MESSAGE FROM THE MANAGEMENT

The legacy of more than 47 years and manufacturing FIBCs for more than 18 years have helped us retain the trust of our customers.

Q How would you summarise the year that went by for India and the Company?

Our country witnessed the historic tax reform with implementation of Goods and Service Tax (GST) in fiscal 2017-18. With the lingering effects of demonetization still persisting, the GST roll out did bring some initial hiccups, as the government took several steps to ease out the operational glitches during the course of the year. The exporting community faced serious difficulties with implementation of GST, with blocked working capital leading to higher interest cost. Mapping of the information technology infrastructure took considerable time even at the end-user end. We are glad to see much of the pain behind us, giving us the confidence of reaping the advantages which will come out of the historic tax

reform. The country remains one of the fastest growing economies of the world, accounting for about 15% of the global growth, with implementation of reforms and liberalization of the foreign investment regime.

These reforms did have a positive impact for Kanpur Plastipack, accounting for better governance, increased compliances and higher growth. This transcended into higher revenues, as we enhanced our operational efficiencies and increased our productivity level from existing capacities. Our implementation of a dedicated sales engine helped record more value-added revenues and retain majority of our existing customers in addition to helping us penetrate new customers. Our strong liquidity position helped us avert the initial challenges of GST implementation for export refunds and manage our operations smoothly.

Q Could you explain in detail the factors that helped record growth for the Company in the current year?

Our brand value has remained an integral part of our success story over the years, and continues to be remain so even today. The legacy of more than 47 years and manufacturing FIBCs for more than 18 years have helped us retain the trust of our customers. At the operational level we did see an increase in selling expenses and manufacturing costs, driven by rising raw material prices, manpower costs and higher freight costs. However, we overcame these with better utilization of resources (primarily Polymer) which helped us to increase our yield ratio. We also implemented several operational excellence programmes that enabled us to control our costs. Our customer satisfaction levels improved further at the backdrop of improved quality levels and better on-time deliveries. The combination of these initiatives helped us sustain our margin levels amidst volatile macro-economic environment.

Q Could you please enlighten the investors on the rationale for the capex made by the company in recent past? And, if any more capex is lined up in the near future.

Yes definitely. The greenfield project that we had started in the previous fiscal is now under final implementation in a phased manner. The formal inauguration took place on the 20th of July 2018. The new facility when fully operational is positioned to offer more than 8000 tonnes of processed Polymer for onward conversion into FIBCs. The state-of-the-art facility is spread over a factory space of nearly 40,000 sq. mts is equipped with

modern machinery. This will also allow us to shift some production from the older facilities yielding higher efficiencies and better margins.

In the current year, we have also planned further investments to double up our Multi Filament Yarn (MFY) capacity over the next 18 months. This would make us the largest player in North India in the segment. As a part of our deliberate plan to diversify our business, this additional capacity in High Tenacity MFY would add to our business revenues and yield more earnings per worker employed. Considering the increasing demand in the packaging industry, growing at double digits, and increasing application of MFY in several downstream industries, we believe therein lies a huge opportunity for us to tap, which also aligns to our business model and drive value-creation for stakeholders.

Q With such aggressive expansion lined up, do you see any challenges that might affect the future plans?

The increasing regulatory mechanism in the banking and financial sector coupled with a rise in bad loans, might pose a threat to raising funds in the near future. Also, the modernization in technologies poses risk of employability for skilled worker for non-technical jobs. At Kanpur, we are well positioned to avert these challenges. One, we remain financially stable with a strong operating cash flow (₹ 28.35 crore as on March 31, 2018) and low debt-equity ratio of 0.33 as on March 31, 2018. Two, our plant locations at the heart of north India, provides us with abundant availability of workforce, thereby de-risking us from any possible labour shortages in the near future. Third, our resilient focus on quality, on-time deliveries, customization and flexibility has enabled us to remain ahead of the peers and cement our market leadership.

Q Where do you see the Company in the near short-term?

We are extremely optimistic and excited for the next phase of the Company's growth. The past and proposed investments are well aligned to the company's business model, and deliver value for the stakeholders. As per internal projections made by us revenues are likely to touch ₹ 450 crore over the next two financial years, on similar EBITDA margin levels. The financial sustainability will be built on the foundation of our strong customer relationships. Going ahead, we have laid out a blueprint to further strengthen our customer engagement methodologies, to derive a larger part of revenues from existing customers. We shall also continue to build a stronger employee base with a higher employee engagement quotient in our journey towards excellence.

Q What message would you like to give to the investors?

