EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013

As required under Section 102(1) of the Companies Act, 2013, setting out the material facts concerning ordinary and special business in respect of Item No. 2 to 7 as set out above is annexed hereto.

ITEM NO. 2

Ratification of appointment of Joint Statutory Auditors as appointed by Comptroller and Auditor General of India and to fix their remuneration:

In terms of the provisions under Sections 139, 142 of the Companies Act, 2013 ("Act") read with the Companies (Audit and Auditors) Rules, 2014, (including any statutory modification(s) or re-enactment(s) thereof, for time being in force) and other applicable provisions, if any, and Guidelines issued by the Insurance Regulatory and Development Authority of India (IRDAI) for appointment of statutory auditors, the appointment of M/s. S K Patodia & Associates, Chartered Accountants (Firm Registration No FRN: 112723W) and M/s. S C Bapna & Associates, Chartered Accountants (Firm Registration No. FRN No: 115649W) as the Joint Statutory Auditors of the Company, as appointed by Comptroller and Auditor General of India.

Pursuant to the provisions of the Companies Act, 2013, read with relevant rules made thereunder, it is proposed to ratify by the members for the appointment of Joint Statutory Auditors as appointed by Comptroller and Auditor General of India and to fix their remuneration until the conclusion of the next Annual General Meeting of the Company.

Based on the recommendation of the Audit Committee of the Board, it is proposed to pay the remuneration of Rs. 44 lakhs (Rs. 22 lakhs each) for annual audit and Rs. 13 lakhs (Rs. 6.5 lakhs each) for half yearly audit plus applicable taxes and reimbursement of out of pocket expenses incurred by the Auditors, if any, in connection with the audit of the accounts of the Company for the financial year 2020-21.

The Board recommends passing of the Ordinary Resolution, as set out at Item No. 2 of this Notice, for approval of the members.

None of the Directors or Key Managerial Personnel of the Company or their relatives are in any way concerned or interested, financially or otherwise, in the said Resolution.

ITEM NO. 3

Appointment of Mr. Mahesh Kumar Sharma (DIN:08740737) as Managing Director & Chief Executive Officer of the Company

Pursuant to provisions of the Articles of Association of the Company, State Bank of India by way of its email dated May 08, 2020, nominated Mr. Mahesh Kumar Sharma as the 'Managing Director and Chief Executive Officer of SBI Life Insurance Company Limited', consequently, the Nomination and Remuneration Committee of the Board of Directors of the Company and the Board of Directors of the Company, by way of their resolutions dated May 08, 2020, ratified the appointment of Mr. Mahesh Kumar Sharma as the 'Managing Director and Chief Executive Officer of SBI Life Insurance Company Limited', for a further term of three (3) years with effect from May 09, 2020, as per State Bank of India's terms and conditions applicable to Top Executive Grade Special Scale (TEGSS)- I.

The brief profile of Mr. Mahesh Kumar Sharma, in terms of Regulation 36(3) of the SEBI Listing Regulations and the Secretarial Standards on General Meetings (SS-2) issued by Institute of Company Secretaries of India ('ICSI'), is annexed to this notice.

The Remuneration proposed to be paid to Mr. Mahesh Kumar Sharma with effect from May 09, 2020 is set out below:

Particulars	Amount (Rs. p.a. in million)
Basic	1.37
Allowances / Perquisites*	1.71
Retiral benefits	0.48

*excluding perquisites such as furnished house, vehicle etc. provided by the Company and Performance bonus (maximum) is 35% of Gross salary

The Directors are of the opinion that Mr. Sharma's knowledge and experience will be of immense value to the Company. The Board, therefore, recommends the acceptance of the Resolution set out at Item No. 3 of the Notice convening the Meeting.

The Ordinary resolution proposed to be passed is an enabling resolution, permitting the Company to pay the fixed remuneration even during absence or inadequacy of profits in any financial year, in compliance with Section 197 read with Schedule V to the Companies Act, 2013.

Except Mr. Mahesh Kumar Sharma, none of the Directors or Key Managerial Personnel or their relatives are in any way concerned or interested in the passing of the resolution set out at Item No. 3 of the Notice.

ITEM NO. 4

Pursuant to Sections 149, 150, 152, Schedule IV of the Companies Act, 2013 as amended and read with the applicable notifications issued thereunder ("Companies Act, 2013), it is proposed to reappoint Mr. Deepak Amin (DIN: 01289453) as Independent Director of the Company for a term of 3 (three) consecutive years up to September 06, 2023.

Mr. Deepak Amin is existing Independent Director of the Company in terms of regulation 25 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended and read with applicable notifications issued thereunder ("Listing Regulations"). The Board of Directors at its meeting held on August 20, 2020, on the recommendation of the Nomination and Remuneration Committee and based on the performance evaluation, considered that given the background, experience and contributions made by him during his tenure, his association would be beneficial to the Company and the Board and it is desirable to re-appoint him as Independent Director of the Company, not liable to retire by rotation. In the opinion of the Board, he fulfills the conditions specified in Sections 149, 150, 152, Schedule IV of the Companies Act, 2013 and other applicable provisions, if any, of the Companies Act, 2013 and regulation 25 of the Listing Regulations. It is therefore proposed that he will continue as an Independent Director of the Company in compliance with the provisions of Companies Act, 2013 and Listing Regulations. Accordingly, his tenure of appointment for 3 (three) years commencing from September 07, 2020 upto September 06, 2023 is in accordance with the Companies Act, 2013 and the Listing Regulations.

Keeping in compliance with the provisions of Section 149 of the Companies Act, 2013 read with Schedule IV of the said Act, the re-appointment of Mr. Deepak Amin to continue as Independent Director is now being placed before the members for approval by passing a Special Resolution.

Copy of the draft letter for appointment of Independent Director setting out the terms and conditions would be available for inspection without any fee by the members at the Corporate Office of the Company during normal business hours on any working day.

Other than Mr. Deepak Amin, Independent Director of the Company to whom the resolution relates, none of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the resolution set out at Item No. 4. This Explanatory Statement may also be regarded as a disclosure under regulation 27 of the Listing Regulations with the Stock Exchange and the Secretarial Standard - 2.

The brief profile of Mr. Deepak Amin, in terms of Regulation 36(3) of the SEBI Listing Regulations and the Secretarial Standards on General Meetings (SS-2) issued by Institute of Company Secretaries of India ('ICSI'), is annexed to this notice.

ITEM NO. 5

Pursuant to Sections 149, 150, 152, Schedule IV of the Companies Act, 2013 as amended and read with the applicable notifications issued thereunder ("Companies Act, 2013), it is proposed to appoint Ms. Sunita Sharma (DIN:02949529) as Independent Director of the Company for a term of 3 (three) consecutive years up to August 19, 2023.

The Board of Directors at its meeting held on August 20, 2020, on the recommendation of the Nomination and Remuneration Committee and based on the qualification background, experience, her association would be beneficial to the Company and the Board and it is desirable to appoint her as an Independent Director of the Company, not liable to retire by rotation. In the opinion of the Board, she fulfills the conditions specified in Sections 149, 150, 152, Schedule IV of the Companies Act, 2013 and other applicable provisions, if any, of the Companies Act, 2013 and regulation 25 of the Listing Regulations. It is therefore proposed that she will be appointed as an Independent Director of the Company in compliance with the provisions of Companies Act, 2013 and Listing Regulations. Accordingly, her tenure of appointment for 3 (three) years commencing from August 20, 2020 upto August 19, 2023 is in accordance with the Companies Act, 2013 and the Listing Regulations.

Keeping in compliance with the provisions of Section 149 of the Companies Act, 2013 read with Schedule IV of the said Act, the appointment of Ms. Sunita Sharma as Independent Director is now being placed before the members for approval by passing an Ordinary Resolution. The Company has received a notice proposing the candidature of Ms. Sunita Sharma for the office of director under Section 160 of the Act.

Ms. Sunita Sharma is not disqualified from being appointed as Directors in terms of Section 164 of the Act and have consented to act as Director of the Company. The Company has also received declarations from Ms. Sharma confirming compliance of Section 149(6) of the Act. In opinion of the Board, Ms. Sharma fulfills the conditions specified in the Act and the Rules made there under and Ms. Sharma is independent of management.

Other than Ms. Sunita Sharma, Independent Director of the Company to whom the resolution relates, none of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the resolution set out at Item No. 5. This Explanatory Statement may also be regarded as a disclosure under regulation 27 of the Listing Regulations with the Stock Exchange and the Secretarial Standard - 2.

The brief profile of Ms. Sunita Sharma, in terms of Regulation 36(3) of the SEBI Listing Regulations and the Secretarial Standards on General Meetings (SS-2) issued by Institute of Company Secretaries of India ('ICSI'), is annexed to this notice.

STRONGER TOGETHER

As one of India's leading private life insurers, we attribute our success to the collective commitment of our people, business partners and insurance advisors in serving the needs of our customers when it mattered the most. However, leadership is not about leaving everyone behind towards a preordained destination. It is a continuous journey towards the future, along with our partners in progress.

Riding the ebb and the flow of economic cycles, we are taking confident strides towards a brighter tomorrow by working relentlessly to strengthen the legacy of trust associated with the SBI brand. We are expanding our insurance ecosystem by reaching out to customers in the remotest corners of the country through our unparalleled network of offices and bancassurance and agency channels. By adopting the best available technologies we want to augment our reach, coupled with building digital capabilities, to facilitate one of most important decisions in the life of our customers.

At SBI Life, we believe the whole is not the sum of its parts, but an integrated multiplier to create sustainable value for all our stakeholders.

ABOUT THIS REPORT

OUR REPORTING APPROACH

The Securities and Exchange Board of India (SEBI) had recommended the top 500 listed entities to voluntarily adopt the Integrated Reporting <IR> framework prescribed by the International Integrated Reporting Council (IIRC). SBI Life Insurance Company Limited (SBI Life) started preparing its Annual Report in accordance with the <IR> framework since FY19 to provide a holistic assessment of its financial and non-financial performance.

FRAMEWORK AND REPORTING PRINCIPLES

The IIRC has prescribed seven guiding principles for Integrated Reporting. These are strategic focus and future orientation, connectivity of information, stakeholder relationships, materiality, conciseness, reliability and completeness, and consistency and comparability. In addition to these guiding principles, this Report is also prepared in accordance with the requirements of the Insurance Act, 1938 and the Companies Act, 2013; the Insurance Regulatory and Development Authority (IRDAI) (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015; Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI) and the Secretarial Standards issued by the Institute of Company Secretaries of India (ICSI).

SCOPE AND BOUNDARY

This is SBI Life's second Integrated Annual Report. It includes information that is material to the Company's stakeholders and presents an overview of its business and associated activities that help in short, medium and long-term value creation. The Company also shares insights about its competitive landscape, key strategies, business model, and internal and external risks and mitigation strategies. SBI Life does not have any subsidiaries.

OBJECTIVE

The objective of Integrated Reporting is to provide shareholders and interested stakeholders with relevant financial and non-financial information that can enable them to take a well-informed investment decision. It aims to provide concise information about the Company's strategy, governance, performance and prospects, which it has created over a period of time.

RESPONSIBILITY STATEMENT

The Audit Committee and the Board is responsible for ensuring the integrity and completeness of the Integrated Annual Report. With assistance from the reporting team, the Audit Committee have put in their collective thoughts and efforts in the preparation, presentation and validation of information in this Report.

STRENGTHENING THE FOUNDATION OF TRUST

In the past 20 years at SBI Life, we have strengthened our leadership position in the private life insurance space by nurturing our time-tested, mutually beneficial relationships. Our bancassurance channel is one of our crucial growth levers, comprising the branch network of our parent, State Bank of India, as well as other local and national public and private banks. Our distribution network is further strengthened with one of the best agency networks and other Specified persons (SPs).

We turned SBI Life profitable in FY08 by leveraging our operational excellence. This has enabled us to invest in emerging technologies to further drive efficiency and provide innovative solutions to our customers at attractive prices.

The trust and support of our customers, business partners, employees and other key stakeholders has enabled us to build a strong foundation on which we aspire to propel our future.

DELIVERING VALUE SEAMLESSLY AMID CHALLENGES

Our strong performance track record, high customer satisfaction and best-in-class operating efficiency bear testimony to our relentless focus in offering a comprehensive range of life insurance and pension products at competitive prices. We aspire to be the most trusted and preferred insurer by providing seamless services across our physical and digital channels.

The outbreak of the COVID-19 during the fourth quarter necessitated the imposition of a nationwide lockdown. While the government and healthcare agencies worked relentlessly to contain the spread and build the infrastructure, we engaged with our stakeholders to ensure their safety and well-being, while enabling our customers to navigate the global health crisis that came with financial consequences.

HOW WE HELPED OUR STAKEHOLDERS

CUSTOMERS

- Communicated regularly with customers to assure them about the continuity of service delivery in terms of claim settlement and premium collection
- Sent daily SMSes to assist in claim submission (also through website) and submission of additional requirements, and assisted customers impacted by cyclone Amphan
- Received 1 lakh+ customer servicing requests on our digital platform
- Initiated over 90,000 claim payout requests during the lockdown
- Made available our toll-free number in 11 languages to resolve customer queries
- Monitored our distribution network regularly to service customers better

EMPLOYEES

- Made significant changes to working arrangements to enable employees to fulfil their personal as well as professional responsibilities conveniently
- 2,200+ employees were enabled with VPN/VDI/webmail to work from home to continue critical business processes
- Notwithstanding the potential economic impact of the pandemic, disbursed annual bonuses and increments

BUSINESS PARTNERS

- Identified our critical vendors and provided adequate support to them
- Integrated video verification facility with workflow
- Provided online training – product refresh, usage of digital assets and sales techniques
- Engaged in frequent morale boosting communication

COMMUNITIES

- Supported frontline workers by providing them with PPE kits, masks, thermal scanners and sanitisers in various districts (in Q1 FY21)
- Made additional contribution to fight against COVID-19
- Donated ₹1.5 crores to the PM CARES Fund

SHAREHOLDERS

- Timely dissemination of information through Company announcement, media releases and public disclosures
- Continued to address investor queries in a quick and efficient manner

A NOTE FROM THE CHAIRMAN

RIDING EVERY CHALLENGE

Dear Stakeholders,

At the onset, let me wish all of you and every member of your family the best of health and well-being. We are living through difficult times — a global health crisis of unimaginable scale has taken a huge toll on lives and livelihoods. Even in these unprecedented times, we continue to deliver on our pledge of making available a wide range of products and services in the life insurance and pension segments across all corners of the nation. In our ultimate pursuit of protecting the future of our customers, we have cemented our position as a leader among private life insurers.

We are pleased to report yet another year of robust all-round performance as we remain the leader among private players in terms of individual NBP and IRP. Our performance vis-à-vis the industry is largely attributable to the relentless efforts of our people and various business partners, who have provided seamless support on all fronts. With their unwavering dedication, we are confident of achieving more, together.

In FY20, PAT increased to ₹14.22 billion from ₹13.27 billion in FY19 and GWP grew 23.2% y-o-y to ₹406.35 billion. On an actual tax rate basis, our Indian Embedded Value (IEV) reached ₹262.91 billion, as on March 31, 2020, from ₹224.02 billion, as on March 31, 2019. This performance against the backdrop of a slowing economy and intensifying competition speaks volumes about our strong fundamentals.

The global economy has witnessed its weakest growth since the financial crisis of FY09, due to US-China trade tensions and increased protectionism, weak consumption and sluggish business sentiment. The novel coronavirus (COVID-19) outbreak in the fourth quarter of FY20 and the subsequent nationwide lockdown to contain the spread brought major global economies, including India, to a standstill. India recorded its slowest GDP growth in 11 years at 4.2%, down from 6.1% a year earlier.

The varied restrictions on mobility and other non-essential economic activities in light of the pandemic pose a significant challenge for businesses worldwide, which is further

aggravated by dampened consumer sentiment and overall aversion to discretionary spending. The Indian government, along with the Reserve Bank of India (RBI), was quick to announce and implement stimulus measures to minimise the impact and put the economy back on track. However, the International Monetary Fund (IMF) and other global institutions expect India's GDP to contract by at least 4% in FY21, before staging a sharp rebound in FY22.

Although the magnitude of the impact is yet to be ascertained, it is likely to vary across countries and industries. Europe and North America appear to have been the worst affected to date, while Asia has managed it comparatively well in terms of fatalities. China specifically seems to have managed to contain the virus spread, while India continues to witness an increasing number of cases on a daily basis, albeit at low mortality rates. Keeping in view the various measures announced by the central government, we remain positive. However, risks to any forecasts are on the downside, as the pandemic situation is currently fluid.

That said, the crisis has increased awareness about the importance of life and health globally and influenced the way people perceive the importance of protection against life's uncertainties. The life insurance industry in India has been on an upward trajectory, but given the country's low insurance penetration, there exists a vast untapped opportunity. We are well equipped to unlock this immense potential, with our comprehensive portfolio, innovative products, unparalleled reach and robust digital platforms.

The current environment has also brought to the fore collective human ingenuity not just to survive through a global crisis but also to thrive by innovating and adapting to the emerging realities. The life insurance industry is one where the need to constantly evolve and learn is imperative. SBI Life's successful journey bears testimony to our ability to innovate by using technology as a key differentiator in an intensely competitive market.

This technology focus has enabled us to transition to the remote work environment seamlessly with the lockdown announcement

SBI Life's successful journey bears testimony to our ability to innovate using technology to cater to our varied pool of customers across every nook and corner of the country.

and provide uninterrupted services to our customers. In fact, over the years, digitalisation has enabled us to deliver accuracy with speed while optimising costs, thereby contributing to the bottom line. The premium collected from online channel and web aggregators grew 13% y-o-y. Various applications, web-based solutions and Artificial Intelligence (AI) have enabled seamless processes and faster Turnaround Time (TAT), resulting in enriched customer experiences. SBI's YONO app is one such digital platform where SBI Life has covered more than 1.3 lakh lives. Furthermore, these tools have enabled us to address customer queries efficiently, while helping the organisation understand the customer's needs and design products and solutions accordingly. Going forward, we will continue to invest in strengthening our digital capabilities to better serve customers and further consolidate our industry leadership.

I take this opportunity to thank all our stakeholders for their commitment, trust and continuous support; our valued customers for entrusting us with their financial security needs and most importantly, the SBI Life team for relentlessly striving to build a future-focused, execution-oriented and value-accretive enterprise.

Warm regards,

Rajnish Kumar

MD & CEO'S MESSAGE

BUILDING A BRIGHTER FUTURE

Dear Stakeholders,

I am pleased to share that SBI Life delivered another year of impeccable performance on all fronts. Our strong brand recall, unparalleled distribution network, robust digital platforms, rich management expertise and invaluable human assets have enabled us to maintain our leadership in the private life insurance space.

We outperformed the industry average, despite a challenging macroeconomic environment and large-scale disruptions at the end of the fourth quarter due to the pandemic outbreak.

As always, Customers remain at the heart of our actions. The relentless efforts of all our stakeholders has played a crucial role in achieving the ultimate goal of a happy customer. We crossed the ₹400 billion mark in GWP, covering the lives of 8.9 million customers in FY20 with an AUM of ₹1.6 trillion. We continue to focus on developing solutions that delight customers and, in turn, contribute to higher profitability and sustainable value.

ROBUST ALL-ROUND PERFORMANCE REFLECTS FUNDAMENTAL STRENGTH

In FY20, we continued to be India's leading private life insurer by IRP and individual NBP. We were able to outperform the industry average despite a challenging macroeconomic environment and large-scale disruptions at the end of the fourth quarter due to the pandemic outbreak.

We registered a 20.3% growth in NBP wherein our individual NBP grew 16.7% y-o-y to ₹112.45 billion. The continued focus on the protection business resulted in an overall growth of 26.7% with NBP for individual protection registering an impressive growth of 42.5%. Our renewal premiums grew 25.2% to ₹240.42 billion and GWP grew 23.2% to ₹406.35 billion. Growth in single premium at 42.9% enabled us to cross the ₹400 billion mark in GWP.

We have maintained stable profitability during the year under review, with PAT increasing to ₹14.22 billion from ₹13.27 billion. On an actual tax rate basis, IEV rose to ₹262.91 billion, as on March 31, 2020, from ₹224.02 billion as on March 31, 2019. VoNB grew 17% to ₹20.12 billion, while VoNB margin improved from 17.7% to 18.7%. The 13th month persistency ratio improved to 86.1% from 85.1%, which reflects the commitment to provide customers with continued cover. Mis-selling ratio dropped to 0.09% from

0.10%. Surrender ratio came down significantly from 5.24% to 3.91%, which testifies to the increased trust the customers bestow on our ethical selling practices. We did not declare any interim dividend during the period under review due to restrictions imposed by the regulators in light of COVID-19. However, we see this as an opportunity to enrich the shareholder wealth further.

TRANSFORMING OUR BUSINESS THROUGH DIGITALISATION

Our wide presence across the country, including in remote rural areas, has set a strong foundation. Our continuous investments in strengthening our digital capabilities enables us to create wealth, increase productivity and scale up sustainably. The bancassurance channel has been expanded looking at the potential customer base. Life Mitras (insurance advisors) and Certified Insurance Facilitators (CIFs) are in place with adequate training and resources to tap into the wide range of opportunities in the life insurance market.

Digitalisation not only enhances customer value, but also improves ease of doing business. Our technology focus since inception enabled us to swiftly overcome the challenges of providing interrupted services during the nationwide lockdown. We fully implemented the new policy management system, Ingenium. That being said, we understand that digitalisation comes with its inherent risks. To mitigate cyber security risks, preempt cyber-attacks and proactively respond, a Security Operation Centre has been set up to monitor all critical IT devices, applications and websites, among others.

WITH LEADERSHIP COMES RESPONSIBILITY

We have always endeavoured to contribute to the society by facilitating a better standard of living. During these pandemic-induced challenging times, we have demonstrated our commitment by making substantial contributions to the COVID-19 relief fund and disaster relief funds for improving healthcare facilities and education infrastructure. Various initiatives were also undertaken to create awareness on our varied insurance products to drive informed decision-making on part of our customers.

ACKNOWLEDGED FOR DELIVERING EXCELLENCE

We continue to strive for excellence across all spheres. Recognitions of our concerted efforts at prestigious forums testify to our value-driven commitment towards customers and stakeholders. We were conferred with the prestigious 'Life Insurer of the Year 2019' award by the Federation of Indian Chambers of Commerce (FICCI) and the 'Best Life Insurance Company 2019' award at the Emerging Asia Insurance Awards by the Indian Chamber of Commerce (ICC). We also won the 'Gold Shield' for Excellence in Financial Reporting for FY19 by the Institute of Chartered Accountants of India (ICAI), two years in a row. In addition, we won the Smart Life Insurance Company at the ET Insurance Summit 2019 by The Economic Times.

AN EXCITING ROAD AHEAD

India offers a vast opportunity landscape for insurers, given the country's low insurance penetration and growing awareness about insurance products and solutions. Further, we believe the pandemic-induced new normal will usher in a dramatic behavioural change, increasing the need for protection against the vagaries of life and living in an uncertain environment.

Given our leadership position and relentless customer focus, we are well positioned to absorb the emerging opportunities by leveraging our wide physical reach, complemented by our digital channels, and emerge as the pre-eminent provider of protection products and solutions. Developing new solutions through innovation and automation will always remain our priority in driving growth and wealth creation potential.

I thank our shareholders and investors for their ongoing trust and confidence. I am grateful to other stakeholders, including customers, distributors, employees, regulators and the government for their continued support. We attribute our growth to the sincerity, hard work and dedication of our distributors and employees, which will continue to help us scale newer heights. Our collaboration, distribution network, digital assets and responsibility as a corporate citizen is what makes SBI Life Insurance 'Stronger Together'.

Best regards,

Mahesh Kumar Sharma
Managing Director and Chief Executive Officer

THE LANGUAGE OF LIFE INSURANCE

SIMPLIFYING INSURANCE BUSINESS TERMINOLOGIES

Life insurance is a long-term business. As investments are made at regular intervals and for a much longer duration relative to other savings and investment vehicles, a set of metrics unique to the industry is used to evaluate the financial health of a life insurer. We provide a ready-reckoner of key metrics across different parameters to better understand stability, profitability and sustainability.

Parameters

INCOME

Premium is the primary income of a life insurance company and is received over a period.

PROFITABILITY

Profitability of life insurance companies is measured via the value of new business. This metric reflects the earnings from new policies written during a given period.

VALUE OF A LIFE INSURANCE COMPANY

The value of a life insurance company is measured using embedded value, which computes future profits from existing policies.

Metrics

GROSS WRITTEN PREMIUM (GWP)

The total premium written by the company before deductions for reinsurance ceded.

NEW BUSINESS ANNUALISED PREMIUM EQUIVALENT (APE)

The sum of annualised first year premium on regular premium policies, and 10% of single premiums, written by the Company during the fiscal year.

INDIVIDUAL RATED PREMIUM (IRP)

IRP is the premium written by the Company under individual products and weighted at the rate of 10% for single premiums.

RENEWAL PREMIUM

Renewal premium refers to life insurance premium due after the first year of the policy.

VALUE OF NEW BUSINESS (VoNB)

VoNB is the present value of expected future earnings from new policies written during a specified period and reflects the additional value to shareholders expected to be generated through the activity of writing new policies during a specified period.

VALUE OF NEW BUSINESS MARGIN (VoNB MARGIN)

VoNB margin is the ratio of VoNB to new business APE for a specified period and is a measure of the expected profitability of new business.

INDIAN EMBEDDED VALUE

This refers to the consolidated value of shareholders' interest in the covered life insurance businesses, which is all life insurance business written by the Company since inception and in-force as on the valuation date (including lapsed businesses that have the potential of getting revived).

Embedded value is determined as per the requirements and principles set forth by the Institute of Actuaries of India, in accordance with Actuarial Practice Standard 10.

QUALITY OF BUSINESS

Quality of business of a life insurance company can be determined by understanding the ability to retain customers.

CUSTOMER SERVICE

The quality of customer service offered by a life insurance company is measured by the efficiency with which it settles claims. It is also assessed through the sales practices and transparency adopted by a company.

SOLVENCY

The solvency ratio measures how financially sound an insurer is and its ability to pay claims. In India, insurers are required to maintain a minimum ratio of 1.5.

PERSISTENCY RATIO

Persistency ratio is the ratio of life insurance policies remaining in force to all policies issued in a fixed period. Persistency can be measured in terms of number of policies or in terms of premium.

DEATH CLAIMS SETTLEMENT RATIO

This refers to the ratio of death claims settled to death claims reported to the company and outstanding at the beginning of the year.

UNFAIR BUSINESS PRACTICE RATIO

This refers to the number of grievances with respect to unfair business practices reported to the company divided by policies issued by the company in the same period.

