34TH ANNUAL REPORT 2015-2016

DIRECTOR'S REPORT

To,
The Members,
RMG Alloy Steel Limited,

Your Directors are pleased to present the Thirty-Fourth Annual Report together with Audited Financial Statements of the Company for the year ended 31st March, 2016.

FINANCIAL RESULTS

(Rs. in Lacs)

Particulars	2015-16	2014-15
Sales and other income	27,022	34,533
Profit/(Loss) before Interest, Depreciation and exceptional items	(1,085)	(244)
Interest and Financial charges	4,580	4,988
Depreciation and Amortization	663	1,177
Profit/ (Loss) before exceptional items and tax	(6,329)	(5,921)
Exceptional items	321	2,259
Profit/(Loss) before tax	(6,007)	(3,662)

OPERATIONS

Performance of Alloy Steel and Seamless Tubes of the Company was as under:

Particulars	2015-16			2014-15		
	Production (Tones)	Sales (Qty M.T.)	Gross Sales (Rs.in Lacs)	Production (Tones)	Sales (Qty M.T.)	Gross Sales (Rs.in Lac)
Steel	50,664	51,131	29,955	58,183	59,147	36,980
Seamless pipes	-	-	-	11	11	1,077

The Company did lose on production quantities due to breakdowns in Walking Hearth Furnace (WHF) of Rolling Mill. Age-related capital maintenance of WHF has been scheduled in September-16.

The domestic steel market witnessed very poor demand for all steel products resulting in mismatch in demand and supply. This resulted in a slump in prices of finished products and glut in the market. The lower prices affected per unit realization, bringing down per MT revenue from Rs. 62,522/- in FY2014-15 to Rs. 58,585/- in FY2015-16 and the total revenue by 21.75%, whereas the total expenses were lower by 17.56% after factoring fixed cost (not directly proportionate to production levels) as against reduced production of 13.55%. The price of raw material was reduced by lesser amount as compared to fall in price of finished products.

The prices of steel imported from China, Ukraine and other countries were far lower than the domestic costs, and steel mills were forced to drop the prices in order to compete with the imported steel. The Government initiative of imposing Minimum Import Price (MIP) on import of many steel items is the testimony of what went wrong with the domestic markets. Recently, Anti-dumping duty has been imposed by Government on many items which has been welcomed by the steel industry. These measures will surely be able to bring about buoyancy in the demand due to curbing of imports. Fall in quantities of import in recent months is already seen.

The Union Budget emphasis on large investments in Defense, Power, Infrastructure, Railways is likely to lend a fillip to the alloy steel industry.

The Auto Industry is quite bullish and a good growth is expected to continue during the next fiscal.

Foreign car manufacturers in India are ramping up capacity utilization not only to cater to the growing domestic demand but also for catering to their overseas territories.

The Company has already been able to book some high value add engineering steel orders which on successful deliveries will open up another high margin avenue comprising of applications like tools and dies etc.

MANAGEMENT AND DISCUSSION ANALYSIS

A. INDIAN INDUSTRY STRUCTURE SCENARIO & DEVELOPMENT

Indian economy is in the midst of significant structural change and expects to embark on a sustained economic growth. According to World Bank, India is set to be the world's fastest growing major economy and in FY 15-16 it has grown by 7.76% and as per World Bank, it will resonate and move up to 8% in the next two (2) Financial Years.

In line with economic growth, Indian steel industry is also expected to reflect by improving micro economic growth. Though due to delayed implementation of certain reforms, steel sector remained subdued in Q1 FY 16 and the supply was far exceeding the demand. In addition to this, cheaper import from China has added further fuel in the fire resulting in sluggish performance of the Indian steel industry and the Company is not an exception.

From October '16 onwards to protect Indian steel industry which is heading towards major NPA's, Government actively started working on the various protection measures to this sector by initially imposing Safe Guard Duty and subsequently in February, 2016, first time ever Government imposed MIP (Minimum Import Price). This move has given a new breath to the Indian steel industry and from February onwards performance of this sector started improving significantly. Indian steel industry is expected to perform better in FY 16-17 compare to previous financial year. Infrastructure projects like dedicated corridors are gaining momentum and the steady decline in stalled project coupled with hike in import duty both on long and flat steel products should stimulate over all steel demand.

Construction, Automobile, white goods industry will attract high demand for steel for the next decade as present government's focus is on development. Also "Make in India" penetration shall provide good opportunity to the steel demand and major benefit of demand will be shared by the domestic industry. Government is also contemplating increase in steel capacity from present around 105 MMTPA to 300 MMTPA by year 2025 with an investment of more than USD 200 Billion.

During FY 16-17 over all steel industry performance is likely to be improved further. The crude steel production increased by 5.6% i.e. 89.99 MMT from 85 MMT in FY 14-15.

B. OPPORTUNITIES & THREATS

Though the overall steel demand will grow, however, Blast Furnace route of steel making will be major gainer because of cost competitiveness vis-à-vis electric route. In this competitive scenario, your Company will focus more on niche segments. The Company will concentrate on special steel supply to defense, railways, aerospace, power, engineering, automobiles etc. This strategy is expected to improve overall performance of the company by utilizing existing capacity to the maximum extent possible.

C. SEGMENTWISE AND PRODUCTWISE PERFORMANCE

Product wise performance is given in Directors' Report under the heading 'Operations'.

D. FUTURISTIC STATEMENT

Company's performance as expressed or implied could differ materially due to economic conditions affecting demand/supply and price condition in the domestic & overseas markets, changes in the Government regulations, tax laws & other incidental factors.

E. RISK & CONCERNS

Additional capacity being generated for production of Alloy Steel in India and import of steel from China caused pressure on sales & margin.

However the Company expects to mitigate the impact of risks and concerns since the Company concentrates on niche products. Government initiatives like "Make in India" are also helping company to reduce the risk of competition from overseas market.

F. INTERNAL CONTROL SYSTEM

The Company employs adequate and effective system of internal control systems that provide for:-

- i) Security of the asset
- ii) Efficient management information system
- iii) Compliance with all laws and regulations
- iv) Compliance with all standard system and quality standards.

G. INDUSTRIAL RELATIONS & HUMAN RESOURCES

Human resource is the key factor for the success of any organization. Your Company places considerable emphasis on continuous enhancement of skills and performance of human resources across the organization.

H. DISCUSSION & FINANCIAL PERFORMANCE

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India.
