REVIEW OF OPERATION

While the operational performance of Distillery and Power Divisions has been better than the previous financial year, Sugar Division has been affected due to reduction in recovery percentage as well as very low realisation on sugar. There has been a slight dip in the selling price of industrial alcohol which has been compensated to certain extent by increased quantum of sale as compared to the previous financial year. The performance of soya unit is satisfactory. There has been no change in the nature of business during the financial year and until the date of this report.

SUGAR DIVISION

The quantum of sugarcane crushed at various units of the Company during the year 2015-16 is as under:

Name of the Units	Cane crushed (in tonnes)
Sakthinagar	: 6,99,806
Sivaganga	: 2,20,159
Modakkurichi	: 2,70,659
Dhenkanal	: 3,71,865

During the year under review, 1.22 lakh MT of sugar was produced by the Company, which is less by 0.10 lakh MT as compared to the previous year. The quantum of sugar sales and the sale value have also come down as compared to the previous year.

**DISTILLERY DIVISION**

During the year under review, 270.82 lakh litres (previous year 161.18 lakh litres) of industrial alcohol was produced at Sakthinagar Distillery Unit and 63.51 lakh litres (previous year 84.26 lakh litres), at Dhenkanal Distillery Unit.

SOYA DIVISION

21,016 tonnes (previous year 23,056 tonnes) of soya bean was crushed in the soya plant during the year under review. This division had exported products worth Rs. 1278.01 lakhs to various countries.

CO-GENERATION DIVISION

The total power generated in the co-generation plants during the year was 4424.94 lakh units (previous year 3922.77 lakh units) out of which 3580.77 lakh units (previous year 3179.21 lakh units) of power was exported to Tamilnadu Electricity Board. The Agreement with TANGEDCO has expired on 31st May 2016 and the Company is selling the power generated to Indian Power Exchange (IEX) as the Tamilnadu Government has withdrawn its restriction on free sale of power, subject to review in October 2016.

FUTURE OUTLOOK

The sugar industry has undergone a period of stress and strain for the past few years and is in its recovery path. The selling price of sugar is on the increase and is expected to settle at a reasonable price. On account of very weak south west monsoon, there may be reduction in the total availability of sugar cane in the country. While the consumption remains stable, with the shortage in supply, realisation on sugar is expected to rule high during the year. The mills in the southern region may be in an advantageous position as the north east monsoon was normal last year.

The performance of industrial alcohol sector is expected to be better with growth in demand. With the growth in the industrial activities as envisaged by the Central and State Governments, the demand for power may go up. The performance of soya division is also expected to improve with the improvement in the product range.

In general, the outlook of sugar industry is expected to be better than the previous financial year.

DEPOSITS

The Company has not accepted any deposit from public during the financial year under review. At the end of the financial year, 1 deposit amounting to Rs.0.21 lakh (including interest) remained unclaimed.

CORPORATE INFORMATION

The holders of majority of Foreign Currency Convertible Bonds (Series B) had desired to have modification of the Scheme of Arrangement filed with the Hon'ble High Court of Judicature at Madras or settlement of the outstanding amount at discount. The above bondholders have been paid as agreed. The Company is yet to settle the holders of FCCB (Series B) of USD 1 million with whom a compromise has been arrived at. An agreement has been reached with the holders of the balance USD 2.9 million of FCCB (Series B) for settlement at discount at 75% of the face value and the approval of the Reserve Bank of India for the same is awaited.

At the instance of majority of Banks, the CDR EG had approved exit of the Company from the Corporate Debt Restructuring Scheme and most of the banks have sold their loan portfolios in respect of the Company to Asset Reconstruction Company (India) Limited (Arcil) and Edelweiss Asset Reconstruction Company Limited (Edelweiss). MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. Industry Structure and Developments:

The sugar industry is the second largest agro-based industry in India next to textiles. All the three major sectors, viz public, private and co-operative, have presence in this industry. The industry is seasonal in nature and is subject to vagaries of monsoon.

The sugar industry has been facing a period of recession with excess production of sugar and consequential reduction in the selling price, far below the cost of production. The country's sugar production for the current sugar season is expected to be around 25 million tonnes, besides carry forward opening stock of 7 million tonnes, as against the total consumption of around 26 million tonnes. For the sugar season 2016-17 production of sugar is expected to be about 23 million tonnes. There is some improvement in the realisation on sugar due to expected reduction in production on account of failure of the last south-west monsoon and the industry is just able to recover its cost of production.

Molasses and bagasse are the major bye-products of sugar operation. Alcohol and ethanol are manufactured from molasses and power is generated using bagasse as fuel.

B. Opportunities and Threats:

i. Opportunities:

The industry is poised for better stability as demand for sugar is expected to be higher than the production with higher realisation on sale of sugar. Further there has been gradual growth in demand year after year.

