EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item Nos. 4 & 5:

Mr. A. B. Vaidya and Lt. Gen (Retd.) K.S. Brar were appointed as Independent Directors of the Company on 28th July, 2004 and 30th September, 2008 respectively. Pursuant to the provisions of Sections 149 and 152 of the Companies Act, 2013 (‘the Act’) which became effective from 1st April, 2014, Mr. A. B. Vaidya and Lt. Gen (Retd.) K.S. Brar, were appointed as Independent Non-Executive Directors to hold office for five consecutive years for a term upto 31st March, 2019, by the Members of the Company in the 50th AGM held on 1st September, 2014.

As per provisions of Section 149(10) read with Schedule IV of the Act, an Independent Director shall hold office for a term of upto five consecutive years on the Board of a Company, however he shall be eligible for re-appointment by passing a special resolution for another term of upto five consecutive years on the Board of a company.

In line with the aforesaid provisions of the Act and in view of long, rich experience, continued valuable guidance to the management and strong Board performance of Mr. A. B. Vaidya and Lt. Gen (Retd.) K. S. Brar, it is proposed to re-appoint them for a second term as Independent Directors of the Company for a period of five years from 1st April, 2019 to 31st March, 2024.

Pursuant to the provisions of Section 160(1) of the Companies Act, 2013 the Company has received notices in writing from members of the Company signifying their candidature as director for a second term of five years.

Mr. A. B. Vaidya and Lt. Gen (Retd.) K. S. Brar have given their requisite declaration pursuant to Section 149(7) of the Companies Act, 2013, to the effect that they meet the criteria of independence as provided in Section 149(6) of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015 and in the opinion of the Board they fulfil the conditions specified under the Act, the Companies (Appointment and Qualification of Directors) Rules, 2014 and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for their re-appointment as Independent Non-Executive Directors of the Company and are independent of the management. Copies of the draft letters for re-appointment of Mr. A. B. Vaidya and Lt. Gen (Retd.) K. S. Brar as Independent Non-Executive Directors setting out terms and conditions would be available for inspection without any fee by the members at the Registered Office of the Company during normal business hours (9:00 am to 5:00 pm) on any working day, except Saturday, upto and including the date of AGM of the Company.

The Board considers that their continued association would be of immense benefit to the Company and it is desirable to continue to avail services of Mr. A. B. Vaidya and Lt. Gen (Retd.) K. S. Brar as Independent Directors. Accordingly, the Board recommends Special Resolutions as set out at item nos. 4 & 5.

Brief resumes of the Directors proposed to be reappointed as stipulated under the Regulation 36(3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Secretarial Standard – 2 ‘General Meeting’ are given in the annexure to the Notice. Mr. A. B. Vaidya and Lt. Gen (Retd.) K. S. Brar does not hold any shares in the Company.

Except Mr. A. B. Vaidya and Lt. Gen (Retd.) K. S. Brar, being appointees, none of the Directors and Key Managerial Personnel of the Company or their relatives are concerned or interested, financially or otherwise, in the resolutions set out at Item Nos. 4 and 5 of the accompanying Notice of the AGM.

Total Comprehensive Income/(Loss)	4,779.12	5,884.68	4,542.62	5,717.59

The Financial Statements have been prepared in accordance with the applicable Indian Accounting Standards ("IndAS") as prescribed under section 133 of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014.

2. OPERATIONAL PERFORMANCE

The Company achieved a total revenue of ₹ 20,335.95 Lakhs, representing a growth of 12% over the previous year. The manufacturing revenue increased by 14% from ₹ 14,043.45 Lakhs to ₹ 16,013.58 Lakhs. This was achieved despite challenging market condition in the first half of the year, with implementation of GST from 1st July, 2017. However the situation improved in the second half of the year.

Investment income during the year was also higher at ₹ 4,322.38 Lakhs, as against ₹ 4,118.92 Lakhs in the previous year. This was achieved with judicious deployment of funds in various asset classes, despite volatile interest rate conditions.

The gross profit of the Company was slightly lower at ₹ 3,723.55 Lakhs, as against ₹ 3,990.76 Lakhs. After considering interest of ₹ 30.82 Lakhs and depreciation of ₹ 863.52 Lakhs, Profit Before Tax was ₹ 2,829.21 Lakhs and net Profit After Tax was ₹ 2,537.36 Lakhs. Other Comprehensive Income (OCI) net of Tax was ₹ 2,241.76 Lakhs, as against ₹ 3,396.15 Lakhs. The total comprehensive income after tax during the year was

₹ 4,779.12 Lakhs, as against ₹ 5,884.68 Lakhs in the previous year.

The profitability was impacted mainly due to continuous cost pressures with commodity prices going-up. This impact could not be fully passed on to the customers because of competitive market conditions and fixed rate contracts with the Railway and other customers.

The Indian Automotive Industry posted a healthy growth with most segments reporting double digit increase in sales. While Passenger Vehicles grew at 7.89%, other segments including Commercial Vehicles, 2/3 Wheelers, Tractors have grown in double digits and their sales hit a new record during the year. Ban on over-loading, market shift to higher tonnage vehicles and a positive effect of GST also boosted the commercial vehicle sales.

