MANAGEMENT DISCUSSION AND ANALYSIS

1. BUSINESS OVERVIEW & TRENDS

Increasing disposable incomes, a change in the spending habits, increasing affordability due to numerous holiday packages and the trend of owning a car will grow domestic tourist traffic, provided the impact of the high incidence of GST rate of 28% are acceptable to the individual traveller, corporate guests however will not be impacted given the set off on the taxes for intermediaries.

Hotels upto now were increasingly cashing in on food and beverages, restaurants, wellness services and other ancillary services. These services are contributing more than 30% of the overall revenues our hotel. Non-room revenues of hotels have contributed substantially of overall revenues. Food price and wage inflation has been a major concern. The Corporates that form our market cut costs on company travel and conferences. Discretionary spending stayed stagnated impacting our revenues.

2. NATURE OF INDUSTRY

2.1 The hotel industry has always in a challenging stage from year to year. Every event affects the business.

2.1.1 The key characteristics of the hotel industry are :

The industry is primarily capital intensive coupled with depreciation costs on the buildings, furniture, fixtures and equipment and other assets. During periods of growth the depreciation and interest costs rise rapidly as capacity additions take place. The relevant parameter for evaluation of management performance in the growth mode is thus EBITDA (Earnings Before Interest Tax Depreciation and Amortization), rather than Profit After Tax (PAT), since the depreciation and interest costs are expensed relatively quickly (over a 8-10 year frame) against an asset that has a life of 80 to 100 years.

2.1.2 The hotel industry is also cyclical due to the nature of capacity additions being lumpy while the demand growth

is smooth. However, the exact position of the industry on the business cycle varies from city to city, depending on the forces of demand and supply in that city. Silvassa has added new Hotels and more rooms in older hotels.

2.1.3 Seasonality Trend: The Indian hotel industry reflects a clear seasonality trend. For example in India, the tourism and hospitality industry shows signs of an uptrend in the months of November to February due to higher tourist flows. The months of June to September on the other hand are months of low occupancies and revenue, with fewer business or leisure visitors. There is considerable improvement in the months of June to September that we have experienced.

2.1.4 Strong dependence on the services economy: The hotel industry tourist segment is highly dependent on services economy in terms of performance. Thus in the years of the services economy boom, the hotels business has grown well and has been relatively unaffected by the under performance of the manufacturing sectors of the economy.

2.1.5 Brand Impact: The hotel industry is characterized by strong brand focus resulting in choices being made by the customer based on factors beyond price – especially in the high-end segment where the brand is a hallmark of product and service quality. Your Company and its “Complete Vacation & Conference Centre” have strong brand recognition and customer loyalty. The company has also entered into a Franchise agreement with Keys a mid market brand to enhance distribution channels through KEY’s pan India presence of 20 sales offices.

2.1.6 Instant perishability of the product: The industry belongs to the service sector and thus the product (service) is instantly consumed and cannot be replenished. Thus, one needs

to maximize utilization of available capacity and reduce marginal costs over marginal revenues.

2.1.7 The major cost drivers in the industry are:

- Food and beverage costs
- Employee costs
- Power and fuel expenses
- Administrative and other overhead costs
- Advertising and publicity expenses

3. BUSINESS PERFORMANCE

The significant trends that drive the hotel industry are the opportunities for growth into new markets. Hospitality industry is under going a period of unprecedented change and becoming more a real estate play and will continue to transform. This is also a period of unparalleled opportunity and the need of the hour is to remain at the forefront of understanding the travellers need and demand, both now and into the future. Understanding these key business drivers and delivering the technology will support the hoteliers to stay competitive in a rapidly changing world.

3.1 The Company has continued the Real Estate business and has invested in plots at Silvassa.

4. RISK FACTORS

4.1 Risks related to presence in Silvassa, India

4.1.1 Political and economic environment risks: With the political and economic environment being stable in India, the hospitality industry will be benefited. With the services sector increasing its contribution share of the Indian GDP, over the medium term the fortunes of our industry are expected to improve further. With India joining the global mainstream of business and attracting more foreign investments and its presently high levels of domestic tourist traffic, the future has good potential for the hotel industry.

4.1.2 Socio-Political risks: The Hotels industry faces risk from the volatile socio-political environment in the local area.

4.2 Industry / sector specific risks

4.2.1 Infrastructure related risks:

Presence of good infrastructure in terms of airports/ roads is critical to attract customers. With the Government of India planning to privatise the airport, to increase efficiency to international standards and the commissioning of the Golden Quadrilateral Highway, business activity is expected to improve, and the hotel industry will benefit from these improvements in infrastructure.

