REVIEW OF OPERATIONS**FERTILIZER & CHEMICALS DIVISION**

The year 2017-18 continued to be a challenging period with low purchases by the farmers due to low income. Also the country faced a drought (in some of the regions especially Madhya Pradesh) in 2017-18, which is a rare phenomenon. As a result, the agriculture related businesses; especially fertilizers trade was very poor.

During the year, continuing impact of demonetization and implementation of GST had a major impact by way of slowdown in Indian agriculture sector. Keeping in mind the huge dependence of the agriculture sector on cash, the farmers, especially small and marginal among them, were adversely affected. The recoveries from the market have been extremely slow. All these things have strained the working capital of the company considerably.

Further a transition to partial Direct Benefit Transfer system for the Fertilizer Industry slowed down trade due to uncertainty. The Government of India has modified the procedure for release of fertilizer subsidy and partial DBT whereby a POS (Point of Sale) device has been distributed to the traders. Under the new procedure the subsidy will continue to be paid to the Industry instead of the farmer but only after sale of fertilizer to the farmer through the POS device. The system is under implementation and is being stabilized. The new system is likely to increase the working capital cycle for the Industry. Earlier the SSP Industry was claiming subsidy from GOI immediately on first point sale to dealer, however, now the we will be eligible for subsidy only on last point of sale from retailer to farmer.

During the year, even though the turnover of your Company has decreased from Rs. 36,765.37 lacs for the year 2016-17 to Rs. 35,628.77 lacs for the year 2017-18, by about 9.69% the operating income has decreased only marginally from Rs 4,139.04 lacs in 2016-17 to Rs 3,745.88 lacs in 2017-18, and the cash profit has increased from Rs 1,034.98 lacs to Rs 1,112.66 in the respective periods, while the net profit after tax has decreased from Rs. 165.76 lacs to Rs. 164.22 lacs.

The Company has produced 300375 MT (previous year 415452 MT) Single Super Phosphate and sold 338986 MT (previous year 385574 MT including export of 500 MT).

The Company is trying to diversify its portfolio and has initiated import of NPK fertilizers in a small way. The Company has imported 10986 MT NPK fertilizers (previous year 6417) and sold 6884 MT during the year (previous year 2898).

The Company is continuing its efforts for optimizing its current assets to leverage sales on the one hand and diversifying into new geographical markets on the other. Focus is being laid on producing more value added fortified fertilizers, to improve the product portfolio.

The raw material prices have increased and are now on an uptrend. To keep the end prices of fertilizers to the farmers within reasonable limits, the Government has increased the Nutrient Based Subsidy rates from Rs.2,166/- per MT to Rs. 2,734/- per MT on SSP w.e.f. 01.04.2018.

In the current year 2018-19, the long range forecast of monsoons is normal. This coupled with the rising trend in the commodity prices, which will give better marketability to SSP vis a vis other NPK products, we expect to perform better this year.

SOYA/AGRI DIVISION

The Soya Industry is passing through a tough phase with widespread activities of speculation by Industry players.

The Company has reduced its activities in this segment to a large extent along with total control on fixed expenses.

GOODS AND SERVICE TAX (GST) :

The GST has been implemented successfully by the Government and we hope that the Company will be benefited once the entire transition of GST is complete and the same will bring more transparency in the tax administration. GST will create a common Indian market, improve tax compliance and governance.

However there are teething problems and the procedures for refund of excess input tax credits are yet to be streamlined. In the interim the working capital has been increased to some extent.

DIVIDEND

The Board of Directors is pleased to recommend final dividend of Re. 0.05 per equity share (face value of Re. 1/- per share) for the financial year 2017-2018, previous year Re.0.05 per equity share.

SHARE CAPITAL

The year 2017-18 even though was a normal monsoon year for most of the Country but deficient in a majority of the districts in Madhya Pradesh, parts of Maharashtra, Gujarat, Uttar Pradesh, Rajasthan amongst other West/North Indian states.

The impact of 'demonetisation' is yet to wear off and fertilizers business is yet to recover fully. The agricultural sector is still recovering from the affects of demonetization and it will still take some more time to resume normal operations. Further the introduction of GST and partial 'Direct Benefit Transfer' (DBT) scheme for Subsidy in the Fertilizer sector has kept the economic environment uncertain thereby affecting the businesses adversely. Even though the structural changes are very good for the economy and our Company, but the affect in the current year has been adverse.

During the year, even though the turnover of your Company has decreased from Rs. 36,765.37 lacs for the year 2016-17 to Rs. 35,628.77 lacs for the year 2017-18, by about 9.69% the operating income has decreased only marginally from Rs 4,139.04 lacs in 2016-17 to Rs 3,745.88 lacs in 2017-18, and the cash profit has increased from Rs 1,034.98 lacs to Rs 1,112.66 in the respective periods, while the net profit after tax has decreased from Rs. 165.76 lacs to Rs. 164.22 lacs.

FERTILIZER & CHEMICALS DIVISION:

The Company has India's largest Single Super Phosphate (SSP) production capacity of 11,13,500 MT in the states of Madhya Pradesh, Rajasthan, Uttar Pradesh, Chhattisgarh & Gujarat alongwith Sulphuric Acid (SA) production capacity of 2,70,600 MT in the States of Madhya

Pradesh, Uttar Pradesh & Chhattisgarh. Sulphuric Acid is also a raw material for production of SSP.

The Company has produced 300375 MT (previous year 415452 MT) Single Super Phosphate and sold 338986 MT (previous year 385574 MT including export of 500 MT).

The Company is trying to diversify its portfolio and has initiated import of NPK fertilizers in a small way. The Company has imported 10986 MT NPK fertilizers (previous year 6417) and sold 6884 MT during the year (previous year 2898).

INDUSTRY STRUCTURE AND DEVELOPMENTS:

Agriculture is the third largest sector of Indian Economy, which contributes around 17% of total GDP of the Country. Fertilizer Industry, with the emerging scenario, plays vital role in the growth of Agriculture Sector. The balanced use of chemical fertilizer is important not only for increasing agricultural productivity but also for sustaining soil fertility.

