## DIVIDEND

Your Directors are pleased to recommend Dividend of Rs. 7.00 per equity share of Rs. 10/- each (i.e. 70%) for the year ended 31<sup>st</sup> March, 2019 subject to approval of the shareholders at the ensuing annual general meeting as against the Dividend of Rs.8.00 per equity share of Rs.10/- each (i.e. 80%) paid for the year ended 31<sup>st</sup> March, 2018.

## OPERATIONS

- ❖ During the year under review, the revenue from dairy operations increased by 24.39% to Rs.6,646.57 lakhs as against Rs. 5,343.42 lakhs in the previous year. The growth is mainly in ice-cream mix, dessert mix and UHT milk;
- ❖ The operating profit (EBIDTA) of Rs. 1,288.96 lakhs recorded during the year is lower by 36.99% than the previous year. The profit after tax for the year was Rs. 1,138.73 lakhs as against Rs. 1,652.62 lakhs in the previous year. Though the dairy operations recorded highest ever operating margins and profit, the overall profitability for the Company as a whole is lower mainly on account of sharp fall in Other Income i.e. income arising out of surplus funds deployed in treasury operations. The erosion of market value of some of the securities and recording of the securities on mark-to-market as on March 31, 2019 led to drop in profitability;
- ❖ The production of dairy milk & milk products during the year has grown by 31.76% to 9,700 KL as against 7,362 KL in the previous year;
- ❖ Raw milk prices remained relatively stable during the year. The input costs, mainly of utilities, stores and chemicals in dairy business, were marginally higher during the year. However, the same were more than offset by increased realization of end product prices leading to higher margins;
- ❖ In the case of Real Estate, revenue from left-over commercial shops/plots in Gagan Enclave Extension amounted to Rs.164.52 lakhs (Rs. 92.90 lakhs). The real estate segment is being enlarged to include hospitality also and as a first step in this direction, the existing three storey property of the Company constructed on 500

sq.mtrs. plot of land at Haridwar is being upgraded and refurbished so as to run it as Boutique Guest House on commercial basis with quality food and other facilities & amenities. This property which is likely to be operationalized in the current year is ideally suited for individuals looking to spend time on the banks of Holi Ganges or family(ies) wanting a home away from home while visiting Haridwar, Rishikesh or Dehradun;

- ❖ The Company has deployed surplus funds in treasury operations. The Other Income during the year was Rs.1,052.72 lakhs as against Rs. 2,324.31 lakhs in the previous year recording a decrease of 54.71%. The treasury operations of the Company continued to focus on deployment of surplus liquidity within a well defined risk management framework.

## THE MANAGEMENT DISCUSSION & ANALYSIS

As required by Regulation 34(2) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR"), Management Discussion and Analysis Report for the year ended 31.03.2019 is appended.

## FINANCE

### (i) Share Capital

The paid-up Equity Share Capital as on 31<sup>st</sup> March, 2019 was Rs.321.32 lakhs. During the year under review, the Company has not issued shares with differential voting rights nor granted stock options nor sweat equity.

### (ii) Fixed Deposits

Your Company has not accepted any public deposits under Chapter 4 of the Companies Act, 2013 ("the Act"). As such, no amount of principal or interest on deposits from the public was outstanding as on the date of the Balance Sheet.

### (iii) Particulars of loans, guarantees or investments

Particulars of loans, guarantees and investments covered under the provisions of Section 186 of the Act, are given in the Notes to the Financial Statements.

## **CORPORATE GOVERNANCE**

The Company is committed to uphold the highest standard of corporate governance and believes that business relationship can be strengthened through corporate fairness, transparency and accountability. ## MANAGEMENT DISCUSSION & ANALYSIS

### 1. ECONOMIC & BUSINESS ENVIRONMENT

The Indian economy continued to strengthen in 2018-19, reclaiming its position as world's fastest growing economy. Macro-economic policies and structural reforms alongwith improved consumer sentiments and strengthened economic growth led to revival post temporary disruption caused due to demonetization and introduction of Goods & Services Tax (GST). The impact of the structural reforms are reflected in the World Bank's 'Ease of Doing Business' Report for 2019 where India climbed 23 places to rank 77<sup>th</sup> among the 190 countries surveyed making it the only country to place among the top ten most improved countries for the second consecutive year. This improvement in India's ranking will further strengthen the Government's reformist credentials.

India's GDP is estimated to have grown by 7.2% in the current fiscal ended 31<sup>st</sup> March, 2019. Though the GDP numbers for the 4<sup>th</sup> quarter of FY 2018-19 indicate quasi-slow down, there is no need to press the panic button. Growth in India continues to be underpinned by robust private consumption, expansionary fiscal stance and benefits from previous reforms. With a clear mandate for the government, a mix of both monetary and fiscal policy could propel economic growth higher in the short to medium term. However, the long-term objective certainly calls for structural changes in the economy, especially in the agriculture and manufacturing sectors.