The forecast from Industry body SIAM expects Passenger Vehicle Sales to grow at a high single digit rate in 2018-19, while Commercial Vehicle are likely to grow at low double digits.

Although, economic scenario appears positive, there are concerns relating to increase in international prices of Crude and other commodity prices, resulting inflationary pressure

in the Company's raw material cost. Challenging and competitive market conditions may prevent the Company from passing on the entire burden of cost increase to its customers. However, company will continue to emphasis on improvement in operational efficiencies, higher productivity with prudent cost control measures.

The Company's Railway business has shown slight increase in Sales, but price realisation remain low due to highly competitive conditions on account of many approved manufacturers with surplus capacity. With continuous pressure on price realisation, coupled with increase in manufacturing costs, the Company expects this segment to remain under stress.

In the Investment segment, the situation is likely to remain challenging with fluctuation in Interest rates, volatile stock market and fear of Bank NPA's. The Company will continue to maintain its conservative approach towards deployment of its funds, keeping capital protection in focus.

The Company participated in Aftermarket Auto-Expo 2018 at Guwahati in December, 2017, the Auto-Expo show at Pragati Maidan, New Delhi in February, 2018 and 10th Indonesia International Auto Parts, Accessories and Equipment Exhibition 2018 at Jakarta in March 2018. The response from Domestic and International customers was encouraging. The Company continues to carry-out several sales promotion initiatives, including Retailer Meet, Garage Campaigning and Road Shows, both in India and Overseas to improve its market position.

The Company entered into a long-term settlement with workmen at its Bhandara Plant for a period of 3 years, effective from August, 2017.

During the year the Company entered into a long-term Technical Assistance Agreement with TBK Co. Ltd., headquartered in Tokyo, Japan and having a largest shareholding of ISUZU Motors Ltd., to obtain Technical Assistance for manufacture of Commercial Vehicle Brake Friction Materials in India.

This association with TBK Co. Ltd., will help us to bring innovative technology for Brake Lining and Disc Brake Pad for Commercial Vehicles in India.

The working of Company's Joint Venture viz. Compo-Advics (India) Pvt. Ltd. was lower than the plan, mainly due to highly competitive market condition.

Based on the above positive scenario, the Company remains optimistic for the increase in demand of its products. Accordingly, the Company has geared to meet the

demand through continuous investment in capacity expansion, introduction of new products and improvement in quality.

There was no change in the nature of business of the Company during the year under review. Similarly, there have been no material changes and commitments affecting the financial position of the Company between the end of the Company's financial year to which the financial statements relate and upto the date of this report.

3. SHARE CAPITAL OF THE COMPANY

During the year under review, the Company has obtained the shareholders' approval for the following matters through postal ballot process, the results of which were declared on 13th May, 2017:

- 1) Sub-division of existing 1 equity share having face value of ₹ 10 each fully paid-up into 2 equity shares having face value of ₹ 5 each;
- 2) Increase in Authorized Share Capital of the Company from ₹ 6 crore to ₹ 8 crore divided into 1.6 crore equity shares of ₹ 5 each and subsequent alteration of Capital Clause of Memorandum of Association to give effect to the sub-division of shares and increase in the authorized share capital; and
- 3) Issue of 49,23,000 bonus equity shares in proportion of 1:2 (i.e. 1 new bonus equity share of ₹ 5 each for every 2 equity shares of ₹ 5 each held) (Post split face value per equity share).

After giving effect to the above, the issued, subscribed and paid up share capital of your Company as on 31st March, 2018 was ₹ 7,38,45,000 (Rupees Seven Crore Thirty Eight Lakhs Forty Five Thousand only) divided into 1,47,69,000 equity shares of the face value of ₹ 5 (Rupees Five) each fully paid up.

4. DIVIDEND

Your Directors have recommended a dividend of ₹ 0.50 per share, being 10% of equity share capital for the year ended 31st March, 2018. The Corporate Dividend Tax of ₹ 15.03 Lakhs (previous year 15.03 Lakhs) will be payable on the total dividend amount of ₹ 73.85 Lakhs (previous year 73.85 Lakhs).

5. RESERVES

During the year under review 1,500.00 Lakhs (previous year 1,500.00 Lakhs) was transferred to the General Reserve.

6. SUBSIDIARY, JOINT VENTURES AND ASSOCIATE COMPANIES

Your Company has a Joint Venture Company namely "Compo Advics (India) Private Limited". The Company had no subsidiary or associate company during the year under review.

SECRETARIAL AUDIT REPORT****FOR THE FINANCIAL YEAR ENDED 31ST MARCH 2018**

[Pursuant to Section 204(1) of the Companies Act, 2013 and
Rule 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
Hindustan Composites Limited

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Hindustan Composites Limited** (hereinafter called 'the Company'). The Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluation of the corporate conducts / statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on **31st March, 2018** ('Audit Period') generally complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2018 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings (Not applicable to the Company during the Audit Period);
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - (i) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (ii) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (iii) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (Not applicable to the Company during the Audit Period);
 - (iv) Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - (v) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 (Not applicable to the Company during the Audit Period);
 - (vi) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (vii) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 (Not applicable to the Company during the Audit Period);
 - (viii) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 (Not applicable to the Company during the Audit Period); and
 - (ix) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
- (vi) As informed and certified by the management, there are no laws that are specifically applicable to the business activities carried on by the Company based on its section / industry.

