Talbros Automotive Components Limited
59th Annual Report 2015-16

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document contains statements about expected future events and financial and operating results of Talbros Automotive Components Limited, which are forward-looking. By their nature, forward-looking statements require the Company to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that the assumptions, predictions and other forward-looking statements will not prove to be accurate. Readers are cautioned not to place undue reliance on forward-looking statements as a number of factors could cause assumptions, actual future results and events to differ materially from those expressed in the forward-looking statements. Accordingly, this document is subject to the disclaimer and qualified in its entirety by the assumptions, qualifications and risk factors referred to in the management's discussion and analysis of the Talbros Automotive Components Limited Annual Report 2015-16.

INTRODUCING TALBROS

Talbros Automotive Components Limited is one of India's leading auto component manufacturers. The Company's sustainability focus, along with its Joint Venture companies, is being derived through adequate de-risking.

PRODUCT DIVERSIFICATION

• Gaskets & Heat Shields • Forgings • Suspension systems • Hoses • Anti-vibration systems

CUSTOMER DIVERSIFICATION

• Not more than 40% of revenues derived from top-5 clients

VEHICULAR SEGMENT DIVERSIFICATION

• Two-wheelers • Passenger cars • Light and heavy commercial vehicles • Agri equipment • Industrial & Off-road vehicles

END MARKET DIVERSIFICATION

• OEM supplies • After-market • Exports

PRODUCTION DIVERSIFICATION

• Manufacturing facilities situated in 9 locations across three states in India

Powered by this prudent diversification, Talbros' focus on sustainability is evident in its consistent dividend track record for more than 50 years.

At Talbro, this focus on 'more' distills down to just two words: Accelerating momentum!

MORE BUSINESSES.

The flagship gaskets division and forging unit and three joint ventures (Nippon Leakless Talbro Private Limited, Talbro Marugo Rubber Private Limited and Magneti Marelli Talbro Chassis Systems Private Limited) are engaged in manufacturing a range of specific components on the back of focused management bandwidth, manufacturing facilities and capital allocation.

The consolidated business under Talbro Automotive Components Limited is one of the most diversified in the Indian auto components industry.

MORE PRODUCTS.

With products that are safety-critical, performance-enhancing and passenger comfort-driven, Talbro components are integral and non-replaceable for a range of vehicles (commercial and passenger) and agri-equipments.

MORE MARKETS.

Talbro possesses an extensive and expansive consumer base, addressing the requirements of several national and multinational OEMs in India, catering extensively to their after-market needs. This has helped Talbro sustain its position as one of the largest auto component exporters in its niche.

FROM THE CHAIRMAN'S DESK

Dear fellow shareholders,

The robustness of our strategies and differentiation ensure that we continue to deliver sustainable shareholder value.

During 2015-16, Talbro relentlessly pursued its vision of seamlessly integrating with the customer supply chains with a focus on enhancing product content per vehicle encapsulated in our positioning of 'More Talbro'.

During the year under report, we furthered this conviction through industry-leading innovations as well as strategic product introductions. These introductions advanced the safety and efficiency of trucks, buses, passenger vehicles, quadricycles, tractors and off-landers in India and abroad.

This is related to Steering and suspension products (safety, quadricycles)

As our industry converges toward autonomous driving and connectivity, representing the next-generation technology breakthroughs, we are confident that Talbro will be at the forefront of products that enhance vehicular efficiency and passenger safety.

Driving shareowner value

Talbro delivered earnings per share (EPS) of ₹7.87.

This performance was not only a recognition of the strength of our business model among the investor community but also an outcome of our focus on enhancing enterprise-wide sustainability in a business environment that is not only cyclical by virtue of being dependent on a large number of external economic factors but also highly competitive with a significant part of the market

We announced a 15% dividend for our shareowners for 2015-16, in continuation of more than 50 years of dividend disbursement.

resident with the unorganized sector.

The Company's consolidated core revenues of around ₹392 crores in 2015-16 in a market where the overall passenger and commercial vehicle sales witnessed encouraging recovery after years of lackluster performance. We believe that we could have done better in terms of generating higher sales, but for two reasons beyond our control:

- Slowdown across the European markets
- Change in the business model for Magneti Marelli Talbro that affected revenues by ₹15 crores, excluding which our year-on-year revenues could have been higher by 5%

What came as a sudden announcement from the Haryana government with respect to hiking minimum wages, our total employee cost reported a substantial increase of

about ₹2 crores under the new Minimum Wages Act, effective from 1st November 2015. This impacted our core EBIDTA, which declined by about 0.5% to ₹38.15 crores during the year; correspondingly, our core EBIDTA margin (excluding other income) declined by 0.35% to 9.74%.

Reduction in interest costs by negotiating better rates with banks and substituting higher-cost debt with cheaper rates resulted in our interest charges on the P&L moderate by about 5% to ₹17.7 crores. Led by a lower EBIDTA and a reversal in forex gain of the previous financial year, our net profit post tax declined 31% to ₹9.7 crores for 2015-16.

Powering our performance is our three-pillar strategy of technology leadership under our chosen products, globalization and excellence in execution. The first represents our solid positioning as a leading global

supplier of a broad portfolio of vehicle safety and efficiency products to original equipment manufacturers (OEMs).

The second includes our expansion to newer customers and newer markets of the world and the last encompasses our focus on lean manufacturing and deploying world-class engineering practices on our shopfloor for continuous material benefits. This is also aided by our state-of-the-art centralized R&D establishment that helps drive the benefits of innovation and creativity.

Anchored on this three-pronged strategy, we announced a 15% dividend for our shareowners for 2015-16, in continuation of more than 50 years of dividend disbursement.

Accelerating momentum

Our industry is globalizing and responding to increasing demand for safer and more efficient vehicles. The passenger

vehicle and commercial vehicle OEMs face intense competitive pressure as they seek to differentiate products that are competitive not just for meeting local demands but also export applications. These market dynamics provide a large and high-quality reservoir of organic growth with the potential for strategic extensions for us for years to come.

We trust our ability to supply world-class products that are increasingly in-synch with our customers' demanding requirements but also indicates product value-addition and new product incorporation. Today, we have a portfolio of about 20,000 products.