On the trade front, exports could remain a question mark due to growing global protectionism and India's fundamental lack of competitiveness in many sectors. A strong focus on competitiveness and productivity as a country-wide initiative is much needed. While the Government of India through its initiatives such as 'Make in India', 'Start-up India' and 'Digital India' is providing an environment to give boost to manufacturing, self-employment and digital infrastructure, the drag on competitiveness such as land, labour, capital and power, need significant reforms to bring India into the contention for becoming a manufacturing destination of reckoning in the light of competition from other fast-growing emerging economies.

### 2. BUSINESS SEGMENT-WISE ANALYSIS

#### 2.1 SEGMENT - DAIRY

##### (a) Industry structure and development

India has been the leading producer and consumer of dairy products worldwide with a sustained growth in the availability of milk and milk products. Dairy activities form an essential part of rural Indian economy, serving as an important source of employment and income. Since most of the rural India depends on agriculture which is prone to the vagaries of nature, such as droughts and floods, dairying is an important secondary source of income for millions of homes in villages. Often, one or two milch animals, allow these farmers to generate sufficient income and provide year-round stability, especially in the years of drought. According to a latest research report, with annual production of 169 million tonnes, India is a largest producer of milk in the world. Due to their rich nutritional qualities, dairy products' consumption has been growing exponentially in the country. The milk production in India is estimated to grow at CAGR of 14% in terms of value. Rising urbanization, changes in consumption lifestyles, higher disposable income, higher proportion of working women and increasing youth population is boosting the dairy industry. Indian dairy industry thus offers good opportunity to both domestic and foreign investors for entry and expansion.

Government is progressively taking initiatives to promote dairy industry in India. For instance, the “National Dairy Programme” aims to improve cattle productivity and increase the production of milk, expand and strengthen rural milk procurement infrastructure and to provide greater market access to the farmers. On the other hand, the private participation in the Indian dairy sector has also increased over the past few years. Both national and international players have entered the dairy industry, attracted by the size and potential of the Indian dairy market. The focus now is on value-added products such as cheese, yogurt, probiotic drinks etc.

India’s monthly per capita expenditure and the consumption of milk and milk based products is also growing steadily and is now comparable to the world average. On an average, dairy products account for 19% of the household expenditure. However, India’s per capita milk consumption is lower than the other major milk markets. Led by urbanization, higher disposable income and changing consumer habits, the per capita consumption is estimated to rise in the years to come.

**(b) Opportunities and threats**

The growth of Indian dairy industry during the last three decades has been impressive, as a result of which, India has emerged as the largest producer of milk. In India, the cooperatives and private dairies have access to only about 30% of the milk produced; approximately 30% of the milk is sold in the unorganized market while 40% is consumed locally. This is in comparison to the most of the developed nations where almost 90% of the milk passes through the organized sector.

Among the value-added products, ice-cream and cheese are the fastest growing segments of the dairy/food processing industry. The ice-cream market is growing at a rate of 15-20% year on year. To take advantage of this growing market, your Company’s product, ‘Ice-cream Mix’ is now being distributed in the market nationally besides catering to the requirement of various QSRs like Burger King, McDonald’s etc.

**(c) Segmental Review**

The production of dairy milk & milk products during the year has grown by 31.76% to 9,700 KL as against 7,362 KL in the previous year. The increase in production is mainly in ice-cream mix, Dessert Mix and UHT milk. The Dairy Division’s revenue from operations increased by 24.39% to Rs.6,646.57 lakhs as against Rs. 5,343.42 lakhs in the previous year. The operating profit (EBIDTA) increased to Rs.1,096.82 lakhs as against Rs. 791.97 lakhs in the previous year.

**(d) Risks and concerns**

Organized dairy industry handles only around 30% of the milk produced. Cost effective technologies and quality control measures are seldom exercised in un-organized sector and remain as key issues to be addressed. Milk, which is perishable, needs efficient cold chain management that can be provided by organized players as the same involves more capital investment. Continuous availability of good quality feed and scientifically tested and properly managed animal husbandry practices play a vital role in improving milk yields.

Your Company is continuously developing innovative value added products of high quality and hygiene standards which are finding acceptance through QSRs and also in open market.

**(e) Outlook**

The Indian Dairy Industry is growing on a fast track. India is world’s largest milk producer and has a potential to become a leading supplier and exporter of milk and milk products. Milk production is

skill intensive and labour intensive. Due to low labour costs, the cost of milk is significantly lower in India. Investments have been made in milk procurement, equipment, chilling and refrigeration facilities to improve the quality and bring dairy production to international standards.

The Dairy Division of the Company has segmentized its business into retail, institutions and food services with a view to increase market penetration, open new upcoming markets, special thrust on food services segment and constant liaison with institutional clients and QSRs. Dairy Division is now focussing on high value specialty products in addition to increase in ice-cream mix production for nationwide distribution.

## **2.2 SEGMENT – REAL ESTATE**

In the case of real estate, the Company has been able to liquidate some of the inventory of commercial shops in the Gagan Enclave Extension project. No major project has been taken up during the year nor is proposed to be taken up in the foreseeable future.

The real estate segment is being enlarged to include hospitality also and as a first step in this direction, the existing three storey property of the Company constructed on 500 sq.mtrs. plot of land at Haridwar is being upgraded and refurbished so as to run it as Boutique Guest House on commercial basis with quality food and other facilities & amenities. This property which is likely to be operationalized in the current year is ideally suited for individuals looking to spend time on the banks of Holi Ganges or family(ies) wanting a home away from home while visiting Haridwar, Rishikesh or Dehradun.