I have also examined compliance with the applicable clause/regulations of the following:

- (i) Secretarial Standards (SS – 1 and SS – 2) issued by The Institute of Company Secretaries of India.

During the period under review the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, etc. mentioned above, except delay in filling of some e-forms with the Registrar of Companies.

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and

Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice are given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committees of the Board, as the case may be.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period:

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry structure and developments

Today, India is one of the largest growing economies in the world, recording healthy growth rate of over 7% on the back of consumption and increased public spending. This growth is expected to accelerate with a slew of ecosystem enablers such as Make in India, Skill India and Start-up India programs.

The Indian Automobile Industry demonstrated impressive growth despite the after-effects of demonetisation, challenges during transition to GST regime from July, 2017 and the shift to Bharat Stage IV emission norms (in case of two wheelers and commercial vehicles). The Indian Auto Industry ended the year on a positive note with almost every segment posting a decent growth. The debt markets remained volatile during the year although the equity markets performed well.

With an improving business economic system, stable macro-economic indicators and a liberal FDI regime, additional Foreign Capital in-flows have also provided impetus to the domestic demand.

2. Opportunities and threats

The global economy witnessed a positive trend due to better geo-political conditions, improvement in demand and increase in investments. Key emerging market, including Brazil, China and India also posted strong upward momentum.

The year 2017-18 was significant for the Indian economy with the introduction of key reforms of GST within a year of Demonetisation. This move towards “One Nation, One Market, One Tax” has provided a big boost towards economic inclusion of hitherto largely unorganised sectors in the country.

The threat continues to be of fast changing technology, process and global mergers and acquisitions. High volatility in both debt and equity markets are expected. Rising NPA's in banking sector remain an area of concern and could affect market sentiment.

3. Segment – wise or product-wise performance

The Company operates in two segments viz. composite products and investment. During the year under review, the revenue from composite products stood at ₹16013.58 Lakhs (previous F.Y. ₹ 14043.45 Lakhs) and from investment stood at ₹ 4,322.38 Lakhs (previous F.Y. ₹ 4,118.93 Lakhs). The net profit before tax from composite products was ₹ 813.03 Lakhs (previous F.Y. ₹ 873.16 Lakhs) and investment was ₹3383.49 Lakhs (previous F.Y. 3,321.06 Lakhs).

4. Outlook

With an upbeat outlook for both global and Indian economies, our Company foresees significant growth

potential for the Company. Order-book is expected to improve from the OEM & Aftermarket, Institutional and Export customers. To meet the increased demand, the Company continues to invest in the measures to upgrade technology, improvement in quality and cost rationalisation.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF HINDUSTAN COMPOSITES LIMITED

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of **HINDUSTAN COMPOSITES LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018 and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows, the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Standalone Ind AS Financial Statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act and relevant rules thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the Auditors' judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Ind AS, of the state of affairs (financial position) of the Company as at 31st March, 2018 and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Other Matters

Opening balances have been considered based on the audited financial statements issued by the other auditors whose un-qualified audit report dated 23rd May, 2017 have been furnished to us.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "**Annexure A**" a statement on the matters specified in paragraph 3 and 4 of the Order.

As required by Section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss (Including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Ind AS prescribed under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors as on 31st March, 2018 and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- (g) With respect to other matter to be included in the Auditor's Report in accordance with the Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements- Refer Note No. 30(b) to the standalone Ind AS financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

“ANNEXURE B”**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of HINDUSTAN COMPOSITES LIMITED (“the Company”) as of 31st March, 2018 in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditors’ judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has broadly, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

CORPORATE OVERVIEW:

Hindustan Composites Limited ("the Company") is a public limited company domiciled in India and is incorporated under the provision of the Companies Act applicable in India. Its shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) of India.

The registered office of the Company is located at Peninsula Business Park, A Tower, 8th Floor, Senapati Bapat Marg, Lower Parel, Mumbai 400 013 (Maharashtra).

The Company is engaged in the business of manufacturing and marketing of fibre based friction material, consisting of Brake Liners, Roll Lining, Brake Block, Clutch Facing etc and investment of its surplus fund.

A. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Preparation of Financial Statements:

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 ('the Act') read with rule 4 of the Companies (Indian Accounting standards) Rules, 2015 and amendment rules issued there after.

The financial statements of the Company are prepared on the accrual basis of accounting and historical cost convention except for the following material items that have been measured at fair value as required by the relevant Ind AS:

- i) Certain financial assets and liabilities are measured at Fair value (refer note no. 42 financial instruments)
- ii) Defined benefit employee plan (refer note no. 41)

All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

b) Uses of estimates and judgments:

The preparation of the financial statements requires the Management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results may differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Critical accounting judgements and key source of estimation uncertainty

The Company is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period, if the revision affects current and future periods.

