequently measured in accordance with the recognition and measurement principles of Ind AS 109, Financial Instruments (financial liabilities). The government grant is measured as the difference between the initial carrying value of the loan and the proceeds received and recognised as income on a systematic basis over the periods the related costs, for which it is intended to compensate, are expensed.

2.20. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term. Accordingly, the Company's leasing arrangements, are mostly in the nature of operating lease for premises, and are cancellable / renewable by mutual consent. The rentals there under are recognised in the Statement of Profit and Loss.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee.

2.21. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset in the period in which they are incurred, until such time the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Interest earned on temporary investments out of specific borrowings made for qualifying assets is deducted from the borrowing costs eligible for capitalisation to those assets.

2.22. Research and development costs

Expenditure relating to capital items is treated as fixed assets and depreciated at applicable rates. Revenue expenditure during research period is charged to Statement of Profit and Loss in the year in which it is incurred.

2.23. Foreign currency transactions

The Company's Financial Statements are presented in Rupees, which is its functional currency, which is also the parent company's functional currency. For each entity, the group determines its functional currency and item included in the Financial Statements is measured using their functional currency.

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency denominated monetary assets and liabilities remaining unsettled at the end of the year are translated into functional currency at exchange rates prevailing at the Balance Sheet date. Exchange differences arising on translation of monetary items are recognised in Statement of Profit and Loss.

Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated using exchange rate prevalent on the date of transaction. Non-monetary assets and liabilities denominated in foreign currency and measured at fair value are translated using the exchange rates at the date when the fair value was determined.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively).

2.24. Earnings per share

Basic earnings per equity share, is computed by dividing the net profit for the year attributable to the Equity Shareholders of the parent by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the net profit for the year, adjusted for the effects of dilutive potential equity shares, attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti-dilutive.

2.25. Investments

Investments are classified as Non Current and Current. Non Current Investments are carried at cost less provision for other than temporary diminution, if any, in value of such investments. Current investments are carried at lower of cost and fair value.

2.26. Exceptional Items

Exceptional items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items are disclosed separately as exceptional items.

34. Exceptional items:

Particulars	2018-19	2017-18
Provision for doubtful advances	1,885.95	-
Total	1,885.95	-

The Company gave periodical advances to M/s Nagarjuna Oil Refinery Ltd., (NORL) from April 1, 2011 to November 30, 2018 pursuant to the Composite Scheme of Arrangement and Amalgamation approved by the High Courts of Mumbai and Andhra Pradesh. In view of the value of investment in NORL becoming Zero and has no other source of generating revenue, the Company filed a petition in NCLT, Hyderabad Bench for recovery of the advances given. The NCLT bench of Hyderabad has appointed an Interim Resolution Professional on 9th April 2019 to oversee the resolution process. Since the net worth of NORL is negative, and the possibility for recovery for advances from NORL is remote, a provision is made for the entire amount of advance i.e., Rs1,885.95 lakhs pending finalisation of Resolution Process of NORL.

35. The Company incurred losses during the current year and, earlier years on account of events which are exceptional and due to extraneous factors. In view of these losses, during the current year the company faced severe liquidity crisis and was unable to meet its statutory and other payments on time. The Company is operating in a regulated environment under the Essential Commodities Act and supported by Government Subsidy.

The company has taken up with its Lenders for a long-term financial resolution which is under process. The Company is working out to have an early resolution with its lenders to streamline its cash flows.

Considering the above facts, the financial statements for the year 2018-19 are drawn on a going concern basis.

b) Compensation in respect of 33.35 acres (Previous year 33.35 acres) of land in possession - amount not ascertained	-	-
Total	32,137.31	28,075.86

37.1.1.(a) "(a) In relation to some of the contracts for purchase of fertilisers, an international Arbitration Award has been passed against the Company in September 2016 for USD 1,43,98,188 and GBP 690,630 and interest as applicable apart from costs based on a claim filed by one of the Suppliers of Fertilizers to the Company.

The Company is of the view that the Award has been obtained based on documents tampered with and misrepresentations of facts by said supplier. The Company is contesting the enforcement of the Award in the Courts in India and has also filed a Criminal Complaint before the Metropolitan Magistrate of Hyderabad against the supplier and its officials.

(b) The Company entered into two Contracts dated December 15, 2012 on Early Works, Offshore and Onshore towards certain engineering drawings to be utilised towards its plant for third ammonia and urea project on conditions that balance amounts payable only upon (a) the announcement of a fertilizer policy and (b) that the fertilizer policy being found favorable for the Project of the Company. The Company could not proceed further as the policy was not conducive for the project.

