MANAGEMENT DISCUSSION AND ANALYSIS REPORT**I. INDUSTRY STRUCTURE AND DEVELOPMENT:**

The year witnessed a highly dynamic situation of our Country. India must be consistent in regaining its position as a leading emerging market investment destination. This can only be possible if consistency and clarity continues in our policies.

Apex Home Finance Limited is an NBFC and is engaged mainly in the business of providing loans and advances to various Corporates. The main objective of the Company is to finance various individuals, Corporates, firms and Industrial enterprises by way of making loans and advances in India and to carry out all such activities as may be ancillary to the achievement of main objectives of the Company. The industry structure relevant to the Company's operations is mainly concerned with the capital market.

Indian economy is going through a period of rapid 'financial liberalization'. The NBFC sector is undergoing a significant transformation at present and has come to be recognized as an important element of the financial system. Today, the 'intermediation' is being conducted by a wide range of financial institutions through a plethora of customer friendly financial products. RBI has been setting right its regulatory and supervising policies from time to time to keep pace with the changes in the economic environment. The segment consisting of NBFCs, such as equipment leasing/hire purchase finance, providing loans and investment to other companies, etc. have made great strides in recent years and are meeting the diverse financial needs of the economy. They are being recognized as complementary to the banking sector due to their customer-oriented services, simplified procedures, attractive rates of return on deposits, flexibility and timeliness in meeting the credit needs of specified sector.

Your Company's performance for the year 2017- 18 has to be viewed in the context of aforesaid economic and market environment.

II. OPPORTUNITIES AND THREATS:

The sector provides loans to various business activities ranging from the business of hire purchase to acquire, to provide on all type loans for purchase of industrial and official plant, equipment, machinery, vehicles, agriculture, handicrafts, trading, services, shops, livestock and production. As banks are unable to appraise the credit requirements of the micro and small businesses they are unable to extend credit facilities with collateral security. The banking system will not be able to meet this demand and a wide gap exists giving the Company an opportunity to grow in its financing of Small Business/ Industrial Loans. Major threat faced by Apex Home Finance Limited would be circumstances of not being able to raise funds for its future business operations.

III. SEGMENT-WISE PERFORMANCE:

The Company is engaged in a single segment i.e. finance/lending. Details of performance have been provided in this report.

IV. OUTLOOK:

Apex Home Finance Limited expects to improve its performance in financial year 2018- 19 and hopes to grow at rate faster than the growth of bank credit. The approach would be to continue with the growth momentum while balancing risk. The Company will continue to invest in strengthening risk management practices; and in maintaining its investment in human resources to consolidate its position as a potentially big NBFC in India.

V. RISK MANAGEMENT:

Risk Management is an integral part of our Company's business strategy. A dedicated team is a part of the management processes governed by the senior management team. This team reviews compliance with risk policies, monitors risk tolerance limits, reviews and analyzes risk exposure related to specific issues and provides oversight of risk across the organization. The team nurtures a healthy and independent risk management function to avoid any kind of misappropriations in the Company. As part of the Risk Management framework, the management of Credit Risk, Market Risk, Operational Risk and Fraud Risk are placed under the Head – Risk. The Credit Risk management structure includes separate credit policies and procedures for various businesses. The risk policies define prudential limits, portfolio criteria, exceptional approval metrics, etc. and cover risk assessment for new product offerings.

Concentration Risk is managed by analyzing counter-party, industry sector, geographical region, single borrower and borrower group. Retail Finance credit approval is based on product / programs and monitoring is primarily done at the portfolio level across products and programs. Casual analysis is carried out and corrective actions are implemented on key risk indicators. A Senior Management oversight committee meets periodically to review the operational risk profile of the organization. Fraud risks are mitigated through a fraud risk management team.

VI. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company's internal control system is designed to ensure operational efficiency, protection and conservation of resources, accuracy and promptness in financial reporting and compliance with laws and regulations. The internal control system is supported by an internal audit process for reviewing the adequacy and efficiency of the Company's internal controls, including its systems and processes and compliance with regulations and procedures. Internal Audit Reports are discussed with the Management and are reviewed by the Audit Committee of the Board which also reviews the adequacy and effectiveness of the internal controls in the Company. The Company's internal control system is commensurate with the size, nature and operations of the Company.

VII. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:

The financial performance of the Company during the year under reference was reasonably good. For detailed information, please refer to Directors' Report, which forms part of this Annual Report.

VIII. MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/ INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED:

We recognize people as our most valuable asset and we have built an open, transparent and meritocratic culture to nurture this asset. The Annexure (B) to the Independent Auditor's Report**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Apex Home Finance Limited ('the Company') as of 31st March, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018.