## **2.3 SEGMENT – SERVICES/TREASURY OPERATIONS**

During the year, your Company's treasury operations continued to focus on deployment of surplus funds within a well-defined risk management frame-work.

All investment decisions relating to deployment of surplus funds continued to be guided by the tenets of Safety, Liquidity and Return. Your Company's risk management processes ensured that all deployments are made with proper evaluation of the underlying risk while remaining focused on capturing market opportunities.

## **2. COMPANY'S FINANCIAL PERFORMANCE & ANALYSIS**

During the year under review, the revenue from operations increased by 25.29% to Rs. 6,811.09 lakhs as against Rs. 5,436.32 lakhs in the previous year. The growth is primarily on account of higher volumes and prices of dairy milk/milk products. The operating profit (EBIDTA) of Rs. 1,288.96 lakhs recorded during the year is lower by 36.99% than the previous year. The profit after tax for the year was Rs. 1,138.73 lakhs as against Rs. 1,652.62 lakhs in the previous year;

## **3. INTERNAL CONTROL SYSTEMS**

Your Company has evolved a system of internal controls to ensure that the assets are safeguarded and transactions are authorised, recorded and correctly reported. The internal control system is supplemented by management reviews and independent periodical reviews by the outside chartered accountancy firms which evaluate the functioning and quality of internal controls and provides assurance of its adequacy and effectiveness. The scope of internal audit covers a wide variety of operational methods and, as a minimum, ensures compliance with specified standards with regard to availability and suitability of policies and procedures, extent of adherence, reliability of management information system and authorization procedures including steps for safeguarding of assets. The reports of internal audit are placed before Audit Committee of the Directors. Audit Committee reviews such audit findings and the adequacy of internal control systems.

The Statutory Auditors and the Internal Auditors of the Company also interact with the Audit Committee to share their findings and the status of corrective actions under implementation.

**4. HUMAN RESOURCES**

The Company lays great emphasis on proper management of human resources and believes that this is the most important ingredient for achieving excellence in performance and sustainable growth. The management constantly reviews the skill mix and takes appropriate steps to achieve desired skill mix. For upgrading the skill, special emphasis is laid on training. Selective and intensive training is being imparted to employees at various levels.

**5. CAUTIONARY STATEMENT**

*Statements in the Board's Report and the Management Discussion & Analysis describing the Company's objectives, expectations or forecasts may be forward-looking within the meaning of applicable securities laws and regulations. Actual results may differ materially from those expressed in the statement. Important factors that could influence the Company's operations include global and domestic demand and supply conditions affecting selling prices, changes in government regulations, tax laws, economic development regulations, tax laws, economic developments within the country and other factors such as litigation and industrial relations.*

### Whistle Blower Policy

The Company has been formulated Whistle Blower Policy to establish a Vigil Mechanism for directors and employees of the Company.

This Policy covers malpractices and events which have taken place, suspected to have taken place, misuse or abuse of authority, fraud or suspected fraud, violation of company rules, manipulations, negligence causing danger to public health and safety, misappropriation of monies and other matters or activity on account of which the interest of the company is affected and formally reported by whistle blowers. This Policy is intended to encourage and enable employees to raise serious concerns within the Company prior to seeking resolution outside the company.

The purpose and objective of this Policy is to provide a framework to promote responsible and secure whistle blowing. It protects the employees wishing to raise a concern about serious irregularities within the Company. The Company encourages its directors and employees who have genuine concern about suspected misconduct to come forward and express these concerns without fear of punishment or unfair treatment. A Vigil (Whistle Blower) Mechanism provides a channel to the employees and directors to report to the management concerns about unethical behaviour, actual or suspected fraud or violation of the Code of Conduct or policy. The mechanism provides for adequate safeguards against victimization of employees and directors to avail of the mechanism and also provide for direct access to the Chairperson of the Audit Committee in exceptional cases.

This policy, however, neither releases employees from their duty of confidentiality in the course of their work nor can it be used as a route for raising malicious or unfounded allegations against people in authority and/ or colleagues in general. It is affirmed that no personnel has been denied access to the Audit Committee.

The Whistle Blower Policy of the Company has been uploaded and can be viewed on the Company's website [www.amritcorp.com](http://www.amritcorp.com).

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period.

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

#### (1) Key Audit Matter:

Adoption of Ind AS 115 "Revenue from Contract with Customers" (new revenue recognition standard) **Refer notes to accounts 2(j)**

#### Auditor's Response:

- (a) Impact of adoption of new revenue recognition standard on the company is evaluated by us.
- (b) We evaluated the company's policy and design of internal controls relating to new revenue recognition standard.
- (c) We selected a sample of contracts to assess the existence of distinct performance obligations, variable considerations and determination of transaction price.

#### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Director's Report, Report on Corporate Governance and General Shareholders Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably

be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the

disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the **Annexure 'A'** statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

#### **Annexure 'B' to Independent Auditors' Report**

**Referred to in Paragraph 2 (f) under the heading of "report on other legal and regulatory requirements" of our report of even date**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of AMRIT CORP. LIMITED ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on internal policies & procedures, accounting records and essential components on the internal control

over financial reporting criteria established by the Company as per Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the Company's internal policies & procedures and accounting records and implementation of essential components on the internal controls over financial reporting.