Increase in admixture percentage of ethanol with petrol from 5% to 10% adds to the demand for the distillery products.

ii. Threats

There may be shortage in the availability of sugarcane for the ensuing crushing season due to failure of south-west monsoon.

As far as sugarcane price is concerned, it is still under the control of the Government. Any unreasonable increase in price in comparison to selling price of sugar will make the operation unviable.

There may be chance for reduction in demand from IMFL manufacturers with the closure of potable alcohol outlets as per the State Governments election manifesto.

In co-generation division, with the improvement in the grid connectivity, supply of power has gone up resulting in reduction in per unit rate. Even though the restriction imposed on free sale of power is withdrawn by Tamilnadu Government, it is subject to review in October 2016.

C. Segmentwise or Productwise Performance:

Segmentwise results are given in the notes on financial statements for the financial year ended 31.3.2016. Productwise performance is furnished in the Board's Report.

D. Outlook:

The outlook of the sugar industry is expected to be positive with the selling price of sugar being remunerative. Favourable margins are expected to be maintained in industrial alcohol, power and soya segments. It is hoped that the present trend will continue in the medium term and the mills will be able to fully settle their cane arrears and come out of the financial difficulties.

E. Risks and Concerns:

The sugar industry is cyclical in nature and the availability of raw material for crushing depends on monsoon which is unpredictable. No risk mitigation efforts can be taken in this respect.

Another major risk mills are facing is the willingness of farmers to grow sugarcane and availability of profitable alternate crops. In recent times, availability of harvesting labour poses a great threat.

The risk relating to willingness of farmers to grow sugarcane may be managed to certain extent by constant discussion with farmers and by giving timely advice regarding sugarcane cultivation. Bringing larger areas of cane fields under mechanical harvesting will be the solution for cutting labour issues.

Policies of the Governments have major impact in distillery and power divisions.

F. Internal Control Systems and their adequacy:

The Company has an in-house internal audit team to ensure that all activities are monitored and controlled. Adequate internal checks are built-in to cover all monetary and material transactions in the system developed by the Company. These checks and controls are reviewed for improvement periodically.

G. Financial Performance with respect to Operational Performance:

The total revenue for the financial year under review is Rs.85,768.11 lakhs (previous year Rs. 86,896.40 lakhs). The financial year has ended with a loss of Rs.7,524.20 lakhs (previous year Rs.4,937.89 lakhs) after providing Rs.7,849.43 lakhs for finance cost and Rs.7,437.00 lakhs for depreciation and amortization expense.

H. Material developments in Human Resource/Industrial Relations front, including number of people employed:

The Chief Executive Officer and the Chief Financial Officer of the Company have left the services of the Company during the financial year under review. Sri S.Baskar who was heading the finance department earlier has been made as the Chief Financial Officer. The industrial relations at all plants and offices remain cordial. The total number of employees on the rolls of the Company, including temporary employees and apprentices, was 1680 as at the financial year ended on 31st March 2016. Training programmes are conducted depending on the needs for updating the knowledge with respect to the developments in the industry.

**Annexure - B to the Independent Auditor's Report**

Referred to in paragraph 13(h) of the Independent Auditors' Report of even date to the members of Sakthi Sugars Limited on the standalone financial statements for the year ended March 31, 2016

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. We have audited the internal financial controls over financial reporting of Sakthi Sugars Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:
 - (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
 - (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation:

The accompanying Financial Statements have been prepared on a going concern basis under the historical cost convention on the accrual basis of accounting in conformity with Generally Accepted Accounting Principles in India ("India GAAP").

2. Change in Accounting Policy:-

Till the financial year ended 31.3.2015, the company had charged the total depreciation to the Statement of Profit and Loss and made transfer of an amount equivalent to additional depreciation on account of upward revaluation of fixed assets from revaluation reserve. In the current year the company has revised the accounting policy prospectively whereby no transfer from revaluation reserve is made through Statement of Profit and Loss.

Had the company continued to follow the earlier accounting policy, the loss for the period would have been lower by Rs.1719.28 lakhs.

3. Valuation of Inventories:

Inventories of raw materials, work-in-progress, stores, finished products and stock-in-trade are valued at the lower of cost or net realizable value. Cost is ascertained on seasonal weighted average for sugar and yearly average for stores and soya products. Soya Bean, Stock-in-trade of fertilizer and newsprint cost ascertained on FIFO basis. By-products are valued at Net realizable value. Standing crops are valued at net realizable value.

4. Fixed Assets:

- a) Fixed Assets are shown at cost/re-valued figures, less accumulated depreciation. Fixed assets added during the year are valued at cost net of CENVAT but includes all direct expenses like freight, erection charges, pre operative expenses and borrowing costs.
- b) Expenditure including borrowing cost incurred on projects under implementation is shown under "Work-in-Progress" pending allocation to the assets.

5. Intangible Assets:

 - (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company and its associate company incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