SOLVENCY RATIO

Every insurer is required to maintain an excess of the value of admissible assets over the amount of liabilities of not less than an amount prescribed by the IRDAI, which is referred to as a required solvency margin. The actual excess of admissible assets over liabilities maintained by the insurer is termed as the available solvency margin. The ratio of the available solvency margin to the required solvency margin is the solvency ratio.

ON A STEADY MOMENTUM TOWARDS, ROBUST FUNDAMENTALS

DELIVERING ROBUST FINANCIALS

During FY20, we achieved stable and sustainable business growth, ramped up share of the high-margin protection business while maintaining cost ratios and improving persistency. Growth in premiums was driven by the continued traction in the protection as well as the savings businesses. A healthy addition of new policies aided expansion in VoNB and VoNB margin. The increase in network and new business resulted in a rise in embedded value. However, the sharp sell-off in equity markets in March 2020 due to the pandemic outbreak led to a reduction in our solvency ratio.

KEY PERFORMANCE INDICATORS

CONSOLIDATING MARKET LEADERSHIP

The rapid expansion in our distribution network, our ability to provide products and solutions relevant to our customers' needs and healthy momentum across most distribution channels have enabled us to maintain our industry leadership (in terms of IRP and individual NBP). We continued to increase our market share in FY20 as well. We maintained the contribution of bancassurance and agency channels while growing the share of the online channel significantly.

DRIVING STAKEHOLDER VALUE

Our persistency ratios across different timeframes have improved. We strictly adhere to fair and ethical business practices, such that our mis-selling ratio is one of the lowest in the industry. We continued to work with our communities to develop programmes and ensure focused spending directed at their overall well-being. We also engaged with our employees in multiple forms and through various modes, which boosted overall productivity. Our digital platforms were strengthened further, leading to higher efficiency across processes and creating higher value for key stakeholders.

DISTRIBUTION

TOGETHER IN SUCCESS

Over the past two decades, we have built a formidable ecosystem of partners in progress through our strategic distribution network comprising branches, bancassurance channels and agents. This network enables us to understand our customers better and design products and solutions suited to meet their protection and savings needs. We also partner with banks, financial institutions and corporates to co-create a shared future. Our regular training sessions and upskilling initiatives for distributors result in enhanced productivity and potential.

DIGITALISATION

ON THE JOURNEY TOWARDS A DIGITAL FUTURE

At SBI Life, we deploy best-in-class technologies to elevate service experience and improve operational efficiency, in line the changing industry landscape and evolving customer preferences for simplicity and convenience.

OUR ASPIRATION OF BECOMING A 'TRULY DIGITAL' ORGANISATION

We maintain scalable, efficient and effective core systems and IT architecture

We leverage AI cloud computing, bots, Machine Learning (ML), Robotic Process Automation (RPA) and analytics to create superior value

HIGHLIGHTS OF TECHNOLOGY INITIATIVES IMPLEMENTED DURING FY20

During FY20, we made significant progress in further enhancing the capacity and capabilities of our technology infrastructure, leading to improvements in the availability of systems and applications for the business.

Launched the new Policy Management System (PMS)

We completed the implementation of 'Ingenium', our new PMS, to provide services across both individual and group insurance policies. The platform has helped improve the quality of services offered, deliver superior experience to our customers and reduce the turnaround time to launch new products.

Deployed new Customer Relationship Management (CRM) system

We adopted 'CRM Next', a core system that provides end-to-end services to customers, leading to better services across all touchpoints. Overall, we have witnessed improvements in the way we engage with our customers.

Improved work flow system

This new system focuses specifically on providing seamless on-boarding and underwriting of new proposals. Besides providing greater customer convenience, it has also improved the efficiency of our new business and underwriting processes.

Mobile apps gained increased traction

An increasing number of users downloaded and used our mobile apps, M-Connect Life and Easy Access, to apply for new policies, receive premium alerts, raise queries and access other services. Over 98% of individual new proposals were sourced through the M-Connect Life app. Similarly, our sales intermediaries used the 'Smart advisor plus' app to provide pre- and post-sales support to their customers.

Strengthened API offering for partner on-boarding

We developed a bouquet of digital platforms, including mobility and Application Programme Interface (API) for quick integration and on-boarding of partners in case of new business as well as renewal premiums.

In addition, we leverage several analytics platforms to drive strategic decision-making in our sales, audit, risk and operations functions as well as across various distribution channels.

CREATING SHARED VALUE TOGETHER

We endeavour to create long-term value for our stakeholders through our business activities, prudent strategies, focused execution, and robust risk management and governance. We are a resilient enterprise with the ability to adapt to the dynamic external environment.

OUR VALUE CREATION MODEL

Over the years, we have built a robust, scalable business model that has remained resilient through economic cycles. Our activities are driven by our vision and reflect our core values. Our customers are at the heart of our business – across the stages of product development, distribution, underwriting risks, investing our corpus and providing services throughout their lifecycle. We strive to optimise our capitals to maximise value for our stakeholders.

Our strengths

Strong brand equity and parentage, dominant market positioning and robust distribution network, among others, act as key drivers of our value creation process and together they lend us a distinct edge in an intensifying competitive environment.

Stakeholder engagement

Engaging with stakeholders in a structured manner through meaningful and transparent communication enables us to cultivate long-term relationships. We have adopted a stakeholder-inclusive approach that balances the needs, interests and expectations of our stakeholders and provides us valuable, actionable insights to devise our future roadmap. It also enables us to make the necessary adjustments in line with the evolving socio-economic and regulatory environment.

Materiality assessment

Constant engagement with stakeholders throws light on the issues material to them. We identify and respond to existing and emerging matters that present risks and opportunities for our business segments and stakeholders.

Our external environment

We keep a close watch on the developments in the external environment to maximise the emerging opportunities and manage the emerging risks in a prudent manner. Our ability to respond to these trends with agility and efficacy is key to our success in the long run.

EXTERNAL ENVIRONMENT

RESPONDING TO DYNAMIC TRENDS

The Indian life insurance industry is one of the fastest growing markets and features among the top 10 globally in terms of premium. Backed by regulatory reforms and adoption of digital technologies, the industry is witnessing improved transparency and increased innovation. Further, the growing awareness of the need for protection products in navigating through life's uncertainties is likely to catapult the industry to a much higher growth trajectory.

RISING DISPOSABLE INCOME WITH EXPANDING MIDDLE CLASS

India has emerged as an attractive market for the insurance industry, driven by its favourable demographics – young, aspiring and growing working age population. With increasing life expectancy, the share of working population is expected to reach 40% by 2030. Further, rising disposable income is likely to drive demand for savings and investment products.

India: Favourable demographics

■ 15-29 years ■ 30-59 years ▲ Life expectancy (years)

Source: United Nations World Population Prospects, 2019

Our response

Our products cater to different types of customers across age groups. We are developing innovative, need-based products to capture a sizeable market share of the younger population.

FINANCIALISATION OF SAVINGS

India has been witnessing a rapid shift away from physical savings (gold and real estate) to financial savings. With the government's thrust on economic formalisation, demand for savings and protection products is on the rise, with asset diversification forming a key component of effective financial planning for the future.

Our response

We are working proactively to increase awareness of the benefits of life insurance by leveraging our pan-India reach. We engage with customers through multiple channels to enable informed financial decision-making.

UNDER-PENETRATION OF LIFE INSURANCE IN INDIA

Penetration of life insurance products in India is relatively low compared to several advanced and emerging Asian peers, which indicates significant headroom for growth. Concerted industry efforts, complemented by a robust regulatory environment and a favourable shift towards the perceived importance of protection products, are likely to drive insurance penetration going forward.

FOCUS ON DRIVING DIGITALISATION

Digital technologies have emerged as a key growth enabler, providing increased convenience and transparency. Further, the rapidly rising internet penetration, proliferation of smart devices such as mobiles and the government's 'Digital India' initiative are driving innovation in the insurance space as well. Today an increasing number of customers are accessing digital channels for availing their insurance needs.

India's growing internet economy (US\$ in billion)

Our response

We have been a leader in driving digitalisation in the Indian insurance industry. We continue to invest in the best available technologies to improve processes, train and reskill resources, and strengthen our digital platforms for customers, distributors and business partners. We also leverage data analytics tools for deriving actionable insights to elevate customer experience.

OUR STRENGTHS

STAYING AHEAD OF THE CURVE

STRONG BRAND EQUITY AND PRE-EMINENT PROMOTERS

We take pride in being a part of the SBI Group, the country's largest commercial bank in terms of deposits, advances and number of branches. Today, brand SBI has become synonymous with the trust of millions across the country and select overseas markets.

Our top-of-the-mind brand recall is a key growth enabler and lends an unmatched, distinct competitive edge. We are committed to optimising synergies with the parent entity, which provides us access to specialised industry expertise. We remain focused on strengthening our brand through impactful communication via different campaigns across several traditional (television, print and billboards) and contemporary (social media) platforms. Some of our recent campaigns can be viewed at <https://www.youtube.com/user/sbilifeinsurance>.

Recognised as 'The Best Life Insurance Company 2019 – Emerging Asia Insurance Awards' by the Indian Chambers of Commerce

DOMINANT POSITION IN THE MARKET

Over the past two decades, we have earned the support and love of our customers by providing a comprehensive suite of relevant and innovative products. Our constant focus on providing superior services has helped retain existing customers and grow our wallet share. Today, as one of the leading private life insurers in India, we continue to gain market share by growing the market as well as gaining market share from peers.

ROBUST DISTRIBUTION NETWORK

Our nationwide robust and growing distribution network plays a pivotal role in our growth and enables us to better understand the needs of diverse customer segments.

Our physical and digital channels work in unison to provide customised experiences to our customers. In addition to leveraging our parent's unparalleled reach, we have formed bancassurance partnerships with 14 local and national banks to tap into their customer base. Further, we have a large pool of individual agents, CIFs and other distributors.

MATERIALITY

IDENTIFYING ISSUES IMPACTING VALUE CREATION

We constantly engage in open and detailed discussions with all stakeholder groups to understand their material issues, concerns and expectations. The identified issues are then classified based on their degree of importance to stakeholders and their ability to impact value creation. This enables us to derive insights, which are fed into our strategy planning process to define our strategic objectives.

We periodically review these issues, identify their potential impact on our short-term and long-term goals and take corrective action, if required. Accordingly, we arrive at a materiality matrix and rate the issues on their criticality. This matrix has been formed based on the issues that are important to our stakeholders and our organisation.

REMARKS ON THE TRADE-OFFS

Though it entails initial investments, this strategy aids financial capital over the medium to long term. Additional employees as well as business partners are required while implementing this strategy. We work closely with most communities that we are present in, particularly in the areas of education, healthcare and rural development, among others.

This strategy enables us to become a leaner organisation by enhancing efficiencies across all our activities and processes. It enhances the financial profile of our Company, enabling us to dedicate more resources towards community building.

CUSTOMER-FIRST APPROACH (S03)

DIGITAL TRANSFORMATION (S04)

ENHANCED TRAINING (S05)

Our customers form the core of our business and by serving them better, we stay relevant to them and drive healthy, profitable growth on a sustainable basis.

Over the past few years, we have stepped up efforts to become a truly digital organisation. While this strategy entails several benefits, it also warrants upfront investments in the short term. As more and more customers embrace digitalisation, the need for physical branches is coming down gradually. Digitalisation empowers us to serve more customers with fewer branches. It also enables us to deliver superior experiences to our customers.

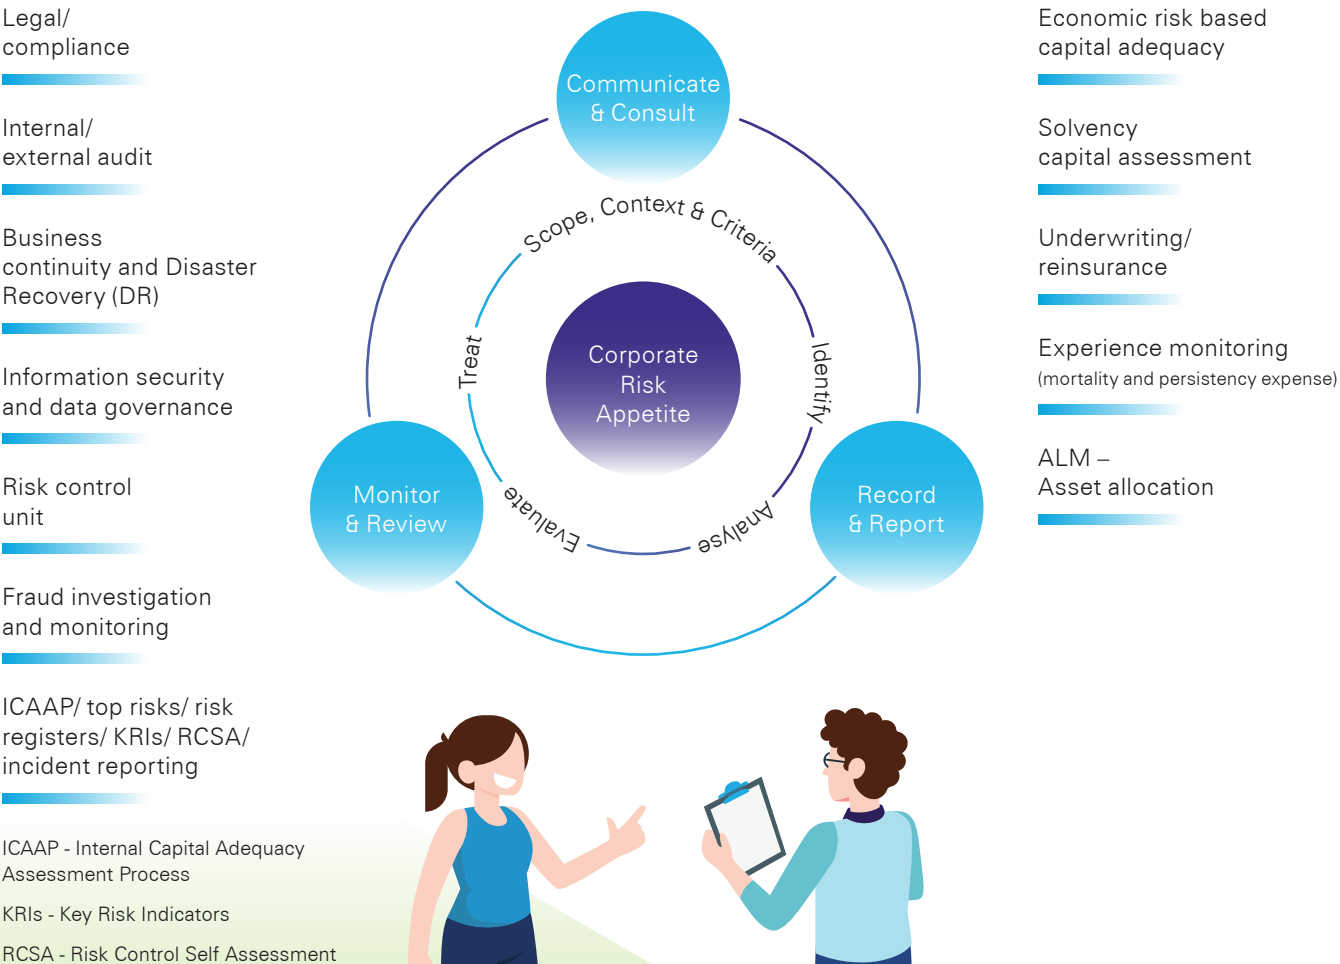

This strategy is an important factor that drives better growth and profitability of our distributors and other channel partners. It also enables us to build the training capabilities of our people.

RISK MANAGEMENT

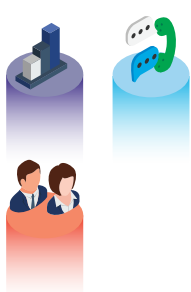

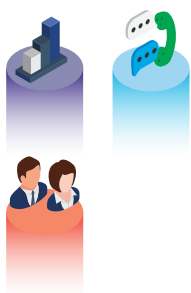

SAFEGUARDING OUR BUSINESS

We have a comprehensive risk management framework to identify, assess and mitigate existing as well as emerging risks. It takes into account all business risks, including strategic risk, operational risk, actuarial risk, investment/ market risk, fraud risk, information security risk, compliance risk and business continuity management. The key focus areas include strategic risk assessment and capital planning, governance, risk universe and risk awareness.

OUR RISK MANAGEMENT PROCESS

Here are some of our prominent risks and the mitigation initiatives:

EXTERNAL FACTORS	KEY CAPITALS IMPACTED	MITIGATION INITIATIVES	STRATEGIC OBJECTIVES
<p>Insurance risk includes persistency, morbidity and mortality risk. Significant variation in assumptions vis-a-vis actuals may affect our Company's growth prospects.</p>		<ul style="list-style-type: none"> We conduct experience analysis quarterly to ensure that corrective actions can be initiated at the earliest opportunity. We use attractive product features to encourage policyholders to continue with the policy. We have a combination of proactive and reactive interventions to manage persistency. We consider approaches such as reinsurance, experience analysis, repricing, underwriting and claims control to manage mortality and morbidity risks. 	   
<p>Change in macroeconomic factors such as slowdown in global growth, increase in interest rates, inflation, increase in India's trade deficit, downgrading of India's credit rating can affect the industry and our prospects. Any regulatory action on our Company may have reputational risks.</p>		<ul style="list-style-type: none"> We have instituted an enterprise risk management framework that details the governance and management of all aspects of the risks we face. We further mitigate market risks by matching assets and liabilities by type and duration and matching cash flows. 	
<p>Regulatory risks include changes in applicable regulatory or statutory framework, changes in government policy actions and reform measures, non-compliance with various regulations or provisions issued by other authorities. (IRDAI, SEBI, MCA, etc.)</p>		<ul style="list-style-type: none"> We have a robust compliance mechanism to monitor critical compliance risks and communicate relevant regulatory requirements to business functions on a timely basis, along with providing the requisite training to ensure adherence to applicable regulations. 	  
<p>Operational risks include disruption of normal business activities through external factors, such as natural/ man-made disasters, or internal factors. Failure of the necessary processes and essential systems can hamper business continuity.</p>		<ul style="list-style-type: none"> We have the requisite business continuity and disaster recovery plans in place, which are ISO 22301 certified. We have a Risk Control Self-assessment (RCSA) system wherein each business unit within the Company is required to identify and assess inherent risks and controls relevant to the risk. A web-based incident reporting process is in place to collect loss incidents to track the extent of operational risk. 	 

BUSINESS CONTINUITY

DELIVERING SEAMLESSLY AMID A GLOBAL CRISIS

The outbreak of the novel coronavirus pandemic has been one of the most challenging events for the world in the recent past. Its scale and far-reaching impact on lives and livelihoods have called for agile and synchronised response from governments and organisations alike.

At SBI Life, we invoked our business continuity plan on March 12, 2020 – much before the imposition of the nationwide lockdown. This was followed by five meetings of our Crisis Management Team (CMT) between March 13, 2020 and March 31, 2020. The CMT comprises heads of several critical functions such as Marketing, Operations, IT, Human

Resources and Management Services, Legal, Brand and Corporate Communication, Risk, Business Strategy and Finance. We put in place a comprehensive plan following these meetings to ensure seamless service delivery while prioritising the safety and well-being of our people, customers and business partners.

SOME OF THE IMPORTANT STEPS TAKEN TO ENSURE BUSINESS CONTINUITY INCLUDED:

Sending communications to employees, distributors and customers to generate awareness around the lockdown and its implications

Issuing travel advisories, dos and don'ts, social distancing, and health and hygiene practices for employees

Providing hand sanitisers across all offices, mandating wearing a mask and discontinuing physical meetings

Facilitating work from home for continuity of operations

Handling several routine activities from home, including declaration of net asset value, salary processing and investment trading, among others

Ensuring adherence to all circulars and guidelines implemented by the regulators and authorities

Encouraging customers, employees and business partners to undertake transactions digitally

Ensuring smooth functioning of our online platforms for payment of renewal premium, reviewing fund balance, requesting for address change and switching funds, among others

Setting up a separate process to receive and process death claims related to the pandemic and driving awareness around the same on our website and other online platforms

Timely processing of employee salaries

Ensuring the well-being of the outsourced staff present in our offices as well as of vendors supplying manpower services to us

These are indeed testing times for individuals and businesses alike. That being said, we are not perturbed and are working together with all our stakeholders towards strengthening our resilience and improving our sustainability quotient.

PROSPERING TOGETHER

At SBI Life, we believe in inclusive growth and have always worked proactively towards protecting the interest of all our stakeholders.

CREATING AND DISTRIBUTING SHARED VALUE

Customers

Through our business activities, we accumulate premiums and pool savings on behalf of our customers, utilising these to grow and protect their wealth. We invest the accumulated funds responsibly in a range of asset classes to grow our customers' wealth as well as pay benefits to tide over unforeseen adverse events.

Communities

Our communities benefit from the initiatives we undertake for their prosperity and well-being.

Regulators/government and rating agencies

Through our payment of taxes on earnings to the government, we contribute in the economic development of the country. We strictly adhere to all regulations set by the authorities, while maintaining a superior financial profile.

Employees

We attract top talent through competitive salaries, benefits and commissions.

We also retain existing employees through various rewards and recognition schemes.

Shareholders

Our shareholders equitably share the financial value we create through our business activities.

Business partners

We work closely with our business partners to help them grow and increase their commission income.

ENVIRONMENT

FULFILLING OUR RESPONSIBILITY TOWARDS THE PLANET

At SBI Life, we are cognisant of the existential challenges posed by climate change. We are, therefore, committed to further minimising our environmental footprint and have identified energy efficiency, water conservation, waste management and reduction in paper and plastic usage as key areas of intervention.

MATERIAL ISSUES

Environment protection

SOME OF THE PROMINENT INITIATIVES TOWARDS THE ENVIRONMENT

Our corporate office building is a green building, certified by Indian Green Building Council (IGBC) norms aimed at driving efficient use of natural resources and minimal waste generation.

We collect leftover over/unfinished potable water in big cans and use it to water plants and mop floors. In some offices, water recycled is roughly around 253 litres per month.

We have significantly reduced our paper usage by embracing online fund statements and digitalising on-boarding of customers and customer service requests.

We are reducing plastic usage across the entire organisation

97% of our new policies are sourced digitally, thus eliminating the usage of paper. By digitalising the proposal forms, we managed to reduce costs from ₹82 lakhs in FY18 to ₹13.5 lakhs in FY20.

Every year, we plant trees across different states, contribute to their maintenance and promote the use of renewable energy.

THE GREEN MARATHON 2019

We sponsored this event for the second year in a row, as part of the SBI Group. The event aims to create awareness about climate change and the imbalance in nature caused by our actions. We believe every individual can embrace a sustainable way of living and even the smallest

acts can contribute towards building a greener society. Spanning five days, employees across the country participated in this event, which included diverse activities such as no-print day, pool a vehicle, recycle e-waste, adopt a green life and more.

SOCIAL

ENABLING AN INCLUSIVE WORLD

It is our strong belief that organisations that work actively to drive overall development and well-being of their communities go a long way in becoming truly sustainable. We have a two-fold approach to community initiatives - one is to provide bespoke insurance solutions to the unorganised sector (including economically backward communities) and two is to work closely with our communities in key focus areas around Corporate Social Responsibility (CSR).

SOCIAL

CELEBRATING MERIT
IN DIVERSITY

Our people are pivotal to achieving our business objectives as well as fulfilling social responsibilities. We are committed to providing them with a host of opportunities, upskilling avenues, a merit-based work culture and a healthy work-life balance. Our best-in-class people policies as well as continuous employee engagement activities enable us to attract and retain the best talent in the industry.

MATERIAL ISSUES

Regular trainings and career development activities for our people

We also support our people during their crucial life events through sabbatical leave, maternity and paternity leave, child adoption leave and study leave, which allow them to prioritise professional and personal life effectively.

At SBI Life, we promote a culture of diversity and inclusion. Our workforce comprises people across different age groups, background, skill sets and educational qualifications, among others

To promote collaboration and a sense of belongingness, we drive employee engagement through various team events such as off-site meet, team dinner and our annual day event ‘Sangam’ where employees and their families come together and join in the celebrations.

REWARDING OUTPERFORMERS

We have adopted a well-defined, objective rewards and recognition policy to identify and further motivate the best performing people across our organisation. Our performance management system, LEAP (Leading through Excellence and Performance) is based on a balanced scorecard approach. This tool provides a framework for setting clear expectations, providing positive feedback and delivering an effective performance assessment, where the rewards are directly linked with the Company's overall dashboard performance.

In FY19, we introduced Employee Stock Options (ESOPs) to reward high-performing employees and aligned their interests with those of the organisation. Besides rewarding deserving individuals, ESOPs also act as an effective employee retention tool.

During FY20, we granted 9,59,350 ESOPs to eligible employees, which will vest over a period of three years, subject to achievement of certain performance criteria.

LEARNING AND DEVELOPMENT

Throughout the year, we undertake holistic training and upskilling programmes to groom the future leaders within our Company. These activities are conducted by our in-house training team of over 250 people. We have also joined hands with consultant trainers, reputed training service providers, leading B-Schools and institutions to ensure skill and knowledge enhancement of our employees and distributors.

One such initiative is the Individual Development Plan (IDP) wherein we conduct customised personal development sessions to enhance the strategic thinking, capability building and execution excellence skills of our people. We also provide cross-functional exposure to multi-skill them and identify and develop strong and credible leadership.

These people practices create a workforce that is more flexible and efficient in responding to customer needs and market demands. Such exposures ensure that an individual taking on a new role also has the requisite skillsets to handle it.

SOCIAL

IN STEP WITH CUSTOMER ASPIRATIONS

At SBI Life, we engage closely with our customers to understand their expectations and evolve our solutions and services accordingly. Team SBI Life dons multiple hats to create superior value for its customers. While we de-jargonise and simplify our products to help our customers make well-informed decisions based on their needs, we also provide solicited advice on the suitability of products.

In FY19, we started the Net Promoter Score (NPS) index to measure customer loyalty and benchmark our services with the best. This index acts as a guide to the requisite changes and areas of improvement. At the end of FY20, our NPS score stood at 29. We will continue to deploy this tool and achieve further improvement on this front.

MATERIAL ISSUES

Quick and easy processing of claims and faster response to customer queries

Providing cost-effective, innovative insurance products

Data privacy and information security

Adoption of strong corporate governance, transparency and ethics

Effective management of regulatory changes

PROMINENT CUSTOMER-FOCUSED INITIATIVES UNDERTAKEN IN FY20

Joined hands with IIBI for information sharing

The Insurance Information Bureau of India (IIBI) maintains a central repository of all the policies of participating insurance companies. The information is maintained at an individual policy level and includes personal details of lives insured (LA). We are the first company to have an Application Programming Interface (API) integration with IIBI and we receive this information directly on real-time basis, as and when we seek it. This enables us to provide customers with accurate and quality services.

