On approval at the forthcoming Annual General Meeting, dividend will be paid to those members whose names are recorded in the Register of the Company at the close of business on 20th July, 2018 subject, however to the provision of Section 126 of the of the Companies Act, 2013. This equity dividend has not been included as a liability in the financial statement.

INDUSTRY STRUCTURE AND DEVELOPMENT, OPPORTUNITIES & THREATS, OUTLOOK, RISK AND CONCERN

The production of World Tea Crop was 5686 Million kgs (Provisional) in 2017 as compared to 5561 million kgs in 2016. Indian Tea Crop was approx. 1278 Million kgs; against 1267 million kgs. last year, the increase resulting from well distributed rain fall. (source: International Tea Committee)

Global consumption of tea is likely to grow because of growing population and perception of the Consumer towards tea as natural health and wellness beverage.

Tea Industry is cyclic in nature and largely depends on weather conditions. Hence anything that affects tea industry will have its one off effect on the business.

Industry is experiencing rising input cost, rising workers wage and related expenses, which is a challenge. Such increase in cost can only be set off by focused mechanization of estates operations and improving the quality, which will also result in global demand.

There is a continuous process for identifying, evaluating and managing significant risks faced through risk analysis process designed to identify the key risk factors. The role of insurance and other measures used in managing risks is also reviewed. The Audit Committee has continued its monitoring role. During the year no major risks were noticed.

OPERATIONS

The Company recorded a crop of 18.83 million (kgs) which is at the same level of previous year despite prolonged strike in Darjeeling gardens where we lost 0.3 million kgs. crop.

DOOARS : An all time record crop of 16 million kgs. was made during the year. With 100% commitment to Quality, producing such high crop was a big achievement. Your Company's long term plan of development work has also helped, as there has been a sustained effort to uproot unproductive areas and replace them with better yielding varieties and clones.

ASSAM : Good crop of 2.45 million kgs. was made, this figure also was the highest in the last 8 years. A creditable achievement considering 75 percent crop was converted into good quality Orthodox teas.

DARJEELING : The region was rocked by political turbulence as a result of which all estates remained closed for five months from July to November during peak second flush period. Loss in crop to the tune of 0.3 million kgs was incurred. This resulted in substantial loss of revenue by your Company during the period.

PURCHASED LEAF : An all time record crop of 5 million kgs was manufactured during the year, which added to the Company's profits. A new Bought leaf factory of 1 million kg capacity was commissioned during the year at your Danguajhar Tea Garden. We are now planning to expand this capacity by adding more machinery to produce 2 million kgs in 2018.

INSTANT TEA PLANT : The Instant Tea Plant at Aibheel Tea estate is now consistently performing well and contributing to over 335 MT per year in exports alone.

BRANDED TEA : Driving the branded business through Company's consumer division continues to be a priority and all efforts have been made to expand retail distribution and improve the profits earned by the division. Besides popular CTC category the Company has registered impressive growth in Ultra premium Darjeeling category of teas. Company has acquired the tea business of cigarette major Godfrey Phillips in October 2017 that is expected to provide a wider reach through multiple brands under the "Tea City" umbrella across all price points and by this addition we expect significant growth in volumes which will increase profitability.

SEGMENTWISE OR PRODUCTWISE PERFORMANCE

DOMESTIC

The domestic sales for this year is 31.70 million kgs compared to previous year's 28.71 million kgs.

Consumer Division of the Company dealing with branded retail business registered a positive growth of 15% in value off take and 12% in volume off take in the packet tea category and maintained its market share. The main brand of the business "Goodricke Chai" grew by 17%. In the Darjeeling category where major consumption is in Kolkata Metro, Goodricke registered growth of 10% and continued to be the market leader with an impressive market share of 56%. Company continues to be preferred supplier of its teas to AIR India, Jet Airways, Spicejet airline, Costa Coffee, Tirupati Temple besides premium luxury hotels in the country.

EXPORT

Total exports for the year stood at 5.33 million kgs as compared to 5.59 million kgs in the previous year due to lower Darjeeling segment exports.