## NOTES TO ACCOUNTS FORMING PART OF FINANCIAL STATEMENTS

### 1. Corporate information

Amrit Corp. Limited (the Company) is a public limited Company incorporated and domiciled in India and has its Registered office in Ghaziabad, State of Uttar Pradesh, India. The Company has its primary listings on the BSE Limited. The Company is engaged in producing & distributing of Milk Products; development/ sale of Real Estate projects / hospitality and Services/ treasury.

### 2. Significant accounting policies

#### i) Basis of preparation of financial statements

(a) **Compliance with Ind AS :-** The financial statements have been prepared in compliance with all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. The financial statements up to year ended March 31, 2017 were prepared in accordance with the Accounting Standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act ("Previous GAAP or IGAAP"). The Financial statements for the financial year 2017-2018 are the first financial statement of the Company under Ind AS.

(b) **Historical Cost Convention:-** These financial statements have been prepared on a historical cost basis, except as disclosed in the accounting policies below:

- Certain financial assets and liabilities are measured at fair value; and
- Defined Benefit Plans - plan assets measured at fair value.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Division II of Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current / non-current classification of assets and liabilities.

#### ii) Summary of Significant accounting policy

##### (a) Use of estimates

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

##### (b) Property, plant and equipment (PPE)

###### A. Tangible Assets

Property, plant and equipment are stated at historical cost less depreciation and impairment loss, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. The cost of assets under installation or under construction also includes direct expenses incurred till the Balance Sheet date and is shown as capital work-in-progress.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

**Transition to Ind AS:**

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

**Depreciation methods, estimated useful lives and residual value:**

- I. Depreciation is provided on the straight line method, as per the useful life of the assets specified in Schedule II of the Act or based on technical estimate made by the Company.
- II. Where cost of a part of the asset is significant to total cost of the asset and useful life of that part is different from the useful life of the remaining asset, useful life of that significant part is determined separately based on technical estimate made by the Company. The significant assets identified are depreciated separately.
- III. In respect of assets added/ sold, discarded, demolished or destroyed during the year depreciation on such assets is calculated on a pro-rata basis from the date of such additions or as the case may be, up to the date on which such asset has been sold, discarded, demolished or destroyed.
- IV. The Company has estimated the residual value @ 5% of original cost for all assets. Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate. The Management estimates the useful lives for the assets as follows:

Particulars	No. of Years
Administrative Building	60 years
Plant and Machinery(*)	10-20 years
Office equipment	5 years
Computer	3 years
Furniture and fixtures	10 years
Vehicles	8 years
Electric Installation	10 years
Tubewells	5 years
Server	6 years
Solar Power Plant	15 years

\*Based on internal technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

### **(c) Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of brands acquired comprises its purchase price, including any duties and other taxes (other than those subsequently recoverable by the enterprise from the taxing authorities) and any directly attributable expenditure on their acquisition.

In the case of computer software, the cost of software purchased, comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable by the enterprise from the taxing authorities) and any directly attributable expenditure on making the software ready for its use. Any trade discounts and rebates are deducted in arriving at the cost. Intangible assets i.e. computer software is amortized over a period of 36 months subsequent to its purchase on straight line basis.

#### **Transition to Ind AS:**

On transition to Ind AS, the Company has elected to continue with the carrying value of all of intangible assets recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Expenditure on research is recognized as an expense when it is incurred. Development costs of products are also charged to the Statement of Profit and Loss unless all the criteria for capitalization as set out on Paragraph 21 and 22 of Ind AS 38 have been met by the Company.

### **(d) Impairment of assets**

At each balance sheet date, the Company reviews the carrying value of assets for any possible impairment. An impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is determined as higher of the asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the levels for which there are separately identifiable cash flows. Assessment is done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting period may no longer exist or may have decreased. An impairment loss is reversed to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

### **(e) Inventories**

#### **(i) Finished Good**

- (a)** Stock of manufactured finished goods is valued at cost or at market value, whichever is lower. In the case of finished goods, cost is determined by taking material, labour and related factory overheads including depreciation and fixed production overheads, which are apportioned on the basis of normal capacity.

#### **(ii) Work-in-progress**

- (a)** Work in progress is valued at raw material cost plus cost directly incurred till the date of balance sheet.
- (b)** Property Development and construction-related work -in -progress is valued at cost of land plus cost directly incurred till the date of balance sheet.

- (iii) Raw material, stores, spares and loose tools are valued at cost. Cost is determined by using the yearly weighted average method.
- (iv) Stock in trades are valued at cost or at market value, whichever is lower. The cost in such cases is valued at the purchase cost using FIFO method.

**(f) Foreign exchange transactions and translation**

Transactions in foreign currencies i.e. other than the Company's functional currency of Indian Rupees are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognized in profit or loss in the period in which they arise except for exchange differences on transactions entered into in order to hedge certain foreign currency risks.