The Company is producing SSP, which contains Phosphate, Sulphur, Calcium and other micro nutrients and could be said to be a 'Generic Customized Fertilizer'. It is an essential Fertilizer for crops likes Oilseeds, Pulses, Sugarcane, Fruits and Vegetables, Tea etc. and for sulphur deficient soils. Main features of SSP Fertilizer Industry are-

- Basic need for agriculture and its development.
- Second largest consumer in the world.
- Third largest producers in the world.
- SSP is multi-nutrient fertilizer containing P₂O₅ as primary nutrient and Sulphur, Calcium & magnesium as secondary nutrients.
- SSP fertilizer is the lowest priced fertilizer per kg, and preferred by small & marginal farmers.
- Highly dependent on Imported Raw Material.
- Subsidised by Government of India to control the prices of the input to the farmers.
- Substantial Import of Finished Products other than SSP.

SSP, which is a poor farmer's fertilizer (price wise), is an option to optimize the use of phosphate fertilizers. It also helps to treat sulphur deficiency in soil (40% Indian soil is sulphur deficient) as well as for further enhancement of yields at the least cost.

However, the Fertilizer Industry including SSP is a working capital intensive Industry. Therefore interest rates and delay in disbursement of subsidy are always matters of concern to the Company.

Government's continuous thrust to encourage SSP to substitute imports of DAP and NPK is an indicator of upward trend in the Industry's future.

Future Outlook:

It is expected that the Country will have a normal monsoon in 2018, resulting in relief to Indian agriculture sector and related industries like Fertilizer.

The Economic Survey-2018 has floated the idea of replacing the input subsidy with direct income support to farmers and there is a need for "replacing untargeted subsidies (power and fertiliser) by direct income support to address agricultural stress and to achieve doubling farmers' income. The Prime Minister had announced to double farmers' income in budget-2018, currently estimated at Rs 77,976 annually, by 2022. The government has been spending nearly 30% of its total subsidy on food, fuel and fertiliser to ensure that farmers get the key agriculture input at cheaper rates. The total outgo on fertilizer subsidy alone was Rs 70,000 crore in 2017-18.

The Telangana government has announced to start an input assistance scheme by paying Rs 8,000 per acre to each farmer every year to enable them recover costs of fertilisers, seeds and pesticides. Experts have viewed this as an alternative to various subsidy schemes by the government in the farm sector.

The Government has introduced the partial DBT system for fertilizer subsidy successively in different states and now the entire country is covered under this scheme. Under this scheme, 100% subsidy on various fertilizer grades is to be released to fertilizer companies on the basis of actual sales made by retailers to beneficiaries. The sale of all subsidised fertilisers to farmers is made through point of sale (PoS) devices installed at each retailer shop. The beneficiaries are identified through Aadhaar,

voter identity card and other instruments. The successful implementation of the DBT scheme depends upon successful use of PoS devices at every retailer shop, training of retailers for using the device, stock initialisation in the PoS machine after verifying the physical stock at retail point and before making sales transactions and ensuring unobstructed quick connectivity and interaction with the GOI central servers.

The raw material prices for the fertilizers have increased and are showing an upward trend. To keep the farmer input costs under control the Government has increased the Nutrient Based Subsidy rates for all fertilizers. The subsidy rate for SSP has been increased from Rs.2,166/- per MT to Rs. 2,734/- per MT w.e.f. 01.04.2018.

Despite the slowdown in the previous years, the SSP Industry is very optimistic for the coming financial year, on account of projected normal monsoon which has a major impact on the agricultural sector, and a rising trend in the commodity prices including imported fertilizers. In such a regime SSP fertilizer being a low cost fertilizer has an increased preference with the farmers.

The performance of the Company is expected to be better in coming years considering its basic strengths like high integrated capacity which is already operational, multi-geographical locations and established brands. The well maintained plant and equipments ensure uninterrupted production and distribution of goods

The Industry is facing some transition problems in GST and we expect that in future the Company will be benefited once the entire transition of GST is completed and the same will bring more transparency in the tax administration. GST will create a common Indian market, improve tax compliance and governance. Further, fertilizer industries are facing increase in their working capital due to delay in roll out of procedure for input tax credit refunds.

Opportunity, Threats, Risk & Concerns:

The Company welcomes the Government's plan to introduce DBT subsidy directly to farmers which shall give the farmers unrestricted choice as well as make them understand the real worth of fertilizer used by them.

The Company is in an advantageous position for tapping its already established production capacity with multi- geographical locations; wide spread marketing network and high brand value for its product.

NBS policy as envisaged has attracted new entrants in the market, which in fact shall be better for the wider reach of this long neglected product and establishing the SSP Industry in its right place. However, entry of new entrants in overall bad market conditions has created excess supply in the market resulting into changing consumption and stocking patterns necessitating higher inventories.

SSP fertilisers are based on imported raw-materials which can face severe volatility in prices and foreign currency exchange rates, affecting the profitability of the Company. Agro-Climatic conditions also have large effect on the performance of the Company.

Delay in subsidy payments, uncertainty of monsoon, volatile international market of raw material, seasonal consumption of fertilizer mainly in two months each in Kharief and Rabi, lack of awareness of benefits of SSP consumption amongst farmer fraternity, clubbed with logistics availability/ cost and higher requirement of working capital shall remain concerns for the Industry & of the Company.

Soya/Agri Division

The Company is having 1400 TPD Soyabean crushing capacity along with 100 TPD Edible Oil Refinery located in Soyabean growing area i.e., Rattlam, Madhya Pradesh, which is well connected with rail/road network with nearby ports.

The Soya Industry is passing through a tough phase with widespread activities of speculation by Industry players.

The Company has reduced its activities in this segment to a large extent alongwith total control on fixed expenses.

During the year, the Company has crushed Nil MT (Previous year Nil MT) Soyabean seed.

INDUSTRY STRUCTURE AND DEVELOPMENT:

The most popular and the largest produced oilseed in the world is Soyabean. It has got the support of wide variety of climates and soils and that is why it is considered to be the most economical crop and has a good worth.

Soya oil is extracted from the basic Soyabean through complex refining process by crushing Soyabeans, 17-18% soy oil is recovered and the rest

is called soy meal or De-oiled cake.

The contribution of soy oil in world's total oil production has reached around 25%, after growing at 5.8% p.a. during the last 10-16 years, and figures around 31 million tons in absolute terms. Countries like U.S, China, Argentina and India have a strong consumer base. Consumption has also risen in other nations like European Union, Central Europe, Egypt, Morocco, Mexico, and Brazil.

Soyabean meal comprises of the remnant after the oil extraction. It has high protein content and is easily digestible and that is why it serves as an animal feed and accounts for about 65% of the world's total animal feed.

