BOARD'S REPORT

Dear Members,

Your Directors are pleased to present their 56th Annual Report together with the Audited Financial Statements, Board's Report and Annexures for the year ended March 31, 2018.

STATE OF COMPANY'S AFFAIRS AND FINANCIAL SUMMARY:

Scenario - The demand for Company's Business Centre remained low and did not witness much change during the FY 2017-18. It was evident that a few large developers with a pan-India presence dominate the market due to which demand for commercial space is not as high as that of residential and retail space. The policy changes that the government is implementing should help improve business confidence in India resulting in robust office leasing demand in coming years.

Financial Summary - The income of the Company from its operations remained stable at ₹ 12.60 lakhs as compared to that in FY 2016-17. Other income of the Company declined during the year to ₹ 30.30 lakhs as against ₹ 67.42 lakhs for FY 2016-17. However, the income for FY 2016-17 appears to be inflated because figures of FY 2016-17 have been adjusted on account of taxes, financial instruments and revenue recognition to make it comparable with IndAS compliant statements for F.Y. 2017-18. Loss during the year stood at ₹ 37.45 lakhs as against ₹ 31.76 lakhs in the previous year.

As notified by the Ministry of Corporate Affairs, the Company adopted Indian Accounting Standards ('Ind AS') with effect from April 01, 2017. Accordingly, financial statements of the Company are prepared with comparative data for the year ended March 31, 2017, in compliance with 'Ind AS'.

LISTING:

The Equity Shares of the Company are listed at the BSE Ltd. The Company has paid the Annual Listing Fees to the Bombay Stock Exchange, for the year 2018-19.

EXTRACT OF ANNUAL RETURN

Details forming part of the extract of the Annual Return in form MGT 9 is annexed hereto as "Annexure A".

MEETINGS OF THE BOARD

During the year under review, 4 (Four) meetings of the Board of Directors were held, details of which are set out in the Corporate Governance Report which forms a part of this Report.

BOARD COMMITTEES

Detailed composition of the mandatory Board committees namely Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, number of meetings held during the year under review

and other related details are set out in the Corporate Governance Report which forms part of this Report.

There have been no situations where the Board has not accepted any recommendation of the Audit Committee.

MANAGEMENT DISCUSSION AND ANALYSIS

a) Industry Structure and Developments:

Growth of Real estate and Infrastructure sector has been slow in the last few years. While the residential space continues to face headwinds in the form of muted sales and subdued consumer demand, commercial real estate market has recovered, with improvements in both demand and supply. Things are looking up now with changes in the economy and various initiatives announced by the Government but the sector still faces a challenging environment due to lackluster demand scenario various policy hurdles, delay in approval cycle, continued high borrowing costs both for industry and the consumer.

In particular, in case of commercial spaces, operating model has shifted from sales to a lease and maintenance. Even though Mumbai, NCR, Bengaluru account for about 60 per cent of the demand for office spaces in 2017-18, business activities are gradually shifting from Central Business Districts to Special Business Districts in Tier 2 cities, which is attributable to the upcoming Government initiatives.

The income of the Company from its operations remained the same at ₹ 12.60 lacs as that for F.Y. 2016-17. Other income of the Company decreased to ₹ 30.30 lacs as against ₹ 67.42 lacs in FY2016-17. The Company strives to attract new

tenantsto increase the occupancy rate in its office properties and is exploring other related avenues.

b) Opportunities and Threats:

The Company's Business Centre is strategically located in Fort area of Mumbai. However, there is a limitation for expansion of the office space by the corporate in this area, as large number of corporates now prefer to shift their base to suburbs where there is greater scope to have a larger area. This trend has adversely impacted the Company's business. Nevertheless, some of them would prefer to maintain their establishments in the Fort Area, Mumbai, which may prove to be an opportunity to our Company.