During the year under report, we launched a dedicated line for a new product category, heat shields, at our Faridabad plant with a capex of about ₹8 crores. The primary rationale for launching this product range was not only to diversify our gaskets business but also leverage the process complementariness that heat shields have with gaskets. The latter not only enables us to enhance productivity and shopfloor efficiency but also allows us to drive double-digit EBITDA margins that heat shields typically command. Heat shields are a critical part of engine components with their criticality accentuated as manufacturers focus on bringing the various components under a vehicle bonnet closer and closer to tighten space to typically provide more roominess in the passenger cabin. As a Company that is focused on the technology side of the auto component business, we created a partnership with SANWA Packing of Japan for heat shields. SANWA is an experienced player in the business with operations starting in 1945. As in gaskets, through our dedicated heat shield line, we have emerged as the largest in the organized heat shield component business in India.

Moreover with a view to enhance product value-addition, we incorporated new technology to post-coat our gasket products that will not only enhance quality but also allow us to derive higher realisations. We are extensively using locally-made resources for this forward integration process which saves us foreign exchange, completely nullifies dependence on vendors based abroad and augments our ability to cater to our customer requirements with speed and surety. Our post-coat gaskets received an encouraging response from our customers. I am also happy to mention that in our gaskets business, we received new orders from Volvo, USA; Basak Traktör, Turkey and Khordo, Iran, aligned with our strategy of widening our exports presence and becoming relevant to international supply chains.

Performance of our JVs

Our gaskets division, including Nippon Leakless Talbros Private Limited, constitutes almost 73% of our revenues. On the domestic OEM front, we received fresh orders for all the three new models of Maruti Suzuki launched during the last financial year including the S-Cross, Baleno and Vitara Brezza. We also received orders for Yamaha new product launches. Overall, we witnessed some competitive activity which led us to undertake certain pricing actions in the second half of the financial year.

At Magneti Marelli Talbros Chassis Systems Private Limited, our joint venture signed with Sistemi Sospensioni S.p.A., we are witnessing good traction with order wins from large OEMs in UK for exports and within India. We have already started supplying components to Bajaj for its revolutionary Bajaj Qute (RE60 quadricycle) that is being shipped to export markets. At this JV, we have a strong order book in the pipeline for the next two years both on the exports and domestic front.

Our joint venture Talbros Marugo Rubber Private Limited continues to progress well. We have new orders from Maruti Suzuki and Isuzu Motors which provides medium to long-range revenue security. We also began exports of anti-vibration products to Japan. Besides, we launched hoses housed in this JV and the year 2015-16 was the first full year of the division's operations.

Overall, Magneti Marelli Talbros Chassis Systems Private Limited and Talbros Marugo Rubber Private Limited achieved EBITDA-level breakeven during 2015-16 and we believe that profits are not too far in the horizon, which will only contribute to enhancing profitability of Talbros Automotive Components Limited.

Optimism – the road ahead

The Indian automotive industry is truly one of the few large opportunities available globally. Though India is the second most populous country in the world, vehicle penetration is a mere 32 per 1,000 people (2015), making the country one of the most attractive auto-markets in the world. The country's passenger vehicles market is expected to surge to over 48 million units by 2020, throwing up huge opportunities for the auto components industry. Driven by the government's thrust on 'Make in India' coupled with several competitive advantages including relatively cost-effective and large labour pool, India is fast becoming a hub for global vehicle OEMs for sourcing and manufacturing. Additionally, a large number of MNCs including Ford, Hyundai, Toyota, GM and Honda have together committed huge investments to build manufacturing facilities in the country. Over the long term, what I also see as one of the key drivers of growth is the progression to BS-VI emission standards to address rising pollution. This will surely drive the need for world-class

products aligned with engine types compliant with BS-VI.

Over the short-term, the bounties of the Seventh Pay Commission, an above-average monsoon as forecast by the IMD, declining interest rates and relatively low oil prices are some of the tailwinds that will enable the Indian automotive industry to sustain growth. Besides, reform measures taken in core sectors like mining, roads, infrastructure and a general pick-up in the Indian economy bode well for the CV up-cycle. CV offtake grew in double-digits in the first quarter of the current fiscal year. Higher industrial growth and higher agricultural output from good monsoons are expected to sustain the demand for freight transport and demand for commercial vehicles. Besides, moves such as de-registering diesel vehicles over 10-years old in the Delhi-NCR region augur well for new sales. These developments certainly brighten prospects for frontline and niche auto component players like us.

Acknowledgements

In closing, I would like to thank our hardworking and energetic employees for their ongoing efforts. We thank our customers for giving us the opportunity to earn their business. We thank our bankers and financial institutions for their continuous support. And we thank you, our shareholders, for your investment in our company. With your support, we are pleased to have reached an exciting level in our journey and are optimistic about long-term opportunities that lie ahead.

Sincerely,

Naresh Talwar

Overview

A gasket is an important performance component in an automotive vehicle.

It is a sealing device made of conformable material usually designed in the form of a ring or a sheet. Gaskets create a pressure-tight joint between multiple stationary components, relying on a compression seal to prevent gas or liquid leakages. These seals are often intended to be resistant to pressure, temperature fluctuations. Since it uses compression, a gasket is typically more malleable than the components it joins and is able to conform to the shape of the harder surfaces between which it is placed. The gaskets are generally made up of material like non asbestos fiber sheet, graphite, elastomers, cork, multi-layer steel, single layer steel, aluminium, copper, non-asbestos fiber composite, graphite – metal composite

and metal – elastomer composite, among others.

Key highlights, 2015-16

- Established a dedicated line for heat shields at the Faridabad plant with a capex of about ₹8 crores through a technology tie-up with Sanwa Packing, Japan, Asia's largest heat shields manufacturers being in existence for the past 70+ years; we enlisted a large number of OEMs as customers (including TATA Motors, Volvo, Daimler etc) within a short period of launch, vindicating high levels of rigorous product compliance and seamless integration with large supply chains
- Retained our top-5 customers (including TATA Cummins, Volvo Eicher, Bajaj Auto, John Deere and Hero Motocorp-Honda Motorcycles) and our leadership position in a highly competitive market

Key strengths in brief

- Strong customer profile with multi-year and single source relationships
- Multiple sales platforms including OEMs, aftermarket and exports
- As many as 20,000 product SKUs with one/fourth categorized as fast moving; this is the largest such gaskets portfolios in the industry, enabling the Company to provide a one-stop convenience to customers
- Extensive tool library
- Strong innovation focus; 250 products / variants launched each year; 15-17% of the annual topline derived from new launches
- Among the few the world over with the ability to produce 0.1 mm precision gaskets, pointing to strong manufacturing competence

Focus areas, 2016-17

- Introduce the post-coating technology in our core gaskets business that would help us to substitute imports, enable us to improve quality and allow us to generate higher margins on account of the value-added nature of the product
- Continue to nurture investments in R&D towards developing technology-centric products, especially in light of the upcoming BS VI regime; our robust relationships enable us to engage in closely working with OEMs as they migrate their portfolio to meet this enhanced level of compliance
- Focus on enhancing volumes through higher capacity utilization
- Enhance exports by tapping existing customers for more volumes and tap the requirements of new customers

Something interesting!

