OPERATION REVIEW:

The financial year 2015-16 has been marked by excitement and its share of challenges. The decisive political mandate set the stage for surging hopes for a rapid economic turnaround of Indian economy. On the macro front, the biggest comfort came from the sharp drop in the crude prices. For the Large net importers like India, the decline in crude price has helped in controlling the trade deficit and easing inflation. While economic indicators point towards improvement, the recovery on the ground has been rather slow. Lower inflation has not resulted in significant improvement in Demand Condition. The Demand conditions have been quite challenging across sector as borne out by slow improvement.

In spite of the above back drop, the Demand for your product during the year 2015-16 was moderate:

- The total income of Rs. 3523.94 lacs during the year against Rs. 3191.08lacs during the previous year.

- b) Though the Total Income during the year under review increased by 10.43%, but The Operational Profit before interest and depreciation for the year under review is Rs. 284.26 lacs as against Rs. 357.88 lacs during the previous year. Due to low capacity utilization for want of Additional Working Capital coupled with high cost of borrowing and fluctuating crude prices, led to a loss of Rs. 145.51 Lac (includes Rs 365.93 lacs of interest cost) as compared to Profit of Rs. 28.42 Lac during previous year. However, with the help of re-structuring of finance the company expects a better 2016-2017

FUTURE OUTLOOK:

The Flexible Intermediate Bulk Containers (FIBC) will register slightly faster growth than rigid packaging industry. FIBCs will register strong advances due to the advantages they offer in terms of loading and unloading products, their ability to handle great quantities of product per container and efficiency advantages in terms of their reuse in closed loop distribution systems. The global production cuts by the Companies in Europe and USA has resulted in the sourcing shifted to India adding an important factor to the growth story.

The outlook is expected to be divergent in the coming years, with the developed economies, showing improved prospects on account of recovery in fiscal consolidation.

The governmental agenda of the "Make In India" should be a growth booster to the manufacturing sector, and bring positive structural changes to the economy. Manufacturing which contributes 16% of India's GDP, under this scheme is expected to grow to 25%. Given such a scenario it is expected that manufacturing sector would double itself every three years.

DIVIDEND:

Considering the accumulated losses and loss of the current year, along with the capital requirement for ongoing business activity, the Board of Directors does not recommend any dividend on the equity shares.

The dividend payout for the year under review is in accordance with the Company's policy to pay sustainable dividend linked to long term growth objectives of the Company to be met by internal cash accruals.

RESERVE:

In view of the losses during the year under review, the Board of Directors of your Company does not propose to carry to any amount to reserve.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

As required under Regulation 34 of the Listing Regulations with Stock Exchange, the Management Discussion and Analysis Report is enclosed as a part of this Annual Report.

CORPORATE GOVERNANCE AND SHAREHOLDERS INFORMATION:

The Companies Act, 2013 and Listing Regulations require compliance with Specified Corporate Governance practices. These practices have been fully implemented and a certificate from the Practicing Company Secretary as well as a detailed report on Corporate Governance approved by the Board of Directors of the Company is set out in the Annual Report. The Company is regularly complying with the Corporate Governance practices and also uploading the information under the corporate filing & Dissemination System. Your Company has also entitled in the new SEBI complaint system (SCORES) enabling the investor to register their complaints if any, for speedy redressal.

LISTING WITH STOCK EXCHANGES

The Equity Shares of the Company continued to be listed with BSE Limited, however the trading is suspended. The Company has received in-principle approval for revocation of suspension of trading of Equity Shares vide letter reference DCS/COMP/OT/SB/162/2015-16 dated 17th December, 2015 with the re-instatement fee of Rs. 26.00 Lac plus service tax 14.50% (including 0.50% Swachh Bharat cess). But your Company being declared as Sick Company by BIFR, as per the norms of re-instatement fee shall be Rs. 14.00 Lac plus taxes as stated above. The representation was made in this regards to BSE Ltd and the company is awaiting their positive response.