The service provider raised invoices for the balance amounts claiming that the work carried out was per contract. As the amounts were not paid the service provider invoked arbitration. The arbitral Tribunal passed an award on October 23, 2017 for USD 877,500, EUR 455,000 and INR 221.39 Lakhs and interest as applicable apart from costs in favour of the claimant. NFCL challenged the Awards by filing two petitions separately for each case under section 34 of Arbitration & Conciliation Act as the tribunal ignored vital evidence such as Govt communication dt 9th May 2013 where in the industries we're asked not to proceed further without necessary approvals from Govt, amongst other grounds.

Based on the current legal progress, the management has provided for 25% of the claim made on the Offshore contract and amount deposited with the court in respect of Onshore contract. The Company continues to proceed legally and hence the balance claims have been disclosed as contingent liabilities as at March 31, 2019 in these financial statements.

The management assessed that cash and cash equivalents, other bank balances, trade receivables, trade payables and short term loans approximate their carrying amounts largely due to the short-term maturities of these instruments.

The foreign exchange forward contracts approximate their carrying amounts largely due to the mark to market of these instruments as provided by the banks.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

41. Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

Quantitative disclosures fair value measurement hierarchy for liabilities :

The fair values of the foreign exchange forward contracts have been determined based on the valuation report obtained from the bank. Significant observable inputs used in the valuation report are quoted forward exchange rates.

42. Financial risk management objectives and policies

Financial Risk Management Framework

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans and advances, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also entered into foreign exchange forward contracts, which are classified as derivatives in accordance with Ind AS and are not material given their size.

The Company is exposed primarily to Credit Risk, Liquidity Risk and Market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company's senior management oversees the management of these risks. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company based on the policies agreed by the Company's senior management. The same are summarised below:

A. Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company results in material concentration of credit risk except trade receivables where more than 50% is due from Government of India. The same are realisable in due course, based on historical experience and the fact that they are due under a major policy initiative of the Government.

To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- (i) Actual or expected significant adverse changes in business,
- (ii) Actual or expected significant changes in the operating results of the counterparty,
- (ii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- (iv) Significant increases in credit risk on other financial instruments of the same counterparty,
- (v) Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements, if any."

Notes forming part of the consolidated financial statements for the year ended March 31, 2019

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the company. The company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 3 years past due. Even though loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in Statement of Profit and Loss.

Trade receivables:

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual basis for major clients based on ageing.

The ageing analysis of trade receivables as of the reporting date is as follows:

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved authorities. Credit limits of all authorities are reviewed by the Management on regular basis.

B. Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. As at March 31, 2018, there is no such excessive risk concentration.

C. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk for the entity comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings and derivative financial instruments.

The sensitivity analyses in the following sections relate to the position as at March 31, 2019 and March 31, 2018.

The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant in place at March 31, 2019.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets.

The following assumptions have been made in calculating the sensitivity analyses:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2019 and March 31, 2018.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The company's interest rate exposure is mainly related to variable interest rates debt obligations. The company uses a mix of interest rate sensitive loan facilities from the lenders to manage the liquidity and fund requirement for its day to day operations like working capital, short term loans and suppliers / buyers credit etc.,

Notes forming part of the consolidated financial statements for the year ended March 31, 2019

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings with floating rate of interest affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/decrease in basis points	Effect on profit before tax
	INR Lacs	
31-Mar-19		
INR	+50	249.25
INR	-50	(249.25)
31-Mar-18		
INR	+50	288.00
INR	-50	(288.00)

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and borrowings in foreign currency.

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD and Euro exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

43. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in the light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend

Notes forming part of the consolidated financial statements for the year ended March 31, 2019

payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings less cash and short term deposits.

₹ in Lakhs

	At Mar 31, 2019	At March 31, 2018

Capital and net debt	2,21,199.13	2,56,736.34
Gearing ratio %)	73.46%	58.20%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital between the years ended March 31, 2018 and March 31, 2017.

45. In respect of Jaiprakash Engineering and Steel Company Ltd (JESCO), the project envisaged has not materialised. Karnataka Industrial Area Development Board (KIADB) had given possession of 986.52 acres of land (lease hold and free hold) for the project against deposit of ₹ 3,053.65 Lakhs in earlier years. JESCO approached KIADB for surrender of land allotted and refund of amount paid. KIADB agreed to refund the deposit with a condition that as and when KIADB receives request from potential investors, JESCO's lands will be offered and upon acceptance by the potential investors, such sale proceeds will be paid to JESCO in refund of its deposit. As at the year end, JESCO is in possession of 388.70 acres of land (Previous year 388.70 acres of land), the realisable value of which, in the opinion of JESCO's management is adequate to recover the deposit outstanding as at March 31, 2019.

