Promoting partnerships for life is serious business. It's a service to which we are committed. Having been in this business for more than two decades, we use technology and data analytics to connect people. We have expanded our operations and extended it into niche areas too. With over five million active users, there is no looking back.

*We are
forging ahead,
building relationships,
and bringing people
together. For life.*

The Birth of an Idea

The world was on the brink of change. The nascent internet revolution was sweeping across India. Meanwhile, more than 8,000 miles away, Murugavel Janakiraman was working as a software consultant in the US. It was the late 1990s, when a lot of dotcom companies started to flourish. Janakiraman was good in programming; he wanted to run a web portal.

As part of the Tamil diaspora in US, Janakiraman, a programmer by profession, had emigrated from Tamil Nadu, India. He had started a web-portal for the Tamil community in the US. It provided reminders about Tamil festivals, information on the Tamil calendar that works on the solar cycle and even some services like 'make friends'. The Tamil community was actively using the portal, which had soon gained much traction. Even the 'make friends' service simply evolved from meeting fellow Indians in a different land, to people getting married. To meet the demand, Janakiraman started to provide a matrimony service for the Tamil community. A bachelor himself, he met the girl of his dreams through this portal and in late 1999, he got married. A marriage that came about through his own portal.

There has been no looking back since. We continue to foster bonds and forge ahead.

Today, Matrimony.com, 22 years young, is synonymous with credibility and has become the primary choice to find a life partner. As a business leader that commands more than 60 per cent market share, matrimony.com has over 15 regional, language-based sites and 300+ community-based online matrimony sites. It has continually innovated over the years and strengthened its relevance through reaching out to newer horizons, addition of product features, and technology enhancements. We have launched new products and services that cater to a wider spectrum of people. What started out as a small essential service for Tamils in the US, has grown beyond the Founder's imagination. Led by a larger vision, the Company has forward integrated into becoming a one-stop shop for all wedding services. To ease the stress of wedding planning, it provides a platform to connect vendors with customers for all wedding preparations be it booking wedding venues, arranging photography, catering, decorations etc. with its two portals namely mandap.com and weddingbazaar.com.

TAMIL MATRIMONY
Lakshmi and Yoganand
"We Are the Quintessential
Modern Couple"

Chairman's Message

The word 'Matrimony' has become synonymous with online matrimony and our marquee brands. Our relentless service through decades has resulted in a large number of marriages over the years.

Dear Shareholders,

The financial year commenced with the onset of a severe second wave of the COVID-19 pandemic. It gravely impacted people and businesses, lives and livelihoods. However, when the second wave abated, the Indian economy resiliently bounced back in FY 2022 primarily due to the learnings of FY 2021, vaccine progress, policy interventions and the indomitable spirit of the people.

Our organisation too capitalised on past learnings and stepped up resiliently to meet the challenges impacting the business and our people. We introduced several COVID-related

aid to help employees tide the crisis. We supported the extended community by donating INR 50 lakhs to the Chief Minister's Public Relief Fund. I am proud of the leadership team and all our passionate associates who were steadfast in their support towards achieving the desired outcomes and keeping the customer's purpose at the forefront. This has enabled us to innovate faster, increase our relevance, grow bigger and deliver an all-round good performance.

FY 2022 was a year of many firsts. The main highlight was the launch of

Jodii, a new matrimony service in 10 vernacular languages, that caters to the needs of the common people and offers affordable packages and simple user experience. As industry pioneers—with our offerings of regional, language and community-based sites and personalised services such as Assisted and Elite—we have continued this trend with Jodii.

The organisation has established itself in new lands with the launch of small-scale operations in Bangladesh. Our first 100% acquisition of Boatman Tech Private Limited, promoters of ShaadiSaga.com – will enable us to scale up our presence in

wedding services too. We have recently launched weddingbazaar 2.0, our integrated wedding planning platform with more than one lakh vendors, making it the largest player in the wedding services market.

In terms of technology, we have migrated to the leading cloud platform AWS to host our services, which will help us to execute and scale faster.

Among our social initiatives, we launched a memorable campaign #PehlePadhaiPhirShaadi, to invite parents of Jaisalmer, Rajasthan, to empower their daughters with the choice between education and marriage, providing them with scholarships to pursue college education. This campaign was well-received.

All these initiatives have contributed to the organisation's strong performance in revenue growth and profitability. During FY 2022, our matchmaking revenues grew by 14.5% to INR 430.4 crore, adding 8.94 lakh of paid subscriptions, which is a growth of 6.8%, thus creating 104,000+ success stories. On a consolidated basis, revenue grew by 15% to INR 434.5 crore. This revenue growth combined with operational efficiency helped to improve our Profit After Tax (PAT) by 31.4% to INR 53.6 crore. This was achieved despite increase in matchmaking marketing expenses to INR 161 crore in FY 2022 from INR 137 crore in FY 2021. Excluding marketing expenses, our EBITDA

margins in matchmaking are at 63% in FY 2022 as compared with 60% in FY 2021, indicating stability in our operational costs.

In the marriage services segment, the business continued to show up some challenges due to the pandemic. However, with the acquisition of ShaadiSaga, this integrated wedding services platform was equipped with new technology, processes, and a competent team. We hope to revive business momentum with this new strength. In terms of losses, being prudent has helped to keep FY 2022 losses at the same levels as FY 2021.

If we exclude the losses on the wedding services front, and the higher marketing costs in matchmaking due to competition intensity, the value of our intrinsic business is much higher than reported. We have also announced a share buy-back and a higher dividend, thereby enhancing our capital allocation to shareholders.

The word 'Matrimony' has become synonymous with online matrimony and our marquee brands. Our relentless service through decades has resulted in a large number of marriages over the years. I thank our people and our leadership team who have stayed true to our mission – to create happy marriages and help people in one of the most significant decisions in their life. We have also relaunched happymarriages.com that will serve as a guide to joyful marriages.

We will continually strive to improve our products and services to make this journey upbeat for our customers. With 'Fostering Bonds' and 'Forging Ahead', we can create new milestones and experiences.

I thank our shareholders, customers and partners for their continued trust and support throughout our journey. I thank our distinguished Board for their consistent guidance and motivation to do better.

I hope and pray that the world will be a better place for all of us to realise our dreams.

With Best Wishes,

Forging Ahead with New Footprints

Bangladeshi Matrimony

We set up a base in Dhaka, Bangladesh and launched BangladeshiMatrimony. With the launch of this office, we are ready to serve new communities through our wider reach and dedicated customer services.

ShaadiSaga: A New Acquisition

The Company acquired a 100% stake in Boatman Tech Private Limited, promoters of ShaadiSaga.com, a leading player in the wedding services industry. ShaadiSaga's technology-focussed approach, robust digital presence, built with strong social media and content marketing capabilities, has served consistent demand of over 1 million monthly active users (MAU).

With ShaadiSaga's 40,000 vendors offering multiple wedding-related products and services, catering to customers across 15 major Indian cities, we have introduced a differentiated product experience.

This deal has enabled Matrimony.com to significantly scale up its presence in the North and West regions, strengthen its product capabilities and become the largest wedding services player across the country. With this strategic acquisition, we are poised to accelerate our growth through supply enhancement and superior product capabilities.

With the integration of ShaadiSaga's product, technology, and social media assets with our offerings i.e., WeddingBazaar.com and Mandap.com, we have become a one-stop wedding shop from finding a partner to planning a wedding. This assimilation has served to strengthen the positioning of WeddingBazaar.com and Mandap.com in the industry with over 1 lakh vendors. Both brands are poised to become the #1 wedding services brands pan India.

Innovative Campaigns to change social perspectives

#PehlePadhaiPhirShaadi

A stark reality underlies the walls with beautifully painted wedding art in Jaisalmer. This city has the lowest adult literacy rate among girls in Rajasthan and the country. The reason is simple – the girls are often made to choose marriage over education. Matrimony.com launched a social initiative #PehlePadhaiPhirShaadi to encourage select girl students from Jaisalmer to complete Grade 12 this year, to become eligible to receive a scholarship to pursue their dreams through college education. As a brand at the forefront of empowering women, BharatMatrimony is continually trying to break new ground and change the social perspective about women, relationships, and marriage. We believe “Pehle Padhai Phir Shaadi” will drive social change by encouraging girls to choose education over marriage.

No Brokers with Jodii

The Jodii media campaign focusses on the challenges of finding a life partner such as lack of choice or the dependence on a matrimony broker. The campaign portrays the difficulties a family faces when it searches for a groom for their daughter. The Company's television commercial projects this tension, which is relieved with the introduction of the Jodii app culminating in multiple choices, joy, and happiness.

#Equal for Both

The Company's 'Equal For Both' campaign, encourages women to take a stand for equality. When it comes to matchmaking, for ages, it has always been women who are asked multiple questions before marriage, some equal, some not. BharatMatrimony believes that a happy marriage is between equals, so even the pre-marriage questions should be equal.

To address this social issue, on Women's Day in March 2022, BharatMatrimony launched its 'Equal For Both' campaign that pushes for recognising the equality in the man-woman relationship.

As a progressive platform that seeks to empower women, BharatMatrimony has always tried to understand the concerns of women of marriageable age and attempt to resolve them. We wanted to voice the dilemma women face with these pre-marriage questions. With this campaign, we hope to nudge women and encourage them to take a stand for equality in the relationship and inspire both men and women to ask the questions that matter, to make a happy marriage.

The campaign features women asking the audience the very same awkward questions posed to them before marriage. In effect, they're posing them to society at large.

#SecureConnect

BharatMatrimony launched a TV commercial 'SecureConnect', starring MS Dhoni, which urges women to take control of their privacy and safety while searching for a life partner. For women who are concerned about their mobile numbers being easily accessed by prospects on a matrimony platform, BharatMatrimony's SecureConnect® offers utmost comfort and security. The unique calling feature enables women members to receive calls from male members with a premium membership, without revealing their own contact number. BharatMatrimony is the only matrimony service to offer this first-of-its-kind calling security feature for women. Women members can simply enable SecureConnect® in the settings tab on their profile by choosing the option 'Receive calls without showing my number' and get phone calls from matching male members, without worrying about being stalked or harassed. This media campaign intends to empower women to take charge of their own safety and well-being.

New Horizons in FY 2022

As a market leader, we are always seeking out new opportunities that sets us apart in this industry. We follow a micro-market strategy that differentiates us from other players. We continually seek to tailor our products and services to meet a range of customer requirements and explore new horizons.

Jodii A New Product Launch

The newest offering is Jodii – a matchmaking application that bridges the digital divide and reaches out to the common people who may lack higher education or may not be too tech-savvy. For this community of people, Jodii offers matrimonial services in vernacular languages and thus serves to expand their matrimonial options.

This service is available for those who have studied up to a Diploma course after schooling up to Grade 10 or 12. Jodii is an Android only app available in Hindi, Tamil, Telugu, Malayalam, Kannada, Gujarati, Marathi, Bengali, Punjabi, and Oriya. Jodii was the culmination of a long-detailed research across Indian states over a period of one year.

The primary benefits of Jodii are affordable packages and a simple application user interface – much appreciated by members who are not Internet-savvy – that contributes to a positive customer experience.

New Features

Acceptable Matches

To address a common nagging industry concern of irrelevant matches, we launched the unique 'Acceptable Matches' initiative. This is a long-awaited industry-first feature that helps members to see only relevant profiles that match their preferences. This means member profiles shall be seen and contacted only by 'suitable' matches. This feature leverages artificial intelligence and data analytics to eliminate non-matching responses to ensure that a member's profile is shown only to the most appropriate set of matches. The artificial intelligence embedded in the software considers the user's profile and partnership preferences to define the most suitable prospects. This is a feature unique to the Company and there is a pending patent for it.

This feature has provided members a choice to tweak their preferences. They can also clearly indicate which selection criteria are mandatory, like a partner's age range (for example, 25 to 30 years), education (for example, engineering and medicine), profession, community, or location.

Video Profiles

A photograph and some information about a person do not speak about the person's uniqueness, personality, or core values. However, this is remedied with technology. We launched our video profile feature primarily to help customers who

want to go beyond the written word and photograph to express themselves. This feature enables customers to speak about their likes and dislikes, education, professional and family details, and let potential matches relate better, gain a deeper understanding about their grounding and a perspective for their partner preferences. This feature helps members to get better responses and stand out from other prospects.

Better Id Verification

A fake profile on matchmaking sites – always a real concern in the virtual world – can be a means of deception. We have undertaken responsibility by going to the root of this issue and worked out a solution to authenticate identities. We have enabled faster and better identity verification through a partner collaboration programme. Members can now provide their Aadhaar or Voter id number to get their profile information verified. This has served to enhance members' trust in the Company, by keeping fraudulent profiles out of the platform.

More Interesting Matches

We have revamped the hobbies and interests' section in member profiles to include several newer options. We capture members' personal information like interests, favourite music, reads, movies and TV shows, sports and

fitness activities and cuisine. This helps to personalise the profile and makes it easier to find like-minded members and connect with them. This information goes beyond the regular attributes like age, language, education, and profession.

Self-help

To address common customer queries, a self-serve mechanism was introduced as an online section of frequently asked questions and answers, which provides information and guides members. This has served to organise common questions and requests by customers. If the customer still has an unaddressed request, they can always reach out to our customer service team, via the in-app chat or by calling us directly.

Improved Privacy

Our new photo privacy settings enhance the privacy of members and give granular control to members who get to decide to whom their photographs may be shown.

Strengthening Internal Bonds

Smooth seas do not make skilful sailors. This resonates well with the global pandemic that hit us in FY 2020-21 and just when we thought it was all over, the more severe Delta variant caused much devastation. The pandemic has had a huge impact on our lives, bringing in unprecedented uncertainty, yet teaching us the importance of adaptation, teamwork, and the real people in our lives. These spiritual lessons showed the need to work together, collaborate more and achieve results in the new normal. The Human Resources function achieved many significant milestones with technology and automation at the heart of this journey in FY 2022.

SOME OF THE ACTIONS WE IMPLEMENTED AS TECHNOLOGY INITIATIVES AND PEOPLE PRACTICES INCLUDE:

Human Resource Management System (HRMS)

We launched our new HRMS in partnership with Peoplestrong, an AI-powered, intelligent, and scalable recruitment platform. Our new HRMS has enabled centralisation of all people practices and serves to drive automation, transparency, ease of access, and first time right, leading to enhanced employee experience and productivity.

Talent Acquisition

Matrimony.com strengthened its employer branding at the top pan India engineering campuses and B-Schools by engaging in campus recruitment activities for its product and product engineering verticals. This was an opportunity to engage with the best minds in the country across 30+ campuses and 10+ B Schools.

COVID Initiatives

During the COVID Delta wave, we launched many initiatives for our associates which included tie-up with Tata 1mg for free online doctor consultation, reimbursement of RTPCR test expenses, reimbursement of vaccination expenses as well as seven days of COVID leave for those diagnosed as COVID-positive. We also launched an 8To8 helpline number where associates could call between 8 a.m. and 8 p.m. to get their medical queries resolved.

Rewards & Recognition

We launched a digital employee rewards and recognition online platform (Circle of Excellence) in collaboration with HiFives. The platform includes both monetary and non-monetary awards across various categories like performance, leadership, values as well as innovation. The platform is extremely user-friendly, and employees can like, comment, and share the awards received on social media. The platform makes recognising and thanking a colleague much easier.

