MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENT

Due to the age of the Information Technology Industry and its links with the social structure, the organizational structure that has emerged is a very complex one containing within it elements of continuity with traditional structures of small scale industries, as well as those that represent a break with them evolving as a much more organized and large scale industry like your Company.

Small scale reservation has been in existence for the Components and Technology products industry when reservation was extended from small Technology sector to a large number of industries where small scale is important. Post nineties there has been a gradual de-reservation and the entire Technology sector is now 'de-licensed' and 'de-reserved', paving the way for expansion on modern lines with state-of-the-art machinery and equipment. De-reservation thus constituted a major aspect of the changed conceptualization of small scale thereby increasing the export potential of the industry as a whole.

The changing lifestyles coupled with the increasing affluence of consumers is likely to lead to enhanced demand in the domestic market and export demand is expected to grow in days to come due to improved quality and cost competitiveness. Abacus Computers Limited being an established player having object to carry on the business of industrial utilization of Technology products

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.