Further, the Company is exposed to a number of risks such as regulatory, counterparty risk, but, it has implemented robust risk management policies and guidelines that set out the tolerance for Company's general risk philosophy. It has established a framework and process to monitor the exposures and to implement appropriate measures in a timely and effective manner.

c) Outlook:

Looking at the above-mentioned facts, the future prospects for the business centre activity are not very promising. However, the management is looking out for alternative sources of generating revenue of the Company, by introducing new occupants in the existing business centres and by planning increase in business center changes of existing occupants.

d) Risks and Concerns:

Risk management can be construed as the identification, assessment, and prioritization of risks followed by co-ordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of unfortunate events or to maximize the realization of opportunities.

The Company has a well defined risk management framework in place that functions through its Audit Committee. The Company periodically places before the Audit Committee and the Board, the key risks and the risk assessment and mitigation procedures followed by the Company.

e) Internal Control Systems and Adequacy

The Company has established a well-defined internal control system to monitor the occupancy rate and operating cost, which are very critical factors from Company's performance point of view. Any kind of adverse factors are immediately reported to Board for its analysis and necessary action.

f) Financial Performance with respect to Operational Performance:

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT FGP LIMITED

We have audited the internal financial controls over financial reporting of FGP LIMITED ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone IndAS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. These Standards and the Guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on, the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Note 15
15.1 Company information

FGP Limited is a Limited Company domiciled in India and incorporated under the provisions of The Companies Act, 1956. The Company generates revenue from the business centre and incidental activities. The registered office of the Company is located at Commercial Union House, 9, Wallace Street, Fort, Mumbai - 400001.

15.2 Basis of preparation

These financial statements are prepared on the accrual basis of accounting and in accordance with the Indian Accounting Standards (Ind AS) notified under Companies (Indian Accounting Standards) Rules, 2015 and referred under Section 133 of the Companies Act, 2013.

The financial statements were authorised for issue in accordance with a resolution passed by the Board of Directors on 23rd May, 2018.

For all periods up to and including the year ended 31st March 2017, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (IGAAP). These financial statements for the year ended 31st March 2017 have been prepared in accordance with Ind AS to give comparative figures for the financial statements for the year ended 31st March 2018 being the first year for preparation of financial statements in accordance with Ind AS. All Notes should be read in conjunction with Note no 14, which explains about how the Company adopted Ind AS.

These financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value or amortised cost (refer accounting policy regarding financial instruments).

The financial statements are presented in Indian rupees (INR), which is also the Company's functional currency.

15.3 Summary of Significant accounting policies
a) Fair value measurement

The Company measures certain financial instruments at fair value at each reporting date. Fair value is the price that would be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 (if level 1 feed is not available/appropriate) — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 (if level 1 and 2 feed is not available/appropriate) — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

b) Revenue recognition

Operating revenues

Revenue from services to occupants are accounted on accrual basis as per the terms of contract (excluding service tax / GST). Revenue in respect of insurance / other claims, commission, etc are recognised only when there is reasonable certainty on accrual.

Interest income

Interest income is recognised on an accrual basis.

Dividends

Dividend income is recognised when the Company's right to receive the payment is established.

Rental income

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms, except where escalation in rent is in line with expected general inflation.

c) Taxes on Income

Current Tax

Tax on income for the current period is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. Current tax assets and current tax liabilities are offset if a legally enforceable right exists to set off the recognised amounts.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss (consistent with applicable accounting standards) is recognised outside the statement of profit and loss.

Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities. Company has recognised deferred tax asset to the extent of deferred tax liabilities.

d) Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. Subsequent to initial recognition, property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The cost of an item of property, plant and equipment is recognized as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost includes the purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use, cost of replacing part of the property, plant and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property, plant and equipment. All other repair and maintenance costs are recognized in the statement of profit or loss as incurred.

Depreciation on tangible assets is provided on "Straight Line Method" in accordance with IndAS 16 'Property, Plant and Equipment' with useful life as prescribed in Schedule II of the Companies Act, 2013 except that depreciation on fixed assets installed at the Business Centre is provided at the rate of 33 1/3 per cent on the straight line method.