Code of Conduct

We relaunched our Code of Conduct (CoC) policy as part of the Learning Festival. The CoC policy included many new sections like respect for women, conflict of interest, dual employment to cite a few. The CoC was launched through an interesting Fireside chat along with collage and video creation contests.

Performance Management

Offering the best compensation packages is key to attain, retain and motivate employees. Therefore, in partnership with Payreview, the process of benchmarking the increment cycle went online. Line managers and functional heads accepted the responsibility and ownership to decide on increments for their team members. This is a huge step that will serve to retain key talent in every team. The new well-defined system not only helps the organisation manage the budget well, but also empowers line managers to decide on the increment numbers for their team.

Talent Management

We launched the 9-box framework, an employee assessment tool based on associates' performance and potential in certain key categories. This helps to identify key talent, potential for growth, and invest in their continual development. For the Assisted Services team, we identified a set of core competencies, based on which we developed and rolled out the behavioural interview skills programme for customer service management.

Diversity & Inclusion

matrimony.com takes pride in the fact that more than 54 per cent of its associates are women. On Women's Day, to celebrate the power of women, we launched a learning initiative – Shadowing the CEO. Three women associates were handpicked to spend the entire day with the CEO, where they experienced first-hand how a CEO's day unfolds. This also served as a platform to share ideas and feedback to the business.

Work Infrastructure

We added new office premises at Hyderabad, Pune and Noida and have begun the process of refurbishing many of our office premises in Adyar and Mumbai. We took many initiatives during the severe Delta COVID second wave like facilitating smooth movement of assets to our associates who were working from home, vacating of seats resulting in cost savings for the company, organising vaccination camps and frequent floor sanitisation for health safety.

BharatMatrimony Online Matrimony Trend Report 2021

What did Indian singles search for in 2021?

Did the pandemic change the way brides and grooms look at marriage? How did they manage to catch up with prospects during 2021? Did more women make the first move in expressing interest to men? How many messages did they send? Find out all about this in the annual BharatMatrimony Online Matrimony Trend Report 2021.

Were Indian singles interested in marriage in 2021?

Absolutely, COVID didn't seem to have any significant impact on matchmaking. During the year, a whopping 1 Billion interests were sent by both women and men.

Without a doubt, women have been increasingly taking the marriage decision into their own hands. Their active expression of interest to males last year saw more than 30% jump over pre-COVID phase. Not just that, women engagement on the BharatMatrimony app jumped by a massive 60%.

TOP CITIES & COUNTRIES

In terms of registrations, **Mumbai, Delhi, Bengaluru, Hyderabad, Chennai, Kolkata and Pune** figured at the top.

US, Canada, UK, UAE, Australia and Singapore featured in the list of top countries by registration.

When are singles most actively looking for a partner?

Good question. The answer is 4 to 7 pm every day across cities. Now you know when to log into the app.

Is engineering still at the top?

The top degrees listed by both men and women were B Tech, BE, MBA, Bachelors in Arts, Science and Commerce.

How many profiles do singles see?

On an average, a man sees about 184 women profiles per month. While a woman sees 158 profiles of men during the same period.

Explanatory Statement in respect of the Special Business (pursuant to Section 102 of the Companies Act, 2013 & Regulation 36 of SEBI (Listing Obligations & Disclosure Requirements) of the Notice dated May 12, 2022

Item No. 5

M/s S.R. Batliboi and Associates LLP, Chartered Accountants has been serving as Statutory Auditors since the year 2012-13. As per the provisions of Section 139(2) of the Companies Act, 2013, the Company cannot appoint an audit firm as Statutory Auditor for more than two terms of five consecutive years. Since the existing term of appointment of Statutory Auditors is expiring this year, there is a requirement to appoint a new Auditor in place of existing Auditors subject of the approval of the shareholders in the ensuing Annual General Meeting. Based on recommendation of the Audit Committee and the Board of Directors of the Company M/s. B S R & Co. LLP, Chartered Accountants, having registration No. 101248W/W-100022 are proposed to be appointed as Statutory Auditors of the Company at this 21st Annual General Meeting ('AGM') for a period of 5 years, up to the conclusion of 26th AGM. M/s. B S R & Co. LLP, Chartered Accountants are eligible for re-appointment for a further period of 5 years.

M/s. B S R & Co. LLP Chartered Accountants have given their consent for their appointment as Statutory Auditors of the Company and has issued certificate confirming that their appointment, if made, will be within the limits prescribed under the provisions of Section 139 of the Companies Act, 2013 ('the Act') and the rules made thereunder. M/s. B S R & Co. LLP, Chartered Accountants have confirmed that they are eligible for the proposed appointment under the Act, the Chartered Accountants Act, 1949 and the rules or regulations made thereunder. As confirmed to Audit Committee and stated in their report on financial statements, the Auditors have reported their independence from the Company and its subsidiary according to the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') and the ethical requirements relevant to audit. The Board of Directors has approved a remuneration of Rs. 38 lakhs for conducting the audit & other statutory certifications for the financial year 2022-23, excluding applicable taxes and reimbursement of out-of-pocket expenses on actuals. The remuneration proposed to be paid to the Statutory Auditors during subsequent years would be in line with the existing remuneration and shall be commensurate with the services to be rendered by them during the said tenure. The Board of Directors in consultation with the Audit Committee may alter and vary the terms and conditions of appointment, including remuneration, in such manner and to such extent as may be mutually agreed with the Statutory Auditors. M/s B S R & Co. LLP is a member entity of B S R & Affiliates, a network registered with the ICAI. The firm has offices in various cities across the country. M/s B S R and Co. LLP is a multi-disciplinary Audit Firm catering to various clients in diverse sectors. The firm holds the 'Peer Review' certificate as issued by 'ICAI'.

None of the Directors or Key Managerial Personnel of the Company or their relatives are interested or concerned, financially or otherwise, in the resolution.

The Board recommends the resolution set forth in Item No. 5 for the approval of the Members.

HUMAN RESOURCES MANAGEMENT

Your Company having a pan India presence employs around 3405 associates to accomplish the purpose of the Company "HAPPY MARRIAGES". We have unleashed the power of inclusion by our geographical spread to cater to various Indian communities across the globe. Gender equity is our strength, as more than 54% of our associates are women, with an average age of our associates being 29 years.

Smooth Seas do not make skillful sailors. This resonates well with the global pandemic that hit us in FY'21 and when we thought all was over there came the even severe Delta variant. It has huge impact on our lives, but it also taught us that our spirits need not be dampened and that we need to work together more collaborated and achieve results in the new normal.

As Human Resources Function, we achieved many significant milestones with technology and automation at the heart of this FY'22 journey.

Some of the initiatives we implemented as part of people practices included:

HRMS- we launched our new HRMS in partnership with Peoplestrong. Our new HRMS has enabled centralization of all people practices, drive automation, transparency, ease of access, first time right, leading to enhanced employee experience and productivity.

Talent Acquisition: Matrimony.com strengthened its employer branding at the top Pan India engineering campuses and B-Schools by engaging in campus recruitment activities for its product and product engineering verticals. We got an opportunity to engage with the best minds in the country across 30+ campuses and 10+ B Schools.

Covid Initiatives: During the Covid Delta wave, we launched many initiatives for our associates which included tie-up with 1mg for free online doctor consultation, reimbursement of RTPCR test expenses, reimbursement of vaccination expenses as well as 7 days of Covid leave for those diagnosed with Covid. We also launched a 8 to 8 helpline number where associates could call and get their queries resolved.

Reward & Recognition: We launched an online rewards and recognition platform (Circle of Excellence) in collaboration with HiFives. The awards on the platform include both monetary and non-monetary across various categories like performance, leadership, values as well as innovation. The platform is extremely user friendly, and employees can like, comment, and share the awards received on social media. Now recognizing and thanking a colleague is made much easier

Code of Conduct: We relaunched our Code of Conduct policy as part of the Learning Festival. The COC policy included many new sections like respect for women, conflict of interest, dual employment to cite a few. The COC was launched through an interesting Fireside chat along with collage and video creation contests.

Performance Management: In partnership with pay review, the entire process of increment cycle went online. L1 managers and functional heads now had the ownership and responsibility to decide on the increments for their team members. This is a huge step in retaining key talent of the team. The new well-defined system not only help the organization manage the budget well, but all empowers line managers to decide on the increment numbers to their team

Talent Management: We launched the 9-box framework for associates from Band 3-5 to help identify key talent and invest in their continual development. For the Assisted Services team we identified a set of core competencies, based on which we developed and rolled out the Behavioral Interview Skills program for CSM.

Diversity & Inclusion: The Company is proud to have more than 54% of its associates as women. To celebrate the power of women, on Women's Day we launched an interesting initiative – Shadowing the CEO. 3 women associates were handpicked to spend the entire day with the CEO, where they got to understand the bigger picture of the organization along with a platform to share ideas and feedback.

Work Infrastructure: We added new office premises at Hyderabad, Pune and Noida and have begun the process of refurbishing many of our office premises like Chennai (Adyar) & Mumbai. We took many initiatives during the severe Delta Covid second wave like facilitating smooth movement of assets to our associates who were working from home, vacating of seats resulting in cost savings for the company, organizing vaccination camps and frequent floor sanitization.

SECRETARIAL AUDIT REPORT

For the Financial Year 2021-22

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members,

M/s. MATRIMONY.COM LIMITED

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **M/s. MATRIMONY.COM LIMITED** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of **M/s. MATRIMONY.COM LIMITED** books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We hereby report that in our opinion, the Company has, during the audit period covering the financial year ended 31st March 2022, complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by **M/s. MATRIMONY.COM LIMITED** ("the Company") for the financial year ended on 31st March 2022 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

REPORT ON CORPORATE GOVERNANCE

(Pursuant to Schedule V(C) of SEBI (LODR) Regulations, 2015)

COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE

Matrimony.com is committed to maintaining high standards of corporate governance, protecting customers', shareholders' and other Stakeholders' interests. In line with this philosophy, Matrimony.com Limited believes that sound governance policies and practices are necessary for establishing a proper environment for achievement of our key objectives. Our corporate governance practice includes honesty, trust, integrity and openness in all our dealings with customers, business partners and our own associates. The Code of Conduct is communicated and enforced by our management to ensure a safe, ethical and wholesome environment. Our policies and practices are based on values like fairness, transparency and simplicity.

The following is a report on the status and progress on major aspects of corporate governance for the year ended 31st March 2022.

1. BOARD OF DIRECTORS

The Directors of the Company possess highest personal and professional ethics, integrity and values and are committed to representing the long-term interests of the Stakeholders. The basic responsibility of the Board is to provide effective governance over the Company's affairs exercising its reasonable business judgment on behalf of the Company.

The Board has an optimum combination of Executive, Non-Executive and Independent Directors including women Directors, which ensures proper governance and management. The Chairman of the Board is the Promoter & Managing Director. As at 31st March 2022, the Board of Directors comprises of seven Directors and the composition of the Company's Board of Directors is in conformity with the prescribed code of corporate governance by the Stock Exchanges. As required by the Code of Corporate Governance, not less than 50% of the Board of Directors consists of Independent Directors. The Company has got two women Directors of which one Director is independent. There is no pecuniary relationship or transaction of the Non-Executive Directors vis-à-vis the Company. None of the Directors of the Company has attained the age of seventy-five years as on 31st March 2022. The directorships held by the directors are within the limits prescribed under Section 165 of the Companies Act, 2013. None of the Directors is related to each other except Shri. Murugavel Janakiraman and Smt. Deepa Murugavel.

Independent Directors are non-executive directors as defined under Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended from time to time ("SEBI LODR") read with Section 149(6) of the Companies Act, 2013 along with rules framed thereunder. The composition of the independent directors is in conformity with the statutory requirements. In compliance with Regulation 17A of SEBI LODR, none of the Independent Directors serve as Independent Directors in more than seven (7) listed companies and no Independent Director is serving as whole-time director in any listed company. In terms of Regulation 25(8) of SEBI LODR, they have confirmed that they are not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact their ability to discharge their duties. Based on the declarations received from the Independent Directors, the Board of Directors has confirmed that they meet the criteria of independence as mentioned under Regulation 16(1)(b) of the SEBI LODR and that they are independent of the management.

As mandated under Regulation 26(1) of the SEBI LODR, none of the Directors is a member in more than ten Committees nor is any of them a Chairperson of more than five committees across all public limited entities in which they are directors.

The Company is managed by the Chairman & Managing Director (CMD) assisted by the management team during the year ended 31st March 2022.

GLOBAL ECONOMY OVERVIEW

The global economy has recovered in 2021 from the disruption caused by COVID-19 in 2020. On the back of international collaboration in adapting functional health policies and efficient fiscal and monetary policies across the globe coupled with vaccinations across the globe, the global economy is estimated to grow by 6.1% in 2021, compared to a contraction of 3.1% in 2020, as stated by International Monetary Fund (IMF). The emerging markets and developing economies are estimated to have registered an average growth of 6.8% in its gross domestic product (GDP), and the advanced economies are estimated to grow at an average of 5.2%. The biggest contributor to the growth in advanced economies were France, Italy and UK growing at 7%, 6.6% and 7.4% respectively. Similarly, the biggest contributor to the growth of developing economies were China and India estimated to be growing at 8.1% and 8.9% respectively.

The crude prices saw a sharp increase of 36% between August 2021 and February 2022 owing to the strong demand, short-lived effects of the Omicron variant of the COVID-19 pandemic followed by the Ukraine and Russia war.

World Economic Growth (%)

OUTLOOK

Post COVID, the global economy was on a recovery phase. However, the Ukraine and Russia war is expected to set back the recovery slightly in 2022. This has resulted in a downward revision from the World Economic Outlook (WEO) January forecast, to a growth of 3.6% in 2022 and 2023, with both Russia and Ukraine expected to experience large GDP contractions in 2022. The supply-chain disruptions across the globe has resulted in a higher-than-expected broad-based inflation. Further, with the ongoing Ukraine and Russia war, the inflation is expected to remain elevated for a longer timespan than previously forecasted by IMF. The inflation is projected at 5.7% for advanced economies and 8.7% for emerging and developing economies in 2022.

INDIAN ECONOMY OVERVIEW

Following the second wave of the COVID-19 pandemic, India's economy was well on its path to recovery, with both industry and services showing steady progress. Outbreak of new variants, supply chain disruptions, and, the recent rise in inflation, have all made policymaking extremely difficult. To address these difficulties, the Government increased infrastructure expenditure to not only restore medium-term demand but also enact significant supply-side reforms to position the economy for long-term growth. As per the second advance estimates of the National Statistics Organisation (NSO), Indian economy is estimated to grow at 8.9% in 2021-22 compared to a contraction of 6.6% in 2020-21. Moreover, for nine months ended 2021-22, the aggregate Index of Eight Core Industries was recorded at 12.6% (provisional) over the same period last year. Further, the impact of the third wave of the pandemic on recovery was minimal compared to the previous waves.

OUTLOOK

Huge government funding in public infrastructure is expected to encourage growth and attract private investment through a strong multiplier effect in the industry. However, supply-side bottlenecks have persisted with gradually rising international crude oil prices and growing raw material costs. The availability of budgetary space to ramp up capital spending, advantages from supply-side reforms, regulatory relaxation, and continued export growth will also contribute to growth in 2022-23. As per IMF's World Economic Outlook projections, India's real GDP projected to grow at ~9% in FY22 and FY23 and at 7.1% in 2023-24, which would make India the fastest growing major economy in the world for all 3 years.