4.2.2. Government concessions / restrictions to the hospitality industry:

Tourism as a major economic activity has been identified as such by the Government of India. The importance of the sector is expected to grow in the coming years.

4.3 Risk associated with the Company

4.3.1 Risk of wage inflation: the hotel industry needs quality employees and with demand for the same improving across the industry, the Company feels that wage inflation is a critical factor in determining costs for the Company. Thus, your Company will continue to focus on improving manpower efficiencies and creating a lean organization, while maximizing effectiveness in terms of customer service and satisfaction, as an area of great importance for the management of your Company.

4.3.2 To strengthen the operations and develop attention to detail your company has added training as a requirement for all new hires.

4.3.3 Client Concentration: Your Company provides its services to 7 broad market segments, namely – Corporate/ Business, Leisure, Longstayers, Groups, Conferences, Events (including weddings) and Packages. The Company does not face any significant risk since there is no excessive concentration of business with any single client.

5. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

5.1 The systematic evaluation and improvement of internal control and internal Audit continued during the year 2016-2017. The coverage has been comprehensive and exhaustive with a great degree of involvement of the Unit personnel and satisfactory compliance with previous year's agreed audit recommendations.

6. LIMITATIONS OF FINANCIAL STATEMENTS

6.1 Contingent Liabilities

6.1.1 The accounting standard definition of a contingent liability is as follows:

- a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the entity's control; or
- a present obligation that arises from past events but is not recognized because it is not probable that a transfer of economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

7. FUTURE OUTLOOK

7.1 INTERNATIONAL

7.1.1 Most economies of the world other than India are experiencing lower growth.

7.2 FUTURE OUTLOOK FOR INDIA

7.2.1 India has emerged as a resilient performer in the world scenario in the last financial year. In the current political scenario focus on the reforms is expected to gain further momentum in the coming years.

7.2.2 The Indian economy has been performing consistently.

7.2.3 Development in the road infrastructure is expected to improve conditions in the

country and thus emerge as a growth driving factor for the economy on the whole.

7.3 FUTURE OUTLOOK FOR THE INDUSTRY

In the future, the demand for the rooms and F & B is expected to grow because of the following factors:

- Improvements in the infrastructure sector viz. roads
- Higher Disposable income
- High GDP growth
- Investment Reforms will further boost up long-term capital inflow into the sector.

In the long term, for the growth of the industry to be sustained, issues like poor infrastructure, high levels of taxation need to be solved. Land development, less of paper and legal work, faster execution is needed to meet the growing demand. Adding rooms at a faster pace would stabilise the room rates and not have a negative effect on the potential demand in the future.

7.4 REAL ESTATE ACTIVITY

The efforts are on for starting the real estate business activities in Silvassa for high end residential space for leisure purchasers and corporate purchasers.

7.5 CONCERNS FOR THE FUTURE

The good monsoon could enhance business mood

8. HUMAN RESOURCES AND INDUSTRIAL RELATIONS

8.1 The Company's mission is to achieve and sustain leadership in the Hospitality industry and to deliver value to its customers by rewarding and recognizing quality customer care based upon individual and team performance. The Company provides opportunities for continuous learning and development and abides by fair policies to ensure the well being of its

employees, their family, the community and the environment.

8.2 Improvements in all the areas of the hotels have been affected through:

8.2.1 A clear understanding of the group's philosophy and flexibility in the Customer Relationship Management;

8.2.2 To build a culture of trust and transparency, Staff Meetings have been initiated where employees are briefed on the new activities and the business scenario and regular training imparted.

9. CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be 'forward looking statements' within the meaning of applicable securities laws and regulations. As 'forward looking statements' are based on certain assumptions and expectations of future events over which the Company exercises no control, the Company cannot guarantee their accuracy nor can it warrant that the same will be realized by the Company. Actual results could differ materially from those expressed or implied. Significant factors that could make a difference to the Company's operations include domestic and international economic conditions affecting demand, supply and price conditions in the hospitality industry, changes in government regulations, tax regimes and other statutes.

“ANNEXURE B” TO THE INDEPENDENT AUDITORS’ REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Ras Resort & Apart Hotels Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of Internal Control stated in the Guidance note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable

assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s

33rd ANNUAL REPORT 2016-17

assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls

system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the company considering the essential components of Internal Control stated in the Guidance note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI).

NOTE - 1:

Significant Accounting Policies and Notes annexed to and forming part of the Balance Sheet as at 31st March, 2017 and Profit & Loss Account for the year ended 31st March, 2017.