**(g) Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use while pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: The fair value of financial instruments that are quoted in active markets are determined on the basis of quoted price for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market are determined on the basis of net asset value as per last available audited financial statements.

Level 3: If one or more of the significant inputs is not based on observable market data, the fair value is determined using discounted cash flow method with the most significant inputs being the discount rate that reflects the credit risk of the counter-party.

The fair value of trade receivables, trade payables and other current financial assets and liabilities is considered to be equal to the carrying amounts of these items due to their short-term nature.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuer's are involved for valuation of significant assets, liabilities, such as, Gratuity etc.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions - Note 43

**(h) Financial Assets:**

**(i) Initial recognition and measurement**

The financial assets not recorded at fair value through profit or loss are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed through the Statement of Profit and Loss.

**(ii) Subsequent measurement**

For purposes of subsequent measurement, the Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in Statement of Profit and Loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through profit & loss.

**Debt instruments**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

**- Amortised cost**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in Statement of Profit and Loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

- **Fair value through Other Comprehensive Income (FVOCI)**

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses and interest revenue which are recognised in Statement of Profit and Loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to Statement of Profit and Loss. Interest income from these financial assets is included in other income using the effective interest rate method.

- **Fair value through Profit or Loss (FVTPL)**

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through Profit or Loss is recognised in the Statement of Profit and Loss in the period in which it arises. Interest income from these financial assets is included in other income.

**(iii) Derecognition**

A financial asset is derecognised only when:

- the rights to receive cash flows from the financial asset have expired, or
- the Company has transferred its rights to receive cash flows from the financial asset or has assumed an obligation to pay the received cash flows to one or more recipient.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

**(i) Financial Liabilities**

- i. **Classification as liability or equity:** Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.
- ii. **Initial recognition and measurement:** Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit or loss.
- iii. **Subsequent measurement:** Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.
- iv. **Derecognition:** A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

### **Trade and other payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are usually unsecured. Trade and other payables are presented as current liabilities unless payment is not due within twelve months after the reporting period. They are recognised initially at their fair value.

### **Provisions**

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best management estimate required to settle the obligation at each Balance Sheet date. These are reviewed at each Balance Sheet date and are adjusted to reflect the current best management estimates.

### **Contingent Liability**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or nonoccurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

## **(j) Revenue recognition**

### **i. Sale of goods**

Revenue is recognised when an entity transfers the control of goods to customers at an amount that the entity expects to receive in exchange for those goods. Volume discounts and incentives to customers are accounted for as reduction of revenue based on the allocation of the discounts/incentives amount to each of the underlying performance obligation. when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

### **ii. Interest income**

Interest income from debt instruments is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. While calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

### **iii. Rental income**

Rental income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with

expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

**iv. Dividend Income**

Dividends from investments are recognized in profit or loss when the right to receive payment is established.

**(k) Retirement and Other Employee Benefits**

**(a) Short Term Employee Benefits**

All employee benefits falling due wholly within twelve months of rendering service are classified as short term employee benefits. Benefits like salaries, wages, short term compensated absences etc. and the expected cost of bonus, ex-gratia are recognized in the period in which the employee renders the related service.

**(b) Post-Employment Benefits**

(i) **Defined Contribution Plans:** The State governed provident fund scheme, employee state insurance scheme and employee pension scheme under the PF Act are defined contribution plans. The contribution paid/payable under the schemes is recognized during the period in which the employee renders the related service.

(ii) **Defined Benefit Plans:** Defined benefit plans of the company comprise employee's gratuity fund schemes managed by a Trust/SBI Life and Employees Provident Fund for senior employees managed by the Trust. The Provident Fund Trust set up by the company is treated as defined benefit plan since the minimum interest payable by the Provident Fund Trust to the beneficiaries is notified every year by the Government and the company has an obligation to make good the shortfall, if any, between the return on respective investments of the Trust and the notified interest rate. Accordingly, the contribution paid or payable and the interest shortfall, if any, is recognized as an expense in the period in which the services are rendered by the employee.

Wherever applicable, the present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on Government securities as at the Balance Sheet date, having maturity periods approximating to the terms of related obligations.

Remeasurement of defined benefit plans, comprising of actuarial gains or losses are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Re-measurements are not reclassified to profit or loss in subsequent period.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognize the obligation on net basis.

Gains or losses on the curtailment or settlement of any defined benefit plan are recognized when the curtailment or settlement occurs.

**(c) Long Term Employee Benefits**

Entitlements to annual leave, casual leave and sick leave are recognized when they accrue to employees. Sick leave and casual leave can be availed during the period while earned leave can be availed or encashed once it exceeds maximum number of accumulation of leave. The company determines the liability for such accumulated leave using the projected unit credit method with actuarial valuation being carried out at each Balance Sheet date in the similar manner as in the case of defined benefit plans as mentioned in (b) (ii) above.

- (d) The company does not en-cash leave which has been accumulated up to specified period. Such leaves have been classified as long term employee benefits. Such leave accumulated at each accounting period are carried forward to the next accounting period. Leave other than specified leave is encashable. There are no other en-cashable short term benefits. The other staff benefit schemes will be provided according to respective laws in respect of employees as and when these schemes will become applicable to the company.