Your Company now stands at a threshold of opportunities at the backdrop of rising industry growth. The rising cost of manufacturing hubs in countries like Turkey, China and South America augur well for your company. Our commitment towards building an effective cost mechanism with relentless pursuit towards quality will help us gain a strong foothold in newer markets. We thank our stakeholders, for their unwavering support and helping the Company transcend to greater scales of success.

Total Remuneration	2729.54	2307.63	421.91	0.38	1.26	1.21	0.05	4.13%

The number of permanent employees on the roll of the company represents the employees on roll as on 31st March of the relevant financial year, however, the median includes the remuneration of those employees also who left the company during relevant financial year.

Average increase in the remuneration of employees is ₹ 0.38 Lacs and percentile average increase in remuneration is 13.97%. Whereas, there is a increase in the turnover of the Company about 16% and net profit by 17%, respectively, the remuneration is increased due to change in policy, new recruitment, revision of salary and increased bonus to workers.

The remuneration paid to the Directors, KMP and employees is in accordance with the remuneration policy of the Company.

Average percentile increase in salaries of employees other than managerial personnel during 2017-18 was 18.19%. In the same period there was a increase of about 12.78% in the managerial remuneration. It can therefore be seen that there is a similarity between the increase of turnover of the Company and its profits with the remuneration paid to managerial personnel.

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
Kanpur Plastipack Limited

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **KANPUR PLASTIPACK LIMITED** (hereinafter called "**The Company**"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2018, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by "the Company" for the financial year ended on March 31, 2018 according to the provisions of:

1. The Companies Act, 2013 (the Act) and the rules made there under;
2. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
3. The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
4. Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings; **(Not applicable to the Company during the Audit Period);**
5. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'), as applicable :-

- i. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
- ii. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
- iii. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;

MANAGEMENT DISCUSSION AND ANALYSIS

Global Economic Overview

After a long period of stagnation, economic activity rebounded in 2017 especially in the emerging markets and developing economies. Propelled by a spike in economic activity and boost in global demand, the world economy grew at an estimated rate of 3.8% in 2017 from 3.2% in 2016. During the year, the global trade also grew at a real growth rate of 4.9% in 2017 after tanking for two years.

Despite high volatility in the equity markets, the financial conditions were skewed on the positive side propelling growth. The core inflation surged in advanced economies, owing to an improvement in the overall demand of goods and services and

remained firm in the emerging economies because of stability in the value of the currency against US Dollars.

Outlook

The global economy is expected to grow at 3.9% in 2018 and remain consistent in 2019 due to growth in trade and investment activities coupled by recovery in commodity exports. The emerging and developing economies are expected to remain consistent on a strong growth curve due to rise in consumption and investment activities. (Source: IMF)

Indian Economy Overview

During 2017-18, the economy noted a progressive growth trajectory, starting off with a moderate growth rate eventually accelerating to touch the mark of 7.7% in the last quarter leading to an overall average growth rate of 6.7%. India remained one of the fastest growing economies in the world in the year.

Since the past few years, the economy is experiencing a robust structural change leading to short-term challenges with long-term benefits. Post a remarkable growth at the rate of 7% in 2016-17, the economy faced a deceleration in economic activities and investments for a very short-term due to demonetisation. However, the short-lived deceleration was followed by structural reformations in the indirect taxation structure. The introduction of the "Goods and Services Tax" came along with a promise of long-term benefits to the economy against a trade-off of growth in the short-term. As the technical and operational glitches in the GST system gradually get ironed out we would be on track to reap its benefits.

Outlook

The outlook for the economy forecasts a boost in the growth rate by 100 bps to 7.6% during 2018-19, propelled by an expected strong private investment coupled by favourable outcomes of the reformations taken in the past. The expectation of stability in the global economy improves the odds of vigorous growth. (Source: Economic Survey of India)

Indian Export Overview

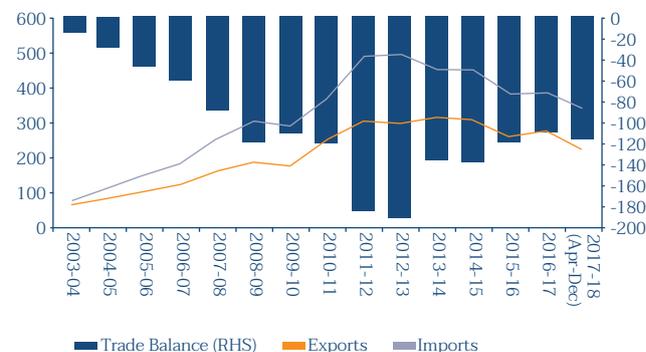

After continuous tanking, the exports of goods and services emerged out of the negative to positive rate during FY17 and gaining momentum in FY18. In the first half of 2016-17, there was a negative growth of 1.3% in exports whereas in the second half, the exports spiked up to 5.2%.