Talbros is India's largest gaskets manufacturer with an undisputed 37% market share. The Company also owns 90% of the share of gaskets supplied to two-wheelers with an only and exclusive supplier status with Bajaj and Hero Motocorp and Honda Motorcycles (the last two along with Nippon Leakless Talbros)!

Something interesting!

Talbros is India's largest manufacturer of heat shields with a 25-product SKU. The Indian heat shields market is currently growing by about 4-5% and is expected to grow at an enhanced rate on account of the launch of new generation engines (compact, more powerful engines) and hybrid engines and tightening emission norms.

Overview

Forging is a manufacturing process that involves the shaping of metal using localised compressive forces. The business is focused on supplies of forgings to tractor manufacturers and leading vehicle makers in Europe, coupled with a growing presence in the US and Latin America. With a view to diversify and de-risk revenues, we are focusing on the auto and non-auto sectors with an equal emphasis, mitigating an excessive dependence on off-highway/ agricultural sectors.

Key highlights, 2015-16

- Revenues stood at ₹62.38 lacs (against revenues of ₹68.43 lacs during 2014-15), primarily on account of slowdown in the European markets
- The segment primarily focused on exports, with the same accounting for 49% of the forging revenues

- Added new customers including Ognibene for exports and VECV and Amul Industries in India; with this, we also augmented the customer base, reducing dependence on a single customer
- Embarked on various initiatives to reduce costs, primarily through TPM
- Received approval for our Bawal plant from VECV and Comer Industries
- Emerged in advanced stages of developing connecting rod sample, which has been approved by Amul Industries and we are in the process of supplying the pilot lot

Focus areas, 2016-17

- Focus on getting the 2,700 kVA electricity connection from the Haryana State Electricity Board (HSEB), which will help in optimizing power costs
- Initiated the certification process for the enlistment of ISO:14001, endorsing our commitment to the environment
- Focus on optimizing the product mix to improve exports share to 65-70% of the cumulative forgings revenues over the next couple of years
- Add new customers to diversify the clientele
- Focus on enhancing yields and optimising efficiency.

Revenues stood at ₹62.38 lacs (against revenues of ₹68.43 lacs during 2014-15), primarily on account of a slowdown in the European markets

Something interesting!

The forging division expects to grow revenues at a significant 20% CAGR over the next few years!

Overview

The core purpose of the complete suspension system is to isolate the vehicle body from road shocks and vibrations which would otherwise be transferred to the passengers. It must also keep the tyres in contact with the road, regardless of the road surface. Chassis systems are typically ride control products contributing to automotive and passenger safety.

Key highlights, 2015-16

- The year represented the first full-year sales to two of Maruti Suzuki's latest top-selling models including the S-Cross and Vitara Brezza; emerged as the single-source supplier for extension arms to these two models, enabling the company to ride on their success with a strong order backlog

- Emerged as the single-source supplier to Maruti Suzuki's Baleno with supplies starting from September 2015
- Emerged as the single-source supplier of suspension systems to Bajaj for their quadricycle Qute that is exported to over 16 countries.
- Commenced the implementation of a world-class manufacturing programme of Fiat Chrysler. This execution has already started to demonstrate results with benefits accruing out of a near 3% decline in material and processing costs

and 1% decline in wage bill despite the massive wage hike of 30-50% mandated by the Haryana Government, effective November 2015

- Engaged in the strategic sale of certain non-core assets to save costs and augment focus on value-added products

Focus areas, 2016-17

- Enhance exports through enlisting new customers, especially in Europe
- Focus on deriving a larger quantum of benefits through the full-fledged implementation of the Fiat Chrysler programme

Emerged as the single-source supplier of suspension systems to Bajaj for their quadricycle Qute that is exported to over 16 countries

Something Interesting!

The Bajaj Qute (RE60 Quadricycle) is a pioneering improvisation over the three-wheeler auto rickshaw and an Indian icon recognized around the world. Bajaj has invested as much as ₹500 crores in the development and production infrastructure for the Qute and its suppliers have also invested an equal amount.

Products: Anti-vibration products and hoses

Manufacturing locations: Manesar (Haryana)

Certifications: TS 16949, ISO 14001, ISO 14001, ISO 18001

Overview

Talbro Marugo Rubber (TMR) is a 50:50 partnership established in 2012 for localising the production of rubber hoses for Maruti Suzuki, production for which commenced in February 2013. TMR manufactures anti-vibration products and hoses, which include air, fuel and breather hoses, mufflers, hangers, suspension bushes, rubber bushes and hoses. The joint venture also exports products to partner Marugo Rubber.

Marugo Rubber Industries (Japan), a \$220 million company, is a global leader in the supply of anti-vibration products and hoses to global automobile OEMs. The JV provides technical knowhow in terms of design, development and validation for OEMs. The Company draws around 45%

of its revenues from Maruti Suzuki and caters to the requirements of other major players in the industry.

Developments of the year

Led by an improved performance in the anti-vibration products vertical, the joint venture achieved cash breakeven in 2014-15 and expects to report healthy revenue growth in the anti-vibration products and hose segments during the coming years. In a significant development during the year 2015-16, the Company also localised the manufacture of bushes, intercooler hoses, fuel hoses, breather hoses and air intake and air cleaner hoses for Maruti Suzuki and Isuzu Motors.

The segment reported a revenue growth of 63% from ₹10.35 crores in 2014-15 to

₹20.71 crores in 2015-16, on account of an increase in the sales of mounting mufflers and bushes to Maruti Suzuki. The JV, with an EBITDA margin of 4.79% in 2015-16, allowed the Company to directly cater to Maruti Suzuki at its Manesar plant, reducing lead times. The Company also started a new product line of moulded hoses for Maruti Suzuki. The company has also received new business from Isuzu Motors, Chennai, for suspension bushes and moulded hoses.