(a) Depreciation / amortisation and useful lives of property plant and equipment / intangible assets

Property, plant and equipment / intangible assets are depreciated / amortised over their estimated useful lives, after taking into account its estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates. Depreciation on the fixed assets added / disposed off/ discarded during the year is provided on pro-rata basis with reference to the month of addition / disposal / discarding.

(b) Provisions and liabilities

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change. The amounts are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(c) Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognized in the financial statements.

(d) Measurement of defined benefit obligations

The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis. The assumptions used in determining the net interest cost/(income) for defined benefit plans include the discount rate. Any changes in these assumptions will impact the carrying amount of defined benefit obligations.

c) Property, plant and equipment and Intangible assets

Property, plant and equipment

Freehold land is carried at cost. All other items of property, plant and equipment are measured at historical cost less accumulated depreciation and impairment losses, if any. Costs include freight, import duties, non-refundable purchase taxes and other expenses directly attributable to the acquisition of the asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

The cost of property, plant and equipment which are not ready for their intended use before such date, are disclosed as capital work-in-progress.

The Company assesses at each Balance Sheet date whether there is any indication that any asset may be impaired. If any, such indication exists, the carrying value of such asset is reduced to its recoverable amount and the impairment loss is charged to profit and loss account. If at the balance Sheet date there is any deduction that a previously assessed impairment loss no longer exists, then such loss is reversed and the asset is restated to that effect.

Intangible assets

Technical Know How and Computer software are stated at cost, less accumulated amortisation and impairments, if any.

Depreciation/ amortisation methods, estimated useful lives and residual value

Depreciation is provided on a Straight Line Method, over

the estimated useful lives of assets. Leasehold land is amortised over period of lease. Leasehold improvements are amortised over the period of lease or estimated useful lives which ever is lower.

The company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II of the Companies Act, 2013 and management believe that useful lives of assets are same as those prescribed in Schedule II of the Companies Act, 2013.

The Company amortizes computer software with a useful life using the straight-line method over the period of 3 years from the date of acquisition.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

d) As a lessee

Operating Lease

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

e) Cash and Cash Equivalents

Cash and cash equivalents comprise cash in hand and deposits which are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value and have an original maturity of three months or less, including money market deposits, commercial paper and investments. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

f) Inventories

Inventories of Raw Materials, Work-in-Progress, Stores and Spares and Finished Goods are stated 'at cost or net realisable value, whichever is lower'. Cost comprise all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. The excise duty, whenever applicable in respect of closing inventory of finished goods is included as part of finished goods. Cost formula used is 'Weighted Average cost'. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the Company.

g) Financial Instruments

Financial assets - Initial recognition

Financial assets are recognised when the Company

becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss.

Subsequent measurement

Financial assets are subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both

- (a) the entity's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

(i) Measured at amortised cost

Financial assets are subsequently measured at amortised cost, if these financial assets are held within a business module whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Measured at fair value through other comprehensive income (FVTOCI):

Financial assets are measured at FVTOCI, if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

(iii) Measured at fair value through profit or loss (FVTPL):

Financial assets other than equity instrument are measured at FVTPL unless it is measured at amortised cost or at FVTOCI on initial recognition. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised in the Statement of Profit and Loss.

Equity instruments

The company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to the Statement of Profit and Loss. Dividends from such investments are recognised in the Statement of Profit and Loss as other income when the Company's right to receive payments is established.

Impairment

The Company assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortised cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables. The impairment losses and reversals are recognised in Statement of Profit and Loss.

De-recognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers rights to receive cash flows from an asset, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. On de-recognition of equity instruments measured at FVTOCI, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from other equity to retain earnings as a reclassification adjustment.

Financial Liabilities

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial liabilities are initially recognised at fair value net of transaction costs for all financial liabilities not carried at fair value through profit or loss.

Financial liabilities measured at amortised cost are subsequently measured at using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derivative financial instruments

Derivative financial instruments such as future contracts are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value with changes in fair value recognised in the Statement of Profit and Loss in the period when they arise.

h) Fair Value Measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ✓ In the principal market for the asset or liability, or
- ✓ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ✓ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ✓ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ✓ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

l) Borrowings

Borrowings are initially recognised at net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method.

j) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the period in which they are incurred.

k) Provisions and contingent liabilities

Provisions for legal claims, volume discounts and returns are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses. The carrying amounts of provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may

probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

l) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duties and net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties. The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity.

Sale of goods

Timing of recognition: Sales are recognised when substantial risk and rewards of ownership are transferred to customer. In case of domestic sales take place when goods are dispatched or delivery is handed over to customer's logistics. In case of export sales take place when goods are shipped on-board, based on bill of lading.