Soyabean holds a very important position in the Indian agriculture and economy. Madhya Pradesh has the lead among the Soyabean producing states in India followed by Maharashtra. The other major producers are Rajasthan and Andhra Pradesh. The major trading centers for soy in India include Indore and Ujjain in Madhya Pradesh, Nagpur in Maharashtra and Kota in Rajasthan.

The total crop size in India is about 10-12 million tonnes out of world crop of 250 million tonnes. Soya Oil is consumed in the country while sadly a protein deficient country like India is exporting its cheapest protein containing soy meal to other countries due to poor promotion of its benefits and by incentivising Exports. However, in due course of time home consumption of Soyabean meal is bound to increase.

Soyabean and Soy-Oil are actively traded in Indian commodity exchanges namely, National Commodity & Derivatives Exchange Limited (NCDEX) and Multi Commodity Exchange of India Limited (MCX). However, the trading in these exchanges are now a days in the hand of speculator instead of showing a reasonable trend due to non feasibility of 'Free Trade' and 'Liquid Market'.

Future Outlook:

In India, crushing capacity of Soyabean is much higher than availability of raw material. In spite of higher capacity, the efficient processing capacity in good locations like ours, shall perform reasonably well with higher Soyabean crop due to increase in yield.

Eventually on expiry of incentive period accorded to new entrant's alongwith control on tax evasion, existing players like us will have a competitive edge in a level playing field. The Company has reduced its fixed expenses in view of limited activities.

Further in a major development the GOI has doubled the import duty on palm oil, a major substitute for edible oils, from 15% to 30% giving a major relief to the soya seed producing farmers and the seed crushing industry.

Opportunity, Threats, Risk & Concerns:

The Company is enjoying ideal location of its soya processing plant i.e. at the heart of Soyabean cultivation area, which assures us a value added advantage in operations

The present yield per hectare is around 1.2 MT against world average of 2.4 MT. The yield is increasing by adopting good practices by farmers and reasonable return on Input.

The Indian consumption of soy meal/DOC is bound to increase and therefore Indian soy meal need not to compete in International market which produces and sells its surplus Soyabean, with hefty State subsidies to agriculture.

Production of Soyabean is highly dependent on the vagaries of monsoon. The delayed and uneven monsoon creates shortage of raw material thus affecting the capacity utilisation and profitability of the Industry. The large crushing capacity with insufficient raw material alongwith long shelf life and volatility of international market make Soyabean & soya oil very speculative products in Commodity Exchanges.

In view of increasing speculative behavior in the market, which is not at all aligned with either international market or with forward market. The Company has reduced its activities in this segment to large extent

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

The Company conducts its business with integrity and high standards of ethics, and in compliance with the laws and regulations that govern its business. The Company has a well established system of internal controls in operations, supported by suitable monitoring procedures and self-assessment exercises. The financial and commercial functions at various locations are structured and reviewed timely to provide adequate support and controls for the business of the Company.

In addition to external audit, The Company has appointed M/s APAS &

KHAITAN CHEMICALS AND FERTILIZERS LIMITED

Company, Chartered Accountants, as an Internal Auditor, who report significant findings to the Audit Committee of the Board. Consequently required steps are taken to improve the operations.

HUMAN RESOURCE AND INDUSTRIAL RELATIONS:

The ability to attract, onboard, develop and engage the right kind of talent is, therefore crucial to an organization long term success. Company strongly believes in continuously taking steps towards talent management, leadership development, employee engagement. Employees are the back-bone of good organization and to motivate them to achieve greater heights, the Company undertook various HR initiatives towards their development, enhancement and retention. The Company considers its highly motivated and well-maintained team as its most valuable asset. As on 31.03.2018, the Company has employed 547 peoples at various locations in India.

Amidst all the pressures and demands of the growing business, Industrial Relations continued to be reasonably cordial with our Union(s).

ENVIRONMENT AND SAFETY:

The Company has always considered safety and environment one of its key

focus area and has always strived to make continues improvements in these two aspects.

At Company, environment concerns have always taken precedence; Our Factories are certified by OHSAS 18001-2007 through external auditors and have been re-certified for International standards ISO 14001 -2004 for Environment Management System and ISO 9001-2008 for Quality Management System.

To address the concerns on Environment Protection, the Company has set up an Online Monitoring System at all the plants and concrete efforts were made towards natural resource conservation by way of Water Harvesting, Sewage Treatment Plant, etc.

CONCLUSION:

The Company dwells on chalking out the best possible future plans and policies so as to avoid the pitfalls and following the best course in the long run. In both the business segments, a focus on assets utilization, earning maximization, continuous growth and relentless strengthening of the internal efficiencies will enable the Company to deliver superior value for its shareholders on a sustained basis in future.

FORM MR-3

SECRETARIAL AUDIT REPORT

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]
FOR THE FINANCIAL YEAR ENDED 31st MARCH, 2018

To,
The Members,
M/s. Khaitan Chemicals and Fertilizers Limited
A.B. Road, Village- Nimrani
Khargone (MP)- 451569

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Khaitan Chemicals and Fertilizers Limited having CIN: L24219MP1982PLC004937 (hereinafter called 'The Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March 2018, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2018, according to the provisions of:

- The Companies Act, 2013 (the Act) and the rules made there under;
- The Securities Contracts (Regulation) Act, 1956 (SCRA) and the rules made there under;
- The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- The Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') viz. :-
 - The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;

- Other laws applicable specifically to the Company (as given in 'Annexure-I' to the Report).

I have also examined compliances with the applicable clause of the following:-

- Secretarial Standard I pertaining to Board Meetings and Secretarial Standard II pertaining to General Meetings issued by the Institute of Company Secretaries of India were applicable during the year.
- The SEBI (Listing Obligation and Disclosure Requirements) Regulation, 2015 entered by the Company with Bombay Stock Exchange Limited.

I report that during the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above subject to the following observations:

- The provisions, regulation and guidelines prescribed under Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings are not applicable to the Company during the financial year under report;
- The following provisions, regulations and guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') were not applicable to the Company during the financial year under report:-
 - The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
 - The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999;
 - The Securities and Exchange Board of India (Issue and listing of Debt Securities) Regulations, 2008;
 - The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and
 - The Securities and Exchange Board of India (Buy back of Securities) Regulations, 1998.