Eminent clientele

- **OEMs:** Maruti Suzuki, Isuzu Motors and Escorts
- **Tier-I:** QH Talbro, Endurance Technologies, Rane (Madras) and Minda Furukawa

Emerged as the single-source supplier of suspension systems to Bajaj for their quadricycle Qute that is exported to over 16 countries

Managing risks at Talbros

Talbros has formalized a structured risk management policy to identify, evaluate, monitor and minimize identifiable risks. The Company's Board of Directors and the Audit Committee periodically reviews the risk management policy so that the management can control the risk through properly defined procedures. Besides, heads of each of the departments are responsible for the implementation of the risk management system as may be applicable to their respective areas of functioning and report to the Board and the Audit Committee.

Some of the broad risks facing the business and their mitigation strategy include the following:

Industry risk

A decline in the automotive industry can impact the fortunes of the auto component industry.

1

Mitigation

- The Indian automotive industry is at the cusp of significant transformation with the industry growing by about 7% in 2015-16, reversing years of decline and sluggishness
- Despite a 1.2-billion strong population, car penetration in India is abysmally low when compared to global averages; however this is expected to correct with rising aspirations, stable interest rates with a downward bias, easy access to finance and a plethora of new models launched by OEMs, providing enhanced choice to customers
- A large number of MNCs have announced their plans to augment

their existing manufacturing facilities in India to make the country as their automotive hub for domestic supplies as well as exports through enhanced localization; India offers some inherent advantages including lower cost labour

- The passage of the GST Bill and relatively lower fuel costs are also some of the structural drivers that will boost fleet addition among logistics and transport operators, thereby driving demand for auto components
- As a result, the Indian auto component industry is expected to sustain its growth levels over the medium to long term, indicating attractive potential for industry players

Financial risk

Improper financial management can impact viability.

2

Mitigation

- The Company's financial model is anchored on prudence and conservatism
- The Company prudently utilized the ₹33.35 crores as cash generated from operating activity in retiring debt, capex and dividend payment

- The Company optimized its debt from ₹116.82 crores as on 31 March 2015 to ₹113.44 crores as on 31 March 2016; resultantly, debt-equity ratio improved to 0.86 interest cost on the P&L declined 5.23% to ₹17.70 crores and interest cover augmented to 1.55

Cyclical risk

The auto component industry is closely linked to the automotive industry, which is cyclical and dependent on several external factors.

3

Mitigation

- Talbro is well-diversified across products, customers and geographies, that helps infuse sustainability in a cyclical business
- In terms of its products basket, the Company manufactures a wide range of components including gaskets, heat

shields, chassis systems, anti-vibration products and hoses

- The Company counts a large number of OEMs as customers; it also supplies to the aftermarket and also exports to many countries around the world

Product risk

Critical products fulfill critical requirements. Any flaws might lead to a serious business impact.

4

Mitigation

- The Company enjoys multi-decade relationships with a large number of eminent clients, demonstrating the consistency in supplies of highly compliant products
- The Company is certified by various ISO as well as TS 16949 standards with regular internal as well as customer audits
- The Company manufactures products as per well-documented

SOPs with traceability, thereby ensuring accountability

- The Company uses a high level of technology on its shopfloor that enhances accuracy and minimizes human intervention
- The Company enlisted Başak Traktör, Turkey, Kubota, Japan and Mega Motors, Iran as overseas OEM customers during 2015-16, reflecting global product compliance

Regulatory risk

The threat of adverse and sudden regulations can be a threat to the industry's viability.

5

Mitigation

- Though structured regulations are welcome as they would only help stabilize and brighten long-term prospects, ad-hoc announcements represent a risk

- Over the medium-term, the mandatory migration to BS-VI fuel emission norms by 2022 bode well for the industry, enabling us to enhance the technological content in our products and also improve the environment

FINANCIAL REVIEW

During the financial year 2015-16 there was robust growth in demand for Commercial and Passenger Vehicles. Goods carriers have seen turn around after general election 2014 with the Govt. focusing strongly on infrastructure development. Mining in mineral production industry has also seen turn around and it is estimated that both these

industries will take goods carriers segment at above 15% growth rate for the current year. Last two years several macro economic factors such as falling interest rates and decreasing fuel price brought increased end customers attention and in turn demand. The similar trend is expected to continue for next couple of years.

The Utility Vehicles segment maintained its growth rates due to regular new product launches and is expected to do even better in next couple of years with launch of products like Hyundai Creta, Maruti Brezza and Mahindra KUV.

The Tractor segment showed a negative growth. This segment is directly dependent on Monsoon due to its major agriculture use. Last two years India witnessed a consecutive Monsoon deficit which lead to drastic drop in Tractors sale.

Tractors segments are expected to grow at a fast pace, compensating for last two years due to good Monsoon projected for next two years.

Two wheelers segment grew at around 12% primarily by strong demand for scooter in Urban Markets.

Comparative production of vehicles in different segments over three years has been as follows.

(Production in Nos.)

Segment	Sub segment	2013-14	2014-15		2015-16	
		(Nos.)	(Nos.)	Growth	(Nos.)	Growth

NEW INITIATIVES

In Financial year 2015, your company had a healthy mix of 67% from OEM business, 19% from Exports and balance from the aftermarket. Your Company has moved closer to its major technology up-gradation at its Gasket Division. The dedicated line for manufacturing Heat Shields adopting latest technology acquired through Sanwa Packaging Co. Ltd., a well-known Japanese company has been successfully installed. It is a natural extension to the Gaskets; it's a new product line and a new initiative by Talbros.

Your Company is 100% asbestos free and this initiative that the management took is enabling exports to grow in the

coming years. In the gasket business your Company has a vision to take exports up from 13% currently to about 20% over next three years. In addition, the existing capacity for producing Gaskets was improved and increased by internal efficiency building which has resulted in capacity enhancement of about 20%.

Initiation taken during the year 2015-16 on product diversification towards Heat shields and new technology oriented products further enhanced by discussing with customers regarding future product line they will be introducing and the requirements in terms of products as well as specifications which need to be developed were

initiated and many of these products will be introduced in the market in financial year 2016-17.

Further, introduction of new technologies in financial year 2015-16 were taken up with the International OEM customers who have accepted TALBROS for their future supplies which will enhance growth in exports significantly in upcoming years. The Company has orders from the markets of US, Turkey, Italy and is working closely with new customers in America, Turkey, Iran and Mexico.

On the other side at Forging Plant, your company is currently looking at restructuring the business through various strategic options to be able to generate newer growth drivers.

The revenue for Forging Division in 2015-16 is ₹6238 lacs against sales value of ₹6843 lacs in 2014-15. The reason for lower sales in 2015-16 was largely on account of the slowdown induced across the European markets.