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Dividend income

Dividend income is recognised when the Company's right to receive the payment has been established.

m) Employee Benefits

The Company provides following post-employment plans: (i) Defined benefit plans such as gratuity and pension & (ii) Defined contribution plans such as Provident fund

a) Defined-benefit plan

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plan is the present value of defined benefit obligations at the end of the reporting period less fair value of the plan assets. The defined benefit obligations is calculated annually by actuaries using the projected unit credit method. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss: (a) Service costs comprising current service costs, past-service costs, gains and losses on curtailment and non-routine settlements; and (b) Net interest expense or income.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of the plan assets. This cost is included in employee benefit expenses in the statement of the profit & loss. Re-measurement

comprising of actuarial gains and losses arising from experience adjustment and changes in actuarial assumptions, the effect of asset excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) ceiling are recognised in the period in which they occur directly in Other comprehensive income. Re-measurement are not reclassified to profit or loss in subsequent periods.

b) Defined-contribution plan

Under defined contribution plans, provident fund, the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. These comprise of contributions to the employees' provident fund with the government, superannuation fund and certain state plans like Employees' State Insurance and Employees' Pension Scheme. The Company's payments to the defined contribution plans are recognised as expenses during the period in which the employees perform the services that the payment covers.

c) Other employee benefit

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the obligation as at the Balance sheet date based on an actuarial valuation.

n) Foreign Currency Transaction

The financial statements are presented in Indian rupee (INR), which is company's functional and presentation currency. Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss as other income / miscellaneous expenses. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined.

o) Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in Statement of Profit and Loss except when they relate to items that are recognised in other comprehensive income or directly in equity, in such case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as

determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred income tax is recognised using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised only to the extent that it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of a deferred tax asset shall be reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled. Deferred tax assets and liabilities are off set when there is a legally enforceable right to off set current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Minimum Alternative Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income-tax during the specified period.

p) Segment Reporting

The Company has identified its Managing Director as the Chief Operating Decision Maker. Operating segments are reported in a manner consistent with the internal reporting provided to managing director of the Company. The Managing Director evaluates the Company's performance and allocates resources as a whole.

q) Research and Development

Research costs are expensed as incurred. Product development costs are expensed as incurred unless

technical and commercial feasibility of the project is demonstrated, further economic benefits are probable, the Company has an intention and ability to complete and use or sell the product and the costs can be measured reliably.

r) Earnings Per Share

Basic EPS is arrived at based on net profit or (loss) after taxation available to equity shareholders to the weighted average number of equity shares outstanding during the year. The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares unless impact is anti-dilutive.

s) New standards and interpretations not yet adopted

Ind AS 115 Revenue from Contracts with Customers

Ind AS 115, Revenue from Contracts with Customers was initially notified under the Companies (Indian Accounting Standards) Rules, 2015. The standard applies to contracts with customers. The core principle of the new standard is that an entity should recognize revenue to depict transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, timing and uncertainty of revenues and cash flows arising from the entity's contracts with customers. The new standard offers a range of transition options. An entity can choose to apply the new standard to its historical transactions - and retrospectively adjust each comparative period. Alternatively, an entity can recognize the cumulative effect of applying the new standard at the date of initial application and make no adjustments to its comparative information. The chosen transition option can have a significant effect on revenue trends in the financial statements. A change in the timing of revenue recognition may require a corresponding change in the timing of recognition of related costs.

t) Amendment to Ind AS 21, Foreign currency transactions and advance consideration

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 effective from April 1, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

The above standard is applicable from 1st April 2018 i.e. Financial Year 2018-19 and not expected to have any significant impact on the Company's Financial Statements.

NOTES OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

Risk exposure: Through its defined benefit plans, Company is exposed to a number of risks, the most significant of which are detailed below:

Investment risk: The present value of the defined benefit plan liability is calculated using discount rate determined by reference to market yields at the end of reporting period on government bond yields.

Interest risk: -A decrease in the bond interest will increase in plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk: The present value of the defined benefit plan liability is calculated by reference to best estimate of the mortality of plan participants both during and at the end of employment. An increase in the life expectancy of the plan participants will increase the plan liability.

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such an increase in salary of the plan participants will increase the plan liability.

44 Risk Management
Financial risk management objective and policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Managing Board. The risk management policies aims to mitigate the following risk arising from the financial instruments: (a) Market risk; (b) Liquidity risk and (c) Credit risk.

A. Financial risk factors

The Company's principal financial liabilities comprise borrowings, deposits and trade and other payables. The purpose of these financial liabilities is to finance the Company's operations and to provide support to its operations. The Company's principal financial assets include Investments, loans, trade and other receivables and cash and cash equivalents that derive directly from its operations.

The Company is exposed to the following risk arising from the financial instruments: (a) Market risk; (b) Liquidity risk and (c) Credit risk.

Risk	Exposure arising from	Measurement	Management
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities; working capital management
Credit risk	Cash and cash equivalents, trade receivables, Investments, loans and other financial assets measured at fair /amortised cost.	Ageing analysis/ Credit ratings	Diversification in various class of assets, credit limits and letters of credit
Market Risk - Foreign exchange	Financial assets and liabilities denominated in INR	Cash flow forecasting Sensitivity analysis	Hedging Forex planning
Market Risk - Interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Interest rate swaps
Market Risk - Price risk	Investments in Equities, Bonds, debentures, funds	Sensitivity analysis; market fluctuations; credit rating	Continuous monitoring, Diversification

(a) Liquidity risk

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk management implies maintain sufficient cash including availability of funding through an adequate amount of committed credit facilities to meet the obligations as and when due.