STATEMENT ON SIGNIFICANT ACCOUNTING POLICIES:

(i) General

The financial statements are prepared as a Going-concern and Historical cost convention, on accrual basis and in accordance with the Companies Act 2013. Accounting policies not stated explicitly otherwise are consistent with the accounting principles generally accepted in India.

(ii) Use of Estimates

The presentation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and the estimates are recognized in the period in which the results are known / materialised.

(iii) Income Recognition

Revenues are accounted on accrual, except to the extent stated otherwise.

Non-refundable deposits received under a time-share scheme are recognized as revenue over the tenure of the scheme.

(iv) Borrowing costs

Borrowing cost that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets up to the date when such assets are ready for intended use. Other borrowing costs are charged as expense in the year in which they are incurred.

(v) Fixed Assets

Fixed Assets, other than Land and Building, are carried at cost less depreciation. Buildings and Land, which have been revalued, are carried at replacement cost value, net of depreciation, and fair market value respectively.

Direct costs are capitalized up to the date when fixed assets are ready for use. Capital-work-in progress comprises outstanding advances paid to acquire fixed assets, and the cost of fixed assets that are not ready for their intended use at the balance sheet date.

(vi) Depreciation

Depreciation is provided on the Straight Line method in the manner prescribed in Schedule II to the Companies Act, 2013.

Depreciation on additions/deletion is provided on pro-rata basis with reference to the date of addition/deletion as the case may be.

Depreciation on additions to building on revaluation is being provided over the remaining useful life as indicated by the valuer. Such depreciation is adjusted against Revaluation Reserve.

(vii) Subsidies

Central Investment Subsidy granted by the Government is credited to "Capital Reserve".

(viii) Inventories

Food & Beverages, Operating supplies and Stores are valued at lower of cost (weighted average basis) or net realizable value.

(ix) Retirement Benefits

The Company contributes towards Provident Fund and Super Annuation Fund which are defined contribution schemes. Liability in respect thereof is determined on the basis of contribution required under the statutes/rules. Gratuity liability is accrued and provided for on the basis of actuarial valuations made at the year end. Provision for leave encashment which is an actual liability, is provided for.

NOTE - 1: (Contd.)

(x) **Investments**

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the long-term investments.

(xi) **Foreign Currency Transactions**

Foreign currency transactions are recorded at the exchange rate prevailing on the date of the transaction. Gains/ losses arising on banking of foreign currency are recognized in the Profit and Loss Account on realization / incurrence.

(xii) **Taxes on Income**

Provision for current tax is made after taking into consideration benefits admissible under the provisions of Income Tax Act, 1961. Deferred tax provision is made considering 'timing differences' between book and taxable profit using the tax rates and laws that have been enacted or substantively enacted as on the balance sheet date. The deferred tax asset is recognized and carried forward only to the extent that there is reasonable/virtual certainty that asset will be realized in future.

(xiii) **Impairment of Assets**

Impairment is ascertained at each balance sheet date in respect of the Company's fixed assets. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimate future cash flows are discounted to their present value based on an appropriate discount factor.

(xiv) **Accounting for Provisions, Contingent Liabilities and Contingent Assets**

A provision is recognized when the Company has a legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. A contingent liability is disclosed when the Company has a possible or present obligation where it is not probable that an outflow of resources will be required to settle it. Contingent assets are neither recognized nor disclosed in the financial statements.

30. SEGMENT REPORTING

The segment reporting of the Company has been prepared in accordance with Accounting Standard (AS-17), "Accounting for Segment Reporting" issued by The Institute of Chartered Accountants of India.

Segment Reporting Policies

(a) Identification of Segments:

Primary – Business Segment

The Company has identified two reportable segments viz. Hoteliering & Real Estate on the basis of the nature of services, the risk return profile of individual business and the internal business reporting systems.

Secondary – Geographical Segment

The Company operates entirely in India and hence has no reportable geographical segment.

(b) Revenue and expenses have been identified to the segment on the basis of relationship to operating activities of the segment. Revenue and expenses which relate to enterprise as a whole and are not allocable to a segment on reasonable basis have been disclosed as "allocable expenses". Since the Real Estate segment is still in 'preoperative stage' all the other unallocable expenses are allocated to Hoteliering segment.

(c) Segment assets and segment liabilities represent assets and liabilities in respective segments. Investment, tax related assets and other assets and liabilities that cannot be allocated to a segment on reasonable basis have been disclosed as "unallocated assets" and "unallocated liabilities".