For its Forging Division at Bawal, the Company added a new customer like Ognibene in export and VECV & Amul Industries in domestic. The Company embarked on various initiatives to reduce costs. It expects to optimize the running expenses by TPM initiative.

Going ahead, the Company expects this division to grow at a CAGR of around 20% in the next couple years. It is proposed to optimize product mix to improve export share 65- 70% over next couple of years.

With focus on enhancing yield and optimizing efficiency, we expect a good performance during the current financial year for this division.

FUTURE OUTLOOK

A good monsoon and a pick up in the pace of the economic recovery should augur well for auto volumes.

The improvement in macroeconomic indicators is promising. The drive of the government on development of infrastructure; generation of employment, lower fuel cost, control over inflation, rationalization of tax structure through GST introduction, Automotive Industry to be the engine of "Make in India" which is a welcome step; are all good indicators.

Also there is focus on promoting mobility, promoting India as a preferred destination for every segment of the automotive value chain, defining a road map for implementing policies & regulations and we as part of the industry have great expectations from the same. Overall it is expected that the Auto Sector too would be the beneficiary of such measures. Revival of infrastructure and mining sectors will also give significant boost to Auto Sector growth. In addition to this,

revival of monsoon after 2 years is a positive factor especially towards the growth in two wheeler & tractor segment.

It is expected that the overall auto segment would grow by 13 to 14 %, Passenger Vehicles sales to grow by 6% to 7%, Overall CV segment to grow by 13% to 14%, Two Wheelers to grow by 14% to 15% and Scooters segment to grow by 27% to 28%, Tractors to grow by 20% to 21%.

Your management has continued its strong focus on internal process improvements, enhanced productivity and skill-assessment and up gradation of its workforce so as to be a smart, nimble and proactive organization.

DIVIDEND & TRANSFER TO RESERVES

Your Directors are pleased to recommend 15% dividend for the year 2015-16 subject to the approval of members at the ensuing Annual General Meeting. The total outgo on account of dividend (including Dividend Distribution Tax) for the financial year 2015-16 will be ₹222.88 lacs. Also the Directors have proposed to transfer an amount of ₹50.00 lacs to General Reserve.

TRANSFER OF UNPAID DIVIDEND TO INVESTOR EDUCATION AND PROTECTION FUND (IEPF)

In terms of provisions of Section 125 of the Companies Act, 2013, the unclaimed final dividend pertaining to the financial year 2007-08 amount aggregating to ₹5,80,793/- had been transferred to the "Investor Education and Protection Fund" established by the Central Government.

The Company shall transfer the unclaimed dividend for the year 2008-09 to Investor Education and Protection Fund on or before 27th October, 2016 upon completion of 7 years from the date of transfer of said dividend into the Unclaimed Dividend Account in compliance with the provisions of Section 125 of the Companies Act, 2013.

The shareholders who have not encashed their dividend warrants for the financial year 2008-09 or any subsequent year are requested to lodge their claims for revalidation of dividend warrants. The Company is specifically intimating those members who have so far not claimed the unpaid dividend for the year 2008-09.

Your company has three joint ventures (JVs) with Nippon Leakless Corpn. Japan, Marugo Rubber Industries, Japan and Sistemi Sospensioni S.p.A Italy. These joint venture

companies are created with an objective to use advanced technology, know-how and scientific management techniques for production of various auto parts.

The Gasket division of the Company and Nippon Leakless Talbro constitutes almost 73% of revenues of the Company. On the domestic OEM front, fresh orders for all the three new models of Maruti Suzuki launched during the last financial year including the S-Cross, Baleno and Vitara Brezza were received.

Magneti Marelli Talbro Chassis Systems, joint venture signed with Sistemi Sospensioni S.p.A, won orders from large OEMs in the UK for exports and within India. The Company had already started supplying components to Bajaj for its revolutionary Bajaj Qute (RE60 quadricycle) that is being shipped to export markets. At this JV, the Company has a strong order book in the pipeline for the next two years, both on the exports and domestic front.

Talbro Marugo Rubber continues to progress well. The Company had new orders from Maruti Suzuki and Isuzu Motors which provides medium to long-range revenue security. The Company also began exports of anti-vibration products to Japan. In a key development, Company was able to export bushes to Polaris- US, for their all-terrain vehicles, indicating global compliance levels achieved for this product basket within a short period of time.

Management Discussion and Analysis Report

(A part of the Directors' Report)

Some of the Highlights of the Company's operations during the year on a consolidated basis are:

- The Consolidated Revenue from Operations (Gross) increased by 0.96% to ₹42,782.80 lacs in comparison to ₹42,377.89 lacs in the previous year.
- Consolidated earning after Taxes has been ₹971.06 lacs during 2015-16 as against ₹1,412.19 lacs in the year 2014-15.

INDUSTRIAL STRUCTURE AND DEVELOPMENT

Over the last year, we have seen a revival in the Indian economy with macroeconomic indicators now starting to trend favorably. With policy reforms and de-bottlenecking of processes initiated by the government, the global sentiment towards India has improved substantially. The World Bank, in its report- Global Economic Prospects – 2016, states that for FY 2016-17, India, the dominant economy in the South Asian region, is projected to grow at a faster rate of 7.8%. At the same time, global growth has slowed to 2.4% in 2015 and is expected to recover at a slower pace than previously envisioned. Also there is focus on promoting mobility, promoting India as a preferred destination for every segment of the automotive value chain, defining a road map for implementing policies & regulations.

The larger manufacturing sector is still reeling under overcast industrial environment. However, the consumer durable segment which also includes automobiles has witnessed a revival in performance primarily supported by urban demand. This sector has grown 11.4% during April 2015 to February 2016 against a regrowth of 13.3% in the same period of year before last.

OPPORTUNITIES AND THREATS

Opportunities:

- Higher industrial growth and higher agricultural output from good monsoons are expected to sustain the demand for freight transport and demand for commercial vehicles. Revival of monsoon after 2 years is a positive factor especially towards in two wheeler & tractor segment.
- India can serve as an excellent export base to global carmakers on the lookout for strong engineering

workforce. With states within India wooing such investors aggressively, the domestic demand for auto components may not remain within the confines of Indian Automobile demand.