India is the fifth largest exporter in the world after US, China, Japan, Germany and Britain with exports capturing 18% of current GDP, amounting to an estimated \$302.8 billion. The exports from India grew by 9.8% during 2017-18 attaining the highest growth rate in the past 6 years while imports surged by 20% owing to commodity prices pushing up the value of shipments in and out of the country along with a pick-up in global trade

“The government is planning to launch a comprehensive strategy to expand its export share to 40% of an expected \$5.0 trillion GDP by 2025 with the help of increase in manufacturing activities.”

Plastic

The plastic industry of India registered a growth of 17.1% touching the mark of US \$8.85 billion during the year 2017-18 from US \$7.56 billion in 2016-17 registering a stronger growth as compared to the overall merchandise exports which noted a growth of only 9.9% from US \$275.9 billion to US \$303.3 billion.

The exports of plastics formed 2.92% of India's overall merchandise exports in the current year gaining a marginal rise of 180 bps than the previous year. The boost in exports was primarily due to an increase in exports of plastic raw materials and value-added plastic products like woven sacks/FIBC, plastic sheets, optical items etc, mainly to United States, China, UAE etc who account for 25.7% of India's plastic product exports by value.

The "Plastic Export Promotion Council" has achieved the target of exporting goods worth US \$1 billion to United States and is planning to export goods with an overall value of US \$10.6 billion by 2025. The council is aiming to expand the country's share of exports in global plastic market to 3.0% from a meagre rate of 1.0% currently.

At present, the country ranks among top five consumers of polymers in the world with about 30,000 plastic processing units generating employment to more than 40-lakh people across the country.

"With increase in demand, the government intends to set up 18 plastic parks with an investment of ₹ 400 crore to propel domestic production of plastics."

Report On The Standalone Ind-As Financial Statements

We have audited the accompanying standalone Ind-AS financial statements of **Kanpur Plastipack Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement for the year then ended, the statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information, (herein after referred to as "standalone Ind AS financial statements").

Management's Responsibility For The Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind-AS financial statements that give a true and fair view of the state of affairs (financial position), profit or loss, (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind-AS) prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind-AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these standalone Ind-AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind-AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind-AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind-AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind-AS financial statements.

Other Matter

Incoming auditor to audit comparative information for adjustments to transition to Ind AS16

The comparative financial information of the Company for the year ended 31st March 2017 and the transition date opening balance as at 01st April 2016 included in these standalone Ind AS financial statements, are based on the previously issued statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited by the

predecessor auditor whose report for the year ended 31st March 2017 and 31st March 2016 dated 29th May, 2017 and 23rd May, 2016 respectively expressed an unmodified opinion on those standalone financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind-AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs (financial position) of the Company as at 31st March, 2018, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Report On Other Legal And Regulatory Requirements

ANNEXURE “B” TO THE INDEPENDENT AUDITORS’ REPORT

(Referred to in Para 2(f) under ‘Report on Other legal and Regulatory Requirements’ section of our report of even date)

Report On The Internal Financial Controls Under Section 143(3)(I) Of The Companies Act, 2013 (“The Act”)

We have audited the internal financial controls over financial reporting of Kanpur Plastipack Limited (“the Company”) as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial

controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility

of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information, and according to the explanations given to us, the company has, in all material aspects, an adequate internal financial controls' system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st

2018, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in Guidance Note of Audit of International Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(b) A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and deferred tax liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its general operating cycle.

1.3 Use of Estimates, Assumptions and Judgements:

The preparation of financial statements requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the

NOTES FORMING PART OF FINANCIAL STATEMENTS

for the year ended 31st March, 2018

financial statements and the results of operations during the year. Differences between actual results and estimates are recognised in the year in which the results are known or materialise. Estimates and underlying assumptions are reviewed on an ongoing basis.

Judgments:

In the process of applying the Company's accounting policies, management has made the following judgments, which have a significant effect on the amounts recognised in the financial statements:

i. Operating lease commitments — Company as lessee

The Company has taken various commercial properties on leases. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a substantial portion of the economic life of the commercial property, and that it does not retain all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

ii. Recoverability of Debts/advances

The company has several debts outstanding in the ordinary course of business, some of which remain outstanding beyond their due date. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such debts/advances to be good and recoverable and classified the same as Current Assets.