DIGITAL INDIA

India has emerged as the third largest ecosystem for startups globally, with over 66,359 DPIIT-recognised startups across 642 districts of the country as of 21st March 2022. India ranks #2nd in innovation quality with top positions in the quality of scientific publications and the quality of its universities among middle-income economies. The innovation in India is not just limited to certain sectors. Startups have been recognised to solve problems in 56 diverse industrial sectors, with 13% from IT services, 9% from healthcare and life sciences, 7% from education, 5% from professional and commercial services, 5% from agriculture and 5% from food and beverages.

Indian Startup Ecosystem has seen exponential growth in the past few years (2015-2021):

9X increase in the number of investors

7X increase in the total funding of startups

7X increase in the number of incubators

The Indian Unicorns are flourishing in the fast-paced and dynamic economy of today. These startups are not only developing innovative solutions and technologies, but are generating large-scale employment. Till 2016-17, approximately one unicorn was being added every year. Over the past four years (since 2017-18), this number has been increasing exponentially, with a whopping 66% y-o-y growth in the number of additional unicorns being added every year. As of 25th March 2022, India is home to 94 unicorns with a total valuation of US\$ 319.67 billion, of which, 44 unicorns with a total valuation of US\$ 94.77 billion became operational in 2021 and 13 unicorns with a total valuation of US\$ 25.4 Bn became operational in 2022.

INCREASING INTERNET PENETRATION

The total number of internet users in India stood at more than 830 million in 2021, registering a steep growth of 530 million since 2015. The total volume of wireless data consumed usage in the country stood at 32,397 petabytes in 2021 compared to 4,200 petabytes in 2018, growing 7x in the last three years. Further, the country's average data usage per month has increased from 1.24 GB per month in 2018 to 14.1 GB in June 2021. The sustained growth in internet penetration, especially post the COVID-conundrum, is expected to drive the online matchmaking sector. Further, there has been a boom in the internet economy in India over the recent past. In 2021, India clocked the second-highest number of mobile app downloads in the world, following China. India clocked over 27 billion downloads compared to 12.2 billion of USA. Indian users spent an average of about 4.7 hours daily on mobile apps in 2021, thereby, driving the online matchmaking sector in the country.

UPSURGE IN SOCIAL MEDIA USERS

As per Kepios analysis, 33.4% of India's population i.e. 467 million individuals were social media users in January 2022, registering a growth of 19 million on a y-o-y basis. The rapidly growing users in social media along with increasing time spent are likely to drive usage of online matchmaking services.

INDIAN MATRIMONY MARKET

India - a large youth and marriage market

India is the second-most populous country in the world with a population of 1.408 billion in 2021, registering a 1.26% y-o-y growth over the previous year. The sex ratio of the country stood at 1.068, which was higher than the global average of 1.016. Further, the country has one of the youngest populations in the world with a median age of 26.7 years. The estimated size of population between the age of 18 and 44 years was pegged at 0.6 billion. Riding on the back of a young population, the matrimony market in the country has a huge headroom of growth in the foreseeable future. India is still dominated by arranged marriages which is estimated at 80%. India has seen an incremental growth in its urban population over the past decade. The country's urbanisation rate is expected to reach 37-38% by 2025, thereby, driving the demand of online matchmaking in such locales.

Large marriageable population and post COVID normalization

The Indian wedding and events sector is currently one of the largest in the world with an estimated annual wedding of at 11-13 million. The country is expected to continue being the largest wedding market led by its huge population of around 350 million in the marriageable age bracket, of whom about 100 million were unmarried. Though owing to the COVID-19 pandemic, the country saw postponing of marriages over the last two years. However, with the world steadily heading towards recovery and normalization, the matrimony sector is expected to witness a huge traction. During just one month in the wedding season of 2021, between 14 November and December 13, 2021, India was expected to encounter nearly 2.5 million weddings and generate business of ~₹ 3 lakh crore, as estimated by the Confederation of All India Traders (CAIT). Restriction on marriages and number of invitees per marriage are also expected to be lifted, thereby, resulting in the matrimony market growing multifold in the near future.

As per the Online Matrimony Trends Report 2021, ready-to-marry singles sent 2 lakh messages on a daily basis to prospects. The Report states that every month, men saw 184 profiles of women vis-à-vis women seeing 158 profiles of men. Further, the Report also states that the women profiles with verified government IDs witnessed 37% higher interest from men than profiles without any government IDs, thereby, validating the fact that trust factor plays a pivotal role in such cases. Similarly, men with verified government ID received 34% more response over the unverified profiles.

GOVERNMENT INTERVENTIONS DURING 2021-22

In December 2021, the Government introduced a crucial bill in Lok Sabha to amend the Child Marriage Act 2006 with the objective of raising the legal age of marriage for women from 18 years to 21 years. This Bill once approved by the President of India, would come into force within 2 years.

Strengths and Opportunities

Market position and brand recall: The Company has a rich legacy and experience of more than 2 decades in matchmaking services. Leveraging this, it has emerged as the frontrunners in the matchmaking business in India, servicing its customers via websites, mobile sites, mobile apps and an active on-the-ground network. As of 31 March 2022, the paid profiles of the Company stood at 8.9 lakhs compared to 8.4 lakhs in 31 March 2021, registering a 6.8% y-o-y growth. Due to the strong brand recall, the Company has a majority market share of 60% in the online match-making space in India. Led by its early mover advantage and a strong brand, the Company has built a strong user base of over 50 lakhs as on 31 March 2022, validating its market position.

Micro-market strategy and New Horizons: The Company has been a pioneer to cater to the unique regional and community matchmaking requirements of Indian consumers as well as offers customised and targeted services. In the wake of the COVID-19 pandemic, the Company also realised the importance of ensuring remote connectivity, and launched live video-calling and home weddings in the previous fiscal. The Company also launched 'Jodii', a matrimony app for common people who have studied Diploma, 12th, 10th or below, in vernacular languages. This was the culmination of detailed research across various Indian states over a period of one year. This Android-only app is available in Hindi, Tamil, Telugu, Malayalam, Kannada, Gujarati, Marathi, Bengali, Punjabi and Oriya. The major benefits of Jodii are the affordable packages and simple user interface, which is well appreciated by people who are not very technology-savvy. During the year under review, the Company has also expanded to Bangladesh for a wider reach.

One stop shop: The Company has forward integrated to provide marriage services across value chain. Its WeddingBazaar online marketplace provides wedding related services, with over 75,000 vendors. On the other hand, Mandap.com is a wedding venue booking platform, which provides facility to book from more than 25,000 mandaps, banquet halls, and convention halls across the country. The Company acquired ShaadiSaga.com recently, which is a leading player in the wedding services industry. This acquisition enables Matrimony.com to scale its presence significantly in the Northern and Western parts of the country, thereby strengthening its product capabilities and helping the Company emerge as the largest wedding services player in India. The Company currently has more than 1 lakh vendors on the platform. Further, leveraging the massive brand reach (20 million+) of ShaadiSaga through website and social media platforms, the Company is poised to strengthen its market reach and penetration.

During the year, the company acquired 100% stake in Boatman Tech Pvt Ltd (promoter of ShaadiSaga.com) In July 2021 by signing definitive agreements. On September 15, 2021, on completing the closing conditions, ShaadiSaga, became a wholly owned subsidiary of the company. Consequently, the above results include ShaadiSaga effective September 15, 2021.

Revenue: Overall revenue grew by 14.98% for the year. The revenue distribution is through two segments such as Matchmaking and marriage services. The segment wise performance is given in table later in the discussion. Matchmaking comprises 99.05% of revenues and grew by 14.54% in FY22 as compared to a growth of 4.24% in FY21. However, matchmaking billings grew by 12.23% in FY22 as compared to 7.45% in FY21. The key drivers for this business are number of paid profiles and Average Transaction Value (ATV). The paid profiles are at 8.94 lakhs, an increase of 6.81% over the previous year. ATV is at Rs 4,806, an increase of 4.98% over the previous year. The company typically has subscription packages ranging 3 months, 6 months and 1 year and the subscription billings are recognized as revenue over the subscription period.

Other income: Other income mainly includes Government grants received under Pradhan Mantri Rojgar Protsahan Yojana (PMRPY) scheme for incentivizing employers for generation of new employment and notional gain from closure of leased locations accounted under Ind AS 116 "Leases".

EXPENSES:

Employee benefit expenses: Employee benefit expenses have increased by Rs 505.82 lakhs mainly due to additional employee cost on acquisition of Shaadi Saga, increase in sales incentive (due to increased billings) & increase in staff welfare expenses on account of re-opening of offices during FY 22.

Advertising and Promotion expenses: We increased our marketing initiatives significantly during the year by Rs 2,531.31 lakhs, comprising both online and offline segments. These are on-going investments to fuel future growth and increase brand visibility.

Other expenses: Other expenses mainly comprise of IT, infrastructure, admin, legal and professional fees which have increased by Rs 680.02 lakhs. This was mainly due to increase in infrastructure and admin costs (Rs. 16.85 lakhs), increase in expenses in IT related costs majorly due to AWS Migration, and increases in tech fees & communication (Rs 611.05 lakhs), increase in travelling expenses (Rs 40.95 lakhs) and increase in Legal and professional fees including Director's sitting fees and commission (Rs 173.16 lakhs). This was offset by decrease in CSR expenses (Rs 55.04 lakhs), decrease in Collection charges (Rs.50.97 lakhs) and Foreign Exchange Loss reduction (Rs 55.98 lakhs). Overall, as a % of revenue it has been flat as compared to the previous year (12.13% in FY 22, 12.15% in FY 21). Given the pandemic, the company undertook a host of cost savings measures especially in infrastructure costs which involved waiver and reduction of rentals during the lockdown phases and reducing retail outlets that are loss making.

EBITDA margins: Our EBITDA margins are at 20.56% as compared to 18.53% in FY21, indicating an increase of 27.45%.

Finance income: Finance Income consists mainly income from investments of surplus funds in fixed deposits and mutual funds. The increase in income is due to increase in investments during the year.

Finance cost: Finance cost mainly consists of notional interest on lease liabilities charged to PL as per Ind AS 116.

Effective Tax Rate (ETR): The effective tax rate is at 25.42% in FY 22 as compared to 24.01% in FY21.

Profitability: Our PAT margins are at 12.25% as compared to 10.70% in FY21, indicating an increase of 31.44%

Segment performance

The following tables gives an overview of the segment performance of the Company:

Revenue	FY 2021-22 (Rs lakhs)	FY 2020-21 (Rs lakhs)
Matchmaking Services	43,036.44	37,572.25
Marriage Services*	413.12	215.65

Matchmaking Services	11,171.56	8,972.84
Marriage Services*	(955.30)	(963.23)

*Due to the pandemic this business was significantly impacted. The company focused its efforts to building the business model to a subscription-based model and enriching the eco-system along with cost optimization measures.

Further, the company acquired ShaadiSaga to scale up its presence in this segment and launched wedding bazaar 2.0 with more than 1 lakh vendors, creating one of the largest wedding services player in the market.

Key ratios

The company has identified the following ratios as key ratios:

	FY 2022	FY 2021
EBITDA margin	20.56%	18.53%
Net profit margin	12.25%	10.70%
Return on Net worth	18.68%	16.59%

Cash flows

The company spent Rs 772.47 lakhs as capital expenditure and spent Rs.992.91 lakhs as acquisition cost of subsidiary Boatman Tech Pvt. Ltd during the year. Consequently, the company generated free cash flow of Rs 5,986.15 lakhs of cash during the year taking the cash balance at 31 March 2022 to Rs 33,372.41 lakhs. The EBITDA to operating cash flow conversion has been strong at 0.86 times and EBITDA to free cash flow is at 0.67 times.

Headcount

The total number of employees (excluding subsidiaries and associate) as at 31 March 2022 is at 3,405 as compared to 3,505 as at 31 March 2021.

Strategy and Outlook

The key strategic focus areas for 2022-23 are as follows:

- Focus on faster growth in the personalised service space namely Assisted and Elite, with the help of enhanced customer services and processes
- Driving growth by expanding operations in new geographies globally and through the newly launched Jodii
- Consistently invest in differentiated product offerings for a sharper customer focus
- Sharpen focus on wedding services through integration of ShaadiSaga

COVID-19 impact

The second wave of the pandemic was very severe in India, and detrimental to the industry. Many employees were affected, and the Company put employee well-being at the forefront of its focus. The Company leveraged its learnings from the first wave to ensure minimal business impact. The renewed strategies of the Company, such as product innovation, exploring new horizons kept Matrimony.com in good stead. This combined with the relentless focus on execution helped the Company bounce back strongly and clock double digit growth in 2021-22. Further, this was also supplemented by many measures towards operational efficiency that has resulted in good growth in profitability. However, the wedding services business saw an impact. Now with the integration of ShaadiSaga.com, the Company has seen the business momentum recover.

RISK MANAGEMENT

Risk Management is an integral part of the Company's strategy and planning process. Based on proactive identification of risks, action plans are devised to mitigate the risks that could materially impact the Company's long-term sustainability. Mitigation plans with identified owners are set against target dates and progress of mitigation actions are monitored and reviewed. The Company has in place a robust risk management framework to identify, assess, monitor and mitigate risks which threaten the Company. The Risk Management Committee of the Company is tasked with the identifying and mitigating risks. The Committee reports to the Board of Directors who sit at the apex of the corporate governance framework.

Some of the risks identified and mitigated by the Company during the year under review are as follows:

Risk	Description	Mitigation
Business risk	Prolonged COVID surge can hamper operations, employee morale, create fatigue and consequently affect growth	Leveraging its experience from the first wave of COVID-19, the Company has been able to continue operations smoothly in the second and third waves. However, the risk cannot be fully negated as it involves the health and mindset of people. In the wedding services segment, the Company has enhanced its processes, and strengthened the sales team through the acquisition of ShaadiSaga to stay ahead of this risk. Against the backdrop of a tough operating environment, the Company has registered double-digit growth in revenue and profitability through innovation, productivity, and newer horizons.
Competition risk	Competition can significantly affect the Company's market position, pricing and margins.	On the back of continuous focus on technology and strategy execution areas, the Company has remained the market leader. Further, the Company provides a seamless customer experience and strives to create a strong customer connect with the help of its differentiated and offering based on specific customer preferences and requirements. This, coupled with the 360-degree marketing approach, keeps the Company ahead of competition.
Cybersecurity risk	Network failure and data breaches can impact the operations of the Company extensively.	Being an established player in the online matchmaking sector, it is crucial for the Company to ensure that its systems are safe from cybersecurity risks. The Company undertakes periodic audits through internal audit mechanism to detect and proactively mitigate any such risks. Further, with the help of various technological interventions, the Company has been able to adapt working remotely against the backdrop of the COVID-19 pandemic.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1 – Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/ Joint Ventures/Suppliers/Contractors/NGOs/Others?

