PERFORMANCE

Financial Performance : During the year under review the total income was Rs. 369.72 crores as against Rs.381.25 crores in the previous year. Gross profit for the year was Rs.47.44 crores against the profit of Rs.7.15 crores in the previous year. The interest for the year was Rs.66.63 crores against Rs.66.50 crores in the previous year. After providing for interest, the operations have resulted in a Cash loss of Rs.19.19 crores as against the cash loss of Rs.59.33 crores in the previous year. The net loss after depreciation and tax has decreased to Rs.11.71 crores as against the loss of Rs 74.16 crores in the previous year.

The sugar industry has been facing glut in sugar during the last few years due to continuous excess production of sugar both in domestic and international level. The sugar realization has fallen below the cost of production. On account of this, most of the sugar mills in the country have incurred huge loss. From November 2015, the sugar price has started improving and presently hovers around Rs 3400/qtl. We expect the price to further improve in the coming months and the performance is also expected to improve substantially.

Sugar: During the year under review, the Company has crushed 10.51 lakh tonnes of cane as against 10.58 lakh tonnes of cane in the previous year. Consequently the total sugar production was 9.24 lakh qtls as against 9.67 lakh qtls in the previous year. The total sugar sold was 10.85 lakh qtls as against 9.59 Lakh qtls in the previous year. The average free sale sugar realization for the year ended was Rs. 2413/- qtl as against the average realization of Rs.2914/- qtl in the previous year.

Power: During the year under review, the total power generation was 1179 lakh units as against 947 lakh units in the previous year. Management Discussion and Analysis Report :

Your Company is engaged in the business of manufacture of Sugar, Co-generation of Power and Alcohol including Ethanol. The operations are spread over three locations in Tamil Nadu viz., at Dharani Nagar in Tirunelveli District, at Karaipoondi Village, Polur in Thiruvannamalai District and at Kalayanallur Village, Sankarapuram Taluk in Villupuram District.

Cautionary Statement: Statements made in this report describing industry outlook as well as Company's plans, projections and expectations may constitute 'forward looking statements'. Actual results may differ materially from those either expressed or implied. The Company assumes no responsibility to publicly amend, modify or revise any forward-looking statements, on the basis of any subsequent developments, information or events.

World Sugar Scenario:

Brazil, the largest sugar producing country in the world continuous to increase its Cane cultivation by expanding into additional areas. Due to excellent weather in Brazil, the sugar production for the year 2016-17 is expected at 37.51 million tonnes. Though the average yield is down from last year, heavy rain has helped Brazil to increase its total cane area. However, the production in Thailand and India were affected by deficit monsoon associated with El Nino effect. China is also likely to remain in deficit due to strong demand for sugar. The global production is estimated at 174 million tonnes against the demand of 181 million tonnes. On account of this, after 5 consecutive years of excess production now it seems that the current year production and demand will see a deficit in the supply. This trend supported by weak Brazilian currency has resulted in hardening of the global raw sugar price touching a level of 16.89 cents/lb in May 2016.

Indian Sugar Scenario:

India is the largest consumer of sugar in the world and the second largest producer of sugar next only to Brazil. Sugar industry is the second largest Agro based industry after Textile and it employs about 50 million farmers. After seeing continuous excess production of sugar during the last 5 seasons, the production for the season 2015-16 is expected to be about 251 lakh tonnes against the last year production of 283 lakh tonnes. The production for the coming season 2016-17 is also likely to see a downward trend and is estimated at 235 lakh tonnes. The short fall in production was mainly on account of drought in the major sugar producing states like Maharashtra and Northern Part of Karnataka.

The fall in sugar production has helped the industry to realize improved sugar price. After 2 years of very low

price, the price has reached a level of about Rs.33/kg and this will help the industry to recover the cost. On account of the expected fall in production in the coming season 2016-17 also, the price is expected to be maintained at reasonable level which in turn will improve the performance of the industry.