Used analytics to enable better engagement

We are deploying data analytics tools to derive valuable insights on our customers to serve them better. During the year under review, we sent over 10 lakh hyper-personalised communication for building awareness

Reduced grievances from 27 to 26 per 10,000 policies

Used of WhatsApp for various communications

We initiated communication through WhatsApp to disburse information on various events starting from the on-boarding stage. Currently, we are sending communication is sent on events such as proposal login, requirements raised, policy issuance, policy dispatch, downloading of e-policy document and intimation on return undelivered.

16 lakh customers opted for WhatsApp services

Expanded policy dispatch process through private couriers

Non-receipt of policy bonds was one of the key customer concerns and on an average constituted about 0.13% of our total policies dispatched. These policies were being returned undelivered. To address this issue, in November 2019, we tied up with local couriers to deliver the policies in major metros such as Mumbai and Delhi and their satellite cities such as Thane, Navi Mumbai and NCR on a pilot basis.

GOVERNANCE

DRIVING TRUST THROUGH
TRANSPARENCY

Since inception, integrity, excellence and ethics have been the three pillars of our corporate governance philosophy. Our governance policies and practices are in sync with the governance ethos of our promoters. We are guided by them to adopt best-in-class governance practices.

We are committed to conducting business in a manner that protects the interests of all our stakeholders. To this end, we have integrated the virtues of transparency, accountability, integrity and fair disclosures in our day-to-day operations.

MANAGEMENT DISCUSSION & ANALYSIS

I. GLOBAL ECONOMIC ENVIRONMENT

Global growth in 2019 slowed to its lowest since the global financial crisis of 2008-09. Two key factors—rising tariff-related trade tensions, especially between the US and China and general policy uncertainty—contributed to this downturn. Moreover, intensifying trade barriers and the contingencies associated with it affected business sentiments and market activities. In advanced economies and China, these challenges resulted in structural slowdowns. Concurrently, the emerging economies witnessed weakness in domestic consumption. The overall macroeconomic stress resulted in global GDP growth of 2.9% in 2019.

With this downtrend, firms across the world turned cautious on capital expenditure. There was a pick-up in second quarter of 2019 for household goods, but it weakened thereafter. Over the course of the year, central banks of major economies cut interest rates to strengthen market activities. Lower interest rates and supportive financial conditions reinforced consumption of goods and services, while also encouraging job creation. Tight labour markets and gradually rising wages, in turn, supported consumer confidence and household spending.

Globally, growth was expected to revive in 2020. In fact, the International Monetary Fund (IMF) expected global GDP to increase to 3.3% in 2020 as against the 3% growth recorded in 2019. However, the advent of the COVID-19 pandemic in the first half of 2020, injected an unprecedented amount of uncertainty into the global economy. Governments across the globe have taken measures like fiscal packages, rate cuts, quantitative easing and others to fight the economic fallout of the pandemic. The revised estimates by the IMF shows contraction of 3% in global GDP growth. The recovery of the global economy largely depends on the curtailment of COVID-19 in 2020 and development of vaccine against it.

II. INDIAN ECONOMY OUTLOOK

It was a challenging year for the Indian economy. India saw a decline in its growth rate from 7% in FY 2019 to 4.2% in FY 2020. The slowdown was attributed to weakened investments, slow domestic consumer demand and a turbulence in the non-banking financial industry. Various international organisations such as World Bank, the IMF and rating agency Moody's have cut down the GDP forecast for India. Disinvestment of Public Sector Units (PSUs), merger of public sector banks, incentivising start-ups and Micro, Small and Medium Enterprises (MSMEs) and reduction in corporate tax rate were some of the steps taken by the government to bring India back to growth track.

As the world economy struggles to fight against COVID-19, India is no exception to it. Slowdown in consumption, curbs on travel and other restrictions would hurt businesses and bring down growth in the current year. The rating agencies have slashed India's growth to below 2% in 2020.

However, this seems to be a temporary moderation as, the fundamentals of India's economy remain strong. Once the pandemic recedes, India's growth is expected to bounce back in the subsequent quarters. The government has already taken various measures like rate cuts, liquidity infusion, loan moratorium for borrower and others to revitalise the economy.

III. LIFE INSURANCE INDUSTRY DEVELOPMENTS

The life insurance industry remains resilient as it continues to grow at a healthy pace across the globe and maintain profitability at the same time, despite challenges in the global economy. The use of technology and data analytics tools to improve the overall insurance operations is the need of the hour. The global life insurance premiums grew by 2.2% in 2019 stronger than the 1.5% average of the previous 10 years. This was largely contributed by emerging economies, where premiums grew by 9.6% in 2019. India's life insurance industry stands at ₹5.08 trillion in terms of total premium as of FY 2020. It is expected that the individual savings business will be hit by rising unemployment and falling incomes due to Covid-19 pandemic. Having said that, the insurance industry is well capitalised and it has the capacity to absorb the Covid-19 earnings shock. The reinsurers have renegotiated the reinsurance rates on the back of adverse mortality experience for most insurers. Companies intend to pass on a major part of the hike to customers. The term insurance pricing is the lowest in India and as the companies increase their geographical reach, the rate hike was on the cards.

According to data published by Swiss Re Group, India has the world's 10th largest life insurance industry in terms of total premium. India's share in the global life insurance market was 2.73% in 2019. The global

life premiums are forecasted to fall by 1.5% for the next year.

Life insurance penetration

Life insurance penetration in India, which is measured as a ratio of premium to GDP rose marginally from 2.74 in 2018 to 2.82 in 2019 while density which is measured as ratio of premium to total population also increased marginally from 54.0 in 2018 to 58.0 in 2019.

In FY 2019, gross premiums written reached ₹5.08 trillion in India. Renewal premiums accounted for 57.7% while new business premiums contributed the remaining 42.3%. Total life insurance premium grew at a CAGR of 16.04% since the privatisation of the industry in 2000. The industry's Assets Under Management (AUM) grew to ₹35.33 trillion in FY 2019. New business premium, market share, product mix and distribution mix

The domestic life insurance industry registered a growth of 20.6% for new business premium in FY 2020. Private players grew by 11.6% while Life Insurance Corporation (LIC) grew by 25.2%. More than 28 million policies were sold during FY 2020 by all insurance players including LIC. While LIC grabbed a market share of 68.7% of total new business premium, the private players took a share of 31.3% during FY 2020. In terms of individual rated premium, private players have fared better, capturing a market share of 57.2% while LIC held a share of 42.8% in FY 2020.

The product mix for LIC has remained consistent in recent years. LIC focuses more on traditional products and its share in Unit-Linked Insurance Plans (ULIPs) is negligible while private players have a well-balanced mix of traditional and ULIP products. For private players, share of traditional products has increased from 58% in FY 2017 to 66% in FY 2020 while share of ULIPs has decreased from 42% in FY 2017 to 34% for FY 2020.

In terms of distribution mix of individual new business premium, private players are strengthening their presence through the bancassurance channel in recent years. However, agency channel continues to be the predominant channel for LIC with a share of 95% in individual new business premium in FY 2020. Share of agency channel in individual new business premium of private players has reduced from 30% in FY 2017 to 25% in FY 2020 while bancassurance share has been stable at 53% from FY 2017 to FY 2020.

IV. OPPORTUNITIES, RISKS AND WAY FORWARD

India continues to be one of the fastest growing life insurance markets in the world. With the help of solid economic growth and higher disposable income, the industry is expected to maintain this golden run. India is in a favourable position with an expanding young population and increasing investment and savings rate. The insurance regulatory body has taken various steps towards ensuring transparency for customers and encouraging innovation for the industry with the sandbox introduction. The life insurance industry has welcomed these new measures and see them as a

MANAGEMENT DISCUSSION & ANALYSIS (CONTD.)

good opportunity for growth. Financial savings in the country are on the rise on the back of ascending income levels, improving awareness about insurance, under-penetrated market and a widening working age population.

A. Opportunities and strategy

India's life insurance industry is globally among the top 10 with New Business Premium (NBP) delivering a CAGR of 12% over FY 2015-19. The growth in NBP is among the fastest in the world. Despite this tremendous success, the domestic life insurance industry remains under penetrated with the sum assured to GDP significantly lower than major developing and developed markets. This gives the Indian life insurance industry immense potential to expand, providing a long runway for growth for private players. This outlook is supported by several factors as enumerated here:

i. Demographic dividend

India remains one of the two largest countries in the world in terms of population, representing ~18% of the world population. Its population is expected to overtake China by 2027. The share of working population is expected to reach 40% in 2030. Given the improvement in medical science, life expectancy is also expected to reach 71 years by 2030.

Strategy: The Company is well positioned to take advantage of the demographic profile of India. It offers wide range of products for various types of customers in different age groups. With the rise in working population, the sale of pure protection products as well as ULIPs are on the rise. This capture of market share is enabled by the unrivalled distribution network of the Company with 186,495 trained insurance personnel, comprising of 130,418 Individual agents, 53,096 Certified Insurance Facilitators (CIFs) and 2,981 Specified persons (SP) on the ground. The Company has achieved a growth of 27% in its protection business in FY 2020. It continues to raise insurance awareness and develop innovative products to capture a sizeable market share of the younger population.

ii. Growing urbanisation

The size of the urban population has been on the rise with better employment and lifestyle opportunities in these areas. India's urban population is expected to accelerate at 2.4% CAGR between FY 2015 to FY 2020 as compared to overall population growth of 1.1% during the same period. The share of the urban population rose steadily from 27.7% in 2000 to an estimated 34.5% in 2019 and is expected to increase up to 40.1% by 2030. iii. Digital penetration

Digital technologies have already disrupted business functions across industries, and the insurance sector remains no exception. Digitisation remains the key to future growth of the life insurance industry; and the adoption of technology can ultimately lead to increased customer satisfaction. The Indian e-commerce industry has been registering an upward growth trajectory and is expected to surpass the US to become the second largest e-commerce market in the world by 2034. The Government of India has increased its budget to promote Artificial Intelligence (AI), Machine Learning (ML) and other digital technologies to promote its Digital India Programme. Such investments from the government will make technology adoption fast and easy among people and industries.

Strategy: The Company continues to deploy new digital technologies as an enabler across all aspects of its business, including products, distribution and services. This deployment results in enhancing customer experience across various touchpoints. The Company has adopted various mobile and web-based applications for both customers and sales representatives. It uses different digital marketing tools and data analytics to increase penetration and capture the market share. This has led to an increase of 56% in policies sold through online channel and web aggregators.

iv. High protection gap

Despite a thriving life insurance industry in India, the market remains under penetrated with low risk coverage. This coupled with high protection gap provides tremendous untapped potential for growth of India's life insurance industry. While 'protection margin' is the ratio between protection gap and protection needs; 'protection gap' is the difference of resources required to maintain the standard of living and resources

readily available (such as savings, life insurance, etc). According to Swiss Re report, while the protection gap for India at US\$ 8.5 trillion is higher than its major global peers, the protection margin at 92% is also one of the highest in the Asia Pacific region. This highlights that majority of the population still remains under-insured. Also, credit protect remains one of the growing and high-focused segment.

Strategy: The protection business continues to focus area for the Company and it offering in this segment includes individual protection, group term and credit life protection (loan coverage). Unique products like Poorna Suraksha and Sampoon Cancer Suraksha offer protection as well as other benefits. This continued focus on protection will help reduce the protection gap in India.

v. Continued financialisation of savings

There has been an increasing preference among the target population towards financial savings in the last few years. Under financial savings, there is a significant inclination towards life

insurance since it caters to both protection and long-term savings requirements. Moreover, the government is also undertaking various steps to bolster financial inclusion. People at large are now favouring life insurance as a part of their financial planning.

Household Savings and Financial Savings (%)

Due to demonetisation in late FY 2017, currency holdings of households rose sharply in FY 2018 on account of re-monetisation, reflecting in the extraordinary growth in currency holdings and subdued growth in bank deposits. FY 2019 witnessed the return of normalcy in their levels.

The share of life insurance in financial savings has decreased to 17.4% in FY 2018 from 23.2% in FY 2020. The shift from physical savings to financial savings, improvement in product proposition along with increasing fundamental drivers of Indian economy will continue to boost growth for the life insurance sector.

Share of life insurance in financial savings (%)

Strategy: The Company continues to raise awareness about life insurance and encourage customers to park their savings in life insurance as it offers benefits of savings coupled with protection. The Company offers 34 different products to meet specific end-goals (ranging from long-term investment to pure protection

under individual as well group platform) to make insurance an attractive investment proposition for customers, depending on their risk profile. It has a strong distribution network of 186,495 trained insurance professionals and 937 offices, which provide direct touchpoints for customers. The Company interacts with customers through multiple channels to make them aware of the long-term safety, stability and growth of funds through insurance.

vi. Pension and annuities

Currently, India has one of the lowest private pension assets to GDP ratio at 5% due to its young demographic profile and low per capita income. Only 9% of its population is above 60 years of age. However, its share is expected to increase to 13% by 2030 and 19% by 2050. The National Pension Scheme (NPS) introduced by the government presents a huge opportunity to empanelled life insurance companies, where 40% of the corpus is required to be annuitised. With introduction of tax breaks in 2016, individual NPS subscribers have increased. These factors will provide the necessary boost to the annuity segment for life insurers.

Strategy: Acknowledging the importance of pensions and annuities in future, the Company has an individual immediate annuity product, group immediate annuity product, a unit-linked pension product and a participating pension product. Under NPS scheme, at the time of vesting, 40% of the corpus must be mandatorily annuitised. This provides a huge opportunity for the Company in the annuity segment. Assets Under Management (AUM) of pension and annuity products account for 10.2% of the total AUM. The Company is also one of the insurance companies authorised as Annuity Service Providers under NPS scheme by Pension Fund Regulatory and Development Authority (PFRDA).

B. Risks and concerns

Risks are an integral part of any business and managing them is important for sustainability of the business. The life insurance industry faces several risks in the form of distribution challenges, change in customer preferences, market fluctuations and others. The inability to meet the evolving customer requirements is also a tremendous risk as it has the potential to hamper growth. Key macroeconomic factors affecting the industry are change in tax structure, global slowdown in financial markets, higher return on other saving products and slowdown in domestic GDP growth rate. Besides, insurance companies need to continuously innovate and digitalise their operations, concurrently managing the risks associated with over dependence on digitalisation to maintain their competitive edge.

The Company has instituted an enterprise risk management framework which details the governance and management of all aspects of risks that it faces. The Company's risks and its approach towards managing them has been highlighted in the Enterprise Risk Management section of the Annual Report.

C. Outlook

- On a global front, as the world economy goes through economic turbulence, the growth of the insurance industry in the coming decade will depend on the successful integration of innovation in technology into legacy environments
- India is going to be one of the fastest growing economies in the world and life insurance industry will be at the forefront of this growth on the back of favourable macros. The India Brand Equity Foundation (IBEF) has estimated India's life insurance industry to grow by 12-15% annually for the next 3 to 5 years
- Increase in per capita income, favourable demographic profile and higher personal disposable income are some of the key factors that will lead the growth of the insurance sector in the coming years. The increasing awareness of life insurance among people will be a catalyst for growth in future, with a focus on protection segment
- One of the biggest challenges will be the change in rates by reinsurance companies. This might result into protection policies becoming dearer for customers. But having said that, premium rates for protection policies were already among the lowest in India
- Though regulatory changes may have created some interim setbacks in the past but going forward the insurance industry is well positioned for growth on the back of a stable regulatory environment
- Increasing adoption of technology like robotics, block chain and cloud computing will drive efficiencies, improve cost ratios and provide best-in-class services to our customers

Investment in analytics will likely be a key factor in upgrading operations of insurance companies, which will lead to a better customer experience.

V. REGULATORY UPDATES AND DEVELOPMENTS

Insurance Regulatory and Development Authority of India (IRDAI) is the regulatory authority for the country's insurance sector. The regulator has released a number of circular and guidelines and other exposure drafts providing indication of the upcoming regulatory changes in the pipeline. The key highlights on recent regulatory changes impacting the Indian life insurance sector are as follows:

a) Product regulations

During FY 2020, the IRDAI has notified new product regulations i.e. IRDAI (Unit-Linked Insurance Products) Regulations, 2019 and IRDAI (Non-Linked Insurance Products) Regulations, 2019.

- Increase in the revival period of linked and non-linked policies up to 3 years and 5 years respectively from the date of first unpaid premium (earlier up to 2 years only).
- Commutation of pension allowed up to 60% of the fund value earlier it was up to 1/3rd of the fund value
- For all non-linked individual products, the minimum Sum Assured on death shall not be less than 7 times the annualized premium for regular premium products and 1.25 times the single premium for single premium products.
- Partial withdrawal allowed under Pension policies after lock-in period against reasons as stipulated in the regulations.

b) Sandbox reform

The IRDAI has proposed to create a Regulatory Sandbox with an objective to promote innovation in insurance sector, in a way that provides Insurtech in particular and the Fintech sector, flexibility in dealing with regulatory requirements. As a part of this initiative, IRDAI has introduced a 'regulatory sandbox environment' wherein companies can come up with innovative business models, products and processes for a specific period of time. This could facilitate innovation in insurance which can provide solution to a range of issues like increasing operational efficiency, meeting customer expectations and better identification and management of risk.

c) Change in individual tax rate structure

Finance Act, 2020 introduced a new tax rate structure for individuals wherein flat rates will be applicable and no deduction/exemption can be claimed under it. The individual assesses are given an option to choose between the old and the new tax regime. While tax exemptions do incentivise people to buy insurance, it is not the sole purpose. Given the huge protection gap in India and rising protection contribution in the product mix, the long-term investment case for insurers remains intact. Our analysis suggests higher tax incidence for most income brackets in the new regime.

d) The Aadhaar & Other laws (Amendment) Ordinance, 2019

Ministry of Law and Justice has notified The Aadhaar & Other Laws (Amendment) Act, 2019. The Act has introduced 'alternative virtual identity' i.e. Virtual ID (VID) officially in the definition of Aadhaar Number and concept of "offline

MANAGEMENT DISCUSSION & ANALYSIS (CONTD.)

verification" and "offline verification entity" has been introduced. Aadhaar number may be used only on voluntary basis, with the informed consent of the Aadhaar number holder. Collecting, using or storing the Aadhaar or Biometric information is strictly prohibited. Penalty on contravention to the Act could extend up to ₹ 1 crore.

Amendment to Prevention of Money-laundering Act, 2002 permits 'offline verification' as valid mode to validate identity. Also, it provides opportunity to initiate Aadhaar authentication to sectors beyond banking.

e) Actuary Regulations

IRDAI has issued IRDAI (Appointed Actuary) (Amendment) Regulations, 2019 for the life insurance sector.

f) Ind AS update

The IRDAI (Authority) has issued a circular dated June 28, 2017, deferring the implementation of Ind AS in insurance sector in India for a period of two years to be effective from FY 2021. The said circular, however, requires the submission of proforma Ind AS financial statements on quarterly basis.

The IRDAI (Authority) subsequently vide its circular dated January 21, 2020 has withdrawn its erstwhile circular dated June 28, 2017 on implementation of Ind AS from FY 2021 and dispensed with the requirement of quarterly submission of Proforma Ind AS financial statements on account of proposed amendments in International Financial Reporting Standards (IFRS) 17 by International Accounting Standard Board (IASB). Thus, effective date of IND AS implementation shall be decided by the IRDAI post finalisation of IFRS 17 by IASB.

On March 17, 2020 the IASB discussed the last amendment to IFRS 17 to defer the effective date of IFRS 17 (incorporating the amendments) to annual reporting periods beginning on or after 1 January 2023.

g) Stewardship Code

IRDAI has issued a revised set of stewardship guidelines for insurance companies to closely monitor the companies they invest in. The new guidelines are aimed at monitoring and engaging with investee companies on matters such as strategy, capital structure and corporate governance. The new Code has made voting compulsory for insurance companies holding 3% or more of the paid-up capital in an investee company.

h) Benefit Illustration and market conduct

IRDAI has revised the format of Benefit Illustration (BI) for different product categories sent to customer at the point of sale. The BIs shall be approved by the AA and CEO and placed before the Board for information. In case of online sales, BI must get generated before customer fills the application form.

IRDAI has also made it mandatory for insurance companies to have a Board approved policy on need-based selling. Product recommendation to the customer should be based on suitability information provided by the prospect. Further, explicit consent should be obtained from the person visiting insurer's website before collecting mobile no/ email ID of the person.

VI. SEGMENT-WISE BUSINESS PERFORMANCE

The life insurance sector can be classified based on products into non-linked and unit-linked products. Non-linked products are traditional products with a protection and savings element built in or only pure-protection products. Non-linked products are further classified into participating products and non-participating products. Participating products have variable returns, as it is linked to the performance of the insurance company. Linked products' returns, on the other hand, are tied to the performance of debt and equity markets.

New business performance of the Company can be analysed based on the following segments:

Sr. No.	Segments					(₹ in billion)
		FY 2020	FY 2019	Product Mix (FY 2020) (%)	Y-o-Y Growth (%)	CAGR (FY 2017 – FY 2020) (%)
1.	Participating segment	11.55	17.60	7.0	(34.4)	2.0
2.	Non-participating segment					
	- Individual savings	15.09	2.23	9.1	577.1	107.1
	- Group savings	37.71	28.51	22.7	32.3	4.8
	- Individual protection	5.29	3.71	3.2	42.5	74.2
	- Group protection	15.53	12.72	9.4	22.1	58.5
3.	Linked segment	80.75	73.15	48.7	10.4	16.5
	Total NBP	165.92	137.92	100.0	20.3	17.8

A brief description of the segments is given below:

1. Participating segment

Participating life insurance offerings include products where the insured participate in the profits of the underlying investment pool during the term of the policy. These are savings cum protection products that provide a guaranteed sum assured and long-term returns through participation in surplus, if any, generated from these policies. The policyholder is entitled to at least a 90% share of the surplus emerging in the participating fund and the remaining belongs to the shareholders. The Company offers participating insurance products that are designed to provide benefits over the entire life of the policyholders (whole life insurance), as well as products that provide benefits over defined periods (endowment life insurance).

New business premium from participating segment constitutes 7.0% of the total new business premium of FY 2020.

2. Non-participating segment

The non-participating segment comprises individual savings, group savings and protection segments. These products cover the insured for a specific period and the insured do not participate in the profits of the underlying investment pool. Surplus arising in case of non-participating business is transferred to shareholders' account on recommendation of the appointed Actuary.

i) Individual savings

The individual savings segment comprises an endowment product, a variable insurance plan and an immediate annuity product.

a) Endowment product

An endowment product pays the sum assured to the beneficiary in case of any unfortunate event before the maturity date or pays the amount to the insured on completion of the specified term.

b) Variable insurance plan

In a variable insurance plan, the benefits are partially or wholly dependent on the performance of an approved external index/benchmark which is linked to the product.

c) Immediate annuity product

An immediate annuity product guarantees a defined income, commonly known as pension, for the lifetime of the policyholder, thereby covering their longevity risk. These payouts begin immediately on purchasing the product.

New business premium of individual savings segment constitutes 9.1% of the total new business premium for FY 2020 and has increased from ₹ 2.23 billion in FY 2019 to ₹ 15.09 billion in FY 2020, registering growth of 577.1%.

ii) Group savings

Group savings segment consists of group fund management products and an immediate annuity product.

a) Fund-based group insurance products

These cater to the needs of employers looking at financial solutions to fund their employees' benefit schemes including gratuity, superannuation and leave encashment.

b) Group immediate annuity product

This is primarily for corporate clients (employer-employee groups) and other informal groups, who wish to purchase an annuity to provide for their annuity liability.

New business premium from group savings segment has increased by 32.3% in FY 2020 as compared to FY 2019.

iii) Protection

The protection segment includes both individual as well as group products.

a) Individual protection products

These products offer benefits that are guaranteed in absolute terms on the occurrence of a particular event at the beginning of the policy. They expire without value if the designated event does not occur. The risk covered in most cases covers death of the insured but may also include permanent disability or diagnosis of critical illness. This segment also includes health products, which insure against expenses arising due to medical emergencies such as hospitalisation or critical illness.

b) Group protection segment

This includes credit life products, which provide insurance to banks and financial institutions in relation to repayment of outstanding loan amount in the event of death or disability of the insured members of the group. Group protection segment also includes products that provide life insurance coverage to a group of individuals, where, upon the death of a member, the sum assured is paid to the member's nominee.

New business premium from protection segment has registered a strong growth of 26.7%. Due to continuous focus, individual new business premium for the protection segment has increased by 42.5%.

MANAGEMENT DISCUSSION & ANALYSIS (CONTD.)

3. Linked segment

Linked products provide the benefit of investment as well as protection. They provide returns directly linked to the performance of the underlying funds and have a transparent charge structure which is explicitly stated at the outset. The investment risk on these products is borne by the policyholder. This segment also includes a fund-based group gratuity, superannuation and leave encashment product for employers. Surplus arising in case of unit-linked business is transferred to shareholders' account on recommendation of the appointed Actuary.

New business premium from linked segment has increased at a CAGR of 16.5% from FY 2017 to FY 2020 and comprises 48.7% of the total new business premium of FY 2020. The growing popularity of linked products is due to favourable market movement over a few years.

- a. Gross written premium increased by 23.2% from ₹ 329.89 billion in FY 2019 to ₹ 406.35 billion in FY 2020 mainly due to strong growth in individual renewal premium by 27% and rise in individual single premium by 116%.

- b. Individual new business premium has grown by 16.7% from ₹ 96.36 billion in FY 2019 to ₹ 112.45 billion in FY 2020 due to increase in new business premium from Linked Life, Non-Par Life and Annuity segment.
- c. The group new business premium expanded by 28.7% from ₹ 41.56 billion in FY 2019 to ₹ 53.48 billion in FY 2020 mainly on account of rise in new business premium from Fund Management business and Annuity business.
- d. The renewal business has hiked by 25.2% from ₹ 191.97 billion in FY 2019 to ₹ 240.42 billion in FY 2020 majorly due to growth in individual renewal business from linked life, par life and health segment.

The following chart depicts the growth in the Company's total premium over the years:

ii. Investment income

The summary of investment income is as follows:

1. Interest and Dividend includes net of Accretion of discount/(Amortization of premium)

Total income from investment was ₹ 28.73 billion in FY 2020 comprised ₹ (32.34) billion under unit-linked portfolio and ₹ 61.07 billion under traditional portfolio. Total investment income has decreased by ₹ 82.39 billion from ₹ 111.12 billion in FY 2019 to ₹ 28.73 billion in FY 2020, primarily on account of reduction in change in fair value on account of fall in valuation of equity portfolio. The yield on investments decreased from 9.51% in FY 2019 to 2.45% in FY 2020.