Estimates:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i. Taxes, including Evaluation of recoverability of

Deferred tax assets:

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the domicile of the company.

ii. Gratuity benefit:

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuation. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases.

iii. Fair value measurement of financial instrument:

The fair value of financial assets and financial liabilities recorded in the balance sheet has been arrived at on the basis of the quoted prices in active markets, wherever available. For such financial assets and financial liabilities which cannot be measured based on quoted prices in active markets, their fair value is measured using other accepted valuation techniques. Changes in assumptions used in applying these methods could affect the reported fair value of financial instruments.

iv. Warranty provision/Quality Claim

Provision for quality claims is determined based on the historical percentage of claims expense to sales for the same types of goods for which the claim is currently being determined. The same percentage to the sales is applied for the current accounting period to derive the expected claim expense to be accrued. It is adjusted to account for unusual factors, if any. It is very unlikely that actual claims will exactly match the historical

NOTES FORMING PART OF FINANCIAL STATEMENTS

for the year ended 31st March, 2018

warranty percentage, so such estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

1.4 Property, Plant and Equipment

- i) Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.
- ii) The initial cost of an asset comprises its purchase price (including import duties and non-refundable taxes, if any), any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by the management, borrowing cost for qualifying assets (i.e. assets that necessarily take a substantial period of time to get ready for their intended use).
- iii) Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.
- iv) Spare parts which meet the definition of Property, plant and equipment are capitalized as Property, plant and equipment. In other cases, the spare parts is inventorised on procurement and charged to Statement of Profit and Loss on consumption.
- v) An item of Property, plant and equipment and any significant part initially recognised separately as part of Property, plant and equipment is de-recognised upon disposal; or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the assets is included in the Statement of Profit and Loss on consumption.
- vi) The residual value and useful lives of Property, plant and equipment are reviewed at each financial year end and changes, if any, are accounted in the line with revisions to accounting estimates.
- vii) The Company has elected to use exemption available under Ind AS 101 to continue with the carrying value for all its Property, plant and equipment as recognised in the financial statements as at the date of transition to Ind-ASs, measured as per previous GAAP and use that as its deemed cost as at the date of transition (1st April, 2016).
- viii) Capital work- in- progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

ix) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

x) Depreciation on property, plant and equipment is provided on prorata basis on straight-line method using the useful lives of the assets estimated by management and in the manner prescribed in Schedule II of the Companies Act 2013.

1.5 Inventories:

- i. **Basis of Valuation:** Inventories are stated at lower of cost and net realizable value. The comparison of cost and net realizable value is made on an item-by-item basis.
- ii. **Method of Valuation-** Cost of inventories comprises of expenditure incurred in the normal course of business in bringing inventories to their present location including appropriate overheads apportioned on a reasonable and consistent basis.

The inventories have been physically taken by the management periodically.

1.6 Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding central taxes or duties collected on behalf of the Government. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Amounts disclosed are net of returns, trade discounts, rebates, but including State Value Added Tax collected on behalf of the Government. GST collected and paid has been separately disclosed.

The Company assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Company has concluded that it is acting as a principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks. The specific recognition criteria described below must also be met before revenue is recognised:

a) Sale of goods:

- a. Inland sales have been accounted for at the time of dispatch of goods from the factory.

NOTES FORMING PART OF FINANCIAL STATEMENTS

for the year ended 31st March, 2018

Export Sales have been recognized only after the goods have been dispatched from the factory.

- b. Sales have been recorded net of rebates and trade discounts but are grossed up for Sales Tax and VAT.

b) Job Work Income:

Job Work income is recognized upon completion of the assigned job, on the basis of the contractual terms.

c) Commission Income

Commission income is recognized to the extent it is probable that economic benefits will flow to the company and the revenue can be reliably measured and the company has contractual right to such revenue.

d) Interest Income

Interest Income is recognised on time proportion basis taking into account the amount outstanding and the applicable interest rates and is disclosed in "other income".

e) Export Incentives:

The revenue in respect of export incentives has been recognized to the extent it is probable that economic benefits will flow to the company and the incentive value can be reliably measured.

1.7 Employee Benefits:

Short term employee benefits

All employee benefits payable/available within twelve months of rendering the services are classified as short term employee benefits. Benefits such as salaries, wages and bonus, etc., are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

Provident fund

Eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the employees and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employees' salary. The Company contributes a part of the contributions to the Government administered Provident/Pension Fund. The Company has no obligation, other than the contribution payable to the provident fund.

The Company recognizes contribution payable through the provident fund scheme as and expense, when an employee renders related services.