JESCO also applied for approval to implement two projects i.e. Fertilizers and Chemicals Complex and Integrated Township to Karnataka Government for the balance land held. The Government of Karnataka has approved the projects vide

Government Order (GO) No. CI 175 SPI 2011, Bangalore dated August 18, 2011, May 07, 2012 and GO No. CI 176 SPI 2011 dated August 18, 2011.

The Government of Karnataka has passed order No. CI 175 SPI 2011 Dt. 11-11-2013 cancelling the Land Allotment made to the Company stating that the Company has not implemented the approved projects and also advised KIADB to resume the balance land from the Company. The Company has filed a writ petition challenging the Order of the Govt. of Karnataka and the Hon'ble High Court of Karnataka has prohibited the Govt. of Karnataka from dispossessing the land in possession of the Company. The High Court of Karnataka on April 23, 2018 has lifted the stay and permitted the Government of Karnataka from taking possession of 160 acres of land from the Company for handing over the same to prospective applicants. JESCO filed Writ appeal against this modified order. JESCO's Writ Application was disposed. JESCO is filing fresh W.P challenging the allotment of 160 Acres.

The stay of the High Court of Karnataka in relation to dis-possession of land in the possession of the Company for 388.70 acres continues.

Pending crystalization of plans and considering the above said developments , the Financial Statements of JESCO, for the year have been prepared on going concern basis, notwithstanding the project initially planned been shelved.

In view of the above, management is of the opinion that an additional provision of ₹ 450 lakhs be made in addition to the existing provision of ₹ 460 lakhs totaling to an amount of ₹ 910 Lakhs as of March 31, 2019.

These shares were pledged in favour of Banks / Financial Institutions for the term loans availed by the Company, which are repaid in full awaiting release of pledge.

Submission of PAN and Bank Details

The Securities and Exchange Board of India vide Circular SEBI / HO / MIRS D / DOP1 / CIR / P / 2018 / 73 dated April 20, 2018 with the intention to strengthen the standards for Share Transfer Agent (RTA) has prescribed guidelines for procedures and processes with regard to handling, maintenance and updating of records, transfer / transmission of securities and payment of dividend.

As per the guidelines where bank account details of the shareholder is not available with RTA or there is change in bank account details, RTA shall obtain account details along with cancelled cheque to update the securities holder's data. The original cancelled cheque shall bear the name of the securities holder failing which securities holder shall submit copy of bank passbook /statement attested by the bank.

The unpaid dividend shall be paid via electronic bank transfer. In case electronic payment instructions have failed or have been rejected by the bank, the company may ask the banker to make payment through physical instrument such as banker's cheque or demand draft to such securities holder incorporating his bank account details.

The RTA has been bestowed with the responsibility to take special efforts to collect copy of PAN, and bank account details of all shareholders holding shares in physical form.

Accordingly all the shareholders are requested to submit a copy of the PAN card and original cancelled cheque leaf / attested bank passbook showing name of account holder at the earliest. Further it is also requested to update the contact details viz., the complete postal address, the mobile number and any alternate number, and landline and email address for effective communications with Company.

In case of residents of Sikkim, the requirement of PAN Card be substituted with a valid Identity proof issued by Government.

Transfer of shares only on dematerialized form

The SEBI vide its Notification dated June 8, 2018 notified Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Fourth Amendment) Regulations, 2018 wherein it mandated that except in case of transmission or transposition of securities, requests for effecting transfer of securities shall not be processed unless the securities are held in the dematerialized form with a depository. The shareholders are requested to take note of the same.

Transfer of Dividends and Corresponding Shares to Investor Education Protection Fund

The Company had paid dividend to the shareholders for the financial year 2011-12 on August 31, 2012. The period of seven years as envisaged in the Companies Act and the rules made thereunder has expired during the month of September, 2019. The Company as required by law has sent notice of intimation of transfer of shares and dividends to the shareholders dated June 30, 2019, and published an advertisement in the news papers as required by law requesting the shareholders to claim the unclaimed / unpaid dividend within the due date as mentioned in the notice.

Passenger vehicle sales down again, decline 4% in Nov

WHILE VOLUMES of Hyundai grew by a marginal 2% y-o-y at 44,600 units on account of sustained demand for new launches including compact SUV Venue and hatchback Grand i10, Mahindra & Mahindra (M&M) and Tata Motors reported 10% y-o-y and 39% y-o-y dip in wholesales, respectively.