**(l) Income taxes**

**(i) Current tax**

Current tax is determined as the amount of tax payable in respect of taxable income for the year. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Minimum Alternate Tax ("MAT") paid in accordance with tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the company will pay normal tax in future. MAT credit entitlement can be carried forward and utilized for a period of ten years from the year in which it is availed. Accordingly, it is recognized as an asset in the Balance Sheet when it is probable that the future economic benefit associated with it will flow to the company and the asset can be measured reliably.

**(ii) Deferred tax**

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

#### **Deferred tax for the year**

Deferred tax is recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case, the deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

#### **(m) Borrowing Costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

#### **(n) Cash Flow Statement**

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated. The cash flow statement is part of financial statements of the company.

#### **(o) Earnings Per share**

##### **i. Basic Earnings per Share**

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company.
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

##### **ii. Diluted Earnings per share**

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

#### **(p) Segment Reporting**

##### **(i) Operating Segments**

Based on the guiding principles given in Ind-AS-108, the Company's reportable segments include milk/milk products (i.e. manufacture and distribution of dairy milk & milk products), real estate & hospitality and services. The Company's organizational structure and governance process are designed to support effective management of multiple business segments while retaining focus on each of them. The operating segments are reported in a manner consistent with the internal reporting provided to the Corporates Review Committee which is the Chief Operating Decision Maker.

(ii) **Geographical Information**

Since the company's activities/operations are within the country and considering the nature of products it deals in, the risks and returns are the same and as such, there is only one geographical segment.

(iii) **Segment Accounting Policies**

In addition to significant accounting policies applicable to the business segments, the accounting policies in relation to segment accounting are as under:

a. **Segment revenue and expenses**

The revenue and expenses of segments are directly attributable to the segments.

b. **Segment assets and liabilities**

Segment assets include all operating assets used by a segment and consist principally of operating cash, debtors, inventories and fixed assets net of allowances and provisions which are reported as direct offsets in the balance sheet. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities. Segment assets do not include income tax assets and interest bearing assets. Segment liabilities do not include interest bearing liabilities and income-tax liabilities.

(q) **Leases**

**As a Lessee**

Leases of property, plant and equipment where the Company, as lessee, has substantially transferred all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

### Valuation of Inventories

#### (i) Finished Goods:

- (a) Stock of manufactured finished goods is valued at cost or at market value, whichever is lower. In the case of finished goods, cost is determined by taking material, labour and related factory overheads including depreciation and fixed production overheads, which are apportioned on the basis of normal capacity.

#### (ii) Work in Progress

- (a) Work in progress is valued at raw material cost plus cost directly incurred till the date of balance sheet.
- (b) Property Development and construction-related work-in-progress is valued at cost of land plus cost directly incurred till the date of balance sheet.
- (iii) Raw material, stores, spares and loose tools are valued at cost, cost is determined by using the yearly weighted average method.
- (iv) Stock in trades are valued at cost or at market value, whichever is lower. The cost in such cases is valued at the purchase cost using FIFO method.

36. The Company continues to have an exposure of Rs. 57.17 Lakhs on account of commodity trade done on National Spot Exchange Ltd. (NSEL). NSEL has not been able to adhere to its payment obligations. The Company has filed criminal complaint in Economic Offences Wing (EOW), Delhi Police through M/s Mount Shikhar Commodities LLP (formerly known as Mount Shikhar Commodities Pvt. Ltd.), Member – NSEL, which has been transferred to CBI, Mumbai. NSEL and its holding company, Financial Technologies (India) Ltd., name now changed to “63 Moons Technologies Ltd.” (“63 Moons”) have been involved in litigations at various legal and other forums, including Supreme Court of India, Bombay High Court, NCLT, CBI (EOW), SFIO etc. Orders were passed for amalgamation of NSEL with its holding company and restraining the holding company from selling/alienating or creating third party rights against its assets and investments, which have been challenged at higher forums. In a recent order dated 30<sup>th</sup> April, 2019, the Hon’ble Supreme Court of India has set aside the judgment of Bombay High Court of December 4, 2017 which approved the merger of scam tainted NSEL with its parent, 63 Moons. After this judgment, there are serious question marks on the recovery of investors’ money. In view of uncertainty of recovery, the Company made full provision of Rs. 57.80 Lakhs towards the above due in the financial year 2013-2014. In the course of time, some recoveries have been made which have been adjusted from the provision of Rs. 57.80 lakhs and the amount outstanding as on 31.03.2019 stands at Rs. 57.17 Lakhs.