Other long term employee benefits

The company does not have any structured Employee's Gratuity Fund Scheme. However the company provides for its gratuity liability as a defined benefit plan. The liabilities with respect to Gratuity Plan are determined by actuarial valuation. The Company does not make any contributions and meets its gratuity liability from its own sources as and when the claims arises.

1.8 Government Grants:

- Government Grants are recognised at their realizable value when there is reasonable assurance that the grant will be received and all the attached conditions will be complied with.
- When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

The company is an exporter and receives grants in the form of Duty Drawbacks, Import entitlement etc. The same are recognized, subject to the policy stated in para 1 above, in the year in which the export sales are made.

The company is also entitled to grants in the nature of interest subsidy under the Technology Upgradation Fund Scheme (TUFS). The claims filed for reimbursement of interest expense incurred have been recognised and netted off against the interest expense for the year.

1.9 Borrowing Costs

- Borrowing cost consists of interest and other costs incurred in connection with the borrowing of funds.
- Borrowing costs that are attributable to the acquisition or construction of qualifying assets (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use) are capitalized as a part of the cost of such assets. All other borrowings costs are charged to the Statement of Profit and Loss.

NOTES FORMING PART OF FINANCIAL STATEMENTS

for the year ended 31st March, 2018

1.10 Foreign currencies

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Company's financial statements are presented in Indian rupee (₹) which is also the Company's functional and presentation currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the prescribed exchange rate prevailing at the date of transaction.

Measurement of foreign currency items at the balance sheet date

Foreign currency monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Exchange differences

Exchange differences arising on settlement or translation of monetary items are recognised as income or expense in the period in which they arise.

1.11 Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

1.12 Offsetting of financial Assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

1.13 Taxes

Tax expense for the year comprises of current tax and deferred tax.

a) Current Tax

- (i) Current income tax, assets and liabilities are measured at the amount expected to be paid to or recovered from the taxation authorities in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) enacted in India by using tax rates and the tax laws that are enacted at the reporting date.
- (ii) Current income tax relating to item recognised outside the Statement of Profit and Loss is recognised outside Profit or Loss (either in other comprehensive income or equity). Current tax items are recognised in correlation to the underlying transactions either in OCI or directly in equity.

b) Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside

NOTES FORMING PART OF FINANCIAL STATEMENTS

for the year ended 31st March, 2018

the statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or direct in equity.

1.14 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share consolidation, without a corresponding change in resources, if any.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares, if any.

The partly paid up equity shares have been treated as potential equity shares in accordance with Ind-AS 33.

1.15 Provisions, Contingent Liabilities and Commitments

- (i) Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.
- (ii) The expenses relating to a provision is presented in the Statement of Profit and Loss net of reimbursements, if any.
- (iii) If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in provision due to the passage of time is recognized as a finance cost.
- (iv) Contingent liabilities are possible obligations whose existence will only be confirmed by future events not wholly within the control of the Company, or present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability.

- (v) Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of economic resources is considered remote.

1.16 Several debit and credit balances are subject to confirmation by parties.

1.17 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or liability is measured in accordance with Ind-AS 113, using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1-Quoted (unadjusted) market prices in active markets for identical assets or liabilities

NOTES FORMING PART OF FINANCIAL STATEMENTS

for the year ended 31st March, 2018

Level 2-Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3-Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above. The quantitative disclosures of fair value measurement hierarchy are contained in Note No.35

1.18 Disclosures as required by Indian Accounting Standard (Ind AS101) first time adoption of Indian Accounting Standards:

These are Company's first financial statements prepared in accordance with Ind-AS.

The accounting policies set out in the preceding paras have been applied in preparing the financial statements for the year ended March 31, 2018, the comparative information presented in these financial statements for the year ended March 31, 2017 and in the preparation of an opening Ind AS balance sheet as at April 1, 2016 (The Company's date of transition). In preparing its opening Ind AS Balance

Sheet, the Company adjusted the amounts reported previously in Financial Statements prepared in accordance with Accounting Standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has effected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

Exemptions and exceptions availed other than mandatory exemptions:

Ind AS optional exemptions:-

Deemed cost

Ind AS 101 permits a first time adopter to elect to fair value of its property, plant and equipment recognized in financial statements as at the date of transition to Ind AS, measured as per previous GAAP and use that as its deemed cost as at the date of transition or apply principles of Ind AS retrospectively. Ind AS 101 also permits the first time adopter to elect to continue with the carrying amount for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS. This exemption can be also used for intangible assets covered by IND AS-38.

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

A reconciliation of the Balance Sheet and Total comprehensive income as per the previous GAAP and the present Ind-AS Financial Statements is contained in Note No.36.