The Govt. of India has come out with various supportive measures to help the industry to tide over the financial crises. In order to liquidate the surplus stock, the Govt. of India has announced an incentive of Rs.45 per tonne of Cane to the farmers to compensate the losses arising on account of export of sugar. Ethanol produced out of molasses produced from 1st October 2015 has been exempted from excise duty. This along with the announcement of fixed price for Ethanol has helped the industry to substantially improve the production and supply of Ethanol to oil companies. Though Ethanol blending scheme was started almost a decade back, only now with the Govt. of India's initiative, the scheme is expected to reach the 5% target during this year.

The Central Govt. had fixed FRP for sugarcane at Rs.230/qtl. for the season 2015- 16. The Govt. of India has also retained the same price for the coming season 2016-17. However, Govt. of Tamil Nadu has announced a state advised price for cane at Rs.2850/tonne for 2015-16 season. The private mills in Tamilnadu have however challenged the legality of SAP.

Tamil Nadu which has seen drastic drop in production during the last two seasons on account of drought, is expected to increase the production for the coming season 2016-17 by about 15% on account of improved monsoon during the last quarter of 2015.

Summary of sugar production and stock details are given below:

Opportunities and Threats: India, the world's largest consumer of sugar is the second largest producer of sugar in world after Brazil. Still the average per capita consumption of sugar in India is less as compared to the developed countries. While sustainability has been a cause for concern in cane agriculture, by 2030 the demand for sugar has been estimated at 36 million tonnes for which the cane production should be 500 million tonnes. This is 40% higher than the current production.

The current level of Ethanol production is much less than the mandated 5% blending and the demand is expected to grow in the coming years. The Co-generation potential in the sugar industry has been estimated at 5500 MW, while the present installed capacity is just 50% of the potential. While the land availability is likely to shrink for cane cultivation, the cane production needs to be increased to meet the ever increasing demand for sugar, power and ethanol.

Risks and Concerns: Risks and Concerns given by the management below are not exhaustive and only highlight some of the salient among them. The investors are advised to exercise their due diligence in assessing the various risk factors associated with industry and your Company. The sugar industry is still highly regulated with the Government exercising control over pricing of sugar cane, allocation of area for sugar units, movement of molasses, Alcohol and pricing of Power. Some of the inherent business risks and the mitigation measures initiated by your Company are given as under:

a) Raw Material Risk: Cane is the basic raw material for sugar industry and the efficient operation of the Sugar Plant as well as Distillery depends upon the availability of adequate cane. Sugar industry being cyclical in nature is affected by the vagaries of the monsoon. Substantial increase in the price of alternate crops as compared to sugarcane has resulted in the farmers switching to other crops which are more profitable. To mitigate the above raw material related risks, your Company has taken extensive field work in co-ordination with the farmers to sustain the yield under the drought conditions. Your Company has also in co-ordination with the Government, encouraged drip irrigation for better water management and improved yield. However, the drought during the last 2 years has limited our ability to improve the cane availability.

b) Product Risks: The sugar industry has been decontrolled in 2013, and the mills are free to sell any quantity any time. This uncontrolled supply along with excess production during the last 5 years has resulted in sharp drop in the market price of sugar. Alcohol is highly regulated and the price of the same is directly/indirectly controlled by the Government through import from neighbouring states. To mitigate the product related risks,

the Company has been taking efforts to make its operation as an integrated one comprising of Sugar, Power and Alcohol including fuel Ethanol.

c) Forex Risk: Import and Export of Raw Sugar/White sugar and funding of project for manufacture of sugar involves foreign exchange component. Any wide fluctuation in the value of Rupee against US Dollar may impact the profitability of the Company. The Company is closely monitoring the movement to take appropriate action at the appropriate time.

d) Financing Risk: The Sugar Industry being capital intensive in nature requires huge capital investment, having high debt component. The Sugar Industry being seasonal in nature, what is produced during 7-8 months are sold over 12-14 months. This results in the Company holding substantial inventory incurring very high interest cost on working capital borrowing, besides other carrying costs.

e) Regulatory Risks: Though sugar has been decontrolled recently, still the cane area allocation and cane price is controlled by Governments. Sugar cane prices fixed by Central and State Governments are independent of sugar realization. Alcohol and molasses are subject to inter-state movement control.