DEMATERIALIZATION:

The Equity Shares of the Company can be held in dematerialized form. The Company has signed the tripartite agreement with National Securities Depository Limited (NSDL), Central Depository Services (India) Limited (CDSL) and existing Registrar & Transfer Agent for dematerialization of existing holding of the stake holders. The International Securities Identification Number (ISIN), allotted to the Company is INE478C01021.

Management Discussion and Analysis

Overall review, Industry Structure and Developments:

The outlook for the years ahead is likely to be influenced by three factors, 1) China's structural changes from a manufacturing, and investing economy to services led one. 2) Commodity and energy prices, 3) Monetary policies around the world.

Global growth is expected to pick up to 3.40% in 2016 and 3.60% in 2017. The advanced economies continued to show modest and uneven improvements, as the US continued to be resilient. The emerging markets and developing economies that contribute to almost 70% of the global growth continued to be strained, however in a better position compared to the previous year

The polymer sector in India is estimated at over \$32bn and this is expected to grow upwards of 8% over the next five years. Despite being the world's third largest market behind US and China, India lags in the consumption of polymer

India's per capita consumption stood at below 10kgs, compared to the world average of 30kgs. With increased sales in automobiles, the government's initiatives of lining canals and demand for packing material increasing on account of retail growth this sector is slated to grow at double digits in the coming years.

Opportunities and Threat

Your Company enjoys the benefit of experience of over three decades in the manufacturing of FIBCs. The strength of the business lies in the supply of the manufactured FIBCs that reach the end user and not the Trader. The Management expertise and their association with Polymer processing industry have always been an added advantage to your Company. The Management has embarked on Operational excellence and business strategy growth. Fresh steps have been taken to improve cost effectiveness, excellence in product quality, customer service and operational productivity.

Fluctuating prices of raw materials / raw material shortages – The Main raw material used in the manufacture of FIBC is polypropylene, which is a crude derivative and subject to price fluctuation. The Shortage of Raw Materials further aggravates stiff competition for Raw Materials. This Raw Material account for 60 to 70% of cost of FIBC manufacturing and the end result would be raising pressure on prices. However with the proper planning, the Management has managed to keep these uncertainties under control.

There is tremendous shortage of skilled manpower and being a labor intensive industry, it has the potential to affect the production. However the Management has adequate system in place to constantly monitor manpower requirement, provide internal training.

Your company a certified ISO 9001:2008 adheres to the latest international standards, and believes in adapting the best practices in the industry, be it people, processes, quality of our products or internal systems

Segment wise Performance

Presently the Company deals in one segment only which is manufacturing of packaging items.

Future Outlook

The Directors' Report has specifically dealt with the subject under the head "Future Outlook"

Internal control System

The Company has adequate system of internal control with regards to purchase of stores, raw materials including components, Plant & Machineries, equipment's, sale of goods. The internal control system is supplemented by well documented policies and guidelines and is conducted by internal audit. The Internal Audit Report are periodically put to and are reviewed by Audit Committee and top Management on quarterly basis.

Human relations

Human resource is the most important resource and need to be used efficiently. The Company views its employees as valuable resources who are important stakeholders in the growth, prosperity and development of the organization. The Company is committed to provide necessary training / conduct development programs to provide necessary skills required within the employee. The Management of the Company enjoy cordial relations with its employee at all levels.

Financial performance with respect to operational performance

For the want of additional working capital, the Company operates at low capacity utilization resulting in the operational cash profits to be low and further due to high cost of borrowing the bottom line is resulted in a loss. The financial constraint is also due to your Company being declared a Sick Company under the Sick Industrial Companies Act, 1985. However the Management is putting all its effort for achieving best level of operation. Once these constraints are resolved, the cost saving on Purchase, Process improvement giving better yield and up-gradation on existing equipment will have multiplying impact on the financial performance.

“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of TPI India Ltd (refer to in Paragraph II 2. f) of Independent Auditor’s Report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

To the Members of TPI India Limited

We have audited the internal financial controls over financial reporting of TPI India Limited (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
