Management Discussion and Analysis Report

The sugar industry is an important agro-based industry that impacts the livelihood of about 50 million sugar cane farmers and around 5 lakh workers directly employed in the sugar mills, apart from those employed in various ancillary activities including farm labour and transporters.

The Sugar stocks situation in the country is comfortable and is sufficient to cater domestic demand. The Sugar season 2016-17 started with a pretty high opening balance of 77.5 lakh tons, which has effectively set-off fears of any sugar shortage. With the import of 5.00 lakh tons of sugar, the sugar availability in the country during the season, is expected to be at 285.5 Lakh tons (77.5 lakh tons opening balance, 203 lakh tones estimated sugar production for the year 2016-17 and 5 lakh tons of sugar import). This will leave a comfortable opening balance for 2017-18 (Starting from November) at around 43 lakh tons of sugar after a domestic consumption of 242.5 lakh tons. The detail of last 5 years production is as under

Year	Production in million tonnes
2011-12	26.3
2012-13	25.1
2013-14	24.4
2014-15	28.4
2015-16	20.3

Although it is too early to estimate sugar production numbers for 2017-18 sugar season, reports show that there are signs of good sowing and good water availability for 2017-18 sugar season, which will lead to bigger cane crop and sugar production in 2017-18, as compared to 2016-17 sugar season.

The sugarcane price paid by the Indian sugar mills to their farmers as compared to the sugarcane price paid by other major sugar producing countries like, Brazil, Thailand, and Australia etc is approximately 50 % to 60% higher. Further, a comparison with other competing crops in India like paddy, wheat, cotton, soya bean etc. would confirm that the sugarcane prices have been increased at a substantially higher rate than others over the past decade, resulting in 50-60% higher remuneration to the cane farmers when compared to the remuneration from other similar staple crop. (Source ISMA Journal)

The Central Government fixed Fair & Remunerative Price (FRP) for the season 2016-17 at Rs 230/- per quintal at a recovery of 9.5 % and Rs 2.42 for every additional recovery of 0.1%. For the season 2017-18, the Central Government has fixed Fair & Remunerative Price (FRP) at Rs 255/- per quintal for the season 2017-18 linked to a basic recovery rate of 9.5 % subject to premium of Rs 2.68 per quintal for every 0.1% increase in recovery. The approved FRP reflects an increase of 10.87% over the FRP of the sugar season 2016-17.

There is a need to have single pricing formula throughout the country rather than having Fair & Remunerative Price (FRP) or State Advised Price (SAP)

At present sugar industry is reeling under high price of sugar cane fixed both by the Central Government and some state Governments, have become a burden on the sugar industry in India. High Sugarcane costs which account for the bulk of cost of production, have made Indian sugar completely uncompetitive in the Global market, thereby eliminating the possibility of exports in the international market.

The three Oil Manufacturing Companies viz Indian oil Corporation (IOC), Bharat Petrolium Corporation Limited (BPCL) & Hindustan Petroleum Corporation Limited (HPCL) had issued tenders for procuring around 2880 million liters of ethanol accumulatively for the current season which is ending November.

Owning to lack of enough cane for crushing, sugar mills have offered a lower amount of ethanol and Oil Manufacturing Companies have offered a lower amount of ethanol and OMCs have finalized contracts with sugar mills for 806.9 million liters.

The distillery continues to supply quota of Punjab Medium Liqour allotted to it by the Government of Punjab. The basic rate per case for 50 degree for the year 2017-18 are as under: Quart is Rs. 265.15, Pint is Rs. 287.68 & Nips is Rs. 348.28.

The company's projection on crushing of sugarcane for the next year 2017-18 is dependent on the prices of sugarcane & finished sugar, which are not viable in the present scenario

The company will supply the entire quota of Punjab Medium Liquor allotted to the distillery by the Government of Punjab and it will endeavor to sell free quota also.

Risk and Concern

The steep escalation in the prices of sugarcane & raw materials will adversely affect profitability of sugar mill & other products of the company

Competition from the other distilleries in the state of Punjab may affect the sale of Country Liquor.

Internal Control System & their Adequacy

The auditor have felt that the company has a reasonable system of authorization at proper levels with necessary controls on the purchase of sugar cane, issue of materials and components & other related system of internal control is commensurate with the size of the company. They also felt that the company has a reasonable system of recording receipts of raw materials and components and the company is recording the sales and purchase through the software The Software engineers regularly check software program me.

Material Development in HRD/IR

The company has appointed 5 persons as regular staff along with contractual & seasonal staff for the efficient working of all the units of the company.

"Annexure B'

"Annexure B" to the Independent Auditor's Report of even date on the Financial Statements of Piccadily Sugar & Allied Industries Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of Piccadily Sugar & Allied Industries Limited

We have audited the internal financial controls over financial reporting of Piccadily Sugar & Allied Industries Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

PAYABLES & RECEIVABLES NOTE

Balance of certain sundry debtors, loans & advances (including capital advances), creditors and other process of confirmation/reconcilliation. The management is of the opinion that adjustment, in liabilities if any, arising out of such reconcilliation would not be material.

ADVANCES RECOVERABLE

In the opinion of the Board, the current assets, loans and advances are approximately of the value stated, if realized in the ordinary course of business. The provision for known liabilities is adequate and not in excess of amount reasonably necessary.