Traditional portfolio (Par and Non-Par)

Total investment income under traditional portfolio increased by ₹ 9.82 billion from ₹ 51.25 billion in FY 2019 to ₹ 61.07 billion in FY 2020 primarily due to following:

- a. Interest income (net of amortisation and accretion) under traditional portfolio rose by ₹ 6.35 billion from ₹ 44.96 billion in FY 2019 to ₹ 51.31 billion in FY 2020 due to surge in investment of debt securities by 13.0% under traditional portfolio.

- b. Net profit on sale of investment under traditional portfolio expanded by ₹ 3.01 billion from ₹ 6.60 billion in FY 2019 to ₹ 9.61 billion in FY 2020 due to profit booking.

Unit-linked portfolio

Total investment income under unit-linked portfolio has decreased by ₹ 92.21 billion from ₹ 59.87 billion in FY 2019 to ₹ (32.34) billion in FY 2020 mainly due to fair value change. Fair value change has decreased by ₹ 100.76 billion from a gain of ₹ 20.55 billion in FY 2019 to a loss of ₹ 80.21 billion in FY 2020 primarily due to mark to market losses in the unit-linked segment in FY 2020 vis-à-vis the previous year. During FY 2020, Sensex has decreased by 23.8% as against an increase of 17.3% in the previous year. The change in fair value is offset with the corresponding decrease in unit-linked liability (fund reserves) as it is passed to linked policyholders.

ix. Surplus (Revenue account), transfer to Shareholders' account (Profit and loss account) and Fund for Future Appropriation (FFA)**a. Surplus (Revenue account)**

As a result of the above changes in income and expenses, surplus has increased from ₹ 10.86 billion in FY 2019 to ₹ 18.95 billion in FY 2020.

Segment-wise breakup of Surplus is as under:

Particulars	(₹ in billion)	
	FY 2020	FY 2019
Participating segment	5.84	2.23
Non-participating segment	2.56	4.70
Unit-linked segment	5.78	2.95
Surplus (net of Contribution from Shareholders)	14.18	9.88
Add: Contribution from Shareholders	4.76	0.99
Surplus	18.95	10.86

b. Transfer to shareholders' account (profit and loss account)

The surplus generated in the Revenue account after setting aside fund for future appropriation is transferred to the Profit and Loss Account (Shareholders' Account) based on the recommendation of the appointed Actuary. Transfer to Shareholders' account has increased by 46.5% from ₹ 9.98 billion in FY 2019 to ₹ 14.63 billion in FY 2020. The remaining surplus of ₹ 4.32 billion was retained as fund for future appropriation.

Participating segment: Profits from participating business depend on the total bonuses declared to policyholders on an annual basis. Currently an amount of one-ninth of the bonus declared to policyholders is transferred to shareholders. Bonus declared has increased from ₹ 12.10 billion in FY 2019 to ₹ 13.72 billion in FY 2020 resulting in an increase in profit which is transferred to Shareholders. The amount transferred to shareholders increased to ₹1.52 billion in FY 2020 from ₹1.34 billion in FY 2019.

Non-participating segment: In case of non-participating business, profit arises primarily from premium and investment income net of expenses, claims and policyholder liabilities. Profit in non-participating segment decreased from ₹ 4.70 billion in FY 2019 to ₹ 2.56 billion in FY 2020.

ULIP segment: In case of unit-linked business, profit arises only from the charges (net of expenses) levied on policyholders. Under unit-linked business, total business from linked business increased by 24.3% which has led to an increase in profit from ₹ 2.95 billion in FY 2019 to ₹ 5.78 billion in FY 2020.

c. Funds for Future Appropriations (FFA)

FFA represent surplus funds which have not been allocated either to policyholders or to shareholders as at the valuation date. During the year, a sum of ₹ 4.32 billion has been transferred to fund for future appropriation.

B. Profit and loss account (shareholders' account)

MANAGEMENT DISCUSSION & ANALYSIS (CONTD.)

The equity shares of the Company were listed on National Stock Exchange Limited (NSE) and Bombay Stock Exchange Limited (BSE) on October 03, 2017.

- b. **Reserves and surplus**
Increase in reserves and surplus is on account of profit earned during the year and increase in securities premium as a result of issue of stock options.
- c. **Fair value change account**
Fair value change account represents unrealised gains (net of unrealised losses) on equity and mutual fund holdings in shareholders' investments as on the respective balance sheet dates. The decrease in fair value change is predominantly because of the sharp fall in the equity market in March 2020.

ii. Policyholders' Funds

The summary of policyholders' funds is as follows:

Particulars	(₹ in billion)	
	As on March 31, 2020	As on March 31, 2019

Funds for discontinued policies	51.25	33.76
Total Policyholders' Funds	1,531.01	1,351.40

- a. **Policyholders' traditional liabilities**
Fair value change account represents unrealised gains (net of unrealised losses) on equity and mutual fund holdings in non-linked policyholders' investments as on the respective balance sheet dates. The decrease in fair value change is predominantly because of negative performance by Indian equity markets.

The movement in policy liabilities is a consequence of various factors such as receipt of premium (both new business and renewal), surrenders and other claims, various actuarial assumptions and other factors varying on a product to product basis.

The reserves on traditional policies are estimated by using prospective gross premium valuation method. Mathematical reserves are calculated based on future assumptions having regard to current and future experience e.g. interest rates, inflation, mortality, morbidity and expense.
- b. **Policyholders' linked liabilities**
The policyholders' linked liabilities represents the unit liability in respect of linked business and has been considered as the value of the units standing to the credit of the policy holders, using the Net Asset Value (NAV) as on the valuation date.

iii. Funds for future appropriation

IX. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has aligned its internal financial control system with the requirements of the Companies Act 2013, on lines of globally accepted risk-based framework as issued by Committee of Sponsoring Organisations (COSO). The internal control framework is intended to increase transparency and accountability in an organisation's process of designing and implementing a system of internal control. The framework requires it to identify and analyse risks and manage appropriate responses. The Company has successfully laid down the framework and ensured its effectiveness. Its internal financial control framework is based on 'three lines of defence model'. It has laid down standard operation procedures and policies to guide the business operations and has a well-defined delegation of power with authority limits for approving revenue and capital expenditure. Statutory, Concurrent and Internal Auditors undertake testing of the control environment of the Company. It also has a Chief Audit Officer with a dedicated in-house internal audit team which is commensurate with the size, nature and complexity of operations of the Company. The internal audit plan covers Information System Audit, different process audit as well as transaction based audits at the Head office, Regional Offices and across various branches of the Company. The approach of the audit is to verify compliance with the regulatory, operational and system related controls.

X. MATERIAL DEVELOPMENTS IN HUMAN RESOURCES

We believe that our employees are our most valuable assets. They play a pivotal role in achieving all our business objectives as well as partner us in fulfilling our social responsibilities. Our endeavour is to attract the best and the brightest individuals, provide them with rich developmental opportunities, support them to maintain a healthy work-life balance and recognise their achievements through various rewards & recognition schemes.

We have a robust selection process which identifies the best fit for the company. The induction and hand-holding process consists of tailor made induction programs developed and improvised constantly to equip the new recruits with knowledge and skills to excel in their role and deliver the highest order of customer satisfaction.

Our rewards philosophy comprises of a mix of salary, benefits, and various short and long term incentives. It is designed to encourage our employees for superior performance, producing better results and thus creating customer delight. The benefits offered to the employees are designed to provide them a sense of security and fulfil their personal and professional aspirations. For example, we offer medical insurance top up options for our employees as well as their family members. A facility of annual Health Check-up was introduced during the year for employees through a healthcare aggregator on a

Pan India level. Not only are the female employees provided fully-paid maternity leave, but the male employees are also provided fully-paid paternity leave. Employees are well supported during their life-cycle events by facilities like sabbatical leave, child adoption leave and study leave which provide them a flexibility to balance career and personal life events effectively. The employees are encouraged to acquire higher industry specific functional and technical qualifications and are rewarded suitably.

The Employee stock option scheme of the company aims to incentivize high performers by aligning their interests with those of the shareholders; creating a win-win situation for both employees and shareholders. It assists the Company in long term value creation as the focus will be to ensure sustainability of business results over a period of time. During FY 2019-20, the company granted 959,350 options to its employees, which will vest over a period of 3 years. The vesting of options is dependent on achievement of certain performance criteria.

Our performance management system, LEAP (Leading through Excellence And Performance), is based on balanced scorecard approach. This tool provides a framework for setting clear expectations, providing positive feedback and delivering an effective performance assessment, where the rewards are directly linked with overall company dashboard performance. Apart from balanced scorecard, the LEAP process is complemented by Individual Development Plan (IDP). Under IDP, customized personal development sessions are conducted. The program focuses on strategic thinking, capability building, and execution excellence.

We put concerted efforts in talent management practices to ensure that the Company consistently develops inspiring, strong and credible leadership. To achieve this, we focus on giving cross-functional exposure to our people, thus effectively multi-skilling them. These people practices create a workforce that is more flexible and efficient in responding to customer needs and market demands. Such exposures ensure that an individual taking on a new role, also has the skills to handle it.

To promote collaboration and a sense of belongingness, we drive employee engagement through various team events like off-site meet, team dinner, annual day event "Sangam" where employees and their families come together and join in the celebrations.

The company, one of the most trusted private Life insurance brands, is now more than 19 years old. Our family has grown from 14,961 employees as on March 31, 2019 to 16,759 employees as on March 31, 2020 i.e. a growth of 12%. The average age of employees is around 36 years. The average tenure is around 4 years and 7 months which demonstrates a sense of belongingness resulting from the mutual trust between employees and the organization.

The Company's direct sales primarily comprise sale of group products, as well as standardised individual products sold through online offerings.

3. INDUSTRY AND COMPANY OUTLOOK

It was a challenging year for the Indian economy. India saw a decline in its growth rate from 7% in FY 2019 to 4.5% in FY 2020. The slowdown was attributed to weakened investments, slow domestic consumer demand and some turbulence in the non-banking financial institutions. Various international organizations such as World Bank, International Monetary Fund (IMF) and rating agency Moody's have cut down the GDP growth forecast for India. Disinvestment of PSUs, merger of public sector banks, incentivizing start-ups and MSMEs and reduction in corporate tax rate were some of the steps taken by the government to bring India back to growth track.

As the world economy struggles to fight against COVID-19, India is no exception to it. Slowdown in consumption, curbs on travel and other restrictions would hurt businesses and bring down the growth in the current year. One of the rating agencies has slashed India's growth to 2.5% in 2020.

Having said that, the fundamentals of the Indian economy remains strong. If India is able to control the spread of the pandemic, this seems to be a temporary moderation in the GDP growth rate and the economy will be expected to bounce back in the coming quarters. The government has already taken various measures like rate cuts, liquidity infusion, loan moratorium for borrower and many more to revive the economy.

Life insurance business in India is likely to contract in 2020, with growth declining 0.9% in 2020, compared to 8.8% growth recorded in 2019, due to the outbreak of COVID-19 and the subsequent lockdown. Further, India's life insurance market is forecasted to grow at a compound annual growth rate (CAGR) of 5.3% during the forecast period 2019-2023. (Source: data and analytics company GlobalData)

DIRECTORS' REPORT (CONTD.)

Key challenges are listed below:

Low interest rates and persistent barriers to growth: Low interest rates, stagnant growth and the growing likelihood of a global recession define the challenging economic reality for insurers around the world. These dynamics place real pressure that insurers feel not only on their bottom lines, but also in their strategic plans, transformation programs and new product.

Low interest rates are the biggest challenge to growth, especially for life insurers. These conditions are the new normal, the latest round of monetary easing is increasing the pressure and negative yields are now appearing in both government bonds and the corporate market. Weakening GDP growth and trade tensions further complicate the macro outlook for insurers. The increasing likelihood of the next financial crisis as investors hunt for yields may push them toward increasingly riskier asset classes.

All of these forces add up to a major challenge for insurers, especially given that insurers derive majority of their profits from investment income. The erosion of investment returns from low interest rates, tightening spreads and inverted yield curves will not only undercut this critical source of profitability, but also potentially put ratings at risk.

Shifting demographics: Demographic shifts around the world present insurers with both risks and opportunities. Aging populations and low birthrates are a challenge in many markets. In contrast, growing middle classes in a number of developing countries have been a huge boon to insurers.

In many developing market especially Asia, are experiencing stronger growth and a growing middle class. Market dynamics in many of these countries are favorable to insurers. For instance, demand for insurance policies rises where consumers place a high value on savings and preparing for the future. Similarly, the importance of private insurance is elevated when government-sponsored social programs are relatively weak. Finally, as an economy develops, small to medium enterprises (SMEs) start looking for insurance coverage and larger companies need help in protecting themselves across complex value chains that often span across multiple countries or regions.

Rising customer expectations: Customer expectations - largely around digital channels and bespoke experiences - have been rising and will only get higher in the near future. Creating unique and personalized customer experiences has been a priority for many years, indicating that many companies are still playing catch-up and remain vulnerable to non-traditional players. Thus better customer experiences have been a priority for years - and will remain one for the foreseeable future.

Regulatory update:

FY 2019-20 witnessed the notification of several key orders and circulars by the IRDAI. This includes a

circular on guidelines to be followed in the preparation of financial statements by life insurers. The insurance industry looked poised to experience growth and innovation, with IRDAI inviting applications for Regulatory Sandbox and constituting a committee for the scrutinisation of the applications received.

Additionally, the regulator has issued various regulations/circular for the life insurance sector such as IRDAI (Appointed Actuary) (Amendment) Regulations, 2019, IRDAI (Unit linked insurance products) Regulations, 2019 and IRDAI (Non-linked insurance products) Regulations, 2019, Master Circular on Point of Sales (POS) Products and Persons - Life Insurance, Revised guidelines on Stewardship Code IRDAI circulars in respect of COVID-19 etc.

The Company strategy focuses on the following:

1. Leveraging life insurance industry growth through deeper penetration, increasing share of protection business and increasing market share through a balanced portfolio of protection and savings products.
2. Increasing geographical reach by using our expansive distribution network and strengthening our distribution mix by leveraging relationships with new corporate agents, broker partners and web aggregators.
3. Maximising customer satisfaction by offering comprehensive suite of products of transparent nature at competitive prices and improving customer experience from client on-boarding to claims settlement.
4. Digitisation and automation of sales processes to improve distribution and operational efficiencies.

4. COVID 19

The COVID-19 Pandemic has spread with alarming speed, infecting millions and bringing economic activity to a near-standstill. It has pushed businesses across sectors to change the way they operate and the insurance industry is no exception. From selling new policies to settling claims, the extended lockdown in the wake of COVID-19 has pushed companies to depend heavily on their digital architecture through online business. The main concern for the Company is the protection of its employees, its distribution partners' health and safety along with business continuity.

Business Continuity

This nation-wide lockdown required the Company to activate its Business Continuity Plan (BCP) to enable operations to run with minimal disruptions. The Company had made a quick transition to Work from home (WFH) with the use of portable devices through Company's Virtual Private Network (VPN) to the employees ensuring requisite data security controls. The Company also continued to deliver to its customers by providing 24x7 availability through our

digital platforms. The Company identified immediate significant challenges to alter operations based on advisories issued by government as a part of Business Continuity Plan to ensure compliance as well as effective conduct of operations.

Information & Cyber-security

Activating remote working comes with its own set of challenges, including managing information security, infrastructure and vulnerability to phishing attacks. Technology infrastructure has made sure that working from home doesn't mean working without security. Continuous monitoring is in place to ensure information security to be of utmost importance along with business continuity. Necessary steps will be taken to mitigate any risks relating to information & cyber security. As the processes of the Company are mostly system driven, there have been no material change in the controls or processes and all the material controls are found to be operating effectively.

New business

The drive taken by the Company in the recent past to migrate from physical forms to digital onboarding of the customers has helped us in a big way to source the proposals based on the insurance needs and requirements of the customers in this pandemic. The pandemic is having a huge psychological impact on the consumers' behavior, we believe that in short to medium term the protection products along with long term investments products will gain momentum and insurance will be more prioritized for financial immunity and safeguard of family from uncertainty of life and health.

Risk assessment

The Company has assessed various risk scenario like short term outbreaks to medium term pandemic and to long term pandemic. In such stress scenarios, the Company has reassessed financial risk, operational risk and business continuity measures. The Company has re-evaluated mortality and morbidity assumptions, persistency, growth & projections, reinvestment strategies, duration & asset liability management, etc.

The Company invests in well diversified investment portfolio consisting of Government Securities, bonds & debentures, equity shares, money market instruments, fixed deposits, etc. The Company's major investments are in large cap Nifty 50 Index stocks, sovereign and AAA rated securities with strong group backing which indicate safe and reliable assets quality. The substantial portions of the investments are readily marketable providing sufficient liquidity. The Company do not have major concentration in any major industry, which might have adversely impacted due to COVID-19. The Company has evaluated the recoverability of all its investments and expects to recover the carrying amount of these assets. The Company has considered internal and external sources of information including credit reports, economic forecasts and industry data in

assessing and evaluating the impact of this pandemic COVID-19 on the business operations and financial results of the Company.

The Company has evaluated its liquidity position and of recoverability and carrying value of its current assets majorly consisting of accrued investment income and other receivables. Based on the assessment, the Company expects to recover the carrying amount of all these assets.

Impact of Covid-19 on policy liabilities would be on account of factors like discount rate and mortality assumptions used for valuation. There is reasonable level of prudence provided in the valuation interest rate assumption.

It is expected that due to this pandemic there would be increase in mortality claim since the pandemic has been affecting individual lives. The valuation mortality assumption has reasonable prudence to take care of fluctuations in claim. Also, reinsurance arrangements are in place to reduce the risk exposure.

The customers utilized the grace period in making the renewal payments in early months of FY 21. Renewal trends can be expected to gradually pick up and accordingly persistency should be seen maintained at the current levels.

Based on the Company's current assessment of the business operations over the next year, it expects the solvency ratio to continue to remain above the minimum limit requirement of the IRDAI.

Future outlook

The impact of COVID-19 has already been significant on the global economy. However, the future impact of COVID-19 on business operations of the Company and the additional requisite mitigation measures that will be required by Company will be based on how long the pandemic lasts and what happens once normality returns. A lot depends on the availability of an approved vaccine as well. The actual impact of COVID-19 may differ from that estimated at present. The Company will continue to closely monitor any future developments relating to COVID-19 which may have any impact on the business and financial statements.

5. DIVIDEND AND RESERVES

The Company's profit after tax grew by 7% to ₹14.22 billion in FY 2020 from ₹13.27 billion in FY 2019. The Board of Directors of the Company has not declared any dividend during the year after taking cognizance of the IRDAI circular no. IRDAI/F&A/CIR/MISC/099/04/2020 dated April 24, 2020 on "Prudent management of financial resources of insurers in the context of Covid-19 pandemic".

The Company has carried forward ₹ 14.22 billion to its reserves and surplus, and had accumulated balance of ₹78.8 billion as on March 31, 2020.

DIRECTORS' REPORT (CONTD.)

11. PRODUCTS

SBI Life has a wide range of products catering to various customer needs in the life, health, pension & micro-insurance segments. These products are customer centric, simple to understand and have competitive features.

To maintain its competitive edge in the market, the Company has reviewed and modified thirty-three existing products & six riders (individual and group) during FY 2020. The products pertaining to various categories such as Protection Plans, Retirement Solutions, Wealth Creation Plans, Savings Plans & Child Plans were modified in line with the IRDAI (Insurance) Product Regulations, 2019.

The following two products were already compliant with the IRDAI (Insurance) Product Regulations, 2019.

- 1) SBI Life - Pradhan Mantri Jeevan Jyoti Bima Yojana (UIN:111G102V01)
- 2) SBI Life - Swarna Jeevan (UIN:111N049V04)

In addition to the two products above, five Group riders are also compliant with the Regulations.

The Company had also launched one new product, SBI Life- Smart Platina Assure (UIN: 111N126V01) and modified four existing products prior to the implementation of the IRDAI (Insurance) Product Regulations, 2019 in view of the changing interest rate scenario and to accommodate market demand.

In view of the changing market demand and Regulations, eight products and three riders (individual and group) were withdrawn from the market during the year.

12. CUSTOMER AND PARTNER SERVICE ENABLEMENT

During the year under review, the Company has been in a position to handle a total volume of 15.51 lacs Individual NOP's and total Premiums of ₹ 165.92 billion in New Business, resulting in an increase of 20% in total New Business growth.

Apart from this, the company has also managed to collect Renewal Premium of ₹ 240.42 billion, showing an increase of 25% in Renewal Premium Collection Business.

The company is continuously striving to achieve and scale new heights of performance and raising the bar, by improving its processes, training and reskilling resources and improving the various digital platforms launched for its stake holders- Its Customers, Distributors and Business Partners. We strongly believe, that in the present day digital world, it is extremely necessary to empower the stakeholders digitally, and have been taking several steps towards the same. While working towards raising the bar in "End to End" digital services, the company also understands that customers and partners come from varied demographics and there is never a single "One

Size fits all" solution. Entire endeavours towards continuous improvements is undertaken with this in mind; where aim is to create a balance between the needs of diverse groups of customers and equally diverse distribution partners.

The snapshot of the various activities undertaken by various departments under the overall Operations Business Unit, which are highlighted below:

List of activities that the Company executed which benefitted more than one department in the Operations team.

Entering into an arrangement with IIBI for Information Sharing:

Insurance Information Bureau of India (IIBI) maintains a central repository of all* the policies of participating insurance companies. The information is maintained at individual policy level and includes, personal details of lives insured (LA) as well as Underwriting decisions and Claims related information. The participating companies can get the facility to query on this entire database. It is particularly useful at the time of New Business Underwriting and also during Claims assessment / Settlement as it helps in getting all the information in respect of the insurance policies held by the Life Assured (LA) taken from other insurance companies. Other information, such as whether any of the LA's proposals was ever declined / accepted with extra rating etc., by other companies is also made available. This information proves very vital in detecting various Non disclosures / claim frauds.

SBI Life entered into an agreement with IIBI and started participating in the IIBI data module (Quest) from October 2019. The company is now in a position to mitigate the risks of non-disclosure / wrong disclosure to a large extent. **(*as agreed upon by the participating companies).**

SBI Life was the first company to have an API Integration with IIBI where in this information is received by us directly on real time basis, as and when we seek the necessary information.

Teams benefited - New Business, Underwriting, & Claims management.

Making use of WhatsApp for various communications with customers:

Initiated communication through what's app messenger for information on various events starting from the on boarding stage. Currently communication is sent on events like proposal login, requirements raised, policy issuance, Policy Dispatch, Downloading of E-Policy document & intimation on return undelivered. These communications are sent only to those customers who have provided consent for receiving WhatsApp communication. Going ahead, the plan is to take the customer's consent during proposal journey in M-connect app and intimations

DIRECTORS' REPORT (CONTD.)

through What's App for all pre and post issuance related matters will be sent.

Customer can now opt to connect over WhatsApp by a missed call on 9029006575. In the year under review, we already have over 16 lakh customers who have opted for WhatsApp services. We have sent renewal premium receipts to over 18 lakh customers. Over 10 lakh premium receipts have been sent in 13 Regional languages also. Once registered, customers can also chat with our Chabot on WhatsApp and get all key policy information and even get a premium quote and payment link.

Teams benefited - New Business, Underwriting, Policy Servicing & Renewal management.

A. New Business

The New Business Department is pivotal in ensuring a smooth on-boarding experience to the customers as well as sourcing partners. The initiatives taken throughout the year are focussed on improving the customer on-boarding experience through improving the processes thereby leading to faster issuance, digitization and better communication.

Know Your Customer (KYC) verification through AADHAR on Digital platforms:

KYC verification of the customer through AADHAR has been enhanced by adding QR code scanning that is available in the AADHAR card of the customer.

Subsequently, in addition to QR code scanning second option to do KYC verification has also been introduced by incorporating offline e-KYC method. Through this mode, customer has the benefit of non-submission of any hard copy of AADHAR towards KYC & age proof. Along with it, Offline e-KYC takes care of basic KYC of customer and no additional KYC document is required. This has eased the KYC verification process of customers by enabling them to complete the KYC in one go and made it a seamless journey for customer. Offline e-KYC also works as a Risk mitigation tool as customer credential are authenticated as part of the process and it completely rules out the risk of uploading any invalid / fraudulent document. Offline e-KYC has also helped to increase our Digital FTR percentage, eventually reducing the overall TAT.

Optical Character Recognition (OCR) Technology in Digital platforms:

The company achieved a penetration of 98% in Digital adoption under the period of review. The major issue faced in the on-boarding journey was that of upload of correct and valid Images, which has a direct impact on the overall performance parameters of the company. In order to tackle this issue, digital applications

(m-Connect / Parivartan) was enhanced to recognize the correct document that is submitted against the selected Official Valid Document (OVD). This feature has been introduced for five OVD's viz.; AADHAR card, Driving License, Voter ID card, PAN card & Passport. This has increased the receipt of the correct KYC documents at the sourcing stage itself to a large extent. OCR technology has helped in Risk Reduction by making sure that only correct images are uploaded thereby enhancing the Quality index.

Automation of Proposal Deposit Refund:

One of the important parameters of PPI (Protection of Policy Holder Interest) guideline is to refund any Proposal Deposit that could not be accounted for issuance within a stipulated TAT. To avoid any deviation, the identification of Proposals for refund under various categories of Proposal Deposit Refund has now been automated. This has not only resulted in adherence to PPI guidelines and other Regulatory provisions but also ensured reduction of manual intervention in the process.

Automation of Proposal Deposit Unclaimed Movement:

Proposal Deposit amount that could not be adjusted / policy issued or refunded, for any reason within 180 days have to be mandatorily moved to Unclaimed account, as per IRDAI regulation. Looking at the huge volumes handled, manually identifying such cases is a cumbersome activity and further any delay in movement to unclaimed fund not only creates regulatory violation but due to change in NAV of unclaimed fund, it may also account financial loss to the company based on the profit / loss as per the NAV. Thus, this entire process from identification of the transaction to transfer the same to the Unclaimed Account has now been automated.

Policy Document development: Revision in Regulatory Guidelines

Introduction of new product guidelines for all Pension, ULIP & Traditional policies necessitated the development of fresh policy documents templates for all newly launched products. Massive exercise of changing the template of all products was successfully undertaken well within prescribed timelines.