Volume of Instant Tea grew 22.93% over the corresponding period of last year and overall exports increased by 62932 kgs. Newer markets in Ireland and Australia have been tapped and supplies have started in these new areas. Markets remain very protective and competitive and the plant continues to look at areas where cost can be reduced.

FINANCIAL WITH RESPECT TO OPERATIONAL PERFORMANCE

The Company maintained healthy profit and production level in line with the previous year.

Export sales of bulk tea and instant tea continued to contribute to the growth of the Company's business alongwith an improved margin in branded teas.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Internal Control System of the Company is adequate and commensurate with its size of operation. The systems are regularly reviewed for effectiveness.

The Internal Audit is carried out by firms of Chartered Accountants alongwith the Chief Internal Auditor.

The Audit Committee of the Board looks into the Audit reviews which is deliberated upon and corrective actions taken therein are reviewed.

CHANGE IN NATURE OF BUSINESS, IF ANY

There has been no change in the nature of business and the Company continues to concentrate on its own business with growth plans in short to medium terms.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GOODRICKE GROUP LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of Goodricke Group Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under and the Order issued under section 143(11) of the Act.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and

give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors of the Company as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note 30.1(a);
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Goodricke Group Limited** ("the Company") as of 31st March, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS

1. Company Overview

Goodricke Group Limited is engaged in the manufacture and cultivation of tea. The Company operates within 17 tea estates spread across West Bengal and Assam and sells bulk tea both in domestic and international markets. The Company also produces Instant Tea at its plant located in Dooars, West Bengal primarily for the international market and has got a strong presence in Packet Tea domestic market through its various Brands. The Company is listed on the Bombay Stock Exchange (BSE).

2. Statement of Compliance

These financial statements, for the year ended 31st March 2018, have been prepared in accordance with Indian Accounting Standards (Ind ASs) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules 2016. The Company adopted Ind AS from 1st April, 2016.

3. Significant Accounting Policies

A. Basis of Preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain items which are measured at fair value at the end of each reporting period, as explained in the accounting policies given below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

B. Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1. The Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

C. Property, Plant and Equipment

(i) Tangible Assets (Other than Bearer Plants)

Property, Plant and Equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes deemed cost as at 1st January, 2015 measured as per the previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. Cost is inclusive of incidental expenses related to acquisition. Borrowing costs attributable to the construction or production of qualifying assets are capitalised. Expenses for the repair of Property, Plant and Equipment are charged against income when incurred.

Land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Depreciation of these assets, are on the same basis as other property assets, and commences when the assets are ready for their intended use.

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Items of Property, Plant and Equipment are depreciated in a manner that amortises the cost of the assets less its residual value, over their useful lives on a straight line basis. Estimated useful lives of the assets are as follows-

Buildings	30-60 years
Plant and equipment	5-18 years
Furniture and fixtures	10 years
Vehicles	6-8 years

The above estimated useful lives are also as specified in Schedule II of the Companies Act, 2013.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, and the effect of any changes in estimate is accounted for on a prospective basis.

(ii) Bearer Plants

Bearer plants comprising of mature tea bushes and shade trees are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes deemed cost as at 1st January, 2015. The Company recognised bearer plants for the first time at fair value as of 1st January, 2015 (transition date to Ind AS) and used such fair value as deemed cost.

Immature bearer plants, including the cost incurred for procurement of new seeds and maintenance of nurseries, are carried at cost less any recognised impairment losses under capital work-in-progress. Cost includes the cost of land preparation, new planting and maintenance of newly planted bushes until maturity. On maturity, these costs are classified under bearer plants. Depreciation of bearer plants commence on maturity.

Costs incurred for infilling including block infilling are generally recognised in the Statement of Profit and Loss unless there is a significant increase in the yield of the sections, in which case such costs are capitalised and depreciated over the remaining useful life of the respective sections.

Depreciation on bearer plants is recognised so as to write off its cost over useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

Estimated useful lives of the bearer plants has been determined to be 46 years.

D. Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight line basis over the estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less impairment losses.

Cost includes deemed cost as at 1st January, 2015 measured as per the previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006.

The useful life of an intangible asset is considered finite where the rights to such assets are limited to a specified period of time by contract or law (e.g., patents, licences, trademarks, franchise and servicing rights) or the likelihood of technical, technological obsolescence (e.g., computer software, design, prototypes) or commercial obsolescence (e.g., lesser known brands are those to which adequate marketing support may not be provided). If, there are no such limitations, the useful life is taken to be indefinite.

Intangible assets of the Company with finite useful lives comprise acquired computer software. Cost of software is capitalised where it is expected to provide future enduring economic benefits. Capitalisation costs include licence fees and cost of implementation / system integration services. The costs are capitalised in the year in which the relevant software is implemented for use and is amortised across a period not exceeding 5 years. Expenses incurred on upgradation / enhancements is charged off as revenue expenditure unless they bring similar significant additional benefits.

Indefinite life intangibles mainly consist of brands/trademarks. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues, if not, it is impaired or changed prospectively basis revised estimates.

E. Research and Development

Research and Development expenditure of revenue nature is written off in the Statement of Profit and Loss as incurred. Such expenditure is capitalised as intangible assets only if it meets the criteria of an intangible asset. Internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses.

F. Impairment of Assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible (including bearer plants) and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of an asset's net selling price and its value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If impairment is no longer justified in future periods due to a recovery in assets' fair value or value in use, the impairment reserve is reversed.

G. Biological Assets and Agricultural Produce

(i) Biological Assets

Biological assets of the Company comprises of unharvested green tea leaves that are classified as current biological assets and livestock for breeding purpose, classified as non-current biological assets. The Company recognises biological assets when, and only when, the Company controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the Company and the fair value or cost of the assets can be measured reliably. Expenditure incurred on biological assets are measured on initial recognition and at the end of each reporting period at its fair value less costs to sell. The gain or loss arising from a change in fair value less costs to sell of biological assets are included in Statement of Profit and Loss for the period in which it arises.

(ii) Agricultural Produce

The Company recognises agricultural produce when, and only when, the Company controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the Company and the fair value or cost of the assets can be measured reliably. Agricultural produce harvested from the Company's biological assets are valued at fair value less cost to sell at the point of harvest. A gain or loss arising on initial recognition of agricultural produce at fair value less costs to sell shall be included in Statement of Profit and Loss for the period in which it arises.

The Company's agricultural produce comprises of green leaves plucked from its tea estates.

H. Inventories

Inventories are stated at the lower of cost and net realisable value. Finished goods produced from agricultural produce are valued at lower of cost arrived at by adding the cost of conversion to the fair value of agricultural produce and the net realisable value. Net realisable value represents the estimated selling price for inventories less all selling costs. Provision is made for obsolete, slow moving and defective inventories, whenever necessary.

I. Foreign Currency Transactions

The presentation currency of the Company is Indian Rupees. Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Monetary transactions remaining unsettled are translated at the rate of exchange ruling at the end of the year. Exchange gain or loss arising on settlement/translation is recognised in the Statement of Profit and Loss.

J. Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issues of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial assets or financial liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Company commits to purchase or sell the asset.

(i) Financial Assets

Recognition and Classification

The financial assets are classified at initial recognition in the following measurement categories as:

- those subsequently measured at amortised cost.
- those to be subsequently measured at fair value [either through other comprehensive income (OCI), or through profit or loss]

