However, the gross turnover was Rs.582 Crore as against Rs.587.52 Crore in the previous year. The turnover does not increase in commensurate with sales quantity, as the raw material during the year saw downward trend due to softening of crude prices, consequently sales realization per unit was less than the previous year, though margins have improved.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

a) Industry Structure and Development

The Demand of Acrylic Fibre during the year has improved; the company sold 41616 MT during the year under review as compared to 32148 MT during the previous year. During first quarter of current financial year demand continues to be good and it is expected that during the remaining period momentum would sustain.

b) Opportunities and Threat

Principal raw material i.e. A C N is a by-product of crude oil. During the year under review prices of crude oil fallen, while it is now stabilizing in the band of 50 USD per barrel, as such it is expected that A C N prices would also move in a narrow band. Since it is being imported, the fluctuation in foreign exchange i.e. USD vs. INR has a bearing on the margin of the Company.

c) Segment-wise / Product-wise performance

The Company has only one segment i.e. Acrylic Fibre.

d) Risk and Concern

Since Company is dependent upon imported raw materials as such sudden movement in USD and volatility in crude oil adversely affects the margin. To de-risk the company is increasing thrust on exports; company's exports were about 30% of sales.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Pasupati Acrylon Limited (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance

INDEPENDENT AUDITORS' REPORT (Contd.)

Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for my /our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- c) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI".

ACCOMPANYING NOTES TO THE FINANCIAL STATEMENTS

1. Significant Accounting Policies & Notes on Accounts.

a) Method of Accounting

- i) The accounts of the Company are prepared under the historical cost convention using the accrual method of accounting unless otherwise stated hereinafter.
- ii) Accounting policies are consistent with generally accepted accounting principles.

b) Fixed Assets

Fixed assets are stated at cost except in the case of plant and machinery, which have been shown at revalued amount. Cost includes financing cost till the commencement of commercial production, inward freight, duties & taxes, incidental expenses related to acquisition and is net of MODVAT / CENVAT. In respect of major projects involving construction, related pre-operational expenses form part of the value of the assets capitalized.

Fixed assets acquired under hire purchase schemes are capitalized at their principal value and hire charges are expensed. Fixed assets taken on lease are not treated as assets of the company and lease rentals are charged off as revenue expenses.

Spare parts received along with the plant or equipment and those purchased subsequently for specific machines and having irregular use are being capitalized.

As per practice, expenses incurred on modernization / de-bottlenecking / relocation / relining of plant and equipment are capitalized. Consideration is given at each balance sheet date to determine whether there is any indication of impairment of the carrying amount of the company's fixed assets. If any indication exists, an asset's recoverable amount is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is the greater of the net selling price and value in use.

c) Investments

Investments are either classified as current or long-term based on Management's intention at the time of purchase. Current investments are carried at lower of cost and fair value of each investment individually. Long term investments are carried at cost less provisions recorded to recognize any decline, other than temporary, in the carrying value of each investment.

d) Inventories

Inventories (including licences in hand) are valued at lower of cost or net realisable value. Cost is determined using the First in First out (FIFO) formula. Finished goods and stock in process include cost of conversion and other costs incurred in bringing the inventories to their present location and conditions. Cost of machinery spares which can be used only in connection with plant & machinery and whose use is expected to be irregular are amortized proportionately over a period of residual useful life of machinery as technically evaluated. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the company.

e) Foreign Currency Fluctuations

Foreign currency loans under Exchange Risk Administration Scheme (ERAS) and of ADB line of credit have been reflected in Indian Rupees at the rates prevailing at the time of disbursement/conversion.

Gains / Losses due to Foreign Exchange fluctuations arising out of the settlement including those related to fixed assets are dealt within the profit and loss account.

Foreign currency current assets and liabilities are converted into Rupee at the exchange rate prevailing on the Balance Sheet date and the resultant gains / losses are reflected in the profit and loss account.

f) Depreciation

Depreciation has been calculated on fixed assets on straight line method in accordance with schedule II of the Companies Act, 2013 except for building, vehicle, new line and power plant where depreciation is calculated on written down value method. Further useful life of Plant & Machinery including captive power plant has been considered as 18 years instead of 25 years on technical evaluation.

The Company used to provide depreciation upto 95% of assets value. From 01.10.2009 the Company is providing depreciation keeping the residual value to Re.1 instead of 5%.

Depreciation on amounts capitalized on account of foreign currency fluctuations, is provided prospectively over the residual life of the assets.

Depreciation on revalued assets is calculated on straight line method over the residual life of the respective assets as estimated by the valuer. The additional charge for depreciation on account of revaluation is withdrawn from the revaluation reserve and credited to the profit & loss account.

g) Research and Development