Expanding policy dispatch process through private couriers:

The company was looking at addressing the one of the customers' concerns i.e. non-receipt of policy bonds, which constitute on an average 0.13% of total policies dispatches. These policies were being returned undelivered. The company now has tied up with local couriers to deliver the policies in Major metros like Mumbai, Delhi and their surrounding areas like Thane, Navi Mumbai,

and NCR on pilot basis from November 2019. Initial results of utilization of local couriers have been very encouraging in terms of delivery percentage, including the delivery TAT and also procuring the POD's. Accordingly, the Company has drawn out plans to further expand the services to other cities on Pan India basis.

Increased Digital Adoption in RiNn Raksha:

Digital adoption is one of the major tool that is now widely used by the customer for all modes i.e. for proposal login, premium payment, servicing requests, etc. For RiNn Raksha proposals (Credit Life plans) it was deeply focused throughout the year 2019-20. We are happy to inform that the Digital adoption of proposal login for RiNn Raksha proposals has increased from earlier 94.70% as in April 2019 to 99.40 % in March 2020.

The percentage of premium received through Electronic Funds Transfer (EFT) has also improved from the earlier 83.31% as in April 2019 to 93.60 % as in March 2020. This achievement is a result of various development and initiatives taken by both IT and Operations of the Bank and SBIL e.g. Real time EFT, making EFT mandatory for SBI proposals & regular communication of digital adoption to region and Credit Life Manager's via auto-mailers.

RiNn Raksha Certificate of Insurance. (Col)

On initial dispatch of Col - initiated an SMS in which bitly link of Speed Post and Blue dart website is provided to enable the customer to track the delivery details. Copy of Col is now directly being dispatched to the sourcing Bank branches for their records.

Email / SMS Intimation for Proposal Deposit Refund:

Proposal deposit refund happens through electronic mode of payment only (Direct remittance to Bank account). Sometimes it takes time for the physical letter to reach customer and customer is not aware of the reason of this credit into his account. In order to bridge this gap, department initiated an SMS / Email service to the customer that goes on the same day of the crediting of the amount resulting into faster intimation to the customer regarding the nature of Credit received.

B. UNDERWRITING

Underwriting is a critically important function that aims at assessing and booking of the correct risk with adequately understanding the same based on the information provided. Underwriting guidelines are subject to change with the introduction of new products / processes / systems or revision in legal and regulatory aspects. In line with the focus on digitalization, various initiatives were undertaken in the year under review to ensure simplified and seamless processing and issuance of proposals.

Individual Business:

- **Digital Moral Hazard Report (e-MHR)**
Introduction of e-MHR has eased the process of physical paper submission of MHR. The digital format of MHR is now authenticated through the digital credentials of the person submitting the said MHR. It is validated through an OTP sent on registered mobile number of sales intermediary. Digital MHR can also be submitted through Smart Advisor Application developed by the company especially for the sales personnel.

Additional measures for Risk mitigation

- **Introduction of negative location guidelines in NB Workflow:**
This has been introduced with an aim to curtail adverse selection of lives and also adverse claims. Proposals sourced from negative location (locations where early claim ratio is high) are identified in Workflow system itself. Differential underwriting guidelines are then applied for such proposals for better assessment of the risk.
- **Use of surrogate documents for underwriting of Term insurance proposals:**
Financial underwriting for term plans is an important function and have been extended to offer pure term cover basis surrogate documents for occupations such as Businessman / Self-employed categories / Housewives and Agriculturists (which was not provided earlier) provided they meet certain basic criteria's. SBIL has started offering Term life plans to Retired Defense personnel also.
- **Conducting of required Medical through Videography: Video MER**
A new process has been launched by the company for compliance of mandatory medical reports through video MER. In this process certified technicians conduct the required medical through home visit under the supervision of Doctor sitting at central location of TPA. The process eliminates major risk of impersonation and at the same time ensures accuracy in medical examination without customer requiring to visit the medical center.

Important changes in Underwriting guidelines and processes in Credit portfolio (RiNn Raksha):

- **Increase in Auto Underwriting limits:**
Auto Underwriting limits have been revised to ease the processing of cases. The limit has been revised to ₹ 1 crore for SBI Home loan.
- **Revision in financial underwriting requirements:**
The financial underwriting guidelines have been reviewed taking into consideration the

DIRECTORS' REPORT (CONTD.)

verification of financial documents by the Bank. The guidelines have been eased for various categories of loans offered by SBI.

- **Revised Medical grid:**
Based on our past experience the Medical grids have been revised with provision of Tele MER for SBI Master Policy

C. POLICY SERVICING AND RENEWALS

Renewal is an important function of the company and this also helps us to understand the quality of sales and also what the customer feels about the product and the company. This is also an important parameter in assessing the persistency of the policies and how long the customer is staying with the company and paying their premiums regularly.

The company has taken lot of steps to improve the Renewal and in return the persistency of the policies thereby creating a good value for the customer, company and shareholders. Major initiatives being given below:

- **Revival Mela:**
During the period under review, a Revival campaign was launched with the motive of reviving lapsed policies and rebuilding the relationship with our policyholders. A total of over 45K policies were revived leading to a renewal collection of over ₹ 1.70 billion. Strategic inputs generated through Revival Analytics were utilized to identify likelihood of revival of any policy. The scope of analytics has been broadened this year and lapse policies are categorized into four different categories i.e. High Likely, Likely, Moderate & Unlikely. This has helped the company to further improve the persistency.
- **Renewal Digiconnect Smart Advisor:**
In Smart Advisor application comprehensive renewal and persistency related information has now been provided to make it a single platform for policy renewal follow-up. This is now available on Smart Advisor, android application available for Sales hierarchy, and also introduced Smart Advisor Desktop for Operations hierarchy.

One of the most unique features added to the Smart Advisor app is - facility to **"Click to Call/SMS"** using which sales and operations personnel can contact customer directly from application screen by just clicking on the icons. User can capture calling remarks in Smart Advisor and can also access call centre remarks and dispositions. Smart Advisor also provides end-to-end e-Revival facility including online e-DGH submission and online payment facility allowing customer to revive policy instantly.

- **Personalized payment link: -**
Personalized bit.ly link that redirects customer directly to payment getaway page has been developed for every policy, making premium payment process simplified for customers. The links are sent to the customers before the due period and also during the grace period of the policy. This functionality was used during Revival Campaign period directing customers to pay only the outstanding premium dues, where there was no need of revival requirements.
- **Centralized Surrender Prevention Calling: -**
In order to prevent surrender, of the existing policies, in a proactive manner, centralized Surrender Prevention calling has been activated through the outbound call centre. The calling is done by a specially trained team having detailed knowledge about products, processes and the corresponding advantages which help them to convince customers to continue the policies till the end of its term. A total of 1,589 policies have been retained in FY 2020 through Centralized Surrender Prevention Calling activity. This activity is over and above the "face-to-face" counselling activity undertaken in the branches by Operations employees.
- **Customer Self Service Portal (CSSP):**
In view of changing dynamics and increasing digitization of services across platforms, all new customers are being registered on our My Policy – Customer Self Service Portal, to enable customers to have one view of all their policies and also do various transactions online. In our endeavour to add newer features, we had included new services as frequency change, renewal premium direct debit Hit Date change, Convert Physical policies to Demat policies, generation of loan quotation against policies, Partial Withdrawal quotes, Alternate mode payment status enquiry. CSS portal is now integrated with our core system, and lot of requests from customers gets processed on real-time basis. Keeping customer convenience in mind, CSS Registration has been simplified using mobile and OTP authentication. In the year under review, a total of over 1.40 lakh new customers were on boarded on the customer self-service portal (CSS Portal).
- **Easy Access:**
Mobile application for customers. The Easy Access mobile application has been developed for SBI Life for customers that allows them to pay renewal premiums, check various insurance plans, submission of eCOE by annuity subscribers, use the

premium calculator, buy online products, check out for useful insurance related links. In the year under review, over 48K new customers were on boarded on the easy access application.

- **Premium collection through Partners including other Banks:**

In an endeavour to expand our reach to the customer and help them in easily paying of their renewal premiums, the Company has tied up with "City Union Bank" services for renewal premium collection. Now customers can now pay their renewal premium throughout the Bank branches of City Union Bank. Have also applied with NPCI to get on boarded as "Biller" on the Bharat Bill Pay system. This shall provide much wider reach on the online payment platform.

- **E-NACH:**

Functionality to electronically set auto pay instructions for renewal premium payments has been made available. This functionality will currently enable setting up of electronic standing instructions on bank accounts online through net banking or Debit Card credentials for more than 20 partners as part of the new business journey as well as for already issued policies.

- **E-DGH:**

E-DGH (Declaration of Good Health on electronic platform) Option for revival of policies was enabled through E-KYC Aadhaar based authentication process, which was subsequently modified to Company OTP based process. This has enabled our customers to revive the policies online eliminating the need for a walk-in.

D. CLAIMS

Claims Management is the vital part of the insurance business. This is actually the "moment of truth" for the life insurance customer.

At SBI Life, customer focus at claims stage is ensured by providing efficient services, striving to exceed the customer expectations by creating avenues for increasing self-service facilities through various Digital Initiatives.

In the year under review, the claim settlement ratio for individual policies stood at 94.52% and for Group policies at 98.89% thereby giving an Overall Claims Settlement Ratio for the company at 97.04%. (Note – 97.04% is inclusive of 0.11% of settled claims but could not be paid due to open title issues).

Customer Centric Process Enhancements:

Electronic Certificate of Existence (e-COE):

- For Senior Citizens, to reduce the pain of travelling to SBI Life Offices, have launched

the e-COE facility through company's mobile based application "Easy Access App" during the year under review.

- Customers are enabled to record a small video and upload their photo in this App from their home. Customers will get an acknowledgement instantly. Excellent response has been received for this facility from the customers across India.
- This facility is provided for customers of both Individual Policies and Group Policies.

Various Digital Touch points:

1. Facility to upload documents through Bit.ly link for Maturity Claims, Unclaimed Amounts.
2. Enabling the customers to submit the documents of both Maturity Claims and Death Claims on the company Website.
3. Customers can submit the documents to our generic mail-ids as well.

E. GROUP OPERATIONS

- **Digital journey for SBI staff members covered under Old Swarnaganga Scheme for exercising option for cover post retirement:**

Online platform developed in Group Customers Portal to facilitate State Bank of India (SBI) staff members covered under Old Swarnaganga Scheme to submit their option at the time of retirement.

With this facility SBI staff need to visit SBI Life branch office and can initiate their option viz.

- **Auto SMS for PMJJBY claim intimations/payments and claim requirements:**
The company has initiated auto SMS process for the PMJJBY claimants that helps the claimants to get the information regarding the settlement of the claims and pending claim requirements on their mobiles.

F. CLIENT RELATIONSHIP & CUSTOMER ENGAGEMENT

The Client Relationship department is pivotal in ensuring that customer queries and grievances are resolved swiftly to the full satisfaction of the customer within defined timelines. The Client Relationship includes both the reactive (efforts to solve customer issues) and proactive (measures taken to ensure long term relationship with customers) functions performed by the team. Therefore, company's initiatives in the year under review has been to empower its employees to improve the query / grievance handling mechanisms.

- **Upgradation of Customer Relationship Management (CRM) Module: -**
CRM Next, is an automated workflow that has been created for handling customer grievances, obtaining sales comments & recommendation from the Regional Leadership group, initiating investigation wherever necessary, and seeking necessary approvals from the Competent Authority.

Under the Customer 360-degree view, the details of all the policies held by customer and his service request history is maintained. Additionally, real time information on the plan details, service history records of the policy life cycle along with the policy status is provided, that helps in resolution of customer grievances.

With the launch of CRM Next, have moved towards a paperless complaints handling process. The enhanced features of CRM Next module (Gold 5.5) has been implemented to bring more simplicity in functionality and strengthening system controls. This has brought in perfectly consistent & coherent workflow with better record maintenance and process efficiency. It has also helped in providing comprehensive resolution and reducing the overall resolution time of complaints.

- **Parivartan: -**
This is a module designed to empower SBI (Partner Banks) to log in SBI Life customer queries / complaints received at their end for better tracking and faster resolution of queries / complaints. The web based real-time integration of Parivartan module with our CRM Next module has also been established. Now, this module has provision for registration of customer's queries / complaints and to display reverse feed details such as TAT, status and disposition details of queries / complaints along with dashboard report to users.

- **Contact Center :**
The call center handled around over 18 lac calls during the financial year, 53% of these calls were answered by the call center agents and 47% of the calls were responded by IVR. The connectivity issues noticed and were addressed by changing the service provider and getting in better services. This has help in reducing the complaints of Toll Free number not getting connected and has also brought down the call drop rate to 0.82% which was above 7% in the earlier years.

Initiative to integrate the CRM next has empowered the call center and has seen improvement in providing final resolution to customer queries. This has helped in closing 96% of calls at the first instant itself without transferring the call to the branches for final resolution. The email closure responses from the call center have also seen an improvement in providing resolution to the customer queries that was at 84% compared to earlier 51%.

The overall impact of all the above initiatives and improvement could be noticed in the Turn Around Time (TAT) of complaints and queries received by the company. The overall TAT of complaints of the company had seen an improvement to 4.09 days which got decreased by two days (6.22 days) compared to the previous year. It is also noticed the overall TAT of Queries handled has also improved to 0.62 days compared to 1.2 days in the previous years

Customer Engagement Department has initiated multiple initiatives by bringing in technology

for the benefit of the customers. Some of the Customer Centric initiatives in the FY 2020 are mentioned below:

- **Initiatives that improves Services offered by the company**

The company has introduced SMS services for Premium Paid Certificate. The customers can call the toll free number and request for Bitly Link to be sent via SMS for paying Renewal Premium using the mobile phone, customer can also request for a Bitly link to download soft copy of policy document and also request for Bitly link to access TDS certificate. The call centre also started promoting WhatsApp registration to every caller on the toll free number and successfully registered a good number of policy holders this year.

13. LEVERAGING DATA ANALYTICS:

SBI Life has been leveraging Analytics to help mitigate and control Risks in various business functions like Underwriting, Claims, Persistency etc. The outcomes of the various models are helping the respective functions to take more informed decisions, and helping in creating more efficient business processes.

New Business & Underwriting

- **Risk Score Model**

We provide our Underwriters with a Risk Score for every prospective Customer. This score measures the likelihood of receiving an Early Claim from the customer. This score is utilized by the Underwriters to make prudent decisions. A Proposal that gets rated as 'High Risk' by the Risk Scoring Model, is paid special attention to and additional requirements are called for to verify the insurability of the Customer. Detailed Tele MER along with stringent Underwriting is followed for High Risk proposals. Currently the Model flags certain percentage of incoming proposals in to High Risk Bucket and certain percentage as Medium Risk Bucket. The rest are tagged as Low Risk. The Risk Score is made available in Real Time in the Work Flow Module. We also monitor the scores on a regular basis to ensure that the Model stays in conformity with the Actual Experience. The Risk Score Model was revised in November 2019 to align it with our Organization's recent Early Claim experience.

- **Net Promoter Score Analytics at on-boarding Stage –** NPS is currently measured at three Moments of Truth viz. On-boarding, Renewal Payment and Living Benefits. For improving our on-boarding NPS score, the company undertook an NPS Analytics Project. It involved deep dives into the responses received from customers to help us benchmark the complete customer onboarding journey and gave a direction towards change and

improvement. It helped in understanding customer experiences across various demographics and segments and in identifying pockets of concerns along with resolution methodologies, eventually improving our processes to ultimately create a better customer experience.

The company also developed Dashboards for the sales personnel to help them identify areas of improvement and causes of concern. The Dashboards provide customized recommendations at the Regional / Zonal Agency Manager / Divisional Sales Manager level for improving the NPS Scores.

Policy Servicing

- **Persistency Model -**

Persistency Models are in place to help predict the likelihood of renewal premium payments. Separate models for 13th & non 13th Month persistency for each of the Channels are in place to cater to the varying payment dynamics. Predictions are made at the start of every month for policies due in the upcoming 3 months. Every policy gets flagged as RED, AMBER or GREEN, where RED denotes customers from whom we are least likely to get the renewal premium and GREEN denotes customers most likely to pay the renewals. These models help in channelizing our renewal collection efforts.

During the course of implementation, it was noted that this common approach was not yielding required results for 13th month persistency. Hence, a dedicated 13th month persistency model was further developed and made live in the year under review. Later, a dedicated model for non-13th month persistency was also implemented in the year under review.

All these developments and efforts have helped the company in improving collection efficiency and 13th Month Persistency and 61st Month persistency. In the year under review, overall collection efficiency is 85.2% and it has improved by 1.3% over last year. Our 13th Month and 61st month persistency also improved to 86.14% & 59.90% from last year's 85.07% and 57.23% respectively.

- **Lapse Revival Model –**

We have a Lapse Revival Model in place to predict the revival propensity for policies in Lapsed status. Given the different behaviour of ULIP and non-ULIP portfolios with respect to lapsed status, separate models are in place for each set of policies. The Models are run on a monthly basis and the outcome from the model provides the likelihood of revival within the next six months from the prediction date. All our Revival Campaigns utilize the data generated by this Model to improve the hit ratio.

DIRECTORS' REPORT (CONTD.)

Claims

- **Post Issuance Profile Verification (PIPV) Analytics -**
Even with the best of Risk Score Models in place, we must acknowledge that it's not possible to detect all Fraudulent Customers at inception stage. Hence, suspicious policies must be identified immediately post issuance via Post Issuance Profile Verification (PIPV) to prevent fraudulent claims from arising in the future. The PIPV Analytics Model was developed with the aim of identifying the right set of policies that must be sent / selected for PIPV. Identifying the right set for PIPV increases the likelihood of capturing all fraudulent customers. By targeting a focus group of the total policy base, we were able to capture major events that includes Repudiations and PIPV Cancelled cases. By utilizing this Model, we hope to increase the accuracy of the PIPV investigation process and at the same time reduce the PIPV investigation costs.

14. PROJECTS OPERATIONS

Few initiatives taken in the year under review are enumerated below:

- The vendor dashboard has been integrated with our CRM module, and every customer feedback is getting registered in the module as a Service Request (SR). This has facilitated us to review all feedbacks in a systematic manner and provide resolutions to the customers
 - NPS is now made available for all front line sales through smart advisor App. It is now at their fingertips and they can view their individual NPS. They can now directly interact with customer; based on feedback received and act upon
 - The NPS on-boarding survey is getting triggered in 10 vernacular languages to help in making a better connect with the customers and act upon their responses. The survey is available in Tamil, Telugu, Kannada, Punjabi, Oriya, Assamese, Marathi, Gujarati, Hindi and Bengali.
 - In On-boarding survey platform, we have introduced one pager on products and product videos for few products to educate and empower our customers about the product purchased in an easy manner.
- **Customer Education Product Videos:**
With a view to providing our customers with an in-depth and correct information / knowledge of our products, product videos for the following four products have been made and launched.
 - SBI Life Smart Wealth Builder
 - SBI Life Smart Bachat
 - SBI Life Smart Swadhan Plus
 - SBI Life Smart Money Back Gold

An SMS is sent to the customers immediately after cashiering of a new proposal, with a bit.ly link that redirects to the product video. These videos have also been uploaded on SBI Life Official YouTube channel.

- **Hyper Personalized Communication campaigns:**

These campaigns were aimed at establishing a customer connect by taking up awareness campaigns via SMS/emails/videos etc. This is in compliance with IRDAI circular dated April 10, 2019 where Insurers have been advised to send brief messages for the purpose of enhancing insurance awareness.

Various activities undertaken are given below:

Topic	Media
Awareness on importance of registration for Auto deduction of premium	Email & SMS
Awareness on importance of updating contact details	Email & SMS
Diwali Campaign	Email & SMS
Awareness on spurious calls	Email & SMS
Link to update email IDs	SMS
Awareness on the CSS Portal	Email & SMS
Importance of Reviving the Policy (sent to customers whose policy are due for LTR)	Email & SMS

15. INFORMATION TECHNOLOGY

FY20 has been a landmark year for SBI Life. We continued our digital journey by implementing innovative solutions for business and customer support, using cutting edge technology. The improved digital tools and intuitive customizations have played a significant role in enhancing the experience of both our internal and external customers. We have progressively improved the capacity and capabilities of our technology infrastructure that has consistently improved the availability of systems and applications for the business. A true test of the quality of support systems was the movement of all critical resources to **"Work From Home"** (WFH) during the COVID 19 pandemic. The teams achieved this in quick time with no disruption in day-to-day working. All business operations and the financial year-end closure activities were completed by the respective stakeholder seamlessly, validating the technology capabilities and versatility of SBI Life, yet again.

Some of the improvements implemented during the year are listed below:

A. Infrastructure

- **Data Centre (DC), Disaster Recovery (DR) and Wide Area Network (WAN)**

We have been proactively managing our DC/DR/WAN infrastructure to ensure that our Head office, CPC and 900+ branches are adequately supported to handle the

business volumes and to provide quality service to our customers.

During the year under review, the reach of MPLS network increased from 836 branches to 913 branches thereby consuming 1,687 MPLS links from 6 telecommunication companies, thus providing customer services at branches with dual redundant links.

- **Email Security**

The company has finalized the plans for upgrading our existing email infrastructure thereby moving all users to a single email domain. This will increase the user experience and significantly enhance the security features including data loss prevention (DLP) capabilities. This will move into implementation stage in the FY 2020-21.

- **VPN solution**

During Covid-19 locked down 1,800 plus employees were enabled with VPN to work from home(WFH)to continue critical business processes at Regions and Branches.

- **DDoS (Distributed Denial of Services) Mitigation Services**

The company obtained volumetric DDoS attack mitigation services on all central corporate Internet links in Data Centre. This will prevent DDoS attacks initiated globally across the Internet.

The solution is also configured to prevent legit based (low & slow) DDoS attacks.

- **Network Access Control (NAC)**

The company has implemented NAC security feature of industry leading OEM, on all desktop systems in Corporate Office, CPC & branch offices.

This is being effectively utilised to evaluate security policy compliance of desktop systems, before permitting access to corporate network.

- **Security Operation Centre: (SOC)**

In the year under review, the company has implemented state of art SOC to monitor 24x7 all critical IT devices, websites, mobile applications and other domains, owned or used by the company.

SOC monitors all production applications & related infrastructure devices for security alerts. Technology based on machine learning/artificial intelligence, data analytics, Threat Intelligence, Anticipation and Analytics with Threat Hunting, network behavior and user behavior are deployed. It has Capability to quickly identify and detect cyber threats. Brand protection services for

Internet facing websites, mobile application and social media handles are in operations.

Dark Web are monitored for SBI Life contents with Intelligence Feed and action based on Incident are taken.

- **Adoption of Virtualisation environment**

Over 900 Virtual servers created on 37 Host Servers resulting in power and space saving with optimum use of compute and storage.

Deployed over 800 Thin Clients in lieu of Desktop using Virtual Desktop Infrastructure (VDI) technology. Helped in data loss prevention, quick rollout and ease of maintenance.

During Covid-19 lockdown, 779 employees were enabled to WFH for Head Office and Central Processing Centre (CPC), using VDI technology. This helped the company in successfully carrying out all year-end activities within defined time-lines while working from home while fulfilling the desired security and data protection levels.

B. Process Area

Following are the major process improvements done during the FY 2020:

- **New Policy Management System (PMS):**

"Ingenium", the new Policy Management system, has been fully implemented in the year under review and currently services both Individual and Group products. This has resulted in improvement of customer service quality and shorter TAT (Turn Around Time) for new Product Launches.

The older (Closed products) policies are also getting migrated to New System and 76% of data migration has been completed. This migration is a massive exercise, the biggest project in the insurance industry in India, and has been carried out in a smooth manner without any adverse impact to the end-customer. Going by the experience of the migration exercise that has taken place the company is confident to completed the balance migration in the first quarter of FY-21.

- **New Customer Relationship Management (CRM) system:**

"CRM Next" is the core system providing 360-degree view of the customer, leading to better service across all touch-points. It has recently been upgraded to the latest version and further enhancements are planned in the upcoming FY21 which will further enhance the quality of customer engagement.

DIRECTORS' REPORT (CONTD.)

- **Work Flow System:**

The New Business Work Flow System caters to the on-boarding and Underwriting of new proposals. In Work Flow, all the new products are getting processed (except 1 product which will get implemented shortly). This has greatly improved the efficiency of New Business and Underwriting Processes.

- **New product launches:**

In the year under review, the majority of the existing products had to be relaunched to comply with the new product guidelines from the Regulator. In a short span of time (November 2019 to February 2020) we could launch 20+ individual and group products, covering all systems and touch-points (digital & physical), demonstrating the power of collaboration across all stakeholders.

- **Mobile Solutions:**

Continuing the thrust from the previous year to adopt 'Go Digital', more than 98% of the Individual New Proposals are sourced through our Mobile Application - **mConnect**. We strengthened our stack of mobility solutions for our sales force, internal users and customers. mConnect application is the proposal sourcing application that enables our sales force to procure business anywhere any time. **Smart advisor Plus** is extensively used by our sales intermediaries for providing pre and post-sales support to their customers. This tool provides a bouquet of services to the Sales manager and they can get any policy related information on the fly. This tool reduced the burden on our branch offices by enabling the sales executive (Life Mitra, CIF in the bank or Business Development Manager or Unit Managers) to provide prompt information and services to their customers. **Smart Advisor Plus is like a "mini Office in the pocket" for our sales intermediaries.**

We also provide a dedicated application to our customers known as '**Easy Access**'. Premium due alerts, ability to raise queries, submission of e-COE (Certificate of Existence) for pension products, are some of the key features of this application.

In the year under review, with the focus continuing on "Go Digital", many new initiatives were expedited and we are at the forefront in its adaptation in all areas starting from Customer enrichment, Distributor efficiency and / or Employee empowerment. dedication and achievement relating to the Company's operations.

- To retain, motivate and promote talent and to ensure long term sustainability of talented managerial persons and create competitive advantage.
- While making appointment of employees for particular positions their relevant qualification, experience and expertise shall be taken into account.

The Remuneration Policy was reviewed and approved by the Board of Directors in its meeting held on May 29, 2020.

3. Remuneration of Managing Directors and Other Senior Management Personnel

As per Article of Association of the Company, the Managing Director and Chief Executive Officer of the Company is appointed by State Bank of India and the appointment is subject to Insurance Regulatory and Development Authority of India (IRDAI) approval. The remuneration of Managing Director and Chief Executive Officer is governed by SBI Officers Service Rules and is being reimbursed by the Company to State Bank of India.

The appointment of other Key Management Personnel & Senior Management staff at SBI Life

and their removal from services of the Company are governed by the HR policies of the Company and approved by the Managing Director and Chief Executive Officer / Board wherever applicable.

Remuneration aims to motivate personnel to deliver Company's key strategies, create a strong performance-oriented environment and reward achievement of meaningful targets over the short and long term.