I further report that based on the information, representation and reports provided by the Company, its Board of Directors, its designated officers, and authorized representatives during the conduct of audit and also review on quarterly compliance report submitted by the department heads and taken on record by the Board of Directors of the Company, in my opinion, adequate

KHAITAN CHEMICALS AND FERTILIZERS LIMITED

systems and processes and control mechanism exist in the Company to monitor and ensure compliance with applicable Laws, Rules and Regulations and happening of events etc. to the Company.

I further report that the compliances of applicable financial, cost and tax laws has not been reviewed in this audit since the same have been subject to review by statutory financial auditor and other designated professionals.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company.

**INDEPENDENT AUDITOR'S REPORT****To The Members of Khaitan Chemicals and Fertilizers Limited
Report on the Ind AS financial statements**

We have audited the accompanying Ind AS financial statements of **Khaitan Chemicals and Fertilizers Limited** ("the Company"), which comprise the balance sheet as at March 31, 2018, statement of profit and loss (including the statement of other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "Ind AS financial statements").

Management's Responsibility for the Ind AS financial statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended thereof.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under Section 143(11) of the Act.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing, specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018 and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Other Matters

The comparative financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at April 01, 2016 included in this Ind AS Financial Statements, are based on the previously issued statutory financial statement prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited and reported by S.S. Kothari Mehta & Co. having firm registration number 000756N who have issued an unmodified audit report dated May 29, 2017 and May 27, 2016 respectively, have been furnished to us by the management and which have been relied upon by us for the purpose of issuing the report on the financial statement as adjusted for the differences in the accounting principles adopted by the Company on transition to Ind AS, which has been audited by us.

Our report is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Ind AS financial statements;
 - b. In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books;
 - c. The balance sheet, statement of profit and loss including statement of other comprehensive income, the cash flow statement and statement of changes in equity dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended thereof;
 - e. On the basis of written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act;
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"; and
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and explanations given to us:
 - i. The Company has disclosed the impact of pending litigations as at March 31, 2018 on its financial position in its Ind AS financial statements – Refer Note 37 to the Ind AS financial statements;

KHAITAN CHEMICALS AND FERTILIZERS LIMITED

"ANNEXURE A" TO THE INDEPENDENT AUDITOR'S REPORT

Annexure A to the Independent Auditor's Report to the Members of Khaitan Chemicals and Fertilizers Limited on its Ind AS financial statements dated May 19, 2018

Report on the matters specified in paragraph 3 of the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Companies Act, 2013 ("the Act") as referred to in paragraph 1 of 'Report on Other Legal and Regulatory Requirements' section

- i. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 (b) The fixed assets have been physically verified by the management according to the programme of periodical verification in phased manner which, in our opinion, is reasonable having regard to the size of the company and the nature of its fixed assets. The discrepancies, if any, noticed on such physical verification have been properly dealt with in the books of accounts.
 (c) According to the information and explanation given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties as disclosed in the note 4 on fixed assets to the financial statements, are held in the name of the company except in the following cases where title deeds/lease agreement are not held in the name of the Company (Refer Note 4 (b) & (c)).

Nature of Immovable Properties	No. of Properties	Gross Carrying Value (Rs. In Lakhs)	Net Carrying Value (Rs. In Lakhs)
Freehold Land	2	57.47	57.47
Leasehold Land	1	24.86	16.22
Total	3	82.33	73.69

- ii. The inventory of the Company has been physically verified by the management during the year (except for stock of Rock Phosphate, Sulphur and Single Super phosphate for which stock is taken on estimation basis and for the stock in transit and stock lying with outside parties). In our opinion, the frequency of verification is reasonable, the discrepancies noticed on physical verification of the inventory as compared to book records were not material.
- iii. The Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability partnerships or other parties covered in the register maintained under section 189 of the Act. Thus, the paragraph 3 (iii) (a) to (c) of the Order is not applicable to the Company.
- iv. As per the information and explanation given to us and on the basis of our examination of the records, the company has complied with provision of section 185 and 186 of the Act, with respect to the loans and investment made.
- v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public and consequently, the directives issued by the Reserve Bank of India and the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act and the rules framed there under, are not applicable to the Company.
- vi. We have broadly reviewed the books of accounts maintained in pursuance to sub section (1) of Section 148 of the Act in respect of single super phosphate fertilizers, sulphuric acid and refined vegetable oil manufactured by the Company and are of the opinion that, prima facie, the prescribed records and accounts have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. (a) According to the records of the Company examined by us and the information and explanations given to us, the Company is generally regular in depositing its undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, goods and service tax, duty of customs, duty of excise, value added tax, cess and any other statutory dues, as applicable, with the appropriate authorities during the year and no undisputed amounts are payable which have remained outstanding as at March 31, 2018 for a period of more than six months from the date they became payable except work contract tax payable of Rs. 0.69 lakh, since paid and value added tax of Rs. 29.56, adjusted in books with tax refundable.
 (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of sales-tax and goods and service tax which have not been deposited on account of any dispute, except the following dues of service tax, income tax, duty of customs, value added tax and cess along with the forum where the dispute is pending as follows:

Name of the Statute	Nature of the dues	Amount (in Rs. lakhs)*	Period to which the amount relates	Forum where the dispute is pending

- viii. According to the information and explanations given to us and as per the books and records examined by us, in our opinion, the company has not defaulted in repayment of loans or borrowings to a financial institution and banks. The Company has not taken any loans from debenture holders and Government.
- ix. In our opinion and on the basis of information and explanations given to us, the company has not raised any monies by way of initial public offer or further public offer or term loan during the financial year, hence the related reporting requirement of the Order are not applicable.
- x. During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of fraud on or by the Company or any fraud on the Company by its officers or employees has been noticed or reported during the year, nor have we been informed of such case by the management.
- xi. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V of the Act.

**"ANNEXURE B" TO THE INDEPENDENT AUDITOR'S REPORT**

Annexure B to the Independent Auditor's Report to the Members of Khaitan Chemicals and Fertilizers Limited ("the Company") on its Ind AS financial statements dated May 19, 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") as referred to in paragraph 1(f) of 'Report on Other Legal and Regulatory Requirements' section

We have audited the internal financial controls over financial reporting of Khaitan Chemicals and Fertilizers Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the company is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to financial statements for the year ended March 31, 2018

Summary of significant accounting policies and Notes on accounts for the year ended March 31, 2018

1. Corporate Information

Khaitan Chemicals and Fertilizers Limited (the Company) is engaged in the manufacturing of Single Super Phosphate Fertilisers (Plain, Zincated and Boronated in powder form and granulated form), Sulphuric Acid and its variants, Trading of NPK Fertilisers, Processing of Oil Seed (mainly Soybean) and crude edible oil, selling of De-Oiled Cake and Crude/Refined Oil & Generation and selling of Wind Power. The Company is a public limited company incorporated and domiciled in India under the provisions of Companies Act, 2013. Its shares are listed on the Bombay Stock Exchange Limited, Mumbai (BSE).

