Report of the Directors & Management Discussion and Analysis Report

Your Directors have pleasure in presenting the Annual Report for the year ended 31st December 2012.

ECONOMIC ENVIRONMENT

In economic terms, the year 2012 has been a challenging one for India. It has seen the slowest rate of growth in a decade with 5 per cent GDP growth during the year. The year started in the shadow of the policy reversal on FDI policy in multi-brand retail, followed by a working budget without major policy reforms and concrete steps to control fiscal deficit, current account deficits, subsidies and tapering growth. While a slow recovery of the world economy is partly responsible for this downward trajectory, the rupee depreciation in 2012 has imposed severe challenges to control input cost, particularly companies with high import contents. The manufacturing sector has taken a dip and growing at 1.9 per cent. This is the lowest pace of growth for manufacturing sector in the past fourteen years. The private consumption has also posted a growth of 4.1 per cent, lowest in the last decade. Consumer industry, which is a major growth driver for our industry, has been very disappointing. Consumer goods contracted by 4.5 per cent on year to year basis in December, 2012. This is the sharpest contraction since 2009. Publishing and Print media have also registered a sharp contraction of 24 per cent and 21 per cent respectively.

However, there are few positive areas. Annual FDI was the highest during the year 2012. Annual food production was a new record. FII inflow amounting to Rs. 1181 billion as of 18th December 2012 is the highest among emerging economies. With policy corrections and investment friendly decisions, the long term GDP targets can still be achieved. However, the year 2012 as a whole has been rough in terms of economic and political developments.

PERFORMANCE REVIEW

In spite of all adverse economic environment, your Company has been able to maintain growth in Revenue from Rs. 6747.55 million to Rs. 7123.86 million registering an increase of 5.58 per cent. Profit before tax was Rs. 314.92 as

against Rs.381.90 in the previous year. Profit for the year has been significantly affected by imposition of Entry Tax in West Bengal coupled with significant depreciation of rupee during the year.

NEW PROJECT

In order to increase the sustainability of your Company, we have set up a new plant for Lamination Adhesive at Bangaluru during the year. This product is related to packaging segment which has a potential growth area. Hence we would expect to service our packaging customers with extended product range.

OUTLOOK

The fourth quarter of 2012 has seen a positive approach from the Government to restore economy to 7-8 percent growth rate. However, the situation till now is fragile and 2013 looks to be an uncertain year. Persistent price rises, even during the period where commodity prices are down internationally, does not have much space for monetary easing. It is hoped that Government will carry out reforms including fiscal consolidation and regaining investors confidence. The Country has recently enacted reforms to allow more foreign investment in the retail sector which is expected to be a growth driver for our industry. We do hope more will be done if the world's second largest populous nation is to return to the near double digit rate of growth.

DIVIDEND

Your Board recommends the rate of dividend declared to be Rs 4.00 per share (FY2011 - Rs.4.00 per share), subject to approval of shareholders at the ensuing Annual General Meeting.

CAPITALEXPENDITURE

Capital expenditure during the year amounted to Rs.291.72 million, a major part of which was spent on setting up a new Lamination Adhesive Plant at Bangaluru.

ENERGY, TECHNOLOGY & FOREIGN EXCHANGE

As required under Section 217(1)(e) of the Companies Act, 1956, read with the Companies (Disclosure of Particulars in the Report of the Board of Directors) Rules, 1988, the information relating to Conservation of Energy, Technology Absorption and Foreign Exchange earnings & outgo is annexed to and forms a part of this Report.

Your Company has a Technical Collaboration Agreement with DIC Corporation, Japan in the areas of manufacturing printing ink, PU Resins and Lamination Adhesives. Products manufactured with the technical know how of the collaborators have been well received by the concerned customers.

DEPOSITS FROM PUBLIC