The Company has an annual increment and variable pay policy which is based on merit pay philosophy. The performance linked incentive is based on both individual as well as Company's performance. Various performance parameters for the Company (based on the financial and strategic plan approved by the Board) are reviewed by the Committee and approved by the Board at the beginning of every year.

Based on the predefined parameters the actual performance of the company is reviewed by the Committee to award a performance rating. The company performance rating is approved by the Board based on the recommendations of the Committee at the end of every financial year. The framework of annual increment and performance linked Variable Pay for all SBI Life employees is also reviewed by the Committee and approved by the Board every year.

ANNEXURE - I

REMUNERATION POLICY

In pursuance of the Company's policy to attract, motivate and retain manpower in a competitive market, and in terms of the provisions of the Companies Act, 2013, the Policy on remuneration of Directors, Key Managerial Personnel and other employees has been put in place.

The Company's Remuneration Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under section 178 of the Companies Act, 2013.

Objectives of the remuneration policy:

Compensation and benefits play a critical role in every organization. A well-defined compensation and benefits system helps to attract, motivate, and retain the deserving employees for achievement of organizational objectives. The policy reflects our commitment to good corporate governance as well as sustained long-term value creation for shareholders.

Philosophy

At SBI Life, we follow contribution-oriented philosophy and our compensation programs are performance-driven, emphasizing and recognizing the contributions that individual employees make to the organization. It accentuates performance-based pay, incentives, and shared responsibility for benefits. Its basic objective is to:

- Be compatible with the organization's Vision and Mission;
- Be externally & internally equitable;
- Ensure relationship of remuneration to performance is clear and meets appropriate performance benchmarks;
- Provide to Key Managerial Personnel and Senior Management reward linked directly to their effort, performance, dedication and achievement relating to the Company's operations;

- Retain, motivate and promote talent and to ensure long term sustainability of talented managerial persons and create competitive advantage.

While making appointment of employees for particular positions their relevant qualification, experience and expertise shall be taken into account.

Reward Policies:

- Remuneration packages for Whole Time Directors are designed subject to the limits laid down under the Companies Act 2013 to remunerate them fairly and responsibly.
- Remuneration also aims to motivate personnel to deliver Company's Key strategies, create a strong performance-oriented environment and reward achievement of meaningful targets over the short and long term.
- Remuneration of Key Management Personnel and other Senior Management personnel will be with approval of the Managing Director & CEO.

Key Managerial Personnel and Senior Management

Appointment, remuneration, repatriation etc. of Key Management Personnel such as MD & CEO and few other Key Functional Heads like Audit, Human Resources etc. is governed by SBI Officers' service rules as they are on Deputation from SBI.

Appointment of other Key Management Personnel & Senior Management staff at SBI Life and their removal from services of the Company are governed by the HR policies of the Company and approved by the MD & CEO / Board wherever applicable.

The Company constantly endeavors to undertake innovative initiatives protect the environment. The Company has contributed towards making a greener planet by maintaining the plantations and promoting renewable energy in the states of Maharashtra, Odisha and Kerala. Thus, as part of

our 'Go Green Initiative' we have adopted following practices in some of our offices:

- (a) The company has digitized its policy issuance and servicing process. Thus we have been able to significantly reduce usage of paper. Further, to the extent permitted, we communicate with customers digitally i.e. via SMS and emails to reduce usage of paper. The Company has also implemented '**Managed Print Service**' for efficient print management and to reduce paper consumption.
- (b) The corporate office building is a Green Building; certified by Indian Green Building Council (IGBC) to comply with efficient use of natural resources and minimal waste generation. The administrative processes are engineered to ensure efficient use of natural resources. Few of the sustainable green initiatives to conserve natural resources and protect the environment are as given below.
 - (i) **Waste Water Recycling:** We have adopted a process of collecting the left over/unfinished potable water in big cans. The water so collected is used to water our ornamental plants and mopping of floors. In some of the offices we were able to recycle approximately 253 liters of water monthly.
 - (ii) **Plastic Bottle Recycling:** As a process all empty PET water bottles of 100/500 ml are collected, packed and sent to the vendor for various plastic recycling initiatives. Our average monthly contribution towards this initiative was 60kgs till Aug-2019. The procurement of PET bottles was completely stopped post Aug-2019 to support honorable PM's call to reduce one-time-use plastics.
 - (iii) **Reduction of Food Wastage:** Food wastage in the cafeteria is discouraged through awareness campaign through graffiti's. Leftover food and food waste generated in our cafeteria is collected and recycled through a composter biodegradation process into organic manure of about 160 kg per month for plants in the premises.
 - (iv) **Waste Paper Recycling:** The Company has tied up with Bombay Leprosy Project, an NGO engaged in leprosy relief work to collect the used newspapers/ magazine of about 130 kgs per months. The NGO uses the waste paper for making paper envelopes thereby generating employment and income to the underprivileged.

Storm water in the building is channelized to old underground well to nourish the bore wells at the premises. Water waste of utilities in the building is treated in STP; generating 65KL water for reuse in again utilities in the building.

The Company is committed to keeping its environmental footprints as small as possible and has taken proactive steps to reduce direct impact of its operations on the environment.

3. Does the company identify and assess potential environmental risks? Y/N

BUSINESS RESPONSIBILITY REPORT (CONTD.)

PRINCIPLE 8

1. Does the company have specified programmes/ initiatives/ projects in pursuit of the policy related to Principle 8? If yes details thereof.

Being a socially responsible company, SBI Life is not only responsible for the profitability of its shareholder but also to the over-all community well-being with

which it co-exists. In the year 2019-20, SBI Life took a paradigm shift in aligning CSR efforts with national priorities as highlighted by Sustainable Development Goals (SDG) Baseline Index report published in 2018 by NITI Aayog and has adopted strategic approach aiming to address developmental challenges that have grappled India.

Key focus areas include:

Education	Healthcare	Environment Conservation	Disaster Relief
Infrastructure Development of the educational institutes / schools/colleges	Support towards development of medical infrastructure	Maintenance of green belt at public places	Providing relief material on immediate basis
Support towards education, nutrition and overall development of underprivileged children from the society	Sponsoring cost of the treatment / surgeries for underprivileged patients	Activities to promote renewable energy	Support towards rebuilding the infrastructure of the affected areas.
	Improving health and nutrition status of rural / tribal pregnant and lactating mothers and young children		Contribution to designated funds as approved under Schedule VII of Companies Act 2013

Corporate Social Responsibility driven by SBI Life's CSR policy provides structured framework for the activities contributing to the betterment of the society.

In the year 2019-20, SBI Life has reached to more than 1.14 lakh beneficiaries belonging to disadvantaged section of the society to meet their basic needs and extending opportunities to them to get into mainstream of the society.

2. Are the programmes/projects undertaken through in-house team/own foundation / external NGO/government structures/any other organization?

SBI Life's in-house team drives the CSR projects, which are executed with the help of implementing partners registered as either

Trust or

Society or

Section 8 Company or

directly with Government department / agency to leverage the expertise in the specific sector for more meaningful impact. The company has decentralized structure where projects up to the certain financial limits are identified, evaluated, implemented and monitored at regional level. The projects with extensive budget and spread across states are initiated, implemented and evaluated by the central CSR team based at SBI Life's corporate office.

3. Have you done any impact assessment of your initiative?

SBI Life has defined monitoring tools and performance indicators, which are customized for various projects. Both qualitative as well as quantitative parameters are considered while evaluating the impact of the project.

In 2019-20, SBI Life has reached to more than 1.14 lakh lives across country through its CSR initiatives. Out of these, 36,000 children across 15 states have benefitted with educational support in the form of educational material/sponsorship/infrastructure facilities etc. Numbers of enrolment, enhanced academic performance of the children, improved attendance are few indicators amongst many while evaluating performance of the interventions under education.

Over 46,000 beneficiaries across 14 States have received support under health interventions. Initiatives under health interventions are tracked for performance with indicators like patient registrations, patient's savings on the treatment, improved knowledge of patients on various health issues.

Lastly, over 31,000 people have been supported under disaster relief.

4. What is your company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken?

In the ordinary course of insurance business, several customers have disputes with the Company which could result in their filing a civil suit, criminal complaint or a consumer complaint alleging deficiency of services. The Company always strives to have a cordial relationship with its customers and attempts to have an amicable settlement of the dispute but in some cases needs to pursue legal resolution of the same.

4. Did your company carry out any consumer survey/ consumer satisfaction trends?

The Company has implemented Net Promoter Score (NPS) as a management tool that is used to gauge the loyalty of a firm's customer relationships. Net Promoter Score has been deployed to conduct customer experience feedback survey across various touch-points. These feedbacks aid in tracking, measuring & improving the client experience effectively.

PRINCIPLE 9

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year.

There were 15 complaints (0.35% of total complaints received in FY 2019-20) outstanding at the end of FY 2019-20 which were resolved within regulatory TAT of 15 days.

ENTERPRISE RISK MANAGEMENT

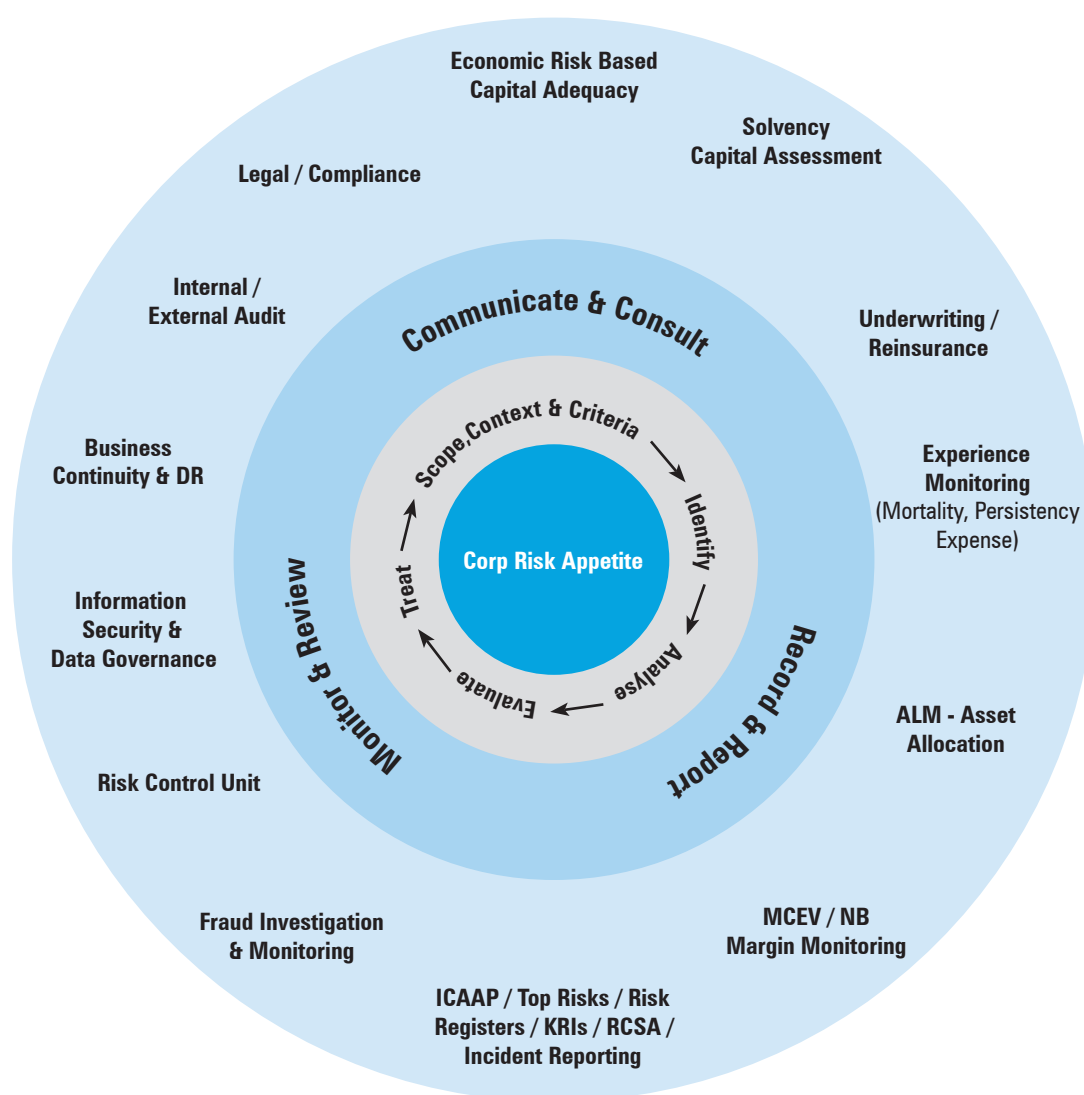

RISK MANAGEMENT FRAMEWORK

Effective management of risks is essential to achieve the Company's strategic, business and operational objectives and goals with a degree of assurance. In line with its quest for implementation of Enterprise Risk Management, SBI Life has developed a robust Risk Management Framework to identify, assess and mitigate its key business & strategic risks. The Company has also formulated a set of Risk Appetite Statements as the centrepiece of this framework so as to integrate risk management with strategic business objectives and lay down the overall risk appetite for the organisation.

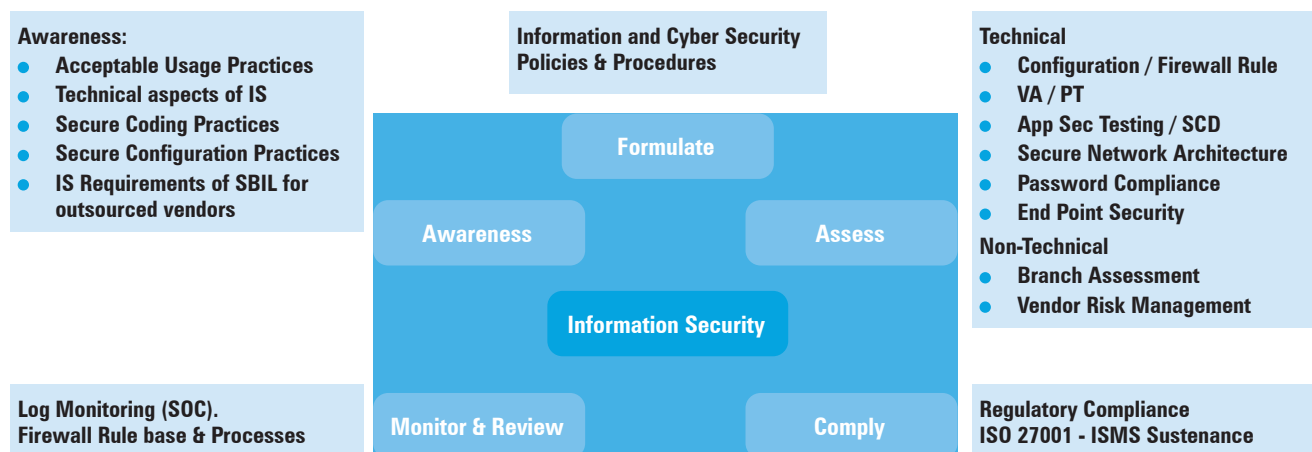

The Enterprise Risk Management at SBI Life encompasses all risks including Strategic Risk, Insurance Risk, Investment / Market Risk, Reputation Risk and Operational Risks like Fraud Risk, Information & Cyber Security Risk, Compliance Risk, Business Continuity Risk, etc.

The ISO 31000:2018 'Statement of Compliance' issued by British Standards Institution (BSI), in May 2018, for Enterprise Risk Management System of SBI Life covers all departments and functions at Corporate Office, Central Processing Centre, Regional & Branch Offices of the Company.

The Company has various Committees' to manage its risks. The Company considers risk management to be fundamental to prudent management practice and a significant aspect of Corporate Governance. The Risk Management framework at SBI Life is depicted in the following diagram-

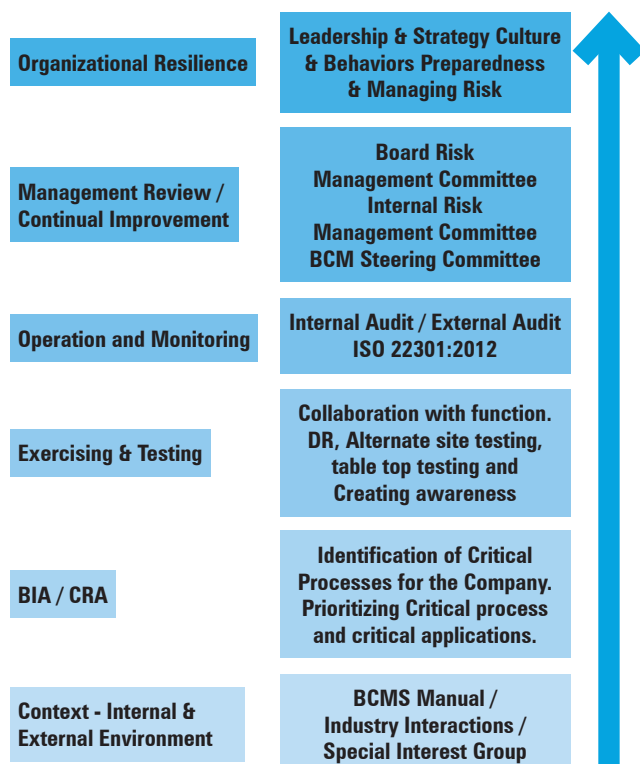

INFORMATION SECURITY FRAMEWORK

The Company considers information security as a critical area and has a fully functional Information Security Team (IST) headed by Chief Information Security Officer (CISO). Information security practices of the Company are ISO 27001:2013 certified. The Information Security Committee (ISC), convened by the CISO, oversees all information security related activities that are carried out by the Company. Update of information security activities are presented to the Board Risk Management Committee on a regular basis.

The Company's Business Continuity Management (BCM) practices are ISO 22301:2012 certified. BCM activities are planned in such a manner that testing of the business continuity plans is regularly done in coordination with the concerned department/function. Proper planning and regular testing enabled the Company to successfully continue its essential/critical processes even during the complete lockdown due to Covid-19. Adequate Work from Home (WFH) connections were extended to Employees to continue the operations of the Company.

BUSINESS CONTINUITY MANAGEMENT FRAMEWORK

The key focus areas of the above Risk Management frameworks are:

- Strategic Risk Assessment & Capital Planning
 - Governance
 - Risk Universe
 - Risk Awareness
- a. **Strategic Risk Assessment & Capital Planning –** SBI Life conducts Strategic Risk Assessment activity for identification, assessment, mitigation, monitoring and controlling Top risks facing the Company on an annual basis. There is a well established Asset Liability Management process along with Strategic Asset Allocation based on matching of liabilities with different asset classes & duration. As a part of Capital Budgeting activity, the Company develops a 5 year Capital Rolling Plan which is regularly monitored. Risk assessment and risk management forms an integral part of these activities. Further, the risk categories have been standardised to ensure seamless assessment. The same are described in SBI Life Risk Management Policy & Internal Capital Adequacy Assessment Process (ICAAP) document. These documents are reviewed by the Risk Management Committee of the Board on an annual basis.

ENTERPRISE RISK MANAGEMENT (CONTD.)

b. Governance –

A risk reporting process has been formulated and implemented to manage risk governance requirements. Risk management is considered to be the responsibility of every employee of SBI Life and the same is driven by the Board.

SBI Life conducts an annual risk assessment exercise to identify the major risks faced by the Company for the ensuing year. Based on the same, top risks are identified and assigned to relevant risk owner for appropriate mitigation. Mitigation plans are monitored on a periodic basis.

A quarterly Risk Management Committee (RMC) of Executives and Asset Liability Committee (ALCO) is convened to discuss the ongoing risk management issues. In accordance with the IRDA Corporate Governance guidelines, SBI Life has also set up RMC at the Board level. These Committees meet on a quarterly basis. The RMC of the Board provides directions on Risk Management & Asset Liability Management.

c. Risk Universe –

The Company is exposed to several risks in pursuit of its business goals and objectives. The Company has put in place adequate safeguard(s) to mitigate these risks. In the capital adequacy framework, various risks are assessed and quantified by allocating capital to each risk at the desired level of confidence. Some of the key risk areas and their assessment are detailed below:

Operational Risk - Operational risks are managed through tools like Risk Registers, Risk Control Self-Assessment (RCSA), Incident Reporting, Business Continuity Planning, Information Security assessments and Key Risk Indicators (KRIs). The risks are discussed with stakeholders and mitigation strategies are devised with appropriate monitoring & control.

Market Risk - The Investments department complies with all regulations on Investments issued by IRDAI from time to time. Investments are done strictly

in line with the IRDAI regulations. The Investment Policy is exhaustive and covers all the key areas of risk management & reporting with regard to Market Risk. Market risk is further mitigated by matching assets and liabilities by type and duration and matching cashflows. A strategic asset allocation is approved by the ALCO for each business segment optimizing risk and reward of each asset class in the context of the asset liability profile of the segment. Guarantees provided on the products are assessed and monitored on an ongoing basis.

The Company undertakes economic capital assessment periodically to assess its capital adequacy on an economic basis.

Insurance Risk - Insurance risk is managed at the process level through appropriate system validations and functional structuring with the aid of analytical & modeling tools. The Actuarial team has formulated policies like Stress Test Policy, Reinsurance Policy and ALM Policy for Asset Liability Management.

d. Risk Awareness –

Sensitization and awareness creation of Risk Management across the Company is done through Training, Workshops, E-mailers, Seminars, Conferences, Quizzes, and Compendium of Loss incidents. 1st September of every year is celebrated as Risk Awareness Day wherein customized messages / emailers / audio visuals are broadcasted to enhance the risk awareness levels among employees. 30th November of every year is observed as 'Computer Security Day.' This occasion is used to create awareness in respect of information and cyber security in the Company. January 28th of every year is celebrated as 'Data Protection Day' and used to sensitise employees on data privacy and protection.

The Risk Management Committee of the Executives (RMC-E) and the Asset Liability Committee (ALCO) are jointly responsible for reviewing the risk management framework of the Company and periodically evaluating the various risk management initiatives undertaken by the Company and provide updates to the RMC-B on a regular basis.

At the apex level, the Company has the Corporate Risk Appetite statement basis which it decides the extent of risk it is willing to take in pursuance of its strategic objectives. At the departmental / regional level, the Company has functional risk appetite statements.

MANAGEMENT REPORT (CONTD.)

(I) Risk Mitigation Strategies

Risk mitigation strategies for major risks faced by the Company are as under:

(a) Market risk:

To manage the interest risk, the Company monitors the duration of assets and liabilities for different portfolios on quarterly basis. Also, expected cash-flows of the assets and liabilities are monitored closely to identify any potential re-investment risk.

Investment strategy for each line of business is laid down so that the assets are appropriately matched by the nature and duration of liabilities. A range is provided for each asset class and the investment front office team takes tactical investment decision within the stated range. The Corporate Risk Appetite is the basis on which the risk reward framework is optimised for this purpose.

All investments are made strictly in compliance to the IRDAI Investment Regulations issued from time to time.

Market risk is monitored at the fund level and the Company level. This risk is measured using certain real world stress test scenarios. The results provide insights into the ability the Company has in terms of asset allocation. The limit on some volatile / risky assets is decided based on the risk appetite / limits laid down by the Board. Within these constraints, the Company decides on a strategy so as to improve policyholders and company value.

The Company's product mix is also monitored in the context of the level and concentration of market risk within overall risks of the Company.

(b) Credit risk:

The Company manages the credit risk through the following measures:

- (i) Exposure limits for companies, groups and industries are in accordance with IRDAI (Investment) Regulations, 2016, and regulations/orders/directions issued by IRDAI thereafter.
- (ii) Internal risk assessment and constant monitoring of the Investment portfolio for change in credit ratings.
- (iii) Limit Credit Exposure by setting a range for investments in Corporate Bonds, in the context of risk reward framework.
- (iv) Counterparty risk is mitigated by placing reinsurance only with reputed and highly rated reinsurers.

(c) Liquidity risk:

The Company faces limited liquidity risk due to the nature of its liabilities & business structure. The cash investment along with expected future premium from existing business provides the liquidity to meet outgoes; this is monitored to be sufficient to cover expected outgo of the Company as forecasted by the ALM team under normal condition as well as under stressed conditions.

(d) Morbidity and Mortality risk:

The Company uses the following approaches to manage its mortality and morbidity risk:

- (i) **Reinsurance:** The Company uses a combination of surplus, quota share and catastrophe reinsurance treaties. The reinsurance treaties are reviewed and compliant with the relevant IRDAI regulations.
- (ii) **Experience Analysis:** The Company monitors the expected vs. actual mortality experience on quarterly basis and takes corrective action, if need be.
- (iii) **Repricing:** The Company reserves the right to review risk charges, in case of adverse experience, with appropriate IRDAI approval.
- (iv) **Underwriting and claims controls:** Underwriting and claims policies and procedures are in place to assess and manage the risks. The Company conducts periodic reviews of both underwriting and claims procedures and policies to ascertain the mortality risk experience. The underwriting norms are generally aligned to pricing basis.
- (v) **Others:** Various measures have been recently introduced to combat fraudulent death claims and as response to the modification of section 45 of the Insurance Act. These include:
 - a. Monitoring the early claims at agent, unit manager, branch and regional level.
 - b. Introduction of risk based underwriting through claim analysis.

(e) Persistency risk:

The persistency risk is managed with the following approaches:

- (i) **Experience analysis:** The Company conducts its experience analysis quarterly to ensure that corrective action can be initiated at the earliest opportunity and that assumptions used in product pricing and embedded value are in line with experience.

- (ii) **Product features:** The Company uses features like bonuses, guaranteed additions and additional allocation of units to encourage policyholders to continue with the policy. However, such features are included strictly in compliance with the IRDAI product regulations issued from time to time.
- (iii) **Service initiatives:** The Company uses a combination of proactive and reactive interventions to manage persistency. The interventions could include sending communication via different media like email, mailers, SMS to customers and distributors, reminders and telephonic interviews with customers, and visits to customers. Various customer education initiatives are also taken up for this cause.
- (iv) **Aligning key performance areas:** The Company uses different key performance areas for different levels of hierarchy in Sales and Operations to align interests and ensure adequate focus on persistency. Persistency Managers at regional level help focus on the need and requirements matching of the customers besides contributing to the renewal business.
- (f) **Expense risk:**
The Company actively monitors its expense levels, which are then fed back into new product pricing, calculation of reserves and management reporting. In case of any adverse deviations between actual unit costs and planned unit costs, mitigation measures are taken.

Regular monitoring ensures that the actual expense does not vary a great deal from the budgeted expense level.