2. Basis of Preparation of Financial Statements

a) Statement of compliance

The Financial Statements have been prepared in accordance with Indian Accounting Standards (IND AS) as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and relevant provisions of the Companies Act, 2013.

b) Basis of preparation of financial statements

These financial statements have been prepared in accordance with IND AS 101, "First Time Adoption of IND AS", as these are the Company's first IND AS compliant Financial Statements for the year ended 31st March, 2018.

The Financial Statements correspond to the classification provisions contained in IND AS-1 (Presentation of Financial Statements). The transition to IND AS has been carried out from the Accounting Principles generally accepted in India (Indian GAAP), which is considered as the "Previous GAAP", for purposes of IND AS - 1.

The preparation of these Financial Statements resulted in changes to the Company's Accounting Policies as compared to the most recent Annual Financial Statements prepared under Previous GAAP, wherever necessary. All Accounting Policies and applicable IND AS have been applied consistently and retrospectively to all periods, including the previous financial year presented and the IND AS opening balance sheet as at 1st April, 2016 (Transition Date). The resulting difference between the carrying amounts under IND AS and Previous GAAP as on the Transition Date has been recognised directly in Equity. An explanation of the effect of the transition from Previous GAAP to Ind AS on the Company's equity and profit is provided in Note 53.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The financial statements are presented in INR and all values are rounded to the nearest INR Lakh (100 Thousand), except when otherwise indicated.

Business Combinations: The Company has opted to apply IND AS 103 prospectively from the date of transition to IND AS, i.e. 1st April 2016 onwards. However, previous GAAP balances relating to assets and liabilities acquired under business combinations entered into before transition date, have been carried forward without any adjustments.

c) Use of Estimates

The preparation of the financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

d) Classification of Assets and Liabilities as Current and Non-Current

All Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of product & activities of the Company and their realisation in cash and cash equivalent, the Company has determined its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3. Significant Accounting Policies for the year ended 31st March, 2018.

a) Revenue Recognition

- i. **Sale** - Revenue from the sale of goods is recognised, when all the significant risks and rewards of ownership of the goods have passed to the buyer, the Company no longer has effective control over the goods sold, the amount of revenue and costs associated with the transaction can be measured reliably and no significant uncertainty exists regarding the amount of Consideration that will be derived from the sales of Goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. The sales include the excise duty and exclude Value added tax/sales tax/Goods and services tax. Export incentives, Duty drawbacks and other benefits are recognized in the Statement of Profit and Loss.
- ii. **Interest** - Interest income is recognized on a time proportion basis taking into account the amount outstanding and rate applicable, effective interest method, wherever applicable.
- iii. **Subsidy** - Fertilizer Subsidy, wherever applicable, is accounted for on actual sales and is net off of any subsequent non receipt reversal.
- iv. **Dividend** - Dividends are accounted for when the right to receive the dividend payment is established.

b) Government Grants and Subsidies

Grants and Capital subsidy from the government is recognized on receipt basis with the reasonable assumption that the Company will comply with conditions attached to them and such amount is credited to capital reserves. Further, in accordance with the guidelines issued by ICAI, proportionate amount to the extent of depreciation charged, is being transferred to retained earnings in case of grant received in relation to acquisition of any assets.

c) Excise Duty

Excise duty payable on products is accounted for at the time of dispatch of goods from the factories but is accrued for stocks held at the year end, if applicable.

d) Employee Benefits

- i. Short term employee benefits obligations are estimated and provided for.
- ii. Post-employment benefits and other long term benefits:

**Notes to financial statements for the year ended March 31, 2018****a) Defined contribution plans:**

Company's contribution to provident fund, superannuation fund, employee state insurance and other funds are determined under the relevant schemes and/or statute and charged to revenue.

b) Defined benefits plans:

Company's Liability towards gratuity and leave encashment is actuarially determined at each balance sheet date using the projected unit credit method. Actuarial gains and losses are recognized in Other Comprehensive Income and other costs are recognized in statement of profit and loss. Gratuity and Leave encashment liabilities are funded and administered through Group Gratuity Scheme with Life Insurance Corporation of India.

e) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Finance Lease

Finance Lease that transfer substantially all of the risks and benefits incidental to ownership of the leased item, are capitalised at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and a reduction in the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's policy on borrowing costs.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating Lease

Assets acquired on leases where a significant portion of the risks and rewards of ownership are retained by lessor are classified as operating leases. Lease rentals paid for operating leases are charged to Statement of Profit and Loss with reference to lease term and other consideration.

f) Borrowing Cost

Borrowing costs that are attributable to the acquisition or constructions of qualifying assets are capitalised as part of the cost of assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to revenue.

g) Property, plant and equipment

- i. On transition to IND AS, the company has adopted optional exception under IND AS 101 to measure Property, Plant and Equipment at carrying value. Consequently the carrying value has been assumed to be deemed cost of Property, Plant and Equipment on the date of transition. Subsequently Property.
- ii. Property, plant and equipment acquired after the transition date are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the assets to its working condition for the intended use. Any trade discounts, rebates & cenvat availed, are deducted in arriving at the purchase price.
- iii. Capital work-in-progress comprises of the cost of fixed assets that are not yet ready for their intended use at the reporting date.
- iv. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the costs to the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gain or losses are recognized in the statement of profit and loss.
- v. Gains or losses arising from de-recognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the assets is derecognized.
- vi. Machinery Spares /Standby equipments which are used only in connection with Property, plant and equipment and are of material value to the overall value of the asset are capitalized.

h) Intangible assets

Intangible Assets are carried at cost, net of accumulated amortization and impairment losses, if any. Cost of intangible asset comprises of purchase price and attributable expenditure on making the asset ready for its intended use.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the assets is derecognized.

i) Research and Development cost

Revenue expenditure on Research and Development is charged to statement of Profit and loss in the year in which it is incurred and capital expenditure is added to Fixed Asset.

j) Depreciation and Amortisation

- i. Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets as prescribed in Schedule II of the Companies Act, 2013, except in respect of following categories of assets in whose case the life of certain assets has been assessed based on technical advice taking into account the nature of the asset, the estimated usage of the asset, the operating condition of the asset, past history of replacement, maintenance support etc.
- ii. Depreciation for assets purchased/sold during a period are proportionately charged.
- iii. Intangible Assets are amortized on straight-line basis over the estimated useful economic life not exceeding 10 years. The Intangible Assets are assessed for impairment whenever there is an indication that the Intangible Assets impaired.
- iv. The leasehold land is amortised over the primary lease period excluding on perpetual lease. Freehold land is not depreciated.
- v. Assets individually costing Rs 5000 or less are depreciated fully in the year of purchase.

k) Impairment of tangible and intangible assets

The carrying amounts of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its estimated recoverable amount and such assets are written down to their recoverable amount.

Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses, recognized for the assets, no longer exists or have decreased to the extent of previously recognized impairment losses.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the statement of profit and loss.

Notes to financial statements for the year ended March 31, 2018

l) Inventories

Inventories are valued at the lower of cost and estimated realisable value. However material and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated / used are expected to be sold at or above cost. The cost of inventories is generally arrived at on the following basis:

Raw Material	Quarterly weighted average method for Fertilizer Division and FIFO method for Agri Division.
Packing material and Stores & Spares	Monthly weighted average method.
Finished goods and work-in-progress	Raw material cost and proportion of manufacturing overheads. Excise duty, if any, is included in the value of Finished goods Inventory.

m) Financial Assets & Liabilities

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

At initial recognition, all financial assets are measured at fair value. Such financial assets are subsequently classified under following three categories according to the purpose for which they are held. The classification is reviewed at the end of each reporting period.

i. Financial Assets at Amortised Cost

At the date of initial recognition, are held to collect contractual cash flows of principal and interest on principal amount outstanding on specified dates. These financial assets are intended to be held until maturity. Therefore, they are subsequently measured at amortised cost by applying the Effective Interest Rate (EIR) method to the gross carrying amount of the financial asset. The EIR amortisation is included as interest income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

ii. Financial Assets at Fair value through Other Comprehensive Income

At the date of initial recognition, are held to collect contractual cash flows of principal and interest on principal amount outstanding on specified dates, as well as held for selling. Therefore, they are subsequently measured at each reporting date at fair value, with all fair value movements recognised in Other Comprehensive Income (OCI). Interest income calculated using the effective interest rate (EIR) method, impairment gain or loss and foreign exchange gain or loss are recognised in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in Other Comprehensive Income is reclassified from the OCI to Statement of Profit and Loss.

iii. Financial Assets at Fair value through Profit or Loss

At the date of initial recognition, financial assets are held for trading, or which are measured neither at Amortised Cost nor at Fair Value through OCI. Therefore, they are subsequently measured at each reporting date at fair value, with all fair value movements recognised in the Statement of Profit and Loss.

Trade Receivables.

A Receivable is classified as a 'trade receivable' if it is in respect to the amount due from customers on account of goods sold or services rendered in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. For some trade receivables the Company may obtain security in the form of guarantee, security deposit or letter of credit which can be called upon if the counterparty is in default under the terms of the agreement.

Impairment is made on the expected credit losses, which are the present value of the cash shortfalls over the expected life of financial assets. The estimated impairment losses are recognised in a separate provision for impairment and the impairment losses are recognised in the Statement of Profit and Loss within other expenses.

Subsequent changes in assessment of impairment are recognised in provision for impairment and the change in impairment losses are recognised in the Statement of Profit and Loss within other expenses.

Investment in Equity Shares.

Investments in Equity Securities are initially measured at cost. Any subsequent fair value gain or loss is recognized through Profit or Loss if such investments in Equity Securities are held for trading purposes. The fair value gains or losses of all other Equity Securities are recognized in Other Comprehensive Income.

Derecognition.

Financial Asset is primarily derecognised when:

- i. The right to receive cash flows from asset has expired, or.
- ii. The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement and either:
 - a) The Company has transferred substantially all the risks and rewards of the asset, or
 - b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Financial Liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

Subsequent Measurement.

The measurement of financial liabilities depends on their classification, as described below:

i. Financial Liabilities at Fair Value through Profit or Loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. The Company has not designated any financial liabilities upon initial measurement recognition at fair value through profit or loss. Financial liabilities at fair value through profit or loss are at each reporting date with all the changes recognized in the Statement of Profit and Loss.

**Notes to financial statements for the year ended March 31, 2018****ii. Financial Liabilities measured at Amortised Cost.**

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method ("EIR") except for those designated in an effective hedging relationship. The carrying value of borrowings that are designated as hedged items in fair value hedges that would otherwise be carried at amortised cost are adjusted to record changes in fair values attributable to the risks that are hedged in effective hedging relationship.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the Statement of Profit and Loss.

iii. Loans and Borrowings.

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

iv. Trade and Other Payables.

A payable is classified as 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

De-recognition of Financial Liability

A Financial Liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Offsetting of Financial Instruments

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derivative Financial Instruments

The Company uses derivative financial instruments, such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks. Derivative financial instruments are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each period. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, on the nature of the item being hedged. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

n) Foreign Currency Transactions/ Hedge Accounting

Financial statements are presented in Indian Rupee, which is Company's functional currency. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Financial instruments designated as Hedge Instruments are mark to market using the valuation given by the bank on the reporting date. Exchange differences arising on settlement of monetary items on actual payments / realisations and year end translations including on forward contracts are dealt with in Profit and Loss Statement.

o) Taxation**Income Tax**

The current tax is determined as the amount of tax payable in respect of the estimated taxable income for the year in accordance with the provisions of Income Tax Act, 1961. Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred Tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Minimum Alternate Tax

Minimum Alternate Tax credit is recognized, as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period.

p) Pre project expenditure

The expenses on pre-feasibility study reports, market survey reports, and techno-economic feasibility reports etc. on new projects are allocated to the Fixed Assets on completion of the projects. Where the projects are proved in-fructuous, they are charged to the revenue in the year in which the decision is taken to scrap the same.

q) Earning per share

The Company reports basic and diluted earnings per equity share in accordance with Indian Accounting Standard 33—"Earning per share". Basic earnings per equity share is computed by dividing net profit after tax by the weighted average number of equity shares outstanding during the year. The Company does not have any diluted equity share, hence Basic and Dilutive earning per share is same.