The Company manages its liquidity risk by ensuring as far as possible that it will have sufficient liquidity to meet its short term and long term liabilities as and when due. Anticipated future cash flows, undrawn committed credit facilities are expected to be sufficient to meet the liquidity requirements of the Company.

(i) Financing arrangements

The Company has access to the following undrawn borrowing facilities as at the end of the reporting period:

(₹ in Lakhs)

Particulars	As at 31st March, 2018	As at 31st March, 2017
Secured working capital credit facility from Banks	250.43	1,349.24

Other financial liabilities	142.51	142.51	-	142.51	-	-

(b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk includes investment, deposits, foreign currency receivables and payables. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. The Company's treasury team manages the Market risk, which evaluates and exercises independent control over the entire process of market risk management.

(i) Foreign currency risk

Foreign currency risk can only arise on financial instruments that are denominated in a currency other than the functional currency in which they are measured. The Company's functional and presentation currency is INR. The Company does have transactions in currency other than functional currency i.e. in US Dollar (USD) for purchase of raw materials from overseas supplier. However, those are not very significant considering the nature and size of the operations of the Company.

Foreign Currency Exposure

(₹ in Lakhs)

Particulars	As at 31 st March, 2018		As at 31 st March, 2017	
	USD	EURO	USD	EURO
Trade payable	2.12	-	0.38	-
Buyers Credit	0.45	-	1.15	-
Advance from Customer	0.28	-	0.08	0.05
Trade Receivable	2.92	-	2.00	-
Advance to suppliers	0.96	-	0.28	-
Net Exposure - [Receivable/(Payable)]	1.03	-	0.67	(0.05)

The company's exposure to the foreign currency risk is not significant considering the nature and size of the operations.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The Company's Long term borrowings have fixed rate of interest and carried at amortized costs and short term borrowings have variable rate of interest. The Company also has significant investments in Bonds i.e. Government securities; Debentures; Preference shares, Debt and other funds. These investments are subject to the Market risk - Interest rate risk.

BSE Sensex - Decrease 5% -Gain/(loss)	(1,296.70)	(1,046.84)

(c) Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assess financial reliability of counter party, taking into account the financial condition, current economic trends and analysis of historical bad debts and ageing of accounts receivable. The Company considers the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risks on an ongoing basis throughout each reporting period.

To assess whether there is a significant change increase in credit risk the Company compares the risks of default occurring on the assets as at the reporting date with the risk of default as at the date of initial recognition. It considers the reasonable and supportive forward looking information such as:

- Actual or expected significant adverse changes in business.
- Actual or expected significant changes in the operating results of the counterparty.
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations
- Significant increase in credit risk on other financial instruments of same counterparty

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") In conjunction with our audit of the Consolidated Financial Statements of the Company for the year ended March 31st, 2018, we have audited the internal financial controls over financial reporting of Hindustan Composites Limited ("the Parent Company") and a jointly controlled entity.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent Company and a joint venture incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting includes obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group has broadly, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2018, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

CORPORATE OVERVIEW

The consolidated financial statements comprise financial statements of Hindustan Composites Limited (the Group) is a public limited Company and its joint venture, namely Compo Advics (India) Pvt. Ltd., (collectively referred to as "the Group") for the year ended 31 March 2018. The groups share in the Joint Venture is 49%.

Hindustan Composites Limited ("the Group") is a public limited company domiciled in India and is incorporated under the provision of the Companies Act applicable in India. Its shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) of India.

The registered office of the Group is located at Peninsula Business Park, A Tower, 8th Floor, Senapati Bapat Marg, Lower Parel, Mumbai 400 013.

The Group is engaged in the business of manufacturing and marketing of fibre based friction material, consisting of Brake Liners, Roll Lining, Brake Block, Clutch Facing, Disc Brakes Pads etc and investment of its surplus fund.

A. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Preparation of Financial Statements

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 ('the Act') read with rule 4 of the Companies (Indian Accounting standards) Rules, 2015 and amendment rules issued there after.

The consolidated financial statements of the Group are prepared on the accrual basis of accounting and Historical cost convention except for the following material items that have been measured at fair value as required by the relevant Ind AS:

- i) Certain financial assets and liabilities are measured at Fair value (refer note no. 40 financial instruments)
- ii) Defined benefit employee plan (refer note no. 39)

All assets and liabilities have been classified as current or non current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities

b) Uses of estimates and judgments

The preparation of the financial statements requires the Management to make, judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the consolidated financial statements are continuously evaluated by the Group and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Group believes to be reasonable under the existing circumstances. Actual results may differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Critical accounting judgements and key source of estimation uncertainty

The Group is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period, if the revision affects current and future periods.

(a) Depreciation / amortisation and useful lives of property plant and equipment / intangible assets

Property, plant and equipment / intangible assets are depreciated / amortised over their estimated useful lives, after taking into account its estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Group's historical experience with similar assets and take into account anticipated technological changes. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates. Depreciation on the fixed assets added / disposed off/ discarded during the year is provided on pro-rata basis with reference to the month of addition / disposal / discarding.