- Two wheelers segment is likely to grow at around 12% primarily by strong demand for scooter in Urban Markets.
- The drive of the government on development of infrastructure; generation of employment, lower fuel cost, control over inflation, rationalization of tax structure through GST introduction, Automotive Industry to be the engine of "Make in India" which is a welcome step; are all good indicators.
- Strong volume growth of E-commerce both global such as Amazon and Indian such as Flipkart and Snapdeal has meant there is increasing movements of merchandise on Indian roads that will lead to more smaller delivery vehicles.
- Increased thrust on Infrastructure and Mining Sector revival are two key opportunities for growth in Commercial vehicles.

Threats:

- Indian rupee depreciated over five percent against dollar in 2015 and is expected to fall further. Unfavorable volatility in currency markets will increase the cost of imports and may drive up the prices of consumer durables.
- Due to the strong linkage between the manufacturing sector and the economy, macroeconomic conditions impact the Company's growth in the short term.
- Threat of cheaper imports flooding the Indian markets.
- The glut in auto industry both in terms of number of manufacturers and models competing in each segment has lead to creation of many price-points. Such a situation has the potential to seriously harm some auto companies and their dedicated auto component suppliers. The latter may stand to lose the investments made for serving their customers.
- Serious traffic congestion in cities and metros can lead to mass transit alternatives that may stifle personal vehicle demand.

- f) Reserve Bank of India has reduced the REPO rate by 75 bps in past one year but banks have yet to pass on the benefit to end users.
- g) Increase in CPI inflation can cause rise in operating costs for the Company particularly in terms of input material and wages cost to meet inflationary environment. Though inflation at present is at moderate level, still any significant upward movement in inflation can impact Company's profitability.
- h) Competition, whether domestic or international is always a challenge and transforming challenges into opportunities has been a practice at Talbros.

CURRENT YEAR OUTLOOK

We have audited the accompanying standalone financial statements of Talbro Automotive Components Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information, in which are incorporated the Returns for the year ended on that date audited by the branch auditor of the Company's branch at Pune.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those

Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2016 and its profit and its cash flows for the year ended on that date.

Other Matter

We did not audit the financial statements/information of one branch included in the standalone financial statements of the Company whose financial statements / financial information reflect total assets of ₹27,97,74,963/- as at March 31, 2016 and total revenues of ₹62,56,54,589/- for the year ended on that date, as considered in the standalone financial statements. The financial statements/information of this branch have been audited by the branch auditor whose report has been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of this branch, is based solely on the report of such branch auditor.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure-A' a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and proper returns adequate for the purposes of our audit have been received from the branch not visited by us;
 - (c) The report on the accounts of the branch office of the Company audited under Section 143 (8) of the Act by branch auditor has been sent to us and has been properly dealt with by us in preparing this report;

Annexure - B to the Independent Auditor's Report

(Referred to in paragraph 2(g) under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date on the standalone financial statements)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Talbros Automotive Components Limited ("the Company"), as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit

opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to the Financial Statements for the year ended March 31, 2016

1. Summary of significant accounting policies

a) Basis of preparation:

The financial statements of the Company have been prepared and presented under the historical cost convention on the accrual basis of accounting in accordance with generally accepted accounting principles in India (GAAP) and comply with the accounting standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013.

b) Use of estimates:

The preparation of financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities on the date of the financial statements, disclosure of contingent liabilities as at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. The management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from these estimates. Difference between the actual results and the estimate are recognized in the period in which the results are known / materialized.

c) Investments:

Long term investments are stated at cost, less any provision for diminution other than temporary in nature.

d) Inventory valuation:

Raw materials and stores & spare parts are valued at lower of cost or net realizable value. Cost represents purchase price and other expenditure directly attributable to the acquisition and is determined on first in first out (FIFO) basis.

Tools are amortised over a period of 72 months from the month put to use.

Finished goods & work-in-progress are valued at lower of cost or net realizable value. Cost for this purpose includes materials, labour and appropriate allocation of overheads. Excise duty on stock lying with the Company is added to the cost of finished goods inventory.

e) Fixed assets

i) Tangible

Fixed assets are stated at cost of acquisition or construction and include amounts added on revaluation, less accumulated depreciation.

ii) Intangible

Technical know-how fee is recognized as an Intangible Asset in accordance with Accounting Standard -26 "Intangible Assets" less accumulated amortisation.

Major software products are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

f) Depreciation / Amortisation

Depreciation on tangible fixed assets is provided based on the methods given hereunder

Sr. No.	Plant	Method of depreciation	
		Straight line	Written down value
1	Gasket Plants at Faridabad, Chennai, Pune and Sohna (except on items acquired prior to 1.9.1978 at the Chennai Plant and prior to 31.12.1985 at Faridabad Plant)	Plant, machinery and equipments	All other depreciable assets
2	Assets acquired prior to 1.9.1978 at the Chennai Plant and prior to 31.12.1985 at Faridabad Plant		All depreciable fixed assets
3	Gasket Plant at Sitarganj, Forging Plant at Bawal and assets transferred to Gasket Plant at Faridabad from erstwhile Rubber Division	All tangible fixed assets other than vehicles	Vehicles

Depreciation is provided on the useful life of the assets as prescribed in Schedule II of the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II:

Notes to the Financial Statements for the year ended March 31, 2016

Sr. No.	Class of assets	Useful life
(i)	Plant, machinery and equipments	22 years
(ii)	Computers	6 years
(iii)	Air-conditioning plant	10 years
(iv)	Canteen equipments	10 years
(v)	Furniture and fixtures	5 years
(vi)	Vehicles	10 years
(vii)	Electrical installation	15 years
(viii)	Tube wells	10 years

The estimates of useful lives of the assets are based on independent technical evaluation, taking into account the nature of the asset, the estimated usage of the asset and the operating conditions surrounding the use of the asset etc.

In respect of additions to/deductions from fixed assets during the year, depreciation is charged on pro-rata basis. Assets costing ₹5,000 or less are fully depreciated in the year of acquisition.

Leasehold land and leasehold improvements are amortized on straight line basis over the period of the lease.

Technical know how fee is amortized on straight line basis over the period of agreement but not exceeding ten years starting from the use of technical know how. Expenditure on major software products is written off on straight line basis over a period of 36 months from the month put to use except Forging Division where the Software Products are written off over a period of 60 months from the month put to use.

g) Revenue recognition:

- Revenue from operations includes excise duty and is net of returns and trade discounts. Excise duty relating to sales is adjusted against revenue from operations. Excise duty on the increase/decrease in the stock of finished goods is recognized as part of the 'Other Expenses'.
- Dividend is accounted for on accrual basis when the right to receive the dividend is established.
- Export incentives are accounted on accrual basis.

h) Foreign currency transactions:

Transactions in foreign currency are accounted at the exchange rates prevailing at the dates of the transactions. Gains / losses arising out of fluctuation in exchange rates, if any, on settlement are recognized in the statement of profit and loss except in the case of long term monetary items relating to acquisition of fixed assets where such gains / losses are adjusted to the cost of fixed assets.