Our Corporate Governance Policies extend and cover all stakeholders. At Matrimony, we believe in performing well by doing right things. The Company has adopted the Code of conduct which guides its employees and directors to conduct business in an ethical, responsible and transparent manner. The code extends to wholly-owned subsidiaries of the Company including business associates. All internal & external stakeholders are expected to work within the framework of the Code of the Company. The Company has zero tolerance approach toward bribery and corruption. The code of conduct enables employees to avoid situations in which their personal interests may conflict or appear to conflict with the interest of the Company or its customers. The gifts received by employees beyond the value of Rs. 1000/- are considered as conflict of interest and such acceptance of the gifts otherwise than as stated in the policy is strictly prohibited. The Company ensures compliance of ethical standards by its vendors and contractors through appropriate clauses in its work contracts to which they are obligated. The contracts include clauses in relation to anti-corruption law, confidentiality, human rights etc. The code of conduct is further supported by Vigil Mechanism, which is being governed by Whistle Blower Policy. Objective of the Policy is to establish no threat window whereby an individual, who is aware of any Protected Disclosure in the Company, is able to raise it to the appropriate channel as outlined in the policy, to ensure appropriate and timely institutional response and remedial action and offer protection to such individual from victimization, harassment or disciplinary proceedings. The Company has appointed a senior official of the Company as Ombudsman and the Policy & Mechanism is directly monitored by the Chairman of the Audit Committee.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

Matrimony Stakeholders include its Employees, Business Associates, Community, Shareholders/Investors and Customers. The Company being in service industry does receive customer queries/ feedback/assistance calls, from time to time, which are duly attended to & addressed to their satisfaction. A total of 2 legal complaints were received during the financial year. The complaints are being addressed based on the merits.

During the year, three cases were reported through whistleblower@matrimony.com. These were determined to be HR related issues and not a whistleblower issue. The issues have been resolved. Hence, there are no whistle blower complaints as such received by the Company during the year. During the year under review no complaint was received from Shareholders.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The Company aims to have negligible negative impact on the environment by identifying ways to optimise resource consumption in its operations, although the very nature of the businesses of the Company has limited impact on environment. To ensure optimal resource consumption, we have incorporated environment friendly installations such as energy efficient equipments etc. Also, the very nature of the business operations of the Company being Internet Services i.e providing online matrimonial matchmaking services through various webportals, all the registrations under the said portals are done digitally without much usage of any paper application form. Not only does the aforesaid is making positive social impact, but environmental impact also, using the Internet and thereby reducing the use of limited natural resources.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

(a) Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Not applicable. The nature of services rendered by the Company have very limited impact on environment. Further, the Company does not manufacture/produce any products.

3. Does the company have procedures in place for sustainable sourcing (including transportation)?

(a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Matrimony, being a pure play consumer internet Company, is relatively less resource intensive in terms of material inputs. However, as a responsible corporate citizen, the Company endeavours to reduce the environmental impact of its operations by tracking the consumption of resources critically. As part of the Company's operations, a small amount of e-waste is generated by the Company which is dealt with as per the laws.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

(a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The nature of Company product is service oriented and not material resource intensive and the Company does not procure goods for further processing. The Company's criteria for selection of goods and services is reliability, quality and price. The manpower services as required from time to time for various locations of the Company are generally hired from local agencies wherever possible.

5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

The nature of Company's products is service oriented and not material resource intensive, and hence recycling of products is not applicable for the Company's products. There is negligible waste generation at Company's offices. However, the Company has procedures in place to dispose of e-waste through authorised e-waste vendors.

Principle 3: Businesses should promote the wellbeing of all employees

1. Please indicate the Total number of employees: 3405
2. Please indicate the Total number of employees hired on temporary/contractual/casual basis. NA

- b. Company also interacts with the shareholders/ Investors through Newspaper Publications, Stock Exchange disclosures, Annual Reports etc.

5. Customer Stakeholder Group:

The Customers/ Clients of the Company are expected to work within the framework of the Code of Ethics & Conduct of the Company. Respective Business portals has toll free number, through which a customer can approach the Company.

Principle 5 : Businesses should respect and promote human rights

1. Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/ Suppliers/ Contractors/NGOs/Others?

The Company's policy on Human Rights lays non-discrimination among employees, meritocracy and mechanisms for redressal of employee issues applies across the Company and its subsidiaries. Matrimony is committed to ensure that people are treated with respect and dignity. Our respect for human rights guides our policies and practices dealing with our operations, partnerships, contracts and investment agreements. While mutual agreements assure stakeholders such as vendors and suppliers of protection against human rights violations, all our employees are introduced to these policies during induction. All employees and contractual staff is empowered to report any incident of discrimination and harassment. The Company does not employ child labour. We have grievance redressal channels to deal with issues related to discrimination, retaliation and harassment. The Company has constituted an Internal Committee to address complaints of sexual harassment raised by employees. There is an effective whistle blower mechanism put in place by the Company which is managed by an ombudsman appointed internally to provide complete anonymity and confidentiality. Also, we, at Matrimony, encourage its Business Partners to follow the policy. We discourage dealing with any supplier/contractor if it is in violation of human rights, and also prohibit the use of forced or child labour.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

No incidence of discrimination or human rights violation was received by the Company or was pending investigation as on March 31, 2022. The company received 5 sexual harassment complaints from the employees during the year. Internal committee investigated the matter and decided that 3 complaints were not pertaining to sexual harassment. They were referred to Human Resources department for further action. In respect of the other two complaints, suitable action was taken against the employees involved in the harassment as per the guidelines. The details are well explained in Principle 3.

Principle 6: Business should respect, protect, and make efforts to restore the environment

1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/ Contractors/ NGOs/others.

The aspects outlined under this principle are not substantially relevant to the Company given the nature of its business. The Company complies with the applicable environmental regulations in respect of its premises and operations. Also, the Company participates in initiatives towards addressing environmental issues.

2. Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc

The Company has always been striving towards imbibing green sustainable products, processes and practices. The Company continuously endeavours to reduce the environmental impacts of its own operations. The Company focuses on improving energy efficiency, use of renewable energy, procurement of greener products and waste recycling. The Company aims to reduce the impact on the environment by identifying ways to optimise resource consumption in its operations although the very nature of the businesses of the Company has limited impact on environment.

To ensure optimal resource consumption, we have incorporated environment friendly installations such as energy efficient equipment including:

1. Replacement of conventional lights to LED lights in the offices across all the locations.
2. Automatic server and desktop shutdown, to reduce consumption of energy, in addition to constant mailers to remind & encourage energy saving.
3. Initiatives to reduce usage of paper and consumption and promotion of recycle.

7. Number of show cause/legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

There was no legal notice received during the year that remain outstanding as on March 31, 2022

Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

1. Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

Yes, it is a part of NASSCOM, Internet and Mobile Association of India (IAMI), Confederation of Indian Industry and Chamber of Commerce.

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)

Matrimony believes that it is necessary to represent to and engage with authorities on matters concerning the various businesses in which Company operates. The engagement with the relevant authorities is guided by the values of commitment, integrity, transparency and need to balance interests of diverse stakeholders.

Accordingly, the Company shares its views/comments on proposed policy formulations through appropriate forums whenever required on matters relating to its business including but not limited to Security Policy, Cyber Crimes, etc.

Principle 8: Businesses should support inclusive growth and equitable development

1. Does the company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.

The Company has put in place Policy on Corporate Social Responsibility to guide its efforts on CSR initiatives that contribute to inclusive growth and equitable development. Matrimony CSR Policy outlines the Company's philosophy & the mechanism for undertaking socially useful programmes for welfare & sustainable development of the community at large as part of its duties as a responsible corporate citizen. For detailed information relating to list of activities in which contribution in 4 below has been incurred, please refer the Annual Report on CSR Activities in page nos. 38-40 to the Directors' Report.

2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/ any other organization?

The Company engages with NGOs/other organisations/Trusts along with its in-house team to ensure that the Company achieves its vision of promoting inclusive growth.

3. Have you done any impact assessment of your initiative?

The Company follows a systematic approach to review the performance of the programmes on a regular basis. The CSR Programmes/projects are monitored and reviewed periodically by the Corporate Social Responsibility Committee.

4. What is your company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken.

The Company had earmarked Rs.93.64 lakhs towards various CSR initiatives during the year 2021-22. For detailed information relating to list of activities in which expenditure above has been incurred, please refer the Annual Report on CSR Activities in page nos. 38-40 to the Directors' Report.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

Matrimony's CSR initiatives are rolled out directly or in partnership with non-profit organisations. This helps in increasing reach as well as ensuring the adoption of initiative by communities. Company's Representatives track the reach and take necessary steps to make it successful. Further, the CSR projects are evaluated by the CSR Committee to ensure maximum impact of their initiatives.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year?

There are no customer complaints which will have any major business impact. There are 23 Consumer cases pending at the end of the financial year which constitutes 96 percent.

2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A. /Remarks (additional information).

Since the Company is not into manufacturing of products (packaged commodities), the requirement of displaying product labelling is not applicable to its service offerings directly to its products. The Company enables its customers to make informed decisions about the different products by providing them correct and transparent information. The product features and price/charges are informed to the customers before the transaction. Product information is also available on the respective business portals of the Company.

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending as on end of financial year?. If so, provide details thereof, in about 50 words or so.

No.

4. Did your company carry out any consumer survey / consumer satisfaction trends?

The Company recognises that constant feedback is vital in providing great services. The Company on a continuous basis measures satisfaction levels of customers. Facilities are provided to customers in the respective portals, where a customer can freely give its feedback on the services being offered by the Company. Necessary and time bound corrective actions are taken by the Company to improve customer experience.

Independent Auditor's Report

To the Members of Matrimony.com Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying Standalone Ind AS financial statements of Matrimony.com Limited ("the Company"), which comprise the Balance sheet as at March 31, 2022, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Standalone Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS financial statements for the financial year ended March 31, 2022. These matters were addressed in the context of our audit of the Standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Standalone Ind AS financial statements' section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Standalone Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Standalone Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
Accuracy and completeness of Matchmaking Revenue (as described in Note 2.3(h) and Note 22 of the Standalone Ind AS financial statements)	
Matchmaking services revenues of the Company for the year ended March 31, 2022 constitutes a significant percentage of the total revenue and majority of such revenues are generated through online services. The Company has processes and controls, many of them automated, to ensure that transactions are processed and recorded appropriately.	As an audit response to address this matter, we performed a walkthrough to gain an understanding of the revenue process (including the compliance with revenue recognition requirements of Ind AS 115) to develop an appropriate audit strategy and performed following procedures:
Improper configuration of the IT systems or system generated reports could lead to material misstatement of revenues, accordingly we identified the above as a significant risk in our audit.	<ul style="list-style-type: none"> Involved IT specialists to test relevant IT general controls, application controls and appropriateness of system generated reports; Tested relevant manual and IT dependent controls relating to revenue process including the controls relating to data migration between the operational system and financial accounting system; Tested the completeness and accuracy of the data extracted from the aforesaid systems and performed recalculations to verify the appropriateness of revenue recognized (including cut off procedures) on a test basis;
Therefore, we considered this risk to be a key audit matter in our audit of the financial statements for year ended March 31, 2022.	<ul style="list-style-type: none"> Tests of details for the sample revenue transactions; Assessed the reconciliation of unearned revenue and collections performed by the management and performed sample tests on the same; Read the accounting policies for revenue recognition in the financial statements; Performed analytical procedures over disaggregated data of revenue transactions during the audit period to identify any unusual trends / patterns warranting additional audit procedures; and Read the disclosures made by the management in the financial statements.

We have determined that there are no other key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting

policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS financial statements for the financial year ended March 31, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF MATRIMONY.COM LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Matrimony.com Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting with reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these Standalone Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these Standalone Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these Standalone Ind AS Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Standalone Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements and such internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone financial statements

for the year ended March 31, 2022

1. CORPORATE INFORMATION

Matrimony.com Limited ('Matrimony.com' or the 'Company') is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company offers online matchmaking services on internet and mobile platforms. The Company delivers matchmaking services to users in India and the Indian diaspora through websites, mobile sites and mobile apps complemented by a wide on-the-ground network in India. Such services are primarily delivered online through popular domain specific web portals like BharatMatrimony.com, CommunityMatrimony.com, AssistedMatrimony.com, EliteMatrimony.com and Jodii.com. Revenue comprises of membership subscription, assisted matrimonial service fees and sales from online advertising packages. The Company has expanded into marriage services such as Mandap & Wedding Bazaar, a listing website for matrimony-related directory services including listings for wedding related services such as wedding planners, venues, cards and caterers.

On September 21, 2017, the Company listed its equity shares with National Stock Exchange of India Limited and BSE Limited. The registered office of the Company is located at TVH Belicia Towers, Tower II, 5th Floor, No. 94, MRC Nagar, Raja Annamalaipuram, Chennai - 600028.

The standalone financial statements were authorised for issue in accordance with a resolution of the directors on May 12, 2022.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of preparation

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III).

The standalone financial statements have been prepared on an accrual basis under the historical cost convention except for certain financial assets and financial liabilities are measured at fair value (refer accounting policy regarding financial instruments).

The standalone financial statements are presented in INR (its functional currency) and all values are rounded to the nearest lakhs, except where otherwise indicated.

The standalone financial statements provide comparative information in respect of the previous period. In addition, the Company presents an additional balance sheet at the beginning of the preceding period when there is a retrospective application of an accounting policy, a retrospective restatement, or a reclassification of items in financial statements.

2.2. COVID-19 Impact

The Company has considered the possible effects that may result from COVID-19 in the preparation of these financial statements, including the impact of this pandemic on its business operations, assessed the Company's liquidity position for the next one year and evaluated the recoverability and carrying value of its assets including Property, plant and equipment, Right of Use assets and Investments as at March 31, 2022. Based on its review, consideration of internal and external information up to the date of approval of these financial statements and current indicators of future economic conditions relevant to the Company's operations, management has concluded that there are no adjustments required to the Company's financial statements. However, the estimated impact of COVID 19 might vary from the date of approval of these financial statements and the Company will continue to monitor any material changes to future economic conditions.

Notes to the Standalone financial statements

for the year ended March 31, 2022

2.3. Summary of significant accounting policies

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of services, the Company has determined its operating cycle as twelve months for the above purpose of classification as current and non-current.

b) Property, plant and equipment

Property, plant and equipment, capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use and initial estimate of decommissioning, restoring and similar liabilities, where applicable. Any trade discounts and rebates are deducted in arriving at the purchase price. The Company identifies and determines cost of asset significant to the total cost of the asset, having useful life that is materially different from that of the remaining life. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories.

Gains or losses arising from de-recognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Notes to the Standalone financial statements

for the year ended March 31, 2022

c) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets/ intangibles under development, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit and loss in the period in which the expenditure is incurred.

Intangible assets are amortized on a straight-line basis over the estimated useful economic life. All intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Acquired domain names amortized on straight line basis over the period of rights, ranging between 1 to 10 years based on management estimates. Capitalised 'Portal development' expenses are amortized on straight line basis over the period of 3 years.

Computer software are depreciated using the straight-line method over a period based on management's estimate of useful lives of such software (3 to 6 years), or over the license period of the software, whichever is shorter.

The amortisation period and the amortisation method are reviewed at least at each reporting period end. If the expected useful life of the asset is significantly different from previous estimated, the amortisation period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method is changed to reflect the changed pattern. Such changes are treated as changes in accounting estimates.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

d) Depreciation and amortisation

Depreciation on property, plant and equipment is provided using the straight-line method. The Company, based on technical assessment and review of history of asset usage, depreciates certain items of Computer and network equipment, Furniture and fixtures, Office equipment and Plant & machinery over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The estimated useful lives considered for depreciation of property, plant and equipment are as follows:

Particulars	Years
Furniture and fixtures	2-5
Computer and network equipment	4-6
Vehicles	5-8
Office equipment	2-7
Plant & machinery	5

The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset.

Leasehold improvements are amortised over the primary period of lease.