(b) Provisions and liabilities

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change. The amounts are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(c) Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognized in the financial statements.

(d) Measurement of defined benefit obligations

The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis. The assumptions used in determining the net interest cost/(income) for defined benefit plans include the discount rate. Any changes in these assumptions will impact the carrying amount of defined benefit obligations.

c) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Group and its joint venture as at 31 March 2017.

Investment in joint venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting.

Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an

associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised directly in equity as capital reserve in the period in which the investment is acquired.

After application of the equity method of accounting, the Group determines whether there is any objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the net investment in an associate or a joint venture and that event (or events) has an impact on the estimated future cash flows from the net investment that can be reliably estimated. If there exists such an objective evidence of impairment, then it is necessary to recognise impairment loss with respect to the Group's investment in an associate or a joint venture.

Distributions received from an associate or a joint venture reduce the carrying amount of the investment. Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transactions provides evidence of an impairment of the assets transferred.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

d) Property, plant and equipment and Intangible assets
Property, plant and equipment

Freehold land is carried at cost. All other items of

property, plant and equipment are measured at historical cost less accumulated depreciation and impairment losses, if any. Costs include freight, import duties, non-refundable purchase taxes and other expenses directly attributable to the acquisition of the asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

The cost of property, plant and equipment which are not ready for their intended use before such date, are disclosed as capital work-in-progress.

The Company assesses at each Balance Sheet date whether there is any indication that any asset may be impaired. If any, such indication exists, the carrying value of such asset is reduced to its recoverable amount and the impairment loss is charged to profit and loss account. If at the balance Sheet date there is any deduction that a previously assessed impairment loss no longer exists, then such loss is reversed and the asset is restated to that effect.

The Company assesses at each Balance Sheet date whether there is any indication that any asset may be impaired. If any, such indication exists, the carrying value of such asset is reduced to its recoverable amount and the impairment loss is charged to profit and loss account. If at the balance Sheet date there is any deduction that a previously assessed impairment loss no longer exists, then such loss is reversed and the asset is restated to that effect.

Intangible assets

Technical Know How and Computer software are stated at cost, less accumulated amortisation and impairments, if any.

Depreciation/ amortisation methods, estimated useful lives and residual value

Depreciation is provided on a Straight Line Method, over the estimated useful lives of assets. Leasehold land is amortised over period of lease. Leasehold improvements are amortised over the period of lease or estimated useful lives which ever is lower.

The Group depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II of the Companies Act, 2013 and management believe that useful lives of assets are

same as those prescribed in Schedule II of the Companies Act, 2013.

The Group amortizes computer software with a useful life using the straight-line method over the period of 3 years from the date of acquisition.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

e) As a lessee

Operating Lease

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

f) Cash and Cash Equivalents

Cash and cash equivalents comprise cash in hand and deposits which are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value and have an original maturity of three months or less, including money market deposits, commercial paper and investments. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

g) Inventories

Inventories of Raw Materials, Work-in-Progress, Stores and spares and Finished Goods are stated 'at cost or net realisable value, whichever is lower'. Cost comprise all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. The excise duty in respect of closing inventory of finished goods is included as part of finished goods. Cost formula used is 'Weighted Average cost'. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the Group.

h) Financial Instruments

Financial assets - Initial recognition Financial assets are recognised when the Group becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss.

Subsequent measurement Financial assets are subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both (a) the entity's business model for managing the financial assets and (b) the contractual cash flow characteristics of the financial asset.

- (i) **Measured at amortised cost:** Financial assets are subsequently measured at amortised cost, if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (ii) **Measured at fair value through other comprehensive income (FVTOCI):** Financial assets are measured at FVTOCI, if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.
- (iii) **Measured at fair value through profit or loss (FVTPL):** Financial assets other than equity instrument are measured at FVTPL unless it is measured at amortised cost or at FVTOCI on initial recognition. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised in the Statement of Profit and Loss.

Equity instruments: The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to the Statement of Profit and Loss. Dividends from such investments are recognised in the Statement of Profit and Loss as other income when the Group's right to receive payments is established.

Impairment : The Company assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortised cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables. The impairment losses and reversals are recognised in Statement of Profit and Loss.

De-recognition: The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers rights to receive cash flows from an asset, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Financial Liabilities : Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments. Financial liabilities are initially recognised at fair value net of transaction costs for all financial liabilities not carried at fair value through profit or loss.

Financial liabilities measured at amortised cost are subsequently measured at using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

De-recognition : A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Derivative financial instruments

Derivative financial instruments such as future contracts are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value with changes in fair value recognised in the Statement of Profit and Loss in the period when they arise.

i) Fair Value Measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ✓ In the principal market for the asset or liability, or
- ✓ In the absence of a principal market, in the most advantageous market for the asset or liability

principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ✓ Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ✓ Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ✓ Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable. For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

j) Borrowings

Borrowings are initially recognised at net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Consolidated Statement of Profit and Loss over the period of the borrowings using the effective interest method.

k) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Other borrowing costs are expensed in the period in which they are incurred.

l) Provisions and contingent liabilities

Provisions for legal claims, volume discounts and returns are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses. The carrying amounts of provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

m) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duties and net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties. The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity.