Outlook for 2016-17: After continuous excess production of sugar during the last 5 years, the world is seeing a deficit of about 7 million tonnes in the coming season 2016-17. This has already resulted in the global sugar price rebounding to 16.89 cents/lb in May 2016 from the earlier level of about 11 cents in 2015. The Indian production for the season 2015-16 is estimated at 250 lakhs tones only as against the production of 283 lakh tones in the previous year. Further, the production for the next season also likely to come down further to 235 lakhs tonnes. Fall in production/inventory along with high international sugar price is likely to help the India Sugar industry to improve its performance substantially.

Financial Performance: Please refer disclosures in the Director's Report and the financial statements. As the Company's products viz., Sugar, Alcohol and Power are subject to various government controls, the profitability is affected. The raw material cost is subject to price announced by Central and State Government and the sugar realisation also is affected on account of unregulated excess supply in the market.

Human Resources: The Industrial relations at your Company continue to be cordial. There are 951 employees in your Company. The Company continues its efforts in improving the various facilities extended to the employees for better productivity.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31.03.2016

[Pursuant to section 204(1) of the Companies Act, 2013 and rule

No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members,

DHARANI SUGARS AND CHEMICALS LIMITED

(CIN: L15421TN1987PLC014454)

PGP HOUSE 57, STERLING RD, NUNGAMBAKKAM,
CHENNAI – 600034.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **M/s. DHARANI SUGARS AND CHEMICALS LIMITED** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion there on.

Based on my verification of **M/s. DHARANI SUGARS AND CHEMICALS LIMITED's** books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct

of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on **31.03.2016** complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made here in after:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by **M/s. DHARANI SUGARS AND CHEMICALS LIMITED** ("the Company") for the financial year ended on **31.03.2016** according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;

a. Energy Conservation Measures :

1. At Dharani Nagar, Unit-I 250W, HPMV lamps are used for street lighting. These lamps were replaced by 64W LED street light lamps without compromising the illumination intensity. The total saving per year works out to Rs.3.80lakhs.
2. In sugar industry most of the pumps and compressors are not tailor made to suit the crushing capacity of the plant. These pumps are selected from the pump manufactures, equal or nearer to the crushing capacity of the plant per hour. Invariably most of the pumps are with higher capacity to take care of either the future expansion or supplier may not find an exact requirement for the unit.

At Kalayanallur, Unit-III Eight such pumps were identified, measured the power consumption as it is. These pumps impellers were modified to suit the site requirement and this has resulted in not only fair amount of power saving, but also reduced the maintenance cost.

3. The net conservation of power from these eight pumps is 43.5 KW per hour and the total saving per year works out to Rs. 7.50 lakhs.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF DHARANI SUGARS AND CHEMICALS LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **DHARANI SUGARS AND CHEMICALS LIMITED** ("the Company") which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Managements Responsibility for the standalone Financial Statements:

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls; that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility:

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Dharani Sugars and Chemicals Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of M/s DHARANI SUGARS & CHEMICALS LIMITED ("the Company" or "DSCCL"), as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial Statements for the year ended 31st March 2016

1. Background:

Dharani Sugars and Chemicals Limited (Company') was incorporated on 4th June 1987 as a Limited Company under the Companies Act, 1956. The Company is engaged in the business of manufacture of white sugar, generation of electricity and production of industrial alcohol.

Note 1: Statement of significant Accounting Policies:

a. Basis of Preparation

The financial statements of the Company have been prepared in accordance with the Indian Generally Accepted Accounting Principles (GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under Section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014. The financial statements have been prepared on an accrual basis and under the historical cost convention.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard required a change in accounting policy hitherto in use.

b. Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and disclosure of contingent liabilities on the date of financial statements. The recognition, measurement, classification or disclosures of an item or information in the financial statements are made relying on these estimates. Any revision to accounting estimates is recognized prospectively.

c. Revenue Recognition

- i Revenue from domestic sales is recognized on accrual basis. Sales and Finished Goods are accounted inclusive of excise duty, cess but excluding sales tax and trade discounts. Revenue from export sales is recognized on the basis of the dates of shipping bill. .
- ii Export incentives are accounted on accrual basis.
- iii Power generation income is recognized based on electrical units generated and sold, net of wheeling and transmission loss, as applicable, as disclosed in the power generation reports issued by the concerned authorities.
- iv Interests on deposits are accounted on time proportion basis taking into account the amount outstanding and the rates applicable.
- v Dividend income is recognized only when a right to receive payment is established.
- vi Claims are accounted for when there is a reasonable certainty with regard to their ultimate collection.
- vii Other incomes are recognized on accrual basis.