Foreign currency monetary items are converted at the exchange rate prevailing as at the year end and resultant gain / loss is charged to the statement of profit and loss, except in case of long term monetary items representing liabilities relating to acquisition of fixed assets which are adjusted to the cost of the respective assets. In respect of transactions covered by foreign exchange forward contracts, the difference between the contract rate and the spot rate on the date of the transaction is charged to the statement of profit and loss over the period of the contract.

i) Employee benefits:

- Provident fund is a defined contribution scheme and the contributions are charged to the statement of profit and loss of the year when the contributions to the respective funds are due.
- Superannuation fund is a defined contribution scheme and the contributions are charged to the statement of profit and loss of the year when the contributions to the fund are due.

Notes to the Financial Statements for the year ended March 31, 2016

- iii) Gratuity liability is a defined benefit obligation and is provided for based on actuarial valuation made at the end of each financial year based on the projected unit credit method.
- iv) Long term compensated absences are provided for based on actuarial valuation made at the end of each financial year based on the projected unit credit method.
- v) Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

j) **Borrowing costs:**

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of cost of such assets upto the date the assets are ready for its intended use. All other borrowing costs are recognized as an expense in the year in which they are incurred.

k) **Leases**

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. The Company is both a lessee and a lessor under such arrangements. Payments and receipts under such leases are charged or credited to the statement of profit and loss on a straight line basis over the lease term. Initial direct costs such as legal cost, brokerage cost etc. are recognised immediately in the statement of profit and loss.

l) **Deferred tax**

Deferred tax is recognized, subject to the consideration of prudence on timing differences, representing the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets and liabilities are measured using tax rates and the tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets in case of unabsorbed depreciation and carry forward losses are recognized if there is a virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

m) **Impairment of assets:**

At each balance sheet date, the Company assesses whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized in the statement of profit and loss to the extent the carrying amount exceeds recoverable amount.

n) **Provisions, contingent liabilities and contingent assets**

Provisions are recognized for liabilities that can be measured only by using a substantial degree of estimation, if

- a) the Company has a present obligation as a result of past event,
- b) a probable outflow of resources is expected to settle the obligation and
- c) the amount of obligation can be reliably estimated.

Reimbursements expected in respect of expenditure required to settle a provision are recognized only when it is virtually certain that the reimbursements will be received.

Contingent liability is disclosed in the case of

- a) a present obligation arising from the past event, when it is not probable that an outflow of resources will be required to settle the obligation.
- b) A possible obligation, of which the probability of outflow of resources is remote.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date. Contingent assets are neither recognized nor disclosed.

Notes to the Financial Statements for the year ended March 31, 2016

35. Excise duty

The finished goods at Sohna plant (material division), Gurgaon is considered as raw material for the Company because the same is used for manufacturing gaskets at Faridabad and other plants. Accordingly the excise duty liability on excisable goods manufactured at Sohna, but pending removal / clearance from the factory premises as at 31.03.2016, estimated at ₹3,88,921 (previous year ₹3,35,731) is not accounted for. If the said liability would have been accounted, it would have resulted in a higher charge of excise duty with corresponding adjustment of liability and a higher inventory by ₹3,88,921 (previous year ₹3,35,731). However, this would have no effect on the net profit of the Company for the accounting year or on the net current assets as at 31.03.2016.

36. Balance with central excise & other authorities includes ₹80 lacs deposited by the company as advance excise duty in view of investigation by the excise department, objecting excise exemption on some of the products sold from Sitarganj Plant. The matter is still to be decided.

37. The Company has not received information from vendors regarding their status under the Micro, Small and Medium Enterprises Development Act, 2006 and hence disclosure required under schedule III of the Companies Act, 2013 has not been given.

38. Based on the technical assessment of useful life of tools carried out during the year, the amortization has been done considering life of 72 months instead of 36 months presently. Had the Company continued with the previously assessed useful life, the consumption of stores & spares parts for the year ended 31st March, 2016 would have been higher by ₹277.12 Lacs".

39. Segment reporting

a) Primary segment:

The Company's operations comprise of only one segments viz , "Auto Components & Parts" .

b) Secondary segment:

The Company caters to the needs of the Indian as well as foreign market. The risk and returns vary from country to country and export to none of the countries exceeds 10% of the sales turnover of the Company. Hence it is not reportable.

Independent Auditor's Report

To the Members of

Talbro Automotive Components Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Talbro Automotive Components Limited ("the Company") and its jointly controlled entities, comprising of the Consolidated Balance Sheet as at March 31, 2016, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company and its jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the Company and its jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and its jointly controlled entities and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards

and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of

the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

Annexure - A to the Independent Auditor's Report

(Referred to in paragraph 2(f) under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date on the consolidated financial statements)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting of Talbro Automotive Components Limited ("the Company") and its jointly controlled entities, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company and its jointly controlled entities, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective companies policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the respective companies internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that

we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the respective companies internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention

or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company and its jointly controlled entities, which are companies incorporated in India, have, in

all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to the Consolidated Financial Statements for the year ended March 31, 2016

1. Summary of significant accounting policies

a) Basis of preparation:

The financial statements of the Group have been prepared and presented under the historical cost convention on the accrual basis of accounting in accordance with generally accepted accounting principles in India (GAAP) and comply with the accounting standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013.

b) Use of estimates:

The preparation of financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities on the date of the financial statements, disclosure of contingent liabilities as at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. The management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from these estimates. Difference between the actual results and the estimate are recognized in the period in which the results are known / materialized.

c) Principles of consolidation:

The consolidated financial statements include the financial statements of Talbros Automotive Components Ltd ('the Company') and its joint venture companies (collectively known as 'the Group').

The financial statements of the joint venture companies are consolidated using proportionate consolidation method by adding book values of like items of assets, liabilities, revenues and expenses after eliminating intra-group balances / transactions and unrealised profits to the extent of the Group's proportionate share in accordance with Accounting Standard-27, "Financial Reporting of interest in joint venture" notified under section 133 of the Companies Act, 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate financial statements. Differences in accounting policies have been disclosed separately.

d) Investments:

Long term investments are stated at cost, less any provision for diminution other than temporary in nature.

e) Inventory valuation

Raw materials and stores & spare parts are valued at lower of cost or net realizable value. Cost represents purchase price and other expenditure directly attributable to the acquisition and is determined on first in first out (FIFO) basis.