Sale of goods -

Timing of recognition: Sales are recognised when substantial risk and rewards of ownership are transferred to customer. In case of domestic sales take place when goods are dispatched or delivery is handed over to customer's logistics. In case of export sales take place when goods are shipped on-board, based on bill of lading.

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably.

Dividend income

Dividend income is recognised when the Group's right to receive the payment has been established.

n) Employee Benefits

The Group provides following post-employment plans: (i) Defined benefit plans such as gratuity and pension & (ii) Defined contribution plans such as Provident fund"

a) Defined-benefit plan:

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plan is the present value of defined benefit obligations at the end of the reporting period less fair value of the plan assets. The defined benefit obligations is calculated annually by actuaries using the projected unit credit method. The Group recognises the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss: (a) Service costs comprising current service costs, past-service costs, gains and losses on curtailment and non-routine settlements; and (b) Net interest expense or income.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of the plan assets. This cost is included in employee benefit expenses in the consolidated statement of the profit & loss. Re-measurement comprising of actuarial gains and losses arising from experience adjustment and changes in actuarial assumptions, the effect of asset excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) ceiling are recognised in the period in which they occur directly in Other comprehensive income. Re-measurement are not reclassified to profit or loss in subsequent periods.

b) Defined-contribution plan

Under defined contribution plans, provident fund, the Group pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. These comprise of contributions to the employees' provident fund with the government, superannuation fund and certain state plans like Employees' State Insurance and Employees' Pension Scheme. The Group's payments to the defined contribution plans are recognised as expenses during the period in which the employees perform the services that the payment covers.

c) Other employee benefit

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the obligation as at the Balance sheet date based on an actuarial valuation.

o) Foreign Currency Transaction

The consolidated financial statements are presented in Indian rupee (INR), which is Group's functional and presentation currency. Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined.

p) Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in Statement of Profit and Loss except when they relate to items that are recognised in other comprehensive income or directly in equity, in such case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred income tax is recognised using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial

recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised only to the extent that it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of a deferred tax asset shall be reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets and liabilities are off set when there is a legally enforceable right to off set current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Minimum Alternative Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the Group will pay normal income-tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Group will pay normal income-tax during the specified period.

q) Segment Reporting

The Group has identified its Managing Director as the Chief Operating Decision Maker. Operating segments are reported in a manner consistent with the internal reporting provided to managing director of the Group. The Managing Director evaluates the Group's performance and allocates resources as a whole.

r) Research and Development

Research costs are expensed as incurred. Product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, further economic benefits are probable, the Group has an intention and ability to complete and use or sell the product and the costs can be measured reliably.

s) Earnings Per Share

Basic EPS is arrived at based on net profit or (loss) after taxation available to equity shareholders to the weighted average number of equity shares outstanding during the year. The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares unless impact is anti-dilutive.

t) New standards and interpretations not yet adopted Ind AS 115 Revenue from Contracts with Customers

Ind AS 115, Revenue from Contracts with Customers was initially notified under the Companies (Indian Accounting Standards) Rules, 2015. The standard applies to contracts with customers. The core principle of the new standard is that an entity should recognize revenue to depict transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, timing and uncertainty of revenues and cash flows arising from the entity's contracts with customers. The new standard offers a range of transition options. An entity can choose to apply the new standard to its historical transactions - and retrospectively adjust each comparative period. Alternatively, an entity can recognize the cumulative effect of applying the new standard at the date of initial application and make no adjustments to its comparative information. The chosen transition option can have a significant effect on revenue trends in the financial statements. A change in the timing of revenue recognition may require a corresponding change in the timing of recognition of related costs.

u) Amendment to Ind AS 21, Foreign currency transactions and advance consideration

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 effective from April 1, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

The above standard is applicable from 1st April 2018 i.e. Financial Year 2018-19 and not expected to have any significant impact on the Company's Financial Statements.

B. Nature and purpose of reserves

- Capital Redemption Reserve:** The Company has recognised Capital Redemption Reserve on buyback of equity shares from its General Reserve. The amount in Capital Redemption Reserve is equal to nominal amount of the equity shares bought back.
- General Reserve:** The Company has transferred a portion of the net profit of the Company before declaring dividend to general reserve pursuant to the earlier provisions of Companies Act, 1956. Mandatory transfer to general reserve is not required under the Companies Act, 2013.
- Retained Earnings:** Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.
- Debt Instruments through Other Comprehensive Income:** The fair value change of the debt instruments measured at fair value through other comprehensive income is recognised in Debt instruments through Other Comprehensive Income. Upon derecognition, the cumulative fair value changes on the said instruments are reclassified to the Statement of Profit and Loss
- Equity instruments through other comprehensive income:** This represents the cumulative gains and losses arising on fair valuation of equity instruments measured at fair value through other comprehensive income and subsequently not reclassified to the Statement of Profit and Loss.
- Remeasurements of Net Defined Benefit Plans:** Differences between the interest income on plan assets and the return actually achieved, and any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised in 'Other comprehensive income' and subsequently not reclassified to the Statement of Profit and Loss.