Notes to the Standalone financial statements

for the year ended March 31, 2022

e) Leases

Company as lessee

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company applies a single recognition and measurement approach for all leases. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Particulars	Years
Leasehold property	11 months – 9 years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (g) Impairment of non-financial assets.

Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Notes to the Standalone financial statements

for the year ended March 31, 2022

f) **Borrowing cost**

Borrowing cost includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

g) **Impairment of non-financial assets**

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount, as the higher of an asset's or cash-generating units (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

In assessing value in use, the estimated future cash flows are discounted to their present value at the pre-tax discount rate reflecting current market assessment of time value of money and risks specific to asset. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

h) **Revenue from contracts with customers and other income**

Revenue from contracts with customers is recognised when control of the services is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those services.

The following specific recognition criteria must also be met before revenue is recognized:

Income from services

Revenues from subscriptions towards matrimony service contracts are recognized pro-rata over the period of the contract as and when services are rendered. The company collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the company. Hence, it is excluded from revenue.

Revenue from franchisee services (business license fees) recognised as and when the services are rendered as per the terms of the contract.

Revenue from photography service contracts are recognized on the basis of proportionate completion method where the revenue is recognized proportionately with the degree of completion of services, based on management estimates.

Revenue from other marriage related services are recognized as and when the services are rendered.

Notes to the Standalone financial statements

for the year ended March 31, 2022

Interest income

Interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

Dividends

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange of services transferred to the customer. If the Company performs by transferring services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (q) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities

A contract liability is the obligation to transfer services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

i) Foreign currency transactions

The Company's standalone financial statements are presented in INR, which is also the Company's functional currency.

Transactions in foreign currencies entered into by the Company are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Notes to the Standalone financial statements

for the year ended March 31, 2022

j) Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as expenditure, when an employee renders the related service.

The Company operates a defined benefit gratuity plan, which requires contributions to be made to a separately administered fund.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Short term compensated absences are provided for based on estimates. Long term compensated absences are provided based on the actuarial valuation at the year end. The actuarial valuation is done as per projected unit credit method. The company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

k) Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

l) Taxes

Income tax expense comprises current and deferred taxes. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items recognized directly in equity, in which case it is recognized in equity.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Notes to the Standalone financial statements

for the year ended March 31, 2022

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and written off to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

m) Share based payments

Employees of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

Notes to the Standalone financial statements

for the year ended March 31, 2022

n) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

o) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the standalone financial statements.

p) Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Notes to the Standalone financial statements

for the year ended March 31, 2022

- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the standalone financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

q) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

Subsequent measurement

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Notes to the Standalone financial statements

for the year ended March 31, 2022

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's standalone balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, deposits, trade receivables and bank balance
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Notes to the Standalone financial statements

for the year ended March 31, 2022

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the company does not reduce impairment allowance from the gross carrying amount.
- Loan commitments and financial guarantee contracts: ECL is presented as a provision in the balance sheet, i.e. as a liability.
- Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Notes to the Standalone financial statements

for the year ended March 31, 2022

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

r) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the cash flows, cash and cash equivalents consist of cash and short-term deposits.

s) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

t) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Corporate Management Committee.

Segments are organised based on business which have similar economic characteristics as well as exhibit similarities in nature of products and services offered, the nature of production processes, the type and class of customer and distribution methods. Segment revenue arising from third party customers is reported on the same basis as revenue in the financial statements. Inter-segment revenue is reported on the basis of transactions which are primarily market led.

Segment results represent profits before finance charges, unallocated corporate expenses and taxes. "Unallocated Corporate Expenses" include revenue and expenses that relate to initiatives /costs attributable to the enterprise as a whole and are not attributable to segments

Notes to the Standalone financial statements

for the year ended March 31, 2022

u) Cash dividend and non-cash distribution to equity holders of the Company

The Company recognises a liability to make cash or non-cash distributions to equity holders of the Company when the distribution is authorised, and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

v) Investment in Subsidiaries and Associate

Investment in Subsidiaries and Associate are carried at Cost in the separate financial statements as permitted under Ind AS 27. These investments are assessed for impairment in the manner outlined in Note 2.3(g).

w) Non-current assets held for sale

The Company classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale/ distribution should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale and the sale expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal groups), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Property, plant and equipment and intangible are not depreciated, or amortised assets once classified as held for sale. Assets and liabilities classified as held for sale are presented separately from other items in the balance sheet.

2.4 Changes in accounting policies and disclosures

(i) Amendments to Ind AS 116: Covid-19-Related Rent Concessions

The amendments provide relief to lessees from applying Ind AS 116 guidance on lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification. A lessee that makes this election accounts for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under Ind AS 116, if the change were not a lease modification.

MCA issued an amendment to Ind AS 116 Covid-19-Related Rent Concessions beyond 30 June 2021 to update the condition for lessees to apply the relief to a reduction in lease payments originally due on or before 30 June 2022 from 30 June 2021.

The amendment applies to annual reporting periods beginning on or after 1 April 2021. In case a lessee has not yet approved the financial statements for issue before the issuance of this amendment, then the same may be applied for annual reporting periods beginning on or after 1 April 2020.

Refer Note 37(b) for the impact of these amendments on the standalone financial statements of the Company.

(ii) Amendments to Ind AS 103: Business combination

The amendment states that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Framework for the Preparation and Presentation of Financial Statements in accordance with Indian Accounting Standards issued by the Institute of Chartered Accountants of India at the acquisition date. Therefore, the acquirer does not recognise those costs as part of applying the acquisition method. Instead, the acquirer recognises those costs in its post-combination financial statements in accordance with other Ind AS.

These amendments are applicable prospectively for annual periods beginning on or after the 1st April 2021. The amendments to the definition of material did not have a significant impact on the company's financial statements.

(iii) Recent accounting pronouncements

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, which inter alia includes the following:

Ind AS 16 – Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

(a) The amount of borrowing costs capitalised during the year ended March 31, 2022 was ₹ Nil (March 31, 2021: ₹ Nil; April 1, 2020: ₹ Nil).

(b) As at March 31, 2020, the management, basis its comprehensive evaluation of the photography business and the intention to move to lead-based model, had decided that the assets relating to photography business would no longer be used in its operations and these assets were readily available for immediate sale in its present condition. Accordingly, management had classified these assets as assets held for sale and as a matter of prudence, the Company had provided for impairment loss on the carrying value of such assets amounting to ₹ 65.44 lakh to write down their value to Nil as at March 31, 2020. Subsequently, the Company was able to monetise these assets during the year ended March 31, 2021 and the impairment loss provided during the FY 2019-20 was reversed in the previous year.

(c) The company had in 2017, purchased land for construction of office premises, out of the proceeds from fresh issue of equity shares during its Initial Public Offering ("IPO"). The entire IPO proceeds were fully utilized as confirmed by the monitoring agency's report. However, the management decided not to pursue the construction of office premises post the COVID-19 pandemic. Accordingly, the Board of Directors on March 31, 2022, had approved this change of objects, subject to the approval of shareholders. Subsequent to the year-end, the shareholders of the Company also approved the same on May 8, 2022 which enables the company to sell the land as per processes laid down by the Board. Accordingly, the land has been classified as asset held for sale as at March 31, 2022. Management expects to sell the land to buyers in the open market and the completion of sale of land is expected within one year.

Note:

- (a) **Employees' Provident Fund (EPF):** During the year ended March 31, 2015, the Company received a demand order from Regional Commissioner of Provident Fund, on account of non-inclusion of various allowances for the calculation of Provident Fund (PF) contribution for the period April 2012 to May 2014, which was disputed by the Company. Pending conclusion of the related proceedings, the Honourable Supreme Court issued an order dated February 28, 2019, in a matter similar to the case involving the company as detailed above. Subsequently, during the year 2019-20, the Company received demand order from PF Recovery Officer to pay ₹ 162.91 lakhs to the respective employee PF accounts or by way of Demand Draft (DD) in favour of Regional Provident Fund Commissioner. The Company during the year 2019-20, obtained an interim stay on this demand by depositing 25% of the demand and had further remitted an additional demand amount of ₹ 9.81 Lakhs on protest.

There are numerous interpretative issues relating to this Supreme Court judgement. The Company based on legal advice received and management's evaluation and best estimate, had made a provision for the demand including interest amounting to ₹ 173.91 lakhs in respect of identifiable employees during the year 2019-20. Although basis the legal opinion, Company is not bound to pay PF contribution in respect of non-identifiable employees, as a matter of prudence, the Company had also provided for the demand amounting to ₹ 69.96 lakhs in respect of non-identifiable employees during the year 2019-20. Overall, the Company had accounted a total provision including interest of ₹ 243.87 lakhs as on March 31, 2020. During the year 2020-21, the Company has remitted the remaining demand amount along with the interest and penalty amounting to ₹ 129.98 lakhs under protest. The Company has also provided for the incremental interest of ₹ 2.71 lakhs for identifiable employees during the year 2020-21. As at March 31, 2022, the Company has accounted total provision including interest of ₹ 256.39 lakhs.

The Company has created the above provision without prejudice to its legal rights under the Employees Provident Fund and Miscellaneous Provisions Act, 1952. The Company has disclosed the interest on such demand relating to non-identifiable employees and the damages as contingent liability (refer note 37(c)). Based on evaluation of the Supreme Court order, the management has determined that the position followed by it for periods subsequent to the demand (as above), i.e. from May 2014 is appropriate and will update its provision on receiving further clarity on the subject.

- (b) **Service tax:** The Company received a demand order of ₹ 350.14 lakhs along with interest and penalty from Commissioner of Service Tax for non-payment of service tax on certain services made during the period FY 2008-09 to 2012-13.

21 Provisions (continued)

While the liability has been confirmed by the Commissioner of Goods and Service Tax, the Company disputes the same and has filed appeal with Customs Excise and Service Tax Appellate Tribunal (CESTAT) and has deposited ₹ 26.26 lakhs towards statutory pre-deposit for filing appeal. As a matter of prudence, the Company has provided ₹ 13.69 lakhs for service tax demand and ₹ 25.82 lakhs for interest during FY 2019-20 and an additional amount of 3.12 lakhs and 2.05 lakhs during FY 2020-21 & FY 2021-22 respectively. Based on evaluation of the technical position as well as legal advice obtained from experts, the management believes that the ultimate outcome of this proceedings would be favourable. Accordingly, the Company has disclosed the balance demand amount of ₹ 336.46 lakhs and interest and penalty aggregating to ₹ 1,001.90 lakhs as contingent liability (also refer note 37(c)).

33 DETAILS OF DUES TO MICRO AND SMALL ENTERPRISES AS DEFINED UNDER THE MICRO, SMALL & MEDIUM ENTERPRISES DEVELOPMENT ACT, 2006

The information regarding micro or small enterprise has been determined on the basis of information available with the management and Dues including interest to Micro, Small and Medium Enterprises as on March 31, 2022 are ₹ Nil (March 31, 2021: 5.39 lakhs).*

The following are the break up of dues to Micro, small and Medium Enterprises:

Particulars	Period ended March 31, 2022	Year ended March 31, 2021
Principal amount due to suppliers under MSMED Act	-	6.59
Interest accrued and due to suppliers under MSMED Act, on the above amount	-	0.46
Payment made to suppliers (Other than interest) beyond the appointed day, during the year	7.14	2.99
Interest paid to suppliers under MSMED Act (Section 16)	3.87	-
Interest due to suppliers under MSMED Act, for payments already made	-	4.93
Interest accrued and remaining unpaid at the end of the year to suppliers under MSMED Act	-	5.39

* During the earlier years, the Company received notice from Micro and Small Enterprises Facilitation Council based on application filed by one of the suppliers claiming ₹ 10.11 Lakhs as additional payment for service rendered as per the work contract. The Company was not informed of the status of MSME by the supplier despite request from the Company and hence, could not determine the status as to whether the supplier is a micro or small or medium enterprise under the Act. As a matter of prudence, the Company, during the earlier years, has provided interest under MSMED Act of ₹ 5.39 lakhs. During the current year, the Company has entered into a settlement with this supplier resulting in withdrawal of all related claims upon payment of agreed amounts by the Company. Pursuant to the settlement entered into, the Company has reversed the excess interest accrued amounting to ₹ 1.60 lakhs.

34 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with Ind AS requires the Company's management to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities recognised in the financial statements that are not readily apparent from other sources. The judgements, estimates and associated assumptions are based on historical experience and other factors including estimation of effects of uncertain future events that are considered to be relevant. Actual results may differ from these estimates.

Notes to the Standalone financial statements

for the year ended March 31, 2022

(All amounts are in INR lakhs, unless otherwise stated)

34 Significant accounting judgements, estimates and assumptions (continued)

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates (accounted on a prospective basis) are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The following are the critical judgements and estimations that have been made by the management in the process of applying the Company's accounting policies that have the most significant effect on the amounts recognised in the financial statements and/or key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(A) Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

(i) Taxes

Determining of income tax liabilities using tax rates and tax laws that have been enacted or substantially enacted requires the management to estimate the level of tax that will be payable based upon the Company's / expert's interpretation of applicable tax laws, relevant judicial pronouncements and an estimation of the likely outcome of any open tax assessments including litigations or closures thereof.

Deferred income tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, unabsorbed depreciation and unused tax credits could be utilized.

In respect of other taxes which are in disputes, the management estimates the level of tax that will be payable based upon the Company's / expert's interpretation of applicable tax laws, relevant judicial pronouncements and an estimation of the likely outcome of any open tax assessments including litigations or closures thereof.

(ii) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 40 for further disclosures.

(iii) Lease

The Company has entered into leases for office premises and retail outlets. The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

Notes to the Standalone financial statements

for the year ended March 31, 2022

(All amounts are in INR lakhs, unless otherwise stated)

34 Significant accounting judgements, estimates and assumptions (continued)

(B) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when these financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(i) Impairment of non - financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill and other intangibles with indefinite useful lives recognised by the Company.

(ii) Defined benefit plans

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Further details about gratuity obligations are disclosed in Note 36.

(iii) Share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimation requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The Black Scholes valuation model has been used by the Management for share-based payment transactions. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 35.

(iv) Depreciation on property, plant and equipment

The management has estimated the useful life of its property, plant and equipment based on technical assessment. The estimate has been supported by independent assessment by internal technical experts and review of history of asset usage. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

(v) Leases - Estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

Changes in the fair value of plan assets are as follows:

Particulars	Year ended March 31, 2022	Year ended March 31, 2021
Fair value of plan assets at the beginning of the year	668.97	576.83
Expected return on plan assets	24.46	29.57
Contributions	110.00	190.00
Benefits paid	(183.47)	(116.83)
Re-measurement losses on plan assets	(6.27)	(10.60)
Fair value of plan assets at the end of the year	613.69	668.97

The principal actuarial assumptions used in determining gratuity obligation for the Company's plans are shown below:

Particulars	Year ended March 31, 2022	Year ended March 31, 2021
Discount rate	4.25%	3.87%
Expected rate of return on assets	4.25%	3.87%
Salary escalation	Band 1 to 5: 5%/6%/6% %/6%/6%	Band 1 to 5: 5%/6%/6% 6%/6%/6%
Employee turnover	Band 1 to 5: 99%/39%/39%/27%/32%	Band 1 to 5: 99%/39%/39%/27%/32%

The overall expected rate of return on assets is determined based on market prices prevailing on that date, applicable to the period over which the obligation is to be settled. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market. Based on the experience of the previous years, the Company expects to contribute ₹ 165.00 lakhs to the gratuity fund in the next year. However, the actual contribution by the Company will be based in the actuarial valuation report received from the insurance Group.