Assets	Useful life in years
Building	60
Plant & Equipment	15
Furniture	10
Computers (other than servers & networks)	3
Vehicle	8

An item of property, plant and equipment is de-recognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in Statement of profit and loss in the year the asset is de-recognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each reporting period and adjusted prospectively, if appropriate.

e) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is (or contains) a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease.

Lease arrangements where the risks and rewards incident to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rents under operating leases are recognised in the Statement of Profit and Loss on straight line basis, except where escalation in rent is in line with expected general inflation.

Lease arrangements where lessee assumes substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lower of the fair value of the leased assets at inception and the

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

present value of minimum lease payments. Lease payments are apportioned between the finance charge and the outstanding liability. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability.

f) **Impairment of non-financial assets**

The Company assesses, at each reporting date, whether there is any indication that an asset may be impaired. If any such indication exists the company estimates the asset's recoverable amount and impairment is recognised if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit & Loss.

g) **Provisions**

General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimate.

Contingencies

A disclosure for contingent liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

h) **Employee benefits**

(i) **Contribution to Provident fund:**

Company's contributions during the year towards Government administered Provident Fund is charged to the Profit and Loss statement as incurred.

(ii) **Other retirement benefit**

Other than contribution to provident fund, the Company does not have any other retirement benefits for its employees.

i) **Financial instruments**

i. Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value (purchase value plus transaction costs that are attributable to the acquisition of the financial asset), amortised cost or at cost. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in five categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI) or fair value through profit or loss (FVTPL)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit or Loss. The losses arising from impairment are recognised in the Statement of Profit or Loss.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Profit and Loss Statement.

Equity instruments measured at FVTOCI or FVTPL

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the other comprehensive income (OCI). There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Derecognition

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

ii. Non derivative financial liabilities

Financial liabilities are classified as either "financial liabilities at fair value through profit or loss" or "other financial Liabilities". Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss.

- (a) Financial liabilities are classified as "financial liabilities at fair value through profit or loss" if they are held for trading or if they are designated as financial liabilities at fair value through profit or loss. These are measured initially at fair value with subsequent changes recognized in profit or loss. Fair value is determined as per Ind AS 113 'fair value measurement'.
- (b) Other financial liabilities, including loans and borrowing, are initially measured at fair value, inclusive of directly attributable transaction costs. Subsequent to initial recognition, these are measured at amortized cost using the EIR method.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

Derecognition of financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

iii. Off setting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

15.4 Significant accounting judgments, estimates and assumptions

The preparation of the company's standalone financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the year in which the estimates are revised and in any future year affected.

In the process of applying the Company's accounting policies, management has made the following judgments, estimates and assumptions which have significant effect on the amounts recognised in the financial statements:

Lease of properties and equipments not in legal form of lease: Significant judgement is required to apply lease accounting rules under Appendix C to Ind 17: determining whether an arrangement contains a Lease. In assessing the applicability to arrangement entered into by the Company, management has exercised judgement to evaluate the right to use the underlying assets, substance of transaction including legally enforced arrangement and other significant terms and conditions of the arrangement to conclude whether the arrangement meet the criteria under Appendix C to Ind AS 17 'Leases'.

Provision for doubtful advances and trade receivables: The company is not significantly exposed to credit risk as most of the service income is received on a monthly basis and historically the receipts are regular. Advance to parties are made in normal course of business as per terms and condition of contract. At present, the Company is providing credit loss for trade receivables and advances to parties as required under Ind AS 109 'Financial Instrument' on the basis of ageing of receivables and judgement about recoverability of amount on evaluation of individual receivables.

Impairment of financial assets

The impairment provision for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgments include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions / judgments about these factors could affect the reported fair value of financial instruments.

Taxes

Deferred tax assets are recognised for unused tax losses and tax credits to the extent that it is probable that taxable
