- ii. In respect of contracts relating to specified shares carried over to a subsequent settlement without taking or giving deliveries, profits or losses are recognized on settlement dates or the squaring up dates, whichever is earlier.
- iii. Interest income is recognised on a time proportion basis unless collectibility is in doubt.
- iv. Dividend income is accounted when the right to receive the same is established.

c. *Investments:*

Long-term investments are stated at cost less provision, if any, for diminution in value. Provision for diminution on carrying amount of long-term investments is made to recognize a decline other than of temporary nature.

Current investments are carried at the lower of cost and fair value as at the balance sheet date.

d. *Derivative contracts:*

Initial /additional margin paid for futures / options is disclosed under the head 'current assets'. Contracts are marked to market in accordance with the prevalent regulations, and the amount receivable or payable is disclosed under the head 'current assets' or 'current liabilities', as the case may be. The profit or loss on settlement of derivative contracts is recognized in the profit and loss account. As on the balance sheet date, provision for loss on open futures contracts is made to the extent of mark-to-market margin paid, while for open options, to the extent premium paid exceeds premium prevailing on the balance sheet date. Gain in respect of open positions is not recognized.

e. *Taxes on Income*

Provision for current Income tax is made on the basis of the assessable income for the year.

Deferred tax assets are recognized only if there is reasonable certainty that they will be realised; however, in case of unabsorbed losses / carry forward depreciation, assets are recognized only when it is virtually certain that the Company will have sufficient future taxable income against which the unabsorbed loss / depreciation can be set off. The carrying amount of deferred tax assets is reviewed of each balance sheet date.