37. The auditors have issued letters of confirmation in duplicate to the major parties for trade receivables/payables, debtors, creditors & others for confirming their balances. Balance confirmations have been received from major parties, except some parties whose outstanding are not material and some of whom are in dispute and/or under litigation with the company. The balances of such parties have been incorporated in the financial statements at the value as per the books of account. The company, to the extent stated, has considered them as good and necessary provisions have been made in respect of debtors/advances under litigation and where recovery is considered doubtful.
38. The Company has taken certain commercial premises under Cancellable operating lease arrangements. The total aggregate Lease Rentals recognized as expense in the profit & loss account under cancellable operating lease is Rs. 44.14 Lakh & Rs. 46.10 Lakh (including indirect taxes) for the year ended 31<sup>st</sup> March, 2019 & 31<sup>st</sup> March, 2018 respectively. There is no lock in period of aforementioned operating leases as on 31<sup>st</sup> March, 2019 therefore the same are considered as cancellable operating leases and the disclosure under non cancellable operating leases as per Ind AS – 17 is not required to furnished.
39. The company has amounts due to suppliers under the Micro, Small and Medium Enterprises Development Act, 2006 (MSMED Act) as at 31.03.2019. The disclosure pursuant to the said Act is as under:

(Amt. in Lakhs)

S No.	Particulars	2018-19	2017-18

## 41. Segment reporting

### (a) Operating Segments

Based on the guiding principles given in Ind-AS-108, the Company's reportable segments include milk/milk products (i.e. manufacture and distribution of dairy milk & milk products), real estate & hospitality and services. The Company's organizational structure and governance process are designed to support effective management of multiple business segments while retaining focus on each of them. The operating segments are reported in a manner consistent with the internal reporting provided to the Corporates Review Committee which is the Chief Operating Decision Maker.

### (b) Geographical Information

Since the company's activities/operations are within the country and considering the nature of products it deals in, the risks and returns are the same and as such, there is only one geographical segment.

### (c) Segment Accounting Policies

In addition to significant accounting policies applicable to the business segments, the accounting policies in relation to segment accounting are as under:

#### (i) Segment revenue and expenses

The revenue and expenses of segments are directly attributable to the segments.

#### (ii) Segment assets and liabilities

Segment assets include all operating assets used by a segment and consist principally of operating cash, debtors, inventories and fixed assets net of allowances and provisions which are reported as direct offsets in the balance sheet. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities. Segment assets do not include income tax assets and interest bearing assets. Segment liabilities do not include interest bearing liabilities and income-tax liabilities.

**B.** Revenues from four customers of Milk/Milk Products reporting segment represent approximately Rs. 5,143.17 lakhs i.e 77.38% of the company's Milk/ Milk product segment total revenues.

**42. Employee Benefit Plan**

(i) The Company makes contributions to the provident fund and employees state insurance for eligible employees. Under these plans, the Company is required to contribute a specified percentage of payroll costs. The Company has recognized Rs. 64.14 Lakhs (previous year Rs. 55.96Lakhs) as expenses in the Statement of Profit and Loss during the year towards contribution to these funds.

Out of the total contributions made in provident fund, a sum of Rs. 21.66 Lakhs (previous year Rs. 19.25 Lakhs) is made to "Amrit Corp. Ltd. Employees Provident Fund Trust". The members of the Provident Fund Trust are entitled to the rate of interest declared by the Central Govt. under the Employees Provident Fund and Miscellaneous Provision Act, 1952. The shortfall, if any, is made good by the Company in the year in which it arises. The Trustees of the PF Trust are responsible for overall governance of the plan and to act in accordance with the provisions of the Trust Deed and the relevant provisions under the laws on the subject. The funds of the Provident Fund Trust have been invested in various securities in accordance with the pattern of investment prescribed by the Govt. of India.

(ii) The Company provides for the gratuity and leave encashment to eligible employees under the Defined Benefit Plans. The Gratuity Plan provides for a lump sum payment to employees upon vesting at retirement, death while in employment or on termination of employment. The gratuity vesting occurs upon completion of five years of service. The gratuity benefits are funded and leave encashment benefits are unfunded in nature.

The liability arising in the Defined Benefit Plans are determined in accordance with the advice of independent professionally qualified Actuary, using the projected unit credit method at the year-end. The Company makes contribution to the Amrit Corp, Ltd. Gratuity Fund Trust, the Trustees of which are responsible for the overall governance of the plan and go act in accordance with the provisions of the Trust Deed and the related laws on the subject.

The Trustees have appointed SBI Life Insurance Company Ltd. for managing the funds of the Trust and making the investment in securities in accordance with the investment pattern prescribed by the Govt. of India.

- (iii) The Defined Benefit Plans expose the Company to risk of actuarial deficit, interest rate risk and salary cost inflation risks. The investment risk may arise from volatility in asset values due to market fluctuations and impairment of assets due to credit losses. The interest rate risk may arise as the decrease in yield will increase the fund liability and vice-versa. Increase in salary due to adverse inflationary pressure might also lead to higher liabilities. The Trustees regularly monitor the funding and investments of these plans and risk mitigation system are in place to ensure that the health of the portfolio is regularly reviewed and investments do not pose any significant risk of the impairment.

## SENSITIVITY ANALYSIS

A quantitative sensitivity analysis for significant assumptions as at March 31, 2019 is as follows:

(Amt. in Lakhs)

PARTICULARS	INCREASE EFFECT	DECREASE EFFECT
Effect of increase / decrease in discount rate by 0.50% on defined benefit obligations	(5.85)	6.16
Effect of increase / decrease in salary escalation by 0.50% on defined benefit obligations	6.22	(5.96)
Effect of increase / decrease in withdrawal rate by 5% on defined benefit obligations	-	-

The Sensitivity Analysis above has been determined based on reasonably possible change of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. These sensitivities show the hypothetical impact of a change in each of the listed assumptions in isolation. While each of these sensitivities holds all other assumptions constant, in practice such assumptions rarely change in isolation and the asset value changes may offset the impact to some extent.

