Industry Overview:

A host of changes, such as faster internet access, improved gadgets and wider app eco system are taking place in the Media and Entertainment Industry (M & E Industry) all over the world. Indian M & E Industry is also not far behind from all these changes. This new wave of changes is likely to fundamentally alter the manner of content creation, access, consumption and monetization in India.

Despite of the global turmoil during the year 2015 due to drop in oil and other commodity prices, the Indian economy had a growth of 7.3 percent over 2014. This trend is also reflected in the performance of the M & E Industry which grew by 12.8 percent from INR1026 billion in 2014 to INR1157 billion in 2015 (Source: FICCI-KPMG Indian Media and Entertainment Industry Report 2016). The growth had surpassed previous year growth rate of 11.7 percent. A segment wise growth in last five years and projection upto 2020 is presented in the table below. Television remained in top of the list in terms of revenue, however in terms of growth percentage, digital advertising was in number one position.

Total advertising spend across media was INR475 billion in 2015. The television advertising revenue was INR181.3 billion which has grown at 17.0 percent over 2014 and is projected to reach INR364.5 billion by 2020 with a compounded annual growth rate (CAGR) of 15.0 percent. On the other hand television subscription revenue was grown at 13.0 percent to INR361 billion, at a slower rate due to delays in Phase III digitization and challenge in monetisation benefits from Phase I and Phase II digitisation. The digital advertising for 2015 was INR60.1 billion with a growth of 38.2 percent over 2014, and is projected to reach INR255.2 billion by 2020 with CAGR of 33.5 percent. (Source: FICCI-KPMG Indian Media and Entertainment Industry Report 2016)

One of the most significant development in television in the year was the establishment of the new viewership measurement system by the Broadcast Audience Research Council (BARC) India. Inclusion of rural markets and increase in number of households measured, led to significant changes in the rating of certain genres / timeslots. The twelve-minute ad cap regulation was not implemented strongly due to ongoing legal battle against the Telecom Regulatory Authority of India. Though the deadline for DAS implementation in Phase III was not met, there has been relative success in STB seeding in phase III areas.

There is a lot of excitement and activity in the digital space and many business models, being experimented with. Broadcasters are experimenting with new content and marketing strategies, one such emerging trend is high-budget finite fiction shows, which is expected to propel revenue growth for producers. Apart from traditional GECs now other channels are also focusing on scripted shows to attract audiences, driving growth for content producers. With the growth of Over-the-top (OTT) video platforms and increase in digital advertising spending, producers are trying to own or co-own IP rights for contents to get benefitted from further monetising. OTT video platforms are

The company depends on relationships with broadcasting channels, mainly the SUN TV Network, marketing agencies and other industry participants to produce and exploit television content. Any disputes with them could have a material adverse effect on it's ability or willingness to produce and telecast the programs.

Company generates revenues from sale of advertising spots during telecast of it's program, which by large depend on popularity of the program. Any failure to maintain the viewership could harm business or prevent from growing, which could have a material adverse effect on the business prospects, financial condition and results of operations. The viewership rating also dependant on measurement methodologies which is an external factor to the company.

The company's business depends in part on the adequacy, enforceability and maintenance of intellectual property rights in the entertainment products and services. Piracy of the Company's content, products and intellectual property could result in a reduction of the revenues that the Company receives from the legitimate sale, licensing and distribution of its content and products. The Company devotes substantial efforts to protecting its content, products and intellectual property, but there can be no assurance that the Company's efforts to enforce its rights and combat piracy will be successful.

The Company derives substantial revenues from the sale of advertising spots, and a decrease in advertising expenditures overall or reduced demand for the Company's offerings could lead to a reduction. Declines in consumer spending due to weak economic conditions could also indirectly negatively impact the Company's advertising revenues by causing downward pricing pressure on advertising because advertisers may not perceive as much value from advertising if consumers are purchasing fewer of their products or services.

The Company's businesses are subject to a variety of laws and regulations. The Company could incur substantial costs to comply with new laws, regulations or policies or substantial penalties or other liabilities if it fails to comply with them. In addition, if there are changes in laws that provide protections that the Company relies on in conducting its business, it would subject the Company to greater risk of liability and could increase its costs of compliance.

Annexure 2 to the Independent Auditor's report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **RADAAN MEDIAWORKS INDIA LIMITED** ("the Company") as of 31st March, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and

evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