Stress testing for Expense Risk is being done with deterministic shocks as per historical experience given for entire portfolio.
- (g) **Operational risk:**
The Company manages its Operational Risks through-
- (i) **Risk Registers**
Risk Registers document the high level risks for all the offices based on likelihood & impact rating. Controls in place to manage the risks are captured and rated to arrive at the residual risk.
- (ii) **Risk Control Self-Assessment (RCSA)**
RCSA requires each business unit within the Company to identify and assess inherent risks and controls relevant to the risk. The risk events are then mapped to the existing control framework to determine the residual risk. The controls are periodically assessed for its effectiveness.
- (iii) **Incident Reporting**
The Company also has a web-based incident reporting process to collect loss incidents to track the extent of operational risk. The incident reporting tool has helped the Company in development of system based modules for operational efficiency and to prevent recurrence. Loss data records may be used to estimate the capital required for operational risk.
- (iv) **Risk Control Unit (RCU)**
A 'Risk Control Unit' (RCU) is in place to undertake proactive measures for detecting process gaps / weakness so as to mitigate frauds / leakages. Lacunae observed are addressed in consultation with the relevant stakeholder. The RCU carries out 'Risk Assessments,' reviews processes and provide inputs to mitigate risks.
- (v) **Fraud Monitoring**
The Company takes a holistic approach to identify, measure, control and monitor fraud risk through the Fraud Prevention Policy. Various measures taken in coordination with the concerned stakeholders to mitigate fraud risk. The Company also participates in Industry forums to proactively obtain information on latest fraud trends.
- (vi) **Information Security**
The Information Security Committee (ISC) monitors information and cyber security risks. The Company complies with relevant regulatory and statutory information security requirements and is ISO 27001 certified. To further enhance the information security, the Company periodically conducts user awareness campaigns across locations.
- (vii) **Data Protection**
The Company employs various data protection solutions to ensure that the data of its customers, employees, vendors and other stakeholders is appropriately handled through its life cycle. A Data Governance Framework is in the process of being formulated by the Company.
- (viii) **Business Continuity Management**
The Company has requisite business continuity and disaster recovery plans in place and is ISO 22301 certified. The Company adheres to the Business Continuity requirements notified by the Authority.
- (h) **Regulatory risk:**
Compliance function monitors regulatory risks and has a sound compliance management and

MANAGEMENT REPORT (CONTD.)

suitable monitoring mechanisms in place. Relevant regulatory requirements and clarifications are communicated to relevant business functions on a timely basis. Suitable training is imparted to ensure adherence to applicable regulations.

(i) Reputational risk:

The Company has a structured process for identifying and managing risks emerging from reputational and other external events. Such events are discussed in the Risk Events Monitoring Committee, which meets on a quarterly basis. Events impacting the reputation are also monitored through the Corporate Risk Appetite statement.

(j) Legal risk:

Litigation cases are reviewed periodically by the senior management and appropriate steps are taken to adequately represent the Company in various forums.

(k) Country Risk:

The Company has obtained necessary regulatory approvals for opening branch office in Kingdom of Bahrain from IRDAI and Central Bank of Bahrain (CBB) for carrying out life insurance business. The target market will be Non-Resident Indian (NRI) and Person of Indian Origin (PIO) only. Currently, the Company is in process of surrendering the certificate of commencement to CBB and do not foresee any Country Risk.

(l) COVID19

The Outbreak of COVID-19 virus continue to spread across the globe including India, resulting in significant impact on global and India's economic environment including volatility in the capital markets. This outbreak was declared as global pandemic by World Health Organisation (WHO) on March 11, 2020. The Company has assessed the overall impact of this pandemic on its business and financials, including valuation of assets, policy liabilities and solvency for the year ended March 31, 2020. Based on the

evaluation, the Company has made additional reserve amounting to ₹ 600,000 thousands resulting from COVID-19 pandemic over and above the policy level liabilities calculated based on prescribed IRDAI regulations and the same have been provided for as at 31/03/2020 in the actuarial liability. The Company will continue to closely monitor any future developments relating to COVID-19 which may have any impact on its business and financial position.

(II) Risk Quantification, Capital Allocation and Concentration:

The Company has a mechanism to allocate risk capital to various risks on an economic basis. The exposure level to various risks is monitored so as to ensure that concentration does not happen in any particular area of risk. The Company also ensures that adequate capital is maintained to cover its risks and thereby remain solvent on an economic basis.

9. OPERATIONS IN OTHER COUNTRIES

The Company has obtained necessary regulatory approvals for opening branch office in Kingdom of Bahrain from IRDAI and Central Bank of Bahrain (CBB) for carrying out life insurance business. However, the Board of Directors in its meeting held on January 22, 2020 have resolved to surrender the Certificate of Commencement issued by the Central Bank of Bahrain (CBB) and to withdraw all the resources of the Company in accordance to the applicable laws.

INDEPENDENT AUDITORS' REPORT

To the Members of

SBI Life Insurance Company Limited

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

OPINION

We have audited the accompanying Standalone Financial statements of **SBI Life Insurance Company Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2020, the related Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Receipts and Payments Account for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required in accordance with The Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations") and the Companies Act, 2013 ("the Act"), to the extent applicable, in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, as applicable to Insurance companies:

- in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2020;
- in the case of the Revenue Account, of the net surplus for the year ended on that date;
- in the case of the Profit and Loss Account, of the profit for the year ended on that date; and
- in the case of the Receipts and Payments Account, of the Receipts and Payments for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe

that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

EMPHASIS OF MATTER

We invite attention to Note No 38 regarding the uncertainties arising out of the outbreak of COVID-19 pandemic and the assessment made by the management on its business and financials, including valuation of assets, policy liabilities and solvency for the year ended March 31, 2020, this assessment and the outcome of the pandemic is as made by the management and is highly dependent on the circumstances as they evolve in the subsequent periods. Our Opinion is not modified on the above matter.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

- Valuation of Investments (AUM March 31, 2020: 1,603,634,820 March 31, 2019: 1,410,243,236) (INR in Thousands)**
(Refer Significant Accounting Policies in note no.16 B (k) (Investments) and Schedule 8, 8A and 8B, note no. 16 C (20 & 21) (Impairment of investment assets) to the standalone financial statements)

The Company's investment portfolio consists of Policyholders' investments (traditional and unit linked policy holders) and Shareholders investments.

Total investment portfolio of the Company (i.e. Assets under Management (AUM)) represents 98.7 per cent of the Company's total assets.

Investments are made and valued in accordance with the Insurance Act, 1938, IRDAI (Investment) Regulations, 2016 ("Investment Regulations"), IRDAI (Preparation of Financial Statement Regulations) 2002 ("Financial Statement Regulations"), Investment Policy of the Company and relevant Indian GAAPs.

These valuation methods use multiple observable market inputs, including observable interest rates, index levels, credit spreads, equity prices, counterparty credit quality, and corresponding market volatility levels etc.

The portfolio of quoted investments is 26.1 per cent of the Company's AUM and the portfolio of investments that are valued primarily using observable inputs is 71.9 per cent of the Company's AUM. We do not consider these investments to be at a high risk of significant misstatement, or to be subject to a significant level of judgement because they comprise

liquid, quoted investments. However, due to their materiality in the context of the standalone financial statements as a whole, they are considered to be one of the areas which had the significant impact on our overall audit strategy.

The portfolio of unquoted investments is 1.2 per cent of the Company's AUM. The valuation of unquoted investments involves judgement depending on the observability of the inputs into the valuation and further judgement in determining the appropriate valuation methodology where external pricing sources are either not readily available or are unreliable.

The valuation of these investments was considered to be one of the areas which required significant auditor attention and was one of the matter of most significance in the financial statements due to the materiality of total value of investments to the financial statements.

Auditors' Responses

Principal Audit Procedures

- We assessed appropriateness of the pricing methodologies with reference to IRDAI Investment Regulations, Financial Statement Regulations, Company's internal investment and valuation policy;
- Assessed the process and tested the operating effectiveness of the key controls, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorisation and data input controls;
- Fair value is best evidenced by quoted market prices in an active market. Where quoted market prices are not available, the quoted prices of similar products or valuation models with observable market based inputs are used to estimate fair value. The calculation of estimated fair value is based on market conditions at a specific point in time and may not be reflective of future fair values;
- For quoted investments, the valuation was done in accordance with the independent pricing sources / market prices in an active market;
- For unquoted investments, we critically evaluated the valuation assessment and resulting conclusions in order to determine the appropriateness of the valuations recorded with reference to the assessment made by the management for such valuation.

b) Information technology systems and controls (IT Controls)

All insurance companies are highly dependent on technology due to the significant number of transactions that are processed daily. A significant part of the Company's financial processes is heavily reliant on IT systems with automated processes and controls over the capturing, valuing and recording

of transactions. Thus, there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being materially misstated.

The Company uses several systems for its overall financial reporting. We have identified 'IT systems and controls' as key audit matter because of significant use of IT system and the scale and complexity of the IT architecture.

Auditors' Responses

Principal Audit Procedures

- Sample testing of key control over IT systems having impact on financial accounting and reporting;
- Assessed the IT system processes for effectiveness of some of the key controls with respect to financial accounting and reporting records by sample testing; and
- Our audit approach relies on automated controls and therefore procedures are designed to test control over IT systems, segregation of duties, interface and system application controls over key financial accounting and reporting systems.
- Reviewed the report of independent information system auditors which has further confirmed the various system control measures adopted by the Company.

c) Contingent Liabilities and Litigations

(Refer Significant Accounting Policies in note no. 16 B (r) (Provisions and contingent liabilities) and note no. 16 C (1) to the standalone financial statements)

The Company has pending litigation matters with various appellate authorities and at different forums. The same involves judgements in accordance with applicable Accounting Standards to determine the final outcome of such open litigation matters.

The management with the help of its experts, as needed, have made judgments relating to the likelihood of an obligation arising and whether there is a need to recognise a provision or disclose a contingent liability. We therefore focused on this area as a result of uncertainty and potential material impact.

Auditors' Responses

Principal Audit Procedures

We read the various regulatory correspondences and related documents pertaining to litigation cases and corroborated them with our understanding of legal position as per various statutes;

- We obtained legal opinion sought by management from the independent legal counsel including opinion of our own team to review the sustainability of the dispute. We discussed the status and potential exposures in respect of significant litigation with the Company's internal legal team

INDEPENDENT AUDITORS' REPORT (CONTD.)

and obtaining details regarding the progress of various litigations including management views on the likely outcome of each litigation and the magnitude of potential exposure;

- The various litigation matters were reviewed in order to assess the facts and circumstances and to identify the potential exposures and to satisfy ourselves that it is not probable that an outflow of economic benefits will be required, or in certain cases where the amount cannot be estimated reliably, such obligation is disclosed by the Company as a contingent liability.

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors' Report including Annexures to Directors' Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the Balance Sheet, the related Revenue Account, the Profit and Loss Account and the Receipts and Payments Account of the Company in accordance with accounting principles generally accepted in India, including the provisions of The Insurance Act as amended from time to time, the IRDA Act, the IRDA Financial Statements Regulations, orders/directions/circulars issued by IRDAI in this regard and the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014 further amended by Companies (Accounting Standards) Amendment Rules, 2016, to the extent applicable.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of

the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

- a) The actuarial valuation of liabilities for life policies in force is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary") whose services are as extended and approved by IRDAI. The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2020 has been duly certified by the Appointed Actuary, and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued

by IRDAI and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as contained in the standalone financial statements of the Company. (Refer note no. 5, Schedule 16(C)).

- b) Due to the COVID-19 pandemic and the lockdown and other restrictions imposed by the Government and local administration, the audit processes were carried out based on the remote access to the extent available/feasible and necessary records made available by the management through digital medium.
- c) The standalone financial statements of the Company for the year ended March 31, 2019 were jointly audited by another Auditors who expressed an unmodified opinion dated April 25, 2019 on such financial statements.

Our opinion is not modified in respect of these matters.

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our Independent Auditors' report of even date to the Members of SBI Life Insurance Company Limited)

Based on the verification of records of the Company and based on information and explanations given to us, we give below a report on the directions/additional directions issued by the Comptroller and Auditor General of India in terms of the section 143(5) of the Act.

Sr. No.	Directions under section 143(5) of the Act	Auditors' Comments
1.	Whether the Company has system in place to process all the accounting transactions through IT system? If yes, the implications of processing of accounting transactions outside IT system on the integrity of the accounts along with the financial implications, if any, may be stated.	<p>As per the information and explanations furnished to us, The Company's financial processes are heavily reliant on IT systems with automated processes and controls over the capturing, valuing and recording of transactions. The Company has different IT systems in place for processing the accounting transactions such as premium, commission, claims, investments etc. All the transactions from these IT systems flows into the accounting system which is used for preparation of standalone financial statements and other reporting purposes.</p> <p>As a part of our general review of IT controls, we have carried out the review of major controls in existence in the applications with regard to integrity of data flowing to accounting system. Basis our sample verification, nothing significant has come to our attention that causes us to believe that there are material gaps pertaining to IT controls.</p> <p>The claim submission process in the Company is predominantly manual and data input into the IT systems of the Company in respect of claims is also a manual process. The controls over capturing of dates of claim intimation into the systems needs to be further improved.</p> <p>Further management has conducted the system audit with the help of the consultants which has not reported any significant gaps.</p>
2.	Whether there is any restructuring of an existing loan or cases of waiver/write off of debts/loans/interest etc. made by a lender to the Company due to the Company's inability to repay the loan? If yes, the financial impact may be stated.	The Company has not taken any loans, thus restructuring of an existing loan or cases of waiver/write off of debts /loans/interest etc. made by a lender to the Company due to the Company's inability to repay the loan is not applicable.
3.	Whether funds received/receivable for specific schemes from Central/State agencies were properly accounted for/utilised as per its term and conditions? List the cases of deviation	The Company has not received any funds for specific schemes from central / state agencies, thus proper accounting and utilisation of fund as per terms and conditions of the scheme is not applicable.

Additional directions issued by C&AG as applicable to SBI Life Insurance Company Limited for the year 2019-20

Sr. No.	Additional Directions under section 143(5) of the Act	Auditors' Comments
1.	Number of titles of ownership in respect of CGS/SGS/Bonds/Debentures etc. available in physical/demat form and out of these, number of cases which are not in agreement with the respective amounts shown in the Company's books of accounts may be verified and discrepancy found may be suitably reported.	The Company holds investments both in physical and dematerialised form with clear title of ownership. The holdings are in agreement with the respective amounts shown in the books of accounts of the Company as on 31.03.2020.
2.	Whether stop loss limits have been prescribed in respect of investments. If yes, whether or not the limit was adhered to. If not, the details may be given.	<p>The Company's cut loss policy for equity investments in Linked and Non-linked portfolios have been prescribed in the Investment Policy as approved by the Board.</p> <p>As per the cut loss policy of the Company, Investment compliance team monitors market price of all equity securities falling below 30% of the 'Average Purchase Price'. The decision on to hold, partially sell or completely sell of cut loss securities is recorded and reported to investment Sub-Committee and Board Investment Committee periodically. During the year, the Company has adhered to the cut loss policy.</p>

Sr. No.	Additional Directions under section 143(5) of the Act	Auditors' Comments
3.	Whether the Company has complied with IRDAI circular (No. IRDA/F&A/CIR/MISC/052/03/2018 dated March 27, 2018) regarding exemption of reinsurance schemes in respect of specified insurance schemes such as Pradhan Mantri Jeevan Jyoti Bima Yojana (PMMJJBY), from the purview of GST and passed on to the insured/Government the benefit of reduction in premium?	<p>As per the IRDA Circular dated 27.03.2018, "the proposal to exempt reinsurance schemes in respect of specified insurance schemes has been approved by the GST Council in its 25th meeting held on 18.01.2018, on the condition that the benefit of reduction in the premium on such Insurance schemes, must be passed on to the beneficiaries and the State and Central Exchequers. Insurers shall avoid any undue enrichment on this account."</p> <p>A copy of the DO. No. 354/12/2018-TRU dated 24th January 2018, issued by the Hon'ble Finance secretary, Government of India (enclosed with IRDAI Circular) states as under:</p> <p>"Considering the fact that no GST is payable on insurance premium of such schemes and the GST paid on the re-insurance is included in the cost of insurance premium charged by the Insurance companies from the beneficiaries and also shared between the Centre and State Governments, the proposal to exempt reinsurance schemes in respect of specified insurance schemes has been approved by the GST council in its 25th meeting held at New Delhi on 18.01.2018."</p> <p>No reduction of premium has been passed on to the insured/Government on account of the exemption of the reinsurance scheme as envisaged in the directions.</p> <p>As per the management of the Company, the pricing under the PMJJBY scheme is arrived at as per advice of the 'Department of Financial Services of Ministry of Finance' and no benefit is available to the Company due to the said exemption.</p>

ANNEXURE 'II' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 3(j) under 'Report on Other Legal and Regulatory Requirements' section of our Independent Auditors' report of even date to the Members of SBI Life Insurance Company Limited)

Report on the Internal Financial Controls with reference to standalone Financial Statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls with reference to standalone financial statements of **SBI Life Insurance Company Limited** ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal financial control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and as prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

Meaning of internal financial controls with reference to standalone financial statements

A company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of internal financial controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2020, based on the internal financial control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

Other Matter

The actuarial valuation of liabilities for life policies in force and policies in respect of which premium has been

discontinued but liability exists as at March 31, 2020 has been certified by the Appointed Actuary as per the IRDA Financial Statements Regulations, and has been relied upon by us, as mentioned in "Other Matter" of our audit report on the standalone financial statements for the year ended March 31, 2020. Accordingly, our opinion on the internal financial controls with reference to the standalone financial statements does not include reporting on the operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation. Our opinion is not modified in respect of the above matter.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA (C&AG)

Comments of the Comptroller and Auditor General of India under section 143(6)(b) of the Companies Act, 2013 on the financial statements of SBI Life Insurance Company Limited for the year ended 31 March 2020

The preparation of financial statements of SBI Life Insurance Company Limited for the year ended 31 March 2020 in accordance with the financial reporting framework prescribed under the Insurance Act, 1938 read with the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 and the Companies Act, 2013 (Act) is the responsibility of the management of the Company. The Statutory Auditors appointed by the Comptroller and Auditor General of India under section 139(5) of the Act are responsible for expressing opinion on the financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 05 May 2020.

I, on the behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the Financial Statements of SBI Life Insurance Company Limited for the year ended 31 March 2020 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the Statutory Auditors and is limited primarily to inquiries of the Statutory Auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to Statutory Auditor's report under section 143(6)(b) of the Act.

SCHEDULES FORMING PART OF FINANCIAL STATEMENTS

SCHEDULE 16

Significant accounting policies and notes forming part of the accounts for the year ended March 31, 2020

A. Corporate Information and Nature of Operations

SBI Life Insurance Company limited ('the Company') established as a joint venture between State Bank of India (SBI) and BNP Paribas Cardif SA, incorporated on October 11, 2000 as a Company under the Companies Act. The Company is registered with the Insurance Regulatory and Development Authority of India ('IRDAI') and is carrying on the business of life insurance and annuity. The Company's life insurance business comprises of individual life and group business, including participating, non-participating, pension, group gratuity, group leave encashment, group superannuation, group immediate annuity, unit-linked insurance products, variable insurance products, health and micro insurance. Some of these policies have riders such as accident and disability benefit, level term and critical illness. The equity shares of the Company are listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE).

B. Basis of Preparation and Significant Accounting Policies

a. Basis of preparation and presentation

The Financial Statements are prepared under the historical cost convention, on accrual basis in accordance with the generally accepted accounting principles in India (Indian GAAP) and in compliance with the Accounting Standards notified under Section 133 of the Companies Act, 2013, read together with Rule 7 of the Company (Accounts) Rules, 2014, further amended by Companies (Accounting Standards) Amendment Rules, 2016, to the extent applicable, the provisions of the Insurance Act, 1938, as amended by the Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Act, 1999, the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the Accounting Regulations), the Master Circular on Preparation of Financial Statements and Filing of Returns of Life Insurance Business dated December 11, 2013 and various circulars and notifications issued by the Insurance Regulatory and Development Authority of India thereafter.

The accounting policies followed are consistent with those followed in the previous year.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and disclosure of contingent liabilities as of the date of the financial statements. The reliance upon estimates and assumptions used in the accompanying financial statements are based on management's evaluation

of the relevant facts and circumstances as of the date of the financial statements. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Difference between the actual and estimates are recognised in the period in which the actual results materialise or are known. Any revision to accounting estimates is recognised prospectively in current and future periods.

b. Revenue recognition

i. Premium Income

Premium of non-linked business is recognised as income (net of goods and service tax) when due from policyholders. In respect of linked business, premium income is recognised when the associated units are allotted. In case of variable insurance products (VIPs), premium income is recognised on the date when the Policy Account Value is credited. Uncollected premium from lapsed policies is not recognised as income until such policies are revived.

Top up premiums are considered as single premium.

ii. Income from Linked funds

Income from linked funds which includes fund management charges, policy administration charges, mortality charges, etc. are recovered from linked fund in accordance with terms and conditions of policy and recognised when recovered.

iii. Investment Income

Dividend income for quoted shares is recognised on ex-dividend date, for non-quoted shares the dividend is recognised when the right to receive dividend is established.

Interest income is recognised on accrual basis. Pre-acquisition interest paid/received to/from counterparty on purchase/sale transaction is debited/credited to interest accrued and not due account. Accretion of discount and amortisation of premium in respect of debt securities are effected over the remaining term of such instruments on the basis of the related Yield-to-Maturity.

Realised gains and losses in respect of equity securities and units of mutual funds are calculated as the difference between the net sales proceeds and their cost. In respect of debt securities, the realised gains and losses are calculated as difference between net sales proceeds or redemption proceeds and weighted average amortised cost. Cost in respect of equity shares and units of mutual fund are computed using the weighted average method.

Fees received on lending of equity shares under Securities lending and borrowing scheme (SLB)

SCHEDULES FORMING PART OF FINANCIAL STATEMENTS

is recognised as income over the period of the lending on straight-line basis.

iv. Income from loans

Interest income on loans is recognised on an accrual basis. Loan processing fee is recognised on receipt basis.

v. Rental Income

Rental income is recognised in the income statement on the straight line basis over the lease period.

c. Reinsurance premium ceded

Premium ceded on re-insurance is accounted in accordance with the terms of the re-insurance treaty or in-principle arrangement with the re-insurer.

d. Liability for life policies (Policy liabilities)

The actuarial liability of all the life insurance policies has been calculated by the Appointed Actuary in accordance with the Insurance Act 1938, and as per the rules & regulations and circulars issued by IRDAI from time to time and the relevant Guidance Notes (GN) and / or Actuarial Practice Standards (APS) issued by the Institute of Actuaries of India.

Non-linked business is reserved using a prospective gross premium valuation method. Mathematical reserves are calculated based on future assumptions having regard to current and future experience e.g. interest rates, mortality and expenses.

For participating products, vested bonuses are those which were distributed by the company consequent to the actuarial valuations carried out annually at the end of each financial year dated March 31, 2002 to March 31, 2020. For participating pension products, special one-time bonus declared during financial year 2003-04 and 2004-05 have been taken into account. Appropriate future bonus assumptions have been made.

For Group-Par-Pension, the reserve is the Accumulated Fund Value.

For Non-Linked – Individual fund-based products and Non-Linked – Group fund-based products, the policy liability in respect of savings portion is equal to the fund value as on the date of valuation.

The unit liability in respect of Individual – Linked and Group – Linked business has been considered as the value of the units standing to the credit of the policy holders, using the net asset value (NAV) as on the valuation date.

The adequacy of charges under individual unit linked policies to meet future expenses has been tested and provision made as appropriate. Provision has also been made for the cost of guarantee under Unit Linked products offered with Guarantee.

Variable insurance policies (VIPs) have also been valued in a manner similar to the ULIP business by

considering liability as the policy account standing to the credit of the policyholders plus additional provisions for adequacy of charges to meet expenses.

Appointed Actuary is satisfied that the nature and extent of re-insurance arrangements require no additional reserve to be set aside apart from reinsurance reserves set aside based on Unearned Premium Reserve (UPR) methodology.

Considering the prudence of the valuation basis and the margins in the assumptions, our assessment is that, the reserve set aside is sufficient to meet all future policy outgoes under adverse conditions.

e. Funds for future appropriation

For non-linked participating business, the balance in the funds for future appropriations account represents funds, the allocation of which, either to participating policyholders' or to shareholders', has not been determined at the Balance Sheet date. Transfers to and from the fund reflect the excess or deficit of income over expenses and appropriations in each accounting period arising in the Company's policyholders' fund. In respect of participating policies any allocation to the policyholder would also give rise to a shareholder transfer in the required proportion.

The fund for future appropriations held in the unit-linked funds, represents surplus that has arisen from lapsed policies unlikely to be revived. This surplus is required to be held within the policyholders' fund till the point at which the policyholders' can no longer revive their policy.

f. Benefits paid

- i. Claims cost consist of the policy benefit amounts and claims settlement costs, where applicable.
- ii. Claims by death and rider are accounted when intimated. Intimations up to the end of the period are considered for accounting of such claims.
- iii. Claims by maturity are accounted on the policy maturity date.
- iv. Survival and annuity benefit claims are accounted when due.
- v. Surrenders and withdrawals are accounted as and when intimated. Benefits paid also includes amount payable on lapsed policies which are accounted for as and when due. Surrenders, withdrawals and lapsation are disclosed at net of charges recoverable.
- vi. Repudiated claims disputed before judicial authorities are provided for based on management prudence considering the facts and evidences available in respect of such claims.
- vii. Amount recoverable from re-insurers are accounted for in the same period as the related claim and are reduced from claims.

SCHEDULES FORMING PART OF FINANCIAL STATEMENTS

g. Acquisition costs

Acquisition costs such as commission, medical fees, etc. are costs that are primarily related to the acquisition of new and renewal insurance contracts. The same are expensed in the period in which they are incurred.

h. Fixed assets, intangibles and depreciation

Fixed assets

Fixed assets are stated at cost, less accumulated depreciation and impairment, if any. Cost includes the purchase price and any other cost which can be directly attributed to bringing the asset to its working condition for its intended use. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets.

Intangibles

Intangible assets are stated at cost, less accumulated amortisation and impairment, if any. Expenditure incurred on major application software and their customisation or further development is recognised as an intangible asset. The same is capitalised under fixed assets if such expenditure results in a benefit of enduring nature. Other software expenses are expensed in the period in which they are incurred. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Capital work in progress

Costs of assets as at the Balance sheet date not ready for its intended use are disclosed as capital work-in-progress. Advances paid towards the acquisition of fixed assets and intangibles at the Balance Sheet date are disclosed as capital work-in-progress.