**43. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES**

**A. Capital Management**

The Company's capital management objective is to ensure that a sound capital base is maintained to support long term business growth and optimize shareholders value. Capital includes equity share capital and other equity reserves. The Company's operations are funded primarily through internal accruals. Return to shareholders through dividend is monitored as per the laid down dividend distribution policy.

### C. Fair value hierarchy

(Amt. in Lakhs)

Particulars	As at 31st March 2019	As at 31st March 2018
<b>I Financial Assets / Financial Liabilities at amortised cost</b>		
The carrying amount of financial assets and financial liabilities measured at amortised cost are a reasonable approximation of their fair values except Investments for which the fair value are as follows:		
Fair value of Investments measured at amortised cost	<b>6,265.31</b>	6,235.64
<b>II Financial assets at fair value through profit &amp; loss</b>		
Investment in Equity Shares, Mutual Funds (Level 1)	<b>7,809.00</b>	8,011.22
Investment in Equity Shares, Alternative Investment Funds (Equity), (Level 2)	<b>2,245.91</b>	2,192.68
Investment in Alternative Investment Funds (Debt), Loans (Level 3)	<b>162.43</b>	206.86
<b>III Financial assets at fair value through other comprehensive income</b>		
Investment in Preference Shares, Alternative Investment Funds (Real Estate), (Level 2)	<b>645.62</b>	939.70

The Company determines the fair value of its financial instruments on the basis of the following hierarchy:

Level 1: The fair value of financial instruments that are quoted in active markets are determined on the basis of quoted price for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market are determined on the basis of net asset value as per last available audited financial statements.

Level 3: If one or more of the significant inputs is not based on observable market data, the fair value is determined using discounted cash flow method with the most significant inputs being the discount rate that reflects the credit risk of the counter-party.

The fair value of trade receivables, trade payables and other current financial assets and liabilities is considered to be equal to the carrying amounts of these items due to their short-term nature.

### D. Financial Risk Management objectives

#### (i) Liquidity risk

Liquidity risk refers to risk that the Company may encounter difficulties in meeting its obligations associated with financial liabilities that are settled in cash or other financial assets. The Company regularly monitors the rolling forecasts to ensure that sufficient liquidity is maintained on an ongoing basis to meet operational needs. The Company manages the liquidity risk by planning the investments in a manner such that the desired quantum of funds could be made available to meet any of the business requirements within a

reasonable period of time. In addition, the Company also maintains flexibility in arranging the funds by maintaining committed credit lines with bank(s) to meet the obligations.

**(ii) Credit risk**

Credit risk refers to risk of financial loss to the Company if a customer or a counter-party fails to meet its contractual obligations. The Company has following categories of financial assets that are subject to credit risk evaluation.

**Investments**

The Company has made investments in tax free long term bonds, short term bonds, deposit with banks, mutual funds etc. Funds are invested in accordance with the Company's established Investment policy that includes parameters of safety, liquidity and post tax returns. Company avoids the concentration of credit risk by spreading them over several counterparties with good credit rating profile and sound financial position. The Company's exposure and credit ratings of its counterparties are monitored on an ongoing basis. Based on historical experience and credit profiles of counterparties, the company does not expect any significant risk of default except as provided in the financial statements.

**Trade receivables**

Credit risk arising from trade receivables is managed in accordance with the Company's established policy with regard to credit limits, control and approval procedures. The Company provides for expected credit losses on trade receivables based on a simplified approach as per Ind AS 109. The Company's historical experience of collecting receivable indicate that credit risk is low, consequently trade receivables are considered to be a single class of financial assets. All overdue customer balances are evaluated taking into account the age of the dues, track record of the counter party etc. Loss allowances and impairment is recognized where considered appropriate by the management.

**Other financial assets**

Other financial assets include employee loans, security deposits etc. Based on historical experience and credit profiles of counterparties, the Company does not expect any significant risk of default.

The Company's maximum exposure to credit risk for each of the above categories of financial assets is their carrying values as at the reporting dates.

**(iii) Market Risk**

**Interest rate risk**

Interest rate risk refers to risk that the fair value of future cash flows of a financial instrument may fluctuate because of changes in market interest rates. The Company is not exposed to any significant interest rate risk as its investments are primarily in fixed debt instruments. Also, there are no significant borrowings as at the balance sheet date.

**Price risk**

Price risk refers to risk that the fair value of a financial instrument may fluctuate because of the change in the market price. The Company is exposed to the price risk mainly from investment in mutual funds and investment in equity instruments. Investments in mutual funds are made primarily in units of fixed maturity and liquid funds and are not exposed to significant price risk.

#### Foreign currency risk

Foreign currency risk refers to risk that the fair value of future cash flows of an exposure may fluctuate due to change in the foreign exchange rates. The Company is exposed to foreign currency risk arising out of transactions in foreign currency. Foreign exchange risks are managed in accordance with Company's established policy for foreign exchange management. The impact of strengthening/weakening of foreign currencies on the outstanding exposure at the year-end is not significant.