Subsequent Measurement

- Financial assets measured at amortised cost - Financial assets which are held within the business model of collection of contractual cash flows and where those cash flows represent payments solely towards principal and interest on the principal amount outstanding are measured at amortised cost. A gain or loss on a financial asset that is measured at amortised cost and is not a part of hedging relationship is recognised in profit or loss when the asset is derecognised or impaired.
- Financial assets measured at fair value through other comprehensive income - Financial assets that are held within a business model of collection of contractual cash flows and for selling and where the assets' cash flow represents solely payment of principal and interest on the principal amount outstanding are measured at fair value through OCI. Movements in carrying amount are taken through OCI, except for recognition of impairment gains or losses. When a financial asset, other than investment in equity instrument, is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to Statement of Profit and Loss.
- Classification of equity instruments, not being investments in subsidiaries, associates and joint arrangements, depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through OCI. When investment in such equity instrument is derecognised, the cumulative gains or losses recognised in OCI is transferred within equity on such derecognition.
- Financial assets measured at fair value through profit or loss - Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. Movements in fair value of these instruments are taken in profit or loss.

Impairment of financial assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Impairment losses are recognised in the profit or loss where there is an objective evidence of impairment based on reasonable and supportable information that is available without undue cost or effort. For all financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. The Company recognises loss allowances on trade receivables when there is objective evidence that the Company will not be able to collect all the due amounts depending on product categories and the payment mechanism prevailing in the industry.

Income recognition on financial assets

Interest income from financial assets is recognised in profit or loss using effective interest rate method, where applicable. Dividend income is recognised in profit or loss only when the Company's right to receive payments is established and the amount of dividend can be measured reliably.

(ii) Financial Liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Financial liabilities are classified, at initial recognition, as subsequently measured at amortised cost unless they fulfill the requirement of measurement at fair value through profit or loss. Where the financial liability has been measured at amortised cost, the difference between the initial carrying amount of the financial liabilities and their redemption value is recognised in the Statement of Profit and Loss over the contractual terms using the effective interest rate method. Financial liabilities at fair value through profit or loss are carried at fair value with changes in fair value recognised in the finance income or finance cost in the Statement of Profit and Loss.

(iii) Derecognition of financial assets and financial liabilities

Financial assets are derecognised when the rights to receive benefits have expired or been transferred, and the Company has transferred substantially all risks and rewards of ownership of such financial asset. Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

(iv) Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

K. Revenue from sale of products

Revenue is measured at the fair value of the consideration received or receivable and is net off returns and discounts.

Revenue from the sale of goods includes excise and other duties which the Company pays as principal but excludes amounts collected on behalf of third parties, such as sales tax, value added tax and goods and services tax.

Revenue from the sale of goods is recognised in the income statement when the goods are delivered to customers for domestic sales or when delivered to a carrier for export sales, which is when title and risks and rewards of ownership pass to the customer.

L. Government Grant

Government grants are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants are recognised in the Statement of Profit and Loss on a systematic basis over the periods in which the Company recognises the related costs for which the grants are intended to compensate. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the Balance Sheet and transferred to the profit or loss on a systematic and rational basis over the useful lives of the related assets.

M. Employee Benefits

The Company operates defined contribution schemes like Provident Fund and defined Contribution Pension Schemes. The Company makes regular contribution to provident funds which are fully funded and administered by Government and are independent of Company's finance. Contributions are recognised in Statement of Profit and Loss on an accrual basis. The Company operates a non-contributory defined contribution pension scheme for certain employees. The Company contributes 15% of the employees' current salary to the above contribution fund which is recognised in the Statement of Profit and Loss.

The Company also operates defined benefit Provident Fund Schemes for certain employees which are fully funded and administered by trustees and are independent of the Company's finance. The Company makes regular contributions to the fund and shortfall if any, determined by annual actuarial valuation, is recognised in the Statement of Profit and Loss.

Defined Benefit Gratuity Plan is maintained by the company for all its eligible employees. The Company also operates a Non Contributory Defined Benefit Pension Scheme for certain employees. The Company contributes to such funds on the basis of actuarial valuation at the end of each year after setting off any net asset in respect of either fund. Both

the Pension Fund and gratuity fund are administered by the Trustees and is independent of the Company's finance.

For Schemes where recognised funds have been set up annual contributions determined as payable in the actuarial valuation report are contributed. Gain or Loss on account of remeasurements are recognised immediately through Other Comprehensive Income in the period in which they occur.