Vikas Jain, national sales head at Hyundai Motor India, said despite the ongoing market challenges, there was demand for cars, including Venue, Creta and Grand i10. Unlike some other manufacturers, Hyundai continued extending consumer offers like extended warranty and hefty exchange bonus.

Veejay Ram Nakra, chief of sales and marketing, automotive division at M&M, said the month after the festive season is historically a lean one for the automotive industry.

“Consumer demand, especially for passenger vehicles, typically picks up in the year-end,” Nakra said.

Analysts believe a sustained improvement in demand may take time as prices are expected to further go up on account of BS-VI emission norms.

“Most OEMs, in our recent interactions, remain uncertain on improvement sustainability given a weak economy and upcoming BS-VI emission norms,” analysts at CLSA said.

Referring to their interaction with the Maruti management, the analysts said the company executives have given an indication that the customer interest seems to be holding up in November but buyers might await end-of-year discounts in December.

FE had on November 28 reported that car-makers have silently withdrawn part of the fire sale offers on most of the models post the festive period in October, given that the inventory has come down to normal levels.

Following a year-long slowdown in demand due to several factors which increased car prices, manufacturers offered highest-ever discounts since July-August 2019 to boost sales and clear the excess inventory which had piled up from the festival period of 2018, owing to poor retail demand.

The discounts helped the companies bring down the BS-IV stock to comfortable levels following aggressive production cuts in the past nine months and before they prepare to launch BS-VI compliant vehicles from January 2020.

Analysts at Axis Capital believe complete recovery in demand may still take time and robust October sales happened only due to highest ever offers.

“This uptick was driven by bunching up of demand and push factor of high discounts offered by OEMs. We also believe that sustained recovery will take time,” they wrote.

Demand for commercial vehicles was worse as sales fell by an estimated 20%, impacted by plant shutdown by manufacturers and limited production done to match retail demand with the supply. This was the 11th consecutive month when CV sales remained subdued, impacted by the revised axle load norms and costlier finance options.

got more bandwidth to load goods, impacting the new purchases.

While M&M reported a 10% year-on-year decline in despatches, Tata Motors' sales were down 17% y-o-y in November.

Garish Wagh, president, CV business at Tata Motors, said retail sales were better than wholesales by over 10%.

“As we move closer towards BS-VI transition, focus continues to be gradual stock reduction,” he said.

Analysts at Nomura said weak demand and inventory de-stocking before BS-VI is likely to keep wholesales subdued. “Heavy commercial vehicle volume decline in November is likely to remain high due to weak demand and inventory clearance,” they noted.

DISINVESTMENT

Sufficient interest for AI: Pandey

PRASANTA SAHU
New Delhi, December 1

ASTHE CENTRE gears up to invite fresh expressions of interest (EOIs) soon for the sale of its entire stake in debt-ridden Air India, the DIPAM (Department of Investment and Public Asset Management) secretary Tuhin Kanta Pandey told FE that there is sufficient interest among potential buyers.

“There is sufficient interest from investors and the (strategic disinvestment) process of AI is moving in the right direction,” Pandey said.

Sources said AI won't be a distress sale as it is a robust going concern and potential buyers could capitalise on its premium bilateral rights and parking slots across the world to revive its fortunes. Also, the government would take over some more debt of AI and pass on a 'fair' amount of debt and liabilities to the buyer.

On delays in coming out with a fresh EOI for AI, sources said preparations took a lot of time as all the information are being frontloaded this time — along with EOI, DIAPM would

share the actual share purchase agreement (SPA) and other information on a real-time basis with bidders — learning from the last year's experience.

In June last year, the government called off the proposed sale of 76% stake in AI after no buyer had shown interest. Probable reasons as analysed by transaction adviser EY for non-receipt of bids last year included the government's decision to retain 24% stake and corresponding rights, high amount of allocated debt and prof-

itability track record.

Sharing of the actual SPA would help investors take long-term view of various liabilities and accordingly plan their funding for the deal. Over the last few months, the DIPAM, aviation ministry and AI management, have been holding a series of meetings to place a well prepared document before buyers.

Even though employees of the national carrier — over 11,000 at last count — are likely to be offered job protection for one year, sources said new owners could find most of the existing staff useful to expand operations to meet higher demand for flights in certain international routes such as India-UK after grounding of Jet Airways.

The total debt and liabilities of AI rose to about ₹73,255 crore as of March 2019, including a debt of ₹58,255 crore and liabilities of ₹15,000 crore. In a debt recast earlier this fiscal, the Centre took over ₹29,464 crore from AI's books through a special purpose vehicle (SPV).

The government may take over another about ₹20,000-crore debt to make it more attractive for buyers.
