RESOLUTION AT ITEM NO. 6

The shareholders of the Company at their fifty fourth Annual General Meeting held on 19th July, 2008 fixed up the maximum borrowing power of the Company at Rs.75 Crores. With the substantial growth business activities of the Company over last two years, it has become necessary to arrange more financial accommodation from bankers to sustain the increased volume of business of the Company. The Board of Directors of the Company consider that the existing borrowing power ceiling is incompatible compared to the trend to growth of activities of the Company which deserves revision to Rs. 200 Crores. This will provide a better leverage to the Company to arrange financial accommodation from its bankers consistent to the growth of activities of the Company.

The Directors feel that above resolution is beneficial to the interest of the Company and recommend the same for the approval of the Shareholders.

No Director of the Company is interested or concerned in the said Resolution.

A. BUSINESS

The Company is engaged in the business of water handling – from supply of pumps to turnkey project execution. This includes supply of pumps of various types to the power sector/irrigation sector/water supply sector and industrial sector. Besides this, the Company provides turnkey execution for water handling projects in all the above sectors by leveraging its tremendous engineering capability and vast experience in the above fields.

B. BUSINESS ENVIRONMENT

The Financial year 2009-10 was one of recovery as International Governments tried to prime demand with monetary measures to prevent the fall out of the previous year credit crisis. Easier liquidity created demand leading to industrial buoyancy. Large numbers of industrial projects were announced this year. The Central Government focus is clearly on infrastructure developments with power generation as the main focus. Strong Government policies and business opportunities are allowing private and Government power producers to add more than 15000 MW/year. Large numbers of projects have been awarded and more are to follow. This augurs well for the Company as it sees more opportunities for its products and service in the years to come.

Parallel to this, the JNURM Scheme is further gaining momentum with all State Governments actively participating in providing good urban infrastructure. Large number of water supply and drainage projects have been announced which again provide good opportunities for the Company.

C. OPERATIONAL REVIEW

As indicated last year, the Company crossed Rs. 200 Crores in sales and is hoping to maintain the rate of growth in the next year. Again it is supported by a strong order book which is exceeding Rs. 350 crores.

Kolkata Division : This division now has 3 facilities which have greatly enhanced its manufacturing capability allowing improved delivery times. This division continued to execute project orders for NTPC and other private power producers as well as the irrigation sector. It also maintained export of specialized pumps to countries like Saudi Arabia, Thailand, Latin America and Middle East. This division is now focusing on volume expansion to meet the huge demand of the power sector.

Ghaziabad Division : This division of the Company continued its growth by further improvement in its Horizontal pump manufacturing. Large number of specialized and large pumps were supplied both to the domestic and export market. This division continues to have good order book and is well placed for future growth.

Infrastructure Division : This division made the largest improvement as it grew in stature with the increased revenues and a very strong order book. Further competencies in allied areas such as civil and instrumentation have been added to enable further turnkey capability. This division booked orders across all sectors like Power, Irrigation and Industry. With the announcement of large number new projects, this division looks at enhanced growth in the years to come.

D. FUTURE OUTLOOK

The Company, being one of the leaders in pump industry has tremendous potential for further growth with an expanding market and is increasing market share. The Management is planning for the future and making necessary investments to facilitate this growth.

E. OPPORTUNITIES AND THREAT, RISK AND CONCERNS

The Company has strengthened itself with necessary manufacturing infrastructure and financial health to be a very strong Company in its sector.