d. Fixed Assets

- i Fixed Assets are stated at cost inclusive of duties (net of CENVAT credit to the extent applicable), taxes, incidental expenses, erection/commissioning expenses and interest and all other costs allocated up to the date of commencement of commercial production.
- ii Gains or losses arising from retirement or disposal of fixed assets are recognized in the Profit & Loss account.

e. Depreciation

Tangible:

Schedule XIV to the Companies Act, 1956 has been replaced by Schedule II to the Companies Act, 2013. Schedule II to the Companies Act, 2013 prescribed depreciation rates as per the useful lives for fixed assets, which in many cases are different from depreciation rates as per the useful lives prescribed under the erstwhile Schedule XIV.

**Notes to the financial Statements for the year ended 31st March 2016**

Considering the applicability of Schedule II, the management had provided for depreciation on fixed assets as specified in Part C of Schedule II of the Companies Act, 2013 under the straight line method. Certain fixed assets required reassessment of their remaining useful lives from the previous estimate. Accordingly, necessary revision has been made with effect from the date of Schedule II becoming effective i.e April 1 2014. The carrying amount of assets as at April 1, 2014 has been depreciated over their remaining useful life of and charged to the statement of profit and loss.

Depreciation is charged on addition / deletion on pro-rata monthly basis including the month of addition/deletion.

Intangible:

Purchased software meant for in-house consumption is capitalized at the acquisition price.

Capital work –in- progress:

Capital work-in –progress is carried at cost, comprising direct cost, related incidental expenses and attributable interest. Preoperative expenditure is allocated to fixed assets at the time of completion of the project.

f. Impairment of Assets

In accordance with AS 28 on “Impairment of Assets”, an asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Profit and Loss Account in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed, if there is a change in the estimate of recoverable amount. During the year the Company tested impairment of fixed assets as per the Accounting Standard 28 “Impairment of Assets” to identify impairment loss, if any. The realizable amount calculated as per net selling price for all the cash generating units was higher than the carrying values of such units. Accordingly, no impairment was required to be recognized during the year.

g. Investments

Long-term Investments are stated at acquisition cost individually, less provision for diminution. Provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

Gains or losses on disposal of investments are recognized in the Statement of Profit and Loss.

h. Inventories

The inventory has been valued as under:

- i Raw materials, Stores and spares are valued at the lower of cost and net realizable value. Cost includes cost of raw materials, transportation charges, and Store/Warehouse charges. The cost is determined on weighted average basis and excludes claimable levies and taxes.
- ii Work in progress is valued at the lower of cost and net realizable value proportionate to the stage of progress. The cost includes direct material, labour and appropriate portion of overheads.
- iii Finished goods are valued at lower of cost and net realizable value. The cost includes direct material; appropriate portion of overheads and includes excise duty and cess.
- iv By-products are valued at net realizable value.

i. Retirement benefits to employees

- i Retirement benefit in the form of provident fund is charged to the Profit and Loss account on accrual basis.
- ii Provision for Gratuity and Leave encashment is made on the basis of actuarial valuation at the end of the year in line with AS-15 (Revised). Gratuity and Leave encashment are unfunded liability.
- iii Superannuation for the Executives is contributed by way of subscription to the fund with the LIC of India and the same is charged to profit and loss account on accrual basis.

j. Accounting for Grants

The Company has fulfilled the obligations under the terms of the USAID Grant. In line with the generally accepted accounting principles, a sum of Rs.11.25 Lakh is being apportioned out of the grant to the Profit and Loss Account.

k. Foreign Currency Transactions:

Exchange differences arising on reporting of foreign currency monetary items at rates different from those at which they are initially recorded during the period, or reported in previous financial statements, in so far as they relate to the acquisition of a depreciable capital asset, are added to or deducted from the cost of the asset and are depreciated over the balance life of the asset.