The major categories of plan assets of the fair value of the total plan assets are as follows:

Gratuity plan

Particulars	As at March 31, 2022	As at March 31, 2021
Investments details:		
Funds with Reliance Nippon Life Insurance Company Limited*	502.08	668.97
Deposits with Life Insurance Corporation of India	111.61	-
Total	613.69	668.97

* These funds have been invested into corporate bonds and money market funds, consequently the Company is not exposed to any equity market risks.

As at 31 March	6,309.01	5,346.84

Set out below are the carrying amounts of lease liabilities and the movements during the period:

Particulars	2022	2021
As at April 1	5,971.05	6,119.26
Additions	2,166.49	1,016.73
Accretion of Interest	523.75	465.32
Payments	(1,727.92)	(1,630.26)
As at 31 March	6,933.37	5,971.05
Current	1,316.23	1,183.56
Non-current	5,617.14	4,787.49

For the maturity analysis of lease liabilities, refer note 41.

The effective interest rate for lease liabilities is 7.35%, with maturity between 2022-2030.

The following are the amounts recognised in profit or loss:

Particulars	Year ended March 31, 2022	Year ended March 31, 2021
Depreciation expense of right-of-use assets	1,467.46	1,389.44
Interest expense on lease liabilities	523.75	465.32
Loss / (Gain) on closure of leased locations	(184.34)	(138.05)
Total amount recognised in profit or loss	1,806.87	1,716.71

The Company had total cash outflows for leases of Rs 1,727.93 in March 31, 2022 (Rs 1,630.26 in March 31, 2021). The Company also had non-cash additions to right-of-use assets and lease liabilities of Rs 2,166.49 in March 31, 2022 (Rs 1,016.73 lakhs in March 31, 2021).

The Company has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised (see Note 34).

As at March 31, 2022, the undiscounted potential future rental payments relating to periods following the exercise date of extension options that are not expected to be exercised and not included in the lease term is Rs. Nil (As at March 31, 2021, Rs. Nil).

The Ministry of Corporate Affairs notified amendment to Ind AS 116, "Leases", that provides an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. The Company has met

the conditions and elected to account for rent concessions related to COVID-19 the same way as if they were not lease modifications. Accordingly, the Company has recognized Rs. 95.76 lakhs in March 31, 2022 (Rs. 240.14 lakhs in March 31, 2021) as reversal of lease liability with a corresponding adjustment to the right-of-use asset and the impact on profit or loss is been recognized over the period of time.

(c) Other contingent liabilities

Summary:

- i) Matters wherein management has concluded the company's liability to be probable have accordingly been provided for in the books. Also, Refer Note 21.
- ii) Matters wherein management has concluded the company's liability to be possible have accordingly been disclosed under this note.
- iii) Matters wherein management is confident of succeeding in these litigations and have concluded the company's liability to be remote. This is based on the relevant facts of judicial precedents and as advised by legal counsel which involves various legal proceedings and claims, in different stages of process.

Disputed Service tax liabilities	Refer note (v) below	Refer note (v) below

Note:

- (i) During the year 2016-17, the Company has obtained stay against the retrospective implementation of Payment of Bonus (Amendment) Act, 2015 with the Madras High Court for the year 2014-15, contending that such retrospective application is unconstitutional, ultra-vires and void. The impact of such change for the financial year 2014-15 is ₹ 55.00 lakhs. Based on the legal advice, management believes that it has a fair chance of defending its position. Accordingly, no provision has been maintained with respect to the financial year 2014-15. The Company has implemented Payment of Bonus (Amendment) Act, 2015 w.e.f April 1, 2015.
- (ii) (a) The Company received assessment orders from the Assessing Officer of Income tax for assessment years 2008-09 and 2009-10 with additions in relation to the disallowance of reimbursement of webhosting charges and marketing expenses incurred by wholly owned subsidiaries of the Company on Company's behalf aggregating to ₹ 1,032.96 lakhs, due to non-deduction of withholding taxes on the same. The Company received favourable orders from Income Tax Appellate Tribunal (ITAT) for Assessment year 2008-09 and Assessment year 2009-10, against which Deputy Commissioner of Income Tax (DCIT) has filed appeal with High Court. Based on the legal advice received from the consultants, the management believes that the ultimate outcome of this proceedings would be favourable.
- (b) The Company received assessment orders from the Assessing Officer of Income tax for assessment years 2014-15 and 2015-16 with additions in relation to the disallowance of online marketing expenses paid to vendors outside India aggregating to ₹ 520.06 lakhs, due to non-deduction of withholding taxes on the same. The Company has filed appeal with Income Tax Appellate Tribunal (ITAT) on dismissal of its appeal with CIT (A). Subsequent to year end, the company has received favourable order from ITAT in April 2022.

Notes to the Standalone financial statements

for the year ended March 31, 2022

(All amounts are in INR lakhs, unless otherwise stated)

37 Commitment and contingencies (continued)

- (iii) Liabilities arising out of legal cases filed against the company in various courts/ consumer redressal forums, consumer courts, disputed by the Company aggregates to ₹ 318.95 lakhs (March 31, 2021: ₹ 122.33 lakhs).
- (iv) As more fully explained in Note 21, the total Interest obligation and damages on Provident Fund demand raised by Employee Provident Fund Organisation are estimated to be ₹ 139.07 lakhs and ₹ 162.91 lakhs respectively. The company, on a prudent basis, has made total provision aggregating to ₹ 256.39 lakhs towards PF dues for past periods relating to identifiable employees (including interest of ₹ 75.90 lakhs) and base liability due for employees whose details are not identifiable as at March 31, 2021. However, based on legal advice obtained and management assessment in this regard, no provision is deemed necessary towards interest on PF demanded for employees whose details are not identifiable as well as penalty. Accordingly, interest obligation and damages of ₹ 63.16 lakhs and ₹ 162.91 Lakhs respectively are disclosed as a contingent liability.
- (v) The Company received a demand order of ₹ 350.14 lakhs along with interest and penalty from Commissioner of Service Tax for non-payment of service tax on certain services made during the period FY 2008-09 to 2012-13. While the liability has been confirmed by the Commissioner of Goods and Service Tax, the Company disputes the same and has filed appeal with Customs Excise and Service Tax Appellate Tribunal (CESTAT) and has deposited ₹ 26.26 lakhs towards statutory pre-deposit for filing appeal. As a matter of prudence, the Company has provided ₹ 13.69 lakhs for service tax demand and ₹ 25.82 lakhs for interest during FY 2019-20 and an additional amount of 3.12 lakhs and 2.05 lakhs during FY 2020-21 & FY 2021-22 respectively. Based on evaluation of the technical position as well as legal advice obtained from experts, the management believes that the ultimate outcome of this proceedings would be favourable. Accordingly, the Company has disclosed the balance demand amount of ₹ 336.46 lakhs and interest and penalty aggregating to ₹ 1,001.90 lakhs as contingent liability (also refer note 21).

39 SEGMENT REPORTING

For management purposes, the Company's operations are organised into two major segments - Matchmaking services and Marriage services and related sale of products.

Matchmaking services - The Company offers online matchmaking services on internet and mobile platforms. Matchmaking services are delivered to users in India and the Indian diaspora through websites, mobile sites and mobile apps complemented by a wide on-the-ground network in India.

Marriage services - The Company offers marriage services consisting of WeddingBazaar services, MatrimonyMandap services and Photography services.

The Management Committee headed by Managing Director consisting of Chief Financial Officer and Heads of Departments have identified the above two reportable business segments. The committee monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

39 Segment reporting (continued)

Note:

- 1) Considering the Chief Operating Decision Maker (CODM) does not review segment assets and liabilities as the Marriage services segment is significantly smaller compared to the Matchmaking segment and supplemented by the fact that the assets are interchangeably used between segments, the Company has decided to disclose only segment results.
- 2) Segment revenue, Segment results, and Other Segment disclosures include the respective amounts identifiable to each of the segments as also amounts allocated on a reasonable basis. Those which are not allocable to a segment on reasonable basis have been disclosed as "Unallocable".
- 3) The company delivers matchmaking services to its users in India and the Indian diaspora through its websites, mobile sites and mobile apps complemented by its on-the-ground network in India. Therefore revenue from none of the customers exceeds 10% of Company's total revenue.

40 FAIR VALUES

Set out below, is a comparison by class of the carrying amounts and fair value of the company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values. The management assessed that the cash and cash equivalents, trade receivables, trade payables, fixed deposits, security deposits, other financial assets, loan to Subsidiaries/ Associate, lease liabilities and other payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

40 Fair Values (continued)

There have been no transfers between Level 1 and Level 2 during the period.

40.1 Description of valuation techniques used and key inputs to valuation on investment in tax free bonds:

The valuation for tax free bonds are based on valuations performed by an accredited independent valuer. The valuer is a specialist in valuing these types of Bonds. The valuation model used is in accordance with a method recommended by the International Valuation Standards. The Company has disclosed the fair value of these bonds at the market price since these are actively traded on the exchange. Due to market dependent bid-ask spreads, the availability of the price displayed cannot be guaranteed. The valuation is based on mark-to-market valuation as calculated by ICRA Limited. The Company has no restrictions on the disposal of its tax free bonds.

41 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities, comprise bank overdraft and trade and other payables. The main purpose of these financial liabilities is to raise finance for the Company's operations. The Company has various financial assets such as trade receivables, cash, security deposits, investments and fixed term deposits, which arise directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by its Risk Committee that advises on financial risks and the appropriate financial risk governance framework for the Company. The Risk Committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans, trade payables, FVTPL investments and receivables.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates.

The Company had maintained an overdraft facility with HDFC bank which was repayable on demand. The said facility was secured by way of lien on fixed deposit up to the extent of ₹ 1,000 lakhs marked in favour of the bank. During the current year, the Company has closed the said overdraft facility. As a result, changes in interest rates are not likely to substantially affect its business or results of operations.

Interest rate sensitivity

The Company had maintained an overdraft facility with HDFC bank which was repayable on demand. The said facility was secured by way of lien on fixed deposit up to the extent of ₹ 1,000 lakhs marked in favour of the bank. During the current year, the Company has closed the said overdraft facility. Consequent to this, the Company does not have any risk of changes in market interest rates.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an expenses will fluctuate because of change in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the

41 Financial risk management objectives and policies (continued)

Company's operating activities (when revenue or expenses is denominated in a foreign currency) and the Company's net investment in foreign subsidiary.

The majority of the Company's revenue and expenses are in Indian Rupees, however significant percentage of revenue are denominated in US dollars. Based on Management's decision, the Company has not entered into foreign exchange forward contracts to cover its foreign exchange exposure from January 2020 onwards. The Company monitors the exposure due to foreign currency fluctuations and decides to hedge based on its internal policy.

The Impact of unhedged foreign currency exposure in the statement of profit and loss:

The following table demonstrate the sensitivity to a reasonably possible change in USD, AED and BDT exchange rates, with all other variables held constant. The Company's exposure to foreign currency changes for all other currencies is not material.

	Change in USD, AED and BDT rate	Effect on profit before tax	Effect on pre-tax equity
March 31, 2022	5%	31.42	31.42
	-5%	(31.42)	(31.42)
March 31, 2021	5%	19.98	19.98
	-5%	(19.98)	(19.98)

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. In the matchmaking segment, the Company collects the money upfront, hence there is no credit risk. With respect to marriage services segment the Company collects only part of the consideration as an advance before the performance of services, thus exposed to credit risks. Credit quality of a customer cannot be assessed as the Company is largely in to Business to Customer (B2C) model, however the Company through its established policy, procedures and control relating to credit risk management manages the credit risk. An impairment analysis is performed at each reporting date and the Company has a provisioning policy for making provision on receivables. The Company does not hold collateral as security.

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty so as to minimise concentration of risks and mitigate consequent financial loss. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Company's Risk Committee. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 35,721.03 lakhs, 30,405.59 lakhs as at March 31, 2022 and March 31, 2021 respectively, being the total of the carrying amount of balances with banks, fixed term deposits with banks, investment in mutual funds, investment in tax free bonds and other financial assets excluding equity investments.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Company's prime source of liquidity is cash and cash equivalent and the cash generated from operations. The Company invests its surplus funds in bank, fixed deposits and mutual funds, which carry minimal mark to market risks.

These matters were addressed in the context of our audit of the Consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated Ind AS financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Consolidated Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
Accuracy and completeness of Matchmaking Revenue <i>(as described in Note 2.4(h) and Note 20 of the Consolidated Ind AS financial statements)</i>	
<p>Matchmaking services revenues of the Company for the year ended March 31, 2022 constitutes a significant percentage of the total revenue and majority of such revenues are generated through online services. The Company has processes and controls, many of them automated, to ensure that transactions are processed and recorded appropriately.</p> <p>Improper configuration of the IT systems or system generated reports could lead to material misstatement of revenues, accordingly we identified the above as a significant risk in our audit.</p> <p>Therefore, we considered this risk to be a key audit matter in our audit of the financial statements for year ended March 31, 2022.</p>	<p>As an audit response to address this matter, we performed a walkthrough to gain an understanding of the revenue process (including the compliance with revenue recognition requirements of Ind AS 115) to develop an appropriate audit strategy and performed following procedures:</p> <ul style="list-style-type: none"> Involved IT specialists to test relevant IT general controls, application controls and appropriateness of system generated reports; Tested relevant manual and IT dependent controls relating to revenue process including the controls relating to data migration between the operational system and financial accounting system; Tested the completeness and accuracy of the data extracted from the aforesaid systems and performed recalculations to verify the appropriateness of revenue recognized (including cut off procedures) on a test basis; Tests of details for the sample revenue transactions; Assessed the reconciliation of unearned revenue and collections performed by the management and performed sample tests on the same; Read the accounting policies for revenue recognition in the financial statements; Performed analytical procedures over disaggregated data of revenue transactions during the audit period to identify any unusual trends / patterns warranting additional audit procedures; and Read the disclosures made by the management in the financial statements;

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the Consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its associate and for preventing and detecting frauds and other

irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the Group and of its associate to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its associate are also responsible for overseeing the financial reporting process of the Group and of its associate.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate of which we are the independent auditors, to express an opinion on the Consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Ind AS financial statements of which we are the independent

auditors. For the other entities included in the Consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements for the financial year ended March 31, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements and other financial information, in respect of five subsidiaries, whose financial statements include total assets of Rs 1,254.14 lakhs as at March 31, 2022, and total revenues of Rs. 847.73 lakhs and net cash inflows of Rs. 265.95 lakhs for the year ended on that date. These financial statements and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The Consolidated Ind AS financial statements also include the Group's share of net loss of Rs. 78.95 lakhs for the year ended March 31, 2022, as considered in the Consolidated Ind AS financial statements, in respect of one associate, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the Consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associate, is based solely on the report(s) of such other auditors.

