Note Particulars

### 2.7 Property, Plant and Equipment (PPE)

On transition to Ind AS, the company has adopted optional exception under Ind AS 101 to measure Property, Plant and Equipment at fair value. Depreciation has been provided on the written down value method as per the rates prescribed in schedule II to the Companies Act, 2013. Property, Plant and Equipment are carried at cost less accumulated depreciation and impairment losses, if any. The Office premises purchased is yet to be transferred in company's Name by the society. However the company has claimed depreciation on the same.

### 2.8 Earnings per share

Basic earnings per share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

### 2.10 Taxes on income

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.

### 2.11 Impairment of assets

There is no impairment of assets during the year.

### 2.12 Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liability is disclosed after careful evaluation of facts, uncertainities and possibility of reimbursement. Contingent liabilities are disclosed in notes.