Exchange differences arising on the settlement of the monetary items not covered above, or on reporting such monetary items of company at rates different from those at which they are initially recorded during the year or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

In relation to the forward contracts entered into to hedge the foreign currency risk of the underlying monetary assets / liabilities, the exchange difference is calculated as the difference between the foreign currency amount of the contract translated at the exchange rate at the reporting date, or the settlement date where the transaction is settled during the reporting period, and the corresponding foreign currency amount translated at the later of the date of inception of the forward exchange contract and the last reporting date. Such exchange differences are recognized in the profit and loss account in the reporting period in which the exchange rates change.

The premium or discount on all such contracts arising at the inception of each contract is amortized as income or expense over the life of the contract. Any profit or loss arising on the cancellation or renewal of forward contracts is recognized as income or as expense for the period.

Derivative contracts not covered under Accounting Standard 11 "The Effects of Changes in Foreign Exchange Rates", entered for hedging foreign currency fluctuations and interest rate risk are marked to market at each reporting date. Loss, if any, on such valuation is recognized in the Statement of Profit & Loss in that period and gains, if any, are not recognized as per the principle of prudence enunciated in Accounting Standard 1, "Disclosure of Accounting Policies" notified under the Companies (Accounting Standard) Rules, 2006 "as amended".

l. Borrowing Costs

Borrowing costs that are attributable to the acquisition of or construction of qualifying assets are capitalized as part of the cost of such assets up to the date of capitalization. A qualifying asset is one that necessarily takes substantial time to get ready for its intended use. All other borrowing costs are expensed in the period they occur. Borrowing costs includes interest and ancillary costs incurred in connection with the arrangement of borrowings.

m. Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when there is a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made.

Provisions are not discounted to its present value and are determined based on Management estimate of amounts required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current Management estimates.

Contingent liabilities are not recognized in the financial statements. Contingent assets are neither recognized nor disclosed in the financial statements

n. Lease

Where the Company has substantially acquired all risks and rewards of ownership of the assets, leases are classified as financial lease. Such assets are capitalized at the inception of the lease, at the lower of fair value or present value of minimum lease payment and liability is created for an equivalent amount. Each lease rental paid is allocated between liability and interest cost so as to obtain constant periodic rate of interest on the outstanding liability for each year.

Where significant portion of risks and reward of ownership of assets acquired under lease are retained by lessor, leases are classified as Operating lease. Equalized lease rentals for such leases are charged to Profit & Loss account. Lease payments under operating leases are recognized as an expense on a straight line basis in the Statement of profit and loss over the lease term.

Notes to the financial Statements for the year ended 31st March 2016

o. Taxation

Tax expense comprises current and deferred tax. Provision for current income tax is made on the assessable income at the tax rate applicable to the relevant assessment year. Deferred income taxes are recognized for the future tax consequences attributable to timing differences between the financial statement determination of income and their recognition for tax purposes.

The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the income statement using the tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. If the company has unabsorbed depreciation or carry forward tax losses, deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that such deferred tax assets can be realized against future taxable profits.

Minimum Alternative Tax ('MAT') credit is recognized, as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement.

p. Earnings per Share ("EPS")

The earnings considered in ascertaining the company's earnings per share comprise the net profit after tax. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of shares, if any, which would have been issued on the conversion of all dilutive potential equity shares.

25.4.12 Segment Reporting

The Company has disclosed Business Segment as the primary segment. Segments have been identified taking into account the nature of the products, the differing risks and returns, the organization structure and internal reporting system.

The Company's operations predominantly relate to manufacture of Sugar, Co-Generation of power and production of Industrial Alcohol. Other business segments reported are Distillery and Power. Sugar segment includes molasses and other by-products.

Segment Revenue, Segment Results, Segment Assets and Segment Liabilities include the respective amounts identifiable to each of the segment as also amounts allocated on a reasonable basis.

The expenses, which are not directly attributable to the business segment, are shown as unallocated corporate cost.

Assets and Liabilities that cannot be allocated between the segments are shown as part of unallocated corporate assets and liabilities respectively.

Inter Segment Transfer Pricing Policy – (i) The molasses supplied to Distillery segment is based on average market price. (ii) Power used by other segments is based on 90% of the market price.