Depreciation/ amortisation

The Company is following straight line method of depreciation provided on pro rata (monthly) basis for period of use for the following type of assets based on useful life as prescribed under Part "C" of Schedule II to the Companies Act, 2013:

Nature of Asset	Useful life
Furniture & fittings	10 Years
Office equipments	5 Years
Vehicles	8 Years
Building	60 Years
Information technology equipment	3 Years
Servers & Networks	6 Years

Software expenses are amortised over a maximum period of 3 years.

Leasehold improvements are amortised equally over the period of lease. Capital expenditure on individual assets up to ₹ 1,000 are not capitalized and expensed

out as revenue expenditure. Assets individually costing more than ₹ 1,000 and up to ₹ 20,000 are fully depreciated in the month of acquisition.

Depreciation is charged to Revenue and Profit & Loss Account based on the "put to use" criteria as per IRDAI guidelines.

i. Impairment of fixed assets

The carrying values of assets at each Balance Sheet date are reviewed for impairment. If any indication of such impairment exists, the recoverable amounts of those assets are estimated and impairment is recognised, if the carrying amount of those assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived by discounting the estimated future cash flows to their present value based on an appropriate discount factor. If at the Balance sheet date, there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer required or has decreased; reversal of impairment loss is recognised. The recoverable amount is reassessed and the asset is reflected at recoverable amount, subject to a maximum of depreciable historical cost.

j. Foreign currency transactions

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of transaction.

Monetary assets and liabilities in foreign currency as at the Balance Sheet date are converted at the exchange rates prevailing on that date.

Non-monetary items like fixed assets which are recorded at historical cost are reported using the exchange rate at the date of transaction.

Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation are reported using exchange rate at the date when such value was determined.

Exchange differences either on settlement or on translation are recognised in the Revenue Account or Profit and Loss Account, as the case may be.

k. Investments

Investments are made and accounted in accordance with the Insurance Act, 1938, Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, and Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, Investment Policy of the Company and various other circulars/ notifications as issued by IRDAI from time to time.

Investments are recorded on the trade date at cost, which includes brokerage, security transaction tax, education cess and stamp duty, wherever applicable and excludes interest paid, if any, on purchase.

SCHEDULES FORMING PART OF FINANCIAL STATEMENTS

Bonus entitlements are recognised as investments on the 'ex- bonus date'. Rights entitlements are recognised as investments on the 'ex-rights date'.

i. Classification of Investments

Investments maturing within twelve months from balance sheet date and investments made with the specific intention to dispose-off within twelve months from balance sheet date shall be classified as short-term investments.

Investments other than Short-term investments are classified as "Long-term investments".

ii. Valuation – shareholders' investments and non-linked policyholders' investments

Debt securities

Debt securities, including Government securities and money market securities are stated at historical cost subject to amortisation of premium or accretion of discount over a period of holding/ maturity on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, the closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing ('SLB'), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under "Equity" as specified by IRDAI, are valued at prices obtained from Credit Rating Information Services of India Limited ('CRISIL').

Unrealised gains or losses arising due to change in the fair value of equity shares are recognised in the Balance Sheet under "Fair value change account".

On each balance sheet date, the Company assess whether impairment of listed equity securities has occurred. Any impairment loss is recognised as an expense in the Revenue or Profit and Loss Account to the extent of the difference between the re-measured fair value of the security or investment and its weighted average cost as reduced by any previous impairment loss

recognised as an expense in the Revenue or Profit and Loss Account. Any reversal of impairment loss, earlier recognised in Revenue or Profit and Loss Account, is recognised in the Revenue or Profit and Loss Account.

Mutual funds

Investments in mutual funds are valued at the previous day's Net Asset Value (NAV). Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Balance Sheet under "Fair value change account".

Alternative Investment Funds (AIFs)

Investments in Alternative Investment Funds (AIFs) are valued at latest available NAV. Unrealised gains or losses arising due to change in the fair value of Alternative Investment Funds (AIFs) are recognised in the Balance Sheet under "Fair value change account".

iii. Valuation – Linked business

Debt securities

Debt securities including Government securities with remaining maturity of more than one year are valued at prices obtained from CRISIL.

Debt securities including government securities with remaining maturity of less than one year are valued on yield to maturity basis, where yield is derived using market price provided by CRISIL on the day when security is classified as short term. If security is purchased during its short term tenor, it is valued at amortized cost using yield to maturity method. In case of securities with options, earliest Call Option / Put Option date will be taken as maturity date for this purpose.

Money market securities are valued at historical cost subject to amortisation of premium or accretion of discount on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing (SLB), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

SCHEDULES FORMING PART OF FINANCIAL STATEMENTS

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under "Equity" as specified by IRDAI, are valued at prices obtained from CRISIL.

Unrealised gains or losses arising due to change in the fair value are recognised in the Revenue Account.

Mutual funds

Investments in mutual funds are valued at the previous day's Net Asset Value (NAV). Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Revenue Account.

iv. Transfer of investments

In the case of deficit in Revenue Account, transfer of securities from shareholders to policyholders is done as below:

- (i) Debt securities are transferred at lower of net amortised cost or market value on the date of transfer;
- (ii) Equity securities are transferred at lower of cost or market value on the date of transfer.

In the case of surplus in Revenue Account, transfer of securities from policyholders' to shareholders' is done as below:

- (i) Debt securities are transferred at net amortised cost;
- (ii) Equity securities are transferred at market value on the date of transfer.

No transfer of investments is carried out between non-linked policyholders' funds. In case of unit linked fund, inter schemes transfers are affected at prevailing market value at the time of transfer.

v. Impairment of Investments

On each balance sheet date, the Company assesses whether there is any indication of impairment of investments or reversal of impairment loss recognised in prior periods. Any impairment loss is recognised as an expense in the Revenue or Profit and Loss Account to the extent of the difference between the re-measured fair value of the security or investment and its weighted average cost as reduced by any previous impairment loss recognised as an expense in the Revenue or Profit and Loss Account. Any reversal of impairment loss, earlier recognised in Revenue or Profit and Loss Account, is recognised in the Revenue or Profit and Loss Account.

vi. Provision for Non-Performing Assets (NPAs)

All assets where the interest and/or principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA and provided for in accordance with the requirement of applicable IRDAI Regulations/circulars.

I. Loans

Investments in Loans are stated at historical cost, less repayments, subject to provision for impairment losses & non-performing asset (NPA) provision, if any.

m. Provision for Standard Assets

In accordance with the IRDAI guidelines on 'Prudential norms for income recognition, asset classification, provisioning and other related matters in respect of debt portfolio' vide the Master circular, adequate provisions are made for estimated loss arising on account from/under recovery of loans and advances (other than loans and advances granted against insurance policies issued by the insurer) outstanding at the balance sheet date in respect of standard assets.

n. Employee benefits

(i) Post-employment benefit

Defined benefit plans

Provident Fund

The Company makes contribution towards provident fund, a defined benefit retirement plan. The provident fund is administered by the trustees of the SBI Life Insurance Company Limited Employees PF Trust. The contribution paid or payable under the schemes is charged to the Revenue Account during the period in which the employee renders the related service. Further, an actuarial valuation is conducted annually by an independent actuary to recognise the deficiency, if any, in the interest payable on the contributions as compared to the interest liability as per the statutory rate.

Gratuity

The Company has incorporated a gratuity trust. The Company makes contribution to a Gratuity Fund administered by trustees of SBI Life Insurance Company Limited Employees Gratuity Fund. The plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee's salary and the years of employment with the Company.

The Company accounts for the liability for future gratuity benefits based in accordance with Accounting Standard – 15 (Revised). The net present value of the Company's obligation towards the same is actuarially determined based on the projected unit credit method as at the Balance Sheet date. Actuarial gains and losses are recognised in the Revenue Account.

(ii) Other long-term employee benefits

Compensated Absences and Long Term Service Awards

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the

SCHEDULES FORMING PART OF FINANCIAL STATEMENTS

related services are recognised as a liability at the present value of the defined benefit obligation at the Balance Sheet date.

Long Term Service Awards are recognised as a liability at the present value of the defined benefit obligation at the Balance Sheet date.

The Company accrues the liability for compensated absences and long term service awards in accordance with Accounting Standard – 15 (Revised). The net present value of the Company's obligation is determined based on the projected unit credit method as at the Balance Sheet date.

(iii) Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid for the services rendered by employees is recognised during the period when the employees renders the service. These benefits include salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalization), premium for employee group term insurance scheme etc.

(iv) Employee share based payments

The Company follows the intrinsic value method to account for its share-based employee compensation plans in accordance with the Guidance Note on Accounting for Employee Share based Payments, issued by the Institute of Chartered Accountants of India (ICAI). The intrinsic value is measured as the excess, if any, of the fair market price of the underlying stock over the exercise price on the grant date. The intrinsic value of options, if any, at the grant date is amortised over the vesting period. The fair market price is the latest closing price, immediately prior to the grant date, on the stock exchange on which the shares of the Company are listed. If the shares are listed on more than one stock exchange, then, the stock exchange which records the highest trading volume on the date, immediately prior to the grant date is considered.

o. Accounting for Leases

(i) Operating Lease

Where the Company is the lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership over the lease term are classified as operating leases. Operating lease rentals are recognised as an expense over the lease period on a straight line basis.

Where the Company is the lessor

Assets subject to operating leases are included in fixed assets. Lease income is recognised in the Profit and Loss Account on a straight-line basis over the lease term. Costs, including

depreciation are recognised as expense in the Profit and Loss Account.

(ii) Finance Lease

Leases under which the Company assumes substantially all the risk and rewards of ownership of the asset are classified as finance leases. Such leased asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

p. Taxation

Direct Taxes

Provision for current income tax, if any, is made on an accrual basis after taking credit for all allowances and exemptions in accordance with the Income Tax Act, 1961.

Deferred income tax is recognised for future tax consequences attributable to timing differences between income as determined by the financial statements and the recognition for tax purposes. The effect of deferred tax asset or liability of a change in the tax rates are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent that there is a virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets or liabilities are reviewed as at each Balance Sheet date and written down or written up to reflect the amount that is reasonably or virtually certain to be realised.

Indirect Taxes

Goods and service tax liability on output service is set-off against the input tax credits available from tax paid on input services. Unutilised credits, if any, are carried forward under "Advances and other assets" for future set off and are deferred for recognition to the extent there is reasonable certainty that the assets can be realised in future.

q. Segmental reporting

As per Accounting Standard 17 on "Segmental Reporting" read with IRDA (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, the Company has classified and disclosed segmental information in to participating, non-participating and linked businesses, which are further segmented into Individual life, group, health, pension, variable and annuity.

r. Provisions and contingent liabilities

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an

SCHEDULES FORMING PART OF FINANCIAL STATEMENTS

outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made. Loss contingencies arising from litigation etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

Contingent assets are neither recognised nor disclosed.

s. Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period in the shareholders' account by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

t. Cash and Cash Equivalents

Cash and cash equivalents for the purpose of Receipts and Payments Account comprises of cash and cheques in hand, bank balances, deposits with banks and other short-term highly liquid investments with original maturities of three months or less.

5. Actuarial assumptions

The assumptions used in valuation of liabilities are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with IRDAI.

The actuarial assumptions certified by the Appointed Actuary whose services are as extended by IRDAI as a very special case upto September 30, 2020 or review of appointed actuary's report by the Authority for the financial year 2019-20, whichever is earlier, are as under:

- In the actuarial valuation all the policies, which were in the books of the Company and where there is a liability as at March 31, 2020 have been taken into account.

The portfolio consists of Participating, Non-Participating and Linked segments.

'Participating' segment is further classified in to the following Lines of Businesses (LoBs): Individual - Life - Participating, Individual - Pension - Participating, Group - Pension - Participating and Individual - VIP - Participating.

'Non-Participating' segment is further classified in to the following LoBs: Individual - Life - Non-Participating, Individual - Pension - Non-Participating, Group Savings - Non-Participating, Group One Year Renewable Group Term Assurance (OYRGTA) - Non-Participating, Group Other - Non-Participating, Annuity - Non-Participating (Individual and Group), Health - Non-Participating (Individual and Group), and VIP - Non-Participating (Individual and Group).

'Linked' segment is further classified in to the following LoBs: Individual - Life - Linked, Group - Linked and Individual - Pension - Linked.

- For policies which are likely to get cancelled during their "free look period", premium less stamp duty and medical expenses as per the policy contract need to be refunded. Adequate provision is kept for such policies.
- The following parametric values are used to carry out the actuarial valuation:

For mortality assumption under life business 'Indian Assured Lives (2012-2014) Ultimate Mortality table' and under general annuity business 'Mortality for Annuitants-LIC (a) (1996-98) Ultimate Rates' has been used. For Morbidity assumption, the Morbidity Tables provided by re-insurers has been used with suitable adjustment.

The interest rate for valuation lies in the range of 5.50% to 6.00% per annum as shown in the table below. While allocating expenses for the current year, the entire policyholders' expenses have been allocated product-wise.

Line of Business	Valuation basis as on March 31, 2020	Valuation basis as on March 31, 2019
Participating	5.95%	5.95%
Non-Participating	5.50%	5.50%
Unit Linked	5.50%	5.50%
Annuity	6.00%	6.00%
Health	5.50%	5.50%

As regard for future expenses, on the basis of experience available, fixed expenses are considered separately for single premium products and regular premium products.

Linked - Group (Per life basis)		

For fully paid-up and reduced paid-up policies, fixed expenses are considered same as for single premium policies.

An inflation rate of 5.50% per annum (previous year ended March 31, 2019: 5.50% per annum) has been assumed while estimating future expenses.

For participating products, the vested bonuses are those which were distributed by the Company consequent to the actuarial valuations carried out annually at the end of each financial year dated March 31, 2002 to March 31, 2020. Regarding bonus provisions for the current financial year and bonus provision for future years, the bonus rates have been assessed by carrying out Bonus Earning Capacity (BEC)/ asset share investigations and taking into consideration the policyholder's reasonable expectations.

Margin for Adverse Deviation (MAD) has been separately provided, wherever applicable and required.

In addition to this, Incurred but Not Reported (IBNR) claims reserve is also provided wherever required.

The above parameters and the MAD provision have been observed to ensure prudence and are in accordance with the GN / APS issued by the Institute of Actuaries of India and in concurrence with the Regulations and circulars of IRDAI.

The Surplus emerged from Non-participating segment has been transferred to Profit & Loss Account for the year ended March 31, 2020 based on the recommendation of the Appointed Actuary and the necessary fund transfer will be made after the year end on the basis of Audited financials with required recommendations by the Appointed Actuary.

(iv) Employee Stock Option Scheme ("ESOS")

The SBI Life Employee Stock Option Plan 2018 ('ESOP 2018') and SBI Life Employees Stock Option Scheme 2018 ('the Scheme' or 'ESOS 2018') has been approved by the shareholders of the Company in the Annual General Meeting (AGM) held on September 27, 2018 based on the recommendation of the Board Nomination & Remuneration Committee ('NRC') and Board of Directors ('Board') in their meetings held on August 31, 2018.

The maximum number of stock options granted to eligible employees in accordance with ESOP 2018 shall not exceed 30,000,000 shares. During any one year, no Employee shall be granted Options equal to or exceeding 1% of the issued share capital of the Company at the time of Grant of Options unless an approval from the Shareholders is taken by way of special resolution in a General Meeting. Further, the maximum number of Options in aggregate granted to an employee under this Plan shall not exceed 1,00,00,000 Options. The Exercise Price shall be determined by the Board Nomination & Remuneration Committee in concurrence with the Board of Directors of the Company on the date the Options are granted and provided in the letter of grant. During the year the NRC in its meeting held on July 23, 2019 has approved the grant of the Employee Stock Options ('Options') under the provisions of ESOS 2018.

The Scheme is directly administered by the Company and provides that eligible employees are granted options to subscribe to equity shares of the Company which vest in a graded manner. The vested options may be exercised within a specified period.

¹ vested options available for exercise at the end of the year.

The Company follows intrinsic value method to account for its share-based employee compensation plans. During the year ended March 31, 2020, the Company has granted 959,350 options to its eligible employees under ESOS 2018, of which no options are vested or exercised. Out of the total outstanding as at the end of the previous year ended March 31, 2019, 302,919 options are vested during the year ended March 31, 2020. During the year ended March 31, 2020 ₹ 14,790 thousands has been received on exercise of 26,295 options resulting in increase in paid-up equity share capital by ₹ 263 thousands and securities premium by ₹ 14,527 thousand. The Company has recognised a compensation cost of ₹ 1,126 thousands for the year ended March 31, 2020 (previous year ended March 31, 2019: ₹ Nil) since the intrinsic value of the options granted on July 23, 2019 is ₹ 3.14 per option.

The weighted average remaining contractual life of the options outstanding as at March 31, 2020 is 6.0 years (Previous year ended March 31, 2019: 6.7 years).

Fair value methodology

Method of computation of Fair Value of Options:

The fair value of options has been calculated using the Black-Scholes model. The key assumptions considered for calculating fair value of the options as on the grant date are as follows:

Particulars	Year ended March 31, 2020	Year ended March 31, 2019	Basis
Risk free interest rate	6.52%	7.30%	Determined based on G-Sec yield on the grant date corresponding to maturity period equal to expected life of options
Expected life of the options (years)	4.55	4.55	Average of the weighted-average time to vesting and the contractual life of options
Expected dividend yield	0.30%	0.36%	Calculated based on recent rate of dividend declared
Expected volatility	25%	26.78%	Based on historical stock prices using annualised standard deviation of daily change in stock price.

41. Segment reporting

In accordance with the Accounting regulations read with Accounting Standard – 17 on “Segment reporting” notified under Section 133 of the Companies Act, 2013, read together with Paragraph 7 of the Company (Accounts) Rules, 2014, further amended by Companies (Accounting Standards) Amendment Rules, 2016, life insurance companies are required to prepare Segmental Revenue Account and Segmental Balance Sheet. The Company's business is segmented into traditional -par business, non-par business and unit-linked business. Since the Company has conducted business only in India, the same is considered as one geographical segment. The accounting policies used in segmental reporting are same as those used in the preparation of the financial statements.

(a) Segmental Revenue Account

The methodology for determining segmental revenue and expenses adopted in the current year is described below:

Premium income, commission, investment income and profit or loss on sale or disposal of investments is directly allocated to the respective segments to which they relate. Within the Non-Participating segment, investment income and profit or loss on sale or disposal of investments are directly allocated if a segregated investment portfolio is maintained. The remaining investment income and profit or loss on sale of investments is apportioned on the basis of the average policy liabilities in the individual business and the group business.

Operating expenses that are directly attributable and identifiable to the business segments are allocated on actual basis. Other operating expenses, which are not directly identifiable and attributable, are allocated after considering the following:

- Cost centres identified by the Management
- Channels used for the business segments
- New business premium and renewal premium
- New lives added during the year
- Total number of lives covered as at the end of the year
- New business sum assured
- Actuarial Liability

(b) Segmental Balance Sheet

Investments are effected from the respective funds and have been reflected accordingly. Fixed assets have been allocated to shareholders' funds, net current assets have been directly allocated among shareholders, life business, pension business, group business, unit – linked business and variable insurance business segments. Other net current assets have been allocated to life business and pension business in the ratio of the respective policy liabilities as at the year end.

Within life business, certain assets and liabilities have been directly identified to the respective segments. Other assets and liabilities under Life business have been allocated in the ratio of the respective policy liabilities as at the year end.

APPOINTED ACTUARY'S CERTIFICATE

For the year ended 31st March, 2020

(Amounts in thousands of Indian Rupees)

I have valued the policy liabilities of SBI Life Insurance Company Limited as at 31st March, 2020 in accordance with accepted actuarial practice and in line with relevant professional guidance issued by the Institute of Actuaries of India, including that covering the selection of appropriate assumptions.

In my opinion, the amount of policy liabilities ₹ 1,546,883,333 (net of reinsurance) makes appropriate provision for all policyholders' obligations, and the financial statements fairly present the result of the valuation.

Subhendu Kumar Bal

Appointed Actuary

SBI Life Insurance Company Limited

Mumbai, 05 May, 2020

1. VoNB assessment: The value of new business is calculated as at the end of the reporting period i.e. as on the valuation date rather than at the point of sale. Accumulation from point of sale up to end of reporting period is done using the respective monthly reference rates.
2. VoNB sensitivity: New Business sensitivities assumes that the scenario arises after the point of sale; and consider impacts on both new business liability cash-flows and the asset backing the reserves at the respective month ends. 'Nil' interest rate VoNB sensitivity is applied for annuity products.
3. The sensitivities are being calculated with a lag of one quarter of a year, starting from the Q3FY19 disclosure.

3. METHODOLOGY AND APPROACH

IEV is calculated as the sum of Adjusted Net Worth (ANW) and Value of In-Force business (VIF).

ANW comprises Free Surplus (FS) and Required Capital (RC).

VIF consists of the following components:

- Present Value of Future Profits (PVFP) expected to emerge from the covered business;
- Less Frictional Cost of Capital (FCoC);
- Less Time Value of Financial Options and Guarantees (TVFOG);
- Less Cost of Residual Non-Hedgeable Risks (CRNHR).

3.1 Components of Adjusted Net Worth (ANW):

This is the value of all assets allocated to the covered business that are not required to back the liabilities of the covered business.

Free Surplus (FS): Free Surplus represents the market value of any assets in excess of liabilities and Required Capital which is potentially distributable to shareholders immediately. Free Surplus has been calculated as the excess of ANW over the Required Capital.

Required Capital (RC): Required Capital is the amount of assets attributed to the covered business over and above that required to back liabilities for the

covered business whose distribution to shareholders is restricted. Required Capital has been set at 180% of the Required Solvency Margin (RSM), based on the Company's internal capital target. RSM has been projected by applying the solvency margin factors prescribed by the IRDAI appropriate to each line of business.

3.2 Components of Value of Inforce (VIF) business:

Present Value of Future Profits (PVFP): PVFP represents the present value of future post taxation shareholder cash-flows projected to emerge from the in-force covered business and the assets backing liabilities of the in-force covered business. The PVFP incorporates an allowance for the intrinsic value of financial options and guarantees.

Frictional Cost of Capital (FCoC): FCoC reflects the impact of taxation on investment returns and investment costs on the assets backing required capital. FCoC has been estimated as the present value of:

- tax on investment earnings on assets backing the required capital; and
- investment expenses (after tax) incurred in holding such assets.

Required Capital is assumed to be maintained throughout the lifetime of the underlying liabilities, at the internal target level of 180% of the RSM, calculated based on the prescribed factors.

Time Value of Financial Options and Guarantees (TVFOG):

Allowance is made for asymmetric impact on shareholder value due to any financial options and guarantees within the covered business.

Cost of Residual Non-Hedgeable Risks (CRNHR):

A bottom-up assessment of risks has been undertaken to allow for the cost of residual non-hedgeable risks not already allowed for elsewhere. CRNHR has been estimated using a cost of capital approach.

3.3 Assumptions used for IEV Calculation:

The expense assumptions used in the IEV (Indian Embedded Value) estimation represent the unit costs arising out of actual experience of the FY 2020 and makes no allowance for any productivity gains/cost efficiencies beyond what is achieved up to

the valuation date. Allowance has been made for future inflation on the expenses. Further, any one-off costs incurred during FY 2020 and development expenditure have not been identified separately or excluded when determining the unit cost assumptions.

The Required Capital is taken at 180% of the Statutory RSM, which is the internally approved norm for the company.

The rate of income tax applied to the surplus is set at 14.56%. Tax deductions available by way of dividend income from equity etc. are not taken into consideration. Rate of taxation applied to individual pension business is zero.

The zero coupon government bond yield curve published by FIMMDA-PDAI was used as the assumed reference rates.

INDEPENDENT ACTUARY'S OPINION

4 May 2020

The Board of Directors

SBI Life Insurance Company Limited

Natraj, M.V. Road and Western Express Highway Junction
Andheri (East), Mumbai - 400 069

Dear Sirs,

WILLIS TOWERS WATSON OPINION ON EMBEDDED VALUE AS AT 31 MARCH 2020

Willis Towers Watson Actuarial Advisory LLP ("Willis Towers Watson", "we", "us" or "our") has been engaged by SBI Life Insurance Company Limited ("SBI Life" or "the Company") to review and provide an independent actuarial opinion on the embedded value results prepared by SBI Life. The review covered the embedded value as at 31 March 2020 and the value of one year's new business written during the period 1 April 2019 to 31 March 2020 (together, "embedded value results").

Scope of work

Our scope of work covered:

- A review of the methodology and assumptions used to determine the embedded value results;
- A review of the results of SBI Life's calculation of the embedded value results;
- A review of the analysis of movement in embedded value from 31 March 2019 to 31 March 2020 and
- A review of select sensitivities as defined by the Company.

OPINION

Willis Towers Watson has concluded that the methodology and assumptions used to determine the embedded value results of SBI Life comply with the standards issued by the Institute of Actuaries of India within the Actuarial Practice Standard 10 {"Indian Embedded Value Principles"}, and in particular that:

- the economic assumptions used are internally consistent and result in the projected cash-flows being valued in line with the prices of similar cash-flows that are traded on the capital markets;

- the operating assumptions have been set with appropriate regard to the past, current and expected future experience;
- the Required Capital has been determined and projected on the basis of SBI Life's internal capital target of 180% of the Required Solvency Margin and has been assessed from a shareholders' perspective;
- allowance has been made for the Cost of Residual Non-Hedgeable Risks; and
- for participating business, the assumed bonus rates, and allocation of profit between policyholders and shareholders, are consistent with the projection assumptions, established company practice and local market practice.

Willis Towers Watson has also performed a number of checks on the models, processes and results of the calculations performed by SBI Life. On the basis of this review, Willis Towers Watson has confirmed that no issues have been discovered that have a material impact on the disclosed embedded value as at 31 March 2020, the value of one year's new business written during the period 1 April 2019 to 31 March 2020, the analysis of movement in embedded value for FY2019-20, and the sensitivity analysis as at 31 December 2019.

In arriving at these conclusions, Willis Towers Watson has relied on data and information provided by SBI Life. This Opinion is made solely to SBI Life in accordance with the terms of Willis Towers Watson's engagement letter dated 19 September 2019. To the fullest extent permitted by applicable law, Willis Towers Watson does not accept or assume any responsibility, duty of care or liability to anyone other than SBI Life for or in connection with its review work, the opinions it has formed or for any statements set forth in this opinion.

Sudden unforeseen events such as the COVID-19 (the coronavirus outbreak named as COVID-19 by the World Health Organisation on 11 February 2020) pandemic can have significant impacts on the level of economic activity, investment markets and SBI Life's business and its experience. In forming our opinion on the future expected experience we have not directly considered the potential impact including volatility on SBI Life's business, the investment markets or the industry of such events, including COVID-19.