r) Provisions and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can

**Notes to financial statements for the year ended March 31, 2018**

be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost

Contingent Assets are not recognised in financial statements but are disclosed, since the former treatment may result in the recognition of income that may or may not be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate.

s) Cash and Cash Equivalents

Cash and cash equivalents for the purpose of cash flow statements comprises cash at bank and in hand and short term investments with an original maturity of 3 months or less.

t) Cash Flow Statements

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

u) Derivatives Instruments

In accordance with the ICAI announcement, derivative contracts, other than foreign currency forward contracts covered under AS 11, are marked to market on a portfolio basis, and the net loss, if any, after considering the offsetting effect of gain on the underlying hedged item, is charged to the statement of profit and loss. Net gain, if any, after considering the offsetting effects of loss on the underlying hedged item, is ignored.

v) Segment Reporting

The Company is organized into three primary business segments mainly Fertilizer and Chemicals, Agro (Soya) and others, based on nature of products. The management and administration are centralized and considered as part of 'Fertilizer & Chemicals' segment, being major activities.

Unallocated items include general corporate income, expense, assets and liabilities items which are not allocated to any business segment.

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as whole.

w) Fair Value Measurements

The Company measures financial instruments such as derivatives and certain investments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

- i. Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- ii. Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- iii. Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

x) Significant Accounting Judgments, Estimates and Assumptions

In the process of applying the Company's accounting policies, management has made the following estimates, assumptions and judgements which have significant effect on the amounts recognized in the financial statement:

i. Income taxes

Judgment of the Management is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the standalone financial statements.

ii. Contingencies

Judgment of the Management is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the company as it is not possible to predict the outcome of pending matters with accuracy.

iii. Allowance for uncollected accounts receivable and advances

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not collectible. Impairment is made on ECL, which are the present value of the cash shortfall over the expected life of the financial assets.

iv. Defined Benefit Plans.

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in future. These includes the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

v. Fair Value Measurement of Financial Instruments.

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

50 Financial Risk Management objectives and Policies

a. Financial risk factors

The Company's operational activities expose to various financial risks i.e. market risk, credit risk and risk of liquidity. The Company realizes that risks are inherent and integral aspect of any business. The primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk & interest rate risk. The Company calculates and compares the alternative sources of funding by including cost of currency cover also. Whenever, the currency cover costs are such as to neutralize the advantage in foreign currency, loans are hedged so as to not to lose advantage. The Company uses derivative financial instruments to reduce foreign exchange risk exposures.

KHAITAN CHEMICALS AND FERTILIZERS LIMITED

Notes to financial statements for the year ended March 31, 2018

This note explain the sources of risk which the entity is exposed to and how the entity manages the risk :

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables	Ageing Analysis, credit risk analysis	Diversification of bank deposits, credit limits and letter of credit
Liquidity Risk	Borrowings and other liabilities	Rolling cash flow forecast	Availability of committed credit lines and borrowing facilities
Market Risk -Foreign Exchange	Future Commercial transactions, Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash flow forecasting Sensitivity Analysis	Forward foreign exchange contracts Foreign Currency options
Market Risk -Interest Rate	Long term borrowings at variable rates	Sensitivity analysis	Interest rate swaps
Market Risk -Security prices	Investments in equity securities	Sensitivity analysis	Portfolio diversification

i) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of fluctuation in market prices. These comprise three types of risk i.e. currency rate, interest rate and other price related risks. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments. Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Regular interaction with bankers, intermediaries and the market participants help us to mitigate such risk.

Foreign Currency Risk and sensitivity

The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to reduce foreign exchange risk exposures and follows its risk management policies to mitigate the same. After taking cognisance of the natural hedge, the company takes appropriate hedges to mitigate its risk resulting from fluctuations in foreign currency exchange rate(s).

KHAITAN CHEMICALS AND FERTILIZERS LIMITED

Notes to financial statements for the year ended March 31, 2018

Interest Rate Risk and Sensitivity

The Company's exposure to the risk of changes in market interest rates relates primarily to long term debt. The Company has entered into various interest rate swap contracts, in which it agrees to exchange, at specific intervals, the difference between fixed and variable interest amounts calculated by reference to an agreed upon principal amount. Borrowings at variable rates expose the Company to cash flow interest rate risk. With all other variables held constant, the following table demonstrates composition of fixed and floating rate borrowing of the company and impact of floating rate borrowings on company's profitability.

c. Commodity price risk and sensitivity

The Company is exposed to the movement in price of key raw materials in domestic and international markets. The Company has in place policies to manage exposure to fluctuations in the prices of the key raw materials used in operations. The Company manages fluctuations in raw material price through hedging in the form of advance procurement when the prices are perceived to be low and also enters into advance buying contracts as strategic sourcing initiative in order to keep raw material and prices under check cost of material hedged to the extent possible.

ii) Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to Rs. 9956.36 lakhs and Rs. 9203.61 lakhs as of March 31, 2018 and March 31, 2017, respectively. Trade receivables are typically unsecured and are derived from revenue earned from customers primarily located in India. Credit risk has always been managed by the company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the company uses expected credit loss model to assess the impairment loss or gain. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account as per the Company's historical experience for customers.

The following table gives details in respect of revenues generated from top customer and top five customers:

iii) Liquidity risk

Liquidity risk arises when the Company will not be able to meet its present and future cash and collateral obligations. The risk management action focuses on the unpredictability of financial markets and tries to minimise adverse effects. The Company uses derivative financial instruments to hedge risk exposures. Risk management is carried out by the Finance department under Forex Policies as adopted and duly approved by the Board. The Company's approach is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due and company monitors rolling forecasts of its liquidity requirements.

51 Fair Value Measurement

i) Some of the financial assets and financial liabilities are measured at fair value at the end of the reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation techniques and inputs used):

Financial Asset (Financial Liabilities)	Fair Value at*			Fair Value Hierarchy	Valuation Technique and key input used
	As at	As at	As at		
	March 31, 2018	March 31, 2017	April, 01, 2016		
1) Foreign currency forward contracts	(54.49)	(938.88)	(254.81)	Level 2	Refer Note 3
2) Investments in unquoted equity instruments at fair value through other comprehensive income	143.91	143.91	140.40	Level 3	Refer Note 4

*positive value denotes financial asset (net) and negative value denotes financial liability (net)

Notes:

- There were no level 1 financial instruments during the period.
- There were no transfers between the Levels for the purpose of fair valuation.
- The following table shows the valuation technique and key input used for Level 2:

Financial Instrument	Valuation Technique	Key Inputs used
Foreign currency forward contracts	Discounted cash flows	Flow Forward exchange rates, contract forward and interest rates, observable yield curves.