Post-retirement medical benefits are provided by the Company for certain category of employees. Liability is determined through independent year end actuarial valuation and recognised in the Statement of Profit and Loss. Provision is made for leave encashment benefit payable to employees on the basis of independent actuarial valuation, at the end of each year and charge is recognised in the Statement of Profit and Loss.

N. Leases

Leases are recognised as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rentals payable under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

O. Taxes on Income

Taxes on income comprises of current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

P. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking in to account the risks and uncertainties surrounding the obligation.

Q. Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer.

4. Key sources of estimation uncertainty

The following are the key assumptions concerning the future and other key sources of estimating uncertainty as at the balance sheet date that may have a significant risk of causing a material adjustment to the carrying amounts of assets

and liabilities within the next financial year. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

A. Useful lives of property, plant and equipment

The Company has adopted the useful lives as specified in Schedule II of the Companies Act, 2013 for Property, Plant and Equipment other than for bearer plants. For bearer plants, it has determined the useful life to be 46years. The Company reviews the estimated useful lives at the end of each reporting period. Such useful lives depend upon various factors such as usage, maintenance practices etc. and can involve estimation uncertainty. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore, future depreciation charges could be revised. The carrying amount of the Company's Property, Plant and Equipment at the balance sheet date is disclosed in Note 5A to the financial statements.

B. Impairment of property, plant and equipment

An impairment exists when the carrying value of an asset exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing the asset. The value in use calculation is based on a discounted cash flow model and requires the Company to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

C. Fair value measurements and valuation processes

Some of the Company's assets are measured at fair value for financial reporting purposes. Significant estimates are used in fair valuation of agricultural produce (harvested green leaves) and biological assets (unharvested green leaves).

For harvested or unharvested green leaves, since there is no active market, the fair value is arrived at based on the observable market prices of made tea adjusted for manufacturing costs and plucking costs, as applicable.

D. Employee Defined Benefit Plans

The determination of Company's liability towards defined benefit obligations to employees is made through independent actuarial valuation including determination of amounts to be recognised in the income statement and in the other comprehensive income. Such valuation depend upon assumptions determined after taking into account inflation, promotion and other relevant factors such as supply and demand factors in the employment market. Any changes in these assumptions will impact the carrying amount of defined benefit obligations.

(a) Gross amount required to be spent by the Company during the year is Rs. 5.39 Millions (2017 Rs.5.43 Millions)

(b) Amount spent during the year is Rs. 5.44 Millions (2017 Rs.5.50 Millions)

30.5 Employee Benefit Plans:

Defined Contribution Plans

The Company operates defined contribution schemes like provident fund and pension schemes for all qualifying employees. For these schemes, contributions are made by the Company, based on current salaries, to recognised funds maintained by the Company and for certain employees' contributions are made to State Plans.

An amount of Rs. 155.69 Millions (2017 - Rs. 157.54 Millions) has been charged to the Statement of Profit and Loss on account of defined contribution schemes.

Defined Benefit Plans

The Company also operates defined benefit schemes in respect of gratuity, pension, provident fund and post-retirement medical benefit towards its employees. These schemes offer specified benefits to the employees on retirement. The pension benefits and medical benefits are restricted to certain categories of employees. The liabilities arising in the Defined Benefit Schemes are determined in accordance with the advice of independent, professionally qualified actuaries, using the projected unit credit method as at year end. The Company makes regular contributions to these Employee Benefit Plans. Additional contributions are made to these plans as and when required based on actuarial valuation.

Provident Fund, Pension and Gratuity Benefits are funded and Post-Retirement Medical Benefits are unfunded in nature. The funds are administered through approved Trusts, which operate in accordance with the Trust Deeds, Rules and applicable Statutes. The concerned Trusts are managed by Trustees who provide strategic guidance with regard to the management of their investments and liabilities and also periodically review their performance.