Our opinion above on the Consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS OF MATRIMONY.COM LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Ind AS financial statements of Matrimony.com Limited as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of Matrimony.com Limited (hereinafter referred to as the "Holding Company"), its subsidiary companies and associate company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary company which is company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting with reference to these Consolidated Ind AS Financial Statements

A company's internal financial control over financial reporting with reference to these Consolidated Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these Consolidated Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these Consolidated Ind AS Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Consolidated Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies and associate company incorporated in India, has maintained in all material respects, adequate internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements and such internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements of the Holding Company, insofar as it relates to two subsidiary companies and one associate company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries/associate incorporated in India.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

1. CORPORATE INFORMATION

The consolidated financial statements comprise financial statements of Matrimony.com Limited (the 'Company') and its subsidiaries (collectively, 'the Group') and its associate for the year ended March 31, 2022. Matrimony.com Limited is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Group offers online matchmaking services on internet and mobile platforms. The Group delivers matchmaking services to users in India and the Indian diaspora through websites, mobile sites and mobile apps complemented by a wide on-the-ground network in India. Such services are primarily delivered online through popular domain specific web portals like BharatMatrimony.com, CommunityMatrimony.com, AssistedMatrimony.com, EliteMatrimony.com and Jodii.com. Revenue comprises of membership subscription, assisted matrimonial service fees and sales from online advertising packages. The Group has expanded into marriage services such as Mandap & Wedding Bazaar, a listing website for matrimony-related directory services including listings for wedding related services such as wedding planners, venues, cards and caterers.

On September 21, 2017, the Company listed its equity shares with National Stock Exchange of India Limited and BSE Limited. The registered office of the Company is located at TVH Belicia Towers, Tower II, 5th Floor, No. 94, MRC Nagar, Raja Annamalaipuram, Chennai - 600028.

The consolidated financial statements were authorised for issue in accordance with a resolution of the directors on May 12, 2022.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the CFS.

The consolidated financial statements have been prepared on an accrual basis under the historical cost convention except for certain financial assets and financial liabilities are measured at fair value (refer accounting policy regarding financial instruments).

The consolidated financial statements are presented in INR (its functional currency) and all values are rounded to the nearest lakhs, except where otherwise indicated.

The consolidated financial statements provide comparative information in respect of the previous period. In addition, the Group presents an additional balance sheet at the beginning of the preceding period when there is a retrospective application of an accounting policy, a retrospective restatement, or a reclassification of items in financial statements.

2.2. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31st March 2022. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31st March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

2.3. COVID-19 Impact

The Group has considered the possible effects that may result from COVID-19 in the preparation of these financial statements, including the impact of this pandemic on its business operations, assessed the Group's liquidity position for the next one year and evaluated the recoverability and carrying value of its assets including Property, plant and equipment, Right of Use assets and Investments as at March 31, 2022. Based on its review, consideration of internal and external information up to the date of approval of these financial statements and current indicators of future economic conditions relevant to the Group's operations, management has concluded that there are no adjustments required to the Group's financial statements. However, the estimated impact of COVID 19 might vary from the date of approval of these financial statements and the Group will continue to monitor any material changes to future economic conditions.

2.4. Summary of significant accounting policies

a) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

All other liabilities are classified as non-current

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of services, the Group has determined its operating cycle as twelve months for the above purpose of classification as current and non-current.

b) Property, plant and equipment

Property, plant and equipment, capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use and initial estimate of decommissioning, restoring and similar liabilities, where applicable. Any trade discounts and rebates are deducted in arriving at the purchase price. The Group identifies and determines cost of asset significant to the total cost of the asset, having useful life that is materially different from that of the remaining life. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories.

Gains or losses arising from de-recognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

c) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets/ intangibles under development, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit and loss in the period in which the expenditure is incurred.

Intangible assets are amortized on a straight-line basis over the estimated useful economic life. All intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Acquired domain names amortized on straight line basis over the period of rights, ranging between 1 to 10 years based on management estimates. Capitalised 'Portal development' expenses are amortized on straight line basis over the period of 3 years.

Acquired brand Shaadi Saga, Technology Platform & Content and vendor base are amortized on straight line basis over useful economic life ranging from 4 to 5 years.

Computer software are depreciated using the straight-line method over a period based on management's estimate of useful lives of such software (3 to 6 years), or over the license period of the software, whichever is shorter.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

The amortisation period and the amortisation method are reviewed at least at each reporting period end. If the expected useful life of the asset is significantly different from previous estimated, the amortisation period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method is changed to reflect the changed pattern. Such changes are treated as changes in accounting estimates.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

d) Depreciation and amortisation

Depreciation on property, plant and equipment is provided using the straight-line method. The Company, based on technical assessment and review of history of asset usage, depreciates certain items of Computer and network equipment, Furniture and fixtures, Office equipment and Plant & machinery over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The estimated useful lives considered for depreciation of property, plant and equipment are as follows:

Particulars	Years
Furniture and fixtures	2-5
Computer and network equipment	4-6
Vehicles	5-8
Office equipment	2-7
Plant & machinery	5

The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset.

Leasehold improvements are amortised over the primary period of lease.

e) Leases

Group as lessee

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group applies a single recognition and measurement approach for all leases. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Particulars	Years
Leasehold property	11 months – 9 years

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (g) Impairment of non-financial assets.

Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

f) Borrowing cost

Borrowing cost includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

g) Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount, as the higher of an asset's or cash-generating units (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

In assessing value in use, the estimated future cash flows are discounted to their present value at the pre-tax discount rate reflecting current market assessment of time value of money and risks specific to asset. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

h) Revenue from contracts with customers and other income

Revenue from contracts with customers is recognised when control of the services is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services.

The following specific recognition criteria must also be met before revenue is recognized:

Income from services

Revenues from subscriptions towards matrimony service contracts are recognized pro-rata over the period of the contract as and when services are rendered. The Group collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Group. Hence, it is excluded from revenue.

Revenue from franchisee services (business license fees) recognised as and when the services are rendered as per the terms of the contract.

Revenue from photography service contracts are recognized on the basis of proportionate completion method where the revenue is recognized proportionately with the degree of completion of services, based on management estimates.

Revenue from other marriage related services are recognized as and when the services are rendered.

Interest income

Interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

Dividends

Revenue is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange of services transferred to the customer. If the Group performs by transferring services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (q) Financial instruments – initial recognition and subsequent measurement.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

Contract liabilities

A contract liability is the obligation to transfer services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

i) Foreign currency transactions

The Group's financial statements are presented in INR, which is also the parent company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies entered into by the Group are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

j) Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognizes contribution payable to the provident fund scheme as expenditure, when an employee renders the related service.

The Group operates a defined benefit gratuity plan, which requires contributions to be made to a separately administered fund.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

Short term compensated absences are provided for based on estimates. Long term compensated absences are provided based on the actuarial valuation at the year end. The actuarial valuation is done as per projected unit credit method. The Group presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

k) Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

l) Taxes

Income tax expense comprises current and deferred taxes. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items recognized directly in equity, in which case it is recognized in equity.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liability is not recognised in respect of taxable temporary differences associated with investments in subsidiaries and associates when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and written off to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

m) Share based payments

Employees of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

n) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

o) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

p) Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

q) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

Subsequent measurement

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from the Group's consolidated balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, deposits, trade receivables and bank balance
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

- Loan commitments and financial guarantee contracts: ECL is presented as a provision in the balance sheet, i.e. as a liability.
- Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

r) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated cash flows, cash and cash equivalents consist of cash and short-term deposits.

s) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

t) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Corporate Management Committee.

Segments are organised based on business which have similar economic characteristics as well as exhibit similarities in nature of products and services offered, the nature of production processes, the type and class of customer and distribution methods. Segment revenue arising from third party customers is reported on the same basis as revenue in the financial statements. Inter-segment revenue is reported on the basis of transactions which are primarily market led.

Segment results represent profits before finance charges, unallocated corporate expenses and taxes. "Unallocated Corporate Expenses" include revenue and expenses that relate to initiatives /costs attributable to the enterprise as a whole and are not attributable to segments

u) Cash dividend and non-cash distribution to equity holders of the Company

The Group recognises a liability to make cash or non-cash distributions to equity holders of the Company when the distribution is authorised, and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

v) Investment in Associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its associate are accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

If an entity's share of losses of an associate equals or exceeds its interest in the associate (which includes any long-term interest that, in substance, form part of the Group's net investment in the associate), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit and loss outside operating profit.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as 'Share of profit of an associate' in the statement of profit and loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

w) Non-current assets held for sale

The Group classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale/ distribution should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale and the sale expected within one year from the date of classification.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal groups), its sale is highly probable; and it will genuinely be sold, not abandoned. The Group treats sale of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Property, plant and equipment and intangible are not depreciated, or amortised assets once classified as held for sale. Assets and liabilities classified as held for sale are presented separately from other items in the balance sheet.

2.5 Changes in accounting policies and disclosures

(i) Amendments to Ind AS 116: Covid-19-Related Rent Concessions

The amendments provide relief to lessees from applying Ind AS 116 guidance on lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification. A lessee that makes this election accounts for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under Ind AS 116, if the change were not a lease modification.

MCA issued an amendment to Ind AS 116 Covid-19-Related Rent Concessions beyond 30 June 2021 to update the condition for lessees to apply the relief to a reduction in lease payments originally due on or before 30 June 2022 from 30 June 2021.

The amendment applies to annual reporting periods beginning on or after 1 April 2021. In case a lessee has not yet approved the financial statements for issue before the issuance of this amendment, then the same may be applied for annual reporting periods beginning on or after 1 April 2020.

Refer Note 36(b) for the impact of these amendments on the standalone financial statements of the Company.

(ii) Amendments to Ind AS 103: Business combination

The amendment states that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Framework for the Preparation and Presentation of Financial Statements in accordance with Indian Accounting Standards issued by the Institute of Chartered Accountants of India at the acquisition date. Therefore, the acquirer does not recognise those costs as part of applying the acquisition method. Instead, the acquirer recognises those costs in its post-combination financial statements in accordance with other Ind AS.

These amendments are applicable prospectively for annual periods beginning on or after the 1st April 2021. The amendments to the definition of material are not expected to have a significant impact on the company's financial statements.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

(iii) Recent accounting pronouncements

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 16 – Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

(a) The amount of borrowing costs capitalised during the year ended 31 March 2022 was ₹ Nil (March 31, 2021: ₹ Nil; April 1, 2020: ₹ Nil).

(b) As at March 31, 2020, the management, basis its comprehensive evaluation of the photography business and the intention to move to lead-based model, had decided that the assets relating to photography business would no longer be used in its operations and these assets were readily available for immediate sale in its present condition. Accordingly, management had classified these assets as assets held for sale and as a matter of prudence, the Company had provided for impairment loss on the carrying value of such assets amounting to ₹ 65.44 lakh to write down their value to Nil as at March 31, 2020. Subsequently, the Company was able to monetise these assets during the year ended March 31, 2021 and the impairment loss provided during the FY 2019-20 was reversed in the previous year.

(c) The company had in 2017, purchased land for construction of office premises, out of the proceeds from fresh issue of equity shares during its initial Public Offering ("IPO"). The entire IPO proceeds were fully utilized as confirmed by the monitoring agency's report. However, the management decided not to pursue the construction of office premises post the COVID-19 pandemic. Accordingly, the Board of Directors on March 31, 2022, had approved this change of objects, subject to the approval of shareholders. Subsequent to the year-end, the shareholders of the Company also approved the same on May 8, 2022 which enables the company to sell the land as per processes laid down by the Board. Accordingly, the land has been classified as asset held for sale as at March 31, 2022. Management expects to sell the land to buyers in the open market and the completion of sale of land is expected within one year.

19 Provisions (continued)

Note:

- (a) **Employees' Provident Fund (EPF):** During the year ended March 31, 2015, the Company received a demand order from Regional Commissioner of Provident Fund, on account of non-inclusion of various allowances for the calculation of Provident Fund (PF) contribution for the period April 2012 to May 2014, which was disputed by the Company. Pending conclusion of the related proceedings, the Honourable Supreme Court issued an order dated February 28, 2019, in a matter similar to the case involving the company as detailed above. Subsequently, during the year 2019-20, the Company received demand order from PF Recovery Officer to pay ₹ 162.91 lakhs to the respective employee PF accounts or by way of Demand Draft (DD) in favour of Regional Provident Fund Commissioner. The Company during the year 2019-20, obtained an interim stay on this demand by depositing 25% of the demand and had further remitted an additional demand amount of ₹ 9.81 Lakhs on protest.

There are numerous interpretative issues relating to this Supreme Court judgement. The Company based on legal advice received and management's evaluation and best estimate, had made a provision for the demand including interest amounting to ₹ 173.91 lakhs in respect of identifiable employees during the year 2019-20. Although basis the legal opinion, Company is not bound to pay PF contribution in respect of non-identifiable employees, as a matter of prudence, the Company had also provided for the demand amounting to ₹ 69.96 lakhs in respect of non-identifiable employees during the year 2019-20. Overall, the Company had accounted a total provision including interest of ₹ 243.87 lakhs as on March 31, 2020. During the year 2020-21, the Company has remitted the remaining demand amount along with the interest and penalty amounting to ₹ 129.98 lakhs under protest. The Company has also provided for the incremental interest of ₹ 2.71 lakhs for identifiable employees during the year 2020-21. As at March 31, 2022, the Company has accounted total provision including interest of ₹ 256.39 lakhs.

The Company has created the above provision without prejudice to its legal rights under the Employees Provident Fund and Miscellaneous Provisions Act, 1952. The Company has disclosed the interest on such demand relating to non-identifiable employees and the damages as contingent liability (refer note 36(c)). Based on evaluation of the Supreme Court order, the management has determined that the position followed by it for periods subsequent to the demand (as above), i.e. from May 2014 is appropriate and will update its provision on receiving further clarity on the subject.

- (b) **Service tax:** The Company received a demand order of ₹ 350.14 lakhs along with interest and penalty from Commissioner of Service Tax for non-payment of service tax on certain services made during the period FY 2008-09 to 2012-13. While the liability has been confirmed by the Commissioner of Goods and Service Tax, the Company disputes the same and has filed appeal with Customs Excise and Service Tax Appellate Tribunal (CESTAT) and has deposited ₹ 26.26 lakhs towards statutory pre-deposit for filing appeal. As a matter of prudence, the Company has provided ₹ 13.69 lakhs for service tax demand and ₹ 25.82 lakhs for interest during FY 2019-20 and an additional amount of 3.12 lakhs and 2.05 lakhs during FY 2020-21 & FY 2021-22 respectively. Based on evaluation of the technical position as well as legal advice obtained from experts, the management believes that the ultimate outcome of this proceedings would be favourable. Accordingly, the Company has disclosed the balance demand amount of ₹ 336.46 lakhs and interest and penalty aggregating to ₹ 1,001.90 lakhs as contingent liability (also refer note 36(c)).

(All amounts are in INR lakhs, unless otherwise stated)

31 Details of dues to micro and small enterprises as defined under the Micro, Small & Medium Enterprises Development Act, 2006 (continued)

* During the earlier years, the Company received notice from Micro and Small Enterprises Facilitation Council based on application filed by one of the suppliers claiming ₹ 10.11 Lakhs as additional payment for service rendered as per the work contract. The Company was not informed of the status of MSME by the supplier despite request from the Company and hence, could not determine the status as to whether the supplier is a micro or small or medium enterprise under the Act. As a matter of prudence, the Company, during the earlier years, has provided interest under MSMED Act of ₹ 5.39 lakhs. During the current year, the Company has entered into a settlement with this supplier resulting in withdrawal of all related claims upon payment of agreed amounts by the Company. Pursuant to the settlement entered into, the Company has reversed the excess interest accrued amounting to ₹ 1.60 lakhs.