Tools are amortised over a period of 72 months from the month put to use. In case of joint venture companies, tools are amortised over a period of 36 months from the months put to use.

Finished goods & work-in-progress are valued at lower of cost or net realizable value. Cost for this purpose includes materials, labour and appropriate allocation of overheads. Excise duty on stock lying with the Group is added to the cost of finished goods inventory.

f) Fixed assets

i) Tangible

Fixed assets are stated at cost of acquisition or construction and include amounts added on revaluation, less accumulated depreciation.

ii) Intangible

Technical know-how fee is recognized as an Intangible Asset in accordance with Accounting Standard -26 "Intangible Assets" less accumulated amortisation. Major software products are carried at cost less accumulated amortisation and accumulated impairment losses, if any

g) Depreciation / Amortisation

Depreciation on tangible fixed assets is provided based on the methods given hereunder

Notes to the Consolidated Financial Statements for the year ended March 31, 2016

Sr. No.	Plant	Method of depreciation	
		Straight line	Written down value
1	Gasket Plants at Faridabad, Chennai, Pune, Sohna (except on items acquired prior to 1.9.1978 at the Chennai Plant and prior to 31.12.1985 at Faridabad Plant) and joint venture companies namely Talbro Marugo Rubber Private Ltd and Nippon Leakless Talbro Private Limited	Plant, machinery and equipments	All other depreciable assets
2	Assets acquired prior to 1.9.1978 at the Chennai Plant and prior to 31.12.1985 at Faridabad Plant		All depreciable fixed assets
3	Gasket Plants at Sitarganj, Forging Plant at Bawal and assets transferred to Gasket Plant at Faridabad from erstwhile Rubber Division, joint venture company Magneti Marelli Talbro Chassis System P Ltd,	All tangible fixed assets other than vehicles	Vehicles

Depreciation is provided on the useful life of the assets as prescribed in Schedule II of the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II:

Sr. No.	Class of assets	Useful life
(i)	Plant, machinery and equipments	22 years
(ii)	Computers	6 years
(iii)	Air-conditioning plant	10 years
(iv)	Canteen equipments	10 years
(v)	Furniture and fixtures	5 years
(vi)	Vehicles	10 years
(vii)	Electrical installation	15 years
(viii)	Tube wells	10 years

The estimates of useful lives of the assets are based on independent technical evaluation, taking into account the nature of the asset, the estimated usage of the asset and the operating conditions surrounding the use of the asset etc.

In respect of additions to/deductions from fixed assets during the year, depreciation is charged on pro-rata basis. Assets costing ₹5,000 or less are fully depreciated in the year of acquisition.

Leasehold land and leasehold improvements are amortized on straight line basis over the period of the lease.

Technical know how fee is amortized on straight line basis over the period of agreement but not exceeding ten years starting from the use of technical know how. Expenditure on major software products is written off on straight line basis over a period of 36 months from the month put to use except Forging Division where the software products are written off over a period of 60 months from the month put to use.

h) Revenue recognition:

- Revenue from operations includes excise duty and is net of returns and trade discounts. Excise duty relating to sales is adjusted against revenue from operations. Excise duty on the increase/decrease in the stock of finished goods is recognized as part of the 'Other Expenses'.
- Dividend is accounted for on accrual basis when the right to receive the dividend is established.
- Export incentives are accounted on accrual basis.

i) Foreign currency transactions:

Transactions in foreign currency are accounted at the exchange rates prevailing at the dates of the transactions. Gains / losses arising out of fluctuation in exchange rates, if any, on settlement are recognized in the statement of profit and loss except in the case of long term monetary items relating to acquisition of fixed assets where such gains / losses are adjusted to the cost of fixed assets.

Notes to the Consolidated Financial Statements for the year ended March 31, 2016

Foreign currency monetary items are converted at the exchange rate prevailing as at the year end and resultant gain / loss is charged to statement of profit and loss, except in case of long term monetary items representing liabilities relating to acquisition of fixed assets which are adjusted to the cost of the respective assets. In respect of transactions covered by foreign exchange forward contracts, the difference between the contract rate and the spot rate on the date of the transaction is charged to the statement of profit and loss over the period of the contract.

j) Employee benefits:

- i) Provident fund is a defined contribution scheme and the contributions are charged to the statement of profit and loss of the year when the contributions to the respective funds are due.
- ii) Superannuation fund is a defined contribution scheme and the contributions are charged to the statement of profit and loss of the year when the contributions to the fund are due.
- iii) Gratuity liability is a defined benefit obligation and is provided for based on actuarial valuation made at the end of each financial year based on the projected unit credit method.
- iv) Long term compensated absences are provided for based on actuarial valuation made at the end of each financial year based on the projected unit credit method.
- v) Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

k) Borrowing costs:

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of cost of such assets upto the date the assets are ready for its intended use. All other borrowing costs are recognized as an expense in the year in which they are incurred.

l) Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. The Group is both a lessee and a lessor under such arrangements. Payments and receipts under such leases are charged or credited to the statement of profit and loss on a straight line basis over the lease term. Initial direct costs such as legal cost, brokerage cost etc. are recognised immediately in the statement of profit and loss.

m) Deferred tax

Deferred tax is recognized, subject to the consideration of prudence on timing differences, representing the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets and liabilities are measured using tax rates and the tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets in case of unabsorbed depreciation and carry forward losses are recognized if there is a virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

n) Impairment of assets:

At each balance sheet date, the Group assesses whether there is any indication that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized in the statement of profit and loss to the extent the carrying amount exceeds recoverable amount.

o) Provisions, contingent liabilities and contingent assets

Provisions are recognized for liabilities that can be measured only by using a substantial degree of estimation, if the Group has a present obligation as a result of past event,

- a) a probable outflow of resources is expected to settle the obligation and
- b) the amount of obligation can be reliably estimated.

Reimbursements expected in respect of expenditure required to settle a provision are recognized only when it is virtually certain that the reimbursements will be received.

Contingent liability is disclosed in the case of

- a) a present obligation arising from the past event, when it is not probable that an outflow of resources will be required to settle the obligation.
- b) A possible obligation, of which the probability of outflow of resources is remote.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date. Contingent assets are neither recognized nor disclosed.