Risk Management

The above benefit plans expose the company to actuarial risks such as follows-

- (a) Interest rate risk: The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.
- (b) Salary inflation risk: Higher than expected increases in salary will increase the defined benefit obligation
- (c) Demographic risk: This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

These Plans have a relatively balanced mix of investments in order to manage the above risks. The investment strategy is designed based on the interest rate scenario, liquidity needs of the Plans and pattern of investment as prescribed under various statutes. The Trustees regularly monitor the funding and investments of these Plans. Robust risk mitigation systems are in place to ensure that the health of the portfolio is regularly reviewed and investments do not pose any significant risk of impairment. Pension obligation of the employees is secured by purchasing annuities thereby de-risking the Plans from future payment obligation.

3 Property	—	—	—	—	0.02%	—
4 Others	1.83%	16.22%	3.75%	4.67%	7.25%	5.91%

The fair value of the above equity instruments are determined based on quoted market prices in active markets.

IX. Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

(Rs. In Millions)

	DBO as at 31st March, 2018 Increase/(Decrease)				DBO as at 31st March, 2017 Increase/(Decrease)			
	Gratuity	Pension	Provident Fund	Medical	Gratuity	Pension	Provident Fund	Medical
1 Discount Rate + 100 basis points	(88.36)	(18.78)	(0.34)	(13.84)	(85.05)	(16.16)	(0.31)	(10.24)
2 Discount Rate - 100 basis points	103.64	20.58	0.38	16.04	100.33	17.77	0.36	12.42
3 Salary Increase Rate + 1%	102.65	20.11	—	1.91	98.26	17.82	—	1.16
4 Salary Increase Rate - 1%	(89.24)	(18.66)	—	(1.10)	(85.02)	(16.49)	—	(1.06)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

3. Financial risk management objectives

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company continues to focus on a system-based approach to business risk management. The Company's financial risk management process seeks to enable the early identification, evaluation and effective management of key risks facing the business. Backed by strong internal control systems, the current Risk Management System rests on policies and procedures issued by appropriate authorities; process of regular reviews / audits to set appropriate risk limits and controls; monitoring of such risks and compliance confirmation for the same.

a) Market risk

The Company's business primarily agricultural in nature, exposes it to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of adverse weather conditions and lack of future markets. The Company closely monitors the changes in market conditions and select the sales strategies to mitigate its exposure to risk.

i. Foreign currency risk

The Company undertakes transactions denominated in foreign currency which results in exchange rate fluctuations. Such exchange rate risk primarily arises from transactions made in foreign exchange and reinstatement risks arising from recognised assets and liabilities, which are not in the Company's functional currency (Indian Rupees). A significant portion of these transactions are in US Dollar, euro, etc.

The carrying amounts of the Company's foreign currency denominated financial assets and financial liabilities, at the end of the reporting period are as follows:

(In Millions)

As at 31st March, 2018	USD	EURO	GBP
Financial Assets	0.90	0.24	0.02
Financial Liabilities	—	—	—
As at 31st March, 2017	USD	EURO	GBP
Financial Assets	0.50	0.04	0.10
Financial Liabilities	0.06	—	—

Foreign currency sensitivity

The impact of sensitivity analysis on account of outstanding foreign currency denominated assets and liabilities is insignificant.

ii. Interest rate risk

Interest rate risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The objectives of the Company's interest rate risk management processes are to lessen the impact of adverse interest rate movements on its earnings and cash flows and to minimise counter party risks.

The Company is exposed to interest rate volatilities primarily with respect to its short terms borrowings from banks as well as financial institutions which are taken and squared off during the year. Such volatilities primarily arise due to changes in money supply within the economy and/or liquidity in banking system due to asset/liability mismatch, poor quality assets etc. of banks. The Company manages such risk by operating with banks having superior credit rating in the market as well as financial institutions.

Interest rate sensitivity

The table below shows the sensitivity of the Company's profitability related to change in rate of borrowings by 100 basis points on loans outstanding as at 31st March, 2018.