32 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with Ind AS requires the Group's management to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities recognised in the financial statements that are not readily apparent from other sources. The judgements, estimates and associated assumptions are based on historical experience and other factors including estimation of effects of uncertain future events that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates (accounted on a prospective basis) are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The following are the critical judgements and estimations that have been made by the management in the process of applying the Group's accounting policies that have the most significant effect on the amounts recognised in the financial statements and/or key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(A) Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

(i) Taxes

Determining of income tax liabilities using tax rates and tax laws that have been enacted or substantially enacted requires the management to estimate the level of tax that will be payable based upon the Group's / expert's interpretation of applicable tax laws, relevant judicial pronouncements and an estimation of the likely outcome of any open tax assessments including litigations or closures thereof.

Deferred income tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, unabsorbed depreciation and unused tax credits could be utilized.

In respect of other taxes which are in disputes, the management estimates the level of tax that will be payable based upon the Group's / expert's interpretation of applicable tax laws, relevant judicial pronouncements and an estimation of the likely outcome of any open tax assessments including litigations or closures thereof.

(ii) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 40 for further disclosures.

32 Significant accounting judgements, estimates and assumptions (continued)

(iii) Lease

The Company has entered into leases for office premises and retail outlets. The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

(B) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(i) Impairment of non - financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill and other intangibles with indefinite useful lives recognised by the Group.

(ii) Defined benefit plans

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Further details about gratuity obligations are disclosed in Note 35.

(iii) Share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimation requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The Black Scholes valuation model has been used by the Management for share-based payment transactions. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 34.

32 Significant accounting judgements, estimates and assumptions (continued)

(iv) Depreciation on property, plant and equipment

The management has estimated the useful life of its property, plant and equipment based on technical assessment. The estimate has been supported by independent assessment by internal technical experts and review of history of asset usage. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

(v) Leases - Estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

Net benefit expense	166.08	106.60

Plan liability / (asset) are as follows:

Particulars	As at March 31, 2022	As at March 31, 2021
Defined benefit obligation	779.00	778.20
Fair value of plan assets	(613.69)	(668.97)
Plan liability / (asset) - (net)	165.31	109.23

Changes in the present value of the defined benefit obligation are as follows:

Particulars	Year ended March 31, 2022	Year ended March 31, 2021
Opening defined benefit obligation at the beginning of the year	778.20	769.47
Current service cost	95.14	100.96

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

(All amounts are in INR lakhs, unless otherwise stated)

35 Employee benefits (continued)

The principal actuarial assumptions used in determining gratuity obligation for the Company's plans are shown below:

Particulars	Year ended March 31, 2022	Year ended March 31, 2021
Discount rate	4.25%	3.87%
Expected rate of return on assets	4.25%	3.87%
Salary escalation	Band 1 to 5: 5%/6%/6 %/6%/6%	Band 1 to 5: 5%/6%/6 6%/6%/6%
Employee turnover	Band 1 to 5: 99%/39%/39%/27%/32%	Band 1 to 5: 99%/39%/39%/27%/32%

The overall expected rate of return on assets is determined based on market prices prevailing on that date, applicable to the period over which the obligation is to be settled. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market. Based on the experience of the previous years, the Company expects to contribute ₹ 165.00 lakhs to the gratuity fund in the next year. However, the actual contribution by the Company will be based in the actuarial valuation report received from the insurance Group.

The major categories of plan assets of the fair value of the total plan assets are as follows:

Gratuity plan

Particulars	As at March 31, 2022	As at March 31, 2021
Investments details:		
Funds with Reliance Nippon Life Insurance Company Limited*	502.08	668.97
Deposits with Life Insurance Corporation of India	111.61	-
Total	613.69	668.97

* These funds have been invested into corporate bonds and money market funds, consequently the Group is not exposed to any equity market risks.

A quantitative sensitivity analysis for significant assumption is shown below:

Gratuity plan:

(All amounts are in INR lakhs, unless otherwise stated)

35 Employee benefits (continued)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

Maturity profile of defined benefit obligation:

Particulars	Year ended March 31, 2022	Year ended March 31, 2021
Within the next 12 months (next annual reporting period)	354.40	347.91
Between 1 and 5 years	383.76	381.96
Between 5 and 10 years	100.74	101.41
Total expected payments	838.90	831.28

The average duration of the defined benefit plan obligation at the end of the reporting period is 2.7 years (March 31, 2021: 2.7 years)

36 COMMITMENT AND CONTINGENCIES

(a) Capital commitments (net of advances and deposit)

Particulars	As at March 31, 2022	As at March 31, 2021
Capital commitments (net of advances and deposit)	154.18	111.63

(b) Leases

Lease commitments – Company as lessee

The Group has entered into leases for office premises and retail outlets. The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The lease terms varies from 11 months to 9 years.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the period:

Particulars	2022	2021
As at April 1	5,346.84	5,689.99
Additions	2,429.63	1,046.29
Depreciation expense	(1,467.46)	(1,389.44)
As at 31 March	6,309.01	5,346.84

Set out below are the carrying amounts of lease liabilities and the movements during the period:

Particulars	2022	2021

(All amounts are in INR lakhs, unless otherwise stated)

36 Commitment and contingencies (continued)

For the maturity analysis of lease liabilities, refer note 41.

The effective interest rate for lease liabilities is 7.35%, with maturity between 2022-2030.

The following are the amounts recognised in profit or loss:

Particulars	Year ended March 31, 2022	Year ended March 31, 2021
Depreciation expense of right-of-use assets	1,467.46	1,389.44
Interest expense on lease liabilities	523.75	465.32
Loss/gain on closure of leased locations	(184.34)	(138.05)
Total amount recognised in profit or loss	1,806.87	1,716.71

The Group had total cash outflows for leases of ₹ 1,727.93 in March 31, 2022 (₹ 1,630.26 in March 31, 2021). The Group also had non-cash additions to right-of-use assets and lease liabilities of ₹ 2,166.49 in March 31, 2022 (₹ 1,016.73 lakhs in March 31, 2021).

The Group has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Group's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised (see Note 32).

As at March 31, 2022, the undiscounted potential future rental payments relating to periods following the exercise date of extension options that are not expected to be exercised and not included in the lease term is ₹ Nil (As at March 31, 2021, ₹ Nil).

The Ministry of Corporate Affairs notified amendment to Ind AS 116, "Leases", that provides an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. The Company has met the conditions and elected to account for rent concessions related to COVID-19 the same way as if they were not lease modifications. Accordingly, the Company has recognized ₹ 95.76 lakhs in March 31, 2022 (₹ 240.14 lakhs in March 31, 2021) as reversal of lease liability with a corresponding adjustment to the right-of-use asset and the impact on profit or loss is been recognized over the period of time.

(c) Other contingent liabilities

Summary:

- Matters wherein management has concluded the company's liability to be probable have accordingly been provided for in the books. Also, Refer Note 19.
- Matters wherein management has concluded the company's liability to be possible have accordingly been disclosed under this note.
- Matters wherein management is confident of succeeding in these litigations and have concluded the company's liability to be remote. This is based on the relevant facts of judicial precedents and as advised by legal counsel which involves various legal proceedings and claims, in different stages of process.

Note:

- (i) During the year 2016-17, the Company has obtained stay against the retrospective implementation of Payment of Bonus (Amendment) Act, 2015 with the Madras High Court for the year 2014-15, contending that such retrospective application is unconstitutional, ultra-vires and void. The impact of such change for the financial year 2014-15 is ₹ 55.00 lakhs. Based on the legal advice, management believes that it has a fair chance of defending its position. Accordingly, no provision has been maintained with respect to the financial year 2014-15. The Company has implemented Payment of Bonus (Amendment) Act, 2015 w.e.f April 1, 2015.
- (ii) (a) The Company received assessment orders from the Assessing Officer of Income tax for assessment years 2008-09 and 2009-10 with additions in relation to the disallowance of reimbursement of webhosting charges and marketing expenses incurred by wholly owned subsidiaries of the Company on Company's behalf aggregating to ₹ 1,032.96 lakhs, due to non-deduction of withholding taxes on the same. The Company received favourable orders from Income Tax Appellate Tribunal (ITAT) for Assessment year 2008-09 and Assessment year 2009-10, against which Revenue has filed appeals with High Court. Based on the legal advice received from the consultants, the management believes that the ultimate outcome of this proceeding would be favourable.
- (b) The Company received assessment orders from the Assessing Officer of Income tax for assessment years 2014-15 and 2015-16 with additions in relation to the disallowance of online marketing expenses paid to vendors outside India aggregating to ₹ 520.06 lakhs, due to non-deduction of withholding taxes on the same. The Company has filed appeal with Income Tax Appellate Tribunal (ITAT) on dismissal of its appeal with CIT (A). Subsequent to year end, the company has received favourable order from ITAT in April 2022.
- (c) One of the Company's subsidiaries received order dated 19.04.2021 from the CPC under Section 154 of the Income Tax Act, 1961 claiming ₹ 1.07 lakhs, due to the fact that it has not offered the income / receipts to the extent of TDS that has been claimed in the Return of income. The Subsidiary Company has filed an appeal against this order with CIT(A). Management believes that the ultimate outcome of this proceedings would be favourable.
- (d) One of the Company's subsidiaries is subject to legal proceedings and claims which are arising in the ordinary course of business. With respect to AY 2017-18, the Subsidiary Company has claims to the extent of ₹ 150.87 lakhs. The management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have material and adverse effect on the Subsidiary Company's results of operations or financial conditions. The management believes that the ultimate outcome of the proceedings would be favourable.
- (iii) Liabilities arising out of legal cases filed against the company in various courts/ consumer redressal forums, consumer courts, disputed by the Company aggregates to ₹ 318.95 lakhs (March 31, 2021: ₹ 122.33 lakhs).
- (iv) As more fully explained in Note 19, the total Interest obligation and damages on Provident Fund demand raised by Employee Provident Fund Organisation are estimated to be ₹ 139.07 lakhs and ₹ 162.91 lakhs respectively. The company, on a prudent basis, has made total provision aggregating to ₹ 256.39 lakhs towards PF dues for past periods relating to identifiable employees (including interest of ₹ 75.90 lakhs) and base liability due for employees whose details

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

(All amounts are in INR lakhs, unless otherwise stated)

36 Commitment and contingencies (continued)

are not identifiable as at March 31, 2021. However, based on legal advice obtained and management assessment in this regard, no provision is deemed necessary towards interest on PF demanded for employees whose details are not identifiable as well as penalty. Accordingly, interest obligation and damages of ₹ 63.16 lakhs and ₹ 162.91 Lakhs respectively are disclosed as a contingent liability.

- (v) The Company received a demand order of ₹ 350.14 lakhs along with interest and penalty from Commissioner of Service Tax for non-payment of service tax on certain services made during the period FY 2008-09 to 2012-13. While the liability has been confirmed by the Commissioner of Goods and Service Tax, the Company disputes the same and has filed appeal with Customs Excise and Service Tax Appellate Tribunal (CESTAT) and has deposited ₹ 26.26 lakhs towards statutory pre-deposit for filing appeal. As a matter of prudence, the Company has provided ₹ 13.69 lakhs for service tax demand and ₹ 25.82 lakhs for interest during FY 2019-20 and an additional amount of 3.12 lakhs and 2.05 lakhs during FY 2020-21 & FY 2021-22 respectively. Based on evaluation of the technical position as well as legal advice obtained from experts, the management believes that the ultimate outcome of this proceedings would be favourable. Accordingly, the Company has disclosed the balance demand amount of ₹ 336.46 lakhs and interest and penalty aggregating to ₹ 1,001.90 lakhs as contingent liability (also refer note 19).

40 Fair Values (continued)

There have been no transfers between Level 1 and Level 2 during the period.

40.1 Description of valuation techniques used and key inputs to valuation on investment in tax free bonds:

The valuation for tax free bonds are based on valuations performed by an accredited independent valuer. The valuer is a specialist in valuing these types of Bonds. The valuation model used is in accordance with a method recommended by the International Valuation Standards. The Company has disclosed the fair value of these bonds at the market price since these are actively traded on the exchange. Due to market dependent bid-ask spreads, the availability of the price displayed cannot be guaranteed. The valuation is based on mark-to-market valuation as calculated by ICRA Limited. The Company has no restrictions on the disposal of its tax free bonds.

41 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities, comprise bank overdraft and trade and other payables. The main purpose of these financial liabilities is to raise finance for the Group's operations. The Group has various financial assets such as trade receivables, cash, security deposits, investments and fixed term deposits, which arise directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management is supported by its Risk Committee that advises on financial risks and the appropriate financial risk governance framework for the Group. The Risk Committee provides assurance to the Group's senior management that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans, trade payables, FVTPL investments and receivables.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates.

The Group had maintained an overdraft facility with HDFC bank which was repayable on demand. The said facility was secured by way of lien on fixed deposit up to the extent of ₹ 1,000 lakhs marked in favour of the bank. During the current year, the Group has closed the said overdraft facility. As a result, changes in interest rates are not likely to substantially affect its business or results of operations.

Interest rate sensitivity

The Group had maintained an overdraft facility with HDFC bank which was repayable on demand. The said facility was secured by way of lien on fixed deposit up to the extent of ₹ 1,000 lakhs marked in favour of the bank. During the current year, the Group has closed the said overdraft facility. Consequent to this, the Group does not have any risk of changes in market interest rates.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an expenses will fluctuate because of change in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expenses is denominated in a foreign currency).

Notes to the Consolidated Financial Statements

for the year ended March 31, 2022

(All amounts are in INR lakhs, unless otherwise stated)

41 Financial risk management objectives and policies (continued)

The majority of the group's revenue and expenses are in Indian Rupees, however significant percentage of revenue are denominated in US dollars. Based on Management's decision, the Group has not entered into foreign exchange forward contracts to cover its foreign exchange exposure from January 2020 onwards. The Group monitors the exposure due to foreign currency fluctuations and decides to hedge based on its internal policy

The Impact of unhedged foreign currency exposure in the statement of profit and loss:

The following table demonstrate the sensitivity to a reasonably possible change in USD and AED exchange rates, with all other variables held constant. The Group's exposure to foreign currency changes for all other currencies is not material.

	Change in USD, AED and BDT rate	Effect on profit before tax	Effect on pre-tax equity
March 31, 2022	5%	(2.65)	(2.65)
	-5%	2.65	2.65
March 31, 2021	5%	(1.25)	(1.25)
	-5%	1.25	1.25

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. In the matchmaking segment, the Group collects the money upfront, hence there is no credit risk. With respect to marriage services segment the Group collects only part of the consideration as an advance before the performance of services, thus exposed to credit risks. Credit quality of a customer cannot be assessed as the Group is largely in to Business to Customer (B2C) model, however the Group through its established policy, procedures and control relating to credit risk management manages the credit risk. An impairment analysis is performed at each reporting date and the Group has a provisioning policy for making provision on receivables. The Group does not hold collateral as security.

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty so as to minimise concentration of risks and mitigate consequent financial loss. Counterparty credit limits are reviewed by the Group's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Group's Risk Committee. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 35,840.02 lakhs and 30,818.32 lakhs as at March 31, 2022 and March 31, 2021 respectively, being the total of the carrying amount of balances with banks, fixed term deposits with banks, investment in mutual funds, investment in tax free bonds and other financial assets excluding equity investments.

Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Group's prime source of liquidity is cash and cash equivalent and the cash generated from operations. The Group invests its surplus funds in bank, fixed deposits and mutual funds, which carry minimal mark to market risks.