4. The following table shows the valuation technique and key input used for Level 3:

Financial Instrument	Valuation Technique	Key Inputs used	Sensitivity
Investments in unquoted equity instruments at fair value through other comprehensive income	Weighted average of Net asset value, discounted cash flows and profit earning capacity.	Projected cash flows, discount for expected rate of capitalisation, return and risk.	A 100 basis points increase/decrease in discount rate holding other variables constant would increase/decrease the amount of investment by Rs. 3.32 lakhs (March 31, 2017: Rs. 3.32 Lakhs, April 1, 2016: Rs. 3.22 Lakhs)

There is no significant reconciliation items between cash flow prepared under Previous GAAP and prepared under Ind AS.

ii) Exemptions availed on first-time adoption of Ind AS 101

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has accordingly applied the following exemptions.

A) Optional Exemptions

a) Deemed Cost

The company has elected to avail the exemption in para D7AA, Ind AS 101 and has continued with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments

b) Leases

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. However, the Company has done the assessment of lease in contracts based on conditions in prevailing as at the date of transition.

c) Designation of previously recognised financial instruments

Under Ind AS 109, at initial recognition of a financial asset, an entity may make an irrevocable election to present subsequent changes in the fair value of an investment in an equity instrument in other comprehensive income. Ind AS 101 allows such designation of previously recognized financial assets, as 'fair value through other comprehensive income' on the basis of the facts and circumstances that existed at the date of transition to Ind AS.

Accordingly, the Company has designated its investments in certain equity instruments at fair value through other comprehensive income on the basis of the facts and circumstances that existed at the date of transition to Ind AS.

d) Fair value measurement of financial assets and liabilities at initial recognition

Ind AS 109 requires to initially recognised financial assets and liabilities at fair value. And if the fair value differ from transaction price, the difference is recognised as gain or loss. An entity can apply these requirement of initially recognition prospectively to transaction entered on or after the date of transition.

B) Mandatory Exceptions

The following mandatory exceptions have been applied in accordance with Ind AS 101 in preparing the financial statements.

a) Estimates

Entity's estimate in Ind AS on date of transition shall be consistent with estimate made under previous GAAP, unless there is objective evidence that those estimates were in error. Any new information shall be accounted as non-adjusting event in accordance with Ind AS 10.

b) Derecognition of financial assets and financial liabilities

The Company has elected to apply the derecognition requirements for financial assets and financial liabilities in Ind AS 109 prospectively for transitions occurring on or after the date of transition to Ind AS. The Company has classified the financial assets in accordance with Ind AS 109 on the basis of facts and

circumstances that exist at the date of transition to Ind AS. An entity can apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 as a result of past transactions was obtained at the time of initially accounting for those transactions.

c) Classification and measurement of financial assets

An entity shall measure its financial assets either at amortized cost or at FVTOCI or FVTPL by assessing its contractual cash flow characteristics only on the basis of facts and circumstances existing on transition date. If it is impracticable for an entity to apply effective interest method retrospectively then fair value of financial instrument shall be new gross carrying amount of financial assets or the new amortised cost of financial liability.

Notes to the reconciliation of equity as at 1st April, 2016 and 31st March, 2017 and total comprehensive income for the year ended 31st March, 2017

A. Property, plant and equipment -Standby stores

The company has capitalised material standby spares which were earlier carried in inventories. The capitalised stores are depreciated over the remaining life of the machinery / equipment to which it relates from the date of purchase of such spare.

B. Investments (Non - Current & Current)

For investment in Quoted Instrument, Company has elected to fair value through OCI.(FVTOCI)

C. Financial instruments

1. Derivative financial instruments

Under Indian GAAP, derivative contracts are restated at each balance sheet date, to the extent of any reduction in value is recognised in Statement of Profit and Loss. A gain on valuation is only recognised by the Company if it represents the subsequent reversal of an earlier loss. Also under IGAAP premium on forward contract is amortised over the contract period and value was calculated excluding the premium. Under IND AS, both reductions and increases to the fair values of derivative contracts are recognised in profit & loss. Premium is not separately accounted and amortised.

Under Ind AS, the derivative contracts are marked to market and both reduction and increase are recognised to profit and loss. Premium is not separately accounted and amortised.

2. Borrowings

Borrowing designated and carried at amortised cost are accounted on EIR method. The upfront fee or cost of borrowing incurred is deferred and accounted on EIR basis. Borrowings are shown as net of unamortised amount of upfront fee incurred.

D. Proposed Dividend

Under Indian GAAP, proposed dividends are recognised as liability in the period to which they relate irrespective of the approval by shareholders. Under IND AS a proposed dividend is recognised as liability in the period in which it is declared (on approval of shareholders in a general meeting) or paid. Therefore the proposed dividend and dividend distribution tax for the F.Y. 2015-16 has been derecognised on the date of transition and recognised during 2016-17 when it was approved by shareholders in general meeting.

E. Allowance for Expected Credit Loss

The company has assessed the expected credit loss on trade receivables in accordance with Ind AS 109 and has provided for an allowance on the basis above assessment. The effect has been shown as reconciliation item in equity reconciliation.

F. Provision for Non-Moving stores and spares

The company has re-assessed the non-moving stores and has provided an allowance on such items on a rational basis.

G. Deferred Tax

(i) Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences, which was not required under Indian GAAP.

(ii) In addition, the various transitional adjustments lead to different temporary differences resulting in recognition of deferred tax. Such deferred tax asset has been recognized in retained earnings.

H. Excise Duty

Paragraph 8 of Ind AS 18, Revenue states that 'Revenue includes only the gross inflows of economic benefits received and receivable by the entity on its own account. Amounts collected on behalf of third parties such as sales taxes, goods and services taxes and value added taxes are not having any economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenue and shown separately.

I. Re-measurement of post-employment benefit obligations

Under Ind AS, Re-measurement i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these Re-measurement were forming part of the profit or loss for the year.

54. Previous year figures have been re-arranged and/or regrouped wherever considered necessary, to confirm current year classification.

55. The financial statements are presented in INR and all value are rounded to the nearest INR lakhs, except when otherwise indicated.