(Rs. in Millions)

	March 31, 2018	March 31, 2017
Increase / (Decrease) in 100 bps	0.80	—

The above impact is based on only on change in interest rate, keeping all other business factors constant

iii. Price risk

The Company invests its surplus funds primarily in debt mutual funds measured at fair value through profit or loss. Aggregate value of such investments as at 31st March, 2018 is Rs. Nil (2017 - Rs. 142.85 Millions).

Investments in the mutual fund schemes are measured at fair value. Accordingly, these do not pose any significant price risk.

b) Liquidity risk

Liquidity risk is the risk that the Company may encounter difficulty, including seasonality in meeting its obligations. The Company mitigates its liquidity risks by ensuring timely collections of its trade receivables, close monitoring of its credit cycle and ensuring optimal movements of its inventories.

The table below provides details regarding the remaining contractual maturities of significant financial liabilities at the reporting date.

Other Financial Liabilities	69.67	69.67	—	69.67
	1041.41	1041.41	—	1041.41

c) Credit risk

Credit risk is the risk that counterparty will not meet its obligations leading to a financial loss. The Company has its policies to limit its exposure to credit risk arising from outstanding receivables. Management regularly assess the credit quality of its customer's basis which, the terms of payment are decided. Credit limits are set for each customer which are reviewed on periodic intervals. The credit risk of the Company is low as the Company largely sells its teas through the auction system which is on cash and carry basis and through exports which are mostly backed by letter or credit or on advance basis.

4. Fair value measurements

Fair value hierarchy

Fair value of the financial instruments is classified in various fair value hierarchies based on the following three levels:

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities

Level 2: Inputs other than quoted price including within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

If one or more of the significant inputs is not based on observable market data, the fair value is determined using generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparty. This is the case with listed instruments where market is not liquid and for unlisted instruments.

The management consider that the carrying amounts of financial assets (other than those measured at fair values) and liabilities recognised in the financial statements approximate their fair value as on March 31, 2018 and March 31, 2017.

There has been no change in the valuation methodology for Level 3 inputs during the year. The Company has not classified any material financial instruments under Level 3 of the fair value hierarchy. There were no transfers between Level 1 and Level 2 during the year.

The following table presents the fair value hierarchy of assets and liabilities measured at fair value on a recurring basis

Particulars	Fair Value Hierarchy (Level)	Fair Value (Rs. in Millions)	
		As at 31st March, 2018	As at 31st March, 2017
Financial assets			
Measured at Fair value through Profit or Loss			
i) Investment In Mutual Funds	1	—	142.85

34. Fair value measurements for biological assets other than bearer plants:

The following table gives the information about how the fair value of the biological assets are determined:

Biological Asset	Fair value as at (Rs. in Millions)		Fair value hierarchy	Valuation techniques and key inputs
	31st March, 2018	31st March, 2017		
Unharvested tea leaves	25.85	18.59	Level 2	Fair value is being arrived at based on the observable market prices of made tea adjusted for manufacturing costs. The same is applied on quantity of the tea leaves unharvested using plucking averages of various fields.
Livestock	0.84	1.40	Level 1	

35. The financial risk associated to agriculture would include climate change, price fluctuation, currency fluctuation and input cost increases. Being dependent on rainfall, any shortfall would directly impact the production. The sale of tea being largely through the auction system, any price fluctuation would impact profitability. Increased wages also has a direct impact on the cost of production because of labour intensive nature of the business operations.

Management is continuously monitoring all the above factors. Investment in irrigation, a planned replanting programme to ensure higher yields and improving efficiency of labour and modernisation are some of the measures taken by the management to mitigate the risks.

36. Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) (Amendment) Rules, 2018 on 28th March, 2018 notifying Ind AS 115, 'Revenue from Contracts with Customers' and amending Ind AS 21 'The Effects of Changes in Foreign Exchange Rates'; Ind AS 12 'Income Taxes'. The same are applicable for financial statements pertaining to annual periods beginning on or after 1st April, 2018. The Company is in the process of assessing the detailed impact on the financial statements resulting from the implementation of these standards.

37. The financial statements were approved for issue by the Board of Directors on 24th May, 2018.
